

**NOT FOR DISTRIBUTION, DIRECTLY OR INDIRECTLY,
IN OR INTO THE UNITED STATES**

IMPORTANT: You must read the following disclaimer before continuing. The following disclaimer applies to the attached offering circular (the “**Offering Circular**”). You are advised to read this disclaimer carefully before accessing, reading or making any other use of the attached Offering Circular. In accessing the attached Offering Circular, you agree to be bound by the following terms and conditions, including any modifications to them from time to time, each time you receive any information from PT Bank Mandiri (Persero) Tbk (the “**Issuer**” or the “**Bank**”) as a result of such access.

Confirmation of Your Representation: You have accessed the attached document on the basis that you have confirmed your representation to The Hongkong and Shanghai Banking Corporation Limited, J.P. Morgan Securities plc, Mandiri Securities Pte. Ltd. and MUFG Securities Asia Limited Singapore Branch (together the “**Arrangers**” and the “**Dealers**”), and the Bank that: (1) you are outside the United States, the electronic mail address that you gave us and to which this electronic mail has been delivered, is not located in the United States and, to the extent you purchase the securities described in the attached Offering Circular, you will be doing so pursuant to Regulation S under the United States Securities Act of 1933, as amended (the “**Securities Act**”); and (2) that you consent to delivery of the attached Offering Circular and any amendments or supplements thereto by electronic transmission.

The attached document has been made available to you in electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of transmission and consequently neither the Bank, the Arrangers and Dealers, any future Dealer, the Trustee and any Agent (each as defined in the Offering Circular) nor any of their respective employees, representatives or affiliates accepts any liability or responsibility whatsoever in respect of any discrepancies between the document distributed to you in electronic format and the hard copy version available on request.

Restrictions: The attached document is being furnished in connection with an offering exempt from registration under the Securities Act solely for the purpose of enabling a prospective investor to consider the purchase of the notes described therein.

Nothing in this electronic transmission constitutes an offer or an invitation to subscribe for or purchase any of the securities described herein in the United States or any other jurisdiction. Any securities to be issued have not been and will not be registered under the Securities Act and, subject to certain exceptions, may not be offered or sold within the United States. Accordingly, the attached Offering Circular may not be circulated, distributed, forwarded, delivered or redistributed, electronically or otherwise, to persons within the United States, and may not be relied upon as a basis for an investment decision or for any other purpose by any person within the United States.

You are reminded that you have accessed the attached Offering Circular on the basis that you are a person into whose possession this Offering Circular may be lawfully delivered in accordance with the laws of the jurisdiction in which you are located and you may not nor are you authorised to deliver this document, electronically or otherwise, to any other person. If you have gained access to this transmission contrary to the foregoing restrictions, you will be unable to purchase any of the securities described therein.

Actions that You May Not Take: If you receive this document by e-mail, you should not reply by e-mail to this announcement, and you may not purchase any notes by doing so. Any reply e-mail communications, including those you generate by using the “Reply” function on your e-mail software, will be ignored or rejected.

YOU ARE NOT AUTHORISED AND YOU MAY NOT FORWARD OR DELIVER THE ATTACHED OFFERING CIRCULAR, ELECTRONICALLY OR OTHERWISE, TO ANY OTHER PERSON OR REPRODUCE SUCH OFFERING CIRCULAR IN ANY MANNER WHATSOEVER. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THE ATTACHED OFFERING CIRCULAR IN WHOLE OR IN PART IS UNAUTHORISED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS.

You are responsible for protecting against viruses and other destructive items. If you receive this document by e-mail, your use of this e-mail is at your own risk and it is your responsibility to take precautions to ensure that it is free from viruses and other items of a destructive nature.

OFFERING CIRCULAR

PT Bank Mandiri (Persero) Tbk

(established with limited liability in the Republic of Indonesia)

US\$4,000,000,000

Euro Medium Term Note Programme

On 29 March 2019, PT Bank Mandiri (Persero) Tbk (the “**Issuer**” or the “**Bank**”) established a US\$2,000,000,000 euro medium term note programme (as amended, supplemented or restated, the “**Programme**”). On 27 March 2023, the programme limit was increased from US\$2,000,000,000 to US\$4,000,000,000. This offering circular (the “**Offering Circular**”) updates the Programme and supersedes any previous offering circular describing the Programme. Any Notes (as defined below) issued under the Programme on or after the date of this Offering Circular are issued subject to the provisions described herein. This does not affect any Notes issued before the date of this Offering Circular.

Under this Programme, the Bank may, from time to time, issue notes (the “**Notes**”) denominated in any currency agreed between the Bank and the relevant Dealer (as defined below).

Notes may be issued in bearer or registered form (respectively “**Bearer Notes**” and “**Registered Notes**”). The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed US\$4,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described herein.

The Notes may be issued on a continuing basis to one or more of the Dealers specified under “*Overview of the Programme*” and any additional Dealer appointed under the Programme from time to time by the Bank (each a “**Dealer**” and together, the “**Dealers**”), which appointment may be for a specific issue or on an ongoing basis. References in this Offering Circular to the “**relevant Dealer**” shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see “*Risk Factors*”.

Application has been made to the Singapore Exchange Securities Trading Limited (the “**SGX-ST**”) for permission to deal in, and for the listing and quotation of any Notes to be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof to be so listed on the SGX-ST. Such permission will be granted when such Notes have been admitted to the Official List of the SGX-ST. The SGX-ST assumes no responsibility for the correctness of any of the statements made or opinions expressed or reports contained herein. Admission to the Official List of the SGX-ST and quotation of any Notes on the SGX-ST are not to be taken as an indication of the merits of the Bank, the Programme or the Notes. There is no assurance that the application to the Official List of the SGX-ST for the listing of the Notes of any Series (as defined in “*Terms and Conditions of the Notes*”) will be approved.

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the Bank and the relevant Dealer. The Bank may also issue unlisted Notes and/or Notes not admitted to trading on any market. The relevant Pricing Supplement (as defined below) in respect of any Series (as defined in “*Terms and Conditions of the Notes*”) will specify whether or not such Notes will be listed and, if so, on which exchange(s) the Notes are to be listed.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions not contained herein which are applicable to each Tranche (as defined under “*Terms and Conditions of the Notes*”) of Notes will be set out in a pricing supplement (the “**Pricing Supplement**”) which, with respect to Notes to be listed on the SGX-ST will be delivered to the SGX-ST on or before the listing of Notes of such Tranche.

The Notes have not been and will not be registered under the US Securities Act of 1933, as amended (the “**Securities Act**”) or any US state securities laws and may not be offered or sold in the United States unless an exemption from the registration requirements of the Securities Act is available and in accordance with all applicable securities laws of any state of the United States and any other jurisdiction. See “*Form of the Notes*” for a description of the manner in which Notes will be issued. Registered Notes are subject to certain restrictions on transfer, see “*Subscription and Sale*”.

The Notes may not be offered or sold in Indonesia or to Indonesian citizens or corporations, wherever they are domiciled or located, or to Indonesian residents, in a manner which constitutes a public offer (whether through a public offering or private placement) under Law No. 8 of 1995 on Capital Markets (as amended, “**Law 8/1995**”) or a private placement as regulated under the Indonesian Financial Services Authority (*Otoritas Jasa Keuangan* or the “**OJK**”) Regulation No. 30/POJK.04/2019 on Issuance of Debt Securities and/or Sukuk without Public Offering (“**OJK Regulation No. 30/2019**”).

Notes issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating will be disclosed in the Pricing Supplement and will not necessarily be the same as the rating assigned to the Programme by the relevant rating agency. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

The Bank and any relevant Dealer may agree that Notes shall be issued in a form other than that contemplated in the Terms and Conditions (the “**Conditions**”), in which event, if appropriate, a new offering circular or a supplement to the Offering Circular will be made available.

Arrangers and Dealers

HSBC
Mandiri Securities

J.P. Morgan
MUFG

The date of this Offering Circular is 14 March 2025.

IMPORTANT INFORMATION

The Bank accepts responsibility for the information contained in this Offering Circular. To the best of the knowledge of the Bank (having taken all reasonable care to ensure that such is the case) the information contained in this Offering Circular is in accordance with the facts and does not omit anything likely to affect the import of such information.

This Offering Circular has been prepared by the Bank for use in connection with the offer and sale of Notes outside the United States. The Bank and the Dealers reserve the right to reject any offer to purchase Notes, in whole or in part, for any reason. This Offering Circular does not constitute an offer to any person in the United States.

Subject as provided in the applicable Pricing Supplement, the only persons authorised to use this Offering Circular in connection with an offer of Notes are the persons named in the applicable Pricing Supplement as the relevant Dealer or the Managers, as the case may be. Copies of the Pricing Supplement will be available at the Bank's registered office and the specified office set out below of each of the Paying Agents (as defined in the Conditions).

This Offering Circular is to be read in conjunction with all documents which are deemed to be incorporated in it by reference (see "*Documents Incorporated by Reference*"). This Offering Circular shall be read and construed on the basis that those documents are incorporated and form part of this Offering Circular.

The Hongkong and Shanghai Banking Corporation Limited, J.P. Morgan Securities plc, Mandiri Securities Pte. Ltd. and MUFG Securities Asia Limited Singapore Branch (the "Arrangers" and the "Dealers"), the Trustee (as defined below) and the Agents (as defined in the Conditions) have not independently verified all of the information contained or incorporated by reference herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Arrangers, the Dealers, the Trustee, the Agents or their respective affiliates, officers, employees, agents, representatives, directors or advisors as to the accuracy or completeness of the information contained or incorporated in this Offering Circular or any other information provided by the Bank in connection with the Programme. The Arrangers, the Dealers, the Trustee, the Agents and their respective affiliates, officers, employees, agents, representatives, directors or advisors do not accept any liability in relation to the information contained or incorporated by reference in this Offering Circular or any other information provided by the Bank in connection with the Programme.

To the fullest extent permitted by law, none of the Arrangers, the Dealers, the Trustee, the Agents or any of their respective affiliates, officers, employees, agents, representatives, directors or advisors accepts any responsibility for the contents of this Offering Circular or any statement made or purported to be made by the Arrangers, the Dealers, the Trustee, the Agents or any of their respective affiliates, officers, employees, agents, representatives, directors or advisors or any of their behalf in connection with the Bank or the issue and offering of Notes. Each of the Arrangers, the Dealers, the Trustee, the Agents and their respective affiliates, officers, employees, agents, representatives, directors and advisors accordingly disclaims all and any liability whether arising in tort or contract or otherwise which it might otherwise have in respect of this Offering Circular or any such statement. None of the Arrangers, the Dealers, the Trustee, the Agents or any of their respective affiliates, officers, employees, agents, representatives, directors or advisors undertakes to review the financial condition or affairs of the Bank so long as Notes remain outstanding nor to advise any investor or potential investor of Notes of any information coming to the attention of any of the Arrangers, the Dealers, the Trustee, the Agents or their respective affiliates or advisors. Investors should review, *inter alia*, the most recently published documents incorporated by reference into this Offering Circular when deciding whether or not to purchase any Notes.

No person is or has been authorised by the Bank to give any information or to make any representation not contained in or not consistent with this Offering Circular or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Bank, any of the Arrangers, any of the Dealers, the Trustee, or any of the Agents or any of their respective affiliates.

Neither this Offering Circular nor any other information supplied in connection with the Programme or any Notes (a) is intended to provide the basis of any credit or other evaluation or (b) should be considered as a recommendation by the Bank, any of the Arrangers, any of the Dealers, the Trustee, any of the Agents or any of their respective affiliates that any recipient of this Offering Circular or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Bank. Neither this Offering Circular nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of the Bank, any of the Arrangers, any of the Dealers, the Trustee, any of the Agents or any of their respective affiliates to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Offering Circular nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained in it concerning the Bank is correct at any time subsequent to its date, that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same, or that there has been no change in the affairs of the Bank since the date hereof or the date upon which this Offering Circular has been most recently amended or supplemented or that there has been no adverse change in the financial position of the Bank since the date hereof or the date upon which this Offering Circular has been most recently amended or supplemented. The Arrangers, the Dealers, the Trustee, the Agents and their respective affiliates expressly do not undertake to review the financial condition or affairs of the Bank during the life of the Programme or to advise any investor in Notes issued under the Programme of any information coming to their attention.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS OFFERING CIRCULAR AND OFFERS OF NOTES GENERALLY

This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Offering Circular and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Bank, the Arrangers, the Dealers, the Trustee, the Agents and any of their respective affiliates do not represent that this Offering Circular may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Bank, the Arrangers, the Dealers, the Trustee, the Agents or any of their respective affiliates which is intended to permit a public offering of any Notes or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Offering Circular or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes in the United States, the European Economic Area (the “**EEA**”), the United Kingdom, Japan, Hong Kong, Singapore, Indonesia and the People’s Republic of China (the “**PRC**”), see “*Subscription and Sale*”.

If a jurisdiction requires that the offering be made by a licenced broker or dealer and the Dealers or any affiliate of the Dealers is a licenced broker or dealer in that jurisdiction, the offering shall be deemed to be made by that Dealer or its affiliate on behalf of the Bank in such jurisdiction.

IMPORTANT – NOTES ISSUED AS GSS BONDS

None of the Bank, the Arrangers and the Dealers accepts any responsibility for any social, environmental and sustainability assessment of any Notes issued as Green, Social and/or Sustainability bonds (“**GSS Bonds**”) or makes or gives any representation or warranty or assurance whether such Notes will meet any investor expectations or requirements regarding such “green”, “sustainable”, “social” or similar labels. None of the Arrangers and the Dealers is responsible for the use of proceeds for any Notes issued as GSS Bonds, nor the impact or monitoring of such use of proceeds. No representation or assurance is given as to the suitability or reliability of any opinion or certification of any third party made available in connection with an issue of Notes issued as GSS Bonds, nor is any such opinion or certification a recommendation to buy, sell or hold any such Notes. In the event any such Notes are, or are intended to be, listed, or admitted to trading on a dedicated “green”, “sustainable”, “social” or other equivalently-labelled segment of a stock exchange or securities market, no representation or assurance is given that such listing or admission will be obtained or maintained for the lifetime of the Notes (see “*Risk Factors – Notes issued as GSS Bonds with a specific use of proceeds may not meet investor expectations or requirements*”). The Sustainable Finance Framework (as defined in the “*Sustainable Finance Framework*” section of this Offering Circular) is available on the Bank’s website (<https://bankmandiri.co.id/>) while the Second Party Opinion (as defined in the “*Sustainable Finance Framework*” section of this Offering Circular) is available on S&P’s website (<https://www.spglobal.com/ratings/en/research/pdf-articles/250110-second-party-opinion-pt-bank-mandiri-persero-tbk-sustainable-finance-framework-101611399>). For the avoidance of doubt, the contents of these websites do not form part of this Offering Circular and are not incorporated by reference in it.

IMPORTANT – EEA RETAIL INVESTORS

If the Pricing Supplement in respect of any Notes includes a legend entitled “Prohibition of Sales to EEA Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the “**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**EU MiFID II**”); (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of EU MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “**EU Prospectus Regulation**”). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS

If the Pricing Supplement in respect of any Notes includes a legend entitled “Prohibition of Sales to UK Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“UK”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (“EUWA”); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the “FSMA”) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the EU Prospectus Regulation as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by the PRIIPs Regulation as it forms part of UK domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

EU MIFID II PRODUCT GOVERNANCE/TARGET MARKET

The Pricing Supplement in respect of any Notes may include a legend entitled “EU MiFID II Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the target market assessment; however, a distributor subject to EU MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the “EU MiFID Product Governance Rules”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arrangers, the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the EU MiFID Product Governance Rules.

UK MIFIR PRODUCT GOVERNANCE/TARGET MARKET

The Pricing Supplement in respect of any Notes may include a legend entitled “UK MiFIR Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any distributor should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “UK MiFIR Product Governance Rules”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

NOTIFICATION UNDER SECTION 309B(1)(C) OF THE SECURITIES AND FUTURES ACT 2001 OF SINGAPORE

Unless otherwise stated in the Pricing Supplement in respect of any Notes, all Notes issued or to be issued under the Programme shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

In making an investment decision, investors must rely on their own examination of the Bank and the terms of the Notes being offered, including the merits and risks involved. The Notes have not been approved or disapproved by the United States Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities approved this Offering Circular or confirmed the accuracy or determined the adequacy of the information contained in this Offering Circular. Any representation to the contrary is unlawful.

None of the Bank, the Arrangers, the Dealers, the Trustee or the Agents makes any representation to any investor in the Notes regarding the legality of its investment under any applicable laws. Any investor in the Notes should be able to bear the economic risk of an investment in the Notes for an indefinite period of time.

NOTICE TO INDONESIAN INVESTORS

The Notes have not been offered or sold and will not be offered or sold in the Republic of Indonesia or to any Indonesian nationals, corporations or residents, including by way of invitation, offering or advertisement, and this Offering Circular and any other offering material relating to the Notes has not been distributed, and will not be distributed, in the Republic of Indonesia or to any Indonesian nationals, corporations or residents in a manner which would constitute a public offering in the Republic of Indonesia under Law 8/1995 or a private placement of debt securities under OJK Regulation No. 30/2019. The OJK has not reviewed or declared its approval or disapproval of the issue of the Notes, nor has it made any determination as to the accuracy or adequacy of this Offering Circular. Any statement to the contrary is a violation of Indonesian law.

NOTICE TO CAPITAL MARKET INTERMEDIARIES AND PROSPECTIVE INVESTORS PURSUANT TO PARAGRAPH 21 OF THE HONG KONG SFC CODE OF CONDUCT

Prospective investors should be aware that certain intermediaries in the context of certain offerings of Notes pursuant to this Programme (each such offering, a “**CMI Offering**”), including certain Dealers, may be “capital market intermediaries” (“**CMIs**”) subject to Paragraph 21 of the Code of Conduct for Persons Licensed by or Registered with the Securities and Futures Commission (the “**SFC Code**”). This notice to prospective investors is a summary of certain obligations the SFC Code imposes on such CMIs, which require the attention and cooperation of prospective investors. Certain CMIs may also be acting as “overall coordinators” (“**OCs**”) for a CMI Offering and are subject to additional requirements under the SFC Code. The application of these obligations will depend on the role(s) undertaken by the relevant Dealer(s) in respect of each CMI Offering.

Prospective investors who are the directors, employees or major shareholders of the Bank, a CMI or its group companies would be considered under the SFC Code as having an association (“**Association**”) with the Bank, the CMI or the relevant group company. Prospective investors associated with the Bank or any CMI (including its group companies) should specifically disclose this when placing an order for the relevant Notes and should disclose, at the same time, if such orders may negatively impact the price discovery process in relation to the relevant CMI Offering.

Prospective investors who do not disclose their Associations are hereby deemed not to be so associated. Where prospective investors disclose their Associations but do not disclose that such order may negatively impact the price discovery process in relation to the relevant CMI Offering, such order is hereby deemed not to negatively impact the price discovery process in relation to the relevant CMI Offering.

Prospective investors should ensure, and by placing an order prospective investors are deemed to confirm, that orders placed are bona fide, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMIs). A rebate may be offered by the Bank to all private banks for orders they place (other than in relation to Notes subscribed by such private banks as principal whereby it is deploying its own balance sheet for onward selling to investors), payable upon closing of the relevant CMI Offering based on the principal amount of the Notes distributed by such private banks to investors. Private banks are deemed to be placing an order on a principal basis unless they inform the CMIs otherwise. As a result, private banks placing an order on a principal basis (including those deemed as placing an order as principal) will not be entitled to, and will not be paid, the rebate. Details of any such rebate will be set out in the applicable Pricing Supplement or otherwise notified to prospective investors. If a prospective investor is an asset management arm affiliated with any relevant Dealer, such prospective investor should indicate when placing an order if it is for a fund or portfolio where the relevant or its group company has more than 50% interest, in which case it will be classified as a "proprietary order" and subject to appropriate handling by CMIs in accordance with the SFC Code and should disclose, at the same time, if such "proprietary order" may negatively impact the price discovery process in relation to the relevant CMI Offering. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not a "proprietary order". If a prospective investor is otherwise affiliated with any relevant Dealer, such that its order may be considered to be a "proprietary order" (pursuant to the SFC Code), such prospective investor should indicate to the relevant Dealer when placing such order. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not a "proprietary order". Where prospective investors disclose such information but do not disclose that such "proprietary order" may negatively impact the price discovery process in relation to the relevant CMI Offering, such "proprietary order" is hereby deemed not to negatively impact the price discovery process in relation to the relevant CMI Offering.

Prospective investors should be aware that certain information may be disclosed by CMIs (including private banks) which is personal and/or confidential in nature to the prospective investor. By placing an order, prospective investors are deemed to have understood and consented to the collection, disclosure, use and transfer of such information by the relevant Dealer and/or any other third parties as may be required by the SFC Code, including to the Bank, any OCs, relevant regulators and/or any other third parties as may be required by the SFC Code, it being understood and agreed that such information shall only be used for the purpose of complying with the SFC Code, during the bookbuilding process for the relevant CMI Offering. Failure to provide such information may result in that order being rejected.

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

Presentation of Financial Information

Unless otherwise indicated, the financial information in this Offering Circular is presented on a consolidated basis and has been derived from the Bank's audited consolidated financial statements as of and for the years ended 31 December 2023 and 2024 included elsewhere in this Offering Circular (the "**Consolidated Financial Statements**"). This Offering Circular also includes certain financial information presented on an unconsolidated basis, which has been derived from the Bank's unconsolidated financial statements in respect of the financial years ended 31 December 2023 and 2024 (together with the Consolidated Financial Statements, the "**Financial Statements**"). Such financial information is identified as being "standalone".

The Bank's financial year ends on 31 December, and references in this Offering Circular to any specific year are to the 12-month period ended on 31 December of such year. The financial statements of the Bank as of and for the years ended 31 December 2023 and 2024 have been audited by KAP Rintis, Jumadi, Rianto & Rekan (formerly KAP Tanudiredja, Wibisana, Rintis & Rekan) (a member firm of the PwC global network), independent accountants, in accordance with the Indonesian Institute of Certified Public Accountants (the "**IICPA**"), as stated in its respective audit reports dated 31 January 2024 and 5 February 2025, each of which appears elsewhere in this Offering Circular.

The Bank's Financial Statements are prepared in accordance with the Indonesian Financial Accounting Standards (the "**IFAS**"), which differ in certain respects from International Financial Reporting Standards ("**IFRS**"), and are subject to accounting standards established by the Institute of Indonesia Chartered Accountants ("**IICA**") and are not comparable to the financial statements of a company prepared under IFRS.

Certain Defined Terms and Conventions

Capitalised terms which are used but not defined in any particular section of this Offering Circular will have the meaning attributed to them in "*Terms and Conditions of the Notes*" or any other section of this Offering Circular. In addition, the following terms as used in this Offering Circular have the meanings defined below:

In this Offering Circular, all references to:

- "**US dollars**" and "**US\$**" refer to United States dollars;
- "**Rupiah**" and "**Rp**" refer to the Indonesian rupiah;
- "**Singapore dollars**" and "**S\$**" refer to the Singapore dollar;
- "**Government**" refers to the Government of Indonesia;
- "**Indonesia**" refers to the Republic of Indonesia; and
- "**United States**" and "**US**" refer to the United States of America.

For convenience, certain Rupiah amounts have been translated into US dollar amounts, based on the prevailing exchange rate of Rp16,095.00 = US\$1.00 as of 31 December 2024, being the Refinitiv Eikon spot rate at 3:00 p.m. (Western Indonesian Time) on that date for Rupiah against US dollars. Such translation should not be construed as representations that the Rupiah amounts referred to could have been, or could be, converted into US dollars at that or any other rate or at all.

Certain figures and percentages included in this Offering Circular have been subject to rounding adjustments; accordingly, figures shown in the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

CERTAIN FINANCIAL TERMS AND RATIOS

The following financial terms and ratios are used in this Offering Circular:

- **“Average Earning Assets”** means the sum of earning assets of the relevant year divided by the number of months in that year.
- **“Average Total Assets”** means the sum of total assets of the relevant year divided by the number of months in that year.
- The **“Basel Committee”** means the Basel Committee on Banking Supervision of the Bank for International Settlements in Basel, Switzerland.
- **“CASA”** means current and savings deposit accounts. References in this Offering Circular to CASA deposit amounts refer to aggregate demand and savings deposit amounts as of the relevant date.
- **“CASA Ratio”** means the ratio of CASA divided by total deposits.
- **“CAGR”** means compound annual growth rate, computed as: (i) the geometric root of the quotient of (a) the figure at the end of the relevant period, divided by (b) the figure at the beginning of the relevant period, (ii) minus one.
- **“Gross NPL Ratio”** means the ratio of the outstanding amount of loans classified as substandard, doubtful, and loss divided by the total outstanding amount of the loan portfolio.
- **“LAR Coverage”** means (i) allowance for impairment losses on loans, divided by (ii) total loans with collectability special mention, substandard, doubtful, loss, and current restructured.
- **“Liquidity Coverage Ratio”** or **“LCR”** means the ratio of (i) a bank’s stock of unencumbered HQLA to (ii) such bank’s net cash outflow for a 30-calendar day liquidity stress scenario. This ratio ensures that a bank has an adequate stock of unencumbered HQLA that can be converted into cash easily and immediately in private markets to meet its liquidity needs. See *“Risk Management – Basel III Reforms”* for further discussion of this ratio.
- **“Loan-at-Risk”** means the ratio of (i) the sum of loans with collectability special mention, substandard, doubtful, loss, and current restructured, divided by (ii) total loans (exclude financing).
- **“High Quality Liquid Assets”** or **“HQLA”** means cash and other financial assets that can be easily and immediately converted into cash with minimal or no loss of value to meet a financial institution’s liquidity needs, computed in line with the recommendations of the Basel Committee.
- **“Net NPL Ratio”** means the ratio of (i) the aggregate of the outstanding amount of loans classified as substandard, doubtful, and loss (for the purposes of this paragraph, together as **“NPL”**) net of the allowance for impairment losses (*Cadangan Kerugian Penurunan Nilai* or **“CKPN”**) for the NPL, divided by (ii) the total outstanding of loan portfolio.

- “**Net Stable Funding Ratio**” or “**NSFR**” is defined as the amount of available stable funding relative to the amount of required stable funding. “**Available stable funding**” is defined as the portion of capital and liabilities expected to be reliable over one year. “**Required stable funding**” is a function of the liquidity characteristics and residual maturities of the various assets held by that institution as well as those of its off-balance sheet exposures.
- “**Net Open Position**” or “**NOP**” means the net sum of all foreign currency assets and liabilities of a financial institution, inclusive of all of its spot and forward transactions and off-balance sheet items in that foreign currency.

SUITABILITY OF INVESTMENT

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor’s currency;
- (iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of any relevant indices and financial markets; and
- (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Some statements in this Offering Circular may be deemed to be forward-looking statements. Forward-looking statements include statements concerning the Bank’s plans, objectives, goals, strategies, future operations and performance and the assumptions underlying these forward-looking statements. When used in this Offering Circular, the words “anticipates”, “estimates”, “expects”, “believes”, “intends”, “plans”, “aims”, “seeks”, “may”, “will”, “should” and any similar expressions generally identify forward-looking statements. These forward-looking statements are contained in the sections entitled “*Risk Factors*”, “*Business*”, “*Description of the Bank’s Assets and Liabilities*”, and other sections of this Offering Circular. The Bank has based these

forward-looking statements on the current view of its management with respect to future events and financial performance. Although the Bank believes that the expectations, estimates and projections reflected in its forward-looking statements are reasonable as of the date of this Offering Circular, if one or more of the risks or uncertainties materialise, including those identified below or which the Bank has otherwise identified in this Offering Circular, or if any of the Bank's underlying assumptions prove to be incomplete or inaccurate, the Bank's actual results of operation may vary from those expected, estimated or predicted.

The risks and uncertainties referred to above include:

- the Bank's ability to achieve and manage the growth of its business;
- the performance of the markets in Indonesia and the wider region in which the Bank operates;
- the Bank's ability to realise the benefits it expects from existing and future projects and investments it is undertaking or plans to or may undertake;
- the Bank's ability to obtain external financing or maintain sufficient capital to fund its existing and future investments and projects; and
- changes in political, social, legal or economic conditions in the markets in which the Bank and its customers operate.

Any forward-looking statements contained in this Offering Circular speak only as of the date of this Offering Circular. Without prejudice to any requirements under applicable laws and regulations, the Bank expressly disclaims any obligation or undertaking to disseminate after the date of this Offering Circular any updates or revisions to any forward-looking statements contained in it to reflect any change in expectations or any change in events, conditions or circumstances on which any such forward-looking statement is based.

INDUSTRY AND MARKET DATA

This Offering Circular includes information regarding the Indonesian banking industry and the markets in which the Bank competes, industry data and forecasts that the Bank obtained from industry publications and surveys. Certain information is also based on estimates made by the Bank's management, based on their industry and market knowledge, which the Bank believes to be reasonable. However, this data is subject to change and cannot be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in any statistical survey. As a result, you should be aware that industry projections, market share, ranking and other similar data set forth herein, and estimates and beliefs based on such data, have not been independently verified and the Bank does not make any representation as to the accuracy or the completeness of such information. The Bank does not have any obligation to announce or otherwise make publicly available updates or revisions to these forecasts.

REGULATION OF OFFSHORE BORROWINGS FOR INDONESIAN BANKS

The plan to issue Notes and obtain a long-term offshore borrowing by an Indonesian commercial bank (such as the Bank) must be described in a Bank Business Plan (as defined below). Furthermore, the Bank Business Plan must be submitted to OJK as required under OJK Regulation No. 5/POJK.03/2016 on Bank Business Plan (as amended, “**OJK RBB Regulation**”). A Bank Business Plan must set out, among other things, the Bank’s three-year funding plan on a looking-forward basis. It must be submitted annually to OJK by 30 November of the previous year. On 20 November 2024, the Bank submitted to the OJK its 2025 Bank Business Plan containing the plan to issue Notes under the Programme in 2025 (the “**2025 Notes**”) and obtain a long-term offshore borrowing thereunder. This submission was acknowledged by the OJK on 29 November 2024. See “*Banking Regulation and Supervision – Bank Business Plan*”.

Furthermore, Bank Indonesia Regulation No. 21/1/PBI/2019 on Offshore Borrowings for Banks and Other Bank Liabilities in Foreign Currencies (as amended) (“**Bank Indonesia Regulation No. 21/1/2019**”), stipulates that an Indonesian bank that intends to enter into market to obtain a long-term offshore borrowing from the international market must obtain a market entry approval from Bank Indonesia. For long-term offshore borrowing in the form of a private placement of notes, the market entry approval must be obtained at the date of issuance of the notes. The amount that an Indonesian bank may receive from the long-term offshore borrowing may not exceed the amount that has been approved by Bank Indonesia. An application for the market entry approval for the 2025 Notes was made to Bank Indonesia on 8 January 2025, and Bank Indonesia granted its approval for the issuance of the 2025 Notes by the Bank on 5 March 2025 (the “**BI Approval**”). See “*Banking Regulation and Supervision – Market Entry Approval*”.

ENFORCEABILITY OF INTERNATIONAL ARBITRATION AWARDS IN INDONESIA

The Notes and the agreements entered into with respect to the issue of the Notes are governed by English law. Any dispute, claim, difference or controversy arising out of, relating to, or having any connection with the Notes and the agreements entered into with respect to the issue of the Notes and any dispute relating to any non-contractual obligations arising out of or in connection with it shall be referred to and finally resolved by arbitration administered by the Singapore International Arbitration Centre (“**SIAC**”), in accordance with the Arbitration Rules of the SIAC.

Indonesia is a party to and has ratified the United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards and accordingly, arbitration awards from the convention countries should be recognised in Indonesia, subject to compliance with the requirements under Law No. 30 of 1999 on Arbitration and Alternative Dispute Resolution (“**Law No. 30/1999**”). This law vests in the Central Jakarta District Court the jurisdiction to register, provide recognition to and issue an *exequatur* or order to enforce, international arbitral awards. Rejection by the Central Jakarta District Court to issue an *exequatur* can be appealed to the Supreme Court of Indonesia. A written arbitration agreement obviates the rights of the parties to bring a dispute in the Indonesian district court, which would otherwise have jurisdiction over civil disputes. Further, based on Law No. 30/1999, such court has no authority to examine disputes where parties are bound by an arbitration agreement and is required to reject and not participate in the resolution of disputes which have already been adjudicated by arbitration, provided that such disputes qualify as commercial disputes (e.g. any dispute arising out of or in connection with a commercial contract capable of being settled by the parties or resolved privately without sanction by the state or through the national courts). Although Law No. 30/1999 does not provide an exhaustive definition of what activities (and therefore disputes) are considered “commercial”, trade, banking, finance, investment, industrial activities, and intellectual property are mentioned as examples of commercial activities.

However, there still remain practical risks in enforcing international arbitration awards in Indonesia. Law No. 30/1999 requires enforcement of an international arbitration award to not be contrary to public order. Law No. 30/1999 and Indonesian regulations do not set out any definition of “public order” and this can be subject to a broad interpretation, especially by Indonesian judges. For example, the Supreme Court’s refusal to enforce an international arbitral award in the case of *Astro Nusantara Intl BV et al. v PT First Media, Tbk., et al.* decided in March 2013. The Singapore-seated arbitration tribunal issued six arbitral awards including an interim final award which instructed the respondents not to commence or pursue further proceedings in Indonesia or elsewhere against the claimants. Such interim award was deemed by the Supreme Court of Indonesia as interventionist in nature to the judicial process in Indonesia as it limited the right to file a claim before an Indonesian court. Furthermore, the Supreme Court treated the remaining arbitral awards as one with the interim award, hence took the same view that the remaining awards were also interventionist in nature. The Supreme Court also took the view that an interim award is not a final and binding award, and therefore not yet enforceable under Indonesian law.

There are also examples of parties bringing claims in tort outside the contractually-agreed arbitration forum in a bid (i) to frustrate or delay the process of arbitration and/or enforcement of an international arbitration award once rendered or (ii) to annul an international arbitration award (despite the absence of an actual legal basis to annul an international arbitration award under Law No. 30/1999). Law No. 48 of 2009 on Judicial Authority requires the Indonesian courts to entertain any claim submitted by a party regardless of the value, content, or nature of the claim. This obligation, coupled with the fact that Indonesian law does not recognise the concept of a “strike out procedure” or “summary judgement”, means that the Indonesian courts are obliged to examine any claim, however frivolous and the claim may inevitably be time consuming. This increases the risk of parties commencing multiple proceedings in the Indonesian courts in a bid to obtain a conflicting decision and thereby frustrate or delay an enforcement of international arbitration awards in Indonesia. This is also partly because the legal system does not recognise the doctrine of *stare decisis*, coupled with the judiciary’s historic lack of familiarity with arbitration.

As described above, the authority granted by Law No. 30/1999 to the Central Jakarta District Court in dealing with an international arbitration award is limited to acknowledgement and enforcement of international arbitration awards. However, despite annulment of international arbitration awards not being within the authority of the Central Jakarta District Court, there has been various attempts to annul an international arbitration award filed to the Central Jakarta District Court. One example is the case of *Perusahaan Pertambangan Minyak dan Gas Bumi Negara (Pertamina) v Karaha Bodas Company*, which led to a lengthy litigation process. Recent practical developments show an increasing inclination by Indonesian courts to refuse requests for annulment of international arbitration awards and hold that the Indonesian courts do not have jurisdiction to annul or set aside such awards.

STABILISATION

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Pricing Supplement may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

DOCUMENTS INCORPORATED BY REFERENCE

The following documents which have previously been published or issued from time to time after the date hereof shall be incorporated in, and form part of, this Offering Circular:

- (a) the most recently published audited consolidated and unconsolidated annual financial statements of the Bank and, if published later, the most recently published consolidated and unconsolidated interim financial statements (if any) of the Bank, in each case together with any audit or review reports prepared in connection therewith (where relevant); and
- (b) all supplements (other than the Pricing Supplement) or amendments to this Offering Circular circulated by the Bank from time to time,

save that any statement contained herein or in a document which is deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purpose of this Offering Circular to the extent that a statement contained in any such subsequent document which is deemed to be incorporated by reference herein modifies or supersedes such earlier statement (whether expressly, by implication or otherwise). Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Offering Circular.

Copies of the documents listed in paragraph (a) above which are deemed to be incorporated by reference in this Offering Circular may be obtained at the website of the Indonesia Stock Exchange (*Bursa Efek Indonesia* or the “**IDX**”) at www.idx.co.id.

Any published unaudited interim financial statements of the Bank which are, from time to time, deemed to be incorporated by reference in this Offering Circular will not have been audited or reviewed by the auditors of the Bank. Accordingly, there can be no assurance that, had an audit or review been conducted in respect of such financial statements, the information presented therein would not have been materially different, and investors should not place undue reliance upon them.

The Bank will provide, without charge, to each person to whom a copy of this Offering Circular has been delivered, upon the request of such person, a copy of any or all of the documents deemed to be incorporated herein by reference unless such documents have been modified or superseded as specified above. Requests for such documents should be directed to the Bank at its registered office set out at the end of this Offering Circular.

The Bank will, in the event of any significant new factor, material mistake or inaccuracy relating to information included in this Offering Circular which is capable of affecting the assessment of any Notes, prepare a supplement to this Offering Circular or publish a new Offering Circular for use in connection with any subsequent issue of Notes.

OVERVIEW OF THE PROGRAMME

The following overview does not purport to be complete and is taken from, and is qualified in its entirety by, the remainder of this Offering Circular and, in relation to the terms and conditions of any particular Tranche of Notes, the applicable Pricing Supplement. The Issuer and any relevant Dealer may agree that Notes shall be issued in a form other than that contemplated in the Terms and Conditions, in which event, if appropriate, a new Offering Circular or a supplement to the Offering Circular, will be made available.

Words and expressions defined in “*Form of the Notes*” and “*Terms and Conditions of the Notes*” shall have the same meanings in this Overview.

Issuer:	PT Bank Mandiri (Persero) Tbk.
Risk Factors:	There are certain factors that may affect the Bank’s ability to fulfil its obligations under Notes issued under the Programme. In addition, there are certain factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme and risks relating to the structure of a particular Series of Notes issued under the Programme. All of these are set out under “Risk Factors”.
Description:	Euro Medium Term Note Programme.
Arrangers:	The Hongkong and Shanghai Banking Corporation Limited, J.P. Morgan Securities plc, Mandiri Securities Pte. Ltd. and MUFG Securities Asia Limited Singapore Branch.
Dealers:	The Hongkong and Shanghai Banking Corporation Limited, J.P. Morgan Securities plc, Mandiri Securities Pte. Ltd. and MUFG Securities Asia Limited Singapore Branch and any other Dealers appointed in accordance with the Programme Agreement.
Certain Restrictions:	Each issue of Notes denominated in a currency in respect of which particular laws, guidelines, regulations, restrictions or reporting requirements apply will only be issued in circumstances which comply with such laws, guidelines, regulations, restrictions or reporting requirements from time to time (see “ <i>Subscription and Sale</i> ”) including the following restrictions applicable at the date of this Offering Circular.

Notes having a maturity of less than one year

Notes having a maturity of less than one year will, if the proceeds of the issue are accepted in the United Kingdom, constitute deposits for the purposes of the prohibition on accepting deposits contained in section 19 of the Financial Services and Markets Act 2000 (“**FSMA**”) unless they are issued to a limited class of professional investors and have a denomination of at least £100,000 or its equivalent, see “*Subscription and Sale*”.

Trustee:	The Bank of New York Mellon, London Branch.
Principal Paying Agent:	The Bank of New York Mellon, London Branch.
Registrar:	The Bank of New York Mellon SA/NV, Luxembourg Branch.
Transfer Agent:	The Bank of New York Mellon SA/NV, Luxembourg Branch.
Programme Size:	Up to US\$4,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement) outstanding at any time. The Issuer may increase the amount of the Programme in accordance with the terms of the Programme Agreement.
Distribution:	<p>Notes may be distributed by way of private or public placement and in each case on a syndicated or non-syndicated basis.</p> <p>The Notes will be issued in Series having one or more issue dates and on terms otherwise identical (or identical other than in respect of the first payment of interest), the Notes of each Series being intended to be interchangeable with all other Notes of the Series. Each Series may be issued in Tranches on the same or different issue date. The specific terms of each Tranche (which will be completed, where necessary, with the relevant terms and conditions and, save in respect of the issue date, issue price, first payment of interest and nominal amount of the Tranche, will be identical to the terms of other Tranches of the same Series) will be completed in the Pricing Supplement.</p>
Currencies:	Subject to any applicable legal or regulatory restrictions, Notes may be denominated in a currency agreed between the Issuer and the relevant Dealer.
Maturities:	The Notes will have such maturities as may be agreed between the Issuer and the relevant Dealer, subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the Issuer or the relevant Specified Currency.
Issue Price:	Notes may be issued on a fully-paid or a partly-paid basis and at an issue price which is at par or at a discount to, or premium over, par.
Form of Notes:	The Notes will be issued in either bearer or registered form as described in " <i>Form of the Notes</i> ". Registered Notes will not be exchangeable for Bearer Notes and vice versa.
Clearing Systems:	Clearstream, Luxembourg and Euroclear and, in relation to any Tranche of Notes, such other clearing system as may be agreed between the Issuer, the Trustee, the relevant Paying Agent and the relevant Dealer.

Initial Delivery of Notes:	On or before the issue date for each Tranche, the Global Note representing Bearer Notes or Registered Notes may be deposited with a common depositary for Euroclear and Clearstream, Luxembourg. Global Notes may also be deposited with any other clearing system or may be delivered outside any clearing system provided that the Issuer, the Trustee, the relevant Paying Agent and the relevant Dealer have agreed the method of such delivery in advance. Registered Notes that are to be credited to one or more clearing systems on issue will be registered in the name of nominees or a common nominee for such clearing systems.
Fixed Rate Notes:	Fixed interest will be payable on such date or dates as may be agreed between the Issuer and the relevant Dealer and on redemption and will be calculated on the basis of such Day Count Fraction as may be agreed between the Issuer and the relevant Dealer.
Floating Rate Notes:	<p>Floating Rate Notes will bear interest at a rate determined:</p> <ul style="list-style-type: none"> (a) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 or 2021 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc., and as amended and updated as of the Issue Date of the first Tranche of the Notes of the relevant Series); (b) on the basis of the reference rate set out in the applicable Pricing Supplement; or (c) on such other basis as may be agreed between the Issuer and the relevant Dealer. <p>Interest on Floating Rate Notes in respect of each Interest Period, as agreed prior to issue by the Issuer and the relevant Dealer, will be payable on such Interest Payment Dates, and will be calculated on the basis of such Day Count Fraction, as may be agreed between the Issuer and the relevant Dealer.</p> <p>The margin (if any) relating to such floating rate will be agreed between the Issuer and the relevant Dealer for each Series of Floating Rate Notes.</p> <p>Floating Rate Notes may also have a maximum interest rate, a minimum interest rate or both.</p>
Zero Coupon Notes:	Zero Coupon Notes will be offered and sold at a discount to their nominal amount and will not bear interest.

Dual Currency Notes:	Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of Dual Currency Notes will be made in such currencies, and based on such rates of exchange, as the Issuer and the relevant Dealer may agree.
Index Linked Notes:	Payments of principal in respect Index Linked Redemption Notes or of interest in respect of Index Linked Interest Notes will be calculated by reference to such index and/or formula or to changes in the prices of securities or commodities or to such other factors as the Issuer and the relevant Dealer may agree.
Redemption:	<p>The applicable Pricing Supplement will indicate either that the relevant Notes cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or for taxation reasons, or following an Event of Default, or following a Change of Control Triggering Event); or that such Notes will be redeemable at the option of the Issuer upon giving notice to the Noteholders, on a date or dates specified prior to such stated maturity and at a price or prices and on such other terms as may be agreed between the Issuer and the relevant Dealer. The terms of any such redemption, including notice periods, any relevant conditions to be satisfied and the relevant redemption dates and prices will be indicated in the applicable Pricing Supplement. Please see Condition 7 for further details.</p> <p>Notes having a maturity of less than one year may be subject to restrictions on their denomination and distribution, see "<i>Certain Restrictions – Notes having a maturity of less than one year</i>" above.</p>
Denomination of Notes:	The Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer save that the minimum denomination of each Note will be such amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency, see " <i>Certain Restrictions – Notes having a maturity of less than one year</i> " above, and save that the minimum denomination of each Note admitted to trading on a regulated market within the EEA or United Kingdom offered to the public in a Member State of the EEA or in the United Kingdom in circumstances which would have required the publication of a prospectus under Regulation (EU) 2017/1129 (the " EU Prospectus Regulation ") or Regulation (EU) 2017/1129 as it forms part of domestic law in the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the " UK Prospectus Regulation ") will be €100,000 (or, if the Notes are denominated in a currency other than Euros, the equivalent amount in such currency).

Taxation:	All payments in respect of the Notes will be made without deduction for or on account of withholding taxes imposed by any Tax Jurisdiction as provided in Condition 8. In the event that any such deduction is made, the Issuer will, save in certain limited circumstances provided in Condition 8, be required to pay additional amounts to cover the amounts so deducted.
Negative Pledge:	The terms of the Notes will contain a negative pledge provision as further described in Condition 4.
Cross Default:	The terms of the Notes will contain a cross default provision as further described in Condition 10.1.
Status of the Notes:	The Notes will constitute direct, unconditional, unsubordinated and (subject to the provisions of Condition 4) unsecured obligations of the Issuer and will rank pari passu among themselves and (save for certain obligations required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer, from time to time outstanding.
Rating:	Series of Notes issued under the Programme may be rated or unrated. Where a Series of Notes is rated, such rating will be disclosed in the applicable Pricing Supplement and will not necessarily be the same as the rating(s) assigned to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.
Listing and Admission to Trading:	Application has been made to the SGX-ST for permission to deal in, and for the listing and quotation of, any Notes to be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof to be so listed on the SGX-ST. Such permission will be granted when such Notes have been admitted to the Official List of the SGX-ST. The SGX-ST assumes no responsibility for the correctness of any of the statements made or opinions expressed or reports contained herein. Admission to the Official List of the SGX-ST and quotation of any Notes on the SGX-ST is not to be taken as an indication of the merits of the Issuer, the Programme or the Notes. There is no assurance that the application to the Official List of the SGX-ST for the listing of the Notes of any Series will be approved.

For so long as any Notes are listed on the SGX-ST and the rules of the SGX-ST so require, such Notes listed on the SGX-ST will be traded on the SGX-ST in a minimum board lot size of at least S\$200,000 (or its equivalent in other currencies). For so long as any Notes are listed on the SGX-ST and the rules of the SGX-ST so require, the Issuer shall appoint and maintain a paying agent in Singapore, where such Notes may be presented or surrendered for payment or redemption, in the event that the Global Note is exchanged for definitive Notes. In addition, in the event that the Global Note is exchanged for definitive Notes, an announcement of such exchange will be made by or on behalf of the Issuer through the SGX-ST and such announcement will include all material information with respect to the delivery of the definitive Notes, including details of the paying agent in Singapore.

Notes may be listed or admitted to trading, as the case may be, on other or further stock exchanges or markets agreed between the Issuer and the relevant Dealer in relation to the Series. Notes which are neither listed nor admitted to trading on any market may also be issued.

The applicable Pricing Supplement will state whether or not the relevant Notes are to be listed and/or admitted to trading and, if so, on which stock exchanges and/or markets.

Governing Law:

The Notes and any non-contractual obligations arising out of or in connection with the Notes will be governed by, and shall be construed in accordance with, English law.

Selling Restrictions:

There are restrictions on the offer, sale and transfer of the Notes in the United States, the EEA, the UK, Japan, Hong Kong, Singapore, Indonesia and the PRC and such other restrictions as may be required in connection with the offering and sale of a particular Tranche of Notes, see "*Subscription and Sale*".

United States Selling Restrictions:

Regulation S, Category 1. TEFRA C or D/TEFRA not applicable, as specified in the applicable Pricing Supplement.

FORM OF THE NOTES

The Notes of each Series will be in either bearer form, with or without interest coupons attached, or registered form, without interest coupons attached. Bearer Notes will be issued outside the United States in reliance on Regulation S under the Securities Act (“**Regulation S**”) and Registered Notes will be issued outside the United States in reliance on the exemption from registration provided by Regulation S.

Bearer Notes

Each Tranche of Bearer Notes will be in bearer form and will initially be issued in the form of a temporary global note (a “**Temporary Bearer Global Note**”) or, if so specified in the applicable Pricing Supplement, a permanent global note (a “**Permanent Bearer Global Note**”) and, together with a Temporary Bearer Global Note, each a “**Bearer Global Note**”) which, in either case, will be delivered on or prior to the original issue date of the Tranche to a common depository (the “**Common Depository**”) for Euroclear Bank SA/NV (“**Euroclear**”) and Clearstream Banking S.A. (“**Clearstream, Luxembourg**”).

Whilst any Bearer Note is represented by a Temporary Bearer Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Bearer Global Note) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in the Temporary Bearer Global Note are not US persons or persons who have purchased for resale to any US person, as required by US Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the “**Exchange Date**”) which is 40 days after a Temporary Bearer Global Note is issued, interests in such Temporary Bearer Global Note will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Bearer Global Note of the same Series or (ii) for definitive Bearer Notes of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Pricing Supplement and subject, in the case of definitive Bearer Notes, to such notice period as is specified in the applicable Pricing Supplement), in each case against certification of beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Bearer Global Note or for definitive Bearer Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be)) of the Permanent Bearer Global Note without any requirement for certification.

The applicable Pricing Supplement will specify that a Permanent Bearer Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Bearer Notes with, where applicable, receipts, interest coupons and talons attached upon the occurrence of an Exchange Event. For these purposes, “**Exchange Event**” means that (i) an Event of Default (as defined in Condition 10.1) has occurred and is continuing, (ii) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system satisfactory to the Trustee is available or (iii) the Issuer has or will become subject to adverse tax

consequences which would not be suffered were the Notes represented by the Permanent Bearer Global Note in definitive form and a certificate to such effect signed by two Directors of the Issuer is given to the Trustee. The Issuer will promptly give notice to Noteholders in accordance with Condition 14 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) or the Trustee may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Notes (other than Temporary Bearer Global Notes), receipts and interest coupons relating to such Notes where TEFRA D is specified in the applicable Pricing Supplement:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes, receipts or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of Bearer Notes, receipts or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Notes

The Registered Notes of each Tranche will initially be represented by a global note in registered form (a “**Registered Global Note**”).

Registered Global Notes will be deposited with a common depository for Euroclear and Clearstream, Luxembourg, and registered in the name of the nominee for the Common Depository of, Euroclear and Clearstream, Luxembourg, as specified in the applicable Pricing Supplement. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in Condition 6.4) as the registered holder of the Registered Global Notes. None of the Issuer, any Paying Agent, the Trustee or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 6.4) immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Registered Notes without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, “**Exchange Event**” means that (i) an Event of Default has occurred and is continuing, (ii) in the case of Notes registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system satisfactory to the Trustee is available or (iii) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Note in definitive form and a certificate to that effect signed by two Directors of the Issuer is given to the Trustee. The Issuer will promptly give notice to Noteholders in accordance with Condition 14 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg or any person acting on their behalf (acting on the instructions of any holder of an interest in such Registered Global Note) or the Trustee may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg, each person (other than Euroclear and/or Clearstream, Luxembourg or its nominee) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear and/or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Trustee, the Registrar, and all other agents of the Issuer as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or distributions on such nominal amount of such Notes, for which purposes the registered holder of the relevant Registered Global Notes shall be treated by the Issuer, the Trustee, and their agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions “Noteholder” and “holder of Notes” and related expressions shall be construed accordingly.

No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of Euroclear and Clearstream, Luxembourg, in each case to the extent applicable.

General

Pursuant to the Agency Agreement (as defined under “*Terms and Conditions of the Notes*”), the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Pricing Supplement.

No Noteholder, Receiptholder or Couponholder shall be entitled to proceed directly against the Issuer unless the Trustee, having become bound so to proceed, fails so to do within a reasonable period and the failure shall be continuing.

The Issuer may agree with any Dealer that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes, in which event, a new Offering Circular or a supplement to the Offering Circular, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Notes.

APPLICABLE PRICING SUPPLEMENT

Set out below is the form of Pricing Supplement which will be completed for each Tranche of Notes, whatever the denomination of those Notes, issued under the Programme.

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**EU MiFID II**”); (ii) or a customer within the meaning of Directive (EU) 2016/97 (the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of EU MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “**EU Prospectus Regulation**”). Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

[PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“**UK**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic UK law by virtue of the European Union (Withdrawal) Act 2018 (“**EUWA**”); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic UK law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the EU Prospectus Regulation as it forms part of domestic law by virtue of the EUWA. Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic UK law by virtue of the EUWA (the “**UK PRIIPs Regulation**”). Consequently, no key information document required by the UK PRIIPs Regulation for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

[EU MIFID II/UK MiFIR product governance/target market – *[appropriate target market legend to be included]*]

[Notification under Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore (the “SFA”) – *[To insert notice if classification of the Notes is not prescribed capital markets products, pursuant to Section 309B of the SFA or Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products)]*]¹

¹ Issuer to confirm classification of Notes at each drawdown. Relevant Dealer(s) to consider whether it/they have received the necessary product classification from the Issuer prior to the launch of the offer, pursuant to Section 309B of the SFA.

[Application has been made for the Notes to be recognised under the SGX Sustainable Fixed Income initiative on the SGX-ST. There is no guarantee that such application for recognition under the SGX Sustainable Fixed Income initiative will be approved. Recognition under the SGX Sustainable Fixed Income initiative does not guarantee that the Notes will satisfy any investor's expectations or requirements on its sustainability-related performance or impact. If approved, the SGX-ST may remove the recognition from the Notes at its discretion. The latest list of fixed income securities that have been granted recognition under the SGX Sustainable Fixed Income initiative is available at the website of the SGX-ST.]²

² To be included where the Issuer has applied for recognition under the SGX Sustainable Fixed Income initiative.

PT BANK MANDIRI (PERSERO) TBK

Legal entity identifier (LEI): 549300RSKQN4Z5ZSGH94

**Issue of [Aggregate Nominal Amount of Tranche] [Title of Notes]
under the US\$4,000,000,000 Euro Medium Term Note Programme**

PART A – CONTRACTUAL TERMS

This document constitutes the Pricing Supplement for the Notes described herein. This document must be read in conjunction with the Offering Circular dated 14 March 2025 [as supplemented by the supplement[s] dated [date[s]]] (the “**Offering Circular**”). Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of this Pricing Supplement and the Offering Circular.

[The following alternative language applies if the first tranche of an issue which is being increased was issued under an Offering Circular with an earlier date:

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the “**Conditions**”) set forth in the Offering Circular [dated [original date] [and the supplement dated [date]]] which are incorporated by reference in the Offering Circular dated [current date]]. This document constitutes the Pricing Supplement of the Notes described herein and must be read in conjunction with the Offering Circular, save in respect of the Conditions which are extracted from the Offering Circular dated [date] and are attached hereto.]

[Include whichever of the following apply or specify as “Not Applicable”. Note that the numbering should remain as set out below, even if “Not Applicable” is indicated for individual paragraphs or subparagraphs. Italics denote directions for completing the Pricing Supplement.]

[If the Notes have a maturity of less than one year from the date of their issue, the minimum denomination may need to be £100,000 or its equivalent in any other currency.]

1. (a) Issuer: PT Bank Mandiri (Persero) Tbk
2. (a) Series Number: []
(b) Tranche Number: []
(c) Date on which the Notes will be consolidated and form a single Series: The Notes will be consolidated and form a single Series with [identify earlier Tranches] on [the Issue Date/the date that is 40 days after the Issue Date/exchange of the Temporary Global Note for interests in the Permanent Global Note, as referred to in paragraph 25 below, which is expected to occur on or about [date]]/[Not Applicable]
3. Specified Currency or Currencies: []
4. Aggregate Nominal Amount: []
(a) Series: []
(b) Tranche: []

5. (a) Trade Date: []
- (b) Issue Price: []% of the Aggregate Nominal Amount [plus accrued interest from [*insert date*] (*if applicable*)]
- (c) Private banking rebate: [[] (*specify*)/Not Applicable]
6. Net Proceeds: [] (*include for listed issues if required by the stock exchange on which the Notes are listed*)
7. (a) Specified Denominations: []

(N.B. Notes must have a minimum denomination of €100,000 (or equivalent) unless they are to be admitted to trading only on a regulated market, or a specific segment of a regulated market, to which only qualified investors have access)

(Note – where Bearer multiple denominations above [€100,000] or equivalent are being used, the following sample wording should be followed:

“[€100,000] and integral multiples of [€1,000] in excess thereof up to and including [€199,000]. No Notes in definitive form will be issued with a denomination above [€199,000].”)

(N.B. If an issue of Notes is: (i) NOT admitted to trading on an EEA exchange or United Kingdom exchange; and (ii) only offered in the EEA or in the United Kingdom in circumstances where a prospectus is not required to be published under the EU Prospectus Regulation or the UK Prospectus Regulation, the €100,000 minimum denomination is not required.)

(In the case of Registered Notes, this means the minimum integral amount in which transfers can be made.)

- (b) Calculation Amount (in relation to calculation of interest in global form. See Conditions): []
- (If only one Specified Denomination, insert the Specified Denomination. If more than one Specified Denomination, insert the highest common factor. Note: There must be a common factor in the case of two or more Specified Denominations.)*

8. (a) Issue Date: []
- (b) Interest Commencement Date: [*specify/Issue Date/Not Applicable*] *(N.B. An Interest Commencement Date will not be relevant for certain Notes, for example Zero Coupon Notes.)*

9. Maturity Date: [Specify date or for Floating Rate Notes – Interest Payment Date falling in or nearest to [specify month and year]]
10. Interest Basis: [[]% Fixed Rate]
 [[specify Reference Rate] +/-[[]%]
 [Floating Rate]
 [Zero Coupon]
 [Index Linked Interest]
 [Dual Currency Interest]
 [specify other]
 (further particulars specified below)
11. Redemption/Payment Basis: [Redemption at par]
 [Index Linked Redemption]
 [Dual Currency Redemption]
 [Partly Paid]
 [Instalment]
 [specify other]
12. Change of Interest Basis or Redemption/Payment Basis: [Specify details of any provision for change of Notes into another Interest Basis or Redemption/Payment Basis] [Not Applicable]
13. Call Option: [Issuer Call]
 [(further particulars specified below)]
14. (a) Status of the Notes: Senior
- (b) [Date of [Board] approval for issuance of Notes obtained: []
 (N.B. Only relevant where Board (or similar) authorisation is required for the particular tranche of Notes)
15. Additional Tax considerations: [[] (specify)/None]

PROVISIONS RELATING TO INTEREST (IF ANY) PAYABLE

16. Fixed Rate Note Provisions: [Applicable/Not Applicable]
 (If not applicable, delete the remaining subparagraphs of this paragraph)
- (a) Rate(s) of Interest: []% per annum payable in arrear on each Interest Payment Date
- (b) Interest Payment Date(s): [] in each year up to and including the Maturity Date (Amend appropriately in the case of irregular coupons)
- (c) Fixed Coupon Amount(s) for Notes in definitive form (and in relation to Notes in global form see Conditions): [] per Calculation Amount

- (d) Broken Amount(s) for Notes in definitive form (and in relation to Notes in global form see Conditions): [[] per Calculation Amount, payable on the Interest Payment Date falling [in/on] [●]] [Not Applicable]
- (e) Day Count Fraction: [30/360/Actual/Actual (ICMA)/specify other]
- (f) [Determination Date(s): [[] in each year] [Not Applicable] *(Only relevant where Day Count Fraction is Actual/Actual (ICMA). In such a case, insert regular interest payment dates, ignoring issue date or maturity date in the case of a long or short first or last coupon)*
- (g) Other terms relating to the method of calculating interest for Fixed Rate Notes which are Exempt Notes: [None/Give details]
17. Floating Rate Note Provisions: [Applicable/Not Applicable] *(If not applicable, delete the remaining subparagraphs of this paragraph)*
- (a) Specified Period(s)/Specified Interest Payment Dates: [][, subject to adjustment in accordance with the Business Day Convention set out in (b) below, not subject to any adjustment, as the Business Day Convention in (b) below is specified to be Not Applicable]
- (b) Business Day Convention: [Floating Rate Convention/Following Business Day Convention/Modified Following Business Day Convention/Preceding Business Day Convention/[specify other]] [Not Applicable]
- (c) Additional Business Centre(s): []
- (d) Manner in which the Rate of Interest and Interest Amount is to be determined: [Screen Rate Determination/ISDA Determination/specify other]
- (e) Party responsible for calculating the Rate of Interest and Interest Amount (if not the Principal Paying Agent): []
- (f) Screen Rate Determination:
- Reference Rate: [] month [EURIBOR/specify other Reference Rate] *(Either EURIBOR or other, although additional information is required if other, including fallback provisions in the Agency Agreement.)*
 - Interest Determination Date(s): [] *(Second day on which the TARGET2 System is open prior to the start of each Interest Period if EURIBOR)*

- Relevant Screen Page: [] *(In the case of EURIBOR, if not Reuters EURIBOR01 ensure it is a page which shows a composite rate or amend the fallback provisions appropriately)*
- (g) ISDA Determination: [Applicable/Not Applicable]
(If not applicable, delete the remaining items of this subparagraph (g))
- ISDA Definitions: [2006 ISDA Definitions]/[2021 ISDA Definitions]
 - Floating Rate Option: []
(If “2021 ISDA Definitions” is selected, ensure this is a Floating Rate Option included in the Floating Rate Matrix (as defined in the 2021 ISDA Definitions))
 - Designated Maturity: []/[Not Applicable]
 - Reset Date: []
(In the case of a EURIBOR based option, the first day of the Interest Period)
 - Compounding: [Applicable/Not Applicable]
(If not applicable, delete the remaining items of this subparagraph)
- [Compounding with Lookback
- Compounding with Lookback: [[] Applicable Business Days]/[As specified in the Compounding/Averaging Matrix (as defined in the 2021 ISDA Definitions)]]
- [Compounding with Observation Period Shift
- Compounding with Observation Period Shift: [[] Observation Period Shift Business Days]/[As specified in the Compounding/Averaging Matrix (as defined in the 2021 ISDA Definitions)]
- Observation Period Shift Additional Business Days: []/[Not Applicable]]
- [Compounding with Lockout
- Compounding with Lockout: [[] Lockout Period Business Days]/[As specified in the Compounding/Averaging Matrix (as defined in the 2021 ISDA Definitions)]
- Lockout Period Business Days: []/[Applicable Business Days]
- [Not Applicable]

- (h) Linear Interpolation: [Not Applicable/Applicable – the Rate of Interest for the [long/short] [first/last] Interest Period shall be
- (i) Margin(s): [+/-] []% per annum
- (j) Minimum Rate of Interest: []% per annum
- (k) Maximum Rate of Interest: []% per annum
- (l) Day Count Fraction: [Actual/Actual (ISDA)][Actual/Actual] Actual/365 (Fixed) Actual/365 (Sterling) Actual/360 [30/360][360/360][Bond Basis] [30E/360] [Eurobond Basis] 30E/360 (ISDA) [Other]
- (m) [Ratings Step-up/Step-down: [Applicable/Not Applicable] *(If not applicable, delete the remaining subparagraphs of this paragraph)*
- (n) Fallback provisions, rounding provisions and any other terms relating to the method of calculating interest on Floating Rate Notes which are Exempt Notes, if different from those set out in the Conditions: []
18. Zero Coupon Note Provisions: [Applicable/Not Applicable] *(If not applicable, delete the remaining subparagraphs of this paragraph)*
- (a) Accrual Yield: []% per annum
- (b) Reference Price: []
- (c) Any other formula/basis of determining amount payable for Zero Coupon Notes which are Exempt Notes: []
- (d) Day Count Fraction in relation to Early Redemption Amounts: [30/360] [Actual/360] [Actual/365]
19. Index Linked Interest Note: [Applicable/Not Applicable] *(If not applicable, delete the remaining subparagraphs of this paragraph)*
- (a) Index/Formula: [give or annex details]
- (b) Calculation Agent: [give name]

- (c) Party responsible for calculating the Rate of Interest (if not the Calculation Agent) and Interest Amount (if not the Paying Agent): []
- (d) Provisions for determining Coupon where calculation by reference to Index and/or Formula is impossible or impracticable: [*need to include a description of market disruption or settlement disruption events and adjustment provisions*]
- (e) Specified Period(s)/Specified Interest Payment Dates: []
- (f) Business Day Convention: [Floating Rate Convention/Following Business Day Convention/Modified Following Business Day Convention/Preceding Business Day Convention/specify *other*]
- (g) Additional Business Centre(s): []
- (h) Minimum Rate of Interest: []% per annum
- (i) Maximum Rate of Interest: []% per annum
- (j) Day Count Fraction: []
20. Dual Currency Interest Note Provisions: [Applicable/Not Applicable]
(*If not applicable, delete the remaining subparagraphs of this paragraph*)
- (a) Rate of Exchange/method of calculating Rate of Exchange: [*give or annex details*]
- (b) Party, if any, responsible for calculating the principal and/or interest due (if not the Agent): []
- (c) Provisions applicable where calculation by reference to Rate of Exchange impossible or impracticable: [*need to include a description of market disruption or settlement disruption events and adjustment provisions*]
- (d) Person at whose option Specified Currency(ies) is/are payable: []

PROVISIONS RELATING TO REDEMPTION

21. Issuer Call: [Applicable/Not Applicable] (*If not applicable, delete the remaining subparagraphs of this paragraph*)
- (a) Optional Redemption Date(s): []
- (b) Optional Redemption Amount and method, if any, of calculation of such amount(s): [[] per Calculation Amount/[Spens Amount/Make-whole Amount/] *specify other/see Appendix*]
- (c) If redeemable in part:
- (i) Minimum Redemption Amount: []
- (ii) Maximum Redemption Amount: []
- (d) Notice periods: []
- (N.B. When setting notice periods, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems (which require a minimum of 5 clearing system business days' notice for a call) and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Agent or Trustee.)*
22. Final Redemption Amount: [[] per Calculation Amount/*specify other/see Appendix*]
23. Early Redemption Amount payable on redemption for taxation reasons or on event of default and/or the method of calculating the same (if required): [[] per Calculation Amount/*specify other/see Appendix*] (*N.B. If the Final Redemption Amount is 100% of the nominal value (including par), the Early Redemption Amount is likely to be par. If, however, the Final Redemption Amount is other than 100% of the nominal value, consideration should be given as to what the Early Redemption Amount should be.*)
24. Redemption Amount payable on redemption upon a Change of Control Triggering Event, if different from that set out in Condition 7.4: [[] per Calculation Amount/*specify other/see Appendix*]

GENERAL PROVISIONS APPLICABLE TO THE NOTES

25. Form of Notes: [Bearer Notes:
- [Temporary Global Note exchangeable for a Permanent Global Note which is exchangeable for Definitive Notes upon an Exchange Event]
- [Temporary Global Note exchangeable for Definitive Notes on and after the Exchange Date]

[Permanent Global Note exchangeable for Definitive Notes upon an Exchange Event]]

(Ensure that this is consistent with the wording in the “Form of the Notes” section in the Offering Circular and the Notes themselves.

(N.B. The option for an issue of Notes to be represented on issue by a Temporary Global Note exchangeable for Definitive Notes should not be expressed to be applicable if the Specified Denomination of the Notes in paragraph 7 includes language substantially to the following effect: “[€100,000] and integral multiples of [€1,000] in excess thereof up to and including [€199,000].”)

[Registered Notes:

[Global Note registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg]]

26. Additional Financial Centre(s) or other special provisions relating to payment dates:

[Not Applicable/give details]

(Note that this paragraph relates to the date of payment and not the end dates of Interest Periods for the purposes of calculating the amount of interest, to which sub-paragraphs 17(c) and 19(g) relate)

For the avoidance of doubt, the Conditions provide that “Payment Day” for the Notes means:

(a) [give details as per above if applicable]; [and]

(b) [New York City]³/[Hong Kong]⁴/[Singapore]⁵/[London]⁶//[TARGET2 Business Day (being any day on which T2 is open for the settlement of payments in euro)]⁷.

27. Talons for future Coupons to be attached to Definitive Notes:

[Yes/No] *(If yes, give details)*

28. Details relating to Partly Paid Notes: amount of each payment comprising the Issue Price and date on which each payment is to be made and consequences (if any) of failure to pay, including any right of the Issuer to forfeit the Notes and interest due on late payment:

[Not Applicable/give details. N.B. A new form of Temporary Global Note and/or Permanent Global Note may be required for Partly Paid issues]

3 For USD denominated drawdowns.

4 For HKD or CNY denominated drawdowns.

5 For SGD denominated drawdowns.

6 For Sterling denominated drawdowns.

7 For euro denominated drawdowns.

29. Details relating to Instalment Notes: [Applicable/Not Applicable]
(If not applicable, delete the remaining subparagraphs of this paragraph)
- (a) Instalment Amount(s): [give details]
- (b) Instalment Date(s): [give details]
30. Other terms or special conditions: [Not Applicable/give details]
31. Governing law: English law

HONG KONG SFC CODE OF CONDUCT

32. Rebates: [A rebate of [●] bps is being offered by the Issuer to all private banks for orders they place (other than in relation to Notes subscribed by such private banks as principal whereby it is deploying its own balance sheet for onward selling to investors), payable upon closing of this offering based on the principal amount of the Notes distributed by such private banks to investors. Private banks are deemed to be placing an order on a principal basis unless they inform the CMIs otherwise. As a result, private banks placing an order on a principal basis (including those deemed as placing an order as principal) will not be entitled to, and will not be paid, the rebate.]/[Not Applicable]
33. Contact email addresses of the Overall Coordinators where underlying investor information in relation to omnibus orders should be sent: [Include relevant contact email addresses of the Overall Coordinators where the underlying investor information should be sent – OCs to provide]/[Not Applicable]
34. Marketing and Investor Targeting Strategy: [As indicated in the Offering Circular]/[Describe if different from the Offering Circular]

PART B – OTHER INFORMATION

1. **LISTING** [Application [has been made/is expected to be made] by the Issuer (or on its behalf) for the Notes to be listed on [specify market – note this must not be a regulated market] with effect from [].]
[Not Applicable]
2. **RATINGS:** [The Notes to be issued [[have been]/[are expected to be]] rated [insert details] by [insert the legal name of the relevant credit rating agency entity(ies)]. (The above disclosure is only required if the ratings of the Notes are different to those stated in the Offering Circular)

3. OPERATIONAL INFORMATION

- (i) ISIN: []
- (ii) Common Code: []
- (iii) Any clearing system(s) other than Euroclear and Clearstream, Luxembourg and the relevant identification number(s): [Not Applicable/give name(s) and number(s)]
- (iv) Delivery: Delivery [against/free of] payment
- (v) Names and addresses of additional Paying Agent(s) (if any): []

4. PROVISIONS RELATING TO GSS BONDS

- (i) GSS Bonds: Applicable/Not Applicable
(If not GSS Bonds, delete the remaining subparagraphs of this paragraph)
 - Green Bonds: [Yes/No]
 - Social Bonds: [Yes/No]
 - Sustainability Bonds: [Yes/No]
- (ii) [Reviewer(s):] []
- (iii) Date of Second-party Opinion: [Not Applicable/give details]

5. DISTRIBUTION

- (i) Method of distribution: [Syndicated/Non-syndicated]
- (ii) If syndicated, names of Managers: [Not Applicable/give names]
- (iii) Stabilisation Manager(s) (if any): [Not Applicable/give name(s)]
- (iv) If non-syndicated, name of relevant Dealer: [Not Applicable/give name]
- (v) US Selling Restrictions: Reg. S Compliance Category 1; [TEFRA D/TEFRA C/TEFRA not applicable]

- | | |

[USE OF PROCEEDS

[To include if the use of proceeds is different from that set out in the Offering Circular.]

[For GSS Bonds: [An amount equal to the net proceeds from the Notes will be applied by the Bank to finance or refinance, in whole or in part, Eligible [Green] [and] Social] Assets in accordance with certain prescribed eligibility criteria as described under the Sustainable Finance Framework. See “Use of Proceeds” and “Sustainable Finance Framework” sections in the Offering Circular.]

PURPOSE OF PRICING SUPPLEMENT

This Pricing Supplement comprises the final terms required for issue and admission to trading of the Notes described herein pursuant to the US\$4,000,000,000 Euro Medium Term Note Programme of PT Bank Mandiri (Persero) Tbk.

RESPONSIBILITY

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

Signed on behalf of **PT Bank Mandiri (Persero) Tbk:**

By: _____

Duly authorised

TERMS AND CONDITIONS OF THE NOTES

The following are the Terms and Conditions of the Notes which will be incorporated by reference into each Global Note (as defined below), each Definitive Bearer Note and each Definitive Registered Note, but, in the case of Definitive Bearer Notes and Definitive Registered Notes, only if permitted by the relevant stock exchange or other relevant authority (if any) and agreed by the Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, such Definitive Bearer Note or Definitive Registered Note will have endorsed thereon or attached thereto such Terms and Conditions. The applicable Pricing Supplement in relation to any Tranche of Notes may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following Terms and Conditions, replace or modify the following Terms and Conditions for the purpose of such Notes. The applicable Pricing Supplement (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note. Reference should be made to “Applicable Pricing Supplement” for a description of the content of Pricing Supplement which will specify which of such terms are to apply in relation to the relevant Notes.

This Note is one of a Series (as defined below) of Notes issued by PT Bank Mandiri (Persero) Tbk (the “**Issuer**”) constituted by a Trust Deed dated 27 March 2023 (such Trust Deed as modified and/or supplemented and/or restated from time to time, the “**Trust Deed**”) and made between the Issuer and The Bank of New York Mellon, London Branch (the “**Trustee**”, which expression shall include any successor as Trustee).

References herein to the “**Notes**” shall be references to the Notes of this Series and shall mean:

- (a) in relation to any Notes represented by a global Note (a “**Global Note**”), units of each Specified Denomination in the Specified Currency (as defined below);
- (b) any Global Note in bearer form (each a “**Bearer Global Note**”);
- (c) any Global Note in registered form (each a “**Registered Global Note**”);
- (d) any definitive Notes in bearer form (“**Definitive Bearer Notes**” and, together with Bearer Global Notes, the “**Bearer Notes**”) issued in exchange for a Global Note in bearer form; and
- (e) any definitive Notes in registered form (“**Definitive Registered Notes**” and, together with Registered Global Notes, the “**Registered Notes**”) issued in exchange for a Global Note in registered form.

The Notes, the Receipts (as defined below) and the Coupons (as defined below) have the benefit of an Agency Agreement dated 27 March 2023 (such Agency Agreement as amended and/or supplemented and/or restated from time to time, the “**Agency Agreement**”) and made between the Issuer, the Trustee, The Bank of New York Mellon, London Branch as principal paying agent (the “**Principal Paying Agent**”, which expression shall include any successor principal paying agent), The Bank of New York Mellon SA/NV, Luxembourg Branch as registrar (the “**Registrar**”, which expression shall include any successor registrar) and transfer agent (the “**Transfer Agent**”, which expression shall include any successor transfer agent) and The Bank of New York Mellon, London Branch as paying agent (the “**Paying Agent**”, and together with the Principal Paying Agent and the Registrar, the “**Paying Agents**”, which expression shall include any additional or successor paying agent) and as calculation agent (the “**Calculation Agent**”).

The final terms for this Note (or the relevant provisions thereof) are set out in the Pricing Supplement attached to or endorsed on this Note which supplement these Terms and Conditions (the “**Conditions**”) and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the Conditions, replace or modify the Conditions for the purposes of this Note. References to the “**applicable Pricing Supplement**” are to the Pricing Supplement (or the relevant provisions thereof) attached to or endorsed on this Note.

Interest-bearing Definitive Bearer Notes have interest coupons (“**Coupons**”) and, if indicated in the applicable Pricing Supplement, talons for further Coupons (“**Talons**”) attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Definitive Bearer Notes repayable in instalments have receipts (“**Receipts**”) for the payment of the instalments of principal (other than the final instalment) attached on issue. Registered Notes and Global Notes do not have Receipts, Coupons or Talons attached on issue.

The Trustee acts for the benefit of the Noteholders (which expression shall mean (in the case of Bearer Notes) the holders of the Notes and (in the case of Registered Notes) the persons in whose name the Notes are registered and shall, in relation to any Notes represented by a Global Note, be construed as provided below), the holders of the Receipts (the “**Receiptholders**”) and the holders of the Coupons (the “**Couponholders**”, which expression shall, unless the context otherwise requires, include the holders of the Talons), in accordance with the provisions of the Trust Deed.

As used herein, “**Tranche**” means Notes which are identical in all respects (including as to listing and admission to trading) and “**Series**” means a Tranche of Notes together with any further Tranche or Tranches of Notes which (a) are expressed to be consolidated and form a single series; and (b) have the same terms and conditions or terms and conditions which are the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue.

Copies of the Trust Deed and the Agency Agreement are available for inspection during normal business hours at the specified office for the time being of the Trustee being at 160 Queen Victoria Street, London EC4V 4LA, United Kingdom and at the specified office of the Principal Paying Agent, the Registrar, Transfer Agents and the other Paying Agents (the “**Agents**”) upon prior written request and satisfactory proof of holding. Copies of the applicable Pricing Supplement are available for viewing at the registered office of the Issuer and the Principal Paying Agent, and copies may be obtained from those offices save that, if this Note is an unlisted Note of any Series, the applicable Pricing Supplement will only be obtainable upon prior written request by a Noteholder holding one or more Notes and such Noteholder must produce evidence satisfactory to the Issuer and the Principal Paying Agent as to its holding of such Notes and identity. The Noteholders, the Receiptholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Trust Deed, the Agency Agreement and the applicable Pricing Supplement which are applicable to them. The statements in the Conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed and the Agency Agreement.

Words and expressions defined in the Trust Deed, the Agency Agreement or used in the applicable Pricing Supplement shall have the same meanings where used in the Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Trust Deed and the Agency Agreement, the Trust Deed will prevail and, in the event of inconsistency between the Trust Deed or the Agency Agreement and the applicable Pricing Supplement, the applicable Pricing Supplement will prevail.

In the Conditions, “**euro**” means the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended.

1. FORM, DENOMINATION AND TITLE

The Notes are in bearer form or in registered form as specified in the applicable Pricing Supplement and, in the case of definitive Notes, serially numbered, in the currency (the “**Specified Currency**”) and the denominations (the “**Specified Denomination(s)**”) specified in the applicable Pricing Supplement. Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination and Bearer Notes may not be exchanged for Registered Notes and *vice versa*.

This Note may be a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, an Index Linked Interest Note, a Dual Currency Interest Note or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Pricing Supplement.

This Note may be an Index Linked Redemption Note, an Instalment Note, a Dual Currency Redemption Note, a Partly Paid Note or a combination of any of the foregoing, depending upon the Redemption/Payment Basis shown in the applicable Pricing Supplement.

Definitive Bearer Notes are issued with Coupons attached, unless they are Zero Coupon Notes in which case references to Coupons and Couponholders in the Conditions are not applicable.

Subject as set out below, title to the Bearer Notes, Receipts and Coupons will pass by delivery, and title to the Registered Notes will pass upon registration of transfers in accordance with the provisions of the Agency Agreement. The Issuer, the Trustee and any Agent will (except as otherwise required by law or as ordered by a court of competent jurisdiction) deem and treat the bearer of any Bearer Note, Receipt or Coupon and the registered holder of any Registered Note as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any Global Note, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear Bank SA/NV (“**Euroclear**”) and/or Clearstream Banking S.A. (“**Clearstream, Luxembourg**”), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Trustee and the Agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Bearer Global Note, or the registered holder of the relevant Registered Global Note, as the case may be, shall be treated by the Issuer, the Trustee and any Agent as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions “**Noteholder**” and “**holder of Notes**” and related expressions shall be construed accordingly.

In determining whether a particular person is entitled to a particular nominal amount of Notes as aforesaid, the Trustee may rely on such evidence and/or information and/or certification as it shall, in its absolute discretion, think fit and, if it does so rely, such evidence and/or information and/or certification shall, in the absence of manifest error, be conclusive and binding on all concerned.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as the case may be. References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Pricing Supplement or as may otherwise be approved by the Issuer, the Principal Paying Agent and the Trustee.

For so long as any Notes are listed on the SGX-ST and the rules of the SGX-ST so require, the Issuer shall appoint and maintain a paying agent in Singapore, where such Notes may be presented or surrendered for payment or redemption, in the event that any of the Global Notes representing such Notes is exchanged for definitive Notes. In addition, in the event that any of the Global Notes is exchanged for definitive Notes, an announcement of such exchange will be made by or on behalf of the Issuer through the SGX-ST and such announcement will include all material information with respect to the delivery of the definitive Notes, including details of the paying agent in Singapore.

2. TRANSFERS OF REGISTERED NOTES

2.1 Transfers of interests in Registered Global Notes

Transfers of beneficial interests in Registered Global Notes will be effected by Euroclear or Clearstream, Luxembourg, as the case may be, and, in turn, by other participants and, if appropriate, indirect participants in such clearing systems acting on behalf of transferors and transferees of such interests. A beneficial interest in a Registered Global Note will, subject to compliance with all applicable legal and regulatory restrictions, be transferable for Notes in definitive form or for a beneficial interest in another Registered Global Note of the same series only in the authorised denominations set out in the applicable Pricing Supplement and only in accordance with the rules and operating procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be, and in accordance with the terms and conditions specified in the Trust Deed and the Agency Agreement. Transfers of a Registered Global Note registered in the name of a nominee for Euroclear or Clearstream, Luxembourg shall be limited to transfers of such Registered Global Note, in whole but not in part, to another nominee of Euroclear or Clearstream, Luxembourg or to a successor of Euroclear or Clearstream, Luxembourg or such successor's nominee.

2.2 Transfers of Registered Notes in definitive form

Subject as provided in Conditions 2.3 and 2.5 below, upon the terms and subject to the conditions set forth in the Trust Deed and the Agency Agreement, a Definitive Registered Note may be transferred in whole or in part (in the authorised denominations set out in the applicable Pricing Supplement). In order to effect any such transfer:

- (a) the Noteholder or Noteholders must:
 - (i) surrender the Registered Note for registration of the transfer of the Registered Note (or the relevant part of the Registered Note) at the specified office of any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing; and
 - (ii) complete and deposit such other certifications as may be required by the relevant Transfer Agent; and
- (b) the relevant Transfer Agent must be satisfied with the documents of title and the identity of the person making the request.

Any such transfer will be subject to such reasonable regulations as the Issuer, the Trustee and the Registrar may from time to time prescribe (the initial such regulations being set out in Schedule 3 to the Agency Agreement). Subject as provided above, the relevant Transfer Agent will, within five business days (being for this purpose a day on which banks are open for business in the city where the specified office of the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail, to such address as the transferee may request, a new Registered Note in definitive form of a like aggregate nominal amount to the Registered Note (or the relevant part of the Registered Note) transferred. In the case of the transfer of part only of a Registered Note in definitive form, a new Registered Note in definitive form in respect of the balance of the Registered Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

2.3 Registration of transfer upon partial redemption

In the event of a partial redemption of Notes under Condition 7, the Issuer shall not be required to register the transfer of any Registered Note, or part of a Registered Note, called for partial redemption.

2.4 Costs of registration

Noteholders will not be required to bear the costs and expenses of effecting any registration of transfer as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Issuer may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

2.5 Closed Periods

No Noteholder may require the transfer of a Registered Note to be registered during the period of:

- (i) fifteen (15) days ending on (and including) the due date for redemption of, or payment of any Instalment Amount in respect of, that Note; and
- (ii) seven (7) days ending on (and including) any Record Date (as defined in Condition 6.4).

3. STATUS OF THE NOTES

The Notes and any relative Receipts and Coupons are direct, unconditional, unsubordinated and (subject to the provisions of Condition 4) unsecured obligations of the Issuer and rank *pari passu* among themselves and (save for certain obligations required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer, from time to time outstanding.

4. NEGATIVE PLEDGE

4.1 Negative Pledge

So long as any of the Notes remains outstanding, the Issuer will not and the Issuer shall ensure that no Material Subsidiary (as defined below) of the Issuer will create or have outstanding any mortgage, *hak tanggungan*, fiducia, charge, lien, pledge or other security interest (each a “**Security Interest**”) upon, or with respect to, any of its present or future business, undertaking, assets or revenues (including any uncalled capital) to secure any Relevant Indebtedness (as defined below), unless the Issuer, in the case of the creation of a Security Interest, before or at the same time and, in any other case, promptly, takes any and all action necessary to ensure that:

- (a) all amounts payable by it under the Notes and the Trust Deed (in respect of the Notes) are secured by the Security Interest equally and rateably with the Relevant Indebtedness to the satisfaction of the Trustee; or
- (b) such other Security Interest or other arrangement (whether or not it includes the giving of a Security Interest) is provided which the Trustee shall, in its absolute discretion, deem not materially less beneficial to the Noteholders or as is approved by an Extraordinary Resolution (which is defined in the Trust Deed as a resolution duly passed by a majority of not less than two-thirds of the votes cast) of the Noteholders,

provided that, for the avoidance of doubt, this Condition 4.1 shall not be applicable to any Security Interest created or permitted to subsist in connection with a Structured Finance Transaction (as defined below).

4.2 Interpretation

For the purposes of these Conditions:

- (a) “**Material Subsidiary**” means at any time a Subsidiary:
 - (i) whose revenue or whose total assets represent in each case (or, in the case of a Subsidiary acquired after the end of the financial period to which the then latest audited consolidated accounts of the Issuer and its Subsidiaries relate, are equal to) not less than 10% of the consolidated revenue, or, as the case may be, consolidated total assets, of the Issuer and its Subsidiaries taken as a whole, all as calculated respectively by reference to the then latest audited accounts of such Subsidiary and the then latest audited consolidated accounts of the Issuer and its Subsidiaries, provided that in the case of a Subsidiary of the Issuer acquired after the end of the financial period to which the then latest audited consolidated accounts of the Issuer and its Subsidiaries relate, the reference to the then latest audited consolidated accounts of the Issuer and its Subsidiaries for the purposes of the calculation above shall, until consolidated accounts for the financial period in which the acquisition is made have been prepared and audited as aforesaid, be deemed to be a reference to such first-mentioned accounts as if such Subsidiary had been shown in such accounts by reference to its then latest relevant audited accounts, adjusted as deemed appropriate by the Issuer;
 - (ii) to which is transferred the whole or substantially the whole of the undertaking and assets of a Subsidiary of the Issuer which immediately prior to such transfer is a Material Subsidiary, provided that the transferor Subsidiary shall upon such transfer forthwith cease to be a Material Subsidiary and the transferee Subsidiary

shall become a Material Subsidiary pursuant to this paragraph (ii) on the date on which the consolidated accounts of the Issuer and its Subsidiaries for the financial period current at the date of such transfer have been prepared and audited as aforesaid but so that such transferor Subsidiary or such transferee Subsidiary may be a Material Subsidiary on or at any time after the date on which such consolidated accounts have been prepared and audited as aforesaid by virtue of the provisions of paragraph (i) of this definition or, prior to or after such date, by virtue of any other applicable provision of this definition; or

- (iii) to which is transferred an undertaking or assets which, taken together with the undertaking or assets of the transferee Subsidiary, generated (or, in the case of the transferee Subsidiary being acquired after the end of the financial period to which the then latest audited consolidated accounts of the Issuer and its Subsidiaries relate, generate revenue equal to) not less than 10% of the consolidated revenue, or represent (or, in the case aforesaid, are equal to) not less than 10% of the consolidated total assets, of the Issuer and its Subsidiaries taken as a whole, all as calculated as referred to in paragraph (i) of this definition, provided that the transferor Subsidiary (if a Material Subsidiary) shall upon such transfer forthwith cease to be a Material Subsidiary unless immediately following such transfer its undertaking and assets generate (or, in the case aforesaid, generate revenue equal to) not less than 10% of the consolidated revenue, respectively, or its assets represent (or, in the case aforesaid, are equal to) not less than 10% of the consolidated total assets, of the Issuer and its Subsidiaries taken as a whole, all as calculated as referred to in paragraph (i) of this definition, and the transferee Subsidiary shall become a Material Subsidiary pursuant to this paragraph (iii) on the date on which the consolidated accounts of the Issuer and its Subsidiaries for the financial period current at the date of such transfer have been prepared and audited but so that such transferor Subsidiary or such transferee Subsidiary may be a Material Subsidiary on or at any time after the date on which such consolidated accounts have been prepared and audited as aforesaid by virtue of the provisions of paragraph (i) of this definition or, prior to or after such date, by virtue of any other applicable provision of this definition.
- (b) **“Relevant Indebtedness”** means (i) any present or future indebtedness (whether being principal, premium, interest or other amounts) for or in respect of any notes, bonds, debentures, debenture stock, loan stock or other securities which (a) are by their terms payable, or confer a right to receive payment, in any currency other than Rupiah and (b) are for the time being, or are capable of being, quoted, listed, ordinarily dealt in or traded on any stock exchange or over-the-counter or other securities market; and (ii) any guarantee or indemnity of any such indebtedness.
- (c) **“Subsidiary”** means in relation to any person (the **“first person”**) at any particular time, any other person (the **“second person”**):
 - (i) whose affairs and policies the first person controls or has power to control, whether by ownership of share capital, contract, the power to appoint or remove members of the governing body of the second person or otherwise; or
 - (ii) whose financial statements are, in accordance with applicable law and generally accepted accounting principles, consolidated with those of the first person.
- (d) **“Structured Finance Transaction”** means any securitisation or other structured finance transaction involving the transfer of any assets, revenues, undertakings or risks associated with any such assets, revenues, or undertakings to, and the issue of securities or other indebtedness by, a special purpose company (a **“Special Purpose**

Company) and provided that (i) none of the obligations of the Special Purpose Company in respect of the transaction is subject to any recourse whatsoever in respect thereof to the Issuer, (ii) recourse to the Special Purpose Company for amounts owing under the transactions is limited to the income or cashflow of the assets or collateral comprising the Security Interest for such transaction, (iii) the assets held by the activities of the Special Purpose Company are restricted to those which are permitted for the purposes of the transaction, (iv) the parties to the transaction (including for the avoidance of doubt the holders of the securities or other indebtedness issued by the Special Purpose Company in relation to the transaction) are not entitled, by virtue of any right or claim arising out of or in connection with such indebtedness, to commence proceedings for the winding-up or dissolution of the Special Purpose Company until at least one year and one day after the full repayment of such indebtedness, (v) the transaction is conducted on arm's length terms and (vi) the benefit of the transaction accrues, directly or indirectly, to the Issuer.

5. INTEREST

5.1 Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrears on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Pricing Supplement, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

As used in the Conditions, "**Fixed Interest Period**" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Pricing Supplement, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (a) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (b) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

“Day Count Fraction” means, in respect of the calculation of an amount of interest in accordance with this Condition 5.1:

- (a) if “Actual/Actual (ICMA)” is specified in the applicable Pricing Supplement:
 - (i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **“Accrual Period”**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period; and (II) the number of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; or
 - (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year;
- (b) if “30/360” is specified in the applicable Pricing Supplement, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360; and
- (c) if “Actual/365 (Fixed)” is specified in the applicable Pricing Supplement, the actual number of days in the Accrual Period divided by 365.

In these Conditions:

“Determination Date” means the date(s) specified as such hereon or, if none is so specified, the Interest Payment Date(s);

“Determination Period” means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

“sub-unit” means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

5.2 Interest on Floating Rate Notes and Index Linked Interest Notes

(a) Interest Payment Dates

Each Floating Rate Note and Index Linked Interest Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Pricing Supplement; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Pricing Supplement, each date (each such date, together with each Specified Interest Payment Date, an “**Interest Payment Date**”) which falls the number of months or other period specified as the Specified Period in the applicable Pricing Supplement after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In these Conditions, “**Interest Period**” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If a Business Day Convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur, or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (i) in any case where Specified Periods are specified in accordance with Condition 5.2(a)(ii) above, the Floating Rate Convention, such Interest Payment Date (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply *mutatis mutandis*; or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (I) such Interest Payment Date shall be brought forward to the immediately preceding Business Day; and (II) each subsequent Interest Payment Date shall be the last Business Day in the month which falls in the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (ii) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (iii) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (iv) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, “**Business Day**” means:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in Jakarta and London and each Additional Business Centre (other than TARGET2 System) specified in the applicable Pricing Supplement; and
- (ii) if TARGET2 System is specified as an Additional Business Centre in the applicable Pricing Supplement, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System, or any successor or replacement for that system (the “**TARGET2 System**”) is open; and
- (iii) either (i) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively); or (ii) in relation to any sum payable in euro, a day on which the TARGET2 System is open.

(b) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes and Index Linked Interest Notes will be determined in the manner specified in the applicable Pricing Supplement.

(i) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any). For the purposes of this subparagraph (i), “**ISDA Rate**” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent (as defined in the ISDA Definitions (as defined below)) for that swap transaction under the terms of an agreement incorporating (i) if “2006 ISDA Definitions” is specified in the applicable Pricing Supplement, the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. (“**ISDA**”) and as amended and updated as at the Issue Date of the first Tranche of the Notes; or (ii) if “2021 ISDA Definitions” is specified in the applicable Pricing Supplement, the latest version of the 2021 ISDA Interest Rate Derivatives Definitions as published by ISDA and as amended and updated as at the Issue Date of the first Tranche of the Notes (together, the “**ISDA Definitions**”) and under which:

- (A) the Floating Rate Option is as specified in the applicable Pricing Supplement;
- (B) the Designated Maturity (if applicable) is the period specified in the applicable Pricing Supplement;

- (C) the relevant Reset Date is the day specified in the applicable Pricing Supplement;
- (D) if the Floating Rate Option is an Overnight Floating Rate Option, the Overnight Rate Compounding Method is one of the following, as specified in the applicable Pricing Supplement:
 - (a) Compounding with Lookback;
 - (b) Compounding with Observation Period Shift; or
 - (c) Compounding with Lockout.

In connection with the Overnight Rate Compounding Method, references in the ISDA Definitions to numbers or other items specified in the relevant confirmation shall be deemed to be references to the numbers or other items specified for such purpose in the applicable Final Terms.

For the purposes of this subparagraph (i), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**”, “**Overnight Floating Rate Option**”, “**Overnight Rate Compounding Method**”, “**Compounding with Lookback**”, “**Compounding with Observation Period Shift**” and “**Compounding with Lockout**” have the meanings given to those terms in the ISDA Definitions.

(ii) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation; or
- (B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at 11.00 a.m. (Brussels time, in the case of the Euro-zone inter-bank offered rate (“**EURIBOR**”)) on the Interest Determination Date in question plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such offered quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Pricing Supplement as being other than EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Pricing Supplement.

(c) Minimum Rate of Interest and/or Maximum Rate of Interest

If the applicable Pricing Supplement specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

Unless otherwise stated in the applicable Pricing Supplement, the Minimum Rate of Interest shall be deemed to be zero.

If the applicable Pricing Supplement specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(d) Determination of Rate of Interest and calculation of Interest Amounts

The Calculation Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Calculation Agent will notify the Principal Paying Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

The Calculation Agent will calculate the amount of interest (the “**Interest Amount**”) payable on the Floating Rate Notes or Index Linked Interest Notes for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Notes or Index Linked Interest Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (ii) in the case of Floating Rate Notes or Index Linked Interest Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note or an Index Linked Interest Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

“Day Count Fraction” means, in respect of the calculation of an amount of interest in accordance with this Condition 5.2:

- (i) if “Actual/Actual (ISDA)” or “Actual/Actual” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366; and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (ii) if “Actual/365 (Fixed)” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365;
- (iii) if “Actual/365 (Sterling)” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (iv) if “Actual/360” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 360;
- (v) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (vi) if “30E/360” or “Eurobond Basis” is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D₂ will be 30; and

- (vii) if “30E/360 (ISDA)” is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February; or (ii) such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date; or (ii) such number would be 31, in which case D₂ will be 30.

(e) Notification of Rate of Interest and Interest Amounts

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Trustee and notice thereof to be published in accordance with Condition 14 as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. In respect of any Series of Notes listed on any stock exchange, if so required by the rules of such stock exchange, the Issuer shall cause the relevant stock exchange to be notified of the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will, if so required by the rules of such stock exchange, be promptly notified to each stock exchange on which the relevant Floating Rate Notes or Index Linked Interest Notes are for the time being listed and to the Noteholders in accordance with Condition 14. For the purposes of this paragraph, the expression “**London Business Day**” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(f) Benchmark Replacement

In addition, notwithstanding the provisions above in this Condition 5.2, if the Issuer determines that the relevant Reference Rate specified in the relevant Pricing Supplement has ceased to be published on the Relevant Screen Page as a result of such benchmark ceasing to be calculated or administered when any Rate of Interest (or the relevant component part thereof) remains to be determined by such Reference Rate, then the following provisions shall apply:

- (i) the Issuer shall use reasonable endeavours to appoint, as soon as reasonably practicable, an Independent Adviser to determine (acting in good faith and in a commercially reasonable manner), no later than five Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period (the “**IA Determination Cut-off Date**”), a Successor Rate or, alternatively, if there is no Successor Rate, an Alternative Reference Rate for purposes of determining the Rate of Interest (or the relevant component part thereof) applicable to the Notes;
- (ii) if the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser appointed by it fails to determine a Successor Rate or an Alternative Reference Rate prior to the IA Determination Cut-off Date, the Issuer (acting in good faith and in a commercially reasonable manner) may determine a Successor Rate or, if there is no Successor Rate, an Alternative Reference Rate;
- (iii) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is determined in accordance with the preceding provisions, such Successor Rate or, failing which, an Alternative Reference Rate (as applicable) shall be the Reference Rate for each of the future Interest Periods (subject to the subsequent operation of, and to adjustment as provided in, this Condition 5.2(f); provided, however, that if sub-paragraph (ii) applies and the Issuer is unable to or does not determine a Successor Rate or an Alternative Reference Rate prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the preceding Interest Period (or alternatively, if there has not been a first Interest Payment Date, the rate of

interest shall be the initial Rate of Interest (if any)) (subject, where applicable, to substituting the Margin that applied to such preceding Interest Period for the Margin that is to be applied to the relevant Interest Period and, if applicable, to any Maximum Rate of Interest and/or Minimum Rate of Interest applicable to the relevant Interest Period); for the avoidance of doubt, the proviso in this sub-paragraph (iii) shall apply to the relevant Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 5.2(f);

- (iv) if the Independent Adviser or the Issuer determines a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) in accordance with the above provisions, the Independent Adviser or the Issuer (as applicable), may also specify changes to these Conditions, including but not limited to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Interest Determination Date and/or the definition of Reference Rate applicable to the Notes, and the method for determining the fallback rate in relation to the Notes, in order to follow market practice in relation to the Successor Rate or the Alternative Reference Rate (as applicable). If the Independent Adviser (in consultation with the Issuer) or the Issuer (as applicable) determines that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Reference Rate (as applicable). If the Independent Adviser or the Issuer (as applicable) is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread;
- (v) at the request of the Issuer, but subject to receipt by the Trustee and (if applicable) the Principal Paying Agent and the Calculation Agent of a certificate signed by two Authorised Signatories of the Issuer, the Trustee and (if applicable) the Principal Paying Agent and the Calculation Agent shall (at the expense and direction of the Issuer), without any requirement for the consent or approval of the Noteholders, be obliged to concur with such determination by the Independent Adviser (following consultation with the Issuer) in using its reasonable endeavours in effecting any benchmark amendments (including, *inter alia*, by the execution of a deed supplemental to or amending the Trust Deed, the Agency Agreement and these Conditions) and the Trustee and (if applicable) the Principal Paying Agent and the Calculation Agent shall not be liable to any party for any consequences thereof, provided that the Trustee and (if applicable) the Principal Paying Agent and the Calculation Agent shall not be obliged so to concur if, in the opinion of the Trustee, the Principal Paying Agent or the Calculation Agent, doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the rights and/or the protective provisions afforded to it in the Conditions, the Agency Agreement and/or the Trust Deed and/or any documents to which it is a party (including, for the avoidance of doubt, any supplemental trust deed) in any way. Noteholder consent shall not be required in connection with effecting the Successor Rate or Alternative Reference Rate (as applicable) or such other changes, including for the execution of any documents or other steps by the Trustee or Principal Paying Agent (if required); and

- (vi) the Issuer shall promptly, following the determination of any Successor Rate or Alternative Reference Rate (as applicable), give notice thereof to the Trustee, the Principal Paying Agent and the Noteholders, which shall specify the effective date(s) for such Successor Rate or Alternative Reference Rate (as applicable) and any consequential changes made to these Conditions.

An Independent Adviser appointed pursuant to these Conditions will act as an expert and (in the absence of gross negligence, wilful default or fraud) shall have no liability whatsoever to the Trustee, the Principal Paying Agent, the Calculation Agent or the Noteholders for any determination made by it under these Conditions.

For the purposes of this Condition 5.2(f):

“Adjustment Spread” means a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Independent Adviser (in consultation with the Issuer) or the Issuer (as applicable), determines is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to Noteholders, Receiptholders and Couponholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Reference Rate (as applicable) and is the spread, formula or methodology which:

- (A) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body;
- (B) in the case of a Successor Rate for which no such recommendation has been made or in the case of an Alternative Reference Rate, the Independent Adviser (in consultation with the Issuer) or the Issuer (as applicable) determines is recognised or acknowledged as being in customary market usage in international debt capital markets transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or
- (C) if no such customary market usage is recognised or acknowledged, the Independent Adviser (in consultation with the Issuer) or the Issuer in its discretion (as applicable), determines (acting in good faith and in a commercially reasonable manner) to be appropriate;

“Alternative Reference Rate” means the rate that the Independent Adviser or the Issuer (as applicable) determines has replaced the relevant Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest in respect of bonds denominated in the Specified Currency and of a comparable duration to the relevant Interest Period, or, if the Independent Adviser or the Issuer (as applicable) determines that there is no such rate, such other rate as the Independent Adviser or the Issuer (as applicable) determines in its discretion (acting in good faith and in a commercially reasonable manner) is most comparable to the relevant Reference Rate;

“Independent Adviser” means an independent financial institution of international repute or other independent financial adviser experienced in the international debt capital markets, in each case appointed by the Issuer at its own expense;

“Relevant Nominating Body” means, in respect of a Reference Rate:

- (A) the central bank for the currency to which the Reference Rate relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the Reference Rate; or
- (B) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the Reference Rate relates, (b) any central bank or other supervisory authority which is responsible for supervising the administrator of the Reference Rate, (c) a group of the aforementioned central banks or other supervisory authorities, or (d) the Financial Stability Board or any part thereof; and

“Successor Rate” means the rate that the Independent Adviser or the Issuer (as applicable) determines is a successor to or replacement of the Reference Rate which is formally recommended by any Relevant Nominating Body.

- (g) Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5.2, whether by the Principal Paying Agent or, if applicable, the Calculation Agent shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Trustee, the Principal Paying Agent, the Registrar, the Calculation Agent (if applicable), the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence of wilful default, gross negligence or fraud), no liability to the Issuer, the Noteholders, the Receiptholders or the Couponholders shall attach to the Principal Paying Agent, the Trustee or, if applicable, the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

5.3 Interest on Dual Currency Interest Notes

The rate or amount of interest payable in respect of Dual Currency Interest Notes shall be determined in the manner specified in the applicable Pricing Supplement.

5.4 Interest on Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Pricing Supplement.

5.5 Accrual of interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (a) the date on which all amounts due in respect of such Note have been paid; and
- (b) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent or the Registrar, as the case may be, and notice to that effect has been given to the Noteholders in accordance with Condition 14.

6. PAYMENTS

6.1 Method of payment

Subject as provided below:

- (a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with a bank in the principal financial centre of the country of such Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively); and
- (b) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the US Internal Revenue Code of 1986 (the “**Code**”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto.

6.2 Presentation of Definitive Bearer Notes, Receipts and Coupons

Payments of principal in respect of Definitive Bearer Notes will (subject as provided below) be made in the manner provided in Condition 6.1 above only against presentation and surrender (or, in the case of part-payment of any sum due, endorsement) of Definitive Bearer Notes, and payments of interest in respect of Definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part-payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).

Payments of instalments of principal (if any) in respect of Definitive Bearer Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in Condition 6.1 above only against presentation and surrender (or, in the case of part-payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in Condition 6.1 above only against presentation and surrender (or, in the case of part-payment of any sum due, endorsement) of the relevant Bearer Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer Note to which it appertains. Receipts presented without the Definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any Definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Dual Currency Notes, Index Linked Notes or Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount

of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in Condition 8) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 9) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note, Index Linked Note or Long Maturity Note in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A **“Long Maturity Note”** is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any Definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Bearer Note.

6.3 Payments in respect of Bearer Global Notes

Payments of principal and interest (if any) in respect of Bearer Global Notes will (subject as provided below) be made in the manner specified above in relation to Definitive Bearer Notes or otherwise in the manner specified in the relevant Bearer Global Note against presentation or surrender, as the case may be, of such Bearer Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made, distinguishing between any payment of principal and any payment of interest, will be made on such Bearer Global Note by the Paying Agent to which it was presented and such record shall be prima facie evidence that the payment in question has been made.

6.4 Payments in respect of Registered Notes

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part-payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the **“Register”**) (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date; and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date. For these purposes, **“Designated Account”** means the account (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by a holder with a Designated Bank and identified as such in the Register and **“Designated Bank”** means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the

Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively) and (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made by transfer on the due date to the Designated Account of the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date; and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the relevant due date (the “**Record Date**”). Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal amount of such Registered Note.

No commissions or expenses shall be charged to the holders by the Registrar in respect of any payments of principal or interest in respect of Registered Notes.

None of the Issuer, the Trustee or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

6.5 General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Bearer Notes is payable in US dollars, such US dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (a) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in US dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- (b) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in US dollars; and
- (c) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

6.6 Payment Day

If the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, “**Payment Day**” means any day which (subject to Condition 9) is:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits):
 - (i) in the case of Notes in definitive form only, in the relevant place of presentation; and
 - (ii) in each Additional Financial Centre (other than TARGET2 System) specified in the applicable Pricing Supplement;
- (b) if TARGET2 System is specified as an Additional Financial Centre in the applicable Pricing Supplement, a day on which the TARGET2 System is open; and
- (c) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively); or (B) in relation to any sum payable in euro, a day on which the TARGET2 System is open.

6.7 Interpretation of principal and interest

Any reference in the Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (a) any additional amounts which may be payable with respect to principal under Condition 8 or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Trust Deed;
- (b) the Final Redemption Amount of the Notes;
- (c) the Early Redemption Amount of the Notes;
- (d) the Optional Redemption Amount(s) (if any) of the Notes;
- (e) in relation to Notes redeemable in instalments, the Instalment Amounts; and
- (f) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in the Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 8 or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Trust Deed.

7. REDEMPTION AND PURCHASE

7.1 Redemption at maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note (including each Index Linked Redemption Note and Dual Currency Redemption Note) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Pricing Supplement in the relevant Specified Currency on the Maturity Date specified in the applicable Pricing Supplement.

7.2 Redemption for tax reasons

Subject to Condition 7.5, the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if this Note is neither a Floating Rate Note, an Index Linked Interest Note nor a Dual Currency Interest Note) or on any Interest Payment Date (if this Note is either a Floating Rate Note, an Index Linked Interest Note or a Dual Currency Interest Note), on giving not less than 30 and not more than 60 days' notice to the Trustee and the Principal Paying Agent and, in accordance with Condition 14, the Noteholders (which notice shall be irrevocable), if the Issuer satisfies the Trustee immediately before the giving of such notice that:

- (a) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 8 as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 8) or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes; and
- (b) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Trustee to make available at its specified office to the Noteholders (i) a certificate signed by two Authorised Signatories of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred; and (ii) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment; and the Trustee shall be entitled to accept the certificate as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Noteholders, the Receiptholders and the Couponholders.

Notes redeemed pursuant to this Condition 7.2 will be redeemed at their Early Redemption Amount as specified in the applicable Pricing Supplement, together (if appropriate) with interest accrued to (but excluding) the date of redemption.

7.3 Redemption at the option of the Issuer (Issuer Call)

If Issuer Call is specified as being applicable in the applicable Pricing Supplement, the Issuer may, having given not less than 15 nor more than 30 days' notice to the Noteholders (in accordance with Condition 14) (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Pricing Supplement together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount in each case as may be specified in the applicable Pricing Supplement.

In the case of a partial redemption of Notes, the Notes to be redeemed ("**Redeemed Notes**") will (i) in the case of Redeemed Notes represented by definitive Notes, be selected individually by lot, not more than 30 days prior to the date fixed for redemption and (ii) in the case of Redeemed Notes represented by a Global Note, be selected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg. In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 14 not less than 15 days prior to the date fixed for redemption.

7.4 Redemption upon a Change of Control Triggering Event

Upon the holder of any Note giving to the Issuer not less than 30 and not more than 45 days' notice (which notice shall be irrevocable) in accordance with Condition 14, which notice shall be given no later than 45 days following the occurrence of a Change of Control Triggering Event or, if later, 45 days from the date of the Change of Control Notice (as defined below), the Issuer will, upon the expiry of such notice, redeem all, but not some only, of such Note at a redemption price equal to 101% of its principal amount, or such other amount as specified in the applicable Pricing Supplement, together (if appropriate) with interest accrued to (but excluding) the date fixed for redemption.

For the purposes of this Condition 7.4:

- (a) "**Change of Control**" occurs when (i) the Government of the Republic of Indonesia (the "**Government**") ceases to own, either directly or indirectly (A) at least 51.0% of the Issuer's issued and paid-up share capital and/or (B) the Class A Dwiwarna Share (or other similar special share granting control over the Issuer); or (ii) the rights and benefits attaching to the Class A Dwiwarna Share as of the Issue Date are materially and adversely changed such that the Government no longer Controls the Issuer, where "Control" means the power to direct the management and policies of the entity whether through ownership of voting capital, by contract or otherwise;
- (b) "**Change of Control Triggering Event**" means a Change of Control; *provided that*, in the event that the Notes are, on the Rating Date, rated Investment Grade by two or more Rating Agencies, a "Change of Control Triggering Event" shall mean the occurrence of both a Change of Control and a Rating Decline. For the avoidance of doubt, no Change of Control Triggering Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated;
- (c) "**Class A Dwiwarna Share**" means the special share held by the Government that has exclusive rights as set out in the Issuer's Articles of Association;

- (d) **“Investment Grade”** means a rating of “AAA,” “AA,” “A” or “BBB,” as modified by a “+” or “-” indication, or an equivalent rating representing one of the four highest rating categories, by S&P or any of its successors or assigns; a rating of “Aaa,” “Aa,” “A” or “Baa,” as modified by a “1,” “2” or “3” indication, or an equivalent rating representing one of the four highest rating categories, by Moody’s or any of its successors or assigns; a rating of “BBB-” or better by Fitch or any of its successors or assigns; or the equivalent ratings of any other internationally recognised rating agency or agencies, as the case may be, which shall have been designated by the Issuer as having been substituted for S&P, Moody’s, or Fitch or any combination thereof, as the case may be;
- (e) **“Rating Agencies”** means (i) Standard & Poor’s Ratings Services, a division of The McGraw-Hill Companies, Inc., and its successors or any of their respective affiliates (**“S&P”**); (ii) Moody’s Investors Service, Inc., a subsidiary of Moody’s Corporation, and its successors or any of their respective affiliates (**“Moody’s”**); (iii) Fitch Inc., a subsidiary of Fimalac, S.A., and its successors or any of their respective affiliates (**“Fitch”**); and (iv) if one or more of S&P, Moody’s or Fitch or shall not make a rating of the Notes publicly available, an internationally recognised rating agency or agencies, as the case may be, selected by the Issuer, which shall be substituted for S&P, Moody’s or Fitch or any combination of them, as the case may be;
- (f) **“Rating Date”** means the later of:
- (i) the Issue Date; and
 - (ii) that date which is 90 days prior to the earlier of:
 - (A) a Change of Control; and
 - (B) a public notice of the occurrence of a Change of Control or of the intention by the Issuer or any other person or persons to effect a Change of Control;
- (g) **“Rating Decline”** means the occurrence of a Ratings Event within 90 days from and including the date of, or the date of a public notice of the occurrence of:
- (i) a Change of Control; or
 - (ii) the intention by the Issuer or any other person or persons to effect a Change of Control,
- provided that in the case of (ii) above, such period shall be extended by no more than an additional three (3) months after the consummation of the Change of Control, so long as the rating of the Notes is under publicly announced consideration for possible downgrade by any of the Rating Agencies; and
- (h) **“Ratings Event”** occurs when Notes, that are on the Rating Date rated Investment Grade by at least two Rating Agencies, cease to be rated Investment Grade by at least two of such Rating Agencies.

The Issuer shall give notice to the Noteholders (in accordance with Condition 14) and to the Trustee and the Principal Paying Agent in writing by not later than ten business days following the first day on which it becomes aware of the occurrence of a Change of Control Triggering Event (the **“Change of Control Notice”**).

To exercise the right to require redemption of a Note the holder of the Note must:

- (i) if the Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg, deliver, at the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the Registrar falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar (a **"Put Notice"**) and in which the holder must specify a bank account to which payment is to be made under this Condition and, in the case of Registered Notes, the nominal amount thereof to be redeemed and, if less than the full nominal amount of the Registered Notes so surrendered is to be redeemed, an address to which a new Registered Note in respect of the balance of such Registered Notes is to be sent subject to and in accordance with the provisions of Condition 2.2. If this Note is a Definitive Bearer Note, the Put Notice must be accompanied by the Note or evidence satisfactory to the Paying Agent concerned that the Note will, following delivery of the Put Notice, be held to its order or under its control; and
- (ii) if this Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of the Note the holder of this Note must, within the notice period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depository for them to the Principal Paying Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time.

Any Put Notice or other notice given in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg given by a holder of any Note pursuant to this Condition 7.4 shall be irrevocable except where, prior to the due date of redemption, an Event of Default has occurred and the Trustee has declared the Notes to be due and payable pursuant to Condition 10, in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this Condition 7.4.

7.5 Early Redemption Amounts

For the purpose of Condition 7.2 above and Condition 10, each Note will be redeemed at its Early Redemption Amount which, unless otherwise specified in the applicable Pricing Supplement, shall be calculated as follows:

- (a) in the case of a Note with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof;
- (b) in the case of a Note (other than a Zero Coupon Note but including an Instalment Note and a Partly Paid Note) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Note is denominated, at the amount specified in, or determined in the manner specified in, the applicable Pricing Supplement or, if no such amount or manner is so specified in the applicable Pricing Supplement, at its nominal amount; or

- (c) in the case of a Zero Coupon Note at its Early Redemption Amount calculated in accordance with the following formula:

Early Redemption Amount = $RP \times (1 + AY)^y$ where:

“RP” means the Reference Price;

“AY” means the Accrual Yield expressed as a decimal; and

“y” is the Day Count Fraction specified in the applicable Pricing Supplement which will be either (i) 30/360 (in which case the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (ii) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (iii) Actual/365 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 365).

7.6 Index Linked Redemption Notes, Dual Currency Redemption Notes and Instalment Notes

The Final Redemption Amount, any Optional Redemption Amount and the Early Redemption Amount in respect of Index Linked Redemption Notes and Dual Currency Redemption Notes may be specified in, or determined in the manner specified in, the applicable Pricing Supplement.

Instalment Notes will be redeemed in the Instalment Amounts and on the Instalment Dates specified in the applicable Pricing Supplement. In the case of early redemption, the Early Redemption Amount of Instalment Notes will be determined pursuant to Condition 7.5.

7.7 Partly Paid Notes

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the applicable Pricing Supplement.

7.8 Purchases

The Issuer or any Subsidiary of the Issuer may at any time purchase Notes (provided that, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Such Notes may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent and/or the Registrar for cancellation.

7.9 Cancellation

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and any Notes purchased and cancelled pursuant to Condition 7.8 above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

7.10 Late payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Conditions 7.1, 7.2, 7.3 or 7.4 above or upon its becoming due and repayable as provided in Condition 10 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in Condition 7.5(c) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (a) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (b) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Principal Paying Agent or the Trustee and notice to that effect has been given to the Noteholders in accordance with Condition 14.

8. TAXATION

All payments of principal and interest in respect of the Notes, Receipts and Coupons by or on behalf of the Issuer will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law. In such event, the Issuer will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes, Receipts or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes, Receipts or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note, Receipt or Coupon:

- (a) presented for payment in the Republic of Indonesia; or
- (b) the holder of which is liable for such taxes or duties in respect of such Note, Receipt or Coupon by reason of his having some connection with a Tax Jurisdiction other than the mere holding of such Note, Receipt or Coupon; or
- (c) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in Condition 6.6).

Notwithstanding any other provision of these Conditions, in no event will the Issuer be required to pay any additional amounts in respect of the Notes, Receipts and Coupons for, or on account of, any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto.

As used herein:

“Tax Jurisdiction” means the Republic of Indonesia or any political subdivision or any authority thereof or therein having power to tax; and

the “**Relevant Date**” means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Trustee, the Principal Paying Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 14.

Neither the Trustee nor any Agent shall be responsible for paying any tax, duty, charge, withholding or other payment referred to in this Condition 8 or for determining whether such amounts are payable or the amount thereof, and none of them shall be responsible or liable for any failure by the Issuer, any Noteholder or any third party to pay such tax, duty, charges, withholding for or on account of any tax, duty, charge, withholding or other payment imposed by or in any jurisdiction.

9. PRESCRIPTION

The Notes (whether in bearer or registered form), Receipts and Coupons will become void unless presented for payment within a period of 10 years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in Condition 8) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition or Condition 6.2 or any Talon which would be void pursuant to Condition 6.2.

10. EVENTS OF DEFAULT AND ENFORCEMENT

10.1 Events of Default

The Trustee at its discretion may, and if so requested in writing by the holders of at least one-quarter in nominal amount of the Notes then outstanding or if so directed by an Extraordinary Resolution shall (subject in each case to being indemnified and/or secured and/or pre-funded to its satisfaction), give notice in writing to the Issuer that each Note is, and each Note shall thereupon immediately become, due and repayable at its Early Redemption Amount together with accrued interest as provided in the Trust Deed if any of the following events (each an “**Event of Default**”) shall occur:

- (a) *Non-payment*: if default is made in the payment of any principal or interest due in respect of the Notes or any of them and the default continues for a period of seven days in the case of default in the payment of principal, or 14 days in the case of default in the payment of interest; or
- (b) *Breach of other obligations*: if the Issuer fails to perform or observe any of its other obligations under these Conditions or the Trust Deed and (except in any case where, in the opinion of the Trustee, the failure is incapable of remedy when no such continuation or notice as is hereinafter mentioned will be required) the failure continues for the period of 30 days next following the service by the Trustee on the Issuer of notice requiring the same to be remedied; or
- (c) *Cross-default*: if (1) any Indebtedness for Borrowed Money (as defined below) of the Issuer or any Material Subsidiary of the Issuer becomes, or becomes capable of being declared, due and payable prior to its stated maturity by reason of an event of default (however described); (2) the Issuer or any Material Subsidiary of the Issuer fails to make any payment in respect of any Indebtedness for Borrowed Money on the due date for payment or within the applicable grace period; (3) any security given by the Issuer or any Material Subsidiary of the Issuer for any Indebtedness for Borrowed Money becomes enforceable; or (4) default is made by the Issuer or any Material

Subsidiary of the Issuer in making any payment due under any guarantee and/or indemnity given by it in relation to any Indebtedness for Borrowed Money of any other person; provided that no event described in this subparagraph (c) shall constitute an Event of Default unless the relevant amount of Indebtedness for Borrowed Money or other relative liability due and unpaid, either alone or when aggregated (without duplication) with other amounts of Indebtedness for Borrowed Money and/or other liabilities due and unpaid relative to all (if any) other events specified in (1) to (4) above, amounts to at least US\$30,000,000 (or its equivalent in any other currency); or

- (d) *Winding up*: if any order is made by any competent court or resolution passed for the winding up or dissolution of the Issuer or any of its Material Subsidiaries, save for the purposes of reorganisation on terms previously approved in writing by the Trustee acting pursuant to an Extraordinary Resolution; or
- (e) *Insolvency, etc*: if the Issuer or any of its Material Subsidiaries ceases or threatens to cease to carry on the whole or a substantial part of its business, save for the purposes of reorganisation on terms previously approved in writing by the Trustee acting pursuant to an Extraordinary Resolution, or the Issuer or any of its Material Subsidiaries stops or threatens to stop payment of, or is unable to, or admits inability to, pay, its debts (or any class of its debts) as they fall due or is deemed unable to pay its debts pursuant to or for the purposes of any applicable law, or is adjudicated or found bankrupt or insolvent; or
- (f) *Appointment of receiver, manager, administrator*: if (i) proceedings are initiated against the Issuer or any of its Material Subsidiaries under any applicable liquidation, insolvency, composition, reorganisation or other similar laws, or an application is made (or documents filed with a court) for the appointment of an administrative or other receiver, manager, administrator or other similar official, or an administrative or other receiver, manager, administrator or other similar official is appointed, in relation to the Issuer or any of its Material Subsidiaries or, as the case may be, in relation to the whole or any part of the undertaking, assets or revenues of any of them, or an encumbrancer takes possession of the whole or any part of the undertaking, assets or revenues of any of them, or a distress, execution, attachment, sequestration or other process is levied, enforced upon, sued out or put in force against the whole or any part of the undertaking, assets or revenues of any of them; and (ii) in any case (other than the appointment of an administrator) is not discharged within 60 days; or
- (g) *Arrangement or Composition*: if (i) the Issuer or any of its Material Subsidiaries initiates or consents to judicial proceedings relating to itself; or (ii) the OJK initiates or consents to judicial proceedings relating to the Issuer or any of its Material Subsidiaries, in each case under any applicable liquidation, insolvency, composition, reorganisation or other similar laws (including the obtaining of a moratorium), or if the Issuer or any of its Material Subsidiaries makes a conveyance or assignment for the benefit of, or enters into any composition or other arrangement with, its creditors generally (or any class of its creditors) or any meeting is convened to consider a proposal for an arrangement or composition with its creditors generally (or any class of its creditors); or
- (h) *Illegality*: if it is or will become unlawful for the Issuer to perform or comply with any one or more of its obligations under any of the Notes; or
- (i) *Nationalisation*: if any step is taken by any person with a view to the seizure, compulsory acquisition, expropriation or nationalisation of, in the case of the Issuer, all or a substantial part of its assets or, in the case of a Material Subsidiary of the Issuer, all or substantially all of its assets; or

- (j) *Analogous event*: if any event occurs which, under the laws of any relevant jurisdiction, has or may have an analogous effect to any of paragraphs (d), (e), (f) or (g).

10.2 Enforcement

The Trustee may at any time, at its discretion and without notice, take such proceedings against the Issuer as it may think fit to enforce the provisions of the Trust Deed, the Notes, the Receipts and the Coupons, but it shall not be bound to take any such proceedings or any other action in relation to the Trust Deed, the Notes, the Receipts or the Coupons unless (a) it shall have been so directed by an Extraordinary Resolution or so requested in writing by the holders of at least one-quarter in nominal amount of the Notes then outstanding; and (b) it shall have been indemnified and/or secured and/or pre-funded to its satisfaction.

No Noteholder, Receiptholder or Couponholder shall be entitled to proceed directly against the Issuer unless the Trustee, having become bound so to proceed, fails so to do within a reasonable period and the failure shall be continuing.

10.3 Limitation on Trustee enforcement

The Trustee may refrain from taking any action in any jurisdiction if the taking of such action in that jurisdiction would, in its opinion based upon legal advice in the relevant jurisdiction, be contrary to any law of that jurisdiction. Furthermore, the Trustee may also refrain from taking such action if it would otherwise render it liable to any person in that jurisdiction or if, in its opinion based upon such legal advice, it would not have the power to do the relevant thing in that jurisdiction by virtue of any applicable law in that jurisdiction or if it is determined by any court or other competent authority in that jurisdiction that it does not have such power.

10.4 Interpretation

For the purposes of the Conditions:

“Indebtedness for Borrowed Money” means any indebtedness (whether being principal, premium, interest or other amounts) for or in respect of any notes, bonds, debentures, debenture stock, loan stock or other securities or any borrowed money or any liability under or in respect of any acceptance or acceptance credit.

11. REPLACEMENT OF NOTES, RECEIPTS, COUPONS AND TALONS

Should any Note, Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Paying Agent (in the case of Bearer Notes, Receipts or Coupons) or the Registrar (in the case of Registered Notes) upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

12. AGENTS

The initial Agents are set out above.

The Issuer is entitled, with the prior written approval of the Trustee, to vary or terminate the appointment of any Agent and/or appoint additional or other Agents and/or approve any change in the specified office through which any Agent acts, provided that:

- (a) there will at all times be a Principal Paying Agent and a Registrar;
- (b) so long as the Notes are listed on any stock exchange or admitted to listing by any other relevant authority, there will at all times be a Paying Agent (in the case of Bearer Notes) and a Transfer Agent (in the case of Registered Notes) with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange or other relevant authority;
- (c) so long as the Notes are listed on the SGX-ST and the rules of the SGX-ST so require, if the Notes are issued in definitive form, there will at all times be a Paying Agent in Singapore.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in Condition 6.5. Notice of any variation, termination, appointment or change in Paying Agents will be given to the Noteholders promptly by the Issuer in accordance with Condition 14.

In acting under the Agency Agreement, the Agents act solely as agents of the Issuer and, in certain circumstances specified therein, of the Trustee and do not assume any obligation to, or relationship of agency or trust with, any Noteholder, Receiptholder or Couponholder. The Agency Agreement contains provisions permitting any entity into which any Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor agent.

13. EXCHANGE OF TALONS

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of any Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 9.

14. NOTICES

All notices regarding the Bearer Notes will be deemed to be validly given if published in a leading English language daily newspaper of general circulation in Asia, which is expected to be the *Asian Wall Street Journal*. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of any stock exchange or other relevant authority on which the Bearer Notes are for the time being listed or by which they have been admitted to trading including publication on the website of the relevant stock exchange or relevant authority if required by those rules. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers. If publication as provided above is not practicable, a notice will be given in such other manner, and will be deemed to have been given on such date, as the Trustee shall approve.

All notices regarding the Registered Notes will be deemed to be validly given if sent by first class mail or (if posted to an address overseas) by airmail to the holders (or the first named or joint holders) at their respective addresses recorded in the Register and will be deemed to have been given on the fourth day after mailing and, in addition, for so long as any Registered Notes are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published on the website of the relevant stock exchange or relevant authority and/or in a daily newspaper of general circulation in the place or places required by those rules.

Until such time as any definitive Notes are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg, be substituted for such publication in such newspaper(s) or such websites or such mailing the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published on the website of the relevant stock exchange or relevant authority and/or in a daily newspaper of general circulation in the place or places required by those rules. Any such notice shall be deemed to have been given to the holders of the Notes on the day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relative Note or Notes, with the Principal Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes). Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Principal Paying Agent or the Registrar through Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Principal Paying Agent, the Registrar and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

15. MEETINGS OF NOTEHOLDERS, MODIFICATION, WAIVER AND SUBSTITUTION

15.1 Meetings of Noteholders

The Trust Deed contains provisions for convening meetings of the Noteholders (which meetings may be held at a physical place, by way of teleconference or videoconference (or similar platform) or a combination of the foregoing) to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Receipts, the Coupons or any of the provisions of the Trust Deed. Such a meeting may be convened by the Issuer or the Trustee and shall be convened by the Issuer if required in writing by Noteholders holding not less than 10% in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50% in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes, the Receipts or the Coupons or the Trust Deed (including modifying the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes, the Receipts or the Coupons), the quorum shall be one or more persons holding or representing not less than two-thirds in nominal amount of the Notes for the time being outstanding, or, at any adjourned such meeting, one or more

persons holding or representing not less than one-third in nominal amount of the Notes for the time being outstanding. The Trust Deed provides that (i) a resolution passed at a meeting duly convened and held in accordance with the Trust Deed by a majority consisting of not less than two-thirds of the votes cast on such resolution, (ii) a resolution in writing signed by or on behalf of the holders of not less than two-thirds in nominal amount of the Notes for the time being outstanding or (iii) consent given by way of electronic consents through the relevant clearing system(s) (in a form satisfactory to the Trustee) by or on behalf of the holders of not less than two-thirds in nominal amount of the Notes for the time being outstanding, shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. An Extraordinary Resolution passed by the Noteholders will be binding on all the Noteholders, whether or not they are present at any meeting, and whether or not they voted on the resolution, and on all Receiptholders and Couponholders.

15.2 Modification and Waiver

The Trustee may agree, without the consent of the Noteholders, Receiptholders or Couponholders, to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or the Trust Deed, or determine, without any such consent as aforesaid, that any Event of Default or potential Event of Default shall not be treated as such, where, in any such case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders so to do or may agree, without any such consent as aforesaid, to any modification which is of a formal, minor or technical nature or to correct a manifest error or an error which, in the opinion of the Trustee, is proven. Any such modification shall be binding on the Noteholders, the Receiptholders and the Couponholders and any such modification shall be notified by the Issuer to the Noteholders in accordance with Condition 14 as soon as practicable thereafter.

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation or determination), the Trustee shall have regard to the general interests of the Noteholders as a class (but shall not have regard to any interests arising from circumstances particular to individual Noteholders, Receiptholders or Couponholders whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders, Receiptholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Trustee shall not be entitled to require, nor shall any Noteholder, Receiptholder or Couponholder be entitled to claim, from the Issuer, the Trustee or any other person any indemnification or payment in respect of any tax consequences of any such exercise upon individual Noteholders, Receiptholders or Couponholders except to the extent already provided for in Condition 8 and/or any undertaking or covenant given in addition to, or in substitution for, Condition 8 pursuant to the Trust Deed.

15.3 Substitution of Issuer

The Trustee may, without the consent of the Noteholders, agree with the Issuer to the substitution in place of the Issuer (or of any previous substitute under this Condition) as the principal debtor under the Notes, the Receipts, the Coupons and the Trust Deed of another company, being a Subsidiary of the Issuer, subject to (i) the Notes being unconditionally and irrevocably guaranteed by the Issuer; (ii) the Trustee being satisfied that the interests of the Noteholders will not be materially prejudiced by the substitution; and (iii) certain other conditions set out in the Trust Deed being complied with.

16. INDEMNIFICATION OF THE TRUSTEE AND TRUSTEE CONTRACTING WITH THE ISSUER

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility, including (i) provisions relieving it from taking action unless indemnified and/or secured and/or pre-funded to its satisfaction and (ii) provisions limiting or excluding its liabilities in certain circumstances. The Trust Deed provides that, when determining whether an indemnity or any security or pre-funding is satisfactory to it, the Trustee shall be entitled (A) to evaluate its risk in any given circumstance by considering the worst case scenario and (B) to require that any indemnity or security given to it by the Noteholders or any of them be given on a joint and several basis and be supported by evidence satisfactory to it as to the financial standing and creditworthiness of each counterparty and/or as to the value of the security and an opinion as to the capacity, power and authority of each counterparty and/or the validity and effectiveness of the security.

The Trust Deed also contains provisions pursuant to which the Trustee is entitled, inter alia, (a) to enter into business transactions with the Issuer and/or any of its Subsidiaries and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, the Issuer and/or any of its Subsidiaries; (b) to exercise and enforce its rights, comply with its obligations and perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, the Noteholders, Receiptholders or Couponholders; and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

17. FURTHER ISSUES

The Issuer shall be at liberty from time to time without the consent of the Noteholders, the Receiptholders or the Couponholders to create and issue further notes having terms and conditions the same as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue and so that the same shall be consolidated and form a single Series with the outstanding Notes.

18. CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

No person shall have any right to enforce any term or condition of this Note under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

19. GOVERNING LAW AND DISPUTE RESOLUTION

19.1 Governing law

The Trust Deed, the Agency Agreement, the Notes, the Receipts, the Coupons, the Talons and any non-contractual obligations arising out of or in connection with the Trust Deed, the Agency Agreement, the Notes, the Receipts, the Coupons and the Talons are governed by, and shall be construed in accordance with, English law.

19.2 Dispute Resolution

- (a) This Condition 19.2 shall be governed by English law.
- (b) Any dispute, claim, difference or controversy arising out of, relating to, or having any connection with, the Trust Deed, the Agency Agreement, the Notes, the Receipts, the Coupons or the Talons, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Trust Deed, the Agency Agreement, the Notes, the Receipts, the Coupons or the Talons (for the purpose of this Condition, a “**Dispute**”), shall be referred to and finally resolved by arbitration administered by the Singapore International Arbitration Centre (“**SIAC**”), in accordance with the Arbitration Rules of the SIAC as amended from time to time (for the purpose of this Condition, the “**Rules**”).
- (c) The Rules are incorporated by reference into this Condition and capitalised terms used in this Condition which are not otherwise defined have the meaning given to them in the Rules.
- (d) There shall be three (3) arbitrators. The arbitrators shall be appointed in accordance with the Rules.
- (e) The seat, or legal place of arbitration, shall be Singapore.
- (f) The language used in the arbitral proceedings shall be English. All documents submitted in connection with the proceedings shall be in the English language, or, if in another language, accompanied by an English translation.
- (g) The parties hereby waive any rights of appeal to any court or tribunal of competent jurisdiction (including without limitation the courts of Indonesia, Singapore and England) to the fullest extent permitted by law in connection with any question of law arising in the course of the arbitration or with respect to any award made, except for actions relating to enforcement of the arbitration agreement or an arbitral award and except for actions seeking interim or other provisional relief in aid of arbitration proceedings in any court of competent jurisdiction.
- (h) Any monetary award shall be made and promptly payable in United States dollars free of any tax, deduction or offset, and the arbitral tribunal shall be authorised in its discretion to grant pre-award and post-award interest at commercial rates. Any costs, fees, or taxes incident to enforcing the award shall, to the maximum extent permitted by law, be charged against the party resisting such enforcement. The arbitral tribunal shall have the authority to award any remedy or relief proposed by the claimant(s) or respondent(s) pursuant to the Trust Deed, the Agency Agreement, the Notes, the Receipts, the Coupons or the Talons, including without limitation, a declaratory judgement, specific performance of any obligation created under this Agreement or the issuance of an injunction.
- (i) The award shall be final and binding upon the parties as from the date rendered. For the purpose of the enforcement of an award, the parties irrevocably and unconditionally submit to the jurisdiction of a competent court in any jurisdiction in which a party may have assets and waive any defences to such enforcement based on lack of personal jurisdiction or inconvenient forum.

- (j) All notices by one party to the other in connection with the arbitration, including service of any notice of arbitration, shall be in accordance with the provisions of Condition 14 hereof.
- (k) This arbitration agreement set forth in this Condition 19.2 shall be binding upon the parties, their successors and assigns.

19.3 Waiver of immunity

To the extent the Issuer or any of its properties, assets or revenues may have or may hereafter become entitled to, or have attributed to it, any right of immunity, on the grounds of sovereignty or otherwise, from any legal action, suit or proceeding in relation to ancillary proceedings which relate to arbitration proceedings contemplated in Condition 19.2 (“**Ancillary Proceedings**”), from the giving of any relief in any such legal action, suit or proceeding, from set-off or counterclaim in Ancillary Proceedings, from the competent jurisdiction of any court in Ancillary Proceedings, from service of process for Ancillary Proceedings, from attachment upon or prior to judgement in Ancillary Proceedings, from attachment in aid of execution of judgement in Ancillary Proceedings, or from execution of judgement in Ancillary Proceedings, or other legal process or proceeding for the giving of any relief or for the enforcement of any judgement in Ancillary Proceedings or any arbitral award made or given in connection with any Dispute, in any competent jurisdiction in which proceedings may at any time be commenced, with respect to its obligations, liabilities or any other matter under or arising out of or in connection with the Trust Deed, the Agency Agreement, the Notes or any of the transactions contemplated hereby or thereby, the Issuer hereby irrevocably and unconditionally waives, and agrees not to plead or claim, any such immunity and consents to such relief and enforcement.

20. LANGUAGE

The Notes, the Trust Deed and the Agency Agreement will be executed in both English and Bahasa Indonesia to comply with the Law No. 24 of 2009 regarding National Flag, Language, Coat of Arms and National Anthem, Presidential Regulation No. 63 of 2019 on the Use of Indonesian Language and Circular Letter of the Minister of State Owned Enterprises of the Republic of Indonesia No. SE 12/MBU/2009 on Mandatory Use of Bahasa Indonesia on Agreements of State Owned Enterprises, and in the event of any inconsistency between the English and Bahasa Indonesia versions of these documents, the English version shall prevail.

SELECTED CONSOLIDATED FINANCIAL INFORMATION

The following tables present the Bank's selected consolidated financial information as of the dates and for the periods indicated. The selected consolidated financial information as of and for the years ended 31 December 2023 and 2024 are derived from the Bank's audited consolidated financial statements as of and for the years ended 31 December 2023 and 2024 (the "**Consolidated Financial Statements**") and the related notes thereto. The Consolidated Financial Statements have been audited by KAP Rintis, Jumadi, Rianto & Rekan (formerly KAP Tanudiredja, Wibisana, Rintis & Rekan) (a member firm of the PwC global network), independent accountants, in accordance with Standards on Auditing established by the IICPA, as stated in their audit reports appearing elsewhere in this Offering Circular. Historical results of the Bank for any prior periods are not necessarily indicative of results to be expected for any future period.

The Bank's Consolidated Financial Statements are prepared and presented in accordance with IFAS.

IFAS differs in certain significant respects from IFRS. For a discussion of differences between IFAS and IFRS that are relevant to the Bank's IFAS financial statements, see "*Risk Factors – Risks relating to Indonesia – Indonesian corporate and other disclosure and accounting standards differ from those in the United States, countries in the European Union and other jurisdictions*".

The translation of Rupiah amounts into US dollars herein is provided solely for convenience. See "*Presentation of Financial and Other Information – Certain Defined Terms and Conventions*".

Notes:

The Financial Ratios used are defined as follows:

- (a) “Return on assets” means pre-tax profit (attributable to equity holders of the Bank) divided by Average Total Assets.
- (b) “Return on equity” means net profit (attributable to equity holders of the Bank) divided by average Tier 1 Capital of the Bank.
- (c) “NIM” means net interest margin or net interest income divided by Average Earning Assets.
- (d) “Macroprudential intermediation ratio” means loans to customers less deferred revenue divided by deposits.

	As of December	
	2023	2024
	(Rupiah billion)	
Standalone:		
Total allowance for impairment losses on loans*	(42,323.52)	(38,257.61)
Gross non-performing loans*	10,999.54	12,609.24
* excluding amounts to other banks		

- (f) “Cost to income ratio” means total other operating expenses divided by total operating income – net.

	For the year ended 31 December	
	2023	2024
	(Rupiah billion)	
Standalone:		
Total operating expenses	35,623.03	37,661.62
Total operating income – net	103,679.08	107,479.67

- (g) “Tier 1 capital ratio” means tier 1 capital divided by risk weighted assets.

- (h) “Capital adequacy ratio” means total capital divided by risk weighted assets.

USE OF PROCEEDS

The net proceeds from each issue of Notes (after deducting fees and expenses associated with the issue of the Notes) will be applied by the Bank for its general corporate purposes.

If so specified in the applicable Pricing Supplement, an amount equal to the net proceeds will be applied to finance or refinance, in whole or in part, the Eligible Activities in accordance with certain prescribed eligibility criteria as described under the Sustainable Finance Framework (see “*Sustainable Finance Framework*” below), or for such other purposes as set out in the applicable Pricing Supplement.

SUSTAINABLE FINANCE FRAMEWORK

The following section sets out a high-level summary of the Bank's Sustainable Finance Framework which has been published by the Bank and which, for the avoidance of doubt, is not incorporated into and does not form part of this Offering Circular.

1. Introduction

In line with the Bank's efforts to align the Bank's business strategies with the Republic of Indonesia's sustainability objectives and the United Nations' Sustainable Development Goals, the Bank developed the Sustainable Finance Framework in October 2024 (the "**Sustainable Finance Framework**"), which underscores the Bank's intention to undertake sustainability-related transactions. The Sustainable Finance Framework is aligned with the International Capital Market Association Sustainability Bond Guidelines, the Green Bond Principles, the Social Bond Principles (the "**ICMA Principles**") as well as the Association of Southeast Asian Nation Sustainability Bond Standards, Green Bond Standards, and Social Bond Standards (the "**ASEAN Standards**"). The Sustainable Finance Framework will be used for, *inter alia*, the issuance of GSS Bonds.

2. Framework Overview

The alignment of the Bank's sustainable financing initiatives with the ICMA Principles and ASEAN Standards is presented in the Bank's Sustainable Finance Framework through the following structures: Use of Proceeds, Process for Proposal Evaluation and Selection, Management of Proceeds, Reporting and External Review.

a. Use of Proceeds

An amount equal to the net proceeds of each GSS Bond will be used to finance in whole or in part, "future" and/or re-finance "existing" businesses and projects that promote any of the selected Sustainable Development Goals (as defined by the United Nations), as outlined in the Sustainable Finance Framework.

Specifically, the use of such proceeds of any GSS Bond will be applied to eligible businesses and projects, including the Bank's own operations, that meet the Eligible Activities criteria (as defined in the Sustainable Finance Framework). The Bank will determine eligibility based on assessment of whether such funds are applied to Eligible Activities, and, whether a significant positive sustainability net impact is achieved. Where relevant, an amount equal to the net proceeds of each GSS bond may also be used to lend to companies and/or projects that derive 90% or more of their revenues from activities that meet the eligibility criteria of Eligible Activities.

To align with regional and international standards, the Bank has included a list of exclusionary criteria in the Sustainable Finance Framework which will ensure that the Bank will not use the proceeds from any GSS Bond to fund any controversial assets.

b. Process for Proposal Evaluation and Selection

Potential eligible sustainable finance/lending as defined in the Eligible Activities, are expected to comply with all applicable laws and regulations and are assessed to be fit into related eligibility criteria. The evaluation and selection of eligible sustainable financial/lending projects will be based on a three-tier screening process:

- the business units will be responsible for nominating projects to finance or re-finance after screening these projects based on the eligibility and exclusionary criteria mentioned in the Sustainable Finance Framework. Projects that do not meet fundamental ESG standards are immediately excluded from Sustainable Financing scheme;
- the ESG unit will then review whether the relevant proposal qualifies as sustainable financing through a comprehensive evaluation of the proposal's environmental and social aspects; and
- the Credit Committee will have the final approval on which projects are approved for sustainable financing.

c. Management of Proceeds

The Bank will track the use of proceeds of its GSS Bonds issued under the Sustainable Finance Framework. A dedicated register will be established to record the allocation, and the proceeds will be tracked via the Bank's internal information systems.

As long as any GSS Bonds are outstanding, the Bank aims to allocate an amount equivalent to such GSS Bonds' net proceeds toward eligible assets. Unallocated proceeds will be invested in cash or high-quality, marketable instruments such as government bonds following the Bank's liquidity management strategy until appropriate uses are identified for the proceeds.

d. Reporting

The Bank's sustainable financing activities will be reported in its Annual and/or Sustainability Report, in compliance with OJK Regulation No. 51/POJK.03/2017 on Implementation of Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies, as amended under, among others, OJK Regulation No. 17 of 2023 on Establishment of Governance for Commercial Banks. Such report will contain, *inter alia*, (i) an allocation report to be published annually until an amount equal to the net proceeds of any GSS Bonds is fully allocated or should material changes be required to past allocation reports, as well as (ii) reports on the environmental and/or social impacts (which includes the target population for social instruments) of the eligible assets financed from any GSS Bonds issued where relevant and possible.

e. External Review

The Bank has appointed S&P Global Ratings to provide a second party opinion (the "**Second Party Opinion**") to assess and confirm that the Sustainable Finance Framework is in line with relevant ICMA Principles.

Regarding post-issuance reporting, for each Green, Social, Sustainability debt instrument issuance and as long as the instruments are outstanding, the Bank may engage with a third party verifier (or any other third-party appointed by the Bank as a successor to the existing third party verifier) to provide external review of the allocation of GSS Bond(s) proceeds.

3. Availability

The Sustainable Finance Framework is available on the Bank's website (<https://bankmandiri.co.id/>) while the second party opinion is available on S&P's website (<https://www.spglobal.com/ratings/en/research/pdf-articles/250110-second-party-opinion-pt-bank-mandiri-persero-tbk-sustainable-finance-framework-101611399>). The contents of these websites do not form part of this Offering Circular and are not incorporated by reference in it.

RISK FACTORS

Investors should carefully consider, among other things, the risks described below, as well as the other information contained in this Offering Circular, before making an investment decision. Any of the following risks could materially adversely affect the business, financial condition or results of operations of the Bank and, as a result, investors could lose all or part of their investment. The risks below are not the only risks the Bank faces. Additional risks and uncertainties not currently known to the Bank, or that it currently deems to be immaterial may also materially adversely affect the business, financial condition or results of operations of the Bank.

The Bank believes that the factors described below represent the principal risks inherent in investing in the Notes issued under the Programme, but the Bank's inability to pay any amounts on or in connection with any Note may occur for other reasons which may not be considered significant risks by the Bank based on information currently available to it, or which it may not currently be able to anticipate, and the Bank does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Offering Circular (including any document incorporated by reference) and reach their own views prior to making any investment decision. In making an investment decision, each investor must rely on its own examination of the Bank and the terms of the offering of the Notes.

RISKS RELATING TO THE BANK

Financial and political instability in other countries may cause increased volatility in Indonesian financial markets

The Indonesian market and the Indonesian economy are influenced by the economic and market conditions in other countries. Global political and economic uncertainty in recent years has affected the Indonesian financial market as investor sentiment took a hit in Indonesia during such episodes. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including Indonesia. A loss of investor confidence in the financial systems of other markets may cause increased volatility in the Indonesian financial markets and, more generally, in the Indonesian economy. Any financial instability or disruptions could also have a negative impact on the Indonesian economy and could harm the Bank's business and its future financial performance.

Heightened tensions across the geopolitical landscape could have implications for the Bank and its customers. Trade tensions between the United States and major trading partners, most notably China, remain heightened following the introduction of a series of tariff measures in both the United States and China and a U.S. investment ban on certain Chinese companies, and these tensions could significantly impact global trade. Such tensions are set to continue in the areas of data and technology security and the maritime claims in the South and East China Seas. In addition, the ongoing conflicts in Eastern Europe between Russia and Ukraine and in the Middle East between Hamas and Israel have also disrupted financial markets and have had adverse impact on supply chains and macro-economic conditions.

Financial market volatility and increased economic uncertainty may also arise due to specific country-related factors. For example, the Chinese government may maintain tight regulatory oversight on specific sectors (such as property and platform technology companies) and rein in debt increases even as it attempts to stabilise economic growth. To the extent that uncertainty regarding the economic outlook is heightened and starts to negatively impact consumer confidence and consumer credit factors globally or regionally, the Bank's business, financial condition and results of operations could be significantly and adversely affected. There has also been continued and lingering political unrest in certain countries within the Southeast Asia region

in recent years. Such geopolitical risks could continue to emerge in the region, resulting in economic slowdown, financial and commodity market volatilities and capital flight from emerging markets.

Further, following the election of Mr. Donald J. Trump as the president of the United States in November 2024, the Trump administration has announced and pursued policies that impact existing and proposed trade agreements, creating uncertainty in global markets. Most recently, President Trump issued executive orders to impose new tariffs on imports from key economic partners of the United States including China in February 2025, giving rise to fears of a global trade war. The United States and/or its trading partners may announce further trade restrictions, the scope and effect of which remain uncertain. The escalating trade tensions have created uncertainty in global markets, with emerging economies, including Indonesia, closely monitoring the potential spillover effects on trade flows and investment sentiment. Any changes in the United States political, regulatory, and economic conditions or in U.S. policies that affect territories in which the Bank operates or the core sectors underlying the Bank's business model could materially and adversely affect the Bank's business, financial condition, and results of operations.

Changes in the interest rate environment also have direct implications for global financial markets, particularly in emerging economies like Indonesia where capital flows remain sensitive to the global monetary policies. Following three consecutive interest rate reductions in 2024, the United States Federal Reserve has maintained its policy rate at the 4.25%-4.50% range in January 2025. The United States Federal Reserve officials have expressed cautiousness over any interest rate reduction in the near future in light of the threat of rising inflationary. As concerns remain that persistent inflation and adverse interest rate changes will further depress the economy, the economic outlook for the United States and other countries remains uncertain.

In the event that the current adverse conditions in the global credit markets continue or if there is any significant financial disruption, this could cause increased volatility in the Indonesian financial markets and have an adverse effect on the Bank's business, future financial performance and the trading price of the Notes.

The Bank's measures to further reduce its level of non-performing loans, particularly in its commercial segment, may not be successful

The Bank's commercial segment had a Gross NPL Ratio of 1.10%, compared to an overall standalone Gross NPL Ratio of 0.97% and Gross NPL Ratio of 0.36%, 0.92%, 1.94% and 2.18 % for the Corporate, SME, Micro and Consumer segments respectively, each as of 31 December 2024. In addition, 25.58% of the Bank's NPLs were in its commercial segment, as of 31 December 2024.

The Bank had Rp12,609.24 billion (US\$783.43 million) of gross non-performing loans ("NPLs") as of 31 December 2024, with the largest numbers in the consumption and textile industries. The Bank's total gross NPLs increased from Rp10,999.54 billion to Rp12,609.24 billion, but overall Gross NPL Ratio decreased from 1.02% to 0.97% as of 31 December 2024, due to a decline in Wholesale segment NPLs and a significant increase in total loans. The Bank's business consists mainly of its Wholesale Corporate and Commercial loans, which accounted for 39.32% and 22.34% of the Bank's total loans, respectively, as of 31 December 2024. The risk of non-payment by the Bank's customers is affected by the credit profile of borrowers especially in Retail segment due to decline in purchasing power in 2024.

Volatile or adverse economic conditions in Indonesia may adversely affect the ability of the Bank's borrowers to repay their indebtedness, and this may result in an increase in NPLs and provisioning, allowances for impairment losses on loans and charge-offs. NPLs may increase despite the Bank's safeguards, such as regular loan review, NPL projection for all loan segments with an increased emphasis on commercial loans, routine internal credit risk stress testing on the

Bank's loan portfolio using both macro-wide scenarios, and specific sensitivity analyses such as modelling of movements in the price of crude palm oil and other commodities. The Bank also employs early warning mechanisms and early restructurings to anticipate changes in the financial condition of specific borrowers, and maintains targeted levels of loan loss reserve ratios with the aim of ensuring that the Bank has sufficient capacity to absorb losses. The Bank's credit risk management strategy, including for its commercial segment, is based in part on the Bank's outlook for each of approximately 81 industry sectors and the effect of various factors such as movements in global and regional commodities prices on the relevant sectors. Although the Bank continues to actively manage and monitor the loan portfolio, and seeks to improve the credit risk management policies, procedures and systems, no assurance can be made that such policies, procedures and systems are free from deficiencies. Failure of any credit risk management policies, procedures and systems may result in an increase in the level of NPLs and adversely affect the quality of the Bank's loan portfolio. In addition, the quality of the Bank's loan portfolio may also deteriorate due to various other reasons, including factors beyond the Bank's control. An increase in NPLs could have a material adverse effect on the Bank's business, cash flows, financial condition, results of operations and prospects.

The Bank's loans include borrowers in various sectors and the Bank has a high concentration of loans made to certain customers and certain sectors

As of 31 December 2024, the Bank's total exposure to its ten largest borrowers represented 9.44% of the Bank's total loans. These ten largest borrowers are headquartered and operate across Indonesia and across various sectors such as government, energy, fast-moving consumer goods ("FMCG"), mining, financial services, etc.

As of 31 December 2024, 8.27% of the Bank's loans were made to oil palm plantations and CPO. In addition, the following sectors accounted for a substantial percentage of the Bank's loans: Government, 6.50%; Financial Services, 5.53%; Infrastructure Construction Services, 5.33%; and FMCG, 5.13%. As of 31 December 2024, the Bank had Rp12,609.24 billion (US\$783.43 million) of NPLs, with the largest exposures in the consumption and textile industries. 28.98% and 25.58% of these NPLs were in the Micro and Commercial Banking segment respectively. 88.99% of the Bank's NPLs are Rupiah-denominated.

Given the relative concentration of the Bank's wholesale loan portfolio by borrower and sector, if any loans to the top ten borrowers become non-performing, or if there are financial difficulties encountered in sectors in which the Bank's loans are concentrated, the overall quality of the Bank's total loan portfolio and the Bank's financial condition may be adversely affected.

Declines in commodity prices may negatively and adversely affect the Bank's customers

Indonesia's economy is sensitive to changes in the global prices of commodities. As of 31 December 2024, 8.27% of the Bank's loans were made to palm oil plantations and CPO. Other sectors linked to commodities account for smaller but substantial portions of the Bank's loan portfolio, such as 4.84% in the coal sector, and 3.95% in the metal mining sector. Any declines in the global prices of commodities could result in the lowering of the Government's tax revenue and capital expenditure spending.

Commodity prices are determined by numerous factors beyond the Bank's control, including changes in the global and regional supply and demand for specific commodities such as fluctuations in production volumes, expansions in existing facilities and development of new facilities or reduction in operations. Commodity prices are also heavily influenced by global conditions such as crises caused by trade wars, the prolonged geopolitical tensions related to the Russia-Ukraine war. The Bank conducts both regular and ad hoc stress testing of its loan portfolio, using both macro-wide scenarios and specific sensitivity analyses such as modelling of movements in the price of crude palm oil and other commodities. However, there is no guarantee

that such measures will be and remain effective as safeguards against the impact of commodity pricing fluctuations. The global markets have in the past exhibited significant fluctuations in supply, demand and prices from year to year. Any mismatch between supply and demand, whether regionally or globally, could adversely affect such commodity prices and the prices that these customers received under their respective supply arrangements.

Increasing competition in the Indonesian banking industry may make it difficult for the Bank to maintain current levels of operating performance in the future

The Bank's NIM (standalone) for 2023 and 2024 was 5.25% and 4.93%, respectively. Such performance may be evidence of, and partly attributable to, relatively manageable levels of competition in the Indonesian banking industry. Further, from 31 December 2023 to 31 December 2024, the Bank has been able to substantially increase its loan portfolio and deposit base. It is expected that Indonesia's growth and high NIM will attract new entrants to, and increase competition in, the Indonesian banking industry.

The Bank's primary competitors are major domestic banks operating in Indonesia. The Bank also faces competition for customers from a variety of financial services companies, such as multi-finance companies, which provide financing for trading, consumer loans and multipurpose loans, as well as entities owned by or affiliated with the Government that provide industrial development funding and export and import lending and services.

The Bank may also face increased competition in one or all of its product lines from financial institutions offering a wider array of commercial banking services and products than the Bank offers and that have larger lending limits, greater financial resources and stronger balance sheets than the Bank offers. Increased competition may result from:

- domestic banks entering into strategic alliances with foreign banks with significant financial and management resources;
- financial services companies specializing in products which the Bank offers directly or through its subsidiaries or strategic alliances, such as automotive financing, insurance sales, leasing and rural development loans;
- continued consolidation, both with and without Government assistance and policy changes, in the domestic and international banking sector; and
- growth in smaller private domestic banks that are able to respond more quickly to market changes.

Even if the Bank's operations remain competitive or improve relative to other participants in the banking industry, a general increase in the level of competition may cause NIM to fall to levels more consistent with those seen in other countries or make it difficult for the Bank to increase the size of its loan portfolio and deposit base. Any of these factors could materially and adversely affect the Bank's financial condition and results of operations.

The Bank's business is highly dependent on the maintenance and improvement of the reliability, availability and security of the Bank's information technology systems

The Bank's business is highly dependent on the ability of the Bank's information technology ("IT") systems to accurately process a large number of transactions in a timely manner across diverse markets and products. The Bank has invested in its IT systems to improve the reliability, availability and security of the infrastructure to enable its business functions units and operating segments to deliver sustainable competitive advantages. As both the number and variety of services offered to customers grow, the Bank faces an increasing risk exposure through its IT

systems. The Bank implements a comprehensive risks management framework, which is supported with tools to manage enterprise risk and detect potential fraud. The Bank also has a dedicated risk unit that works hand-in-hand with the business unit (especially the IT unit) in its day-to-day operation. In order to prevent risks of disruptions in system availability, the Bank maintains back-up data for its key data processing systems and has established a disaster recovery centre at separate locations with mirrored database servers to carry on the Bank's principal functions in the event of a catastrophe or a failure of the Bank's primary systems. The Bank also seeks to protect its computer systems and network infrastructure from physical break-ins as well as security breaches and other fraud or disruptive problems, which could adversely affect the Bank's business. Additionally, the Bank prepares a Business Continuity Management framework as a main pillar to ensure business continuity in case of disasters.

Despite the Bank's comprehensive measures and ongoing investments to enhance the reliability, security, and efficiency of its IT systems and cybersecurity framework, there remains a risk that cybersecurity breaches, system failures, or other technological disruptions could adversely impact the Bank's business, operations, financial condition, and reputation.

The Government is, and will continue to be, the Bank's ultimate controlling shareholder, and may influence the Bank's business practices and policies

As of the date of this Offering Circular, the Government (through the MSOE) and the Indonesia Investment Authority hold 52.00% and 8.00% of the Bank's issued and outstanding ordinary shares respectively. The MSOE also owns a non-transferable Series A Dwiwarna share (the "**Special Share**"), and the MSOE's rights with respect to the Special Share will not terminate unless the Bank's Articles of Association are amended, which would require the approval of the MSOE as holder of the Special Share. As the holder of the Special Share, the MSOE has rights which are not held by holders of the Bank's Series B common shares, such as the right to: (i) amend the Bank's Articles of Association; (ii) amend the Bank's capital structure; (iii) nominate candidates for, and appoint and/or terminate members of the Bank's Board of Directors and/or members of the Bank's Board of Commissioners; (iv) merge, consolidate, acquire, spin-off and dissolve the Bank's legal entity; (v) decide on remuneration for members of Board of Directors and Board of Commissioners; (vi) transfer of asset which requires General Meeting of Shareholders ("**GMS**") approval that must be approved by Special Share; (vii) allow participation and reduce capital participation in other companies which require GMS approval that must be approved by Special Share; (viii) determine the use of net profit; and (ix) allow investment and non-operating long-term financing which requires GMS approvals. See "*Shareholders*".

On 24 February 2025, the Government officially enacted Law No. 1 of 2025 on the Third Amendment to Law No. 19 of 2003 on State-Owned Enterprises (the "**New SOE Law**"), under which the Government established a new national investment management body, Investment Authority of Indonesia (IAI) of Daya Anagata Nusantara (*Badan Pengelola Investasi Daya Anagata Nusantara*) ("**Danantara**"), which will act as Indonesia's national holding company and is expected to consolidate the Government's holdings of common shares in certain state-owned enterprises. Under the New SOE Law, Danantara has been granted certain governance powers over such state-owned enterprises, which were previously held by the MSOE. This effectively creates a dual oversight framework for such SOEs, as governance powers will now be shared between Danantara and MSOE as prescribed under the New SOE Law. As of the date hereof, the Government is determining which SOEs will be placed under Danantara's management. Upon such determination, if the Government mandates the Bank to be placed under Danantara's common shareholding, the Government may transfer its holding of common shares in the Bank to Danantara, although the Government (through Danantara) will remain the ultimate controlling shareholder of the Bank.

Although the Government is not involved in the Bank's daily management, the Government may use its controlling position to influence, and is likely to seek to influence, the Bank's strategy and operations. For example, the Bank could be influenced to enter into transactions or extend loans for other than purely commercial considerations. The Government also has the ability to influence and control other Government-related entities, some of which are the Bank's competitors, and to direct opportunities to the Bank's competitors or favour their interests over the Bank's. If the Bank is required to act in the Government's interests and those interests differ from the Bank's interests, or the Government is to favour the Bank's other state-owned competitors over it, the Bank may suffer a material adverse effect on the Bank's financial condition, liquidity and results of operations.

Government bonds and other Government obligations represent a substantial portion of the Bank's assets, which may affect the Bank's results of operations, financial condition and capitalisation

As of 31 December 2024, the Bank held Rp287,272.66 billion (US\$17,848.57 million) of Government bonds representing 11.84% of the Bank's consolidated total assets. Interest from the Bank's Government bonds represented 10.04% of the Bank's consolidated gross interest and Sharia income for the year ended 31 December 2024. Any delay or default in the payment of interest or principal by the Government when due will have a material adverse effect on the Bank's financial condition, liquidity and results of operations. The Government is the Bank's principal shareholder and directly owns 52.00% of the shares of the Bank as at the date of this Offering Circular.

Government or regulatory actions with respect to the Bank's Government bonds could also adversely affect the Bank's financial performance, results of operations and capitalisation. The Government has the power to alter, or reprofile, the material terms of Government recapitalisation bonds with the Bank's agreement or by legislation at any time.

If the Bank's fair value through other comprehensive income (FVOCI) Government bonds were determined to be impaired, the cumulative unrealised gain or loss arising from the changes in fair value previously recognised in the statement of changes in equity would be recognised in the Bank's consolidated statement of income. Further, there can be no assurance that the Government credit rating, and therefore the value of the Bank's holdings of Government bonds, will not decline in the future. Consequently, any significant reduction in the value or liquidity of the Bank's Government bonds or any change in the rules applicable to the Bank's Government bonds, depending on the level and direction of interest rates at the time, could have a material adverse effect on the Bank's capitalisation, financial condition, liquidity and results of operations.

Changes to accounting standards may negatively affect the Bank's financial results

The Bank prepares its consolidated and unconsolidated financial statements in accordance with IFAS, and there may be new and revised accounting standards and interpretations in the future requiring the adoption of new accounting policies. Changes to IFAS or interpretations thereof may cause the Bank's future reported results and financial position to differ from current expectations, or historical results to differ from those previously reported due to the adoption of accounting standards on a retrospective basis. Such changes may also affect the Bank's regulatory capital and ratios. There is no assurance that these changes will not have a significant impact on the presentation of the Bank's financial statements or have a significant impact on the Bank's results of operations. Investors should exercise caution when making comparisons of any financial figures against those from prior years in light of any changes made to accounting standards and, in turn, when evaluating the Bank's financial condition, results of operations and results.

The Bank may be adversely affected if the Government lowers its subsidy for KUR Micro loans

The Bank offers a substantial number of Government-subsidised micro loans (KUR or Kredit Usaha Rakyat) which are backed by a loan insurance guarantee through Jamkrindo & Askrindo, a state-owned insurance company. The Bank plans to substantially increase the volume of KUR loans it offers as a key strategy to expand its retail segment in the near future. In 2024, the Bank was assigned by the Government to disburse Rp37.50 trillion KUR loans for eligible customers. As of 31 December 2024, the Bank has a total of 892,000 active KUR borrowers with total outstanding loans (standalone) Rp63.91 trillion (US\$3.97 billion), equivalent to 4.88% of its total outstanding loans (standalone) and 33.99% of its total outstanding micro loans. If the Government were to lower or remove its subsidy of KUR loans, it would have an impact on the profitability of such loans and, in turn, may adversely affect the Bank's business, financial condition and results of operations.

If the Bank is unable to attract and retain qualified personnel, its business and operations may suffer

The Bank's business depends on its ability to attract and retain highly qualified personnel, including loan officers for its widespread network throughout Indonesia and, increasingly, various types of employees in relation to banking digitalisation. The Bank competes for such personnel with other banks and financial institutions, and there can be no assurance that it will be successful in hiring or retaining such qualified personnel. In particular, the Bank depends on its senior management for their expertise in the banking industry. Departure of senior management or an inability to hire or retain managers could materially and adversely affect the Bank's business, prospects, financial condition and results of operations.

The collateral or guarantees securing the Bank's loans may not be sufficient, and the Bank may be unable to realise the full value of the collateral or guarantees

Most of the Bank's commercial loans, and a substantial amount of corporate loans are secured by collateral, primarily in the form of land and buildings, and cash. The value of such collateral may fluctuate or decline due to factors beyond the Bank's control, including macroeconomic factors. For example, a decline in Indonesia's economic conditions may result in a decline in real estate prices, which may cause declines in the value of property securing the loan. While the Bank periodically revalues the collateral used for loan facilities in accordance with its business policies and takes precautions to maintain the coverage ratio of the credit facility controlled collateral in order to mitigate the Banks' risks, each decline in collateral value may diminish the amount which may be recovered from the collateral held by the Bank, and increase the Bank's required allowance for impairment losses on loans.

In addition, in certain situations, the Bank's rights over the collateral may have lower priority compared to other rights during a liquidation process, such as the Government's tax receivables and employee salaries. In addition, in Indonesia, the procedure to realise the value of collateral in the form of fixed assets may still be restrictive and may hinder the Bank's ability to assert its security interests over such collateral. For a more detailed discussion, see "*– Risks relating to Indonesia – Noteholders will be exposed to a legal system subject to considerable discretion and uncertainty and may have difficulty pursuing claims under the Notes*". Such difficulties may hinder the Bank from recovering the security value upon default of the Bank's debtors.

The performance of the Bank's large portfolio of restructured loans is sensitive to deteriorating general economic conditions, including interest rate increases and such loans may become non-performing again

As of 31 December 2023 and 2024 the Bank's restructured loan portfolio (standalone) totalled Rp78,196.78 billion and Rp73,466.35 billion (US\$4,564.54 million) respectively. Under Indonesian law, state-owned banks are subject to an audit by the Supreme Audit Board (*Badan Pemeriksa Keuangan*), which may find that any losses from restructuring loans by agreeing to reductions in the outstanding principal or from selling loans at a discount to third parties might cause losses to the state. See "*Risk Management – Information System of Risk Management – Types of risk – Credit risk*". As a result, the Bank may only restructure loans by offering reductions in interest and extensions of maturity dates for repayment of principal. The Bank must choose between such restructuring approaches or provisioning for such NPLs in full and writing them off. The Bank's limited ability to restructure NPLs increases the likelihood that if the borrower's situation does not improve sufficiently after restructuring to enable it to make required payments on a timely basis, loans that are restructured become non-performing again. As such, the Bank faces a greater degree of exposure to deteriorating economic conditions in Indonesia than many of the Bank's private competitors. During such periods, the Bank may experience a higher rate of NPLs from the Bank's restructured loan portfolio, thereby resulting in a larger negative impact on the Bank's overall loan portfolio as compared to certain of the Bank's competitors. The Bank cannot assure you that the Bank's large portfolio of restructured loans will not have a material adverse effect on the Bank's business, financial condition and results of operations.

Restructured loans may become non-performing if the borrowers of such loans fail to adhere to the terms of such restructured loans

In the restructuring of a number of its high-risk loans, the Bank has agreed to reschedule principal payments and/or reduce interest (including conversion to deferred interest) to less than what was agreed in the loan agreement for a certain period, subject to increases in the amounts of payments should the Bank re-evaluate the relevant borrower's perceived ability to service the loan. Although any reduction in interest rates on high-risk loans may likely improve the performance of such loans, if the Bank's customers are unable to make readjusted payments for their respective restructured loans, such restructured loans may become non-performing, thereby requiring additional provisions, which may adversely affect the Bank's financial condition and results of operations.

Material asset-liability liquidity mismatch may lead to issues in managing the Bank's liquidity and interest rate risk

The Bank depends on stable, liquid and well-functioning capital and credit markets to fund its operations. Since 2008, the capital and credit markets in much of the world, including in the European Union and the United States, have experienced increased volatility and disruption, making it more difficult for companies to access those markets. Although the global financial and credit crisis did not generally affect the Bank's business and financial position as acutely as it affected banks and corporations in the United States and certain other countries, the global financial crisis affected certain sectors of Indonesia's economy, such as exporters and natural resources companies, and the stability of the Indonesian currency and financial markets. A reoccurrence of the same or similar crisis may result in the deterioration of the credit quality of the Bank's export-related loan portfolio and may increase the number of its NPLs.

Most of the Bank's funding requirements are met through short-term and medium-term funding sources, primarily in the form of time deposits, savings accounts and current accounts. Most of the Bank's time deposits are for periods of one month or three months. Many of the Bank's assets, however, have long-term maturities, creating the potential for liquidity mismatches. 49.92% of the Government bonds and marketable securities held by the Bank as of 31 December 2024 have

maturities of up to five years, while 50.08% of total Bank loans have longer maturities. Historically, the Bank has been able to roll over most of its deposits on maturity, but the Bank cannot ensure that the Bank will continue to be able to do so in the future.

Although the Bank has not experienced material liquidity problems in the past, there can be no assurance that the Bank can maintain sufficient liquidity to cover customer withdrawals in the future, especially in the event of a future economic crisis. If a substantial number of the Bank's depositors do not roll over deposited funds upon maturity, or decide to withdraw their current account deposits, the Bank's liquidity position would be adversely affected. In particular, the Bank may have to rely on borrowings from Bank Indonesia or other sources of financing which may not be available at commercially attractive terms or at all. Currently, the Bank still holds a significant amount of high quality liquid assets that can cover funding needs in time of crisis. However, any failure to obtain adequate funding, or a significant increase in funding costs, would have a material adverse effect on the Bank's liquidity, financial condition and results of operations.

Further, the Bank realises income from the margin between interest earned on the Bank's assets and interest paid on the Bank's liabilities. Because the Bank's interest-earning assets and interest-earning liabilities are generally repriced at different times, the Bank's performance can be affected by fluctuations in market interest rates. In December 2024, Bank Indonesia maintained its benchmark seven-day (reverse) repo rate of 6.00% per annum, which reflected its commitment to keep inflation under control. Any decline in the Bank's interest rate spread may expose the Bank to interest rate risk. There can be no assurance that interest rates will not change in the future, and these changes may have a material adverse effect on the Bank's liquidity, financial condition and results of operations.

Fluctuations in the value of the Rupiah may materially and adversely affect the Bank's financial condition and results of operations

Historically, the Rupiah has been subject to significant depreciation and volatility against the U.S. dollar and other foreign currencies. Depreciation or volatility of the Rupiah, or changes in the Government's exchange rate policies, may result in significantly higher domestic interest rates, liquidity, shortages, sovereign and corporate loan defaults, capital or exchange controls and withholding of further financial assistance by multilateral institutions. This could result in a reduction of economic activity, an economic recession, loan defaults and increases in the prices of imports. These consequences could have a material adverse effect on the Indonesian economy and the Bank's financial condition and results of operations and ability to make payments on foreign currency denominated obligations, including the Notes.

The Rupiah has generally been freely convertible and transferable, except that Indonesian banks are restricted from transferring Rupiah to any bank account (offshore and onshore) for the benefit of non-residents, which includes foreign individuals, foreign legal entities, and Indonesian citizens with a permanent resident status outside Indonesia and Indonesian or foreign banks domiciled offshore. However, from time to time, Bank Indonesia has intervened in the currency exchange markets in the furtherance of its policies, either by selling Rupiah or by using its foreign currency reserves to purchase Rupiah. There can be no assurance that the current floating exchange rate policy of Bank Indonesia will not be modified, that additional depreciation of the Rupiah against other currencies, including the U.S. dollar, will not occur, or that the Government will take additional action to stabilise, maintain or increase the value of the Rupiah, or that any of these actions, if taken, will be successful. A sustained and significant appreciation in the value of the U.S. dollar against the Rupiah could have an adverse effect on the Bank's profitability.

Bank Indonesia also has the authority to request information and data concerning the foreign exchange activities of individuals and legal entities that are domiciled, or who plan to reside, in Indonesia for at least one year. Bank Indonesia regulations also require resident banks and companies to report to Bank Indonesia all data concerning their foreign currency activities.

The Bank may face foreign exchange risk due to mismatches between its assets and liabilities. As of 31 December 2024, the Bank had US dollar and other non-Rupiah-denominated loans of Rp279.88 trillion (US\$17.39 billion), customer deposits in foreign exchange of Rp268.30 trillion (US\$16.67 billion) and US dollar and other non-Rupiah-denominated fund borrowings of Rp95.61 trillion (US\$5.94 billion). The Bank's aggregate Net Open Position in foreign currencies was 1.00% as of 31 December 2024, which did not exceed the 20.00% limit of the month-end position of the Bank's total Tier I and Tier II capital established by Bank Indonesia regulations.

If Rupiah exchange rates move in a manner adverse to the Bank's open positions in foreign currencies at a given time, such movements could cause the Bank to suffer losses, reduce the Bank's CAR and require the Bank to seek additional capital or breach Bank Indonesia capital adequacy regulations. There can be no assurance that any additional required capital would be available to the Bank at such time on acceptable terms or at all.

The Bank's deposit base may contract, leading to a potential increase in its cost of funding and decrease in its competitiveness

The Bank's primary source of funding is deposits. The Bank has the largest deposit base among Indonesian banks, with total consolidated deposits from customers (including deposits from customers classified as temporary syirkah fund) of Rp1,698.90 trillion (US\$105.55 billion) as of 31 December 2024. The Bank's large deposit base translates into a cost of funds of 2.18% per annum (standalone). This Bank's CASA ratio reached 80.31% (standalone) as of 31 December 2024, total CASA (total demand and saving deposits) of Rp1,065.57 trillion divided by total deposits Rp1,326.89 trillion.

In the past, the Indonesian banking system has experienced bank runs or simultaneous withdrawals by depositors due to a variety of reasons including lack of confidence in the Indonesian banking system or a particular bank. There is no guarantee that such simultaneous withdrawals will not occur in the future or that the Bank will be able to adequately respond to these. Further, in the Bank's experience, a substantial portion of time deposits are rolled over upon maturity but no assurances can be given that this will continue to be the case. Simultaneous withdrawals by depositors and/or the failure by depositors to roll over maturing time deposits could materially and adversely affect the Bank's liquidity position and the Bank could be required to seek more expensive sources of short-term or long-term funding to finance its operations. To the extent the Bank is unable to obtain sufficient funding on acceptable terms, its financial condition and results of operations may be adversely affected and its cost of funding may increase and adversely affect the Bank's ability to compete.

The Bank has several policies in place to manage its liquidity to ensure that even under adverse conditions it has access to necessary funds at a reasonable cost. Although the Bank's policy is to maintain prudent liquidity risk management, as well as diversified and stable sources of funding, there can be no assurance that there will not be a liquidity crisis which might affect the Bank. Failure by the Bank to maintain and ensure adequate sources of funding may adversely affect the financial condition and results of operations of the Bank.

The Bank is subject to counterparty risks

Like most financial institutions, the Bank acts as an intermediary, primarily in domestic and international foreign exchange and derivative markets. The Bank has outstanding foreign currency transactions and foreign exchange/interest rate swap arrangements with a number of domestic and international banks, financial institutions and other entities, including those in Asian countries. As a result of such arrangements, the Bank is subject to credit risk from a number of different counterparties. Although the Bank believes that the overall credit quality of its counterparties is adequate, there can be no assurance that parties with significant exposure will not face difficulties in paying amounts on derivative contracts when due as a result of the default and/or bankruptcy

of such counterparties or changes to liabilities and/or priority thereof imposed under resolution plans or “bail-in” regulations or any other unforeseen or adverse events occurring, which may adversely affect the financial condition and results of operations of the Bank.

The Bank may not be able to detect money laundering and other illegal or improper activities fully or on a timely basis, which could expose the Bank to additional liability and harm the Bank’s business and reputation

The Bank is required to comply with applicable anti-money laundering, counter-terrorism financing, and counter-proliferation-financing laws and other regulations in Indonesia and other jurisdictions where the Bank has operations. These laws and regulations require the Bank, among other things, to adopt and enforce anti-money laundering, counter-terrorism financing, and counter-proliferation financing (“**AML, CTF, and CPF-WMD**”) policies and procedures based on the Financial Action Task Force (“**FATF**”) Recommendations. The Bank actively monitors to detect improper activities and prevent the Bank from being used for money laundering, terrorist financing, and proliferation financing and has accordingly adopted measures such as customer identification, verification and monitoring processes, customer risk assessment on money laundering, terrorism financing, proliferation financing, fulfilment of reporting regulation to the relevant regulators, the implementation of AML, CTF, and CPF-WMD programmes in subsidiaries and overseas branches, know your employee (“**KYE**”) measures and training, and more robust record keeping processes. The Bank may incur substantial compliance and monitoring costs if further rules and regulations are enacted, or if existing regulations are enforced on a more stringent basis. On the other hand, if the current requirements are relaxed, the Bank’s depositors and counterparties could lose confidence in the Indonesian banking system which could adversely affect the Bank’s business and deposit base. While the Bank has adopted policies and procedures aimed at detecting and preventing the use of the Bank’s banking network for money laundering activities or by terrorists, such policies and procedures may not completely eliminate the risk that the Bank’s banking network may be used by others to engage in money laundering and other illegal or improper activities, exposing the Bank to regulatory, legal and reputation risks.

The Bank may not be able to detect and prevent all fraud or other misconduct committed by the Bank’s employees or third parties

There have been a number of publicised cases involving fraud or other misconduct by officers, employees or third parties in connection with financial institutions in Indonesia in recent years. Fraud and other misconduct by officers or employees (at the headquarter or branch levels) or third parties may be difficult to detect and prevent, and could subject the Bank to financial losses and sanctions imposed by Governmental authorities or could seriously harm the Bank’s reputation. Types of possible misconduct by third parties against the Bank may include, among other things, fraud, theft, robbery, and certain armed crimes.

The Bank has an established Anti-Fraud Strategy Framework which includes the aspects of prevention, detection, investigation, reporting, sanctions, monitoring, evaluation and follow-up. The framework has been adjusted up to the Bank’s risk appetite and tolerance with a well-preserved implementation. The Bank has also continued to strengthen the detection and prevention of fraud or other misconduct committed by the Bank’s employees or third parties.

Although the Bank has in the past and is at present continually increasing its efforts to detect and prevent officer, employee and third-party fraud or other misconduct, it is not always possible to detect or prevent such activities, and the precautions taken by the Bank may not be effective in all cases. The Bank may also need to implement more extensive or different measures and procedures in the future in response to changes in the legal and regulatory environment or to changes in technology and business practices, which could result in additional cost and may not be as effective in strengthening the Bank’s compliance frameworks as anticipated. Accordingly, the Bank cannot ensure that the Bank’s internal control policies and procedures will completely

and effectively prevent all fraud or other misconduct committed. Any fraud or misconduct involving the Bank or its employees may adversely affect the Bank's business, financial condition and results of operations.

If the Bank cannot comply with minimum capital adequacy requirements, it would need to raise additional capital, and its ability to do so could be limited

OJK Regulation No. 11/POJK.03/2016 on Obligation to Provide Minimum Capital for Commercial Banks as most recently amended by OJK Regulation No. 27 of 2022 ("**OJK Regulation No. 11/2016**") requires a minimum total CAR of (i) at least 8.00% of the risk-weighted assets (known as "**Aset Tertimbang Menurut Risiko**" or "**ATMR**") for banks with a risk profile of 1, (ii) at least 9.00% up to less than 10.00% of the ATMR for banks with a risk profile of 2, (iii) at least 10.00% up to less than 11.00% of the ATMR for banks with a risk profile of 3 and (iv) at least 11.00% up to 14.00% of the ATMR for banks with a risk profile of 4 or 5. Under OJK Regulation No. 11/2016, the risk profile assigned to a given bank depends on the valuation of inherent risks and quality of the implementation of the risk management in its operation, with the valuation done through an Internal Capital Adequacy Assessment Process ("**ICAAP**") mechanism, notwithstanding the supervisory review and evaluation process conducted by the OJK. As of the date of this Offering Circular, the Bank's risk profile self-assessment is ranked 1. As of 31 December 2024, the minimum capital that must be provided based on the Bank's risk profile (using the ICAAP methodology) is 9.69%.

In addition to the minimum capital adequacy requirements, OJK Regulation No. 11/2016 requires banks to establish additional capital in the forms of (i) capital conservation buffer in the amount equals to 2.5% of the ATMR, (ii) countercyclical buffer in the amount equals to 0% up to 2.5% of the ATMR, and (iii) for systemic banks, capital surcharge in the amount equals to 1.0% up to 2.5% of the ATMR. The purpose of such additional capital is to act as buffers for absorbing risks caused by crisis conditions and/or excessive banking credit growth.

As of 31 December 2024, the Bank is regulated to have a Capital Conservation Buffer of 2.50% and a Capital Surcharge for Systemic Bank of 2.50%, whereas the Countercyclical Buffer is set at 0% by the regulator.

The Bank's total CAR and Tier 1 CAR (standalone) as of 31 December 2024 are 20.10% and 18.92% respectively, which exceed the minimum total CAR requirement 14.69% (CAR Based on Risk Profile + Buffers). In addition, as of 31 December 2024, the Bank has a capital conservation buffer of 2.50%, a capital surcharge for systemic bank of 2.50% and countercyclical buffer of 0.00%.

Although the Bank is in compliance with the capital adequacy requirements of OJK as of the date of this Offering Circular, there can be no assurance that it will continue to be able to comply with such requirements. If the Bank's CAR were to fall below 8.00%, under OJK Regulation No. 5 of 2024 on Determination of Status on Supervision and Handling of Issues of Commercial Banks, the Bank would be placed under "bank in restructuring" (*bank dalam penyehatan*) or "bank in resolution" (*bank dalam resolusi*) by OJK and may, among other things, be prohibited from making payments of interest or principal in respect of any outstanding subordinated bonds. OJK may also further increase the minimum CAR requirements in the future in order to bring Indonesia's minimum CAR requirements in line with international standards.

The following table provides a summary of the Bank’s regulatory capital (standalone) for the financial years ended 31 December 2023 and 2024.

	As of 31 December	
	2023	2024
	(Rp billion)	(Rp billion)
Core Capital	209,724	229,933
Supplemental Capital	12,264	14,326

The Bank has completed the adoption of the Capital Accord of the Basel Committee (“**Basel III**”), as implemented in Indonesia, to meet the minimum capital adequacy requirements set out by OJK. In addition, the Bank has been implementing the recent requirements typically referred to as “Basel III Reforms” beginning January 2023. Under Basel III, banks are assigned a score to measure systemic importance and potential social loss in case of default, and assigned a bucket (1-5) based on that score. Higher buckets indicate higher levels of systemic importance, and thus higher applicable D-SIB capital surcharge. As a Bucket 4 bank, a capital conservation buffer of 2.50% and a D-SIB capital surcharge of 2.50% are applicable to the Bank.

Any failure by the Bank to comply with minimum capital adequacy requirements, under current or future regulations (including Basel IV), would have a material adverse effect on its business, prospects, financial condition and results of operations. If this were to occur, the Bank cannot give any assurance that any additional required capital would be available on acceptable terms, or at all.

The Bank faces compliance risk from multiple regulatory and supervisory authorities

On 22 November 2011, the Government enacted Law No. 21 of 2011 on the Financial Services Authority or *Otoritas Jasa Keuangan* (“**Law No. 21 of 2011**”), as most recently amended by Law No. 4 of 2023 dated 12 January 2023 on the Development and Strengthening of the Financial Sector (the “**Financial Sector Omnibus Law**”, together with Law No. 21 of 2011, the “**OJK Law**”). OJK took over the supervision of capital markets, banks, insurance companies, pension funds, multi-finance and other financial institutions from 31 December 2012.

According to the OJK Law, OJK has the authority to regulate and supervise Indonesian banks in relation to certain aspects, including institution, soundness and prudence of Indonesian banks, as well as to protect consumers in the financial services industry. Additionally, OJK also has the authority to conduct inspections of Indonesian banks. Although several banking aspects have been under the directive and supervision of OJK, Bank Indonesia maintains its authority in determining monetary discretion and regulating the payment system. The existence of OJK’s right to regulate and supervise certain aspects in the Indonesian banking industry does not necessarily curtail Bank Indonesia’s authority to regulate and supervise Indonesian banks. Bank Indonesia maintains its authority to regulate and supervise Indonesian banks in relation to the other aspects not regulated or supervised by OJK.

In addition to OJK regulations, the Bank is also subject to banking, corporate and other laws, the central bank’s (Bank Indonesia) regulations in effect in Indonesia, the requirement that the Bank be licensed to conduct its banking and financial services operations, banking laws and regulations of other jurisdictions where the Bank has branches or subsidiaries and IDX rules.

If the Bank is unable to comply with the rules and regulations applicable to it, including those of foreign jurisdictions, it could be subject to penalties, fines, loss of its required regulatory permits and damage to its business reputation, which could have a material adverse effect on the Bank's financial condition and results of operations. In addition, changes in rules and other regulations and actions by Bank Indonesia, OJK or other authorities in the future may also significantly affect the Bank's industry in general and the Bank in particular in other ways. For a description of the regulatory framework the Bank is subject to, see "*Banking Regulation and Supervision*".

The regulatory and legal framework governing the Bank differs in certain material respects from that in effect in the United States and other countries and may continue to change as the Indonesian economy and commercial and financial markets evolve. Any changes in laws, regulations or regulatory policies, including changes in the interpretation or application of such laws, regulations and regulatory policies, may restrict the Bank's business activities, adversely affect the products and services which the Bank offers, the value of the Bank's assets or the Bank's business in general, and cause the Bank to incur increased expense and to devote considerable time to ensure compliance. Such changes may include changes with respect to capital requirements, solvency requirements, leverage and liquidity ratios, risk management, cross-border capital flows, local lending obligations, management compensation, consumer protection, and risk management, among other areas. Changes in laws, regulations and regulatory policies, or the interpretation or application thereof, will lead to greater regulatory oversight and scrutiny and increased compliance costs.

The Bank may not be successful in identifying and acquiring suitable business targets, which could adversely affect the Bank's growth and results of operations

The success of the Bank in acquiring suitable business targets is critical for its growth and financial performance. If the Bank is unable to identify and acquire targets that align with its strategy, that could limit its growth opportunities and negatively impact its results of operations. The process of identifying, evaluating, and acquiring targets requires careful planning and due diligence, and if any of these steps are not executed effectively, that could result in the Bank acquiring targets that are not a good fit for its business or overpaying for acquisitions. In addition, financing such acquisitions or arrangements may require the Bank to incur debt which could have an adverse effect on its business and results of operations, including potential downgrades in its credit ratings.

As such, the Bank cannot assure investors that in the future it will be able to identify and enter into arrangements with suitable business partners or acquisition targets on commercially acceptable terms, if at all, or will have sufficient capital to fund such arrangements or at levels that would not adversely affect the Bank's financial position. Failure to identify and enter into viable arrangements with suitable targets in the future, or the failure to properly execute, integrate and draw synergies from acquisitions attempted by the Bank, could adversely affect its growth as well as its business, financial condition and results of operations.

The Bank may not be able to implement its business strategies on schedule or within budget or at all

The Bank may not be able to fully implement its current and future business strategies on schedule or within budget or at all. The Bank's business strategy includes increasing the availability and scale of its existing products as well as developing new products to expand its business activities. The expansion of the Bank's business activities may expose it to a number of risks and challenges including, among other things, the following:

- (i) new and expanded business activities may have less growth or profit potential than the Bank anticipates, and there can be no assurance that new business activities will become profitable at the level the Bank desires or at all;

- (ii) the new business strategy may alter the risk profile of the Bank's portfolio;
- (iii) the Bank may fail to identify and offer attractive new services in a timely fashion, putting it at a disadvantage with competitors;
- (iv) the Bank's competitors may have substantially greater experience and resources for the new and expanded business activities and so the Bank may not be able to attract customers from its competitors; and
- (v) economic conditions, such as changes in interest rates or inflation, could hinder the Bank's expansion.

Taking into consideration the fluctuations and changes in customer behaviour, rising smart device and social media usage as well as the increasing use of digital products of other non-bank entities for effecting payments, the landscape for banking services is evolving. While digitalisation has provided new business opportunities, it has also introduced new and increased cybersecurity risk exposures for the Bank. Despite increased investments in digital technologies and new digital initiatives, digitalisation remains a fast moving and evolving landscape and there can be no assurance that the Bank will be able to fully and successfully execute its strategy in the digitalisation space.

In addition, the Bank's strategies are subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the Bank's control and could delay or increase the costs of implementation. Such potential events include, but are not limited to, labour disputes, system upgrades, changes in costs or requirements related to compliance with applicable laws and regulations, delays in securing the necessary governmental approvals, a downturn in the economy and changes to plans for additional facilities necessitated by changes in market conditions.

Any inability by the Bank to implement its business strategy or disruptions to the Bank's strategic plans could result in the loss or delayed receipt of revenue, an increase in financing costs, or a failure to meet profit and earnings projections, any of which may adversely affect the Bank's business, financial condition and results of operations.

The ratings of third-party rating agencies could adversely affect the Bank's ability to obtain, renew or extend credit facilities, or otherwise raise funds

Third-party credit ratings are important indicators of a bank's creditworthiness, and a lower credit rating assigned by rating agencies can make it more difficult and expensive for such bank to access funding from lenders and investors. This is because a lower rating signals a higher level of risk, which can cause lenders to demand higher interest rates or more stringent terms for loans and other forms of financing.

Rating agencies from time to time review prior corporate and specific transaction ratings in light of changes in ratings criteria. If rating agencies were to downgrade their original ratings on the Bank's outstanding debt securities, holders of such debt securities may be required to sell bonds in the marketplace, and such sales could occur at a discount, which could affect the perceived value of the bonds and the Bank's ability to sell future bonds on favourable terms or at all. While as of the date of this Offering Circular the Bank is not aware of any reasonably expected further downgrades to its corporate credit rating or the ratings of its debt securities, such rating changes may occur without advance notice. On 12 February 2025, Moody's affirmed the Bank's long-term foreign currency credit rating of Baa2 (Stable). On 7 May 2024, Fitch upgraded the Bank's long-term foreign and local currency issuer default ratings to BBB with stable outlook. On 8 January 2025, S&P Global affirmed its BBB (stable) long-term issuer credit rating on the Bank.

The Bank is subject to risks associated with its hedging activities and other derivative transactions

The Bank has entered into derivative transactions for hedging purposes as well as conducted derivative transactions on behalf of its customers. The Bank's derivative transactions are small in terms of value relative to its loan, deposit and other transactions. The Bank may face risks such as credit risk, market risk and operational risk associated with these transactions. At present, the Indonesian market has limited regulations with respect to derivative transactions and requires further improvement which increases the risks of such transactions that the Bank may enter into. Accordingly, the Bank's business, financial position and results of operations may be adversely affected given the volatility of the prices of these derivatives, which in turn may negatively affect the Bank's ability to service the Notes and to satisfy its other obligations under the Notes.

The Bank's business is inherently subject to the risk of market fluctuations

The Bank's business is directly subjected to risks including volatility in market movements and wider macroeconomic factors, including changes and increased volatility in exchange rates, interest rates, inflation rates, credit spreads, commodity, equity, bond and property prices and the risk that its customers act in a manner which is inconsistent with business, pricing and hedging assumptions. These movements may affect the Bank in multiple key areas. For instance, changes in interest rate levels, yield curves and spreads affect greatly the interest rate margin between lending and borrowing costs. Historically, there have been periods of high and volatile interbank lending margins over official rates (to the extent banks have been willing to lend at all), which have exacerbated such risks. Competitive pressures on fixed rates or product terms in existing loans and deposits sometimes restrict the Bank in its ability to change interest rates given to customers in response to changes in official and wholesale market rates.

Any failure by the Bank to implement, or consistently follow, its risk management systems may adversely affect its financial condition and results of operations, and there can be no assurance that the Bank's risk management systems will be effective. In addition, the Bank's risk management systems may not be fully effective in mitigating risk exposure in all market environments or against all types of risks, including risks that are unidentified or unanticipated. Some methods of managing risk are based upon observed historical market behaviour. As a result, these methods may not predict future risk exposures, which could be significantly greater than the historical measures indicated.

The Bank may not be successful in implementing new business strategies or penetrating new markets

The Bank's business strategy includes increasing the availability and scale of its existing products as well as developing or acquiring new products to expand the Bank's business activities. For instance, on 1 February 2021, the merger of PT Bank Syariah Mandiri, PT Bank BNI Syariah and PT Bank BRI Syariah Tbk became effective, with the Bank as a controlling shareholder. The expansion of the Bank's business activities may expose it to a number of risks and challenges including, among other things, the following:

- (i) new and expanded business activities may have less growth or profit potential than the Bank anticipates, and there can be no assurance that new business activities will become profitable at the level the Bank desires or at all;
- (ii) the new business strategy may alter the risk profile of the Bank's portfolio;
- (iii) the Bank may fail to identify and offer attractive new services in a timely fashion, putting it at a disadvantage with competitors;

- (iv) the Bank's competitors may have substantially greater experience and resources for the new and expanded business activities and so the Bank may not be able to attract customers from its competitors; and
- (v) economic conditions, such as changes in interest rates or inflation, could hinder the Bank's expansion.

The Bank's inability to implement its business strategy could have a material adverse effect on its business, cash flows, financial condition, results of operations and prospects.

The Bank's risk management controls may not be effective

The Bank has been proactively implementing its risk management framework, as well as improving its risk management and internal control capabilities. For more information about the Bank's risk management system, please refer to "*Risk Management*". The Bank's ability to implement and maintain strict internal controls may be affected by expansions in business scale and business scope, such as the complexity and vulnerability of digitalization of the Bank's business and services (for example due to cyber-attacks), and the challenges it faces in the improvement of the quality of its sustainable finance implementation. If there are any deficiencies in the Bank's risk management, internal control or policies and procedures, the Bank may be subject to credit risk, liquidity risk, market risk or operational risk, which may materially and adversely affect the Bank's business, financial condition and results of operations.

The Bank engages in transactions with related parties

From time to time, the Bank may make loans to its key management personnel and its subsidiaries and companies controlled by or affiliated with the Bank. As of 31 December 2024, the Bank had outstanding loans to officers and such companies totalling Rp291,635.10 billion (US\$18,119.61 million), as compared with Rp238,081.02 billion as of 31 December 2023. There can be no assurance that such loans have been granted on identical or less favourable terms or conditions than a third-party bank would have extended.

The Bank or the Bank's customers may be subject to OFAC or other penalties if the Bank is determined to have violated any OFAC regulations or similar sanctions

The United States imposes a range of economic sanctions against certain foreign countries, terrorists, international narcotics traffickers and those engaged in activities related to the proliferation of weapons of mass destruction. The US sanctions are intended to advance certain US foreign policy and national interests, such as discouraging certain countries from acquiring weapons of mass destruction or engaging in human rights abuses. The US Department of the Treasury's Office of Foreign Assets Control (the "**OFAC**") is the principal government agency charged with administering and enforcing US economic sanctions programmes. These economic sanctions, as administered by OFAC, generally apply to US entities and, in certain cases, to foreign affiliates of US entities, or to transactions that involve, in some manner, US products or otherwise come within the jurisdiction of the United States. Other governments and international or regional organisations also administer similar economic sanctions. The Bank has conducted several screening procedures in relation to OFAC and other sanctions for its account opening, transaction, and other processes. However, if any of the Bank's overseas branches engages in any prohibited transactions by any means, or if it is otherwise determined that any of the Bank's transactions violated OFAC-administered or other sanctions regulations, the Bank could be subject to penalties, and the Bank's reputation and ability to conduct future business in the United States or with US entities, or in other affected jurisdictions, could be affected, which may materially and adversely affect the Bank's business, financial condition and results of operations.

Global trends in banking regulations may affect the Bank's business

Like other major regional banks, the Bank is subject to extensive regulation by regulators and exchanges in each of the major markets where the Bank conduct its business or where its counterparties are located. These laws and regulations significantly affect the way in which the Bank does business and can restrict the scope of its existing businesses and limit the Bank's ability to expand its product offerings and pursue certain investments.

In response to the financial crisis, legislators and regulators around the world have adopted, continue to propose and are in the process of adopting, finalizing and implementing a wide range of financial market reforms that are resulting in major changes to the way in which the Bank's global operations are regulated and conducted.

In particular, as a result of these reforms, the Bank is, subject to (among other things) significantly revised and expanded regulation and supervision, more intensive scrutiny of the Bank's businesses and any plans for expansion of those businesses, activities limitations, a systemic risk regime that imposes heightened capital and liquidity requirements and other enhanced prudential standards, resolution regimes and resolution planning requirements, restrictions on activities and investments imposed by Section 619 of the Dodd-Frank Act adopted in 2017 (such statutory provision together with such implementing regulations, the "**Volcker Rule**"), and comprehensive derivatives regulations. While certain portions of these reforms are effective, others are still subject to final rulemaking or transition periods. Many of the changes required by these reforms could materially affect the profitability of the Bank's businesses and the value of assets which the Bank holds, expose the Bank to additional costs, require changes to business practices or force it to discontinue businesses, adversely affect the Bank's ability to pay dividends and repurchase its own stock, or require it to raise capital, including in ways that may adversely affect the Bank's shareholders or creditors. In addition, regulatory requirements that are being proposed by foreign policymakers and regulators may be inconsistent or conflict with regulations that the Bank are subject to in the US and, if adopted, may adversely affect the Bank. While there continues to be uncertainty about the full impact of these changes, the Bank is and will continue to be subject to a more complex regulatory framework, and will incur costs to comply with new requirements as well as to monitor for compliance in the future. For example, the Volcker Rule provisions of the Dodd-Frank Act will have an effect on the Bank, including potentially limiting various aspects of the Bank's business.

The Bank is subject to legal risk, including the risk of lawsuits and other legal proceedings, which could have a material adverse effect on its business, results of operations or financial condition

The Bank is involved in various legal proceedings on a day-to-day basis in connection with its business, including tax disputes.

The Bank has included provisions in its financial statements to cover possible liabilities arising from legal proceedings and tax disputes. For more information, see "*Business – Legal Proceedings*". The Bank's management makes estimates regarding the outcome of legal and tax matters and creates provisions when losses with respect to such matters are deemed probable and can be reasonably estimated. Based on the advice of internal counsel and external advisers, and the Bank's previous experience in similar cases or proceedings or other pending litigation, as of the date of this Offering Circular, the Bank believes that its current provisions are adequate to deal with the outcome of pending proceedings.

However, estimates by their nature are based on judgement and currently available information and involve a variety of factors, including, but not limited to, the type and nature of the litigation, claim or proceeding, the progress of the matter, the advice of legal counsel and other advisers, possible defences and previous experience in similar cases or proceedings. Given the complexity

of the relevant circumstances underlying such proceedings, together with the issues relating to the interpretation of applicable law, it is inherently difficult to estimate the potential liability related to such risks, to evaluate the outcome of such litigation or the time when such liability may materialise. As such, there can be no assurance that such provisions will be sufficient to fully cover the possible losses arising from litigation, tax or other proceedings. Accordingly, the Bank may also be required to cover litigation losses and tax liabilities that exceed such provisions.

A negative outcome in one or more of its ongoing proceedings, even in light of its provisions, could have a material adverse effect on the business, results of operations or financial condition of the Bank.

RISKS RELATING TO INDONESIA

The Bank is subject to the political, economic, legal and regulatory environment in Indonesia and substantially all of its operations and assets are located in Indonesia. The Bank's business, financial condition and results of operations may be affected by changes in Government policies, laws and regulations. Investing in Indonesia and companies located in Indonesia involves many risks, including the following:

Noteholders will be exposed to a legal system subject to considerable discretion and uncertainty and may have difficulty pursuing claims under the Notes

Indonesian legal principles relating to the rights of debtors and creditors and their implementation by Indonesian courts may differ materially from the legal principles that would apply or their implementation by the courts if the Bank was established in other jurisdictions such as the United States or the European Union. Neither the rights of debtors nor the rights of creditors under Indonesian law are as clearly established as under legislation or judicial precedent in most United States and European jurisdictions. In addition, under Indonesian law debtors may have rights and defences to actions filed by creditors that these debtors would not have in jurisdictions with more established legal regimes, such as those in the United States and the European Union member states.

Indonesia's legal system is a civil law system based on written statutes in which judicial and administrative decisions do not constitute binding precedent and, although the judiciary has taken steps to systematically publish decisions and make these electronically accessible, not all such decisions are so published or readily accessed. Many of Indonesia's commercial and civil laws and rules on judicial process were based on Dutch law in effect prior to Indonesia's independence in 1945 and some of the laws have not been revised to reflect the complexities of modern financial transactions and instruments. Indonesian courts may be unfamiliar with sophisticated commercial or financial transactions, leading in practice to uncertainty in the interpretation and application of Indonesian legal principles. The application of many Indonesian laws depends, in large part, upon subjective criteria such as the good faith of the parties to the transaction and principles of public policy, the practical effect of which is difficult or impossible to predict. Indonesian judges operate in an inquisitorial legal system and have very broad fact-finding powers and a high level of discretion in relation to the manner in which those powers are exercised.

In practice, Indonesian court decisions may omit, or may not be decided upon, a legal and factual analysis of the issues presented in a case. As a result, the administration and enforcement of laws and regulations by Indonesian courts and Governmental agencies may be subject to considerable discretion and uncertainty. Further, there is also no assurance that Indonesian courts would enforce, or even consent to, adjudicating agreements that are governed by non-Indonesian law.

On 2 September 2013, the holders of notes issued by BLD Investments Pte. Ltd and guaranteed by PT Bakrieland Development Tbk ("**Bakrieland**"), under a trust deed governed under English law, filed a suspension of debt payment petition with the Jakarta Commercial Court on grounds

including that Bakrieland had failed to comply with its obligation to repay the principal amount of the notes when noteholders exercised their put option under the terms of the notes. In its decision dated 23 September 2013, the Jakarta Commercial Court ruled, among other things, that the trust deed relating to the notes is governed by English law, all disputes arising out of or in connection with the trust deed must be settled by English courts and, accordingly, that it does not have authority to examine and adjudicate this case.

Furthermore, in early 2016, an Indonesian company, PT Trikonsel Oke Tbk (“**Trikonsel**”), entered into suspension of debt payment proceedings (*Penundaan Kewajiban Pembayaran Utang* or “**PKPU**”). The administrators were reported to have rejected claims that arose from holders of their two Singaporean Dollar bonds and have taken the stance that the trustees under such bonds did not have any standing to make claims on behalf of bondholders. Further, they asserted that only individual bondholders that had filed claims on their own would be able to participate in the suspension of debt payment proceedings and to vote on any restructuring plan. On 28 September 2016, the suspension of debt payment obligations process was settled between Trikonsel and its creditors through the establishment of a composition plan (*rencana perdamaian*) which was approved by certain bondholders, and then ratified by the Jakarta Commercial Court. Based on an announcement from Trikonsel on 5 October 2016, under the composition plan, the bondholders of two of the Singaporean Dollar bonds may be required to convert their notes into new shares to be issued by Trikonsel, thereby extinguishing the bonds.

In another example, in the PKPU proceeding of PT Delta Merlin Dunia Textile (“Duniatex”) in 2020 the PKPU administrators rejected claims in connection with certain foreign currency bonds concluding that the relevant trustees did not have any standing to make claims on behalf of the relevant noteholders. The PKPU administrators further held, that only individual noteholders that had filed claims on their own would be able to participate in the PKPU proceedings and to vote on the restructuring plan. This stance was further affirmed by the Commercial Court and the PKPU was settled in June 2020, through the ratification of a composition plan which was approved by certain noteholders of Duniatex, and then ratified by the Jakarta Commercial Court.

As a result, it may be challenging for investors to pursue a claim against the Bank in Indonesia than it would be to do so in other jurisdictions, such as the United States and the European Union, which may adversely affect the investors ability to obtain and enforce a judgement against the Bank in Indonesia and increase the investors’ costs of pursuing, and the time required to pursue, claims against the Bank.

Downgrades of credit ratings of Indonesia could adversely affect the Indonesian financial markets and the Bank’s ability to finance operations and grow

Currently, Indonesia’s sovereign foreign currency long-term debt is rated “Baa2” by Moody’s (stable), “BBB” by Fitch (stable) and “BBB” by S&P (stable). These ratings reflect an assessment of the Government’s overall financial capacity to pay its obligations and its ability or willingness to meet its financial commitments as they become due, and are an improvement over the sovereign rating granted by these international credit rating agencies to Indonesia following the 1997 financial crisis.

Even though the recent trend in Indonesian sovereign ratings has been positive, there can be no assurance that Moody’s, S&P, Fitch or any other international credit rating agency will not downgrade the credit ratings of Indonesia. Any such downgrade could have an adverse impact on liquidity in Indonesian financial markets, on the ability of the Government and Indonesian companies, including the Bank, to raise additional financing, and on the interest rates and other commercial terms at which such additional financing is available.

The Bank is subject to political, legal and regulatory conditions in Indonesia that differ in certain significant respects from those prevailing in other countries with more developed economies. The Bank's business and operations are subject to the changing economic and political conditions prevailing from time to time in Indonesia. The Government has frequently intervened in the Indonesian economy and occasionally made significant changes in policy. The Bank's business, cash flows, financial condition, results of operations and prospects may be adversely affected by changes in Government policies.

Labour activism and legislation could adversely affect the Bank, its customers and Indonesian companies in general, which in turn could affect the Bank's business, financial condition and results of operations

Laws and regulations that facilitate the formation of labour unions, combined with weak economic conditions, have in the past resulted, and may in the future, result in labour unrest and activism in Indonesia.

In 2000, the Government issued Law No. 21 of 2000 on Labour Union, permitting employees to form unions without intervention from their employers. In 2003, Law No. 13 of 2003 on Labour (the "**2003 Labour Law**") was issued, increasing the amount of mandatory severance, service and compensation payments payable to terminated employees. The 2003 Labour Law also requires implementation of regulations that may substantially affect labour regulations in Indonesia, such as the requirement for bipartite forums with participation from employers and employees if the employer has at least 50 employees and the requirement for participation of more than 50.0% of the employees of a company in order for a collective labour agreement to be negotiated. The 2003 Labour Law also creates procedures that are more permissive to the staging of strikes. Under the 2003 Labour Law, employees who voluntarily resign are entitled to payments for, among other things, unclaimed annual leave, relocation expenses (if any), and other expenses. Although several labour unions challenged the 2003 Labour Law on constitutional grounds, the Indonesian Constitutional Court declared it valid, except for certain provisions, such as the procedures for terminating the employment of an employee who commits serious misconduct and criminal sanctions against an employee who instigates or participates in an illegal labour strike.

In 2020, the Job Creation Law and Government Regulation No. 35 of 2021 on Fixed-Term Employment Agreement, Outsourcing, Working Hours and Time-off, and Termination of Employment, introduced several further amendments to the 2003 Labour Law the 2003 Labour Law, as so amended, the "**Labour Law**"), including that employers may terminate employees based on 'efficiency' due to losses, where the 2003 Labour Law previously required that termination on this ground required closure of the company. Another change is that there is now only one severance payment formula applicable to all grounds of termination, where previously some grounds for termination granted a double severance payment (*pesangon*). There is also a total reduction in the severance formula that must be paid. A terminated employee will now be eligible for a maximum amount of 19 months' worth of pay only (previously 32 months), which consists of (i) 10 months' worth of severance pay and (ii) nine months' worth of long service pay, all provided by the employer. In addition, such employee will also be eligible for up to a maximum of six months' worth of pay, which will be paid through an Unemployment Benefit (*Jaminan Kehilangan Pekerjaan*) scheme from the Government. In addition to the above, it is expected that there will be several implementing regulations to be issued that will govern, among others, outsourcing and termination of employees by the Government. The changes proposed have triggered several protests against the Job Creation Law in Indonesia, including judicial review petition that resulted in the issuance of Constitutional Court Decision No. 168/PUU-XXI/2023 on 31 October 2024 ("**Constitutional Court Decision No. 168/2023**").

Constitutional Court Decision No. 168/2023 mandates that, among other things, disputes between employers and employees must prioritise negotiation and consensus. If negotiations fail, the termination process must go through all stages of the industrial relations dispute resolution process. This means that in cases of disputed termination, the employer must go through negotiations, mediation, and, if necessary, a ruling from the industrial relations court. Furthermore, during the negotiation and dispute resolution process, the employer is required to continue paying the employee's salary. Constitutional Court Decision No. 168/2023 also mandates legislators to promptly draft a new labour law.

Labour unrest and activism in Indonesia could disrupt the Bank's operations or those of its customers and could affect the financial condition of Indonesian companies in general, depressing the prices of Indonesian securities on the Indonesian stock exchanges and the value of the Rupiah relative to other currencies. Such events could materially and adversely affect the Bank's business, prospects, financial condition and results of operations.

Indonesian law requires agreements involving Indonesian parties to be written in the Indonesian language and allows parties thereto to elect a foreign language version of such agreement as the governing language; however, in the event of proceedings in an Indonesian court there can be no assurance that the judges will render their decision based on the foreign language version

Pursuant to Law No. 24 of 2009 on Flag, Language, Coat of Arms, and National Anthem that was enacted on 9 July 2009 ("**Law No. 24/2009**"), agreements in which Indonesian entities or individuals are parties must be made in Bahasa Indonesia. In the event that foreign entities or individuals are also parties to the same agreements, such agreements may also be made in the language of such foreign parties or in the English language, provided that both the foreign language and Indonesian language versions are equally authoritative. Law No. 24/2009 is silent on the governing language if there is more than one language used in a single agreement or on the consequence in the event that applicable agreements are not prepared in the Bahasa Indonesia language.

On 30 September 2019, the President of the Republic of Indonesia issued Presidential Regulation No. 63 of 2019 on The Use of Indonesian Language ("**PR No. 63/2019**") to implement the provisions under Law No. 24/2009. PR No. 63/2019 stipulates that the Indonesian language must be used in memorandums of understanding or agreements that involve, among others, Indonesian private entities (including Indonesian limited liability companies). If the agreement involves a foreign party, the agreement may also be made in the national language of such foreign party or in English. Under PR 63/2019, the foreign language version of such agreement will be deemed as an equivalent (*padanan*) to or a translation (*terjemahan*) of the Bahasa Indonesia version. This provision also implies that the Indonesian language version of the agreement needs to be executed at the same time as the English version of the agreement. In addition, PR No. 63/2019 expressly confirms that parties to an agreement involving foreign parties may agree on any prevailing language of the agreement if there are any inconsistencies between the Indonesian language version and the foreign language version.

In addition, with respect to state-owned enterprises such as the Bank, the Minister of State-Owned Enterprises ("**MSOE**") has also issued Circular Letter No. SE-12/MBU/2009, dated 3 November 2009, which recommends that any state-owned enterprise must use Bahasa Indonesia in every memorandum of understanding or agreement to which such state-owned enterprise is a party.

On 29 December 2023, the Chief Justice of the Supreme Court of the Republic of Indonesia issued Circular Letter No. 3 of 2023 which contains general statements of opinion on various legal issues. One of the issues addressed in such circular letter is the requirement to use Indonesian language under Law No. 24/2009. The circular letter states that the absence of an Indonesian language translation of an agreement involving a foreign party cannot be used as a basis to invalidate such an agreement, unless it can be proven that the absence of the Indonesian language translation is due to bad faith.

The Trust Deed and certain other documents entered into in connection with the issue of the Notes thereunder were or will be signed in both English and Bahasa Indonesia as required under the foregoing laws and regulations. Both English and Bahasa Indonesia versions of such documents will be considered equally original. All of these documents expressly state or will expressly state that the English versions will prevail, which is in line with the provisions of PR No. 63/2019. However, there is no assurance that the Bahasa Indonesia version of any such agreement reflects the original intent of the parties thereunder or reflect the relevant descriptions in this Offering Circular, as some concepts in the English language may not have a corresponding term in Bahasa Indonesia, or may not be fully captured by the Bahasa Indonesia version. Furthermore, when an English language document is submitted to Indonesian courts as evidence, the court would assess the Indonesian language version or translation of such document, irrespective of the parties' choice of governing language. If this occurs, there can be no assurance that the Notes, including the terms under the Trust Deed, will be as described in this Offering Circular, or will be interpreted and enforced by the Indonesian courts as intended.

The interpretation and implementation of legislation on governance in Indonesia is uncertain and may adversely affect the Bank

During the administration of former President Soeharto, the central Government controlled almost all aspects of national and regional administration. Following the end of his administration in 1998, the Government enacted a number of laws to increase regional autonomy. Under these laws, regional governments have greater powers and responsibilities over the use of national assets to create a more balanced and equitable financial relationship with the central Government. Any new regulations, and the interpretation and implementation of those new regulations, may differ materially from the current legislative and regulatory framework and its current interpretation and implementation. The Bank may also face conflicting claims between the central Government and regional governments regarding, among other things, jurisdiction over the Bank's operations and new or increased local taxes. The regional governments where the Bank's operations are located could adopt regulations, or interpret or implement the regional autonomy laws in a manner that adversely affects the Bank's business operations and prospects. The Minister of Home Affairs of Indonesia has issued two Ministerial Instructions on 16 February 2016 and 4 April 2016, respectively, which mainly instruct each Governor and Mayor/Head of Regency in Indonesia to revoke/amend every regional regulation and decree issued by both the regional government and the Mayor/Head of Regency which impede investment bureaucracy and licences. The Bank's business and operations are located throughout Indonesia and may be adversely affected by conflicting or additional restrictions, taxes and levies that may be imposed by the applicable regional authorities.

The Bank faces legal and regulatory risks in the Republic of Indonesia

The Bank's businesses in the Republic of Indonesia are subject to various regulatory requirements of the Government and the Bank is also subject to certain licences, permits and approvals to operate its business. The breach of any law and regulation in the Republic of Indonesia by the Bank or an adverse application or interpretation of the relevant laws and regulations and requirements may materially and adversely affect the Bank's business. In the future, the Bank may be required to renew its licences, permits and approvals and/or obtain new licences, permits and approvals and there can be no assurance that the relevant authorities will

issue any of such licences, permits or approvals (where such renewal is subject to discretion) in the timeframe within which the Bank anticipates or that such licences, permits and approvals as renewed will not be subject to conditions that are more stringent or restrictive than those currently imposed by the Bank's existing licences, permits and approvals. In addition, if the Bank is found to be in breach of any conditions of its licences, permits or approvals or if it does not hold the requisite licences, permits or approvals, it may be subject to penalties, fines, criminal or civil sanctions and the relevant licence, permit or approval may be suspended, revoked or subject to additional conditions which could adversely affect the Bank's business, financial condition or results of operations.

Further, the principles and interpretation of Indonesian laws and regulations relating to matters such as corporate governance practices may be unclear and the application and enforcement of such corporate governance practices may be subject to uncertainty and considerable discretion. At times, the interpretation or application of laws and regulations may be unclear and the content of applicable laws and regulations may not be immediately available to the public. Under such circumstances, a consultation with the relevant authority in Indonesia may be necessary to obtain a better understanding or clarification of the applicable laws and regulations. The lack of certainty in the interpretation, implementation and enforcement of Indonesian laws and regulations may affect the Bank's business.

Certain other risks associated with the legal system in the Republic of Indonesia include: (i) the untested nature of judicial independence and the judiciary's insulation from economic, political or nationalistic influences; (ii) inconsistencies between and among laws; (iii) the possibility that laws coming into force in the future may have a retrospective effect; (iv) insufficient funding and staffing of courts compared to levels in developed countries; (v) difficulties in predicting or anticipating future developments in the legal system; (vi) cultural differences and differences in corporate governance practices; and (vii) the relative unfamiliarity of judges and courts with complex commercial or financial transactions.

The Bank is subject to risk of imposition or modification of exchange control restrictions

Currently, Indonesia has limited foreign exchange restrictions. The Rupiah is, in general, freely convertible. However, in an effort to maintain the stability of the Rupiah and to prevent non-residents from using the Rupiah for speculative purposes, Bank Indonesia regulations on the purchase of foreign currency restrict the movement of Rupiah from banks within Indonesia to (a) offshore banks, (b) offshore branches or offices of Indonesian banks or (c) any investment in Rupiah by foreign parties or Indonesian citizens domiciled or permanently residing outside Indonesia, without a legitimate underlying transaction, thereby limiting offshore trading to existing sources of liquidity. In addition, Bank Indonesia has the authority to request information and data concerning the foreign exchange activities of all people and legal entities that are domiciled, or who plan to reside, in Indonesia for at least one year. Bank Indonesia regulations also require resident banks and companies to report to Bank Indonesia all data concerning their foreign currency activities. Additionally, as the Notes are denominated in a foreign currency, the Bank remains susceptible to the risks of being subject to future imposition or modification of exchange controls by Bank Indonesia. Such risks are usually dependent on various economic and political events over which the Bank does not have any control. The risk of being subject to exchange control restrictions in the future means that the Bank's ability to fulfil its obligations under agreements with creditors outside of Indonesia or where the obligations are denominated in other currencies may be impaired. As a way to manage such potential risks, as of 31 December 2024, the Bank has a Net Open Position for foreign currencies of 1.00% of the Bank's total Tier I and Tier II capital, as established by Bank Indonesia regulations.

Substantial decreases or increases in oil prices could adversely affect the Indonesian economy

Increases in the cost of oil globally may negatively affect the economic growth and stability of Indonesia. The economic and political conditions in Indonesia also make it difficult to predict whether oil will continue to be available at prices that will not harm economic growth and stability. For example, the Government has, in the past, implemented policies including the reduction of fuel subsidies, which resulted in significant political tension. Policies have also been formulated to reduce reliance on the use of oil as the main source of energy and improve the supply of oil that can be produced domestically to allow Indonesia to become a net oil exporter. However, there can be no assurance that further increases in oil prices in Indonesia will not lead to political, social and economic instability, which in turn could have a material adverse effect on the Bank's businesses, financial condition and results of operations.

In addition, future decreases in oil prices could adversely affect the business of the Bank. Indonesia is an oil producer and at times has been a net oil exporter, and the state-owned oil company PT Pertamina (Persero) is a key borrower of the Bank. Low oil prices negatively and adversely affect the Bank's customers in the domestic oil industry and could in turn adversely affect the business, financial condition and results of operations of the Bank.

Indonesia is located in a geologically active zone and is subject to the risk of significant geological and other natural disasters, which could lead to social and economic instability

The Indonesian archipelago is one of the most volcanically active regions in the world. As it is located in the convergence zone of three major lithospheric plates, it is subject to significant seismic activity, which can lead to destructive earthquakes, volcanoes and tsunamis, such as the eruption of Mount Agung in 2017 and the partial collapse of the Anak Krakatau volcano in 2018, which resulted in the closures of both domestic and international airports in the vicinity.

There can be no assurance that future geological or meteorological occurrences will not significantly harm the Indonesian economy. A significant earthquake, other geological disturbance or weather-related natural disaster in any of Indonesia's more populated cities and financial centres could severely disrupt the Indonesian economy and undermine investor confidence, thereby materially and adversely affecting the Bank's business, financial condition and results of operations. Even where natural disasters do not have a significant impact on the Indonesian capital markets or the country's economic indicators, they may disproportionately affect the Bank's results of operations and financial condition, given its presence across the Indonesian archipelago and exposure to individuals and small businesses throughout the country.

Additionally, any recovery and relief efforts necessary after a disaster may impose a strain on the Government's finances, and may impair its ability to meet its obligations on its sovereign debt. Any such failure on the part of the Government, or declaration by it of a moratorium on its sovereign debt, could trigger an event of default under numerous private-sector borrowings, thereby materially and adversely affecting the Bank's business, financial condition and results of operations.

Indonesian corporate and other disclosure and accounting standards differ from those in the United States, countries in the European Union and other jurisdictions

The Bank is subject to corporate governance and reporting requirements in Indonesia that differ, in significant respects, from those applicable to companies in certain other countries. One of the differences is due to the time lag of IFRS implementation in Indonesia. The amount of information made publicly available by issuers in Indonesia may be less than or different from that made publicly available by comparable companies in other more developed countries, and certain statistical and financial information of a type typically published by companies in other more

developed countries may not be available. As a result, investors may not have access to the same level and type of disclosure that may be available in other countries, and comparisons with other companies in other countries may not be possible in all respects.

The Bank's consolidated financial statements are prepared in accordance with IFAS, which is an accounting standard converged from IFRS. However, due to the time lag of IFRS implementation in Indonesia, some of IFAS are different from IFRS implemented in the European Union and other jurisdictions, and also different from US GAAP. As a result, the Bank's consolidated financial statements and reported earnings could be different from those which would be reported under current IFRS or US GAAP. This Offering Circular does not contain a reconciliation of the Bank's consolidated financial statements to current IFRS and US GAAP, and there is no assurance that such a reconciliation would not reveal material differences.

Political instability in Indonesia, including as a result of terrorist activity, could adversely affect the economy, which in turn could affect the Bank's business, financial condition and results of operations

From time to time in recent years, Indonesia has experienced instability and general social and civil unrest on several occasions. Since 2000, thousands of Indonesians have participated in demonstrations in Jakarta and other Indonesian cities both for and against former President Wahid, former President Megawati, and former President Yudhoyono, as well as in response to specific issues, including fuel subsidy reductions, privatisation of state assets, anti-corruption measures, decentralisation and provincial autonomy and the American-led military campaigns in Afghanistan and Iraq. Although these demonstrations were generally peaceful, some turned violent. Other protests regarding elections occurred when Indonesia's Electoral Commission ("KPU") formally announced the results of the 2019 presidential election and it was confirmed that the incumbent President Joko Widodo had won the presidential polls with 55.5% of the total votes. The result triggered allegations of electoral fraud. Thousands of supporters of the opposing candidate, Prabowo Subianto, then held a rally in front of the Elections Supervisory Agency's ("Bawaslu") headquarters on Jl. Thamrin in Central Jakarta on 21 May 2019, calling for the disqualification of Joko Widodo from the presidential election. The rally ended with a riot on 22 May 2019 in Central Jakarta. Further, the opposing party challenged the election result to the Constitutional Court with regard to such fraud allegation, resulting in political uncertainty and instability in Indonesia. The Constitutional Court rejected the appeal of the presidential election result on 27 June 2019.

Further, in September 2019, the House of Representatives (*Dewan Perwakilan Rakyat*) planned to enact a draft Indonesian criminal code and a draft anti-corruption law which was met by a series of protests and rallies rejecting the draft laws. The protestors argued that the draft criminal code contained several articles that potentially threatened civil liberty and contradicted several Constitutional Court decisions. The draft anti-corruption law was also rejected by the protestors on the grounds that the draft law had onerous requirements that would essentially hinder the eradication of corruption. After the rallies on 30 September 2019, there was a riot where several police stations and public property were destroyed. Due to the controversy surrounding the draft laws and series of rallies, the Government agreed to postpone the enactment and further revise the draft laws.

Finally, there also have been separatist movements and clashes between religious and ethnic groups in certain parts of Indonesia.

Separately, in the past, there have been various terrorist attacks in Indonesia directed towards the Government, foreign governments, and public and commercial buildings frequented by foreigners, which have killed and injured a number of people. On 13 May 2018 and 14 May 2018, multiple bombings occurred in several churches and a police station in Surabaya, East Java, killing at least 28 people and injuring at least 57 people.

Violent acts arising from, and leading to, social, civil and political instability and unrest have in the past had, and may continue to have, a material adverse effect on investment and confidence in, and the performance of, the Indonesian economy, which could have a material adverse effect on the Bank's business, financial condition and results of operations.

An outbreak of a contagious disease could adversely affect the Indonesian economy and the Bank

An outbreak, or fear or perception of an outbreak, of a virus or another contagious disease in Asia, including Indonesia, or measures taken by governments against a potential or actual outbreak, including travel restrictions or quarantines, could result in significantly lower economic activity, runs on banks or otherwise interrupt the Bank's operations and the communities it serves, which could have a material adverse effect on the Bank's business, prospects, financial condition and results of operations.

RISKS RELATING TO THE INDONESIAN BANKING INDUSTRY

Indonesian banks are generally exposed to higher credit risks and greater market volatility than banks in more developed countries

Indonesian banks are subject to the credit risk that Indonesian borrowers may not make timely payment of principal and interest on loans and in particular that, upon such failure to pay, Indonesian banks may not be willing or able to enforce any security interest or guarantee they may have. The credit risk of Indonesian borrowers is, in many instances, significantly higher than that of borrowers in more developed countries due to the greater uncertainty associated with the Indonesian regulatory, political, legal and economic environment, the large foreign debt of the Government and corporations relative to Indonesia's gross domestic product and the greater volatility of interest rates and the Rupiah to US dollar exchange rate. Any significant political or economic event in Indonesia may result in a rapid deterioration in the credit quality of the Bank's loan portfolio and, as a consequence, a significantly higher percentage of NPLs than banks in more developed countries generally experience.

Higher credit risk affects the quality of loan portfolios and exposes Indonesian banks, including the Bank, to greater potential losses and higher risks than banks in more developed countries. In addition, higher credit risk may make it more difficult or more expensive for the Bank to raise equity financing. Such losses and higher capital costs arising from this higher credit risk may have a material adverse effect on the Bank's business, prospects, financial condition and results of operations.

High levels of inflation and high interest rates in Indonesia could adversely affect the Bank's financial condition and results of operations

Interest rates are affected by the rate of inflation. Historically, Indonesia has experienced periods of high inflation. The official inflation rate reported by *Badan Pusat Statistik*, also known as BPS-Statistics Indonesia, for the years ended 31 December 2023 and 2024 was 2.61% and 1.57%, respectively. A higher rate of inflation will significantly increase the Bank's costs, including its cost of funds, employee compensation and other overhead expenses. Additionally, until the Bank makes appropriate adjustments, inflation causes the real value of the Bank's gross interest income to decrease, which would have a material adverse effect on its NIMs, expense structure, cash flow, business, financial condition and results of operations. Further, high inflation rates could have an adverse effect on Indonesia's economy, business climate and consumer confidence. As a result, a high rate of inflation in Indonesia could have a material adverse effect on the Bank's financial condition and results of operations.

The Indonesian banking sector has faced significant financial and operating difficulties in the past, and there can be no assurance that it will not face financial and operating difficulties in the future

The 1997 Asian financial crisis caused significant financial and operating difficulties for the Indonesian banking sector. These difficulties included interest rate volatility, liquidity constraints, low or negative interest margins, low deposit growth, deterioration of asset and credit quality, declining collateral values, substantial NPLs, low or negative loan growth and potential or actual under capitalisation. It also resulted in a substantial depreciation in the value of the Rupiah and depletion of Indonesia's foreign currency reserves as well as reliance on multilateral lenders and creditor groups to prevent sovereign debt defaults.

In 1998, the Government established the Indonesian Bank Restructuring Agency (the "IBRA") to restructure the Indonesian banking system. In 1999, the Government, through Bank Indonesia and IBRA, undertook significant reforms, including closing, liquidating, selling interests in or merging a number of banks. Further disruptions in the Indonesian financial sector, or general economic conditions in Indonesia, may cause the Indonesian banking sector in general, and the Bank in particular, to experience any or all of the aforementioned challenges including substantial increases in NPLs, problems meeting capital adequacy requirements, liquidity problems and other challenges. There can be no assurance that the Government, acting through Bank Indonesia or otherwise, will not take additional actions in relation to Indonesian banks, including the Bank, including forced acquisitions or mergers, bank closures, increases in interest rates, increases in regulatory capital requirements or exchange controls.

Indonesian banks have limited independent information regarding the credit history and status of potential borrowers

Banks in Indonesia have limited independent information regarding the credit history of potential borrowers in Indonesia, including repayment histories. Limited access to credit history information is a risk which Indonesian banks such as the Bank must consider when extending credit, since no third-party institution monitored credit histories in Indonesia prior to 1990. Currently, the most reliable information regarding the credit repayment history of potential Indonesian borrowers is provided by OJK through Sistem Layanan Informasi Keuangan (SLIK – Financial Information Service System). Since 2015, some private credit bureau companies such as PT Pefindo Biro Kredit (PBK) and PT Kredit Biro Indonesia Jaya (KBIJ) have started to provide credit history information and credit risk scoring services based on such information from Bank Indonesia and other sources. More recently, the OJK has built a cluster comprising certain credit-scoring companies called Innovative Credit Scoring ("ICS") as part of the Inovasi Keuangan Digital (IKD – Financial Digital Innovation) initiative. As of December 2024, there were five companies listed in the credit scoring cluster. However, there is no guarantee that these credit scoring service providers can acquire enough data to determine the actual creditworthiness of potential borrowers.

Regulations for classification and provisioning of NPLs may result in inadequate provisions and are subject to change by Bank Indonesia and the OJK

Bank Indonesia and the OJK have revised its asset classification, loss provisioning and credit restructuring regulations in recent years in order to facilitate more accurate estimates of the probability that debtors will be able to fulfil their future obligations for purposes of loan classification, rather than relying on historical performance alone. Bank Indonesia reviews its policies with regard to loan classification from time to time. Such reviews may affect the classification of the Bank's assets and provision requirements. OJK regulations require that Indonesian banks classify NPLs into three categories corresponding to their risk of non-payment: sub-standard, doubtful and loss. In addition, Indonesian banks are required to classify performing loans in two categories: current and special mention. Generally, classification depends on a

combination of a number of quantitative factors as well as, to a lesser extent, qualitative factors relating to the business prospects of the borrower and its affiliates, financial performance of the borrower, and the borrower's capacity for repayment. Loans delinquent for more than 90 days are considered to be non-performing. These requirements are subject to change by Bank Indonesia and the OJK.

In addition, the Bank is required to assess its classifications of outstanding loans by considering loan classifications made by other banks in Indonesia for facilities that they have extended to the same borrower or that they have extended to finance the same project. To the extent that other banks in Indonesia have classified loans in a lower category than the Bank, the Bank is required to adjust its classifications accordingly and make additional allowance for impairment losses on loans.

For loan classifications, OJK guidelines primarily focus on quantitative factors, such as the number of months a payment is in arrears and to a lesser degree, and on qualitative factors such as the business prospects of the borrower and its affiliates.

Since 1 January 2020, a new impairment method was implemented, where there is a change from an incurred loss approach (IAS 39) to expected loss approach (IFRS 9). This more conservative and forward-looking approach may require even higher provisioning for the Bank's assets.

The Bank's loan classification and provisioning policies have a significant impact on the results of its operations. Although the Bank's loan classification and provisioning policies comply with current Bank Indonesia and OJK guidelines, there can be no assurance that its allowances are sufficient to reflect its actual future recovery on these loans or that the Bank will not have to make significant additional allowances for possible loan losses in future periods.

The Bank's payment obligations within Indonesia which are denominated in foreign currencies may be subject to sanctions

On 28 June 2011, the Government enacted Law No. 7 of 2011 on Currency, as amended by the Financial Sector Omnibus Law (the "**Currency Law**"), which took immediate effect. The Currency Law is implemented by Bank Indonesia Regulation No. 17/3/PBI/2015 on the Mandatory Use of Rupiah within the territory of the Republic of Indonesia and Bank Indonesia Circular Letter No. 17/11/DKSP (the "**Bank Indonesia Currency Regulations**").

The Currency Law and Bank Indonesia Currency Regulations require the mandatory use of the Rupiah (as the local currency) within the Indonesian territory for the following transactions, whether cash or noncash:

- (a) payment transactions;
- (b) settlement of other payment obligations; and/or
- (c) other financial transactions (e.g., money transfer from the customers to banks).

Further, any party is also prohibited from refusing to accept Rupiah as payment or in fulfilment of its obligations, which must be satisfied in Rupiah, and/or for other financial transactions in Indonesia except where there is doubt as to the authenticity of the Rupiah paid. Article 23(2) of the Currency Law contains an exemption for the foregoing prohibition to refuse Rupiah, i.e. if payments or settlements of obligations in foreign currencies have been agreed in writing. The Bank Indonesia Currency Regulations clarifies that this exemption only applies if the transaction contemplated under such written agreement constitutes an transaction exempted from the mandatory use of Rupiah within the meaning of the Currency Law and Bank Indonesia Currency Regulations, described below.

Article 21(2) of the Currency Law and Article 5 of the Bank Indonesia Currency Regulations provide exemptions for the mandatory use of Rupiah for certain transactions, including:

- (a) certain transactions related to the implementation of the state budget;
- (b) receipt or grant of offshore grants;
- (c) international commercial transactions;
- (d) bank deposits in foreign currency;
- (e) international financing transactions;
- (f) business activities carried out in foreign currency by a commercial bank in accordance with banking laws and regulations.

Failure to comply with the Currency Law with respect to cash transactions may result in imprisonment of up to one year and fines of up to Rp200 million. If the violation is committed by a company, the fine will be increased by one-third and the company may be subject to administrative sanctions in the form of, among others, business licence revocation. For violations with respect to noncash transactions, the Bank Indonesia Currency Regulations prescribe administrative sanctions in the form of written reprimand, fines in the amount of 1% of the relevant transaction up to Rp1.0 billion, as well as prohibition to participate in foreign exchange.

The Bank has payment obligations denominated in foreign currencies under certain agreements. If it is required by the Currency Law and/or the Bank Indonesia Currency Regulations to make such payments in Rupiah, the Bank may be in breach of its payment obligations under these contracts. There can be no assurance that the Currency Law and/or the Bank Indonesia Currency Regulations will not materially and adversely affect the Bank's contractual obligations, which are denominated in US dollars within Indonesia.

RISKS RELATING TO THE STRUCTURE OF A PARTICULAR ISSUE OF NOTES

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of certain such features and risks associated.

Notes issued as GSS Bonds with a specific use of proceeds may not meet investor expectations or requirements

The Pricing Supplement relating to a specific Tranche of Notes may indicate that the Bank intends to apply an amount equal to the net proceeds of such Notes towards projects that align with the Bank's Sustainable Finance Framework, as described in "*Sustainable Finance Framework*" section of this Offering Circular. Prospective investors should have regard to the information set out in the section "*Sustainable Finance Framework*" and determine for itself the relevance of such information, alongside with any further investigation or advice from independent financial or professional advisers, prior to making an investment decision with respect to such Notes.

No assurance is given by the Bank, the Arrangers or the Dealers that such intended use of proceeds will satisfy any present or future investment criteria or guidelines with which an investor is required, or intends, to comply, particularly regarding any direct or indirect environmental or sustainability impact of the financed project or use that is the subject of or related to, the Sustainable Finance Framework. Furthermore, no assurance is given by the Arrangers or the

Dealers as to (i) whether the use of an amount equal to the net proceeds will be applied for Eligible Activities, or (ii) the characteristics of the Eligible Activities, including their environmental and sustainability criteria.

Similarly, no assurance can be given that the Eligible Activities will meet investor expectations or requirements associated with labels such as “green”, “sustainable”, “social” or similar labels (including but not limited to compliance with Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the “**EU Taxonomy**”) or Regulation (EU) 2020/852 as it forms part of domestic law in the United Kingdom by virtue of the EUWA). Moreover, as of the date of this Offering Circular, there is no market consensus on the precise characteristics required for a project to qualify as “green”, “sustainable”, or “social”, and no assurance can be provided that these assets will consistently align with investor expectations of eligibility criteria.

Although the projects financed by proceeds from such Notes are expected to align with categories recognised under various principles described in the Sustainable Finance Framework and to be developed in compliance with applicable legislation and standards, there is no assurance that such projects will not encounter adverse social and/or environmental developments during their design, construction, commissioning, and/or operation. Furthermore, in cases where any resulting negative impacts are insufficiently mitigated, such projects may become subject to controversy and/or criticism from activist groups or other stakeholders.

No representation or assurance is given as to the suitability or reliability of any opinion or certification of any third party, including the Second Party Opinion provided by S&P Global Ratings, made available in connection with an issue of Notes issued as GSS Bonds. For the avoidance of doubt, any such opinion or certification is not incorporated in this Offering Circular. Any such opinion or certification is not a recommendation by the Bank, the Arrangers, the Dealers or any other person to buy, sell or hold any such Notes and is current only as of the date it was issued. As at the date of this Offering Circular, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. These opinions are for informational purposes only, may not reflect all risks related to such Notes (such as marketability, trading price, or liquidity), and may be updated, suspended, or withdrawn at any time. None of the Bank, the Arrangers, the Dealers, or any affiliated person accepts liability for the content, use, or reliance on such opinions. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein to an investment decision in such Notes.

In the event that any such Notes are listed or admitted to trading on a dedicated “green,” “sustainable,” “social,” or other equivalently-labelled segment of a stock exchange or securities market, or included in any dedicated “green,” “environmental,” “sustainable” or other equivalently-labelled index, no representation or assurance is given by the Bank, the Arrangers, the Dealers, or any other person that such listing, admission, or inclusion satisfies any present or future investment criteria or guidelines with which such investor is required, or intends, to comply, whether by any present or future applicable laws or regulations or by its own constitutive documents, other governing rules, or investment portfolio mandates. Furthermore, it should be noted that the criteria for any such listing, admission to trading, or inclusion in an index may vary from one stock exchange, securities market, or index to another. No representation or assurance is given or made by the Bank, the Arrangers, the Dealers or any other person that any such listing, admission to trading, or inclusion in an index will be obtained in respect of any such Notes or that any such listing, admission to trading, or inclusion in an index will be maintained during the life of the Notes.

It is the intention of the Bank to apply the proceeds of any Notes issued as GSS Bonds for the Eligible Activities as described in “*Sustainable Finance Framework*” above and/or in the applicable Pricing Supplement. Any examples of Eligible Activities provided in this Offering Circular are for illustrative purposes only and no assurance can be given that disbursements for projects with

these specific characteristics will be made by the Bank during the term of any Notes issued as GSS Bonds. In addition, there can be no assurance that the Eligible Activities will be completed as expected or achieve the impacts or outcomes (environmental, social or otherwise) originally expected or anticipated. None of a failure by the Issuer to allocate the proceeds of any Notes issued as GSS Bonds or to report on the use of proceeds or the Eligible Activities as anticipated or a failure of a third party to issue (or to withdraw) an opinion or certification in connection with an issue of GSS Bonds or the failure of the Notes issued as GSS Bonds to meet investors' expectations requirements regarding any "green", "sustainable", "social" or similar labels will constitute an Event of Default or breach of contract with respect to any of the Notes issued as GSS Bonds. Any failure to use an amount equal to the net proceeds in connection with such Eligible Activities, and/or any failure to meet, or to continue to meet, the investment requirements of certain investors with environmental and/or social concerns with respect to any Notes issued as GSS Bonds may affect the value of such Notes, and/or may have consequences for certain investors with portfolio mandates to invest in green projects.

A failure of the Notes issued as GSS Bonds to meet investor expectations or requirements as to their "green", "sustainable", "social" or equivalent characteristics, including the failure to apply proceeds for the Eligible Activities, the withdrawal of or failure to provide a second party opinion or certification, the Notes ceasing to be listed or admitted to trading on any dedicated stock exchange or securities market or included in a dedicated "green", "sustainable" or "social" index as aforesaid, or the failure by the Issuer to report on the use of proceeds or the Eligible Activities as anticipated, may have a material adverse effect on the value of such Notes and/or may have consequences for certain investors with portfolio mandates to invest in green assets (which consequences may include the need to sell the Notes as a result of the Notes not falling within the investor's investment criteria or mandate).

The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmarks"

Interest rates and indices which are deemed to be "benchmarks", including the euro interbank offered rate ("**EURIBOR**"), are the subject of national and international regulatory guidance and proposals for reform. Some of these reforms have already been implemented, whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or result in unforeseen circumstances, which could have a material adverse effect on any Notes referencing such a benchmark.

Regulation (EU) 2016/1011 (the "**EU Benchmarks Regulation**") applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed). Similarly, Regulation (EU) 2016/1011 as it forms part of UK domestic law by virtue of the EUWA (the "**UK Benchmarks Regulation**"), among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to or referencing a benchmark in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark.

More broadly, any international or national reforms of, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

The euro risk free-rate working group for the euro area has published a set of guiding principles and high-level recommendations for fallback provisions in, amongst other things, new euro-denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, amongst other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates. On 4 December 2023, the group issued its final statement, announcing completion of its mandate. These recommendations highlight potential systemic risks if fallback provisions are not robustly implemented.

The Terms and Conditions of the Notes provide for certain fallback arrangements if a relevant Reference Rate has ceased to be published as a result of such benchmark ceasing to be calculated or administered. Such fallback arrangements include the possibility that the Rate of Interest could be set by reference to a Successor Rate or an Alternative Reference Rate (both as defined in the Terms and Conditions), with or without the application of an adjustment spread and may include amendments to the Terms and Conditions of the Notes to ensure the proper operation of the successor or replacement benchmark, all as determined by the Bank (acting in good faith and in consultation with an Independent Adviser). An adjustment spread, if applied could be positive or negative and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of a relevant Reference Rate. However, it may not be possible to determine or apply an adjustment spread and even if an adjustment is applied, such adjustment spread may not be effective to reduce or eliminate economic prejudice to investors. If no adjustment spread can be determined, a Successor Rate or Alternative Reference Rate may nonetheless be used to determine the Rate of Interest. The use of a Successor Rate or Alternative Reference Rate (including with the application of an adjustment spread) will still result in any Notes linked to or referencing a relevant Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the relevant Reference Rate were to continue to apply in its current form.

If, following the occurrence of such benchmark replacement event, no Successor Rate or Alternative Reference Rate is determined, the ultimate fallback for the purposes of calculation of the Rate of Interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. Due to the uncertainty concerning the availability of Successor Rates and Alternative Reference Rates, the involvement of an Independent Adviser and the potential for further regulatory developments there is a risk that the relevant fallback provisions may not operate as intended at the relevant time.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation or any of the international or national reforms and the possible application of the benchmark replacement provisions of the Notes in making any investment decision with respect to any Notes referencing a benchmark.

Negative benchmark rates would reduce the rate of interest on Floating Rate Notes

The interest rate to be borne by Floating Rate Notes is based on the spread over the relevant benchmark including EURIBOR or another benchmark. Changes in the relevant benchmark rate will affect the rate at which Floating Rate Notes accrue interest and the amount of interest payments on Floating Rate Notes. To the extent that the relevant benchmark rate decreases below 0.00 per cent. For any interest period, the rate at which the Floating Rate Notes accrue interest for such interest period may be reduced by the amount by which such benchmark rate is negative.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Bank may elect to convert from a fixed rate to a floating rate, or vice versa. The Bank's ability to convert the interest rate will affect the secondary market and the market value of such Notes since the Bank may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Bank converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Bank converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Index linked notes and dual currency notes

The Bank may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each, a "**Relevant Factor**"). In addition, the Bank may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (a) the market price of such Notes may be volatile;
- (b) they may receive no interest;
- (c) the payment of principal or interest may occur at a different time or in a different currency than expected;
- (d) the amount of principal payable at redemption may be less than the nominal amount of such Notes or even zero;
- (e) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (f) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable will likely be magnified; and

- (g) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

The historical experience of an index or other Relevant Factor should not be viewed as an indication of the future performance of such Relevant Factor during the term of any Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in any Notes linked to a Relevant Factor and the suitability of such Notes in light of its particular circumstances.

Partly Paid Notes

The Bank may issue Notes where the issue price is payable in more than one instalment. Any failure by an investor to pay any subsequent instalment of the issue price in respect of his Notes could result in such investor losing all of his investment.

Notes subject to optional redemption by the Issuer

An optional redemption feature is likely to limit the market value of Notes. During any period when the Bank may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Bank may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

RISKS RELATING TO THE NOTES GENERALLY

Purchasers of the Notes may not be able to enforce a foreign judgement in Indonesia against the Bank

The Bank is a publicly listed limited liability company incorporated under the laws of Indonesia. All of its commissioners, directors and executive officers reside in Indonesia. Substantially all of the Bank's assets and the assets of such persons are located in Indonesia. As a result, it may not be possible for investors to effect service of process upon the Bank or such persons from outside of Indonesia, or to enforce against the Bank or such persons judgements obtained in foreign courts, including judgements predicated upon the civil liability provisions of foreign securities laws.

Judgements of foreign courts, including judgements predicated upon the civil liability provisions of the foreign securities laws, are not enforceable in Indonesian courts, and there is doubt as to whether Indonesian courts will enter judgements in original actions brought in Indonesian courts predicated solely upon the civil liability provisions of foreign securities laws. If the investors attempted to file a lawsuit in Indonesian courts, then there is a risk that the Indonesian court would use Indonesian law in examining the lawsuit filed by the investors, despite the fact that the Notes (and all of its ancillary documents) are governed by English law. As a result, investors may be required to pursue claims against the Bank in Indonesia under Indonesian law.

The remedies available under Indonesian law may not be as extensive as those available in other jurisdictions. No assurance can be given that the Indonesian courts and Indonesian law will be able to protect the interests of investors in the same manner or to the same extent as would foreign courts. Indonesia's legal system is a civil law system based on written statutes, and decided legal cases do not constitute binding precedent. The administration of laws and

regulations by courts and Government agencies may be subject to considerable discretion. There is no certainty as to how long it will take for proceedings in Indonesian courts to be concluded, and the outcome of proceedings in Indonesian courts may be more uncertain than that of similar proceedings in other jurisdictions. Accordingly, it may not be possible for investors to obtain timely and equitable enforcement of their legal rights.

With respect to arbitration, including international arbitration, pursuant to Law No. 30/1999, a written arbitration agreement obviates the rights of the parties to bring a dispute in the Indonesian district court, which would otherwise have jurisdiction over civil disputes. Further, such court has no authority to examine disputes where parties are bound by an arbitration agreement and is required to reject and not participate in the resolution of disputes which have already been adjudicated by arbitration, except in limited circumstances as provided in Law No. 30/1999.

In general, Indonesian courts should honour such arbitration agreements and declare itself to have lack of authority in examining a dispute between parties that are bound by an arbitration agreement. However, there remains a risk of having parties who lost (or expect to lose) an arbitration attempt to by-pass an arbitration agreement or award by (i) bringing a lawsuit before an Indonesian court on a theory of tort or fraud, or (ii) attempt to file a moratorium or bankruptcy petition before the Indonesian commercial court to cramdown the claimed amount. Indonesian courts may accept these lawsuits despite the clear agreement by the relevant parties to arbitrate. The aim of such lawsuits explained would typically be to frustrate or delay the process of arbitration and/or enforcement of the international arbitration award or to obtain a conflicting decision issued by an Indonesian court which will ultimately be used as a basis to challenge the enforcement of the international arbitration award, once rendered.

In addition to the above, the international arbitration award must not be against public order in order to be enforceable in Indonesia. While Law No. 30/1999 does not provide the definition of “public order”, the Supreme Court of Indonesia in the past (in *Astro Nusantara Intl BV et al. v PT First Media, Tbk., et al*) have interpreted that an international arbitration award which contradicts Indonesian laws and regulations (e.g. prohibiting an Indonesian legal entity/individual from filing a claim in Indonesian court) is interventionist to Indonesian judicial process, hence it qualifies as an international arbitration award that is against public order.

Notes may not be a suitable investment for all investors

An investment in the Notes involves certain risks including market risk, interest rate risk, foreign exchange risk, credit risk and liquidity risk. Each potential investor in any Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor’s currency;
- (d) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and

- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as standalone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

There are risks associated with modifying or amending the terms and conditions of the Notes by way of a meeting of Noteholders or, in limited instances, without the consent of Noteholders

The Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. There is a risk that the decision of the majority of the Noteholders may be adverse to the interest of the individual Noteholders.

The Conditions also provide that the Trustee may, without the consent of Noteholders and without regard to the interests of particular Noteholders, agree to (i) any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or (ii) determine without the consent of the Noteholders that any Event of Default or potential Event of Default shall not be treated as such or (iii) the substitution of another company as principal debtor under any Notes in place of the Bank, in the circumstances described in Condition 15.

The Conditions may be amended, modified, or varied in relation to any Series of Notes by the terms of the relevant Pricing Supplement in relation to such Series.

Bearer Notes where denominations involve integral multiples: definitive bearer Notes

In relation to any issue of Notes in bearer form that have denominations consisting of a minimum Specified Denomination (as specified in the applicable Pricing Supplement) plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in bearer form in respect of such holding (should such Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If definitive Notes in bearer form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Performance of contractual obligations

The ability of the Bank to make payments in respect of the Notes may depend upon the due performance by the other parties to the transaction documents of the obligations thereunder including the performance by the Trustee, Transfer Agent, Registrar, and/or the Calculation Agent of their respective obligations. Whilst the non-performance of any relevant parties will not relieve the Bank of its obligations to make payments in respect of the Notes, the Bank may not, in such circumstances, be able to fulfil its obligations to the Noteholders.

Noteholders may not be able to bring bankruptcy proceedings against the Bank in Indonesia or elsewhere

Under Law No. 37 of 2004 on Bankruptcy and Suspension of Debt Payment Obligations (as amended), only the OJK may bring any bankruptcy proceedings in Indonesia against banks in Indonesia. Accordingly, neither Noteholders nor the Trustee may be able to bring or threaten to bring any potential bankruptcy proceedings against the Bank and thus enforce the Bank's obligations under the Notes.

Noteholders also may not be able to bring bankruptcy proceedings against the Bank in other jurisdictions where the Bank has assets (including jurisdictions where the Bank's branches may be located), depending on the bankruptcy laws and regulations in the relevant jurisdiction. Even if such proceedings are successful, the Bank may have limited assets in those jurisdictions outside Indonesia.

The insolvency laws of Indonesia may differ from those of any other jurisdiction with which holders of the Notes are familiar

As the Bank is incorporated under the laws of Indonesia, an insolvency proceeding relating to the Bank, even if brought in other jurisdiction, would likely involve insolvency laws in Indonesia, the procedural and substantive provisions of which may differ from comparable provisions of insolvency law in other jurisdictions with which the holders of the Notes are familiar. The application of these laws, or any conflict among them, could call into question whether any particular jurisdiction's laws should apply, adversely affect an investor's ability to enforce such rights under the Notes in the relevant jurisdictions or limit any amounts that the investor may receive. Investors should analyse the risks and uncertainties carefully before investing in the Notes.

The value of the Notes would be adversely affected by a change in English law or administrative practice

The Conditions of the Notes are based on English law in effect as of the date of this Offering Circular. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Offering Circular and any such change could materially and adversely impact the value of any Notes affected by it.

Where the Global Notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Bank

Notes issued under the Programme may be represented by one or more Global Notes. Such Global Notes will be deposited with a common depository for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear, Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear, Clearstream, Luxembourg.

While the Notes are represented by one or more Global Notes, the Bank will discharge its payment obligations under the Notes by making payments to or to the order of the common depositary for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear, Clearstream, Luxembourg to receive payments under the relevant Notes. The Bank has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear, Clearstream, Luxembourg to appoint appropriate proxies.

The Notes are unsecured obligations

The Notes will constitute direct, unconditional, unsubordinated and (subject to the provisions of Condition 4) unsecured obligations of the Bank and rank *pari passu* among themselves and (save for certain obligations required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Bank, from time to time outstanding.

The Notes will be effectively subordinated to any secured obligations of the Bank to the extent of the proceeds of sale of collateral given as security for secured obligations. In addition, payments in relation to the Notes may be adversely affected if:

- the Bank enters into bankruptcy, liquidation, rehabilitation or other winding-up proceedings;
- there is a default in payment under the Bank's secured indebtedness or other unsecured indebtedness; or
- there is an acceleration of any of the Bank's indebtedness.

If any of the above events occurs, the Bank's assets may not be sufficient to pay amounts due on any Notes.

The Bank may not have the ability to raise the funds necessary to redeem the Notes upon the occurrence of certain events constituting a Change of Control Triggering Event as required by the Conditions of the Notes

Upon the occurrence of certain events constituting a Change of Control Triggering Event (as defined in the Conditions), Noteholders may require the Issuer to redeem all, but not some only, of their Notes at the specified redemption amount, together (if appropriate) with interest accrued to (but excluding) the date fixed for redemption. If any such event were to occur, the Bank cannot make any assurance that it would have sufficient funds available at such time to pay the applicable redemption price of the outstanding Notes to be redeemed.

RISKS RELATING TO THE MARKET GENERALLY

The secondary market generally

There is no existing market for any Notes and there can be no assurances that a secondary market for the Notes will develop, or if a secondary market does develop, that it will provide the Noteholders with liquidity of investment or that it will continue for the life of the Notes. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities.

The market value of any Notes may fluctuate. Consequently, any sale of Notes by Noteholders in any secondary market which may develop may be at prices that may be higher or lower than the initial offering price depending on many factors, including prevailing interest rates, the Bank's performance and the market for similar securities. No assurance can be given as to the liquidity of, or trading market for, any Notes and an investor in such Notes must be prepared to hold such Notes for an indefinite period of time or until their maturity. Application has been made to the SGX-ST for permission to deal in, and for the listing and quotation of any Notes to be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof to be so listed on the SGX-ST. Such permission will be granted when such Notes have been admitted to the Official List of the SGX-ST. Application will be made to the Bank Indonesia and the OJK for permission to deal in and for the listing and quotation for any Notes which are agreed at the time of issue to be so listed on the Official List. Formal approval will be granted when a particular Series of Notes has been admitted to the Official List. There is no assurance that any application to the Bank Indonesia and the OJK for such approval will be granted. Historically, the market for debt securities by Southeast Asian issuers has been subject to disruptions that have caused substantial volatility in the prices of such securities. There can be no assurance that the market for any Notes will not be subject to similar disruptions. Any such disruption may have an adverse effect on holders of such Notes.

Global financial turmoil has led to volatility in international capital markets which may adversely affect the market price of any Series of Notes

Global financial turmoil has resulted in substantial and continuing volatility in international capital markets. Any further deterioration in global financial conditions could have a material adverse effect on worldwide financial markets, which may adversely affect the market price of any Series of Notes.

Exchange rate risks and exchange controls

The Bank will pay principal and interest on the Notes in the currency specified in the applicable Pricing Supplement (the "**Currency**"). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Currency. These include the risk that foreign exchange rates may significantly change (including changes due to devaluation of the Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Currency would decrease (i) the Investor's Currency-equivalent interest on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes and (iii) the Investor's Currency-equivalent market value of the Notes. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable foreign exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risk

Noteholders may suffer unforeseen losses due to fluctuations in interest rates. Generally, a rise in interest rates may cause a fall in the price of the Notes, resulting in a capital loss for the Noteholders. However, the Noteholders may reinvest the interest payments at higher prevailing interest rates. Conversely, when interest rates fall, the price of the Notes may rise. The Noteholders may enjoy a capital gain but interest payments received may be reinvested at lower prevailing interest rates.

Inflation risk

Noteholders may suffer erosion on the return of their investments due to inflation. Noteholders would have an anticipated rate of return based on expected inflation rates on the purchase of the Notes. An unexpected increase in inflation could reduce the actual returns.

The market value of the Notes may fluctuate

Trading prices of the Notes are influenced by numerous factors, including the operating results, business and/or financial condition of the Bank, and political, economic, financial and any other factors that can affect the capital markets, the industry, or the Bank generally. Adverse economic developments, acts of war and health hazards in countries in which the Bank operates could have a material adverse effect on the Bank's operations, operating results, business, financial position, and performance.

Changes in market interest rates may adversely affect the value of Fixed Rate Notes

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of Fixed Rate Notes.

Credit ratings may not reflect all risks associated with investing in the Notes or the Bank

One or more independent credit rating agencies may assign credit ratings to an issue of Notes or the Bank. The ratings may not reflect the potential impact of all risks related to the structure, market, additional factors discussed above, and other factors that may affect the value of the Notes or the ability of the Bank to make timely payment of principal and interest on its outstanding debts. A credit rating is not a recommendation to buy, sell or hold securities and may be suspended, reduced or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent: (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing, and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

CAPITALISATION OF THE BANK

The following table sets forth the Bank's consolidated capitalisation as of 31 December 2024. This table should be read in conjunction with the sections entitled "*Selected Consolidated Financial Information*", "*Description of the Bank's Assets and Liabilities*" and the Bank's Consolidated Financial Statements included elsewhere in this Offering Circular and the related notes thereto. The translation of Rupiah amounts into US dollars herein is provided solely for convenience. See "*Presentation of Financial and Other Information – Certain Defined Terms and Conventions*".

	As of 31 December 2024	
	(Rupiah billion)	(US\$ million)

TOTAL CAPITALISATION	2,427,223.26	150,806.03

Note:

- (1) Subject to market conditions and other factors, including regulatory approvals pursuant to the prevailing regulations in Indonesia, the Bank may from time to time seek to raise financing, *inter alia*, from the capital markets in the form of debt or equity securities which are not the subject of the Programme and/or this Offering Circular. Any such other debt or equity financing will be conducted pursuant to a separate offering document to be prepared by the Bank. Nothing in this Offering Circular is intended to constitute an offer or a solicitation to participate in any such debt or equity financing.

On 4 March 2025, the Bank announced its plan for the public offering of Sustainable Bonds I Phase II Year 2025 of Rp5 trillion, which consists of Rp500 billion 6.35% Series A bonds due 370 calendar days from the issuance date (which is scheduled on 25 March 2025) and Rp4.5 trillion 6.65% Series B bonds due 2028.

Except as described above, there has been no significant change in the capitalisation or contingent liabilities of the Bank since 31 December 2024.

BUSINESS

Overview

The Bank is Indonesia's largest corporate lender with Rp611.72 trillion (US\$38.01 billion) of loans in its corporate loan (including Government Institutional unit loans) portfolio (defined as loans to Indonesia's 150 largest publicly listed and other Government and private companies based on revenue), and total consolidated loans (total of consolidated loans and Sharia loan/financing, consumer financing receivables, and net investment finance leases, excluding allowance for impairment losses) of Rp1,670.55 trillion (US\$103.79 billion) as of 31 December 2024. The Bank has a strong national profile with a highly recognisable brand, one of the most complete product lines among Indonesian financial institutions, and won eight awards at the Asian Banking & Finance ("ABF") Awards 2024 across a wide range of categories, including "Private Bank of the Year" and "Domestic Trade Finance Bank of the Year". The Bank also has the lowest NPL ratio among large Indonesian banks, at 1.12% (consolidated), on a gross basis as of 31 December 2024. In addition, the Bank has the second largest branch network (including micro branches), the largest deposit and temporary syirkah fund base, largest loan and financing portfolio and second lowest cost of funds among Indonesian banks, with 4,468 branches, Rp1,698.90 trillion (US\$105.55 billion) (consolidated), Rp1,670.55 trillion (US\$103.79 billion) (consolidated) and 2.18% per annum (standalone), respectively, as of and for the year ended 31 December 2024.

As Indonesia's largest corporate lender, the Bank is a Domestic-Systemically Important Bank ("D-SIB"), with a 19.22% market share of deposits, a 19.47% market share of assets, and a 21.34% market share of loans in the Indonesian banking industry as of 31 December 2024 (on a consolidated basis, according to Otoritas Jasa Keuangan ("OJK") Banking Statistics figures). The Bank's consolidated CASA Ratio reached 74.83% as of 31 December 2024 (total consolidated CASA (total of demand and saving deposits) of Rp1,271.21 trillion divided by total deposits of Rp1,698.90 trillion as of 31 December 2024), an increase from the Bank's consolidated CASA Ratio of 74.30% as of 31 December 2023 (total consolidated CASA (total of demand and saving deposits) of Rp1,171.70 trillion divided by total deposits of Rp1,576.95 trillion as of 31 December 2023). The Bank maintains Indonesia's second largest branch network (including micro branches) with 4,468 branches, supported by 12,896 ATMs and 38,898 employees, each as of 31 December 2024. The Bank's total consolidated loans (total of consolidated loans and Sharia loan/financing, consumer financing receivables, and net investment finance leases, excluding allowance for impairment losses) grew by a year on year of 19.49% from Rp1,398.07 trillion (US\$90.80 billion) as of 31 December 2023 to Rp1,670.55 trillion (US\$103.79 billion) as of 31 December 2024. Total deposits grew by a year on year of 7.73% from Rp1,576.95 trillion (US\$102.42 billion) as of 31 December 2023 to Rp1,698.90 trillion (US\$105.55 billion) as of 31 December 2024.

The Bank believes it is one of Indonesia's most profitable banks. The Bank's consolidated net profit after tax ("NPAT") increased from Rp55.06 trillion in 2023 to Rp55.78 trillion (US\$3.47 billion) in 2024.

The Bank's efforts to improve the quality of its products and services, as well as its overall operations, have earned it a number of industry accolades from both local and international institutions in 2024, including: "Best Financial Leader 2024" and "Best Supporting National Economy" by Consumer News and Business Channel, "Digital Transformation of the Year" and "AI & Machine Learning Initiative of the Year" by ABF, received the gold category award for Best CFO by Asia's Best Company and "Best Bank", "Best Sustainable Bank" and "Best Corporate Bank – Large Corp & MNCs" by FinanceAsia.

The Bank operates through the following key and supporting segments:

- Wholesale Banking
 - Corporate Banking
 - Commercial Banking
 - Institutional Relations
 - Treasury & International Banking;
- Retail Banking; and
- Subsidiaries (consisting of Islamic Banking, Conventional Banking, Financing Company, Insurance, Investment Banking and Investment Management).

The Bank preserves close ties among its different business units and subsidiaries through cross-selling efforts, group-wide branding, network optimisation, shared infrastructure and cost management.

Competitive strengths

The Bank believes that its principal competitive strengths are:

Leading corporate lender and one of the largest and most diversified loan portfolios among Indonesian banks, making it a Domestic-Systemically Important Bank (“D-SIB”)

The Bank has the largest corporate loan (including Government Institutional) portfolio among Indonesian banks, with Rp611.72 trillion (US\$38.01 billion) of corporate loans as of 31 December 2024 and total consolidated loans and financing of Rp1,670.55 trillion (US\$103.79 billion), making it one of the largest D-SIB, based on OJK criteria. The Bank defines corporate borrowers as the 150 largest publicly listed, Government, other state-owned enterprises (“**SOEs**”) and private company borrowers in Indonesia with gross annual sales of more than Rp50 billion. The Bank is a lender to each of Indonesia’s ten largest publicly listed companies which gives the Bank a strong national profile and highly recognisable brand. The Bank is a key lender to SOEs which account for 14.00% of total loans (standalone), as of 31 December 2024. The Bank is also active in the syndicated loan market, particularly for national infrastructure projects, and was the leading arranger of syndicated loans in Indonesia by value in 2024, based on Bloomberg data. In addition to loans, the Bank serves its anchor corporate borrowers with various investment banking, capital markets, cash management, treasury, payroll and insurance offerings.

In addition to corporate loans (including Government Institutional), which represented 46.67% of loans (standalone) and 36.62% of consolidated loans as of 31 December 2024, the Bank also diversified its business to middle market and retail segments that represented 22.34% and 30.32% respectively of its loan portfolio (standalone). The Bank had total loans (standalone) of Rp1,310.78 trillion (US\$81.44 billion) as of 31 December 2024, the largest among Indonesian banks. Given the Bank’s low-cost of funds, its total loan portfolio yields a net interest margin (“**NIM**”) of 4.93%, as of 31 December 2024.

The Bank’s strength in corporate lending generates ready synergies in other areas. The Bank from time to time has been expanding its payroll account base from employees of Indonesia’s biggest private and Government institutions. These payroll account customers, considered as low-risk retail customers, continue to provide a stable, low-cost funding base as well as becoming the Bank’s key target market when growing its retail loan portfolios.

One of the lowest cost, diversified and most stable funding bases among Indonesian banks

The Bank has the largest funding base and second lowest cost of funds among Indonesian banks as of 31 December 2024. In addition to its depositor base, as one of Indonesia's largest banks, the Bank enjoys access to domestic and international wholesale funding sources such as loans and debt securities. This funding base translates into a cost of funds (standalone) of 2.18% per annum as of 31 December 2024, the second lowest among large Indonesian banks.

The Bank has the second largest deposit base among Indonesian banks, with total deposits of Rp1,326.89 trillion (US\$82.44 billion) as of 31 December 2024. This deposit base is low-cost, with a 80.31% ratio (standalone) of CASA (demand and savings deposits) to total deposit accounts, the second highest such ratio among Indonesian banks. The Bank's average cost of funds is less sensitive to increases in interest rates given this ratio. The Bank's depositors span the entire range of banking customers, from the largest private and public sector corporates to retail depositors including both high-net-worth individuals and mass market depositors.

The Bank's diversified funding base gives it a strong liquidity and stable funding position, as evidenced by a Liquidity Coverage Ratio of 139.21% and a Net Stable Funding Ratio of 107.60% (standalone), each as of 31 December 2024.

Leading market position across full spectrum of financial services

The Bank has positioned itself as a one-stop provider of financial solutions for both wholesale and retail customers. The Bank believes it has the largest market share in wholesale lending in Indonesia (composed of the Bank's Corporate and Commercial Banking segments) as of 31 December 2024. In addition, the Bank believes it is among the three leading competitors in each key retail banking segment, including mortgages/housing loans (excluding Government subsidised loans), auto loans, credit cards and personal loans, as of 31 December 2024. The Bank capitalises on its market leadership in the wholesale segment, particularly in corporate loans, to accelerate growth in its retail segments, such as cross-selling retail products to the approximately 7.09 million payroll account holders (as of 31 December 2024) of the Bank's large corporate and Government customers.

In addition, the Bank believes that its subsidiaries are also leaders in their respective markets, creating further mutual cross-selling opportunities. Mandiri Sekuritas is a leading provider of financial advisory, capital markets and brokerage services to the Bank's corporate borrowers. AXA Mandiri life insurance products are currently offered exclusively to the Bank's customers. The Bank's Priority Customer platform for high-net-worth individuals offers a range of asset management products such as mutual funds and discretionary funds managed by the Bank's subsidiary, Mandiri Manajemen Investasi ("MMI"), one of the top asset management companies in Indonesia by assets under management. In 2023, in collaboration with MMI, the Bank presented the Mandiri index fund FTSE Indonesia ESG Index, the first index fund in Indonesia with reference to the FTSE Indonesia ESG Index, expanding its offering of sustainable investment products. The Bank has also successfully promoted various consumer finance and credit card offerings to retail customers, especially its payroll account customers. The Bank captures the entire life cycle of its retail customers by offering pension loans through its subsidiary, Bank Mantap.

Notably, on 1 February 2021, the merger (the "**Merger**") of PT Bank Syariah Mandiri, PT Bank BNI Syariah and PT Bank BRI Syariah Indonesia Tbk to form PT Bank Syariah Indonesia Tbk ("**Bank Syariah Indonesia**") was completed. The Merger was undertaken in part with the aim of improving the level of Syariah asset penetration in Indonesia and also supports the Government's efforts to design an Islamic ecosystem with a large Syariah bank that is able to consolidate all Syariah transactions in Indonesia. Following the Merger, Bank Syariah Indonesia is now the largest Sharia bank in Indonesia in terms of assets and is envisioned to be one of the top 10 Syariah banks globally in terms of market capitalisation. As of 31 December 2024, Bank Syariah Indonesia's total

assets (unaudited) amounted to Rp408.6 trillion (US\$25.39 billion), third-party funds reached Rp327.5 trillion (US\$20.34 billion) and total financing stood at Rp275.2 trillion (US\$17.10 billion). The Bank holds a majority stake of 51.47% in Bank Syariah Indonesia as of 31 December 2024.

Relative to the Bank's Rp104.28 trillion (US\$6.46 billion) total interest, sharia, and premium income in 2024, the Bank's subsidiaries contributed Sharia income of Rp17.30 trillion (US\$1.07 billion), premium income of Rp2.52 trillion (US\$0.16 billion) and other fee and commission income of Rp12.86 trillion (US\$0.80 billion). Together, the Bank's nine subsidiaries and two associated companies offer one of the most extensive product offerings among Indonesian banks, including:

- Bank Syariah Indonesia: Market leader in Sharia-compliant products;
- Mandiri Sekuritas: Investment banking and capital markets services;
- AXA Mandiri Financial Services: Bank assurance (life insurance) products and services;
- Bank Mandiri Taspen: Niche banking focusing on pensioners as a target market;
- Mandiri Tunas Finance: Multi-finance products, particularly for auto loans for new cars;
- Mandiri Utama Finance: Customer financing services, including financing for both new and used vehicles;
- Bank Mandiri (Europe) Limited: Specialist in the provision of structured trade finance packages for exporters and importers;
- Mandiri International Remittance Sdn. Bhd.: Remittance service provider; and
- Mandiri Capital Indonesia: Operates in venture capital business, including investing in start-up companies that focus on financial technology.

Strong business franchise and extensive distribution network

The Bank believes it has one of the most extensive distribution networks among Indonesian banks, anchored by Indonesia's second largest branch banking network, with 2,192 branches and 2,276 micro branches, supported by 12,896 ATMs and 38,898 employees, each as of 31 December 2024. In addition, the Bank has experienced rapid growth in its digital platforms in terms of active users. As part of its efforts to optimise technology and accelerate the Bank's digital transformation, the Bank launched the mobile banking platforms, Livin' by Mandiri and Kopra by Mandiri, in 2021 to serve its retail and wholesale customers respectively. The number of users of Livin' by Mandiri grew by 29.1% from approximately 23 million as of 31 December 2023 to approximately 29.3 million as of 31 December 2024. The number of users of Kopra by Mandiri grew by 34.6% from more than 182,000 as of 31 December 2023 to approximately more than 245,000 as of 31 December 2024.

The Bank aims to expand this already extensive network by developing several digital distribution channels as customers increasingly transact online. These include its mobile banking products branded under Livin' by Mandiri, and its prepaid card service branded under "e-money". Finally, the Bank has entered into several partnerships with fintech companies and invests in tech start-up companies through its subsidiary, Mandiri Capital Indonesia (in which the Bank had an effective shareholding interest of 99.99% in as of 31 December 2024).

The Bank's strong traditional and digital distribution networks have translated into approximately 41.1 million deposit accounts and approximately 5.16 million loan accounts as of 31 December 2024, compared to approximately 41.8 million and 4.95 million, respectively, as of 31 December 2023.

Strong corporate governance and employee engagement

The Bank emphasises good corporate governance and adoption of best practices at all levels, from the Board of Commissioners and Board of Directors to individual business units. In 2017, in addition to existing internal controls and risk management systems, the Bank and its Board of Commissioners upgraded the Bank's whistleblowing system and empowered employees, vendors and other stakeholders to report potential issues directly to the Bank's President Director.

In assessing the quality of implementation of governance, the Bank has participated in a Corporate Governance Perception Index ("CGPI") research and rating programme organised by The Indonesian Institute of Corporate Governance ("IICG"). CGPI participants are public companies (issuers), State-Owned Enterprises (Badan Usaha Milik Negara/BUMN), banks, and other private companies. The Bank has consistently followed the CGPI assessment. The results of the CGPI assessment were used by the Bank to evaluate and improve the implementation of Good Corporate Governance ("GCG"). The Bank was awarded the "Most Trusted Company" for the 18th consecutive year in the 2024 CGPI assessment with a score of 95.30, an increase from the 2023 score of 95.22.

As one of the manifestations of a GCG implementation, the Bank has provided a media report on complaints of violations named Letter to CEO ("LTC"). LTC aims to detect acts of fraud or indications of fraud, encourage awareness and concern for all employees as well as improve the company's reputation in the eyes of stakeholders.

Management of LTC reports receipts, and administration is carried out by independent third parties to provide safe environments that give employees and stakeholders the confidence to report fraud, indications of fraud, and/or non-fraud.

In addition, the Bank has been repeatedly recognised for employee engagement and employee satisfaction. It received several awards in 2024, such as the silver category award for the Best Managed Company and gold category award for the Most Committed to DEI by FinanceAsia, and the Best Company in Executing Woman Empowerment Strategy across All Industries by Kontan. The Bank's reputation as an employer of choice attracts employees with the skills needed to support its digital banking initiatives, among others.

Experienced and stable management team

The Bank's directors have an average of over 25 years' experience in the banking industry. Most of the Bank's senior executives have extensive experience in the banking industry and have received advanced degrees from universities abroad. Under the leadership of its management team, the Bank has shown strong operating performance over the years and has been successful in implementing its Corporate Plan 2020-2024. In 2024, the Bank consistently delivered strong performance, with the majority of its financial indicators surpassing those of the banking industry. For instance, the Bank's consolidated loan balance grew by 19.49% year-on-year while its gross NPL ratio was successfully kept at 1.12%. In comparison, the industry's loan growth and gross NPL ratio was 10.39% and 2.08%, respectively.

The Bank is the second least dependent on interest income among Indonesia’s five largest banks, with a fee-based income ratio (other operating income divided by sum of net interest income and other operating income) standing at 29.57% of its total income in 2024. Management’s ability to provide strategic direction and execute business initiatives in a highly competitive market is best evidenced by the Bank’s strong position in the Indonesian banking industry. In addition, the Bank’s NPL Ratio has steadily improved over the past few years through more rigorous credit approval measures in the commercial segment also demonstrates its senior management’s strategic vision, proactive approach in adapting to the changing market environment and ability to lead a modern commercial bank. The Bank believes its senior management team will continue to provide it with a critical advantage in an increasingly competitive industry.

Robust financial profile

The Bank has shown strong and stable growth in consolidated operational income, with Rp144.08 trillion (US\$8.95 billion) and Rp136.53 trillion, respectively, in 2024 and 2023. Between 2023 and 2024, the Bank’s consolidated operational income grew by 5.53% year-on-year (“YoY”). In addition, the Bank maintains a strong capital base and a capital adequacy ratio (“CAR”) (standalone) of 20.10% as of 31 December 2024, which is more than the minimum required CAR of 14.68%. This high ratio gives the Bank substantial stability to withstand market shocks and the capacity to capture future growth potential. The Bank believes that Indonesia’s strong economy will continuously support the growth of its operations and financial performance.

Key strategies

Corporate Plan 2025-2029

As part of its implementation of its 2025-2029 Corporate Plan, the Bank's key strategies are:

Strengthen Core Competence

The Bank, with its core competence in wholesale banking, aspires to become the leading wholesale bank in Southeast Asia and reinforce its position as the preferred bank for conglomerates, financial institutions, and the Government. The Bank aims to serve as the primary orchestrator of the key business ecosystem through a conglomerate-focused approach, supported by best-in-class technological services and a global presence. The Bank expects that strengthening its position in the wholesale banking segment will also drive growth in its retail banking segment by leveraging the value chain of its wholesale banking customers.

In terms of digital innovation, the Bank will integrate next-generation technology into Kopra by Mandiri, its digital platform, to create a competitive advantage and establish itself as the preferred bank for wholesale banking transactions. Additionally, the Bank aims to enhance its global presence by optimising the business models of its offices outside of Indonesia.

Achieve Urban Leadership

In its retail segment, the Bank's retail banking division will focus on capturing the full potential of the retail business, both from conglomerate value chains and regional ecosystems. Additionally, the Bank's retail banking division aims to position itself as a market leader in the urban communities by providing integrated business solutions and acting as a key driver of economic growth at the regional level while promoting financial inclusion.

Furthermore, through the Bank's wealth management division, the Bank aims to unlock and capitalise on all retail business opportunities, whether derived from conglomerate value chains or regional ecosystems. To support this strategy, the Bank has prepared technological enhancements, thematic programmes, and internal process improvements to deliver a one-stop solution tailored to each retail customer's persona and lifestyle. The Bank will also foster synergies with key partners through strategic partnerships and joint financing to enhance financial inclusion and expand its business presence optimally.

Extract Values from Subsidiaries

The Bank aims for its subsidiaries to become industry leaders that contribute to the growth of the Group's business and complement the Bank's existing business portfolio through the provision of financial services beyond conventional banking. With its position as a financial conglomerate, the Bank aims to position itself not just as a bank, but as a financial institution. Hence, over the next five years, the Bank aims to not only be the largest bank in Southeast Asia but also the largest financial institution in Southeast Asia. With a conglomerate-focused approach, the Bank's subsidiaries play a significant role in realising this aspiration, particularly in terms of financial performance, by prioritizing growth, profitability, and sustainability to achieve financial targets.

Other Strategic Support

In addition to these key strategies, the Bank has adopted Bank-wide strategic support to support the achievement of its business targets and primary goals, through:

- **Create Business Leaders**

The Bank's aspiration to strengthen its market position requires support from competent and high-quality business leaders. As such, the Bank plans to continuously develop existing talent and cultivate proactive and visionary business leaders with risk management expertise and a focus on driving human resource development. Through tailored development programmes aligned with organisational needs and its strategies, the Bank aims to enhance productivity, foster a collaborative and innovative work environment, and ultimately strengthen its competitiveness and contribute to national economic growth.

- ***Game Changing Technology & Innovation***

The Bank aims to lead the digital transformation of the banking industry, leveraging the latest technologies to drive growth, enhance efficiency, and set new standards in operational excellence. To accelerate business growth in both of the Bank's wholesale and retail sectors, digital solutions will be developed to improve efficiency and provide fast, seamless banking experiences. The transformation of branches into an omnichannel presence will ensure customers receive seamless service anytime, anywhere. Additionally, the Bank aims to automate end-to-end business processes to further enhance operations.

- ***Conduct Sustainable Business***

The Bank aims to support sustainable business practices by offering green services and products for wholesale and retail customers. The Bank will integrate ESG factors and initiatives into its operations to achieve Net Zero Emission ("NZE") by 2030, with programmes across all units and subsidiaries. In addition, the Bank aims to enhance financial inclusion through adjusted micro, small and medium enterprises ("MSMEs") financing models, such as Rumah BUMN and Wirausaha Muda Mandiri (WMM). Through these initiatives, the Bank aims to lead Indonesia's transition to a low-carbon economy and promote growth in line with the United Nations Sustainable Development Goals ("UN SDGs").

- ***Robust Risk Strategy***

The Bank's risk management unit will continue to implement transformation across all aspects of its risk management, including methodology, tools, operational implementation, and organisational structure, in line with business needs and regulations. This transformation journey began with the implementation of rating and the four-eyes principle in the early 2000s. To support the Bank's aspiration to become an industry leader, the Bank will adopt a prudent risk strategy ensuring prudent business growth while adapting to regulatory changes and emerging risks across the five pillars of risk management: Enterprise Risk, Business Risk, Operational Risk, Emerging Risk, and Tools & Infrastructure.

2025 focus

Among the various challenges, liquidity conditions will be the primary challenge in 2025. Liquidity must not only be maintained but also generated from low-cost funding sources to support business expansion and the Bank's profitability.

A funding acquisition strategy focusing on low-cost sources must become a priority, ensuring that the liquidity position forms a solid foundation for business growth and optimal profitability.

In 2025, the Bank aims to become "The Main Transaction Bank" by driving the growth of digital transactions and e-channels, in order to position itself as the preferred transactional bank for its customers. This will be supported by providing top-quality products and services, backed by a strong relationship management framework for principals, merchants, and individuals, which will ultimately enable the Bank to generate a solid low-cost funding base.

In addition, the Bank will prioritise a funding acquisition strategy that focuses on low-cost financing, ensuring that the liquidity position forms a solid foundation for business growth and optimal profitability. The Bank expects that a solid low-cost funding base will enable it to expand its business and strengthen its position as "The Largest Lender" by maximising ecosystem synergies within the Group and maintaining an optimal loan yield. The Bank also expects that the expansion of its wholesale segment will create a multiplier effect on retail growth through an integrated approach within the Group, while its subsidiaries will focus on captive markets to drive

synergy and profitability. The Bank aspires to become “The Leader in Low-Cost Funding” by increasing CASA market share, lowering its cost of funds, and maintaining sustainable liquidity. The Bank aims to achieve this by anticipating funding dynamics through focusing on transactional CASA to drive low-cost funding and ensure deposit growth outpaces credit growth, maintaining healthy liquidity. The Bank will also prioritise the securing of funding sources that are less sensitive to pricing.

Key milestones of the Bank

The following are the key milestones of the Bank:

Year	Milestone
1998	Established on 2 October 1998, the Bank was part of a banking restructuring programme implemented by the Government of Indonesia.
1999	In July 1999, four Government-owned Banks, Bank Ekspor Impor Indonesia, Bank Dagang Negara, Bank Bumi Daya, and Bank Pembangunan Indonesia were merged into one entity called Bank Mandiri.
2003	The Bank conducted an Initial Public Offering (IPO).
2005	Became a turning point year by launching Transformation Phase 1 to 2010, to become a superior bank at the level of regional champion. Transformation was carried out with four main strategies, namely cultural implementation, aggressive control of non-performance loans, increasing business growth that exceeds market growth averages, and developing and managing alliance programmes between directorates.
2006-2007	This year, the Bank ran the ‘Back on Track’ Transformation Programme as part of Transformation Phase I which focused on reconstructing the fundamentals of the Bank.
2008-2009	Continuing the programme of the previous year, this year the Bank implemented Transformation Programme Phase 2, ‘Outperform the Market’, which focused on business expansion to ensure significant growth in various business segments and achieve a level of profit that exceeds the market average target.
2010	This year was the last phase in the Transformation series, ‘Shaping the End Game’, which had been running since 2005, where the Bank aimed to become the leading regional bank through consolidating its financial services business and prioritising opportunities for non-organic growth strategies. Through this transformation process, the Bank had consistently managed to improve its performance as reflected in improvements of various financial indicators.
2011	This year, the Bank conducted a rights issue, issuing 2,336,838,591 shares at a price of Rp5,000 per share. This year was also the initial stage of the implementation of the Advanced Transformation in 2010-2014. In this phase, the Bank had revitalised its vision of becoming the ‘most admired and progressive Indonesian Financial Institution’.
2012	Continued transformation in 2012 was carried out through Business Transformation, which focused on three main areas, namely Wholesale Transaction, Retail Deposit, and Payment and Retail Financing.
2014	The Bank succeeded in carrying out the second phase of the transformation and was preparing to continue Corporate Plan 2015-2020.

Year	Milestone
2015	This year was a new chapter in Transformation Phase 3 to become 'The Best Bank in ASEAN 2020'. Transformation Phase 3 would bring the Bank to becoming a regional player ready to compete in the ASEAN market to provide the best financial services for all customers and the community as well as to be the pride of Indonesia as the best ASEAN financial institution.
2016	This year, the Bank carried out a number of Corporate actions such as the issuance of continuing bonds, Asset Backed Securities in the form of Participation Letters (EBA-SP), with its total asset value penetrating Rp1,000 trillion.
2017	The Bank began implementing the Corporate Plan Restart which was announced in September 2016. As a result of implementing this strategy, the Bank's annual net profit grew significantly by 49.5%.
2018	The Bank implemented the new culture in early 2018. The application of this new culture succeeded in making it rank 11th out of the world's 500 best companies in terms of work environment or 'The World Best Employers 2018' of <i>Forbes Magazine</i> . As a new source of funding, this year the Bank issued in Bank Mandiri continuing Bonds Phase III Year 2018 of Rp3 trillion. The company also issued Bank Mandiri Medium Term Notes I in 2018 with a total of Rp500 billion.
2019	The Bank issued Euro Medium Term Notes (EMTN) with a value of US\$750 million (full amount), which were listed on the SGX-ST. This was the highest Global Bond transaction made by an Indonesian bank.
2020	The Bank raised Rp475 billion by securitising corporate loan assets through collective investment contract asset-backed securities (KIK EBA). In May, the Bank issued Rp1 trillion of domestic bonds, as well as US\$500 million Euro Medium Term Notes. The EMTNs were listed on the SGX-ST.
2021	<p>On 19 April 2021, the Bank issued its inaugural US dollar sustainability notes with a size of US\$300 million and a maturity of five years under the Programme. This transaction was the first Green Social and Sustainability Bond issuance from the Indonesia Banking Sector in 2021 and recorded the largest oversubscription rate among all issuances from Indonesia in 2021 at more than 8.3x (final order book).</p> <p>The Bank also launched (i) Livin' by Mandiri – a retail app service which carries the concept of a branch in hand with complete financial services (comprehensive banking experience), including integration of Mandiri Group subsidiary services (full-suite financial services) and customer favourite digital ecosystem (open ecosystem); and (ii) Kopra by Mandiri – a wholesale digital platform that provides digital single access services, as well as being a centre for information and financial transaction activities for the business community of business actors in the wholesale segment with its ecosystem from end to end.</p>
2022	As part of the Bank's commitment to accelerating digital migration for customers, in addition to launching Kopra by Mandiri and Livin' by Mandiri, the Bank simultaneously transformed 241 branches in Indonesia into Smart Branches on 29 July 2022, where customers experience a fast, easy and safe banking experience with the support of digital technology. Smart Branches are divided into three types, namely Digital Box, Hybrid Branch and Upgrade Branch. Each type of branch provides a different experience to meet various customer needs.

Year	Milestone
	<p>The Bank also improved the Livin' by Mandiri application by launching the Livin' Sukha feature as a one-stop solution for all of the customers' lifestyle needs, which provides easy transactions in customers' daily lives.</p> <p>The Bank's share price reached an all-time high of Rp10,900 on 6 December 2022 and as of 30 December 2022 recorded a year-on-year growth of 41.3%.</p> <p>The Bank made additional equity participation in Bank Syariah Indonesia of Rp2.8 trillion in order to support business and operational activities as well as the Indonesian Sharia economy.</p>
2023	<p>The Bank held the Mandiri ESG Festival by launching digital carbon insetting, the first pre-paid card made of recycled materials in Indonesia, and NZE Operational 2030 commitment.</p> <p>For 25 years, the Bank has consistently contributed to the people of Indonesia. The Bank's commitment to continue to provide the best service and performance has received recognition from various parties, including LinkedIn Top Companies 2023 as the Best Place to Work to Develop a Career in Indonesia, Forbes World's Best Bank 2023 as the Number 1 State-Owned Bank in Indonesia, and AIBP Innovation Awards 2023 from the ASEAN Innovation Business Platform.</p> <p>The Bank also became Wise Platform's first partner in Indonesia, allowing it to provide money transfer services overseas. By integrating Wise Platform, a financial technology company that provides global money transfer services, the Bank is able to offer its approximately 16 million users the ability to send money affordably in five currencies.</p> <p>The Bank continues to demonstrate its commitment to supporting Indonesia's transition to NZE through the issuance of the Bank's Shelf-Registration Public Offering Phase I of 2023 Green Bond of Rp5 trillion.</p> <p>The Bank launched the new Livin' Sukha 2.0 service, which provides a more captivating customer experience by enabling access to entertainment content and daily lifestyle transactions. As of October 2023, Livin' by Mandiri has been downloaded approximately 34 million times with a transaction value of Rp2,600 trillion or an annual increase of 36% year-on-year.</p> <p>The Bank unveiled a new cross-border product, Kopra Beyond Borders, to meet the needs of corporate customers abroad. This makes integrated digital financial access for its customers easier to achieve. As of August 2023, a total of 677 transactions with a total value of Rp12,466 trillion have been successfully processed by the Bank. The growth of Kopra by Mandiri also increased by 133% year-on-year to approximately 146,000 users in 2023.</p> <p>The Bank became the market leader in channelling green financing amounting to Rp115 trillion, an increase of 9.5% year-on-year. This is a tangible form of the Bank's implementation of sustainable finance, as well as a manifestation of its commitment to support Indonesia's transition to NZE in 2060 and Indonesia's achievement of the UN SDGs.</p>

Year

Milestone

2024

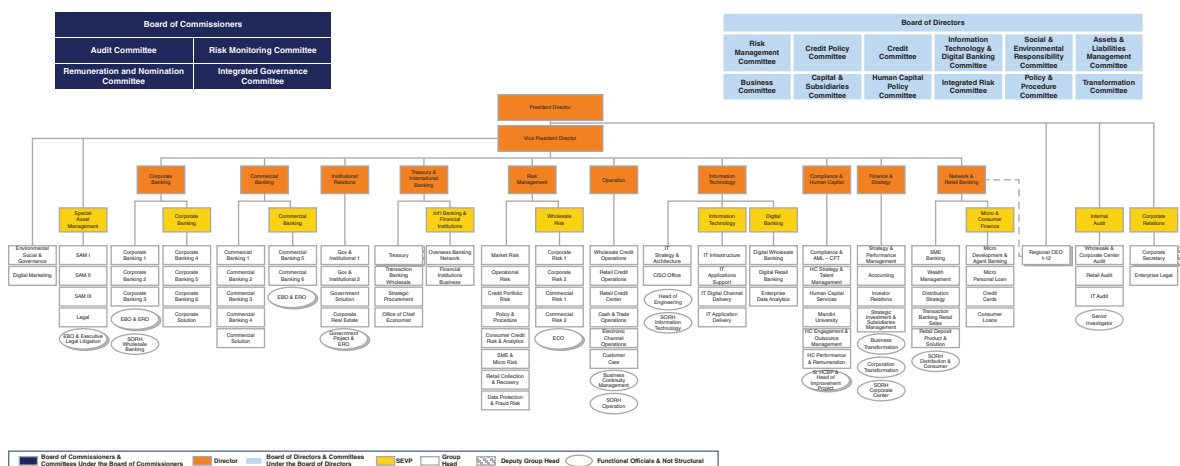

The Bank launched several digital service products to meet the increasingly diverse needs of customers who are increasingly dependent on mobile-based services: Mandiri Debit Contactless, Mandiri Kredit Contactless, and Tap to Pay. These products can be used with the “Tap” method on electronic data capture machines.

As part of its efforts to optimise its business internationally, the Bank has launched the Livin’ by Mandiri Timor-Leste application, reflecting its commitment to meeting the needs of customers in Timor-Leste for financial services. The presence of Livin’ by Mandiri Timor-Leste is expected to serve as a digital financial solution for all segments of society in Timor-Leste.

Organisational structure

To better serve the needs of the Bank’s customers and to support the Bank’s focus on the Bank’s business strategy, operational efficiency and performance, the Bank organises its revenue-generating operations by customer segment.

These segments are supported by the Bank’s strategic function units, whose role is to provide operational support and to increase the operational efficiency of the groups. Each segment is also supported by the Bank’s Risk Management Division, which seeks to ensure that the relevant risk management policies and procedures are properly implemented. See “Risk Management”.

Operational segments

The Bank conducts its business through its operational segments. The wholesale segment is composed of the Corporate Banking, Commercial Banking, and Institutional Banking units. The Corporate Banking unit provides banking products and services to the 150 largest publicly listed and other Government and private companies, each with gross annual sales (GAS) of more than Rp2 trillion. The Commercial Banking unit provides banking services primarily to small and medium-sized enterprises with gross annual sales above Rp50 billion and up to Rp2 trillion, and provincial and municipal customers. The Institutional Banking unit services Government institutions, including state-owned pension funds, providing these customers principally with deposit products. The Bank's Retail Banking unit is composed of individual/consumer segments, SME and wealth. The Bank's Treasury is linked to the Bank's treasury activities including foreign exchange transactions, fixed income, international banking business, capital markets and supervision of foreign offices.

The Bank offers other services including Sharia banking, insurance and other financing (e.g. motor financing) via its subsidiaries. Financial information presented in this section relating to these operating segments is presented on an unconsolidated basis.

The following table provides information on the net income (computed as the sum of net interest and fee-based income, less operating and provision expenses) contribution of the Bank's core business group customers on a consolidated basis:

	For the year ended 31 December				
	2023		2024		
	(Rupiah trillion, except percentages)		(Rupiah trillion)	(US\$ billion, except percentages)	
Wholesale	36.01	59.95%	26.06	1.62	42.63%
Corporate	19.15	31.88%	14.32	0.89	23.42%
Commercial	8.73	14.54%	7.15	0.44	11.58%
Institutional	3.21	5.34%	3.02	0.19	5.00%
Treasury and International Banking	4.92	8.19%	1.57	0.10	2.63%
Retail	44.07	73.38%	35.70	2.22	58.42%
Head Office	(26.99)	(44.94%)	(14.20)	(0.88)	(23.16%)
Subsidiaries	10.64	17.72%	11.83	0.74	19.47%
Reconciliations ⁽¹⁾	(3.67)	(6.11%)	1.78	0.10	2.63%
TOTAL (CONSOLIDATED)	60.06	100.00%	61.17	3.80	100.00%

(1) Includes elimination of internal transfer pricing or reclassification among operating segments and elimination for subsidiaries.

Credit policy and procedures

The Bank's Credit Policy and Procedures cover several main areas: Hierarchy Policy, Company Credit Policies and Procedures (which include the "**Credit Standard Procedures**" for each business segment) and the Credit Lending Process.

The Bank's Credit Policy and Procedures serve as guidelines for all of the Bank's units responsible for loan disbursements to ensure that the Bank's loan disbursements comply with prudent lending principles and maintain the asset quality of the Bank's loans.

In general, the credit granting process is governed by the Bank's Credit Policy and Procedures. The various stages of the Bank's credit granting process are further detailed below.

Target Market

Target Market is the Bank's early identification of business fields/potential borrowers as well as to be financed by a business unit in accordance with its business guidelines and priorities.

Credit Proposal

In assessing a credit application, the Bank adheres to the following principles:

- A credit proposal should be made in writing, both for new credits, renewal of the credit tenor, additional credit limit or other credit applications.
- A credit proposal should contain information that meets the requirements set out in the Bank's regulations.

Credit Analysis

In conducting a credit analysis, the Bank considers the following principles:

- The granting of credit shall be based on sufficient and reasonable data and information on the (potential) borrower to conduct credit analysis and risk assessment.
- The type, format and depth of the credit analysis is in accordance with the amount and type of the credit.
- The granting of credit should be based on a written qualitative and quantitative analysis.
- The granting of credit should reflect the concept of total relationship between the (prospective) borrower and the Bank.

A credit analysis must, at a minimum, include an assessment of the character, capacity, capital, collateral, and business prospects of the borrower and an assessment of the source of repayment.

When granting credit, the Bank must consider the ability and capacity of the (prospective) borrower to repay the credit in accordance with the agreement.

Covenants

A covenant is a credit term that is determined by the Bank and agreed to by the borrower and is set out in the loan agreement that binds the borrower to undertake and/or not to undertake a particular action during the term of the credit facility.

The stipulation of a covenant by the Bank is based on its analysis of the borrower's credit structure.

Non-fulfilment of a covenant by the borrower constitutes an event of default and also functions as an early warning mechanism that entitles the Bank to take appropriate safeguarding measure in accordance with the relevant loan agreement between the Bank and such borrower.

Credit Recommendations

A credit recommendation is drawn up in writing based on the results of the credit analysis that has been conducted. The content of a credit recommendation will be in accordance with the conclusions of the credit analysis.

Credit Decisions

A credit decision takes into account the credit analysis and its recommendations. Any credit decision that differs from the recommendation should be explained in detail in writing. To get obtain better information as part of the credit decision-making process, the Bank may retain an independent third party to provide a written description of the financial condition of the (prospective) debtor.

Credit granting is based on data and information from the (prospective) debtor to conduct credit analysis and risk assessment. The processing of data and information from the (prospective) debtor takes into account applicable regulations.

Loan portfolio

The following table shows the Bank's total gross loans (standalone) by business segment:

	As of 31 December					
	2023		2024			
	(Rupiah trillion, except percentages)		(Rupiah trillion)	(US\$ billion, except percentages)		
Wholesale	727.95	67.05%	913.34	56.75	69.68%

TOTAL (CONSOLIDATED)	138.53	100.00%	146.45	9.11	100.00%	

The Bank's total operating income (consolidated) increased to Rp146.45 trillion (US\$9.08 billion) in 2024, from Rp138.53 trillion in 2023.

Corporate Banking

Overview

The Corporate Banking unit of the Bank's wholesale banking segment serves Indonesia's leading publicly listed companies (both private and state-owned) and large unlisted companies with gross annual sales of more than Rp2 trillion. The Bank's Corporate Banking unit offers a range of banking products and services as well as financial advisory services, underwriting and securities trading and brokerage services through PT Mandiri Sekuritas, the Bank's investment banking subsidiary.

The Bank has a number of competitive strengths in the Corporate Banking segment, including:

- diversification across various priority sectors (such as plantation, electricity, food and beverage, mining, oil and gas, and fertiliser);
- strong capitalisation allowing the Bank to support the borrowing needs of large corporate clients with higher borrower limits; and
- a broad suite of banking and non-banking products, supported by a superior corporate governance process (recognised by the Indonesian Institute for Corporate Governance (IICG) as one of "Indonesia's Trusted Companies" in the 2024 CGPI assessment), risk management strategy and IT infrastructure.

The Bank's leading market position in the corporate segment provides opportunities to promote lending and fee-based services in other segments, including opportunities with the Bank's clients' employees and business partners throughout the value chains. The Bank cross-sells commercial, treasury, micro and retail banking services as well as consumer finance products.

The Bank's main strategies for developing the Corporate Banking business are:

- (1) Portfolio strategy: maintaining the quality of its already strong portfolio by focusing on sectors in which the Bank has extensive expertise and experience, and also "green" sectors that have significant long-term potential.
- (2) Business strategy: developing human resource and technology to optimise business interactions with customers, incorporating new financing techniques in the form of advanced structured financing, and leveraging on synergies among the subsidiaries of the Bank.
- (3) Operation strategy: strengthening pipeline management execution and credit monitoring as well as enhancing cross-selling and transaction banking.

Lending products

The Bank's Corporate Banking loans include working capital, term and syndicated loan facilities, as well as non-funded loan facilities such as bank guarantees and letters of credit. As of 31 December 2024, the Bank had total loans to corporate customers (standalone, excluding loans managed by the Special Asset Management Group) of Rp515.39 trillion (US\$32.02 billion), an increase of 25.75% from Rp409.86 trillion as of 31 December 2023. As of 31 December 2024, the corporate loan portfolio represented 39.32% of the Bank's total loan portfolio.

The Bank's key corporate loan products include:

- *Mandiri Kredit Investasi*: Credit facility provided to finance the needs for capital goods in order to rehabilitate, modernise, expand or establish new projects and/or other purposes pertaining to investments.
- *Mandiri Kredit Modal Kerja*: Loan facility provided to meet the need for working capital consumables in one business cycle and/or special working capital to finance inventory/receivable/project or other special needs.

The Bank provides short term Rupiah- and US dollar-denominated working capital loans with maturities of up to one year, which may be rolled forward, and typically with floating interest rates.

As of 31 December 2024, working capital loans represented 41.20% of corporate loans (standalone) and 12.71% of the Bank's total consolidated loan and financing portfolio.

The Bank also provides long-term Rupiah and foreign currency loans for capital expenditure and project finance. These loans typically have maturities of three to 12 years and floating interest rates. As of 31 December 2024, investment loans represented 58.56% of the Bank's corporate loans and 18.07% of the Bank's total consolidated loan and financing portfolio.

Most of the Bank's loans are bilateral loans in which it is the sole lender, although the Bank is active in syndicating larger corporate loans. As of 31 December 2024, syndicated loans represented 30.33% of corporate loans (standalone) and 9.36% of the Bank's total consolidated loan and financing portfolio. The Bank also acts as arranger, facility agent, security agent and escrow agent in connection with syndicated financings, and provides syndicated loans through its overseas branches.

As of 31 December 2024, 67.40% of corporate loans (standalone) were denominated in Rupiah. Some of the Bank's loans to corporate customers are collateralised by tangible and financial assets, including the asset being financed in the case of the relevant investment or project loans.

Collateral may include land, building or machinery for an investment loan or inventory and receivables for a working capital loan. The Bank seeks to revalue collateral in the form of fixed assets periodically. The Bank typically values collateral based on its estimated fair market value, which may be higher than the amount it would be able to recover through a liquidation process.

Deposit products

The Bank offers its corporate customers demand deposit, time deposit and savings deposit products. As of 31 December 2024, the Bank had total deposits (standalone) of Rp329.57 trillion (US\$20.48 billion) from 4,461 corporate customers. As of 31 December 2024, deposits from corporate customers represented 24.84% of the Bank's total deposits from customers. The Bank has focused on reducing reliance on relatively expensive time deposits and decreasing the cost of funds by improving the cash management infrastructure and selectively extending special rates for key corporate customers in accordance with customer profitability analysis. As of 31 December 2024, low-cost funds (demand deposits and savings accounts) constituted 87.73% of the total deposits from corporate customers. In addition, 3,036 corporate customers used the Corporate Banking's cash management services, a number that the Bank hopes to increase as part of the cross-selling product strategy to improve its funding mix.

The Bank offers demand deposit accounts denominated in Rupiah and several foreign currencies, including US dollars, Japanese yen, pounds Sterling, Euros and Singapore dollars. Demand deposits bear interest at variable rates. As of 31 December 2024, demand deposits denominated in US dollars accounted for 100% of the total demand deposits (on a Rupiah basis) of corporate customers with 55.97% denominated in Rupiah.

The Bank also offers time deposits, which unlike regular savings deposits, may not be withdrawn prior to an agreed maturity of 1, 3, 6, 12 and 24 months. At maturity, the principal and accrued interest is payable to the customer and the aggregate amount may be rolled. Customers may also choose to have their interest paid on a monthly basis. As of 31 December 2024, corporate customers accounted for aggregate time deposits of Rp40.43 trillion (US\$2.51 billion), constituting 15.47% of time deposits (standalone).

As of 31 December 2024, the Rupiah-denominated time deposits to corporate customers represented 67.45% of total time deposits to corporate customers. For the year ended 31 December 2024, the cost of funds for Rupiah-denominated time deposits to corporate customers was 5.32% and 4.22% for foreign currency-denominated time deposits to corporate customers, compared to 2023, where the cost of funds for Rupiah-denominated time deposits was 3.80% and 3.26% for foreign currency denominated time deposits.

Finally, the Bank also offers a payroll benefit service that allows employee payroll cheques of corporate customers to be deposited directly into employees' payroll accounts and provides special consumer products offerings to employees. This has both strengthened the corporate relationships and allowed the Bank to leverage these relationships to expand its consumer lending and retail deposit base.

The following table sets forth the deposits from customers by type and currency for Corporate Banking customers as of the dates indicated:

	As of 31 December				
	2023		2024		
	(Rupiah trillion, except percentages)		(Rupiah trillion)	(US\$ billion, except percentages)	
By type					
Demand deposits (<i>giro</i>)	262.44	85.12%	266.26	16.54	80.79%
Savings deposits (<i>tabungan</i>)	18.42	5.97%	22.88	1.42	6.94%
Time deposits (<i>deposito</i>)	27.47	8.91%	40.43	2.51	12.27%
Subtotal	308.32	100.00%	329.57	20.48	100.00%
By currency					
Rupiah	172.35	55.90%	191.48	11.90	58.10%
Non-Rupiah	135.98	44.10%	138.09	8.58	41.90%
Subtotal	308.32	100.00%	329.57	20.48	100.00%

The Bank's total deposits from Corporate Banking customers increased to Rp329.57 trillion (US\$20.48 billion) as of 31 December 2024, compared to Rp308.32 trillion as of 31 December 2023, primarily due to the increase in time deposits from Corporate Banking customers to Rp40.43 trillion (US\$2.51 billion) as of 31 December 2024 compared to Rp27.47 trillion as of 31 December 2023.

Other services

The Bank also provides its corporate customers with bank guarantees, letters of credit, foreign exchange facilities and cash management services in line with the long-term strategy to develop its wholesale transactional banking business. The Bank's business groups are each directed to explore all of the potential transactional and payments system needs of the corporate customers and their associated suppliers, distributors and customers.

This strategy is aimed at increasing profitability through low-cost funds and increased fee-based income. In 2024, other operating income from corporate customers was Rp3,950.03 billion (US\$245.44 million), an increase of 23.50% from Rp3,198.53 billion in 2023.

Commercial Banking

Overview

The Commercial Banking provides a range of lending (including multi-finance business entities) and deposit products as well as value-added, fee-based services to corporate entities with gross annual sales above Rp50 billion and up to Rp2 trillion or a credit limit of more than Rp25 billion along with their business groups. Commercial Banking customers also include provincial and funding customers across Indonesia such as rural banks, local government units, regional government-owned enterprises including local public hospitals and water utilities and universities. Primary targets for the Bank's Commercial Banking products include suppliers, contractors and sub-contractors that support the Bank's corporate banking customers across the value chain. Palm oil and crude palm oil plantations, sea transportation, multifinance, energy, dan healthcare, account for the largest amounts of Commercial Banking loans as of the date of the Offering Circular.

The Bank has a number of competitive strengths in the Commercial Banking segments, including:

- 33 widely dispersed units of Commercial Banking channels, including 18 Commercial Banking Centres located at 11 regions and 14 Large Commercial Banking units which serve specific sectors and bigger loan sizes. The organisation is fit to provide a wide range of services to customers across the regions and more specific support for larger Commercial Banking customers as well;
- extensive experience, geographic presence over regions and a strong customer base in the commercial banking segment; and
- large opportunities to develop a relationship with existing customers to leverage value chain business through financial solutions.

The Commercial Banking segment has become a key element of the business in the Bank, both in lending and funding. As of 31 December 2024, the Bank had Rp292.86 trillion (US\$18.20 billion) in loans to Commercial Banking customers, representing 22.34% of the loan portfolio (standalone). The yield of loans issued by the Commercial Banking segment was 6.91% as of 31 December 2024. Most of the Commercial Banking segment loan portfolio is composed of customers with credit limits of more than Rp250 billion which amounts to approximately 79.73% of the total portfolio. The breadth of the Bank's customer base provides opportunities to promote its value chain business.

The Bank's main strategies in developing the Commercial Banking business are:

- (1) focusing on loan strategy which focuses on existing funding or transaction banking customers and main players at growing industry sectors in the regions as well;
- (2) growing asset-based lending by applying a portfolio mix in accordance with portfolio guidelines focused on financing with attractive and neutral sectors;
- (3) increasing debtors' funds and management strategy, and increasing its deposits ratio compared to its working capital loan facilities;
- (4) implementing transaction solutions by using the Bank's product bundling to increase third party funds;
- (5) improving and refining business processes by adding information technology systems to enable the optimisation of work effectiveness, credit monitoring and cost efficiency;
- (6) enhancing the relationship manager function, which is responsible for managing customers, aiming to becoming a total-solutions centre, offering bundling products to service all of a customer's business ecosystem; and
- (7) implementing capability enhancement programmes for relationship managers.

Lending products

Commercial Banking loans (standalone) reached Rp292.86 trillion (US\$18.20 billion) as of 31 December 2024, representing 22.34% of the Bank's loan portfolio, an increase of 22.96% compared to Rp237.95 trillion as of 31 December 2023. Commercial Banking NPLs amounted to Rp3.23 trillion (US\$0.20 billion) as of 31 December 2024. Commercial Banking's Gross NPL Ratio was 1.10% (standalone) as of 31 December 2024, a decrease of 0.63% compared to 1.73% as of 31 December 2023.

The Commercial Banking unit is currently focusing on lending in sectors rated “attractive” and “neutral” by the Bank. The unit adopts the tagline “Total Solutions” and emphasises the bundling of various products for customers, the use of digital channels and generating fee income from low risk products. The Bank’s bundled products target not only commercial customers but the various parties with which such customers do business in their respective value chains. In addition to increasing loan growth, the Commercial Banking unit seeks to maintain loan quality by focusing on low-credit risk customers as identified by portfolio guidelines.

Deposit products

The Bank offers Commercial Banking customers demand deposit, time deposit and savings deposit products, similar to those offered to corporate customers. As of 31 December 2024, the Bank had total deposits of Rp161.19 trillion (US\$10.01 billion) from 34,776 commercial customers (standalone). As of 31 December 2024, Rp131.81 trillion (US\$8.19 billion) or 81.78% of Commercial Banking unit deposits were low-cost CASA (demand and savings deposits) and Rp29.37 trillion (US\$1.82 billion) were time deposits (standalone). The Bank also offers cash management services to its Commercial Banking customers.

Institutional (*Kelembagaan*)

Overview

The Bank established the Government Institutional Relations work unit in 2017 to achieve its aspirations as the “Preferred Bank of Choice for Institutional Customers” through the provision of financial solutions supported by the strength of the Mandiri Group collaboration. The focus of customers in the Government Institutional Relations segment is the Ministries/Institutions Customers Public Service Agencies (BLU) and State-Owned Enterprises (especially non-listed) which currently totals more than 750 institutions.

To build a holistic relationship for institutional customers, Government Institutional Relations offers placement of funds (in the form of current accounts and deposits), financing facilities (Investment and Working Capital), system solutions for state revenue (tax, customs, PNBPN) and other transaction solutions such as MVA and MHAS (Dashboard System Solution) for vertical hospital institutions and educational institutions.

As a Collaboration Leader for the Retail segment and other segments, the Government Institutional Relations work unit also reaches more than one million retail customers related to Government institutions through the payroll package, bulk pre-approved Multipurpose Loans, bulk approval of Corporate Cards, Credit Cards and ID Cards as well as BG Cash Loan for Work Unit Partners.

The Government Institutional Relations segment also manages special units that actively participate in encouraging Government programmes. The Government Institutional Relations segment actively contributes to Government programmes including the Family Hope Programme (PKH), Cash Social Aid (Bansos Sembako), Education Assistance, Mandiri Sahabatku programme, ATENSI anak YAPI programmes, Rumah Sejahtera Terpadu Programme, Natural Disaster & Social Disaster Social Handling Assistance, and Urban Livin Programme. Day to day, the Government Institutional Relations segment manages approximately 3.89 million beneficiaries of basic food programmes, 2.02 million beneficiaries of the Family Hope programmes, 1.78 million recipients of education assistance programmes, 2,200 empowering PMIs through Mandiri Sahabatku programme, 220,000 beneficiaries of ATENSI anak YAPI programmes, 3,300 recipients of other programmes (integrated welfare homes, social handling of natural disasters & social disasters).

The Bank's main strategies for developing the Government Institutional Relationship business are:

- (a) increasing funding growth through:
 - (i) optimising and deepening client relationships and customer transaction optimisation;
 - (ii) expanding distribution channels, focusing on strategic areas and providing comprehensive solutions to customers; and
 - (iii) acquisition of accounts with potential deposition of funds.
- (b) increasing the growth of credit through:
 - (i) customer focus on potential sectors to build long-term business relationships with a healthy loan growth and value chain business generation;
 - (ii) proactive loan monitoring supported by adequate procedures and policies;
 - (iii) development of information systems aimed at sharpening end-to-end credit processes; and
 - (iv) receivable financing facilitation offer and increased working capital financing wallet share for existing customers.
- (c) increasing fee-based income through:
 - (i) enhancing cooperation in providing financial services such as a custody service remittance;
 - (ii) conducting promotion and socialisation on the use of channels/means of receipt of payment;
 - (iii) increasing the Non-Cash Loan Platform;
 - (iv) collaboration with IBFI Group to improve Custody business; and
 - (v) providing state revenue transaction system solutions.
- (d) continuing to support Government transaction activities, especially related to the distribution and receipt of the Government Expenditure Budget ("**APBN**") and non-APBN by accommodating the provision of products and services and optimising e-channels;
- (e) supporting the sustainability of the realisation of Government programmes by encouraging collaboration both internally and externally by the Bank;
- (f) leveraging the Bank's relationship with Government and institutional clients as entry points for new core businesses and affiliated companies through bundling product and payroll package solutions to customers in Government ministries, institutions and state-owned enterprises; and
- (g) strengthening the Bank's risk management through the improvement of human resources competence as well as risk management control in order to increase business growth in a sustainable manner.

Lending products

As of 31 December 2024, the Bank had total loans to Government Institutional customers of Rp96.34 trillion (US\$5.99 billion), representing 7.35% of the Bank's total loan portfolio (standalone), and an increase of 32.44% on an annual basis from Rp72.74 trillion as of 31 December 2023.

The increase of the Government Institutional loan segment was contributed to by foreign exchange financing. The amount of foreign currency financing has increased from the initial Rp39.07 trillion in 2023 to Rp50.32 trillion at the end of 2024.

The credit quality of the Government Institutional segment is reflected by its 0% NPLs ratio in its portfolio of Rp96.34 trillion, as of 31 December 2024. The success in maintaining the loan quality of the Institutional Relations segment is driven by the provision of highly selective financing that focuses on Government projects/programmes related to the APBN.

In addition to maintaining credit quality, the Bank also carried out the following:

- reviewing collectivity and watch list analysis periodically and in an orderly manner;
- monitoring the fulfilment of credit obligations before maturity;
- meeting and maintaining the terms and conditions set forth in the credit agreement; and
- improving business processes by increasing the effectiveness of the credit extension process simultaneously with customers in one debtor group and credit extension three months before maturity.

Deposit products

The Bank offers its Government Institutional customers demand deposit, time deposit and savings deposit products similar to corporate customers. As of 31 December 2024, the Bank had total deposits of Rp102.94 trillion (US\$6.40 billion) from Government Institutional customers, an increase of 5.09% from Rp97.95 trillion as of 31 December 2023.

Government Institution time deposits in this period reached Rp44.30 trillion, an increase of 33.71%. Time deposit products amounted annually to 42.03% of the total Government Institution Deposits portfolio. Further, based on the type of customers who placed their funds, Government Institutional relationship fund customers are dominated by many Public Service Agency, Government Business Entity and Ministry customers who contributed more than 56.12% of the total deposits.

Retail Banking

Overview

Retail Banking provides a variety of banking products for individual customers for consumer financing needs, including mortgages, personal loans, auto loans and credit cards. In addition, Retail Banking also provides business financing support for Micro and SME customers in the form of working capital loans and investment loans. This segment also offers various deposit and investment services to these customers.

The Bank's retail segment is divided into:

- SMEs: entity or individual borrowers with gross annual sales of less than Rp50 billion or credit limits above Rp500 million and up to Rp25 billion, and certain other corporate borrowers such as cooperatives;
- Micro: entity or individual borrowers with productive credit limits up to Rp500 million or consumptive credit limits up to Rp1 billion;
- Wealth management: individuals with total funds under management with the Bank of at least Rp1 billion; and
- Individual/consumer: other individual customers.

The Retail Banking segment benefits from synergies among the Bank's business units and subsidiaries, such as Bank Mantap, Mandiri Tunas Finance, Mandiri Utama Finance, and Mandiri International Remittance.

The Bank has a number of competitive strengths in the retail banking segment, including:

- an extensive nationwide branch network, with 4,468 branch banking networks (including 2,192 branches and 2,279 micro branches), supported by 12,896 ATMs;
- a large deposit customer base of 34.7 million retail deposit accounts; and
- opportunities to cross-sell to various counterparties of existing wholesale banking customers across their respective value chains, through payroll and supplier transaction accounts.

The Bank has grown its retail credit business into a core segment, alongside the Corporate Banking segment, and believes it has the potential for further growth while maintaining asset quality. The Bank's core retail loans (consisting of standalone SME, Consumer Loan, Credit Card and Micro Loan) increased by 11.07% to Rp397.44 trillion (US\$24.69 billion) as of 31 December 2024 from Rp358.07 trillion as of 31 December 2023. Retail segment's Gross NPL Ratio (standalone) increased to 1.79% as of 31 December 2024 from 1.50% as of 31 December 2023.

Lending products

The Bank expects that consumer and micro banking will be one of its primary growth areas in the near future. As of 31 December 2024, consumer, micro loans and credit cards (standalone) were Rp310.78 trillion (US\$19.31 billion), an increase of 10.49% from Rp281.29 trillion as of 31 December 2023.

Deposit products

The Bank offers its retail customers (in the SME, Micro, Individuals and Wealth segments) various demand deposit, time deposit and savings deposit products. As of 31 December 2024, the Bank had total deposits of Rp717.91 trillion (US\$44.60 billion) (standalone). As of 31 December 2024, deposits from retail customers represented 54.10% of the Bank's deposits (standalone). Growth in retail customers business is driven by saving products such as Mandiri Savings, Payroll Savings, Business Savings. Current Accounts and transactional products such as Kopra by Mandiri, Kopra Cash Lite, and Livin' by Mandiri.

The number of the Bank's retail deposit accounts (in the SME, Micro, Individuals and Wealth segments, consisting of current accounts, saving accounts and time deposits) decreased by 4.03% from 36.1 million accounts as of 31 December 2023 to 34.7 million accounts as of 31 December 2024.

Other products

The Bank also provides retail and micro customers with various products including debit cards, travellers' cheques, safety deposit boxes and automated utility bill payments. The Bank also taps its micro and retail network to distribute mutual fund, pension and insurance products on behalf of the Bank's wealth management unit, the Bank's subsidiaries and other partner institutions. For example, the Bank partners with PT Pertamina (Persero), Indonesia's state-owned oil and gas company, to provide payment and other services, including host-to-host payments, retail prepaid gasoline cards, and cash management services in relation to the distribution chain for Pertamina liquid fuel.

Organisation of Retail Banking segment

The Bank's Retail Banking business consists of the Individual/consumer, Micro, SME and Wealth Management units. The Retail Banking segment includes loans given to business entities or individuals on a micro to medium scale, other products and services such as third party funds, payment transactions and other transactions owned by micro and small entity customers as well as individual consumer loans, including mortgage loans, credit cards and other products and services such as third party funds, payment transactions and other transactions owned by individual customers, including priority customers with the respective details of selected operation sub-segments listed below.

Micro Banking

Overview

The Bank's Micro Productive unit handles productive micro lending with a maximum limit of up to Rp500 million to both individual and corporate borrowers and also offers micro deposits (*TabunganMU*). Productive micro loan is divided into two products, namely Government subsidised micro productive loan (KUR or *Kredit Usaha Rakyat*) and non-subsidised micro productive loan (KUM or *Kredit Usaha Mikro*). The micro productive loan has offers by Sales Generalist Productive and the deposit has offers by a branchless agent bank.

KUR is a Government-subsidised credit programme aimed to support the development of MSMEs. Every year, the Government sets and allocates KUR disbursement targets for selected financial institutions, including the Bank. Based on the Regulation of the Coordinating Minister for Economic Affairs No. 1 of 2022, as most recently amended by Regulation of the Coordinating Minister for Economic Affairs No. 7 of 2024, on the People's Business Credit, KUR is disbursed for MSMEs such as potential Indonesian overseas workers and apprentices, family members of overseas workers, recently terminated workers, workers in border areas and members of MSME business groups such as the Joint Farmers and Fishermen Group (Gapoktan).

The Bank's Micro Consumptive unit handles consumptive micro lending (*Kredit Serbaguna Mandiri* (KSM)) with a maximum limit of up to Rp1 billion for individual borrowers. In order to drive the micro business segment, the Bank uses both sales force and digital channels to offer micro retail loan products to customers. Furthermore, the Bank also has agent banking as part of its branchless banking business. Through these agents, the Bank is able to tap into the unbanked market to conduct financial transactions and provide financial products. The Bank's main strategies for developing the Micro business are:

- (1) improving competence of productive salesforce and consumptive salesforce as well as offering more attractive and competitive sales incentive schemes;
- (2) sharpening the Group's ecosystem-based leads to target market focus, either through intensification or extensification;

- (3) developing and improving early warning system tools for credit monitoring;
- (4) improving the process that includes the micro credit process in the branch and utilisation of branchless banking agents in the acquisition of prospective micro debtors;
- (5) penetration of KUM loans with limits of up to Rp500 million (approximately US\$31,066) to new business sectors in order to better diversify KUM portfolios;
- (6) disbursing micro productive loans to micro customers with a focus on potential sectors that support the growth of customer value chain businesses related to the wholesale segment;
- (7) cooperation with e-Commerce and Financial Technology in the distribution of micro productive loan to e-Commerce users;
- (8) penetration of KSM loans with limits of up to Rp1 billion (approximately US\$62,131) to civil servants, employees of leading state-owned companies and employees of selected private companies in order to better diversify KSM portfolios as well as deepening payroll acquisition through value chain wholesale ecosystem;
- (9) improving KSM business processes, such as back-to-back payroll services and customer acquisition experience through Livin' by Mandiri;
- (10) increasing access to finance for micro-class productive businesses through Livin' Merchant by Mandiri;
- (11) increasing the growth of deposits, among others, through the development of customer transaction service features both through digital channels and branchless banking agents as well as marketing programmes to encourage business customer transactions; and
- (12) strengthening network and branchless banking support systems.

Lending products

As of 31 December 2024, the Bank had total loans to the micro productive segment of Rp90.80 trillion (US\$5.64 billion). representing 6.93% of the Bank's total loan portfolio (standalone) and an increase of 9.63% on an annual basis from Rp82.82 trillion as of 31 December 2023.

The growth of Micro productive loans in 2024 was driven by KUR loans, which initially composed of 75.24% of the micro productive portfolio in 2023 and decreased to 70.39% at the end of 2024, valued at Rp63.91 trillion. This growth also demonstrates the Bank's commitment to actively participate in Government programmes to advance the micro and SME sectors in Indonesia.

As of 31 December 2024, the NPLs in the micro productive loan segment decreased to 1.41% from 1.42% as of 31 December 2023. NPLs decreased mainly due to improved business process and focused on ecosystem leads based acquisition. In order to maintain the NPLs, the Bank developed an early warning system and executed specific action plans to ensure debtors were able to fulfil their instalments. The aforementioned strategies allowed the Bank to maintain its micro productive loan quality in 2024.

For the micro consumptive loans, the Bank had a total of KSM loans of Rp97.23 trillion (US\$6.04 billion) as of 31 December 2024, an increase of 14.31% on annual basis from Rp85.06 trillion as of 31 December 2023. The NPLs in micro consumptive loans increased to 2.44% as of 31 December 2024 from 1.33% as of 31 December 2023.

Deposit products

The Bank offers its micro banking customers deposits (demand deposit, time deposit and savings deposit products). As of 31 December 2024, deposits from micro customers grew 13.13% on an annual basis from Rp52.97 trillion in 2023 to Rp59.92 trillion (US\$3.72 billion).

SME Banking

Overview

The Bank's SME Banking unit handles lending to corporate and individual borrowers with gross annual sales of less than Rp50 billion or credit limits above Rp500 million and up to Rp25 billion and certain other corporate borrowers such as cooperatives.

The Bank's main strategies for developing the SME banking business are:

- (1) sharpening the SME target market that is in line with the region's potential by prioritising PRIMA customers (or customers with existing liabilities relationships), value chains and cooperatives;
- (2) focusing on potential target markets, especially intensification of existing customers, value chain customers and cooperatives;
- (3) expanding business through asset-based credit products and developing fintech financing schemes; and
- (4) improving process, system, and human resources to support the achievement of credit.

Lending products

The Bank's SME banking loans increased by 12.85% from Rp76.79 trillion (standalone) as of 31 December 2023 to Rp86.66 trillion (US\$5.38 billion) as of 31 December 2024. For the last four years, the SME Banking unit focused on improving credit quality and business processes over loan growth and lending selectively to new SME borrowers in predetermined target markets. As of 31 December 2024, the trading, agriculture, transportation and construction sectors accounted for 57.80% of SME loans (standalone).

Deposit products

Deposits from SME customers increased by 10.12% from Rp254.33 trillion (standalone) as of 31 December 2023 to Rp280.06 trillion (US\$17.40 billion) as of 31 December 2024.

Individual/consumer

Overview

The Bank has the largest corporate loan portfolio among Indonesian banks. The Bank aims to build upon this key strength by cross-selling to the employees of its largest corporate clients, particularly payroll accountholders, and other counterparties across various corporate clients' respective value chains. The Bank's Corporate Banking and Retail Banking units and the Bank's subsidiaries collaborate to drive growth using this strategy. As a key driver of retail segment growth, the Bank aims to provide key products to satisfy the personal needs of such employees and other counterparties, particularly KSM micro salary loans, housing loans and mortgages (KPR), auto loans (KKB), and credit cards.

Consumer loans

The Bank's consumer loan unit offers consumer credit through credit cards, home mortgage loans, home equity loans, and personal loans (primarily to employees of the Bank's Corporate and Commercial Banking customers), and products of Mandiri Tunas Finance and Mandiri Utama Finance, the automotive and motorcycle finance subsidiaries (each 51.00% owned by the Bank as at 31 December 2024), which operate as part of the consumer loan unit.

The Bank believes that the consumer loan unit has a number of competitive strengths in the consumer finance segment, including:

- the ability to cross-sell various consumer financing products, particularly payroll loans, to employees of its wholesale banking customers;
- the ability to leverage existing wholesale banking relationships to further expand the Bank's consumer financing products to the employees of the Bank's wholesale clients and to leverage the Bank's distribution network, including its digital channels;
- the ability to increase auto loan business through the Bank's subsidiaries, Mandiri Tunas Finance and Mandiri Utama Finance; and
- the Bank's recognised brand among Indonesian consumers.

The key strategies of the consumer loan unit include:

- (1) improvement of product features to enhance competitiveness in the market;
- (2) Improving loan processing through business process re-engineering for mortgage and KSM micro-salary loan to reduce the end-to-end processing time that would boost overall productivity;
- (3) digital channel customer acquisition through Livin' by Mandiri, to ease customers in fulfilling their financing needs (mortgage, auto loan and credit card);
- (4) collaboration with the enterprise data analytics unit to supply data as branch leads in making sales;
- (5) improving composition of the mortgage business with a focus on the primary segment and payroll-based employees;
- (6) increasing digital presence of mortgages and auto loans through collaboration with a leading e-commerce marketplace in offering mortgages and increasing credit card transactions in the pandemic era;
- (7) improving collaboration with several leading e-commerce platforms in Indonesia to boost credit card transactions; and
- (8) maintaining relationship with the Government to facilitate the Bank's involvement in strategic Government projects.

The following table sets forth the Bank's gross loans (standalone), by type, for the Bank's consumer customers:

As of 31 December					
	2023		2024		
	(Rupiah trillion, except percentages)		(US\$ billion, except percentages)		
Mortgage	56.01	49.39%	65.49	4.07	53.35%
Auto loans	37.96	33.47%	35.00	2.17	28.52%
Credit card	16.69	14.72%	19.25	1.20	15.68%
Others	2.75	2.43%	3.01	0.19	2.45%
TOTAL CONSUMER LOANS	113.41	100.00%	122.75	7.63	100.00%

For consumer loan products, the credit approval process involves evaluating an applicant's income, assets and liabilities, and employment history. The Bank rates applicants by various categories and has implemented a comprehensive credit approval process. The Bank determines the interest rates for the Bank's consumer lending products using a base lending rate plus risk premium.

Retail deposits

The key strategies for the Bank's retail deposit unit are:

- (1) improving the acquisition pipeline within the business ecosystem potential and business processes enhancement to support accelerated customer acquisitions;
- (2) increasing product usage, customer transactions and product holdings by maximising online channel potential;
- (3) optimising potential business from payroll customers (corporate partners and individual payroll customers) through offering special benefits such as payroll package offers based on company size and existing business potential, special pricing schemes, product bundling and insurance; and
- (4) increasing individual customer savings by leveraging online channels, partnering with anchor merchants, creating customer loyalty programmes and marketing campaigns that highlight transaction benefits or banking solutions.

The following table summarises the Bank's retail deposits by type of product:

As of 31 December					
	2023		2024		
	(Rupiah trillion, except percentages)		(US\$ billion, except percentages)		
Demand deposit	106.42	15.95%	119.28	7.41	16.61%
Savings account	411.81	61.72%	459.19	28.53	63.97%
Time deposit	148.95	22.33%	139.44	8.66	19.42%
TOTAL	667.18	100.00%	717.91	44.60	100.00%

Wealth management

The Bank's wealth management unit provides various mutual fund and securities products to premium retail customers and high-net-worth individuals, including:

- Money Market Mutual Fund: fund invested solely in domestic money market instruments such as time deposits and/or debt securities with maturities of less than one year.
- Fixed Income Mutual Fund: fund at least 80% of which is invested in debt securities, whether issued by the Government or corporations.
- Mixed Mutual Fund: fund invested in equity securities, debt securities and/or domestic money market instruments, each of which does not exceed 79% of its assets, wherein the portfolio must include equity securities and debt securities.
- Equity Mutual Fund: fund at least 80% of which is invested in equity securities.
- Index Mutual Fund: fund that attains investment returns that are similar to both bond and stock indices used as references.
- Protected Mutual Fund: fund actively managed to protect investors' initial investment or principal through a portfolio management mechanism. Investment managers of this fund invest part of the funds in investment-grade debt securities such that the value of debt securities at maturity at least covers the amount protected.
- Limited Participation Mutual Fund: a type of mutual fund that pools funds from professional investors to invest in securities in real estate, i.e., direct and indirect activities in manufacturing and services in the real estate sector including, but not limited to, services concerning goods production and/or the working capital of production activities.

The wealth management unit had Rp165.79 trillion (US\$10.30 billion) (standalone) of mutual fund assets under management (“**AUM**”) as of 31 December 2024, an increase of 22.85% from Rp134.95 trillion of AUM as of 31 December 2023.

Revenues from the wealth management unit's mutual fund business decreased by 11.41% from Rp232.63 billion in 2023 to Rp206.08 billion (US\$12.80 million) (standalone) in 2024. Meanwhile, in 2024, fee income from the wealth management unit increased by 9.76% to Rp878.32 billion (US\$54.57 million).

Treasury and International Banking

Overview

The treasury segment includes treasury transactions (such as foreign exchange, money market, securities and derivatives transactions) transactions with financial institutions and transactions related to capital market products. Treasury transactions can be interbank or for wholesale and retail customers. The Bank's Treasury and International Banking Directorate (“**Treasury**”) operates from the Bank's head office and through Regional Treasury Marketing networks spread throughout Indonesia.

The Bank's Financial Institutions unit serves other banks and non-bank financial institutions (“**IKNB**”). The unit covers domestic banks (excluding rural banks (“**BPRs**”)) and international banks, private insurance companies and their affiliated derivative financial institutions (including insurance and reinsurance brokers) as well as financial institution pension funds (“**DPLK**”) and Employer Pension Funds (“**DPPK**”). Transactions with financial institutions include trade finance transactions, remittances, insurance company funds and credit to banks. Meanwhile, capital markets related transactions include custodial, trust and short-term credit services to securities

companies. Transactions with financial institutions and associated capital markets are implemented by the Financial Institutions Business Group, which is part of the Treasury and International Banking Directorate.

The Bank has demonstrated a record of strong performance and a number of competitive strengths in the Treasury segment, including:

- fee income generated by Treasury and International Banking as a segment of Rp3.04 trillion (US\$0.19 billion) for 2024, accounting for 7.22% of consolidated fee income and an increase of 2.92% from 2023;
- a highly regarded brand among treasury and financial institution customers as evidenced by numerous recognitions and awards. In 2023, the Bank received three awards from Bank Indonesia in 2023 related to money market development, namely the “Best Patron of Rupiah Money Market Development”, “Best Foreign Exchange Market Development Patron”, and “Conventional Bank as Best Patron of Foreign Exchange Monetary Operation Innovation”, awards from Alpha Southeast Asia 2023 in categories including “Best Foreign Exchange Bank for Corporates & Financial Institutions”, “Best Foreign Exchange Bank for Interest Rates”, “Foreign Exchange Research & Market”, and “Best Cash Management Bank & Digital Banking App in Indonesia”. Further, in 2024, the Bank received recognition from Bank Indonesia in relation to foreign exchange market development, as the “Best Supporting Bank for Foreign Exchange Market Development”, awards from Alpha Southeast Asia 2023 in categories including “Best FX Bank for Corporates & Financial Institutions”, “Best FX Bank for Retail Clients” and “Best Local Currency Bond Deal of The Year in Indonesia”, an award from Global Finance in the category “Best FX Bank in Indonesia” and an award from LSEG FX for the “Most Active FXall Bank”.
- a strong customer base with more than 135,000 money market and foreign exchange services customers and 19,460 customers in custodial services as of 31 December 2024.

For 2024, Treasury and International Banking as a Segment accounted for 7.22% of the Bank’s consolidated fee income and 0.73% of consolidated net interest, sharia and premium income.

Treasury services

Treasury provides money market and foreign exchange services, including inter-bank placements, repurchase market transactions, hedging transactions and products (including currency swaps, interest rate swaps and forward contracts) and dealing in Bank Indonesia Certificates and Government bonds. Treasury customers include financial institutions, corporate, commercial and retail customers.

In addition, Treasury is responsible for efficiently managing the Bank’s liquidity position in compliance with Bank Indonesia regulations on minimum reserve requirements and Net Open Positions.

Treasury transactions are conducted through the Bank’s head office by approximately 130 dealers and the Bank’s Regional Treasury Marketing groups located in Medan, Batam, Palembang, Bandung, Semarang, Surabaya, Balikpapan, Denpasar and Makassar. As of 31 December 2024, the Bank’s money market and foreign exchange service had more than 135,000 corporate, commercial, small medium enterprise, micro and retail customers.

The Bank had an average daily turnover of foreign exchange transactions of US\$2.52 billion in 2024. The Bank recorded a loss in its Net Interest Income from Treasury in 2024 of Rp0.76 trillion (US\$0.05 billion), or 0.73% of its total net interest, sharia and premium income for the same period.

Financial institutions coverage

The Bank also provides a variety of capital market services, including custodial, trustee, paying agent, security agent and escrow services. The Bank also provides foreign exchange lines and intra-day facilities for stock transactions, bonds and OTC transactions in supporting the Bank's role as the payment bank for the IDX.

Custodial

As of 31 December 2024, the Bank was third-party custodian for a portfolio of Rp733 trillion (US\$45.54 billion), composed of Rp560 trillion (US\$34.79 billion) of Government & Corporate bonds, Rp159 trillion (US\$9.88 billion) of equities and Rp14 trillion (US\$0.87 billion) of other securities. The Bank's general custodial services include:

- safekeeping of securities and other valuable assets, including provision of sub-custodial services for American Depositary Receipts and Global Depositary Receipts;
- corporate actions and services to security holders, such as the collection and on-payment of dividends and interest and proxy services for its customers' shareholder and bondholder meetings; and
- an escrow agent, paying agent and receiving bank services in connection with bonds issuances and sub-registry services for the settlement of transactions for Government bonds, Bank Indonesia Certificates and other securities registered with Euroclear.

Special Asset Management

SAM is a special unit at the Bank that manages the non-performing loan portfolio in the wholesale segment. Creating integrated solutions for the Bank's clients, SAM maintains or improves credit quality and collects debts through providing financial solutions (restructuring, loan take over, cessie, etc) and/or asset disposal (auction, collateral sales, etc). In 2024, the SAM group had recoveries on written-off assets (consisting of written-off loans) from wholesale segments of Rp2.20 trillion (US\$0.14 billion).

The Bank recorded total collections (wholesale and retail segments) of Rp6.79 trillion (US\$0.42 billion) and Rp10.13 trillion (US\$0.66 billion) in 2024 and 2023, respectively.

Overseas operations

The Bank's overseas operations are strategically positioned in several major international trade and financial centres. It has five offshore branches located in the Cayman Islands, Hong Kong, Singapore, Dili of Timor Leste and Shanghai. In addition, the Bank has two offshore subsidiaries, being Mandiri International Remittance Sdn. Bhd. ("**MIR**"), a wholly-owned subsidiary in Malaysia, and Bank Mandiri Europe Limited ("**BMEL**"), a wholly-owned subsidiary in London. The Bank is also actively seeking to grow its overseas banking operations. All of its overseas operations are independent profit centres and are managed in their respective countries.

As of 31 December 2024, the Bank's overseas branches and subsidiary had total assets of Rp170.16 trillion (US\$10.57 billion), or 7.01% of its total assets. The Bank's Singapore branch being the largest overseas branch in terms of assets, with total assets of Rp64.92 trillion (US\$4.03 billion).

The Bank's overseas operations focus primarily on trade finance and lending to Indonesia-related customers as well as local customers in certain niche markets and also targets remittance business from overseas workers. Through its overseas offices, the Bank provides trade-related facilities to overseas companies importing from Indonesia. The business will continue to generate significant growth for the Bank, in line with the Government's policy of increasing exports. The Bank also provides offshore lending directly to its Indonesian clients for their international operations and arranges and participates in foreign loan syndications. The Bank generally funds its offshore loans through international foreign currency borrowings or in the international inter-bank money market.

The overseas operations are required to comply with the Bank's central credit procedures and risk assessment criteria as well as all applicable local laws. Each overseas operation has a credit officer on-site. The overseas branches are also required to comply with guidelines and procedures set by Bank Indonesia designed to detect and prevent money laundering. As of 31 December 2024, the Bank developed reciprocal relationships with 956 banks in 76 countries, as well as 61 nostro accounts, which enable the Bank to increase the Bank's business including trade finance and remittances as well as risk-sharing and bilateral financing agreements.

Distribution channels

The Bank has the largest branch network among Indonesian banks. Its distribution network comprises branch offices, sub-branch offices, cash offices, overseas offices, and other office networks such as payment points, mobile cash, and micro mobile cash and ATMs, mobile banking for individuals (Livin' by Mandiri), mobile/internet banking for business (Kopra by Mandiri).

Branch network

The Bank had 4,468 branch banking networks as of 31 December 2024, broken down into 2,192 branches and 2,276 micro branches, supervised by 83 area offices and 12 regional offices throughout all provinces in Indonesia, as well as six overseas branches.

The Bank has also upgraded the capabilities of existing branches and other distribution channels, particularly digital banking channels. In July 2022, the Bank launched 241 Smart Branches by Mandiri simultaneously throughout Indonesia. The Smart Branches by Mandiri have adopted new service features that are customer oriented or customer centric. Through these features, customers who come to Smart Branch by Mandiri experience a fast, easy, safe and reliable banking experience with the support of digital technology.

ATM network

The Bank's ATM network is one of the largest in Indonesia. As of 31 December 2024, the network comprised 12,896 ATMs, with more than 31.97 million ATM cards in circulation. The Bank has ATMs located at all of its branches and cash outlets as well as in shopping centres, office buildings and residential areas.

ATM cardholders can use the Bank's ATMs to withdraw funds, make balance inquiries and acquire a mini statement setting out the four most recent transactions, make payments on certain utility and credit card bills, purchase airline tickets and purchase prepaid phone vouchers, transfer funds (between their accounts including to or to another account holder) and register for electronic banking facilities through SMS, Mandiri Online and Call Mandiri. The Bank has also upgraded its ATMs to enable cash deposit and withdrawal transactions.

As of the end of 2017, the Bank had extended its ATM network through the integration with the vast LINK ATM network owned by Himbara Banks. Himbara is an association of state-owned banks comprising the Bank, PT Bank Negara Indonesia (Persero) Tbk, PT Bank Rakyat Indonesia (Persero) Tbk and PT Bank Tabungan Negara (Persero) Tbk. The Bank's customers can now seamlessly use ATM Merah Putih (Himbara's ATM network brand) as if it were the Bank's own ATM.

Kopra by Mandiri and Livin' by Mandiri

In 2021, the Bank launched Kopra by Mandiri which is a wholesale digital platform that provides digital single access services while also acting as a centre for information and financial transaction activities for the business community of business actors in the wholesale segment. Kopra by Mandiri integrates all wholesale transaction needs into one platform with single sign-on, featuring Cash Management, Forex Transactions, Value Chain Financing, Trade Finance, Smart Accounts and Online Custody. Kopra by Mandiri is equipped with three service variants, namely Kopra Portal, Kopra Host to Host and Kopra Partnership, which are tailored to the needs of customers in the wholesale segment. In 2023, the Bank introduced Kopra Beyond Borders, aimed at facilitating its wholesale customers' transactions both within Indonesia and overseas, through the provision of integrated digital financial services. Kopra Beyond Borders facilitates seamless international transactions and provides a unified view of cash flow and financial transactions, enabling the Bank's customers to monitor their financial health and activities in real time. As of 31 December 2024, the Bank had approximately more than 245,000 active Kopra by Mandiri users as compared to more than 182,000 users as of 31 December 2023. The aggregate value and volume of the transactions via Kopra by Mandiri in 2024 was Rp22,700 trillion and 1,312 million, respectively, as compared to Rp19,450 trillion and 1,084 million, respectively, in 2023.

The Bank also launched Livin' by Mandiri in 2021 for its retail customers, which is a refinement of the Mandiri Online application, to increase the ease and convenience of accessing banking services. This app service exemplifies the concept of a branch in the hand, together with complete financial services (a comprehensive banking experience), integration of services from Mandiri Group subsidiaries (full-suite financial services) and a digital ecosystem of third-party services (an open ecosystem). In June 2023, the Bank expanded its consumer reach by launching Livin' Merchant, an application that offers comprehensive point of sale services. The Livin' Merchant platform aims to digitise payment transactions for MSME merchants. In 2024, the Bank launched a revamped version of Livin' by Mandiri to enhance customer experience with a more seamless, intuitive, and personalised interface. The update includes customisable Livin' homepages, a comprehensive portfolio menu, easier online shopping payments, QRIS access and new stock investment features.

As of 31 December 2024, the Bank had approximately 29 million registered users of Livin' by Mandiri as compared to approximately 23 million registered users as of 31 December 2023. The aggregate value and volume of the transactions via Livin' by Mandiri in 2024 was Rp4,027 trillion and 3.88 billion, respectively, as compared to Rp3,271 trillion and 2.82 billion, respectively, in 2023.

In the year ended 31 December 2024, the Bank processed Rp26,729.79 trillion (US\$1.66 trillion) wholesale and retail transactions (combined), compared to Rp722.61 trillion (US\$44.90 billion) of ATM transactions in 2024. The Bank's increasing volume of digital transactions also improves the Bank's data analytics.

E-money cards

The Bank's e-money card has a dominant market share in prepaid electronic payments, including toll road and parking building payments. By 2024, the Bank had issued 4.98 million Mandiri e-money cards, evidencing a 21.35% increase from 4.10 million in 2023. The transaction volume of e-money cards increased from Rp44.49 trillion in 2023 to Rp50.00 trillion (US\$3.11 billion) in 2024.

Call centre and phone banking

The Bank established Mandiri Call, a comprehensive service designed to assist customers across various banking needs over the phone, e-mail and social media. With a large team, Mandiri Call serves a wide range of banking segments, including micro banking, SME (small and medium enterprises), retail, and corporate banking.

Digital banking and technology

In order to remain competitive in the rapidly evolving technology landscape, the Bank has established and will continue to update its IT strategy, which encompasses several key focuses. Firstly, the Bank has prioritised initiatives aimed at supporting its main digital initiatives in alignment with its Corporate Plan. Secondly, the Bank aims to implement strong frameworks to ensure IT reliability, availability, scalability, and security, while also driving innovation, streamlining processes, and enhancing risk management through the adoption of emerging technologies. Thirdly, the Bank relies on its people-focused programmes that emphasises in building internal expertise to execute its IT strategy.

The Bank seeks to reduce potential risks of error and fraud by enhancing the reliability and availability of its IT systems through stabilisation of the Bank's application channel, straight-through processing and increasing automation of various Bank processes that are integrated with various data analytics and other IT tools. The Bank has also built the API Gateway to drive financial inclusion through Open Banking API to enable collaboration with Indonesia's business ecosystem. The Bank has also developed Virtual Private Cloud (VPC) as an elastic infrastructure and successfully upgraded its core banking infrastructure capacity to anticipate and keep up its business's growth.

In 2024, Kopra by Mandiri underwent a transformation, enhancing both its user experience and user interface to meet global standards, with a focus on delivering a best-in-class user experience and enhanced with artificial intelligence ("AI")-powered cashflow forecasting. Kopra by Mandiri continues to be the leading wholesale solution in Indonesia to address the end-to-end needs of its customers. In 2025, the Bank will continue to innovate by leveraging AI capabilities to drive efficiencies in trade document verification, optimise business operations, and improve transaction risk scoring to help customers better manage potential risks.

The introduction of AI-powered marketing personalisation allows for the curation of tailored offers to customers directly on the home screen, driving increased feature usage. The revamped Livin' Loyalty platform has been designed to reward customer engagement through transactions, challenges, and gamified activities. The Bank believes that this will not only encourage more frequent use by its customers but also allow users to accumulate points, climb membership tiers, and redeem valuable rewards, enhancing their overall banking experience.

Moving forward, Livin' by Mandiri remains steadfast in its commitment to innovation. A primary focus will be developing features designed to engage the next generation of customers, broadening Livin's user base, and bolstering low-cost funding in alignment with the Bank's strategic vision. Moreover, Livin' will leverage AI to provide personalised financial insights, further driving product adoption. Finally, AI integration within chatbots and call centres will create a more efficient and responsive customer support experience, reinforcing its aim to stay at the forefront of innovations in the banking industry.

Cybersecurity

Cybersecurity is the practice of protecting endpoints, networks, data, infrastructure, and application from cyberattacks. These cyberattacks are usually aimed at gaining unauthorised access by using one or more various attack vectors with the intention to cause damage such as accessing, manipulating, or destroying data (including sensitive information) held within systems, extorting money from users or interrupting normal business processes. Implementing reliable cybersecurity measures is particularly challenging today because of technology advancement, emerging risk and attackers are becoming more sophisticated.

As part of the Bank's commitment to protect customer data and ensure cybersecurity resiliency and reliability, the Bank established a dedicated Chief Information Security Officer (CISO) Office Group in 2018 which is directly supervised by C-Level Management (the Director of Information Technology and Director of Risk Management). The CISO Office Group has a cybersecurity framework (comprising the three pillars of Governance, Protection, and Operation) that complies with regulation promulgated by the OJK and Bank Indonesia and follows ISO 27001 and best practices (i.e. NIST Cybersecurity Framework, COBIT Framework, PCI Security Standard, CIS Benchmarks) to ensure that confidentiality, integrity and availability of customer data are maintained. The CISO Office Group also implements a multi-layer defence mechanism that uses best-in-class technology to protect the applications, networks, and systems of the Bank.

As a part of its consistent efforts to improve its cybersecurity system, the Bank has obtained ISO/IEC 27001:2022 certification (Security Operation Center to manage cyber security threats in banking systems and cyber operations, IT Operation related to KOPRA by Mandiri), ISO 27001:2013 (Application Development and IT Operation related to Livin' By Mandiri) and ISO/IEC 17025:2017 (Digital Forensic Laboratory Accreditation by National Accreditation Committee), achieved the highest level of Cyber Security Maturity Assessment by BSSN and has undergone a series of cybersecurity testing and assessment activities (e.g. Penetration testing, Adversarial Attack Simulation Exercise, Social Engineering Exercise, and Table Top Exercise) by independent external assessors to ensure cybersecurity resiliency and reliability.

Competition

The Bank's primary competitors across all principal businesses are other large domestic banks as well as foreign banks operating in Indonesia. The Bank also faces indirect competition from a variety of other types of financial services companies, such as multi-finance and securities companies, savings cooperatives, leasing and factoring companies and venture capital companies, as well as from certain Government-owned or affiliated entities that provide industrial development funding and export/import lending and services. Internationally, the Bank competes with a variety of banks and financial institutions, many of which have extensive worldwide operations, in providing banking and financial services to Indonesian customers with overseas operations. Additionally, the Bank's investment banking, insurance and Syariah banking businesses also face competition from companies that specialise in those industries.

As the development and reform of the Indonesian financial sector continues, the Bank expects to face increasing competition from financial institutions that may offer a wider array of banking services and products or have larger lending limits or stronger balance sheets. In addition, the Bank's domestic competitors have formed, and can be expected to continue to form, strategic alliances with foreign banks with significantly greater financial, management and other resources.

In Corporate Banking, the Bank competes principally on pricing (for both loans and deposits), monitoring relationships and the ability to provide specific solutions to its customers' needs. The Bank's principal competitors in Corporate Banking are state-owned and private banks, such as PT Bank Rakyat Indonesia (Persero) Tbk, PT Bank Negara Indonesia (Persero) Tbk and PT Bank Central Asia Tbk, as well as foreign banks, such as Citibank, HSBC and Standard Chartered Bank.

In Micro and Retail Banking, the Bank competes on service, convenience and the breadth of its branch and retail banking network, which allows the Bank to attract less price-sensitive, low-cost depositors. The Bank's principal competitors are PT Bank Rakyat Indonesia (Persero) Tbk, PT Bank Danamon Indonesia Tbk and PT Bank Tabungan Pensiunan Nasional Tbk.

In treasury advisory services for corporate clients, the Bank typically competes with a number of other Indonesian banks, and foreign banks with branches in Indonesia such as Deutsche Bank and Citibank.

Indonesia has many banks targeting commercial and consumer customers. In commercial and consumer banking, the Bank competes principally on the reach of its distribution network, range of products offered and customer service. In commercial and consumer banking, the Bank's principal competitors are state-owned banks, such as PT Bank Rakyat Indonesia (Persero) Tbk, PT Bank Negara Indonesia (Persero) Tbk, and PT Bank Tabungan Negara (Persero) Tbk. In addition, the Bank also faces competition from private national banks such as PT Bank Central Asia Tbk, PT Bank CIMB Niaga Tbk, PT Bank Danamon Indonesia Tbk, and PT Bank Permata Tbk.

In investment banking, the Bank competes primarily on its well-established institutional and corporate relationships within Indonesia and the historic strength of its Corporate Banking business. The Bank's and PT Mandiri Sekuritas' principal competitors are domestic and regional investment banks, including CIMB, Bahana Securities and PT BRI Danareksa Sekuritas.

In life insurance, the Bank is able to leverage its product expertise and extensive customer base to effectively compete in a highly fragmented market with its joint venture partner National Mutual International Pty. Limited ("**NMI**") (Part of the AXA Group), an internationally-recognised insurance group company. NMI's principal competitors of this joint venture consist of domestic providers and international financial institutions such as PT Prudential Life Assurance, PT Asuransi Allianz Utama Indonesia and PT AIA Financial Indonesia.

In Sharia banking, the Bank's main competitive advantages traditionally consist of brand recognition, Indonesia's largest Sharia service network and a sophisticated operational and risk management function relative to the Bank's competitors in the sector. In Sharia banking, prior to the Merger, the Bank's principal competitors included both Islamic commercial banks and Islamic business units of other large domestic banks, including PT Bank Muamalat Indonesia. Subsequent to the Merger, the Bank is now the controlling shareholder of Bank Syariah Indonesia, which is the leading Syariah bank in Indonesia as of the date of the Offering Circular.

In automotive and motorcycle finance, the Bank is able to build on the extensive market penetration of its joint venture partner, PT Tunas Ridean, one of Indonesia's largest auto dealership networks. The Bank's primary competitors in automotive and motorcycle finance are PT BCA Finance, PT Astra Sedaya Finance and PT Adira Dinamika Multi Finance.

Principal subsidiaries and affiliates

The Bank conducts certain of the Bank's banking activities and all of the Bank's non-banking activities through the Bank's subsidiaries, joint ventures and affiliates, the Bank's principal subsidiaries and affiliates, their business activities and the Bank's ownership interest and investment in each of these companies, as of 31 December 2024 are set out below.

Sharia bank

Bank Syariah Indonesia (formerly known as PT Bank Syariah Mandiri), was established on 1 February 2021, as a result of the merger of three Indonesian Sharia banks (Bank Syariah Mandiri, BRI Syariah, and BNI Syariah). As of 31 December 2024, the Bank holds a majority shareholding stake of 51.47% in Bank Syariah Indonesia.

Securities

Established on 31 July 2000, PT Mandiri Sekuritas is the surviving securities company from the merger of several securities companies, such as Bumi Daya Sekuritas, Exim Securities and Merincorp Securities Indonesia. Mandiri Sekuritas obtained the business as a security portfolio trading intermediary and security portfolio underwriter. As of 31 December 2024, the Bank owns 99.99% of the share capital of PT Mandiri Sekuritas; and 99.99% of the share capital of PT Mandiri Manajemen Investasi (through PT Mandiri Sekuritas), a company which operates in investment management and advisory activities.

Multifinance

PT Mandiri Tunas Finance was established on 17 May 1989 under the name of PT Tunas Financindo Corporation (later renamed PT Tunas Financindo Sarana). Later, in February 2009, the Bank acquired the company and renamed it into PT Mandiri Tunas Finance. As at 31 December 2024, the Bank holds 51.00% of the shareholding and the remaining 49.00% is held by PT Tunas Ridean. Mandiri Tunas Finance is engaged in consumer financing activities.

PT Mandiri Utama Finance is a subsidiary of the Bank which provides financing services covering investment financing, working capital financing, and multipurpose financing, of which the main focus is currently the financing of motor vehicles for retail customers and companies in the form of financing consumers, as well as leasing. As of 31 December 2024, the Bank maintained its 99.99% interest in PT Mandiri Utama Finance.

Insurance

PT AXA Mandiri Financial Services is a joint venture insurance company between the Bank and National Mutual International Pty Limited. As of 31 December 2024, the Bank owned 51.00% ownership in AXA Mandiri Financial Services.

Niche banking

PT Bank Mandiri Taspen was previously known as PT Bank Sinar Harapan Bali (Bank Sinar). Over time, on 3 May 2008, Bank Sinar was officially acquired by the Bank. As of 31 December 2024, the Bank owns 51.10% and PT Taspen owns 48.44% of Bank Mandiri Taspen, respectively, with the remaining 0.47% stake held by other entities.

Venture Capital

Mandiri Capital Indonesia is a venture capital company and was established on 23 June 2015. As of 31 December 2024, the Bank owns 99.99% and PT Mandiri Sekuritas owns 0.01% of Mandiri Capital Indonesia.

Overseas

The Bank's Overseas subsidiaries include: Bank Mandiri (Europe) Limited and Mandiri International Remittance Sdn. Bhd.

As of 2024, the Bank's subsidiaries contributed 11.22% of the Bank's consolidated net income for the year.

Properties

As of 31 December 2024, the total acquisition value, accumulated depreciation, and book value of the property and equipment owned by the Bank are Rp50.38 trillion (US\$3.13 billion), Rp4.37 trillion (US\$0.27 billion) and Rp46.01 trillion (US\$2.86 billion), respectively.

The Bank has land parcels in various locations in Indonesia with land rights in the form of ownership rights of 1,336 certificates with a total area of approximately 2.70 million square metres and building use rights of 125 certificates with a total area of approximately 206,563 square metres, all of which are registered on behalf of the Bank. In addition, the Bank also controls land parcels with land rights in the form of three certificates with an area of approximately 3,132 square metres and building use rights of five certificates with a total area of approximately 6.276 square metres, all of which are still registered on behalf of other parties.

In addition, the Bank also controls land parcels based on other evidence, namely sale and purchase agreements, land use permits, and land use determinations with a total area of 13,916 square metres. Thus, the Bank owns or controls a total land area of approximately 2.93 million square metres.

Intellectual Property

The Bank has registered trademark rights for several bank products, logos and/or services, including, among others: (i) Mandiri's logo in blue, gold, orange, and white colours as a name, (ii) Mandiri's logo with black letters and symbols, as a name, (iii) the phrase "melayani dengan hati, menuju yang terbaik/passion to serve, passion to perform", in a black colour as a tagline, (iv) the phrase "terdepan, terpercaya, tumbuh bersama anda" in a black colour as a tagline, (v) the phrase "satu hati, satu negeri, satu bank/one heart, one nation, one bank" in a black colour, as a tagline, (vi) Mandiri logo in a black letters and symbols, as a name, (vii) Mandiri's logo in blue, gold and orange colours as a name, (viii) Livin' by Mandiri and (ix) Kopra by Mandiri. All of these trademarks are registered in the Directorate General of Intellectual Property Rights. In addition, the Bank also has seven copyrights, among others in the logo of "mandiri" and "PT Bank Mandiri" which are registered in the Bank's name with the certificate numbers as follows: (i) A158786, (ii) A158787, (iii) A158788, (iv) A158789, (v) 043 630, (vi) 043 632 and (vii) 043 633.

As of the date of this Offering Circular, all of the intellectual property owned by the Bank is still valid and not related to any legal disputes.

Insurance

The Bank's policy is to adequately insure all of the insurable properties the Bank owns against fire, earthquake and other usual risks. As of 31 December 2024, the Bank had insured the Bank's buildings, including official residences, office buildings and other buildings, with a total coverage amount of Rp11.42 trillion (US\$0.70 billion), which the Bank believes is adequate to cover the possibility of losses arising in relation to the Bank's buildings.

The Bank also maintains insurance for operational risks such as the loss of cash in transit/cash in safe or risk caused by theft/burglary, RSMDC, Personal Accident, Fidelity Guarantee, earthquake and flood. The Bank does not maintain business interruption insurance covering loss of revenue in the event that the Bank's operations are affected by unexpected events.

As of the date of this Offering Circular, most of the Bank's fixed assets are insured by PT Asuransi Kredit Indonesia (Persero).

Employees

As of 31 December 2024, the Bank had 38,874 employees, of which 34,206 were permanent employees, 4,349 were temporary employees and 319 were trainees. Only the Bank's permanent employees are entitled to participate in pension plans and certain other benefits or be unionised.

The Bank believes that, because of the Bank's reputation as Indonesia's largest commercial bank and the Bank's attractive compensation packages, the Bank is able to attract and retain quality employees. The Bank considers its relations with the Bank's employees to be satisfactory. The Bank maintains and manages five pension funds, of which four were originally established by each of the four predecessor banks. The five pension funds are as follows: (i) Dana Pensiun Bank Mandiri Satu (DPBM-Satu); (ii) Dana Pensiun Bank Mandiri Dua (DPBM-Dua); (iii) Dana Pensiun Bank Mandiri Tiga (DPBM-Tiga); (iv) Dana Pensiun Bank Mandiri Empat (DPBM-Empat); and (v) Dana Pensiun Bank Mandiri (DPBM). Under the rules of all of the above pension funds, the Bank is the founder.

These four pension funds (DPBM-Satu, DPBM-Dua, DPBM-Tiga, and DPBM-Empat) originated from the predecessor banks are defined benefit plans for which the Bank has the ultimate obligation to fund shortfalls. DPBM was, however, established as a defined contribution pension programme. Under this programme, employees are required to pay to the pension fund 5% of their basic pension income. The Bank is required to pay 10% of their basic pension income to the pension fund.

Legal proceedings

As of the date of this Offering Circular, the Bank is involved in a number of legal proceedings in connection with its banking business, and the management of the Bank does not believe that these proceedings, if determined adversely, would have a material adverse effect on its business, financial condition or results of operations.

As of 31 December 2024, the Bank had a total potential financial exposure arising from outstanding legal proceedings amounting to Rp17,849.56 billion (US\$1,109.00 million), and had provided an outstanding provision of Rp67.56 billion (US\$4.20 million) in respect of ongoing or pending litigation proceedings against it. As of the date of this Offering Circular, the management of the Bank believes that the provision is adequate to cover possible losses arising from legal claims against the Bank.

Good corporate governance

The Bank remains committed to upholding the highest standards of corporate governance as a cornerstone of its operations. The Bank's commitment is driven by a steadfast belief that strong governance practices are essential to maintaining the trust of its stakeholders, ensuring long-term sustainability, and fostering a culture of transparency and accountability throughout its organisation.

To manifest good corporate governance practices, the Bank adheres to the basic principles of corporate governance in accordance with the Indonesia Corporate Governance General Guidelines that have been updated by the Governance Policy National Committee (KNKG), namely Ethical Conduct, Accountability, Transparency, and Sustainability.

The organs of the Bank consist of the General Meeting of Shareholders (GMS), the Board of Commissioners and the Board of Directors. Its administration adopts a two-tier system, namely Board of Commissioners and Board of Directors, who have specific authority and responsibility based on their respective functions as specified in the Articles of Association and the laws and regulations.

The Bank will continue to implement good corporate governance, by referring to a number of relevant regulations and guidelines for GCG (best practices) implementation developed by both national and international institutions.

The implementation of the Bank's GCG is based on a governance framework which consists of three governance aspects:

- (1) governance structure;
- (2) governance process; and
- (3) governance outcome.

Corporate social responsibility

The social and environmental responsibility programme ("**SER Programme**") implements corporate social responsibility ("**CSR**") in the Bank. As part of the Bank's business approach, the social and environmental responsibility programme of the Bank reflects its commitment to sustainable development by providing economic, social, environmental, legal and governance benefits based on the principles of integration, purpose, scalability and accountability.

With regard to the social and environmental responsibility distribution guidelines, the SER Programme aims to:

- provide benefits for economic, social, environmental, legal and corporate governance development;
- contribute to value creation for the Bank through the principles of integration, purpose, scalability and accountability; and
- empower micro and small businesses as well as the community around the Bank to be more resilient and independent.

The SER Programme is based on the following four pillars:

- Social responsibility – for the achievement of quality basic human rights in a fair and equal manner to improve the welfare of the whole community;
- Environmental responsibility – for the sustainable management of natural resources and the environment as whole;
- Economic responsibility – for the achievement of quality economic growth through sustainable employment and business opportunities, innovation, inclusive industry, adequate infrastructure and affordable clean energy, through the support of partnerships; and
- Legal and governance responsibility – for the realisation of legal predictability as well as effective, transparent, accountable and participatory governance to create security stability and strengthen the rule of law.

The SER Programme is carried out by applying the following principles:

- Integrated – based on risk analysis and business processes that are related to stakeholders;
- Purposeful – having clear direction as to how to achieve the Bank's goals;
- Scalable – contributing and providing benefits that generate positive improvements or added value for stakeholders and the Bank; and
- Accountable – preventing the potential for misuse and irregularities.

RISK MANAGEMENT

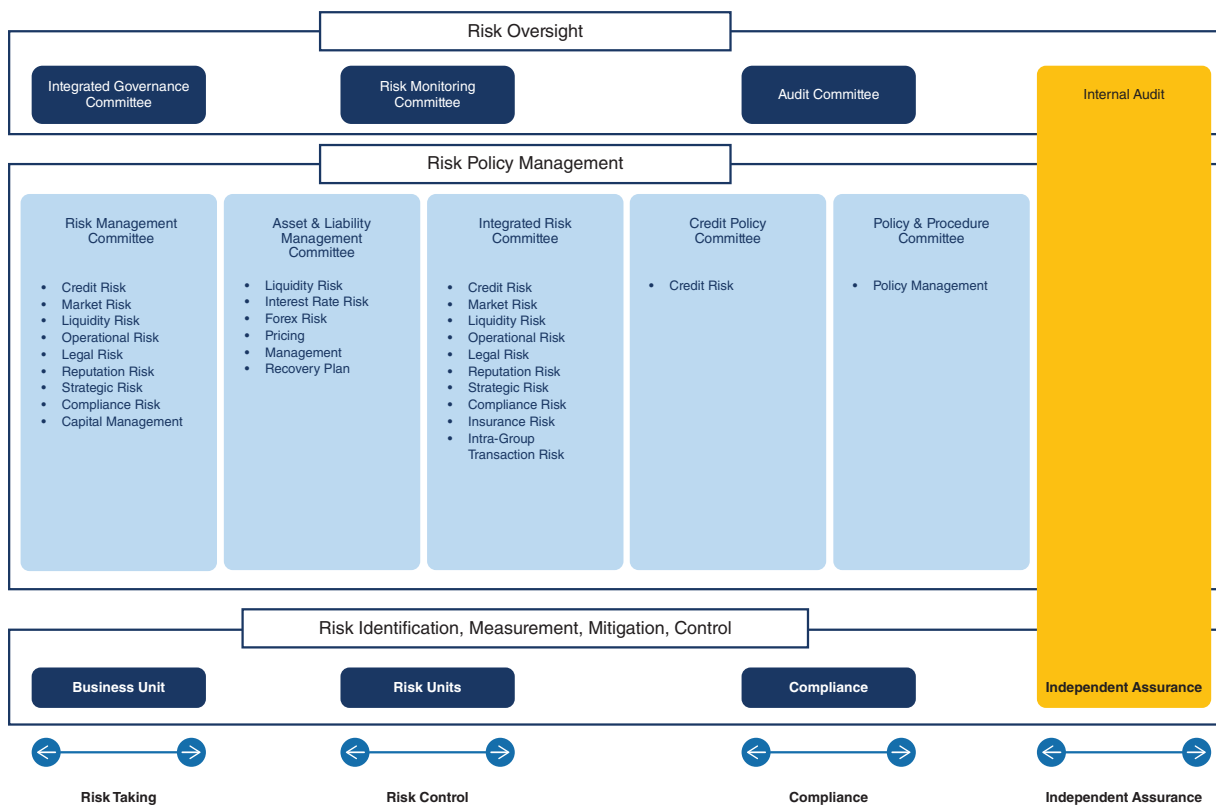

Risk Management

The Bank's risk management principles are conducted proactively to achieve a healthy and sustainable financial and operational growth as well as to take care of the optimal risk-adjusted return level in accordance with the desired risk appetite. As a manifestation of the Bank's commitment in conducting a good company management practice, particularly in risk management, the Bank has established policy, process, competency, accountability, reporting and supporting technology in order to make the risk management in the Bank effective and efficient.

Risk Management Framework

The Bank's risk management framework is stipulated in the risk governance structure of the Bank and encompasses three main parts which are Risk Oversight, Risk Policy & Management, and Risk Identification, Measurement Mitigation, and Control. These components are then supported by the Audit Working Unit as independent assurer to guarantee the effectiveness of the risk management implementation.

The work and risk governance framework of the Bank as mentioned above is illustrated in the diagram as follows:

In addition to the committees above, there are other committees that are not directly related to the implementation of Governance, Risk, Compliance (GRC), but oversee/manage specific risks (e.g., Business, IT & Digital, HC, Transformation, Social & Environment Responsibility Committee).

Risk management system

Four pillars of risk management implementation

The Bank applies four pillars of Risk Management implementation, as follows:

Active monitoring by the Board of Commissioners and the Board of Directors

The Board of Commissioner of the Bank performs the risk oversight role through the Audit Committee, Risk Monitoring Committee (*Komite Pemantau Risiko*) (“**KPR**”) and Integrated Governance Committee (*Komite Tata Kelola Terintegrasi*) (the “**KTKT**”). The Board of Directors of the Bank is responsible for Risk Policy & Management through various Executive Committees, including the Risk Management Committee, Asset & Liability Committee, Integrated Risk Committee, Credit Policy Committee, and Policy & Procedure Committee. At the operational level, risk management working units carry out risk management activities (identification, measurement, mitigation and control) together with the relevant business units and compliance unit.

Duties of the Board of Commissioners

The duties, responsibilities, and authorities of the Board of Commissioners in relation to the active monitoring of Risk Management activities includes the following:

1. Evaluating and approving the Risk Management Policy;
2. Evaluating the strategies formulated and determined by the Board of Directors in managing risks in accordance with regulatory taxonomy and other risks such as country risk and cyber risk;
3. Evaluating the Board of Directors’ responsibility for the implementation of the Risk Management Policy;
4. Evaluating and deciding the Board of Directors’ application related to transactions that require the approval of the Board of Commissioners;
5. Requesting explanation and/or accountability of the Board of Directors on Financing to certain large borrowers;
6. Providing approval for funding to related parties;
7. Conducting active oversight, which includes, among other things, understanding the nature and level of risks faced by the Bank, assessing the adequacy of risk management quality, and linking the risk level with the Bank’s capital adequacy;
8. Conducting active supervision related to anti-fraud measures, which includes at least the following:
 - a. Developing anti-fraud awareness and culture at all levels of the organisation, including anti-fraud declarations and clear communication about behaviors categorized as fraud;
 - b. Ensuring the signing of an integrity pact by all organisational ranks of the Bank;
 - c. Preparing and supervising the implementation of a code of conduct related to fraud prevention for all levels of the organisation;
 - d. Preparing and supervising the implementation of a comprehensive anti-fraud strategy;

- e. Developing the quality of human resources (HR), particularly those related to enhancing awareness and control of fraud;
 - f. Monitoring and evaluating fraud incidents and determining follow-up actions; and
 - g. Developing effective communication channels for the Bank's internal and external parties, ensuring that all executives and employees understand and comply with the applicable policies and procedures, including those for fraud control.
9. Providing approval, oversight and evaluation on the implementation of the Recovery Plan.
 10. For the Resolution Plan, the Board of Commissioners shall:
 - a. Supervise to ensure the Bank fulfils its obligations in preparing, improving, and/or taking corrective actions based on the resolvability assessment results of the Resolution Plan;
 - b. Evaluate the Resolution Plan, its improvements, and/or updates prepared by the Board of Directors;
 - c. Approve the Resolution Plan, its improvements, and/or updates;
 - d. Supervise the implementation of plans to address potential obstacles in executing resolution action options.
 11. Maintaining and monitoring the Bank's soundness rating and taking the necessary measures to maintain and/or improve the Bank's soundness rating.

To implement risk management as regulated by the Ministry of State-Owned Enterprises, the Board of Commissioners is responsible for determining the Bank's Risk Classification based on the level of Risk Intensity. This assessment takes into account the size and complexity of the Bank, as proposed by the Board of Directors, in accordance with applicable regulations.

In the implementation of Integrated Risk Management, the Board of Commissioners is responsible for the following:

1. Directing, approving, and evaluating the Integrated Risk Management policy;
2. Evaluating the implementation of the Integrated Risk Management policy by the Board of Directors of the Main Entity;
3. Ensuring the implementation of Integrated Risk Management is in line with the characteristics and complexity of the Financial Conglomerate's business.

Duties of the Board of Directors

The duties, responsibilities and authorities of the Board of Directors in relation to risk management activities includes the following:

1. Developing and proposing Risk Management policies and strategies in writing and comprehensively.
2. Being responsible for the implementation of the Risk Management Policy and managing the risk exposure taken by the Bank as a whole.

3. Evaluating and deciding on transactions that require the approval of the Board of Directors.
4. Developing a culture of Risk Management at all levels.
5. Actively supervising the Board of Directors regarding anti-fraud measures, in line with the duties and responsibilities of the Board of Commissioners.
6. Ensuring the improvement of human resource competencies related to Risk Management.
7. Ensuring that the Risk Management function operates independently.
8. Conducting periodic reviews to ensure:
 - a. The accuracy of the risk assessment methodology.
 - b. The adequacy of the Risk Management information system implementation.
 - c. The accuracy of Risk Management policies and procedures, as well as the setting of risk limits and/or risk thresholds.
9. Conducting active supervision, which includes, among other tasks, understanding the nature and level of risks faced by the Bank, assessing the adequacy of the quality of risk management, and linking the risk level with the Bank's capital adequacy.
10. Developing and implementing the Bank's Recovery Plan, which includes:
 - a. Preparing a realistic and comprehensive Recovery Plan.
 - b. Presenting the Recovery Plan to shareholders at the General Meeting of Shareholders (GMS) for approval.
 - c. Communicating the Recovery Plan across all levels of the Bank's organisation.
 - d. Regularly evaluating and conducting stress testing of the Recovery Plan.
 - e. Effectively and promptly implementing the Recovery Plan.
11. Developing and implementing a Resolution Plan, which includes:
 - a. Preparing, improving, and/or taking corrective actions on the Resolution Plan based on the results of the resolvability test, adhering to the principles of completeness, accuracy, timeliness, and integrity.
 - b. Ensuring the accuracy and completeness of data, information, and/or documents in preparing, improving, and/or taking corrective actions based on the results of the resolvability test.
 - c. Submitting the Resolution Plan, improvements, and/or updates to the Board of Commissioners for approval.

- d. Submitting the Resolution Plan, improvements, and/or corrective actions based on the results of the resolvability test to the Deposit Insurance Corporation within the specified timeframe set by applicable regulations.
 - e. Implementing plans to address potential obstacles in executing resolution action options.
12. Maintaining and monitoring the Bank's Soundness Rating and taking the necessary measures to maintain and/or improve it.
 13. Implementing other Risk Management functions in accordance with laws and regulations, the articles of association, and/or decisions made by the General Meeting of Shareholders (RUPS) or the Minister of State-Owned Enterprises (SOEs).

To implement risk management in accordance with that regulated by the Ministry of SOEs, the Board of Directors also has the duty to determine the classification of Subsidiary Company Risks based on the level of Risk Intensity, taking into account the dimensions of size and complexity, in accordance with applicable regulations.

In order to implement the integrated risk management policies, the Board of Directors is responsible for the following:

- (1) develop written and comprehensive risk management policy and strategy;
- (2) implement the established integrated risk management policy;
- (3) develop a risk culture as part of implementing integrated risk management in financial conglomerates;
- (4) ensure the effectiveness of human resource management which includes the competence, qualifications and adequacy of human resources in the Main Entity to carry out the integrated risk management function;
- (5) ensure that the implementation of integrated risk management has been carried out independently;
- (6) periodically evaluate the results of the integrated risk management unit review of the integrated risk management process; and
- (7) ensure the implementation of integrated risk management in accordance with the characteristics and complexity of the financial conglomerates business.

Sufficiency of policies, procedures, and determination of limits

The Bank has the Risk Management Policy as the main guidelines in implementing risk management. Specific business units, such as credit, treasury and operations units, are subject to more specific policies and procedures where the limit setting for portfolio and transactional levels is regulated. All policies and procedures in the Bank are evaluated and updated at least once a year.

In accordance with OJK Circular No. 34/SEOJK.03/2016 on the Implementation of Risk Management for Commercial Banks, to effectively control risk, the Bank's policies and procedures must reflect its risk management strategies by considering the risk appetite. Risk appetite is defined as the types and level of risk the Bank would take/face that is within the Bank's capacity to manage, to achieve business goals.

The Bank's Risk Appetite is realised through the Risk Appetite Framework, a strategic decision-making approach that illustrates the Bank's risk strategy. Risk Appetite is reflected in the Bank's business strategy and objectives.

Risk Appetite is articulated in the form of a Risk Appetite Statement (RAS), which serves as the formal guideline in the risk-taking process to achieve business targets. The RAS is crucial as it offers clear and consistent direction to all levels of the Bank regarding its capacity for risk-taking.

Adequacy of risk identification, measurement, monitoring, and control process and risk management information system.

The Bank has implemented an Identification, Measurement, Monitoring, Risk Control, and Risk Management Information System through an Enterprise Risk Management ("ERM") platform. The Bank implements ERM with a two-prong approach, to ensure that risks are properly mitigated in both day-to-day business processes and under unexpected conditions and downturns through capital reserves.

Internal control system

The Bank operates an internal control system over the risk management function by implementing the three lines models policy, which in its implementation is the joint responsibility of the first line, second line and third line.

The Bank requires the relevant business units to adhere to three lines of defence with the following conditions:

- (1) the business unit as the risk owner is the first line of defence responsible for its risk management;
- (2) the risk management unit serves as a second line of defence, in an oversight function; and
- (3) the internal audit unit serves as the third line of defence that performs assurance and consulting activities on the adequacy of the Bank's internal control system, risk management, and governance processes pursuant to prevailing laws and regulations, as well as Bank policies.

Risk management principles

The Bank adheres to the following risk management principles:

- (1) **Capital.** The Bank provides capital according to the risk appetite and maintains the capital level in accordance with prevailing regulations. As of 31 December 2024, the Bank's total capital adequacy ratio ("**CAR**") was 20.10%.
- (2) **Transparency.** The Bank transparently conveys relevant information in the risk-taking process and risk-taking process itself.
- (3) **Independence.** The Bank's management acts professionally and is free from the pressure and influence of other parties.
- (4) **Integrated.** The Bank applies the Integrated Risk Management to Financial Services Institutions that are members of the financial conglomerates of the Bank in accordance with regulatory provisions.

- (5) **Sustainable.** Risk control is continuously developed to better fit with existing business conditions and best practices.
- (6) **Accountability.** The Bank implements policies and procedures to ensure management accountability to stakeholders.
- (7) **Responsibility.** The Bank acts on the principles of prudence and compliance with applicable laws and regulations.
- (8) **Fairness.** The Bank considers the interests of all stakeholders based on the principles of fairness and equality (equal treatment).

Basel II and III

The Implementation of Basel II and ERM

Implementation Aspect	Scope of Implementation
Credit Risk	Development and Improvement of Basel II Risk Parameters for the implementation of Internal Rating Based Approach.
Market Risk	Measurement of treasury transaction risks, Treasury trading limits, treasury system infrastructure and implementation of Interest Rate Risk in the Banking Book (“ IRRBB ”).
Liquidity Risk	Improvement of liquidity limits, core deposit analysis, Risk Appetite Statement, liquidity stress testing, and improvement of Assets and Liabilities Management (“ ALM ”) System.
Operational Risk	Development of Framework and Governance Operational Risk Management (“ ORM ”).
Capital Management	Improvement of Economic Capital model, and development of framework Portfolio Optimisation and Capital Optimisation.
Internal Capital Adequacy Assessment Process (“ICAAP”)	Implementation of Risk Appetite Statement, Stress Testing, Capital Planning, and synchronisation with related regulation of Risk Based Bank Rating (“ RBBR ”).

Application of Basel II and III

A summary of the application of Basel II by the Bank is set out in the table below.

Basel II			OJK Regulation	Implementation by the Bank
Pillar 1	Credit Risk	Standardised Approach	OJK Circular No. 42/SEOJK.03/2016 on Calculation of Credit Risk-Weighted Assets (“ RWA ”) Using Standardised Approach for Commercial Banks (now superseded by OJK Circular No. 24/SEOJK.03/2021 – see “– <i>Basel III Reforms</i> ” below)	Implemented and reported in accordance with applicable regulation starting January 2012 (reporting position as of December 2011).
		Internal Rating Based Approach	–	Implementation of the Probability of Default, Loss Given Default and Exposure At Default models as the calculation of Expected Credit Loss in accordance with PSAK109 standards.
	Market Risk	Standard Method	OJK Circular No. 38/SEOJK.03/2016 on Calculation of Capital Adequacy with Market RWA (now superseded by OJK Circular No. 23/SEOJK.03/2022)	Implemented and reported in accordance with applicable regulation starting August 2012 (reporting position as of December 2012).
	Operational Risk	Basic Indicator Approach (“ BIA ”)	OJK Circular No. 24/SEOJK.03/2016 on Calculation of Operational RWA using BIA (now superseded by OJK Circular No. 6/SEOJK.03/2020)	Implemented and reported in accordance with applicable regulation, starting February 2010 (reporting position as of January 2010).
Pillar 2	ICAAP	OJK Circular No. 26/SEOJK.03/2016 on CAR Requirement Based on Risk Profile & Capital Adequacy Maintained Assets (CEMA)	<ul style="list-style-type: none"> The ICAAP methodology embodies the implementation of Risk Appetite Statement, Stress Testing, Capital Planning and synchronisation with the regulation related to Risk Based Bank Rating (RBBR). Implemented and reported periodically starting from June 2016 (reporting position as of May 2016). 	
Pillar 3	Disclosure	OJK Circular No. 9/SEOJK.03/2020 on Transparency and Publication of Commercial Banks’ Reports (“ SEOJK 9/2020 ”)	The Bank has implemented risk exposure and capital disclosure in accordance with SEOJK 9/2020 starting September 2020 and previously implemented in accordance with consultative paper starting from January 2013.	

A summary of the application of Basel III by the Bank is set out in the table below.

Basel III		Current OJK Regulation	Implementation by the Bank
CAR & Buffer	CAR Risk Profile & Capital Conservation	OJK Regulation No. 27 of 2022 and OJK Regulation No. 34/POJK.03/2016, both amending OJK Regulation No. 11/POJK.03/2016 on Minimum Capital Adequacy Requirements for Commercial Banks	Has been implemented in stages since 1 January 2016 in accordance with applicable OJK and Bank Indonesia regulations.
	Countercyclical Buffer	Bank Indonesian Regulation No. 17/22/PBI/2015 on Mandatory Countercyclical Buffer	
	SIB Capital Surcharge	OJK Regulation No. 5/POJK.03/2014 on the Determination of Supervisory Status and Handling of Issues in Commercial Banks	
Liquidity Ratio	Liquidity Coverage Ratio (“LCR”)	OJK Regulation No. 42/POJK.03/2015 on Liquidity Coverage Ratio as amended by POJK No. 19 of 2024	Implemented and Reported since December 2015
	Net Stable Funding Ratio (“NSFR”)	OJK Regulation No. 50/POJK.03/2017 on Net Stable Funding Ratio as amended by POJK No. 20 of 2024	Implemented and Reported since January 2018.
Leverage Ratio	Leverage Ratio	OJK Regulation No. 31/POJK.03/2019 on Leverage Ratio for Commercial Banks	The calculation has been reported since March 2015.
Securitisation	Securitisation	OJK Regulation No. 11/POJK.03/2019 on Prudential Principles in Asset Securitisation Activities for Commercial Banks	Implemented and reported in accordance with the applicable OJK regulation, starting from April 2019.
Large Exposures	Large Exposures	OJK Regulation No. 32/POJK.03/2018 on Maximum Amount in Credit Lending and Large Exposure for Commercial Banks	Implemented and reported in accordance with the applicable OJK regulation, starting from June 2019.
Interest Rate Risk in the Banking Book	Interest Rate Risk in the Banking Book	OJK Circular No. 12/SEOJK.03/2018 on Risk Management and Risk Measurement Standard Approach for Interest Rate Risk in the Banking Book for Commercial Banks	Implemented and submitted starting from June 2019.

In order to provide added value to stakeholders and as a form of the Bank’s compliance in fulfilling the capital adequacy requirements set by regulators, the Bank always guarantees and ensures that the capital structure is strong enough to support the Bank’s current business development strategy and maintain business sustainability in future.

The Bank’s risk management policies in the capital aspect includes diversifying capital sources in accordance with long-term strategic plans and efficient capital allocation in business segments that have an optimal risk-return profile (including placements with Subsidiaries). This aims to meet the expectations of stakeholders including investors and regulators.

The Bank ensures that it has sufficient capital to cover credit risk, market risk and operational risk, both based on regulatory capital and internal requirements (based on the ICAAP). In accordance with OJK Regulation No. 27 of 2022 and OJK Regulation No. 34/POJK.03/2016 (both of which amend OJK Regulation No. 11/POJK.03/2016 on Minimum Capital Adequacy Requirements for Commercial Banks), the Bank has fulfilled the additional capital buffer as required, namely capital conservation and capital surcharge (where the countercyclical buffer is set at 0% by Bank Indonesia). The Bank refers to OJK regulations and Bank Indonesia regulations as well as international best standards (Basel II & Basel III) in calculating the minimum capital adequacy for credit risk, market risk, operational risk and other risks.

With regard to the calculation of the minimum capital adequacy under Pillar 1 of Basel II, the Bank uses the Basel II Standardised Approach and has included the External Rating component in calculating RWA for credit risk.

The Bank also manages a model that is in line with the Advanced Internal Rating Based Approach (A-IRB Approach) concept, namely the Basel II Risk Parameter component consisting of the Probability of Default, Loss Given Default and Exposure At Default models for the wholesale, retail and consumer segments. These models are used in the framework of Expected Credit Loss which is required in calculating Allowance for Impairment Loss based on IFRS 9 (PSAK 109).

For market risk, the Bank uses the Basel III Standardised Approach and internally uses Value at Risk. For operational risk, the Bank refers to the Basel II BIA.

The Bank regularly perform internal stress testing which is carried out periodically aims to measure the impact of worsening macroeconomic factors on the Bank's financial conditions, as well as prepare relevant mitigations for any potential threats that may arise. The scenarios and assumptions for the Bank's internal stress testing, as prepared by Office of Chief Economist, are based on current global economic challenges due to, *inter alia*, increase of uncertainties from the Russia-Ukraine war, supply chain disruptions, significant increase in benchmark rate to curb inflation especially in developed countries, capital outflow from emerging markets, global economic slowdown, and the potential for stagflation or recession. These in-depth analyses are used to help the Bank in prioritising contingency plans, such as managing allowance for impairment losses and evaluating portfolio and relationship strategy.

In addition, the Bank periodically conducts bottom-up stress testing, where the supervisor reviews the Bank's capital adequacy and contingency plans in particularly adverse scenarios. As of the date of this Offering Circular, the Bank has managed to maintain its capital level above internal and regulatory threshold in past stress testing cycles.

As part of implementing Basel III in Indonesia, the Bank has reported the fulfilment of monthly LCR and the fulfilment of quarterly NSFR, as well as conducting quarterly Leverage Ratio calculations in accordance with OJK regulations. The Bank has also implemented Interest Rate Risk in the Banking Book ("**IRRBB**") standards as prescribed by Basel and the OJK pursuant to OJK Circular No. 12/SEOJK.03/2018 on Implementation of Risk Management and Risk Measurement in the Standard Approach for Interest Rate Risk in the Banking Book (IRRBB) for Commercial Banks. The scope of implementation includes integrating IRRBB into the Bank's internal risk management policies, reviewing measurement methodologies, setting up internal limits, and improving systems and tools used to manage the risk.

As part of the implementation of Basel II/Basel III Pillar 3 – Market Disclosure, the Bank discloses information on risk exposure and the Bank’s capital in accordance with the Basel Committee on Banking Supervision document related to the revised Pillar 3 disclosure requirements, OJK Regulation No. 37/POJK.03/2019 and OJK Circular No. 9/SEOJK.03/2020, both on Transparency and Publication of Commercial Banks. The disclosure of the Bank’s risk exposure and capital has been made publicly available on the Bank’s website (<https://bankmandiri.co.id/en/home>) and the published reports include Leverage Ratio, Disclosure of Capital, Disclosure of Capital and Quantitative & Qualitative Information on Risk Exposure and Key Metrics reports.

Basel III Reforms

A summary of the application of latest Basel III framework (the “**Basel III Reforms**”) by the Bank is set out in the table below.

Basel III Reforms		OJK Regulation	Implementation by the Bank
Credit RWA	Credit RWA with Standard Approach	OJK Circular No. 24/SEOJK.03/2021 on Calculation of Credit RWA using Standard Approach for Commercial Banks (“ SEOJK 24/2021 ”)	The first calculation Credit RWA according to this OJK circular has been reported in respect of the position of January 2023.
Operational RWA	Operational RWA with Standard Approach	OJK Circular No. 6/SEOJK.03/2020 on Calculation of Operational RWA using Standardised Approach for Commercial Banks (“ SEOJK 6/2020 ”)	The first calculation of Operational RWA according to this OJK circular has been reported in respect of the position of year 2023.
Market RWA	Market RWA with Standardised Approach	OJK Circular No. 23/SEOJK.03/2022 on Calculation of Market RWA using Standardised Approach for Commercial Banks (“ SEOJK 23/2022 ”)	The first calculation of Market RWA according to this OJK circular has been reported in respect of the position of January 2024.
Exposure to Central Counterparty (CCP)	Exposure to Central Counterparty (CCP)	OJK Circular No. 16/SEOJK.03/2023 about the Calculation of Capital for Banks’ Exposure to Central Counterparty Institutions	Has been implemented and reported in accordance with the applicable SEOJK, starting from the position in September 2024.

In finalising its Basel III supervisory framework, the Basel Committee on Banking Supervision has implemented new rules for measuring credit, operational and market risk. Following a one-year deferral to increase the operational capacity of banks and supervisors in response to the Covid-19 pandemic, the reforms of Basel III for Credit RWA and Operational RWA calculations are effective from January 2023 based on SEOJK 24/2021 and SEOJK 6/2020. Meanwhile the reforms of Basel III for Market RWA calculations are effective from January 2024 based on SEOJK 23/2022.

In implementing the Basel III Reforms, the Bank has already performed enhancement on the ERM System and Operational Risk Management System to make sure that the process will produce calculation accurately and effectively. The calculation of Credit, Operational, and Market RWA, based on the Standardised Approach according to SEOJK 24/2021, SEOJK 06/2020, and SEOJK 23/2022 which adopts the Basel III Reforms, aims to make the Credit, Operational, and Market RWA more risk sensitive and granular.

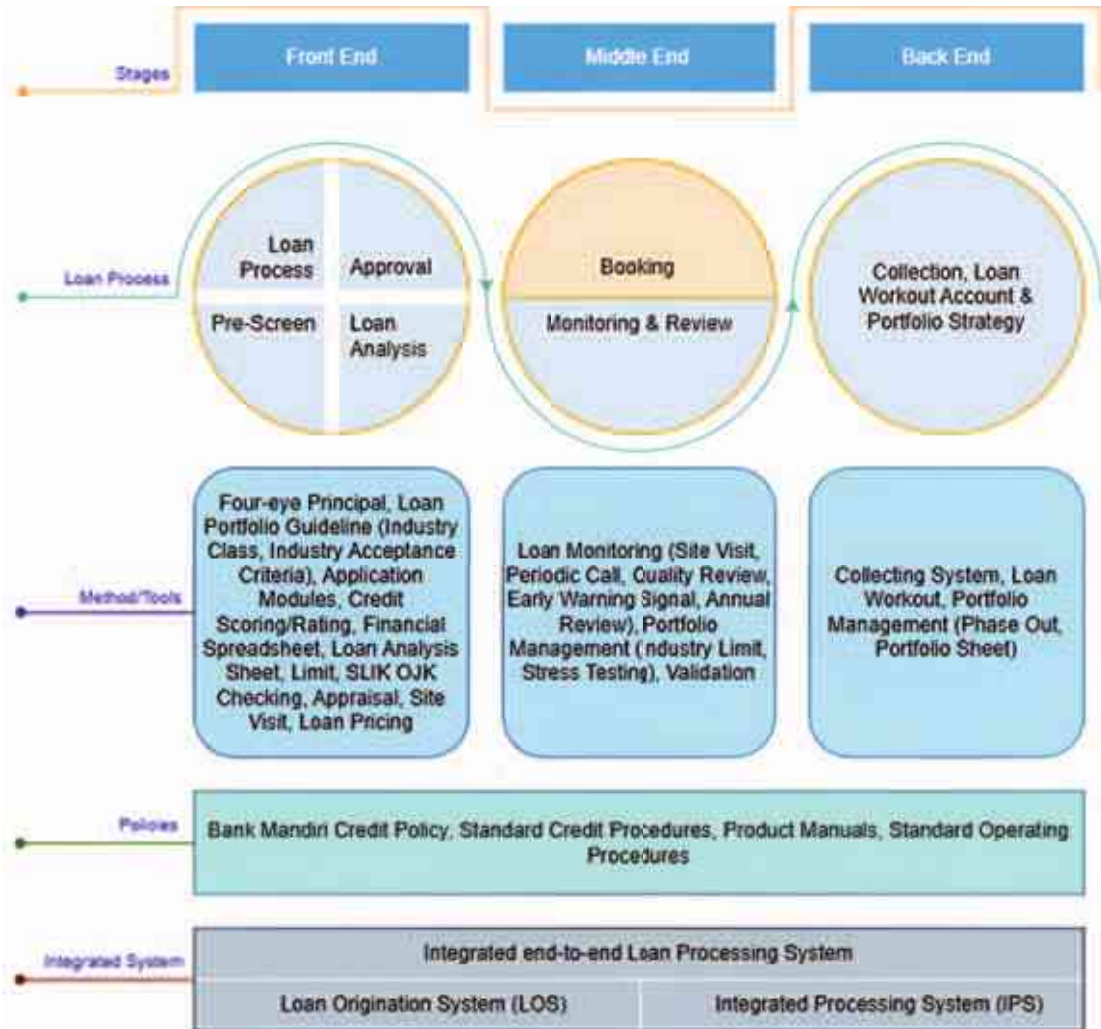

Types of risk

The Bank manages ten risk types:

Credit risk

The Bank’s loan management process began with determining the target market and continued by conducting risk assessment and monitoring of loan approval. In extending loans, the Bank prioritises the principles of prudence by placing the credit analysis function performed by the independent business unit and the credit risk unit, through the “four-eyes” principle. The Bank is guided by the Bank Mandiri Credit Policy in managing credit risk on an end-to-end basis. Operationally, this policy is set forth in the Bank’s standard credit procedures and Product Manual.

In implementing risk management of credit concentration at the debtor level, the Bank consistently monitors the legal lending limit (“**BMPK**”). In general, credit process and credit risk management at the Bank are conducted on an end-to-end basis and integrated by business unit, credit operation unit and credit risk management unit. The following is the credit risk management scheme.

Market risk

The Bank's market risk management is carried out by an independent unit that is in line with the segregation of duties principle. Market risk in relation to the Bank's trading book and banking book are managed separately.

The Bank Mandiri Risk Management Framework was developed on the basis of internal and external factors including but not limited to bank business, regulatory requirements, methodological developments based on global best practices, and risk data analysis. The authority and responsibility associated with the implementation of risk management were regulated in the Bank's Risk Management Policy ("**KMNR**").

As for the guidance in the implementation of market risk management, both the Bank's trading book and banking book portfolios are regulated in its Standard Procedures of Treasury ("**SPT**") and Standard Procedures of Asset & Liability Management ("**SP ALM**").

Market risk – Trading book

In relation to the Bank's trading book activities (or its purchase and sale of securities and other financial instruments), market risk arises from potential losses resulting from changes in interest rates and exchange rates, including derivatives instruments. In line with the segregation of duties principle, the following units manage this particular market risk:

- (a) the front office unit (Treasury) is the transaction-implementing unit;
- (b) the middle office unit (Risk Management) is responsible for monitoring, assessing and reporting risks arising from any trading activities performed by the Treasury unit; and
- (c) the back-office unit (Operations) is responsible for recording and valuing all exposures from daily trading activity using market rates from independent sources.

Market risk – Banking book

Banking book market risk arises because changes in interest rates and exchange rates may affect banking book activities (i.e. the Bank's acceptance of deposits, borrowing and lending money and sale of assets in relation to its lending activities and outside its trading activities) and adversely affect the Bank's profitability (earnings perspective) and the economic value of its capital (economic value perspective). Management of the Bank's banking book market risk is carried out by optimising its balance sheet structure to obtain maximum returns in accordance with the targeted level of acceptable risk. In addition, the Bank also sets limits for internal provisions and provisions under applicable laws and regulations which are monitored periodically by the relevant work unit.

Liquidity risk

Liquidity risk is the risk that the Bank will be unable to meet maturing obligations from cash flow funding sources and/or from high-quality liquid assets that can be pledged, without disrupting the Bank's activities and financial condition. In order to manage liquidity risk in a measured and comprehensive manner, the Bank implements the following strategies:

- (a) Determine limits that refer to internal provisions and regulatory provisions;
- (b) Perform periodic liquidity risk stress testing to determine the impact of changes in market factors and internal factors on extreme conditions (crises) on liquidity conditions;
- (c) Arrange and conduct periodic reviews of the Bank's Liquidity Contingency Plan ("LCP") and Recovery Plan that regulate its procedures to encounter deteriorating liquidity conditions including alternative funding strategies. The determination of liquidity conditions and financing strategies in the LCP and Recovery Plan has considered internal and external conditions; and
- (d) Monitor external indicators, for instance indONIA, USD interbank, Rupiah interest rate, yield from SUN and UST with a 10-year tenor, Outstanding IDR banking liquidity, USD/IDR exchange rate, credit spread of default swaps (CDS), Composite Stick Price Index (CSPI), as well as current market information. This monitoring aims to increase awareness of less stable economic conditions, either due to a global crisis or various domestic issues.

Operational risk

Operational risk arises from inadequacy and/or malfunction in internal processes, human error, system failure, and/or external events that affect the Bank's operations.

Operational risk exists inherently in every product/activities/operational process of the Bank. Failure to manage operational risk in the product/activity/process will have a negative impact on the Bank both in financial and non-financial terms and also may trigger other risks.

Operational risk may give rise to other risks such as reputational risk, strategic risk, legal risk, market risk, credit risk, compliance risk and liquidity risk. Effective and consistent operational risk management is critical to minimise the emergence of other risks.

Implementation of operational risk management involves all Bank units and stakeholders, including its Board of Directors with active monitoring of the Board of Commissioners. The Board of Commissioners and the Board of Directors understand the risks faced by the Bank and play an important role in supporting and monitoring the success of its implementation across all operational work units.

Organisations in operational risk management consist of:

- (a) the Risk Management & Credit Policy Committee, a Board of Directors committee performing the supervisory function of risk control and management, among others, through preparation, the adjustment and/or improvement of risk management policies;
- (b) the Director in charge of risk management function, who holds duties and responsibilities in formulating the risk management policy, strategy and framework;
- (c) the Internal Audit Unit is responsible for carrying out independent assurance function to ensure that all lines of defence are functioning effectively and properly;

- (d) the Operational Risk Group is responsible for formulating and evaluating policies, strategies, frameworks and operational risk management tools and system as well as communicating these to the rest of the Bank. It is also responsible for calculating operational risk capital (or the operational risk reserve);
- (e) the Operational Risk Management Unit (Senior Operational Risk by Business Area) is the unit responsible for implementing operational risk management policies, strategies, frameworks, tools, and system in collaboration with the Risk & Control Owner, implementing control testing, addressing any incidents and issues that arise and the monitoring and fulfilment of action plans;
- (f) each working unit is the Risk & Control Owner that is fully responsible for operational risk management and ensuring the effectiveness and compliance of control measures in every operational activity and to comply with the applicable regulation.

The process of managing operational risk is carried out through the stages of risk identification, risk assessment, risk monitoring, and risk mitigation. These stages become the foundation of the Risk & Control Owners as they pursue their assigned task areas and advance the Bank's business goals. The Bank also routinely conducts control testing to ensure that all control activities have been carried out, detect any weaknesses, and make improvements so that the control becomes effective, resulting in measurable and acceptable risks for the Bank.

Legal risk

Legal risk arises as the result of lawsuits and/or weaknesses in the juridical aspect that arise due to the absence of supporting laws and regulations or inadequacy of contract with other parties such as non-fulfilment of the legality of contract. Risk management mechanisms including the process of identification, measurement, and control and monitoring referred to the applicable provisions on risk management. Each work unit must identify and manage the risks, including but not limited to legal risks, that attach to any product or activity created or executed by the Bank, so as not to have a widespread impact and trigger other risks, including but not limited to reputational risk.

Reputational risk

Reputational risk arises as a result of declining stakeholder trust due to negative sentiments surrounding the Bank.

Reputational risk is managed via monitoring, supervision, handling, and settlement coordinated by the Corporate Secretary with support from relevant work units, such as Customer Care, Legal, Retail Product & Fraud Risk Management, IT Application Development & IT Application Support, and Business Continuity Management.

The management of reputational risk follows internal provisions and applicable laws. In its implementation, reputational risk management is carried out by creating positive perceptions via conventional media and positive content on social media.

Strategic risk

Strategic risk is the risk that is due to the inaccuracy of decision-making and/or implementation of a strategic decision, as well as the failure in anticipating changes in the business environment. The Bank established the Risk Management & Credit Policy Committee, the Risk Management Work Unit and working committees under these groups to support comprehensive, integrated, measurable and controlled strategic risk management.

The Bank continuously reviews and evaluates various units' performance against business targets as well as corrective measures taken, in the context of various internal and external conditions. The Bank also continues to work on strengthening management support programmes on financial performance through the development of automated budgeting and portfolio management system enhancement.

Compliance risk

Compliance risk arises when the Bank does not comply with and/or does not enforce the applicable laws and regulations. Each of the Bank's units is fully responsible for ensuring that their respective activities comply with all applicable laws and regulations. The Board of Commissioners, the Board of Directors, the Director in charge of the compliance function, the Compliance Unit, and all employees have specific roles to ensure compliance awareness in all of the Bank's activities.

The Bank has established compliance risk management policies and procedures subject to applicable rules and regulations. The main objective of the compliance risk management policies and procedures is to build compliance culture and to minimise the potential risks of the Bank's business activities.

The compliance risk management process is divided into several phases, namely identification, assessment, monitoring and mitigation of potential risks.

Intra-group transaction Risk

Risk of intra-group transactions is the risk that is due to the dependence of one entity, directly or indirectly, on another entity in the same financial conglomerate for the purpose of fulfilling the obligations underwritten as well as unwritten agreements, regardless of whether fund transfers are followed. Implementation of intra-group transaction risk management is performed by the Bank and its subsidiaries in accordance with the Bank's business strategy.

The Bank identified and analysed the activities that could increase intra-group transaction risk and affect the Bank's performance. The risk identification is performed on the Bank's and its subsidiaries' business activities by considering the complexity of the transactions. The Bank combines qualitative and quantitative approaches in the process of measuring intra-group transaction risk and monitors such risk on a regular basis.

Insurance risk

Insurance risk is a risk that is due to failure of an insurance company to meet its obligations to policy holders as a result of insufficient process for risk selection (underwriting), determination of premium (pricing), use of reinsurance, and/or handling of claims. The Bank implements insurance risk management with respect to its subsidiaries engaged in the insurance business.

The Bank identifies and analyses the activities that could increase insurance risk and affect the Bank's performance. The identification of such risks is made in the business activities of each relevant subsidiary, taking into account their characteristics. The Bank combines qualitative and quantitative approaches in measuring insurance risk and periodically monitors such risk.

The Bank's Individual Risk Profile

The assessment of Bank Mandiri Individual Risk Profile as of 31 December 2024 is categorised as rating 1 (Low Risk), with the assessment of Inherent Risk categorised as rating 2 (Low to Moderate) and the assessment of Quality of Risk Management Implementation categorised as rating 1 (Strong), as follows:

Type of Risk	Inherent Risk Rating	KPMR Rating	Risk Level Rating
Credit Risk	Low to Moderate	Satisfactory	Low to Moderate
Market Risk	Low	Strong	Low
Liquidity Risk	Low to Moderate	Strong	Low
Operational Risk	Moderate	Satisfactory	Low to Moderate
Legal Risk	Low	Strong	Low
Strategic Risk	Low	Satisfactory	Low
Compliance Risk	Low to Moderate	Satisfactory	Low to Moderate
Reputation Risk	Low	Satisfactory	Low
Composite Rating	Low to Moderate	Strong	Low

Efforts to instill a Bank-wide culture of risk management

In order to realise its vision, the Bank implements a risk culture in all its operational and business activities in order to mitigate risks that have the potential to disrupt the Bank's sustainability. The risk awareness culture begins with the establishment of a RAS, which is used in the business decision process, and its discipline is monitored intensively.

At the policy and procedure level, efforts to increase a risk awareness culture are carried out by incorporating risk assessment and risk mitigation in every preparation of standard business activity procedures and the Bank's product manuals.

Furthermore, the promotion of a risk awareness culture is also encouraged by attaching risk awareness to the corporate culture. One of the themes of the cultural work programme is "Mandiri Tumbuh Sehat" in which all Bank employees are expected to pursue business growth accompanied by precise risk calculations so that performance achievement can be sustainable in the long term.

In order to support the various programmes instilled to promote a risk awareness culture, the Bank uses several communication media to ensure messages are conveyed in a broad range such as risk sharing forums, email blasts, video, e-learning, articles, risk surveys, etc. so that a risk culture can be embodied in an open, efficient and effective risk management framework.

Integrated risk management

The Bank has been implementing risk consolidation and integration by gradually aligning its risk management principles and practices between the Bank and its consolidated subsidiaries since 2008, pursuant to OJK Regulation No. 38/POJK.03/2017 on the Implementation of Consolidated Risk Management for Banks with Controlled Subsidiaries (as amended, "**OJK Regulation No. 38/2017**") and OJK Regulation No. 17/POJK.03/2014 on the Implementation of Integrated Risk Management for Financial Conglomeration as partially revoked by OJK Regulation No. 45/POJK.03/2020 on Financial Conglomeration ("**OJK Regulation No. 17/2014**"). These stages have always been an essential strategic initiative of the risk management working unit in the Bank which is regularly discoursed with the OJK in a special forum to discuss about risk profile and (Risk Based) Bank Rating.

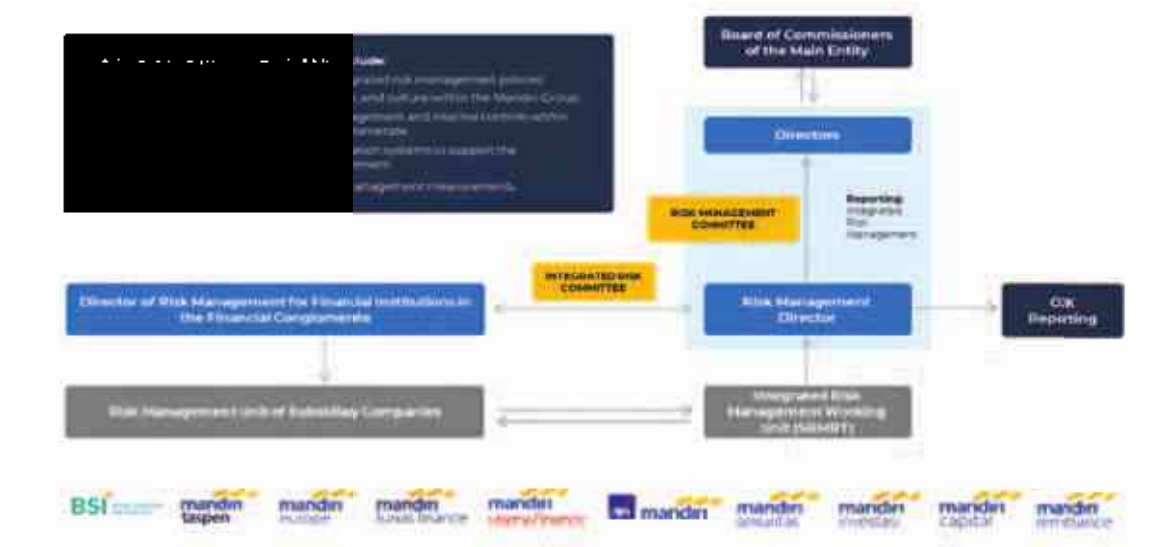

The Bank acknowledges that its viability is affected by risk exposure, which arises directly, or indirectly from its subsidiaries' activities. Due to this, the Bank has implemented a consolidation and integration management system for subsidiaries operating in and outside Indonesia which are adapted to the local regulations where a subsidiary operates while remaining in line with the principles of risk management. The concept of integration undertaken by the Bank is generally divided into two major parts, as follows:

- (1) first line, which relates to the fulfilment of the provisions of OJK Regulation No. 38/2017, OJK Regulation No. 17/2014 and OJK Regulation No. 4/POJK.03/2016 on Soundness Level of Commercial Banks; and
- (2) second line, which serves more as an internal approach for the Bank as a whole, covers tools, awareness, governance corporate, and management information systems risk. Gradually, the Bank has consolidated risk management with subsidiaries included in financial services institutions (Bank Syariah Indonesia, Bank Mandiri Europe Ltd, Bank Mandiri Taspen, Mandiri Sekuritas, Mandiri Manajemen Investasi, AXA Mandiri Financial Services, Mandiri AXA General Insurance, Mandiri InHealth (no longer part of Mandiri Group since 26 June 2024), Mandiri Tunas Finance, Mandiri Utama Finance, Mandiri International Remittance, and Mandiri Capital Indonesia).

Related to that, the Bank has internal guidelines named the Mandiri Group Principle Guidelines (MGPG) and Integrated Good Corporate Governance Guidelines, which contain technical guidance regarding the implementation of risk management among the Bank and its subsidiaries. It is one of the Bank's most prominent measures on risk management, and is related to OJK Regulation No. 18/POJK.03/2014 on the Implementation of Integrated Governance for Financial Conglomeration as partially revoked by OJK Regulation No. 45/POJK.03/2020 on Financial Conglomeration.

In order to implement integrated risk management policies comprehensively, the Bank established the Risk Management & Credit Policy Committee consisting of the Director or Executive Officer in charge of the risk management function of the Bank or the relevant subsidiary, and the Integrated Risk Committee which also comprises Directors and/or Officials from all subsidiaries. The Integrated Risk Committee provides recommendations for the adequacy of risk management implementation in each subsidiary and the implementation of integrated risk management, which are then approved by the Risk Management & Credit Policy Committee, leading to the preparation, the adjustment/improvement, and the establishment and implementation of integrated risk management policies. In addition, the Bank also established an Integrated Risk Management Working Unit (the "SKMRT") which reports directly to the Director in charge of managing the risk function.

The following diagram outlines the duties and responsibilities of SKMRT:

DESCRIPTION OF THE BANK'S ASSETS AND LIABILITIES

The following information should be read together with the Consolidated Financial Statements included elsewhere in this Offering Circular. All amounts presented in this section are in accordance with IFAS. See “*Risk factors – Risks relating to Indonesian corporate and other disclosure and accounting standards differ from those in the United States, countries in the European Union and other jurisdictions*”.

Average interest-earning assets and interest-bearing liabilities

The following table presents, for the periods indicated, condensed average balances for interest-earning assets and interest-bearing liabilities, together with interest income and yields earned on average interest-earning assets and interest expense and rates paid on average interest-bearing liabilities (standalone).

	As of and for the Year Ended 31 December					
	2023			2024		
	Average Size ⁽¹⁾	Income/ Expense	Yield (%) ⁽²⁾	Average Size ⁽¹⁾	Income/ Expense	Yield (%) ⁽²⁾
	(Rupiah billion, except percentage)					
Rupiah assets						
Loans ⁽³⁾	759,737.55	63,909.11	8.41	930,655.57	76,692.30	8.24

Notes:

- (1) The average size is based on the averages of monthly balances.
- (2) The average yield on average interest-earning assets is the ratio of interest income to average interest-earning assets on an annualized basis. The average cost of funds on average interest-bearing liabilities is the ratio of interest expense to average interest-bearing liabilities on an annualized basis.

- (3) The average size of loans includes NPLs and Supply Chain Financing.
- (4) Other assets include non-letter of credit, non-domestic letter of credit (SKBDN), UPAS letter of credit transaction, and pre-export financing facilities.
- (5) Other liabilities include trade transaction, interest expenses and B2B financing interest expenses.

Analysis of changes in net Interest Income – volume and rate analysis

The following tables set forth, for the periods indicated, a summary of the net changes in interest income or expense for interest-earning assets and interest-bearing liabilities, and the allocation of such changes. The net changes in interest income/expense can be attributed to: (i) changes in average balance, (ii) changes in average rates (average yield or average cost of funds, as the case may be), and (iii) changes in both average balances and average rates. For purposes of the tables below, the net changes in interest income/expense have been reflected in the tables below as attributable either to changes in average balances or changes in average rate, and the net changes in interest income/expense due to changes in both average balances and average rates have been allocated and added solely to the increase or decrease due to changes in average rates.

An increase or decrease in interest income/expense due to changes in average balances has been computed based on (i) the change in average balances between the current year/period and the prior year/period, multiplied by (ii) the average rate (average yield or average cost of funds, as the case may be) for the current year/period, for the relevant line item.

An increase or decrease in interest income/expense due to changes in average rates has been computed based on (i) the change in average yields or average costs of funds between the current year/period and the prior year/period, multiplied by (ii) the average balance for the prior year, for the relevant line item.

Securities portfolio

The Bank's securities portfolio is managed by its Treasury and International Banking operating segment. It consists of a variety of debt securities and, in accordance with SFAS, is divided into three classifications:

Fair value through profit or loss. Securities measured at fair value through profit or loss are managed within an active buying and selling business; or those which upon initial recognition are determined by the Bank to be measured at fair value through profit or loss. The Bank measures the securities at fair value. Gains or losses on changes in fair value are recognised in profit or loss.

Fair value through other comprehensive income. Securities measured at fair value through other comprehensive income are the securities managed in a business model whose objectives are met by obtaining contractual cash flows and selling the securities. The securities also pass the solely payment of principal and interest criteria required by PSAK 109/IFRS 9. The Bank sells the securities for liquidity management purposes or yield enhancement through fee-based income. At initial recognition, the Bank measures the securities at the fair value plus or minus the transaction cost. Subsequently, the Bank measures the securities at fair value. Gains or losses on changes in fair value are recognised in other comprehensive income, which constitutes part of shareholder's equity. Interest, amortisation of premium/discount and transaction cost, and securities' credit losses provision are recognised in the Bank's profit or loss.

At amortised cost. Securities are measured at amortised cost if both of the following conditions are met: the securities are managed in a business model that aims to hold securities in order to obtain contractual cash flows and pass the solely payment of principal and interest criteria required by PSAK 109/IFRS9. At initial recognition, the Bank measures securities at fair value plus or minus transaction costs. Interest, amortisation of premium/discount and transaction cost, and securities' credit losses provision are recognised in the Bank's profit or loss.

As of 31 December 2024, the Bank's consolidated securities portfolio (including Government bonds) was classified as follows: Rp65,733.71 billion (US\$4,084.11 million) for fair value through profit or loss (**FVPL**), Rp129,060.10 billion (US\$8,018.65 million) as fair value through other comprehensive income (**FVOCI**) and Rp187,820.41 billion (US\$11,669.49 million) as at amortised cost.

Securities

The following table sets forth the book values of the Bank's consolidated securities portfolio (including Government bonds) as of the dates indicated:

	As of and for the Year Ended 31 December			
	2023		2024	
	Amount	Percentage Amount of Total	Amount	Percentage Amount of Total
	(Rupiah in billion)		(Rupiah in billion)	
Fair value through profit or loss				
Government bonds	20,805.48	5.15%	29,610.17	7.74%
Corporate debt and other securities	38,547.66	9.55%	36,123.54	9.44%
Fair value through other comprehensive income				
Government bonds	90,640.92	22.45%	82,065.67	21.45%
Corporate debt and other securities	48,834.04	12.10%	46,994.43	12.28%
At amortised cost				
Government bonds	197,736.57	48.97%	175,596.82	45.89%
Corporate debt and other securities	7,200.42	1.78%	12,223.59	3.20%
Total book value	403,765.09	100.00%	382,614.22	100.00%
Less				
Unamortised discounts	8.83		(27.02)	
Unrealised gain on increase in fair value of marketable securities	105.17		215.01	
Allowance for impairment losses	(150.28)		(51.49)	
NET BOOK VALUE	403,728.81		382,750.72	

Note:

- (1) Net book value is the aggregate of: (i) the historical cost of securities which are classified as amortised cost and at cost (less any permanent diminution and unamortised discount or premium) and (ii) the marked value of securities held in the FVPL and FVOCI. For securities which are classified as amortised cost and FVOCI, the amounts are net of allowance for impairment losses.

As of 31 December 2024, the Bank's Government bonds were made up of fixed rate bonds of Rp287,154.97 billion (US\$17,841.25 million).

The following table sets forth the book values of the Bank's consolidated Government bonds as of the dates indicated in more detail categorized by type of account:

	As of and for the Year Ended 31 December			
	2023		2024	
	Amount	Percentage of Total	Amount	Percentage of Total
	(Rupiah billion)		(Rupiah billion)	
Fair value through profit or loss				
Fixed rate bonds	20,687.79	6.69%	29,492.48	10.27%
Variable rate bonds	117.69	0.04%	117.69	0.03%
Fair value through other comprehensive income⁽¹⁾				
Fixed rate bonds	90,640.92	29.32%	82,065.67	28.57%
At amortised cost⁽²⁾				
Fixed rate bonds	197,736.57	63.95%	175,596.82	61.13%
TOTAL BOOK VALUE	309,182.97	100.00%	287,272.66	100.00%

Notes:

(1) Fair value through profit or loss securities and fair value through other comprehensive income are stated at fair value.

(2) At amortised cost are stated at book value.

Maturities and yields

The following table sets forth an analysis of the maturity profile of the Bank's consolidated secondary reserves in the form of Government bonds and marketable securities as of the date indicated:

	As of 31 December 2024									
	Due in one year or less		Due in more than one year and up to five years		Due in more than five years and up to ten years		More than ten years		Total

Note:

(1) The book value is the aggregate of (i) the historical cost of securities which are classified as amortised cost (less any permanent diminution and unamortised discount/premium) and (ii) the marked-to-market value of securities held in the trading and available for sale accounts.

Loan portfolio

As of 31 December 2024, the Bank's consolidated gross loan portfolio amounted to Rp1,623.22 trillion (US\$100.85 billion), or 66.88% of its total assets. As of 31 December 2024, the Bank's gross loan portfolio (standalone) amounted to Rp1,310.78 trillion (US\$81.44 billion), or 69.82% of its total assets. The Bank offers borrowers a variety of credit facilities including working capital loans, term loans, syndicated loans, consumer loans and loans made pursuant to certain Government programmes.

The Bank also offers letters of credit and bank guarantees, particularly for trade finance. As of 31 December 2024, the Bank had outstanding irrevocable letters of credit amounting to Rp22,439.66 billion (US\$1,394.20 million) and had issued bank guarantees amounting to Rp138,557.50 billion (US\$8,608.73 million). The Bank also had issued standby letters of credit amounting to Rp12,308.69 billion (US\$764.75 million) as of 31 December 2024.

Types of loans

As of the dates indicated, on a consolidated basis, the Bank's loan portfolio, classified by currency and type of loan, was as follows:

	As of 31 December	
	2023	2024
	(Rupiah billion)	
By currency		
Rupiah	1,100,735.67	1,337,836.06

Less: allowance for impairment losses on loans	(53,098.62)	(49,354.64)
TOTAL LOANS (NET)	1,306,733.58	1,573,861.97

Notes:

- (1) Loans having stated schedule of repayments and stated maturity.
- (2) Working capital facilities are pre-approved lines of credit consisting of term loans, instalment loans, current accounts and overdraft facilities. Amounts reflect drawdown amounts; commitments under such facilities may be higher.
- (3) Government programme loans consist of small-scale investment loans, permanent working capital loans, and working capital loans for which funds are provided by the Government at subsidized interest rates.
- (4) Export loans consist of loans to industries which generate foreign currency income.
- (5) Consumer loans include personal loans.
- (6) Syndicated loans represent loans provided to customers under syndicated loan agreements with other banks.
- (7) Loans to the Company's employees consist of interest-bearing loans which are intended for acquisition of vehicles, houses and other personal properties and are repayable over a term of one to 15 years through monthly payroll deductions.

One of the functions of the Bank's Assets and Liabilities Committee is to monitor the market interest rate movements and to measure the movements' impact on the Bank's portfolio. In addition, the Bank will determine its strategy to adjust interest rates both on its deposit and loan portfolio. The annual average interest rate charged on loans provided by the Bank for 2023 and 2024 (excludes sharia loans/financing) was 8.50% and 8.28%, respectively, for Rupiah loans and 6.79% and 6.83%, respectively, for foreign currencies loans.

Maturity

The following table presents the maturity distribution of the Bank's consolidated loan portfolio based on currency, as of 31 December 2024:

	Total
	Amount
	(Rupiah billion)
Rupiah	
Less than 1 year	174,388.30
1-2 years	84,439.95
2-5 years	270,990.21
Over 5 years	808,017.60
Total	1,337,836.06
Foreign Currencies	
Less than 1 year	17,080.22
1-2 years	19,656.01
2-5 years	57,070.72
Over 5 years	191,573.60
Total	285,380.55
Total loans (gross)	1,623,216.61
Less: allowance for impairment losses on loans	(49,354.64)
TOTAL LOANS (NET)	1,573,861.97

Loan concentrations

Industry concentrations

Historically, the manufacturing sector has represented the largest single sector of the Bank's consolidated loan portfolio. It is believed that the manufacturing sector will continue to be an important source of credit demand.

The following table sets forth, for the periods indicated, the Bank's consolidated gross loans classified by the industry of the borrower and as a percentage of the Bank's consolidated gross loans in Rupiah or US dollars, respectively, as of the dates indicated. The industry sectors used below follow Bank Indonesia's Industry classification scheme:

	As of 31 December ⁽¹⁾			
	2023		2024	
	(Rupiah billion)	(Percentage of Total)	(Rupiah billion)	(Percentage of Total)

TOTAL LOANS (NET)	1,306,733.58	–	1,573,861.97	–

Notes:

- (1) Excludes consumer financing receivables and net investment finance leases.
- (2) The Bank's lending to the agricultural sector includes financing of palm oil, rubber and coconut plantations.
- (3) Financing of trading activities (defined as the export, import and other trading of commodities and products manufactured by others) has been a significant component of this business. Financing of trading activities generally is short-term in nature.
- (4) Construction sector loans, consisting of performance, advance bonds and working capital facilities, are extended to Government and private sector entities to finance building, civil engineering works, mechanical and electrical systems, utilities and other infrastructure projects. Bank Indonesia does not have a separate category for real estate-related exposures. Real estate exposures are captured under the "construction" and "others" sectors. Collateral is required for all real estate loans.
- (5) Other services include, among other things, loans to real estate agents, leasing companies, hospitals and professionals.
- (6) Loans to this sector consist of loans to transportation and logistics operators as well as telecommunication companies.
- (7) Others includes personal loans.

Business group and individual borrower concentrations

Pursuant to OJK regulations, a commercial bank may not have exposure (i) in excess of 25% of such bank's total capital to any unaffiliated single customer, or (ii) in aggregate in excess of 10% of such bank's total capital to all affiliated customers or business groups or (iii) in excess of 30% of such bank's total capital to any single state-owned customer or business group involved in infrastructure projects. Exposure is defined to include loans, contingent liabilities, negotiable instruments, inter-bank placements, participations and derivative transactions. See "*Legal Lending Limits*". The Bank is in compliance with these lending limits.

The Bank's 10 largest cash loans and non-funded facilities (standalone) as of 31 December 2024 aggregated Rp114.32 trillion (US\$7.10 billion) for cash loans (standalone), representing 22.18% of its total cash loan portfolio (standalone), and Rp74.47 trillion (US\$4.63 billion) for non-funded facilities (standalone), representing 37.96% of its total non-funded facility portfolio (standalone).

The following table sets forth the Bank's 10 largest exposures to business group borrowers and individual borrowers for cash loans (standalone) as of 31 December 2024. This information includes restructured loans and NPLs.

As of 31 December 2024

	Primary business ⁽¹⁾	Total loan facilities		Outstanding principal balance of loans ⁽²⁾		Loan Classification ⁽³⁾
		(Rupiah billion)	(US\$ million)	(Rupiah billion)	(US\$ million)	
Borrower A	Financial Services	20,911.00	1,299.22	19,120.38	1,187.97	Current
Borrower B	Food & Beverage	17,395.70	1,080.81	15,457.70	960.40	Current
Borrower C	Mining	17,504.00	1,087.54	12,881.96	800.37	Current
Borrower D	Energy & Water	31,696.55	1,969.34	12,620.11	784.10	Current
Borrower E	Transportation	21,704.50	1,348.52	10,986.50	682.60	Current
Borrower F	Palm Plantations & CPO	12,343.09	766.89	9,804.93	609.19	Current
Borrower G	Transportation	11,334.25	704.21	9,314.89	578.74	Current
Borrower H	Oil & Gas	8,750.00	543.65	8,600.00	534.33	Current
Borrower I	Construction	7,880.46	489.62	7,875.56	489.32	Current
Borrower J	Food & Beverage	11,942.49	742.00	7,654.38	475.58	Current
TOTAL		161,462.04	10,031.81	114,316.42	7,102.60	

Notes:

- (1) See “*Legal Lending Limits*” for a description of Bank Indonesia’s definition of business groupings.
- (2) Outstanding principal balance is the total facility which has been drawn down upon agreement of the borrower and the Bank, but does not include past due interest payments.
- (3) Loan classification consists of five categories: current, special mention, substandard, doubtful and loss. For group borrowers, the Bank makes allowances based on the lowest rating within a borrower group. This column represents the lowest loan classification for a borrower within each group.

The following table sets forth the 10 largest exposures to business groups and individual borrowers as of 31 December 2024 for non-funded facilities. This information includes restructured loans and non-performing facilities:

As of 31 December 2024					
	Primary business⁽¹⁾	Total loan facilities		Outstanding principal balance of loans⁽²⁾	
		(Rupiah billion)	(US\$ million)	(Rupiah billion)	(US\$ million)
Borrower A	Automotive	24,297.87	1,509.65	24,297.87	1,509.65
Borrower B	Oil & Gas	9,023.95	560.67	9,023.95	560.67
Borrower C	Pulp & Paper	7,307.01	453.99	5,645.68	350.77
Borrower D	Transportation	3,600.23	223.69	4,500.00	279.59
Borrower E	Transportation	3,513.64	218.31	15,449.78	959.91
Borrower F	Manufacturing	3,148.57	195.62	1,031.90	64.11
Borrower G	Manufacturing	3,023.35	187.84	6,518.48	405.00
Borrower H	Transportation	2,799.24	173.92	2,799.24	173.92
Borrower I	Transportation	2,392.06	148.62	2,471.93	153.58
Borrower J	Pulp & Paper	2,079.96	129.23	2,728.10	169.50
TOTAL		61,185.88	3,801.55	74,466.92	4,626.71

Notes:

- (1) See “*Legal Lending limits*” for a description of Bank Indonesia’s definition of business groupings.
- (2) Non-funded facilities consist primarily of guarantees and letters of credit.

The following table sets forth the 10 largest exposures as of 31 December 2024 for cash loans and non-funded facilities:

As of 31 December 2024							
	Industry	Total outstanding principal balance of cash loans		Outstanding total non-funded facility		Total exposure ⁽¹⁾	
		(Rupiah billion)	(US\$ million)	(Rupiah billion)	(US\$ million)	(Rupiah billion)	(US\$ million)
Borrower A	Financial Services	19,120.38	1,187.97	–	–	19,120.38	1,187.97
Borrower B	Food & Beverage	15,457.70	960.40	173.32	10.77	15,631.02	971.17
Borrower C	Mining	12,881.96	800.37	1,897.17	117.87	14,779.13	918.24
Borrower D	Energy & Water	12,620.11	784.10	1,851.39	115.03	14,471.50	899.13
Borrower E	Transportation	10,986.50	682.60	–	–	10,986.50	682.60
Borrower F	Palm Plantations & CPO	9,804.93	609.19	–	–	9,804.93	609.19
Borrower G	Transportation	9,314.89	578.74	3,600.23	223.69	12,915.12	802.43
Borrower H	Manufacturing	8,600.00	534.33	149.20	9.27	8,749.20	543.60
Borrower I	Construction	7,875.56	489.32	1,660.25	103.15	9,535.81	592.47
Borrower J	Food & Beverage	7,654.38	475.58	103.50	6.43	7,757.88	482.01
TOTAL		114,316.41	7,102.60	9,435.06	586.21	123,751.47	7,688.81

Note:

(1) Exposure is the total facility used which can be drawn down at the sole discretion of the borrower or upon the agreement of the borrower and the lenders (including both funded and non-funded facilities) and does not include past due interest payments.

Geographic profile

As of 31 December 2024, 91.98% of the Bank's loans (standalone) were booked in Indonesia. The remaining 8.02% consists of the Bank's unconsolidated loans booked outside Indonesia through its overseas operations.

Interest rates

The majority of the Bank's loans bear variable rates of interest. The Bank is generally entitled to adjust loan interest rates at any time according to market conditions and its internal condition, except housing loans introduced in 2007 that have a fixed rate applicable in the initial years of such loans.

The effective average annual interest rate paid by borrowers to the Bank during the year ended 31 December 2024 was 8.28% for Rupiah loans. The effective average annual interest rate paid by borrowers to the Bank during the year ended 31 December 2024 was 6.83% for foreign currency loans.

Non-Performing Loans

The following table sets forth information concerning written-off loans (standalone) by business segment as of the dates and for the periods indicated:

	As of and for the years ended 31 December	
	2023	2024
	(Rupiah billion)	
Loan write-offs (standalone)		
Wholesale/SAM	9,482.61	2,392.66
SME	1,224.06	791.12
Micro banking	3,806.45	4,575.73
Individual/consumer	3,350.47	3,293.19
Total loan write-offs (standalone)	17,863.59	11,052.70
Gross loans at beginning of period	932,639.05	1,085,787.43
Gross loans at end of period	1,085,787.43	1,310,779.40

NPLs (on a gross basis) represented 1.12% of the Bank's consolidated total loans as of 31 December 2024. The following table sets forth information with respect to the Bank's consolidated performing loans and NPLs (excluding non-funded facilities, gross of deferred income) as of the dates indicated:

	As of 31 December	
	2023	2024
	(Rupiah billion)	
Performing loans		
Rupiah	1,086,480.44	1,321,359.83
Foreign Currency	257,218.16	283,827.45
Non-performing loans		
Rupiah	14,255.22	16,476.23
Foreign Currency	1,878.37	1,553.10

The following table presents nonaccrual and restructured loans (standalone) for the periods indicated:

	As of 31 December	
	2023	2024
	(Rupiah billion except percentages)	
Non-performing loans		
Restructured loans ⁽¹⁾	78,196.78	73,466.35
Non-performing loans	10,999.54	12,609.24
Non-performing loans to total gross loans ⁽²⁾	1.02%	0.97%
Non-performing assets ⁽³⁾	12,822.83	14,332.58
Total earning assets ⁽⁴⁾	1,894,263.69	2,151,504.27
Non-performing assets to total earning assets ⁽⁵⁾	0.68%	0.67%

Notes:

- (1) Restructured loans include performing and non-performing restructured loans.
- (2) Non-performing loans to total gross loans computed based on the NPLs to total gross loans (excluding loan to other banks).
- (3) Non-performing assets means the balance of financial assets which are classified into three categories: substandard; doubtful; and loss.
- (4) Total earning assets constitute the Bank's fund provisions for gaining revenue, which are in the forms of credits, securities, interbank placements, acceptance claims, claims on securities purchased under resale agreements (reverse repurchase agreements), derivative claims, equity participations, and any other equivalent form of fund provisions.
- (5) Non-performing assets to total earning assets is a ratio that compares non-performing assets to total earning assets.

The following table sets forth information concerning the Bank's allowance for impairment losses on loans (standalone) as of the dates and for the periods indicated.

	As of 31 December	
	2023	2024
	(Rupiah billion, except percentages)	
Allowance for impairment losses on loans		
Rupiah:		
Working capital	15,135.29	13,839.82
Investment ⁽¹⁾	7,461.06	6,898.67
Consumer	7,548.77	7,754.31
Export	158.30	142.18
Syndicated ⁽²⁾	736.82	614.85
Government programme	1,446.09	943.04
Employee	67.23	79.12
Total in Rupiah	32,553.56	30,271.98

	As of 31 December	
	2023	2024
	(Rupiah billion, except percentages)	
Foreign currencies:		
Working capital	2,965.45	1,763.26

Syndicated ⁽³⁾	1,505.66	1,234.22
Total in foreign currencies	9,781.82	8,068.39
Total allowance for impairment losses on loans:	42,335.38	38,340.37
Gross loans (net of deferred income) at the beginning of the period	932,639.05	1,085,787.43
Gross loans (net of deferred income) at the end of the period	1,085,787.43	1,310,779.40
Average loan balance during the period⁽⁴⁾:	1,009,213.24	1,198,283.42
Total allowance for impairment losses on loans to average loan balance during the period	4.19%	3.20%

Notes:

- (1) Allowance for impairment losses on loans in rupiah categorised as “Investment” as of 31 December 2024 including allowance for financial assets that are measured at fair value through other comprehensive income amounted to Rp17.66 billion which is booked in equity.
- (2) Allowance for impairment losses on loans in rupiah categorised as “Syndicated” as of 31 December 2024 including allowance for financial assets that are measured at fair value through other comprehensive income amounted to Rp58.16 billion which is booked in equity.
- (3) Allowance for impairment losses on loans in foreign currencies categorised as “Syndicated” as of 31 December 2024 including allowance for financial assets that are measured at fair value through other comprehensive income amounted to Rp6.95 billion which is booked in equity.
- (4) Computed based on the average of the loan balance (standalone) at the beginning and at the end of the period indicated.

As of 31 December 2024, Rp1,623,216.61 billion (US\$100,852.23 million) (excluding consumer financing receivables and net investment finance leases) of the Bank’s consolidated gross loan portfolio of Rp89,199.02 billion (US\$5,542.03 million) had been restructured. As of 31 December 2024, Rp18,029.33 billion (US\$1,120.18 million) of the Bank’s consolidated gross loan portfolio consisted of non-performing loans.

The Bank’s Credit Recovery Unit, which is part of the Credit Committee, is responsible for the supervision and management of NPLs, being loans classified as “substandard”, “doubtful” or “loss” according to Bank Indonesia’s guidelines.

As of 31 December 2024, the Bank's 10 largest NPLs (excluding non-funded facilities) amounted to Rp5,483.79 billion (US\$340.71 million), and accounted for 30.42% of its consolidated gross NPLs portfolio. The following table sets forth information regarding its 10 largest NPLs (excluding non-funded facilities) as of 31 December 2024.

As of 31 December 2024					
	Economic sector	Type of banking arrangement	Gross principal outstanding (%)	Gross principal outstanding (Rupiah billion)	Current loan classification
Borrower A	Metal Mining	Investment Capital	27.37%	1,500.90	Loss
Borrower B	Textile Industry	Working Capital and Investment Capital	23.91%	1,310.99	Loss
Borrower C	Shipbuilding Industry	Working Capital and Investment Capital	15.63%	857.15	Loss
Borrower D	Textile Industry	Working Capital	13.27%	727.84	Loss
Borrower E	Farming & Animal Feed	Working Capital and Investment Capital	6.37%	349.08	Loss
Borrower F	Farming & Animal Feed	Working Capital	4.87%	267.00	Loss
Borrower G	Property-Investment	Investment Capital	2.58%	141.73	Loss
Borrower H	Construction Non-Infrastructure Service	Working Capital	2.57%	141.04	Loss
Borrower I	Metal Industry & Wholesale Trade	Working Capital	2.54%	139.34	Doubtful
Borrower J	Food & Beverage Industry	Working Capital	0.89%	48.72	Doubtful
TOTAL			100.00%	5,483.79	

Loan portfolio classification

Bank Indonesia requires banks to categorise each loan into one of five categories and to set minimum loan allowances based on these categories.

The following table classifies the Bank's consolidated gross loans by Bank Indonesia loan performance categories as of the dates indicated:

	As of 31 December⁽¹⁾			
	2023		2024	
	Outstanding amount	Percentage of total	Outstanding amount	Percentage of total
	(Rupiah billion)	(%)	(Rupiah billion)	(%)
Current	1,291,220.46	94.95	1,554,885.47	95.79
Special mention	52,478.14	3.86	50,301.81	3.10
Substandard	3,825.59	0.28	2,834.51	0.17
Doubtful	5,238.02	0.39	2,942.43	0.18
Loss	7,069.99	0.52	12,252.39	0.75
TOTAL	1,359,832.20	100.00	1,623,216.61	100.00

Note:

(1) Excludes consumer financing receivables and net investment finance leases.

As of 31 December 2024, 1.23% of the Bank's consolidated Rupiah-denominated loans and financing by value, were non-performing and 0.54% of its foreign currency-denominated loans and financing by value, were non-performing. As of 31 December 2023, 1.30% of the Bank's consolidated Rupiah-denominated loans and financing by value, were non-performing and 0.72% of its foreign currency-denominated loans and financing by value, were non-performing.

The following table classifies consolidated loans in Rupiah and foreign currency by Bank Indonesia loan performance categories as of 31 December 2024:

	As of 31 December 2024⁽¹⁾		
	Outstanding amount		Percentage of total
	(Rupiah billion)	(US\$ million)	(%)
Rupiah			
Current	1,281,976.62	79,650.61	95.83

Restructuring and settlement of NPLs

The Bank's NPLs are restructured on a case-by-case basis upon a determination by the Bank's management that restructuring would be the best means of realising repayment. The Bank generally restructures loans to debtors that it believes have good operating prospects and are cooperative, but who have had or are expected to have temporary liquidity difficulties or in circumstances where the restructuring involves a partial repayment of the outstanding amounts.

Loan restructuring is performed in accordance with written procedures of the Credit Recovery Unit which include specific loan restructuring strategies and the circumstances under which they may be applied.

The Bank emphasises recovery and settlement of NPLs, and has attempted to institutionalise this focus across its organisation. Generally, the Bank divides its loan restructurings into two categories:

“Simple restructurings” involving the rescheduling of repayments or a reduction of interest rates for companies that meet certain criteria such as adequate working capital, minimal intra-group liabilities and operate in a viable industry sector.

“Complex restructurings” which involve more complex steps such as debt for equity swaps for companies which have negative equity, low cash flows and other features that do not allow for a “simple restructuring”.

According to OJK regulations, after restructuring, loans previously classified as “doubtful” or “loss” can be reclassified as “substandard”, while loans previously classified as “current”, “special mention” or “substandard” may not be reclassified. Upon the signing of a restructuring agreement with a borrower, the Bank upgrades the NPLs to “substandard”. In accordance with OJK regulations, the NPLs may only return to performing status (“current” or “special mention”) and accrue interest in the Bank’s financial statements in accordance with its new terms after the borrower has made at least three consecutive payments in accordance with the restructured contractual terms. However, even where the borrower has satisfied this requirement, the Bank may still not reclassify the loan as performing if there remain concerns about the borrower’s ability to meet its payment obligations. The Bank usually allows several months of testing before reclassifying the loan as “current”. After the Bank has classified a restructured loan as “current” and it has continued to show operational and financial improvement, the Bank typically transfers it from its Credit Recovery Unit to the relevant business unit.

For simple restructurings involving reductions in interest rates, the Bank charges interest on the restructured loans at rates above its cost of funds but below the relevant market lending rate. In addition, as it may take a borrower an extended period before it returns to financial health, in certain such cases, the Bank has restructured, and may continue to restructure, loans with smaller payments due in earlier periods and larger payments in later periods. During the earlier periods, a restructured loan may become performing in accordance with the Bank’s classifications of performing loans. However, as larger payments become due, it is possible that a borrower may not meet these payments and the loan may, once again, become non-performing.

In the restructuring of certain loans, depending on the complexity of the restructuring, the Bank has utilised external advisers to assist it in determining a borrower’s ability to repay a loan under the restructured terms. In connection with certain restructurings, the Bank has extended the credit terms.

As of 31 December 2024, the Bank had restructured loans of Rp73,466.35 billion (US\$4.56 million). The following table sets forth information on the Bank’s 10 largest restructured loans as of 31 December 2024:

As of 31 December 2024				
	Economic sector	Total outstanding		Current loan classification
		(Rupiah billion)	(US\$ million)	
Debtor #1	Construction Infrastructure Service	7,875.56	489.32	Current

TOTAL		38,204.36	2,373.68	

Allowance for impairment losses on loans

The Bank's policy is to classify its loans in accordance with the Bank regulator's policies and applicable accounting requirements. PSAK 109 requires the Bank to use an "expected credit loss" methodology for asset impairments. PSAK 109 requires recognition of impairment losses to be conducted on a forward-looking basis, whereby impairment loss is recognised before the occurrence of any credit losses (default). Under this approach, the Bank is required to consider current conditions and "reasonable and supportable" forward-looking information that is available without undue cost or effort when estimating expected credit losses.

The following table sets forth the components of the Bank's consolidated allowance for impairment losses on loans and Sharia loans/financing:

	As of and for the Year Ended 31 December	
	2023	2024
	(Rupiah billion, except percentages)	
Beginning balance	64,612.64	53,098.62
Allowance during year	9,788.59	10,270.33
Write-offs	(20,871.63)	(13,745.22)
Others ⁽¹⁾	(430.98)	(269.09)
Ending balance ⁽²⁾	53,098.62	49,354.64
Total loans – net	1,306,733.58	1,573,861.97
Percentage of write-offs during the period to total loans outstanding net at end of period ⁽³⁾	1.60%	0.87%
Minimum Allowance for impairment losses based on Bank Indonesia Regulation	10,262.84	14,148.78
Coverage Ratio ⁽⁴⁾	517.39%	348.83%

Notes:

- (1) Others includes the effect of foreign currency translation.
- (2) Ending balance as of 31 December 2024 included allowance for financial assets that are measured at fair value through other comprehensive income. Such allowance for financial assets amounted to Rp82.77 billion and was booked in equity.
- (3) Computed based on the loan write-offs during the period divided by the total net loan balance (on a consolidated basis) at the end of the period.
- (4) Total allowance for non-performing loans divided by minimum allowance for non-performing loans based on the BI Regulation.

The following table sets forth information on provisions for the Bank's consolidated net total loans as of 31 December 2024, classified by borrower category:

As of 31 December 2024 ⁽¹⁾							
	Current	Special mention	Sub- standard	Doubtful	Loss	Total	Total
	(Rupiah billion)						(US\$ million)
Total loans	1,554,885.47	50,301.81	2,834.51	2,942.43	12,252.39	1,623,216.61	100,852.23
Less: allowance for impairment losses	(18,121.06)	(19,002.93)	(1,384.41)	(1,522.55)	(9,323.69)	(49,354.64)	(3,066.46)
TOTAL LOANS – NET	1,536,764.41	31,298.88	1,450.10	1,419.88	2,928.70	1,573,861.97	97,785.77

Note:

(1) Excludes consumer financing receivables and net investment finance leases.

TOTAL DEPOSITS	1,595,414.60	100.00	1,726,617.93	100.00

MANAGEMENT

In accordance with Indonesian law, the Bank has a Board of Commissioners and a Board of Directors. The two boards are separate and no individual may be a member of both boards. The rights and obligations of each member of the Bank's Board of Commissioners and the Board of Directors are regulated by the Bank's Articles of Association (the "**Articles**"), the decisions of the Bank's shareholders in general meetings, Law No. 40/2007, as well as regulations of OJK and the IDX.

Board of Commissioners

The Bank's Board of Commissioners, which has the task of supervising the Bank's management, must have a minimum of three members, including the President Commissioner, and is appointed by shareholders at the annual general meeting of shareholders, provided that all candidates for election must be nominated by the holder of the Special Share. See "*Banking Regulation and Supervision – Bank Management*".

The principal function of the Board of Commissioners is to supervise the policies of the Board of Directors. As required under OJK Regulation No. 17 of 2023 on the Good Governance of Commercial Banks ("**OJK Regulation No. 17/2023**") and OJK Circular Letter No. 13/SEOJK.03/2017 on Implementation of Good Corporate Governance for Commercial Banks ("**OJK Circular No. 13/2017**"), at least 50% of the member of the Board of Commissioners must be independent within the meaning of OJK Regulation No. 17/2023 and OJK Circular No. 13/2017.

The members of the Board of Commissioners of the Bank as of the date of this Offering Circular are as follows.

Commissioner	Position
Muhamad Chatib Basri	President Commissioner (Independent)
Zainudin Amali	Deputy President Commissioner (Independent)
Rionald Silaban	Commissioner
Faried Utomo	Commissioner
Arif Budimanta	Commissioner
Loeke Larasati Agoestina	Independent Commissioner
Muhammad Yusuf Ateh	Commissioner
Muliadi Rahardja	Independent Commissioner
Heru Kristiyana	Independent Commissioner
Tedi Bharata	Commissioner

Muhamad Chatib Basri has served as President Commissioner (Independent) since February 2020. Mr. Basri was previously appointed as Vice President Commissioner and Independent Commissioner of the Bank from December 2019 to February 2020. He serves as President Commissioner and Independent Commissioner of PT XL Axiata Tbk. (2016-present). He has served as Commissioner at various companies, which include PT Indonesia Infrastructure Finance (2016-2019), PT Astra International Tbk. (2015-2019), and PT Indika Energy Tbk. (2015-2019). From 2015 to 2019, he served as the Non-Executive Director of Axiata Group Sdn.Bhd. Before that, he was appointed as Minister of Finance of the Republic of Indonesia (2013-2014). Mr. Basri obtained his Bachelor of Economics from the University of Indonesia (1992) and his Masters and Ph.D. from the Australian National University in 1996 and 2001.

Zainudin Amali has served as Vice President Commissioner since March 2024 and as an Independent Commissioner since March 2023. He serves as Vice-Chairman of the Football Association of Indonesia (2023-present). He also served as Minister of Youth and Sport in the 41st Cabinet of Indonesia (2019-2023) and he was a member of the DPR-RI (2004-2019). Dr. Amali received a formal education from the Akademi Perbankan dan Akuntansi Jakarta (1986). Dr. Amali holds a Bachelor of Economics at STIE Swadaya (1992), a Master of Public Policy at Universitas Prof Dr Moestopo Beragama (2016), and a Doctorate in Government Science at the Government Institute Domestic Affairs (IPDN) (2019). Dr. Amali was also conferred Honorary Professor of Sports Policy Science (Sport Policy) by the Faculty of Sports Science at State University of Semarang (2022).

Rionald Silaban has served as a Commissioner since August 2019. He also serves as Director General of State Treasury, Ministry of Finance (2021-present). He was the Acting Managing Director of the Education Fund Management Agency (2018-2021) and Head of the Ministry of Finance's Financial Education and Training Agency (2018-2021). He was appointed as an expert staff of the Minister of Finance for Macroeconomics and International Finance (2016-2018) and Executive Director of SEAVG-World Bank (2014-2016). Mr. Silaban holds a Bachelor of Laws from the University of Indonesia (1989) and an LL.M from Georgetown University (1993).

Faried Utomo has served as a Commissioner since February 2020. He also serves as Chief Archivist at the Data and Information Technology Centre in the Ministry of State Secretary (2024-present). He served as Deputy for Administration (2015-2024), Head of the Secretariat of the Final Assessment Team (TPA) about Appointment, Transfer, and Dismissal of the Main High-Leaders and Associate High-Leaders (2015-2020), Expert Staff of the Cabinet Secretary for Research, Technology, Communication and Information (2014-2015), Assistant Deputy in Material Session (2011-2014), and the Head of the State Apparatus Bureau, Local Government and People's Welfare (2006-2011) in the Cabinet Secretariat of the Republic of Indonesia. Mr. Utomo obtained a Law degree from Sebelas Maret University (1988) and a Master's degree from the Faculty of Law, University of Indonesia (2003).

Arif Budimanta has served as a Commissioner since February 2020. He also served as the President's Special Staff for the Economy Sector (2019-2024). He was previously appointed as Deputy Chairperson of the MPR-RI Study Institute (2015-2020), Commissioner of Indonesia Eximbank (2015-2020), Deputy Chairperson of the National Economic and Industry Committee (2016-2019), Management of Paramadina Waqf Foundation (2016-present). He was also a member of the DPR-RI Commission XI (2000-2014). Mr. Budimanta holds a Bachelor's degree in Soil Science from the Bogor Institute of Agriculture (1990), a Master's degree in Natural Resource Economics from the University of Indonesia (1996), and a Doctorate from the Faculty of Social and Political Sciences, University of Indonesia (2006).

Loeke Larasati Agoestina has served as an Independent Commissioner since February 2020. She was appointed as a Commissioner of PT Bank Rakyat Indonesia Tbk. (2019-2020). Previously, she was the Deputy Chief of the Riau Islands Prosecutor's Office (2012-2014), the Head of the High Prosecutor's Office (KAJATI) of Yogyakarta (2014-2015), Head of the Attorney General's Asset Recovery Center (2015-2017), Head of the High Prosecutor's Office (KAJATI) of West Java (2017), Commissioner Attorney General Civil and State Administration (Jamdatun) Attorney General's Office (2017-2019). Mrs. Agoestina earned her Bachelor of Law from Parahyangan Catholic University (1984) and a Masters in Human Capital from IPWI (2001).

Muhammad Yusuf Ateh has served as a Commissioner since March 2021. Mr. Ateh also serves as the Chairman of Financial and Development Supervisory Agency (2020-present). In addition, he served as the Deputy in Ministry of State Apparatus Utilization and Bureaucratic Reform (2013-2020) and Commissioner of PT Perusahaan Listrik Negara (Persero) (2020-2021). Mr. Ateh obtained a Diploma 3 in Accounting from Sekolah Tinggi Akuntansi Negara Indonesia (1986), Diploma 4 in Accounting from Sekolah Tinggi Akuntansi Negara Indonesia (1992), a Master of Business Administration from University of Adelaide (2001), and a Doctor of Public Administration from University of Indonesia (2020).

Muliadi Rahardja has served as an Independent Commissioner since March 2022. He also served as Independent Commissioner of PT XL Axiata Tbk (2017-2023), Commissioner of PT Adira Dinamika Multi Finance Tbk. (2017-2022), Deputy Director of PT Bank Danamon Indonesia Tbk (2015-2017), Commissioner of PT Adira Dinamika Multi Finance Tbk. (2010-2015), and Operation Director of PT Bank Danamon Indonesia Tbk. (2008-2015). Mr. Rahardja holds a Master of Business Administration from Massachusetts Institute of Technology (1998) and a Bachelor of Accounting degree from Faculty of Economics (1984), University of Indonesia.

Heru Kristiyana has served as an Independent Commissioner since March 2023. Mr. Kristiyana also serves as President Director of the Indonesian Banking Development Institute (2023-present) and Commissioner of PT Sarana Meditama Metropolitan Tbk (2022-present). He also served as a Board Member (Ex-Officio member representing Financial Services Authority) at the Indonesia Deposit Insurance Corporation (2017-2022), Deputy Commissioner at Indonesia's Financial Services Authority (2013-2016) and Executive Director at Bank Indonesia (2010-2013). Mr. Kristiyana holds a Bachelors of Law from Faculty of Law at Diponegoro University (1981) and a Master of Management from STIE Institut Pengembangan Wiraswasta Indonesia Jakarta (IPWIJA) (2000).

Tedi Bharata has served as a Commissioner since March 2024. He also serves as the Commissioner for PT Pertamina Patra Niaga (2021-present). He was previously appointed as Commissioner of PT Perusahaan Listrik Negara (Persero) (2022-2023) and VP of PT Indonesia Asahan Aluminium (2019-2021). Mr. Bharata holds a Bachelor's degree in Information Systems from Universitas Pelita Harapan (2005) and a Master's degree in International and Public Relations from Columbia University (2016).

Board of Directors

Under the Articles, the Board of Directors is required to be made up of at least three directors, including the President Director. The Board of Directors has the authority to make decisions binding on the Bank, subject to prior written consent or recommendation from the Board of Commissioners and/or approval from the general meeting of shareholders for certain actions. As required under OJK Regulation No. 46/POJK.03/2017 on the Implementation of Compliance Function of Conventional Bank ("**OJK Regulation No. 46/2017**"), the Bank must appoint one member of the Board of Directors as a compliance director.

The members of the Board of Directors of the Bank as of the date of this Offering Circular are as follows:

Director	Position
Darmawan Junaidi	President Director
Alexandra Askandar	Deputy President Director
Danis Subyantoro	Director of Risk Management
Agus Dwi Handaya	Director of Compliance and Human Capital
Eka Fitria	Director of Treasury and International Banking
Totok Priyambodo	Director of Commercial Banking
Aquarius Rudianto	Director of Network and Retail Banking
Toni Eko Boy Subari	Director of Operations
Riduan	Director of Corporate Banking
Rohan Hafas	Director of Institutional Relationship
Sigit Prastowo	Director of Finance and Strategy
Timothy Utama	Director of Information Technology

Darmawan Junaidi has served as the Bank's President Director since October 2020. Prior to this, he served as the Bank's Director of Treasury, International Banking, and Special Asset Management (December 2019-2020) and as the Bank's Director of Treasury and International Banking (2018-2019), Director of Treasury (2017-2018). He served as Senior Vice President of Treasury in the Bank since 2012 until he was promoted as Regional CEO of Bali and Nusa Tenggara in 2015. In the beginning of 2016, he was appointed as the Bank's Head of Treasury. Within the same year, he became the Director of Finance of Semen Indonesia. He completed his undergraduate degree in Civil Law from University of Sriwijaya, Palembang (1990).

Alexandra Askandar has served as the Bank's Deputy President Director since October 2020. Her career history includes serving as Group Head of Corporate Banking V (2015-2016), Senior Executive Vice President Corporate Banking (2016-2018), Director of Institutional Relationship (2018-2019) and Director of Corporate Banking (2019-2020). Mrs. Askandar holds a Bachelor of Economics from the University of Indonesia (1995) and a Master of Business Administration from Boston University (1999).

Agus Dwi Handaya has served as the Bank's Director of Compliance and Human Capital since May 2019. Previously, he was appointed as Director of Finance & Distribution Network (2014-2015) and Director of Finance & Strategy (2015-2016) at the Bank's subsidiary, PT Bank Syariah Mandiri. While in the Bank, he served as Group Head Office of the CEO (2016-2017), Senior Executive Vice President of Corporate Transformation & Finance (2017-2018), and Compliance Director (2018-2019). Mr. Handaya obtained his Bachelor of Economics from the University of North Sumatra (1995) and a Master of Business Administration from Nanyang Fellows National Technological University, Singapore (2013).

Aquarius Rudianto has served as the Bank's Director of Network and Retail Banking since February 2020. Before occupying this position, in the Bank, he had served as Regional CEO III Jakarta 1 (2015-2018), SEVP Operation (2018-2019), Commissioner at PT Mandiri AXA General Insurance (2019-2020), SEVP Business and Network (2019-2020), and Commissioner at PT Bank Syariah Mandiri (2020). Mr. Rudianto holds a Bachelor's degree in Social Politics – Governmental Science from Padjadjaran University (1990).

Toni Eko Boy Subari has served as the Bank's Director of Operations since October 2020. Before occupying this position, he had served as the President Director of PT Bank Mandiri Syariah (2017-2020), and as the Bank's SEVP Special Asset Management (2016-2017), Regional CEO 1 Sumatera I of the Bank (2015-2016), and the Bank's Group Head Business Banking I (2013-2014). Prior to his career at the Bank, Toni formerly worked at Bank Pembangunan Indonesia (1989-1999). Mr. Subari graduated from Bogor Institute of Agriculture in Agricultural industrial technology programme (1988).

Riduan has served as the Bank's Director of Corporate Banking since March 2024. He was appointed as the Bank's Director of Commercial Banking (2019-2024), Director of Finance and Investment at PT Askes (Persero) and BPJS Kesehatan (2013-2016) and Senior Executive Vice President Middle Corporate of the Bank (2017-2019). Mr. Riduan graduated with a Bachelor's Degree in Economy (1995) and a Master of Management (2007) from the University of Sriwijaya (2007).

Rohan Hafas has served as the Bank's Director of Institutional Relationship since October 2020. Prior to occupying this position, Rohan had served as the Bank's Senior Executive Vice President of Corporate Relations (2020), where his role included assisting the BOD in formulating the Bank's strategy and policy. He also served as the Bank's Group Head of Corporate Secretary (2014-2020), in charge among others, of stakeholder management and the Bank's corporate communication. Before working at the Bank, he was formerly the Corporate Secretary Division Head of PT Bank Mutiara (2010-2014) and the Operational Director of PT Daria Dharma (2005-2010). Mr. Hafas graduated with a degree in economics from University of Indonesia (1987).

Sigit Prastowo has served as the Bank's Director of Finance and Strategy since October 2020. Before occupying his current position, he served as the Finance Director of Bank Negara Indonesia (2020). He also served as the Finance Director of Bank DKI (2019-2020), and as acting President Director of Bank DKI (2018-2019). Prior to his time with the Bank, he worked at PT Bank Negara Indonesia (Persero) Tbk (2003-2015), where he had occupied various roles from Vice Head Division, Vice Group Leader, as well as Performance Analyst. He earned both his undergraduate degree in geography/spatial planning (1995) and post-graduate degree in management (1997) from University of Gadjah Mada, Yogyakarta.

Timothy Utama has served as the Bank's Director of Information Technology since March 2021. His career includes serving as Wholesale Banking Operation Head at Standard Chartered Bank India (2008-2010), Director of Operation & Technology at Bank Permata (2010-2012), Chief Operations and Technology Officer at Singapore Exchange (2012-2015), and Managing Director, Head of Operations and Technology at Citibank (2016-2021). Mr. Utama obtained his bachelor degree in business administration from Texas A&M University, USA (1988).

Eka Fitria has served as the Bank's Director of Treasury and International Banking since March 2023. Before occupying this position, she had served as the Bank's Group Head of International Banking & Financial Institution (2021-2022), Deputy Group Head of Treasury (2020-2021) and Department Head of Talent Acquisition (2015-2017). Ms. Fitria holds a Bachelor of Law (International Law) from the Padjadjaran University (2000) and Master of Business Administration from the IE Business School (2011).

Danis Subyantoro has served as the Bank's Director of Risk Management since March 2024. Prior to this, he has served as the Bank's Senior Executive Vice President Internal Audit (2021-2023), Senior Executive Vice President Wholesale Risk (2020-2021) and Group Head Corporate Risk (2018-2020). Mr. Subyantoro holds a Bachelor's Degree in Agriculture from Universitas Gajah Mada (1993).

Totok Priyambodo has served as the Bank's Director of Commercial Banking since March 2024. Before occupying this position, in the Bank, he had served as SEVP Commercial Banking (2020-2023), Group Head Commercial Banking 6 Group (2018-2020), Executive Business Officer – B Commercial Banking (2017), Group Head Commercial Banking 3 Group (2017), Executive Business Officer – B Commercial Banking (2016), Regional Wholesale Head VIII Surabaya, Regional Commercial Sales Group (2015) and Commercial Banking Center Manager Surabaya Basuki Rahmat, Regional Commercial Sales Group (2014). Mr. Priyambodo holds a Bachelor's degree in Civil Engineering from Institut Teknologi Bandung (1997).

In performing its duties, the Board of Directors is assisted by the Senior Executive Vice Presidents. As at the date of this Offering Circular, the Senior Executive Vice Presidents are as follows:

Senior Executive Vice President	Position
Arief Ariyana	Senior Executive Vice President of Special Asset Management
M. Rizaldi	Senior Executive Vice President of Corporate Banking
Adi Pranantias	Senior Executive Vice President of Internal Audit
Daniel Setiawan Subianto	Senior Executive Vice President of Information Technology
Sunarto Xie	Senior Executive Vice President of Digital Banking
Abu Santosa Sudradjat	Senior Executive Vice President of International Banking & Financial Institutions
Saptari	Senior Executive Vice President of Micro & Consumer Finance
Wildan Sanjoyo	Senior Executive Vice President of Wholesale Risk
Frans Gunawan	Senior Executive Vice President of Commercial Banking

Committees under the Board of Commissioners

The Bank has established four statutory committees of the Board of Commissioners, namely the Risk Monitoring Committee, the Audit Committee, the Remuneration and Nomination Committee and the Integrated Governance Committee.

Risk Monitoring Committee

The Risk Monitoring Committee was established by the Board of Commissioners of the Bank as required under: (i) OJK Regulation No. 17/2023, (ii) MSOE Regulation No. PER-2/MBU/03/2023 on Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises ("**MSOE Regulation GCG**"), and (iii) MSOE Regulation No. PER-3/MBU/03/2023 on Organs and Human Resources of State-Owned Enterprises ("**MSOE Regulation No. 3/2023**"), in order to help the Board of Commissioners to perform its duties and responsibilities in supervising and counselling the Directors to obtain sufficient confidence that the implementation of risk management of the Bank will meet the adequacy element of the procedure and risk management methodology, so that the Bank's business activities will always be under control to the limit of acceptable and profitable to the Bank.

The Risk Monitoring Committee has the duties and responsibilities to help the Board of Commissioners to perform its supervisory and counselling duties to the Board of Directors by providing opinions in the form of suggestions and recommendations on but not limited to evaluating the conformity between the Bank's risk management policy and integrated risk management policy with the implementation of such policies.

Audit Committee

The Bank's Audit Committee is regulated under (i) OJK Regulation No. 55/POJK.04/2015 on the Establishment and Work Guidelines of the Audit Committee ("**OJK Regulation No. 55/2015**"), (ii) OJK Regulation No. 17/2023, (iii) MSOE Regulation GCG, and (iv) MSOE Regulation No. 3/2023. It is responsible for providing independent and professional advice to the Board of Commissioners with respect to the reports or other issues which have been submitted by the Board of Directors to the Board of Commissioners, identifying any issues that need the attention of the Board of Commissioners and performing other duties in connection with the duties of the Board of Commissioners. Further, the Bank's Audit Committee also seeks to ensure proper application of financial reporting standards and procedures and to ensure the quality and transparency of financial reports. The Bank's Audit Committee acts as an independent professional adviser to the Commissioners. Among other things, the Bank's Audit Committee reviews the compensation arrangements of the Directors and Commissioners in accordance with prevailing regulations and procedures.

Remuneration and Nomination Committee

The Bank's Remuneration and Nomination Committee is regulated under (i) OJK Regulation No. 34/POJK.04/2014 for the Remuneration and Nomination Committee of Issuer or Public Company ("**OJK Regulation No. 34/2014**"), (ii) OJK Regulation No. 17/2023, (iii) MSOE Regulation GCG, and (iv) MSOE Regulation No. 3/2023. The Remuneration and Nomination Committee acts as an independent adviser to the Board of Commissioners and is responsible for formulating the selection criteria and performance evaluation of the Commissioners and Directors, as well as assisting the Commissioners in determining the remuneration for a Directors and evaluating the process of such determination.

Integrated Governance Committee

The Integrated Governance Committee was established by the Board of Commissioners under (i) OJK Regulation No. 18/POJK.03/2014 on Integrated Governance for Financial Conglomerate, as partially amended by OJK Regulation No. 45/POJK.03/2020 on Financial Conglomerate, and its implementing directive, (ii) OJK Regulation No. 17/2023, (iii) MSOE Regulation GCG, and (iv) MSOE Regulation No. 3/2023, to assist and facilitate the Board of Commissioners in performing its duties and functions to supervise the implementation of the integrated governance guidance on each institution within the financial conglomerate of the Bank, to supervise the implementation of the duties and functions of the Board of Directors of the Bank, to provide directions or advices to the Board of Directors of the Bank regarding the implementation of integrated governance guidance, and to evaluate and provide directions to improve the integrated governance guidance.

SHAREHOLDERS

The following table depicts the holders of the Bank's issued and fully-paid shares as of 31 December 2024.

Issued and fully paid shares	Number of shares	Nominal value per share (Rp)	Value of shares (Rp)	Percentage of ownership (%)
Republic of Indonesia				
Series A Dwiwarna share	1	125	125	0.00
Series B ordinary shares	48,533,333,333	125	6,066,666,666,625	52.00
Indonesia Investment Authority				
Series B ordinary shares	7,466,666,666	125	933,333,333,250	8.00
Board of Commissioners, Directors and Public				
Series B ordinary shares	37,333,333,332	125	4,666,666,666,500	40.00
Total issued and fully paid-in capital	93,333,333,332		11,666,666,666,500	100.00
Treasury Shares	0	0	0	-

As of the date of this Offering Circular, the Government (through the MSOE) and the Indonesia Investment Authority hold 52.00% and 8.00% of the Bank's issued and outstanding ordinary shares, respectively. No other party holds more than 5.00% of the issued and outstanding ordinary shares of the Bank.

All of the Bank's shares are registered under the name of the holder recorded in the Register. The Special Share is not transferable and may only be owned by the Government. The Government's rights with respect to the Special Share will not terminate unless the Bank's articles of association are amended, which would require the approval of the Government as the holder of the Special Share. All candidates for election to the Board of Commissioners and the Board of Directors must be nominated and approved by the holder of the Special Share.

RELATIONSHIP WITH THE GOVERNMENT AND RELATED PARTY TRANSACTIONS

The Bank and its subsidiaries have entered into a range of transactions with the Government and Government-related entities controlled by the Government as well as other Government-related entities and it is expected that the Bank will enter into similar transactions in the future. Transactions between the Bank and the Government and Government-related entities, as well as transactions between the Bank and entities owned by the Bank as a result of debt-to-equity swaps, are not considered to be related party transactions under IFAS, and have not been disclosed as transactions with related parties in the Bank's financial statements included elsewhere in this Offering Circular. Each of the Bank's related party transactions has been conducted on an arm's length basis and on terms that are no worse than terms for similar transactions with unaffiliated third parties. In the Bank's ordinary course of business, it has dealt with and will from time to time deal with other companies owned or controlled by the Government.

Government as shareholder

As a SOE, the majority of shareholding in the Bank is held by the Government (through the MSOE). The Government holds the single non-transferable Special Share, and a majority of the Bank's Series B ordinary shares. In 2021, part of the Government's Series B ordinary shares were transferred to the Indonesia Investment Authority based on the Government Regulation of the Republic of Indonesia No. 111 of 2021 on the Addition of the State Equity Participation of the Republic of Indonesia into the Capital of the Investment Management Institution. As of the date of this Offering Circular, the Government (through the MSOE) and the Indonesia Investment Authority hold 52.00% and 8.00% of the Bank's issued and outstanding ordinary shares respectively.

The Government's ownership of the Special Share gives the Government preferential rights which are not held by the shareholders of the Bank's Series B ordinary shares, including the right to (i) amend the Bank's Articles of association, (ii) amend the Bank's capital structure, (iii) nominate, appoint and/or terminate members of the Board of Directors and/or members of the Board of Commissioners, (iv) merge, consolidate, acquire, spin-off and dissolve the Bank, (v) decide on the remuneration for members of Board of Directors and Board of Commissioners, (vi) transfer or pledge the Bank's assets, if any of such action requires approval by the holders of Special Shares at a general meeting of shareholders ("**GMS**"), (vii) capital participation or reduction of capital participation in other companies, if any such action requires **GMS** approval that must be approved by the holders of Special Shares, (viii) use the Bank's net profit, and (ix) allow investment and non-operating long-term financing which requires **GMS** approval that must be approved by the holders of Special Shares. Accordingly, the Government will have effective control of these matters even if its ownership of the Bank's shares were to decline to less than a majority.

On 24 February 2025, the Government officially enacted the New SOE Law, under which the Government established a new national investment management body, Investment Authority of Indonesia (IAI) of Daya Anagata Nusantara (*Badan Pengelola Investasi Daya Anagata Nusantara*) ("**Danantara**"), which will act as Indonesia's national holding company and is expected to consolidate the Government's holdings of common shares in certain state-owned enterprises. Under the New SOE Law, Danantara has been granted certain governance powers over such state-owned enterprises, which were previously held by the MSOE. This effectively creates a dual oversight framework for such SOEs, as governance powers will now be shared between Danantara and MSOE as prescribed under the New SOE Law. As of the date hereof, the Government is determining which SOEs will be placed under Danantara's management. Upon such determination, if the Government mandates the Bank to be placed under Danantara's common shareholding, the Government may transfer its holding of common shares in the Bank to Danantara, although the Government (through Danantara) will remain the ultimate controlling shareholder of the Bank. For more details, see "*Risk Factors – Risk Relating to the Bank – The*

Government is, and will continue to be, the Bank's ultimate controlling shareholder, and may influence the Bank's business practices and policies."

Although the Government does not involve itself in the Bank's daily management, as the Bank's ultimate controlling shareholder (directly or (if and when established) indirectly through Danantara), the Government is interested in the Bank's performance both in terms of the benefits it provides to the Government, such as the Bank's ability to provide a return on the Government's investment in it, as well as the Bank's ability to operate on a commercial basis.

The Bank's policy is to not enter into transactions with affiliates, including other Government-related entities, unless the terms are no less favourable to the Bank than those that could be obtained by the Bank on an arm's length basis from an unaffiliated third party. The MSOE has advised the Bank that the Government, in its capacity as the Bank's ultimate controlling shareholder, will not cause it to enter into transactions with other entities under the control of the Government unless the terms are consistent with the Bank's policy. Although the Bank lends to some Government-related entities on an unsecured basis depending on the credit quality of the borrower and certain other factors, the Bank believes that this is consistent with commercial arm's length terms, based on its risk assessment of such entities and similarity to terms extended by other Indonesian Government-related banks to Government-related entities.

Under OJK regulations, any transaction in which there is a conflict of interest must be approved by a majority of the shareholders who do not have a conflict of interest in the proposed transaction. The OJK has the power to enforce this rule and the Bank's shareholders may also be entitled to seek enforcement or bring enforcement actions based on this rule.

Transactions between the Bank and other Government-related entities could constitute "conflict of interest" transactions under OJK regulations, and the approval of disinterested shareholders would have to be obtained if a conflict of interest were to exist. The Bank believes that many transactions conducted with Government related entities in the ordinary course between the Government and the Bank are on an arm's length, commercial basis and do not constitute "conflict of interest" transactions for which a disinterested shareholder vote would be required. Such transactions might include the extension of credit by the Bank to Government-related entities or deposits with the Bank by Government-related entities.

Government as regulator

The supervision and operational aspects of the Indonesian banking sector are carried out by the OJK and certain aspects by Bank Indonesia. In particular, the OJK has the authority to regulate and supervise the institutional, soundness and prudential aspects in the Indonesian banking sector, while Bank Indonesia has the authority to regulate and supervise the Indonesian monetary and payment system. See "*Banking Regulation and Supervision*".

Government as customer

Many of the Bank's customers are Government-related entities. The Government and Government-related entities in the aggregate accounted for 7.76% of the Bank's deposits (standalone) and 7.35% of the Bank's loans (standalone) as of 31 December 2024. See "*Description of the Bank's Assets and Liabilities*".

The table below sets out the relevant amounts of deposits and loans (standalone) as of 31 December 2024:

	As of 31 December 2024		
	(Rupiah billion)	(US\$ million)	%
Deposit			
Government and institutional segment	102,937.62	6,395.63	7.76
Others	1,223,950.23	76,045.37	92.94
Total deposits	1,326,887.85	82,441	100.00
Government and institutional segment	96,337.44	5,985.55	7.35
Others	1,214,441.96	75,454.61	92.65
TOTAL LOANS	1,310,779.40	81,440.16	100.00

Transactions with the Government

Recapitalisation programme

In May 1999, the Government implemented a recapitalisation programme for the Bank by issuing Government recapitalisation bonds. See “*The Indonesian Banking Industry*”.

Standby letters of credit and loan conversions

The Bank has issued trade and guarantee facilities to a number of Government-related entities, as of 31 December 2024, collectively amounted to for Rp8,048 billion (US\$500.05 million).

Deposits

As of 31 December 2024 and 2023, 7.76% and 7.89%, respectively, of the Bank’s deposits were from Government-related entities.

Loans

As of 31 December 2024 and 2023, 7.35% and 6.70%, respectively, of the Bank’s loans were extended to SOEs and Government-related entities.

Channelling loans

The Bank provides and administers for the Government channelling loans to corporate and Government-related entities (as channelling agent/bank). Such loans finance certain socio-economic investments and projects in Indonesia, such as channelling loans from Bank Indonesia, from former of PIR Plantations to farmers for community plantation development, and of Industrial Plantation Forest Reforestation (DR HTI) from the Ministry of Environment and Forestry (KHLK).

Fund borrowings

The Bank provides, channels and administers fund borrowings from the Government and serves loans to corporates and individuals as an executing bank. Such loans finance certain socio-economic investments and projects in Indonesia, such as two-step loans from the Ministry of Finance based on the primary loan agreement between the Republic of Indonesia and the Asian Development Bank (“**ADB**”) for Microcredit Project (Loan 1327-INO) and two-step loans from the Ministry for Public Work and Housing (*Kementerian PUPR*) in the Housing Finance Liquidity Facility Program for first-time home owners.

Cash management

For a number of the Bank's customers which are state-owned, the Bank provides integrated cash management and trade solutions.

Transfer of certain investments and non-core fixed assets

Properties

As of 31 December 2024, the total acquisition value, accumulated depreciation, and book value of the property owned by the Bank was Rp50.38 trillion, Rp4.37 trillion and Rp46.01 trillion, respectively.

The Bank has land parcels in various locations in Indonesia with land rights in the form of 1,336 certificates of ownership rights, with a total area of approximately 2.70 million square metres, and 125 certificates of building use rights, with a total area of approximately 206,563 square metres, all of which are registered on behalf of the Bank. In addition, the Bank also controls land parcels with land rights in the form of three certificates with an area of approximately 3,132 square metres and five certificates of building use rights with a total area of approximately 6,276 square metres, all of which are still registered on behalf of other parties.

In addition, the Bank also controls land parcels based on other evidence, namely sale and purchase agreements, land use permits, and land use determinations with a total area of 13,916 square metres. Thus, the Bank owns or controls a total land area of approximately 2.93 million square metres.

Board of Commissioners and Board of Directors

All candidates for election to the Board of Commissioners and to the Board of Directors must be nominated by the Government as the holder of the Special Share.

Other arrangements with and on behalf of the Government

In the past, the Bank been requested to perform certain functions with, or on behalf of, the Government. There can be no assurance that the Government will not request the Bank to perform such functions again in the future. See *"Risk Factors – Risks Relating to the Bank"*.

Insurance

The Bank's policy is to ensure that all of the insurable properties the Bank owns are adequately insured against fire, earthquake and other usual risks. As of 31 December 2024, the Bank had insured the Bank's buildings, including official residences, office buildings and other buildings, up to a total coverage amount of Rp11.42 trillion, which the Bank believes is adequate to cover the possibility of losses arising in relation to the Bank's insurable properties.

Most of the Banks's fixed assets are insured by PT Asuransi Kredit Indonesia (Persero), are third-party entities.

Loans

Loans made to the Bank's employees consist of interest-bearing loans at 5.00% per annum for mortgages, 6.00% per annum for auto loans, and 7.00% per annum for multipurpose loans with maximum tenors of 20 years, 5 years, and 5 years, respectively. The loans are paid through monthly deductions.

Transactions with the Bank's subsidiaries

From time to time, the Bank also enters into various transactions or arrangements with the Bank's subsidiaries, including those subsidiaries that are not wholly owned by the Bank, including but not limited transactions or arrangements relating to (i) money remittance services, (ii) utilisation of the Bank's Data Centre and Disaster Recovery Centre as well as the Bank's ATM and EDC units, (iii) granting of short term working capital or intraday facilities or treasury transaction services to the Bank's subsidiaries carrying out business as securities companies, (iv) vehicle joint financing facilities to the Bank's subsidiaries' customers, either for new or used vehicles, (v) offering subsidiaries' bancassurance products through the Bank's distribution channels, (vi) custodian services, and (vii) acting as selling agent for the Bank's subsidiaries' mutual fund securities.

For more information regarding the Bank's transactions and balances with related parties, refer to the Bank's consolidated financial statements as of and for the years ended 31 December 2023 and 2024.

THE INDONESIAN BANKING INDUSTRY

The information in this section relating to the Indonesian banking industry has been derived or extracted from reports prepared by industry advisers or sources available in the public domain. The methodologies used for collecting the information and data presented in this section may differ from those of other sources and does not reflect all or even necessarily a comprehensive set of the actual transactions occurring in the Indonesian banking industry. This information has not been independently verified by the Bank, the Dealers or the Arrangers or their respective legal, financial or other advisors, and no representation is made as to the accuracy or completeness of this information. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Structure of the industry

Prior to 1988, the Indonesian banking industry consisted of commercial banks, savings banks and development banks, with Bank Indonesia as the central bank. The modern banking industry generally consists of (a) commercial banks (both Government or privately-owned) and (b) rural banks (*bank perkreditan rakyat* or “BPRs”). As of November 2022, there are 107 commercial banks, and 1,442 BPRs. Source: Indonesia Banking Statistics November 2022 volume 20 No. 12 published by the OJK.

Developments in the Indonesian banking industry

The following sections describe major developments in the Indonesian banking industry from 1983 to the present.

Deregulation: 1983-1991

In 1983, the Government began a programme of deregulation policies for the Indonesian banking industry, designed to encourage a sound, efficient and strong banking system. These policies eliminated credit ceilings, reduced liquidity credit requirements, improved banks' autonomy to set interest rates on loans, savings and deposits and introduced money market instruments.

Prior to 1988, the Indonesian banking industry consisted of commercial banks, savings banks and development banks. However, seven Government-related banks that provided over 60.0% of all outstanding credit remained dominant in the Indonesian banking industry. In an effort to further deregulate the industry, mobilise domestic savings and encourage competition among banks, the Ministry of Finance introduced a package of deregulatory reforms in October 1988, including a more lenient standard of licensing for new banks. In the following years, a large number of new banks became licensed and consequently, deposits and loans grew rapidly from 1989 to 1990.

In February 1991, the Government introduced policies that further detailed and refined the October 1988 deregulation package. The new policies included an increase of CAR to a minimum requirement of 8.0% of risk-weighted assets, applicable to the entire industry.

Economic growth: 1991-1996

The increase of the minimum CAR requirement to 8.0% of risk-weighted assets was a form of monetary tightening that impacted the growth rate of the Indonesian banking sector. From 1991 to 1993, deposits and loan growth rates declined and some consolidation occurred. During this period, some Government-related banks and many private banks experienced slower loan growth and raised additional capital in order to raise their CAR to the minimum level required by Bank Indonesia. In August 1994, the Government set a 25.0% limit on banks' foreign exchange Net Open Position.

Most of 1992 and 1993 saw a gradual decline in deposit and loan interest rates, accompanied by a significant decline in asset quality and higher levels of NPLs. Beginning in early 1994, interest rates in Indonesia began to rise again, primarily in response to higher offshore interest rates resulting from the US Federal Reserve Board's increases in the discount rate and the US federal funds rate. After the reduction of the US federal funds rate in July 1995, however, interest rates in Indonesia stabilised somewhat and later declined slightly.

Economic crisis and recovery: 1997 to the present

The Asian financial crisis of 1997 resulted in serious liquidity problems for most of the Indonesian banks. During the economic crisis, liquidity difficulties emerged as a result of, among other causes, massive cash withdrawals from banks by depositors triggered by declining public confidence in the Indonesian banking system. As an increasing number of banks failed to comply with the mandatory reserve requirements, the Government intervened by offering liquidity support, extended to the banks on strict terms, through loans and guarantees to banks. See "*Risk Factors – Risks relating to the Indonesian Banking Industry*".

Indonesian Bank Restructuring Agency

IBRA was established by Presidential Decree No. 27/1998 on the Establishment of the Indonesian Bank Restructuring Agency dated 26 January 1998 as an autonomous agency of the Ministry of Finance in response to the economic crisis of 1997. IBRA's mandate was to: (i) handle administration of certain guarantees granted by the Government to commercial banks; (ii) monitor and restructure banks that had been declared unsound; and (iii) conduct all legal actions required within the framework of the restructuring of the banks. In short, the central mission of IBRA was to assist Indonesia's economic recovery through bank restructuring and corporate debt restructuring and to optimise the Government's return on funds loaned to banks as liquidity support and in the form of Government bonds in order to reduce the burden on the Government budget. See "*Risk Factors – Risks relating to the Indonesian Banking Industry*".

IBRA was granted extraordinary powers such as the authority to supervise banks, to acquire, manage, transfer and sell bank assets and to restructure and rehabilitate banks under its supervision. Through IBRA, the Government executed various bank closures, recapitalisations, and mergers and acquisitions to pursue the ultimate goal of having fewer but stronger commercial banks with extensive geographic coverage and offering a wide range of services.

Government guarantee programme and deposit insurance

In response to the economic crisis and to support the deteriorating Indonesian banking industry, the Government established Government guarantee and exchange offer programmes in 1998 to provide guarantees to bank depositors and creditors. In general, the obligations that were guaranteed under the Government guarantee programme included on-balance sheet and off-balance sheet obligations of Indonesian commercial banks (including overseas branches of such banks) owed to foreign and domestic depositors and creditors, including obligations denominated in Rupiah and foreign currencies, subject to certain limits.

The Government guarantee programme, which was implemented and administered by IBRA, was automatically extended every six months, subject to the authority of the Minister of Finance to announce that it did not intend to extend the programme prior to the end of any six-month term.

After IBRA was dissolved in early 2004, the Government guarantee programme was administered by a unit under the Ministry of Finance. The Government guarantee programme ended in September 2005, after the Indonesia Deposit Insurance Corporation (*Lembaga Penjamin Simpanan* or "**LPS**") was established under Law No. 24 of 2004 dated 22 September 2004, as most recently amended by the Financial Sector Omnibus Law ("**IDIC Law**"), and commenced insuring bank payment obligations (deposits).

The LPS insures third-party (non-bank) funds and interbank deposits which include current accounts, time deposits, certificate of deposits, savings accounts and/or other forms of deposits that are treated the same as those types of deposits. The amount of a deposit insured by the LPS is the balance of the deposit which consists of principal and accrued interest or return at the date of revocation of a bank's license. The insured amount for each depositor in one bank is the sum of all balances of accounts the depositor maintains at such bank, in single or joint accounts to a maximum amount of Rp100.0 million, effective 22 March 2007. The insured deposit balance for each depositor is a maximum of Rp2.0 billion effective from 13 October 2008.

Exchange offer programmes

The exchange offer programmes were established pursuant to two agreements reached between Bank Indonesia and creditors of certain Indonesian banks. The first exchange offer programme was introduced in late 1998 pursuant to an agreement reached on 18 August 1998. The second exchange offer programme was introduced the following year pursuant to an agreement reached on 25 May 1999. These Government-sponsored programmes sought to assist in the restructuring of loans by changing interest rates or tenors, among other terms. Under the exchange offer programmes, Bank Indonesia provided an unconditional and irrevocable guarantee of the obligations of the relevant Indonesian banks.

Under the 1998 exchange offer programme, "eligible debt" was exchanged for new loans which were divided into four tranches with final maturity dates of one, two, three and four years. Participants in the 1999 exchange offer programme exchanged eligible debt for new loans which were divided into four tranches with final maturity dates of three, four, five and six years.

For the purpose of the 1998 exchange offer programme, eligible debt was defined as outstanding non-Rupiah-denominated (i) inter-bank deposit obligations and short-term debt of any obligor maturing prior to 1 April 1999 and (ii) current maturities of medium- and long-term debt of any obligor falling due prior to 1 April 1999. For the purpose of the 1999 exchange offer programme, eligible debt was defined as outstanding non-Rupiah-denominated (i) inter-bank deposit obligations and other short-term debt of any obligor matured or maturing prior to 1 January 2002 and (ii) current maturities of medium- and long-term debt of any obligor falling due prior to 1 January 2002 (other than as a result of acceleration, unless such acceleration occurred prior to 15 March 1999 pursuant to an existing contractual right). "Obligors" were defined as Government-related commercial banks and private banks and their foreign banking subsidiaries and overseas branches and agencies. See *"Risk Factors – Risks relating to the Notes"*.

Bank recapitalisation programme

In February 1999, the Minister of Finance and the Governor of Bank Indonesia created, under joint decree, a bank recapitalisation programme (the "**Bank Recapitalisation Programme**") to increase the CAR of eligible banks to at least 4.0%. For banks participating in the Bank Recapitalisation programme (except for Government-related banks, regional development banks and banks taken over by IBRA), controlling shareholders were obliged to inject cash equivalent to at least 20.0% of the capital shortfall required to reach a CAR of 4.0%. The controlling shareholders could make the capital injection jointly with strategic investors or the entire amount could be made by strategic investors alone. For this purpose, "controlling shareholders" means parties owning 25.0% or more of the total issued voting shares of a commercial bank or parties owning less than 25.0% but who directly or indirectly control such bank. Within three years, any shareholder was entitled to buy back the shares owned by the Government pursuant to call options. Further, the Government could sell its shares to the public after first offering the shares to such bank's existing shareholders.

On 13 March 1999, the Government determined that 74 banks were sufficiently sound to continue to operate without participating in the Bank Recapitalisation Programme. Nine banks were allowed to continue provided they were recapitalised under the Bank Recapitalisation Programme. These institutions included Bank Niaga, Bank Lippo, Bank Internasional Indonesia, Bank Bali, Bank Universal, Bank Umum Koperasi Indonesia (Bukopin), Bank Prima Express, Bank Arta Media and Bank Patriot. In July and September 1999, respectively, Bank Niaga and Bank Bali opted out of the Bank Recapitalisation Programme and IBRA took over their control.

Under a Joint Decree of the Minister of Finance and Governor of Bank Indonesia No. 117/KMK.017/1999 and No. 31/15/KEP/GBI dated 26 March 1999 on the Realisation of Bank Recapitalisation Programme for Banks Take Over, the Government acquired temporary investments in certain banks at the minimum amount to meet the minimum CAR of 4.0%. The required temporary investment by the Government was determined based on the due diligence review of an independent party appointed by IBRA. Five Government-related banks were also merged and recapitalised in July 1999 to increase the CAR of the merged entity to at least 4.0%. In June 2000, the Government, through IBRA, merged eight banks it had taken over (namely Bank Duta, Bank Rama, Bank Tamara, Bank Tiara Asia, Bank Nusa Nasional, Bank Pos Nusantara, Jayabank International and Bank Risjad Salim) into Bank Danamon.

In December 2001, the Government, through IBRA, announced plans to merge five commercial banks, Bank Bali, Bank Universal, Bank Arta Media, Bank Prima Express and Bank Patriot. The legal merger of these banks became effective on 30 September 2002, the resulting merged entity being known as Bank Permata.

Bank consolidation

The Indonesian banking sector has continued to experience consolidation from 2000 until the present, in part as a result of Bank Indonesia Regulation No. 7/15/PBI/2005, as amended by Bank Indonesia Regulation No. 9/16/PBI/2007 on the Minimum Core Capital for Commercial Banks ("**BI Regulation No. 7/2005**"), which required commercial banks to meet a minimum core capital requirement of Rp80.0 billion by the end of 2007 and a minimum core capital requirement of Rp100.0 billion by end of 2010. Following the implementation of this regulation, the Government merged Bank Bumi Daya, Bank Dagang Negara, Bank Ekspor Impor Indonesia and Bank Pembangunan Indonesia to create Bank Mandiri in 1999. Separately, PT Bank Artha Graha merged into PT Bank Inter-Pacific in 2005, PT Bank Hana purchased PT Bank Bintang Manunggal in 2007, PT Bank Commonwealth Indonesia merged with PT Bank Arta Niaga Kencana Tbk in 2007 and PT Bank Bukopin Tbk purchased PT Bank Persyarikatan Indonesia in 2008, among others.

BI Regulation No. 7/2005 was then fully revoked by OJK Regulation No. 12/POJK.03/2020 on Commercial Bank Consolidation ("**OJK Regulation No. 12/2020**"), which requires banks to meet a minimum core capital requirement of Rp3.0 trillion at the latest on 31 December 2022 through the following stages: (a) Rp1.0 trillion at the latest on 31 December 2020, (b) Rp2.0 trillion at the latest on 31 December 2021, (c) Rp3.0 trillion at the latest on 31 December 2022. OJK Regulation No. 12/2020 took effect since 17 March 2020.

Indonesian financial services institutions

On 27 October 2011, the Indonesian parliament approved the OJK Law. Pursuant to the transition provision of the OJK Law, (i) effective from 31 December 2012, all authority with respect to regulation and supervision of the financial sector, including the insurance and multi-finance sectors, was transferred from the Ministry of Finance as performed by Bapepam-LK to the OJK and (ii) effective from 31 December 2013, all authority with respect to regulation and supervision of the Indonesian banking sector was passed from Bank Indonesia to the OJK. As of 31 December 2013, the OJK is the primary Government entity overseeing Indonesian's banking system, with the authority to license, regulate, supervise, sanction and investigate.

Committee of Financial System Stability

On 15 April 2016, the Government issued Law No. 9 of 2016 on Prevention and Management of the Financial System Crisis, as most recently partially revoked by the Financial Sector Omnibus Law (“**Law No. 9/2016**”). Through Law No. 9/2016, the Government attempts to maintain the stability of the financial system. Resistance to external disruptions that may hit the financial system is one of the objectives of stability under this law. Law No. 9/2016 is an overarching law that encompasses the Government’s major concerns in achieving the stability of the financial system, which are among others:

- (a) Prevention of crisis of the financial system through a coordinated surveillance and maintenance of the stability of the financial system;
- (b) Financial system crisis management; and
- (c) Management for systematic banks (including, the domestic systematically important banks).

Under Law No. 9/2016, the Committee of Financial System Stability (*Komite Stabilitas Sistem Keuangan* or “**KSSK**”) is established to enhance the coordination between the Government, Bank Indonesia, the OJK and the LPS.

Members of the KSSK comprise (i) the Ministry of Finance as the coordinator as well as a member with voting right, (ii) the Governor of Bank Indonesia as a member with voting right, (iii) the Head of the Board of Commissioner of the OJK as a member with voting right, and (iv) the Head of the Board of Commissioners of the LPS as a member without voting right. The KSSK is responsible for the prevention and the management of crisis suffered by the financial system. The KSSK is required to prepare a set of criteria and indicators to determine the stability level of the financial system. The president of Indonesia (the “**President**”) would determine if a crisis has arisen based on the recommendation provided by the KSSK.

If the President determines that the financial system is in crisis, the KSSK must come up with recommendations to manage the crisis. One of the recommendations that can be proposed to the President is a banking restructuring programme. The LPS would be the institution in charge of the banking restructuring programme. Law No. 9/2016 further stipulates that funding for the banking restructuring programme may originate from:

- (a) The relevant bank’s shareholders or other parties in the form of a capital increase or conversion of certain debts into capital;
- (b) The result of the relevant bank’s assets and liabilities management;
- (c) Contributions made by the banking industry; or
- (d) Loans obtained by the LPS from other parties.

Foreign ownership

Historically, foreign banks were granted licenses only to operate as wholly-owned branches (with operating restrictions) and as joint venture banks or representative offices. In 1999, the Government pursuant to Government Regulation No. 29 of 1999 allowed banks with up to 99.0% foreign ownership to operate in Indonesia without any restrictions. As a result, ABN Amro Bank (now Royal Bank of Scotland Plc), American Express Bank Ltd (now closed), Bank of America, N.A., Bank of China Limited, Citibank N.A., Deutsche Bank AG, J.P. Morgan Chase Bank, N.A., Standard Chartered Bank, The Bangkok Bank Comp. Ltd., the Bank of Tokyo Mitsubishi UFJ Ltd and The Hongkong and Shanghai Banking Corporation Limited opened branches in Indonesia.

Since March 2002, foreign participation in the Indonesian banking sector has risen as major stakes in Indonesian banks have been sold to foreign investors. PT Bank Internasional Indonesia Tbk. (now PT Bank Maybank Indonesia Tbk.), PT Bank NISP Tbk. (now PT Bank OCBC NISP Tbk.), PT Bank Buana Tbk. (now PT Bank UOB Indonesia), PT Bank ICB Bumiputra Indonesia Tbk. (now PT Bank MNC Internasional Tbk.), PT Bank Permata Tbk., PT Bank Danamon Tbk. and PT Bank QNB Kesawan Tbk. (now PT Bank QNB Indonesia Tbk.) are now majority owned by foreign investors. In a number of other Indonesian banks are either majority or minority owned by foreign investors. In addition, certain foreign banks have been granted licenses to operate wholly-owned branches (with operating restrictions) or representative offices and as joint venture banks in Indonesia.

On 9 December 2016, OJK issued Regulation No. 56/POJK.03/2016 on Share Ownership of Commercial Banks ("**OJK Regulation No. 56/2016**"), which set out the following shareholding percentage requirements for Indonesian commercial banks:

- Financial institutions (including banks, finance companies, insurance companies and pension funds), either local or foreign, may own only up to 40.0% of an Indonesian bank;
- Non-financial institutions, special purpose vehicles and funds, either local or foreign, may own only up to 30.0% of an Indonesian bank; and
- Individuals may own only up to 20.0% of an Indonesian bank.

With special approval from the OJK, financial institutions in the form of banks may own more than 40.0% of an Indonesian bank. The approval may be granted upon satisfaction of certain criteria by the financial institution and its shareholders. However, within five years of the financial institution owning more than 40.0% of the Indonesian bank, public shareholders must own at least 20.0% of that Indonesian bank's capital.

Single presence policy

In order to expedite the consolidation of the banking industry in Indonesia, in 2006 Bank Indonesia introduced a "single presence" policy, with the purpose of simplifying Bank Indonesia's control and risk assessment by allowing entities to be a controlling shareholder in only one Indonesian bank.

Under the OJK Regulation No. 41/POJK.03/2019 on Merger, Consolidation, Acquisition, Integration and Conversion of Commercial Banks, a controlling shareholder is a shareholder that (i) owns 25.0% or more of the total issued shares of a bank or (ii) owns less than 25.0% of the total issued shares of a bank but has actual control (whether directly or indirectly) over such bank.

OJK's single presence policy is regulated by OJK Regulation No. 39/POJK.03/2017 on Sole Ownership in Indonesian Bank ("**OJK Regulation No. 39/2017**") as implemented by OJK Circular Letter No. 44/SEOJK.03/2017 dated 19 July 2017 ("**OJK Circular No. 44/2017**").

OJK Regulation No. 39/2017 provides that an entity may become a controlling shareholder in only one bank, with an exemption for (i) a controlling shareholder who becomes the controlling shareholder of two banks having business activities based on differing principles, for example, conventional and Sharia banking or (ii) a controlling shareholder who becomes the controlling shareholder of two banks and one of the banks is a joint venture bank.

A party which already controls more than one bank, or which acquires a bank which will result in that party controlling more than one bank, must comply with the single presence policy by:

- (a) undertaking a merger or consolidation of the banks controlled by that party;

- (b) forming a bank holding company (for this purpose, a bank holding company is defined as a legal entity incorporated in Indonesia which is formed and/or owned by the controlling shareholder for the purpose of consolidating and directly controlling all the activities of the banks which are its subsidiaries); or
- (c) forming a holding function (for this purpose, holding function is defined as the function of a controlling shareholder (where the controlling shareholder in question is an Indonesian bank or the Government) of consolidating and directly controlling all the activities of the bank which are its subsidiaries).

The requirements for compliance with the single presence policy (including, requirement to undertake merger or consolidation, forming a bank holding company) must be carried out within one year of completion of a party's acquisition of shares in another bank, in the case where such acquisition results in such party becoming a controlling shareholder of more than one bank.

OJK Regulation No. 39/2017 describes exemptions for any controlling shareholder in two banks, as regards the implementation of the single presence policy. Specifically, shareholders are exempt from the policy under the following conditions: (i) if each controlled bank is being operated under different business principles (including conventional and Sharia banking); and (ii) if one of the controlled banks is a joint venture bank. The requirements for compliance with the single presence policy (including requirement to undertake merger or consolidation, forming a bank holding company) must be carried out within one year of completion of the acquisition of the shares in another bank, in the case where such acquisition results in a party becoming a controlling shareholder of more than one bank.

The requirement for compliance with the single presence policy (including requirement to forming a holding function) must be carried out within six months as at a party is already a controlling shareholder of more than one bank or such acquisition results in a party becoming a controlling shareholder of more than one bank (as the case may be).

The OJK may extend, in its discretion, the deadlines for compliance with the single presence policy as above, in circumstances where in the OJK's assessment the difficulties encountered by the controlling shareholder and/or the banks controlled by it are of such complexity that an extension is justified.

A controlling shareholder which fails to comply with the single presence policy is prohibited from controlling, and is prohibited from owning, more than 10.0% of voting shares in each of the relevant banks. Correspondingly, in a general meeting of shareholders, the banks in question can only register at most 10% of the total voting shares of the relevant bank as being held by the non-compliant controlling shareholder. Any shares above 10.0% held by the controlling shareholder will be treated as shares with no voting rights until such time as those shares are sold to another party. A bank which fails to comply with this requirement will be subject to a fine of Rp500.0 million, and/or sanctions in the assessment of aspects of governance in the assessment of bank health level.

A non-compliant controlling shareholder which fails to comply with the single presence policy, must sell shares held by it in the bank, which are in excess of the permitted 10%, to another party within one year of the deadline set out above. A non-compliant controlling shareholder which fails to do so, will be prohibited from becoming a controlling shareholder of any bank in Indonesia for 20 years.

To encourage banking sector consolidation, OJK offers certain incentives for bank mergers. A bank which undertakes a merger or consolidation will be provided various incentives in the form of:

- (a) time extension in relation to curing any legal lending limit requirement for banks which has been exceeded;
- (b) ease of opening branches;
- (c) temporary relaxation of application of corporate management of commercial banks; and/or
- (d) other incentives, in accordance with the provisions of the regulations on incentives for banking consolidation.

The above incentives will be granted by OJK in accordance with the existing Bank Indonesia Regulation No. 8/17/PBI/2006, as amended by Bank Indonesia Regulation No. 9/12/PBI/2007 on Incentives for Banking Consolidation.

A bank which is planning to merge or consolidate must submit its merger plan to OJK prior to the merger or consolidation in order to utilise this incentive programme. The application can be submitted by one of the participating banks in the merger or consolidation or jointly and must be signed by the president director of all participating banks. Furthermore, to implement the OJK Regulation No. 39/2017 and give clarification in connection with the fulfilment of the single presence policy as set out above. OJK, on 19 July 2017 issued OJK Circular No. 44/2017. The OJK Circular No. 44/2017 clarified that in order to carry out a transfer of shares, it is necessary to observe the requirements and procedures relating to the merger, consolidation and acquisition of a commercial bank or requirements and procedures relating to the purchase of shares of a commercial bank, whichever is relevant. In the event of acquisition of a bank by a party which already become a controlling shareholder of one bank, the application for such acquisition approval to OJK shall be accompanied by the completion plan which relates to the satisfaction of the single presence policy obligation (e.g., undertaking merger or consolidation). Such acquisition plan shall become an integrated process with the merger and consolidation. The OJK Circular No. 44/2017 clarifies the procedure for fulfilling the single presence policy obligation in a merger or consolidation of a bank holding company and sets out the holding structure.

Basel II and Basel III Implementation

In 2008, Bank Indonesia commenced the implementation of Basel II in phases in order to encourage the Indonesian banking industry to meet international standards. Basel II requires the incorporation of additional market risk and operational risk considerations into the calculation of capital adequacy. The new capital adequacy requirements under Basel II were introduced in Indonesia on 1 January 2009 for banks with assets of more than Rp1.0 trillion. For other banks, the new capital adequacy requirements under Basel II were introduced in June 2009. Currently, Indonesia is gradually implementing Basel III in its regulations. For example, the elucidation of OJK Regulation No. 11/2016 and OJK Regulation No. 63/POJK.03/2020 on Commercial Bank Reporting Through OJK Reporting System briefly explains that the regulation was formulated in an attempt to, among other things, adopt the international standards being introduced in Basel III. Based on the official guideline on Indonesian Banks Overview that was published by OJK, Basel III has been implemented in the Indonesian banking sector since 2014, and is being phased in until its full implementation in 2023 for all commercial banks.

The Financial Sector Omnibus Law

The Financial Sector Omnibus Law partially amends several provisions of Law No. 7 of 1992 on Banking as amended by Law No. 10 of 1998 and further amended by Governmental Regulation in lieu of Law No. 1 of 2020 (the “**Banking Law**”). The Financial Sector Omnibus Law includes several provisions applicable to commercial banks, among others:

- (a) commercial banks can take an equity interest in financial service institutions and/or other banking sector supporting companies;
- (b) commercial banks are required to be transparent in respect of interest rates to encourage rate setting efficiency. The interest rate transparency is achieved by publishing prime lending rates, including information on cost of funds, margin, and overhead cost;
- (c) commercial banks are required to extend credit facility to micro, small and medium enterprises (further implementation of this obligation will be regulated by OJK); and
- (d) commercial banks may access customer data and information from other financial providers, including organisers of the Financial Sector Technology Innovation (*Inovasi Teknologi Sektor Keuangan – ITSK*), to the extent approved by the respective customers.

Expansion of Banking Business

On 10 December 2024, OJK issued OJK Regulation No. 26 of 2024 on Expansion of Banking Business (“**OJK Regulation No. 26/2024**”). It notably allows banks to make capital participation in financial services institutions and companies that support the banking industry. These include:

- (a) companies established to support the business activities of banks or their subsidiaries;
- (b) companies whose primary business is to produce financial products using information technology;
- (c) companies that provide supporting services to the banking industry; and
- (d) offshore companies that meet the following criteria: (i) classified as financial services institutions by the relevant authority; and (ii) engage in business activities comparable to those of financial services institutions under OJK regulations.

OJK Regulation No. 26/2024 took effect on 13 December 2024.

BANKING REGULATION AND SUPERVISION

The following information has been derived from various Indonesian laws and regulations, Government and other public sources and information provided by the Government and has not been independently verified by the Bank, the Dealers and the Arrangers or their respective legal, financial or other advisors.

Bank Indonesia

In 1992, Bank Indonesia became the primary Government entity overseeing Indonesia's banking system under the following laws and regulations:

- (a) The Banking Law; and
- (b) Law No. 23 of 1999 on Bank Indonesia dated 17 May 1999 as most recently amended by the Financial Sector Omnibus Law and Government Regulation In Lieu of Law No. 2 of 2008 dated 13 October 2008 (the "**BI Law**").

Prior to 1992, the Indonesian banking system was supervised both by Bank Indonesia and the Minister of Finance. In January 1998, in response to the economic crisis, the Government established the Indonesian Bank Restructuring Agency ("**IBRA**") in order to supervise banks in restructuring. The powers and authority given to IBRA as a temporary "special Government agency" are set out in Article 37A of the Banking Law, in conjunction with Government Regulation No. 17 of 1999 dated 27 February 1999 on IBRA and its amendments. On 27 February 2004, through the implementation of Presidential Decree No. 15 of 2004 on the Cessation of Duty and Abolishment of IBRA, the Government terminated IBRA. The Minister of Finance continues to play a role in Indonesia's banking system through the issuance of regulations relating to the administration of Government bonds issued under the Bank Recapitalisation Programme, by virtue of its responsibility for restructuring Government-related banks.

Under the BI Law, Bank Indonesia is technically an independent state institution, free from Government interference. Its objectives are to achieve and maintain the stability of the Rupiah. Bank Indonesia's principal functions are to: (i) stipulate and implement monetary policy in a sustainable, consistent and transparent manner; (ii) regulate and maintain the soundness of the payment systems; and (iii) stipulate and execute macroprudential policy. To support its basic functions, Bank Indonesia is granted the sole authority to issue and control the circulation of the Rupiah. Bank Indonesia also provides guidelines and makes determinations regarding the efficiency of payment system and conducts inter-bank clearing and settlement. Formerly, Bank Indonesia was also given the authority to regulate and supervise banks (see "*– The Indonesian Financial Services Authority (OJK)*").

The Banking Law and BI Law the principal statutes governing commercial bank licensing and regulation. These laws grant extensive banking sector enforcement and other powers to Bank Indonesia. Nowadays, authorities in the banking sector have been assigned to OJK (see "*– The Indonesian Financial Services Authority (OJK)*"). Nonetheless, insofar as regulations, decrees and guidelines issued by Bank Indonesia and the Minister of Finance remain valid, Indonesian banks remain to be subject to those regulations, decrees and guidelines.

The Indonesian Financial Services Authority (OJK)

On 22 November 2011, the Government enacted the OJK Law, which created a new independent institution, the OJK. The OJK took over the supervision and regulation of capital markets, insurance, pension fund and multi-finance companies from Bapepam-LK since 31 December 2012 and took over the supervision and regulation of banks from Bank Indonesia since 31 December 2013.

In the banking sector, the OJK took over the following micro prudential duties and authority previously held by Bank Indonesia, including in:

- (a) issuing permits and approvals relating to, among others, (i) establishment of banks, (ii) opening of a bank's offices, (iii) articles of association and business plans of banks, (iv) ownership, management and human resources of banks, (v) mergers, consolidation and acquisition of banks, and (vi) revocation of banking business licenses;
- (b) regulating and supervising the business activities of banks;
- (c) regulating and supervising the soundness level of banks (including the liquidity, solvability, assets quality, CAR and legal lending limits of banks);
- (d) regulating and supervising the implementation of prudential principles by banks (including risk management, GCG and "**know-your-customer**" principles to prevent money laundering, funding for terrorism and banking crimes); and
- (e) conducting audits on banks.

Although in principle the OJK has the authority to conduct audits on banks, Bank Indonesia (with prior written notice to the OJK) will remain entitled to directly conduct special audits on certain systematically important banks, if such audits are required by Bank Indonesia in the context of its macro prudential function and duties. However, Bank Indonesia is no longer authorised to assess the soundness level of a bank, as this authority has been granted solely to the OJK. If audits by the OJK reveal that a bank is having liquidity problems or experiencing a decline in its soundness level, the OJK will inform Bank Indonesia to take necessary actions in its role as a lender of last resort. In this circumstance, Bank Indonesia may conduct its own audit on a bank with prior written notice to the OJK. Moreover, the OJK must coordinate with Bank Indonesia to formulate regulations pertaining to supervision of the banking sector.

Licensing and limitation of business activities of banks

Under the Banking Law and BI Law, any party engaged in banking activities, which include deposit taking and the use of such deposits for lending, must obtain a license for such purpose from the OJK. The OJK's approval is also required in order to open branch offices and overseas representative offices. Indonesian banks are subject to a number of restrictions on the operation of their business and the conduct of their corporate affairs. In particular, an Indonesian bank is prohibited from:

- (a) holding shares in other companies, with the following exceptions:
 - (i) share participation in financial institutions (which include banks, leasing companies, venture capital companies, securities companies, and insurance companies), subject to certain OJK requirements;
 - (ii) share participation in other companies that support the banking industry (e.g. fintech companies), subject to certain OJK requirements;
 - (iii) temporary share participation in non-financial institutions in connection with permitted restructuring of non-performing loans or sharia financing, with the obligation to divest;
- (b) engaging in the insurance business (except for share or capital participation in insurance companies as described above or marketing of insurance products in cooperation with an insurance company); and
- (c) engaging in any activity prohibited by the Banking Law, such as acting as an underwriter.

Under OJK Regulation No. 26/2024, as of 13 December 2024, Indonesian banks are allowed to hold shares in financial services institutions and companies that support the banking industry, thereby broadening Indonesian banks' capability in making equity investments. See "*The Indonesian Banking Industry – Expansion of Banking Business*".

Bank ownership

General overview of share ownership in Indonesian banks

Under OJK Regulation No. 56/2016, the limitation of share ownership in an Indonesian bank is based on the "category of shareholders" and "relationship between shareholders". Based on the category of the shareholders, the ownership limitations are as follows:

- (a) banks and non-bank financial institutions, whether foreign or local legal entities, can only own shares up to 40.0% of an Indonesian bank's paid-up capital. Share ownership exceeding the 40.0% limitation would be subject to certain requirements and approval from the OJK;
- (b) legal entities that are non-financial institutions (including foreign funds), be it a foreign or local legal entity, can only own shares up to 30.0% of the paid-up capital of an Indonesian bank; and
- (c) individuals (natural persons) can only own up to 20.0% of shares of the paid-up capital of an Indonesian bank.

The ownership limitation based on "relationship between shareholders" is applicable if a shareholder has relationship with another shareholder in an Indonesian bank. If the relationship is established, these shareholders will qualify as one party. Shareholders having any of the following relationships will be deemed as one party:

- (a) relationships based on ownership over the shareholders;
- (b) family relationship up to the second degree; and
- (c) a cooperation or a mutual action to achieve a mutual goal when the shareholders control such bank (acting in concert) with or without a written agreement, for which they have an option or other rights to own the bank.

After being classified as one party, the above ownership limitation based on the "category of shareholders" will apply, both at the "party" level and at the individual shareholder level. The following mechanisms are applicable to determine the ownership limitation for a party:

- (a) on the party level, the maximum ownership for a party is whichever is higher between the limitations applicable to each of the shareholders; and
- (b) on the individual shareholder level, the maximum ownership for each shareholder refers to the limitation based on the "category of shareholder".

Financial institutions in the form of banks may own more than 40.0% of an Indonesian bank subject to approval from OJK and certain criteria which are applicable to the (bank) shareholder and the bank itself. The bank itself must go public with a minimum of 20.0% of its equity owned by public shareholders within five years of such OJK approval and must obtain the requisite approvals to issue debt securities which may be treated as equity. The Government is exempt from these requirements.

Fit and proper test for controlling shareholder of Indonesian banks

A prospective primary party (including controlling shareholder) of an Indonesian bank must pass a fit and proper test held by the OJK before it can become a controlling shareholder of an Indonesian bank. Under OJK Regulation No. 27/POJK.03/2016 on Fit and Proper Test for Primary Parties of Financial Service Institutions (the “**OJK FPT Regulation**”) and OJK Circular No. 39/SEOJK.03/2016 on Fit and Proper Test for Prospective Controlling Shareholders, Directors and Commissioners of Banks (the “**OJK FPT Circular**”) as its implementing regulation, a controlling shareholder is defined as a party or a group of parties that has 25% or more shares in a bank or has less than 25% but it is proven that the shareholder is exercising control over the management and policy of such bank, directly or indirectly. The approval of the OJK under the fit and proper test is also required for any prospective controlling shareholder that purchases a bank’s shares through the stock exchange.

Further, OJK Regulation No. 34/POJK.03/2018 on Re-Assessment of Primary Parties in Financial Services Institution as amended by OJK Regulation No. 14/POJK.03/2021 (“**OJK Regulation No. 34/2018**”) sets out requirements for reassessment of primary parties (including controlling shareholders) in the case of indications of involvement in and/or responsibility for issues of integrity, financial feasibility, financial reputation, and/or competence within the relevant financial institution, with certain criteria as set out in this regulation. The OJK will access these criteria based on evidence, data, and/or information obtained from supervision or other information.

The OJK FPT Circular regulates the consequences of failing to pass a fit and proper test, as follows:

- (a) if due to the candidate’s failure to meet integrity standards, such candidate:
 - (i) would not able to exercise its right as a controlling shareholder;
 - (ii) would not able to exercise its rights as a shareholder to attend, vote, have its shares to be calculated towards the quorum of the general meeting of shareholders of a bank, and rights relating to dividends; and
 - (iii) must transfer the shares to such bank within a year after the candidate is determined as “unfit” by the OJK; or
- (b) if due to issues regarding financial feasibility, such candidate:
 - (i) would not able to exercise its right as a controlling shareholder;
 - (ii) would only be allowed to exercise the following rights as a shareholder: to attend, vote, and have its shares to be calculated towards the quorum of the general meeting of shareholders of such bank;
 - (iii) would only be entitled to dividends up to the amount attributable to its shareholding prior to it becoming a controlling shareholder; and
 - (iv) must transfer an amount of shares to such bank until it is no longer a controlling shareholder. within a year after such candidate is determined as “unfit” by the OJK.

According to OJK Regulation No. 34/2018, a re-assessment can be held anytime based on discovery of information or data that indicates any integrity or financial feasibility issues as prescribed therein.

If a controlling shareholder of a bank who has passed the fit and proper test is later found to be unfit due to failure to meet integrity standards, such shareholder would not be able to act as (1) a controlling shareholder or own shares in any financial institution (including to act as controlling shareholder, exercise its rights as a shareholder and have its shares to be calculated towards the quorum of the general meeting of shareholders of the bank, and rights relating to dividends and must transfer the shares to such bank) and/or (2) a member of the board of directors or the board of commissioners in any financial institutions, executive officer of a bank, president of branch offices of a bank, vice president of an Indonesian branch of banks domiciled abroad, or head of representative office of banks domiciled abroad.

If found unfit due to financial feasibility issues, the controlling shareholder is not able to act as (1) a controlling shareholder or owns shares in the banking industry (including to act as controlling shareholder, exercise its rights as a shareholder and have its shares to be calculated towards the quorum of the general meeting of shareholders of such bank, and rights relating to dividends and must transfer the shares to such bank) and/or (2) a member of the board of directors or the board of commissioners in any financial institutions, executive officer of a bank, president of branch offices of a bank, vice president of an Indonesian branch of banks domiciled abroad, or head of representative office of banks domiciled abroad if failure to meet financial feasibility standards is due to the party's financial reputation.

The above sanctions may be imposed for a range between three (3) to twenty (20) years depending on the reasons for integrity or financial feasibility issues. Commercial banks must also provide an explanation of the status of the controlling shareholder in its shareholder register.

Regulatory Matters of Shares Ownership in Publicly-Listed Banks

Under Government Regulation No. 29 of 1999 (“**GR No. 29/1999**”) on Purchase of Shares of Commercial Banks, a bank can only list a maximum of 99.0% of its shares in the stock exchange and any of those shares may be purchased by foreign investors. The remaining 1.0% must be held by Indonesian investors and cannot be listed.

Pursuant to GR No. 29/1999, where a person purchases shares in a transaction that is not considered as an acquisition of a bank, such person must report to Bank Indonesia within 10 days of the transaction. In addition, according to the Indonesian Capital Market Law and OJK Regulation No. 4 of 2024 on Report on Ownership or Any Change in Share Ownership of a Public Company and Report on the Activities of Pledging Shares of a Public Company, any party holding, whether directly or indirectly, of at least 5% of issued shares with voting rights in a public company, must file a report to OJK regarding their shareholding and any changes made to their shareholding within the shareholding composition of the public company at the latest five business days after it has acquired such shares or after a change to its shareholding composition has occurred. Additionally, further reporting obligations also arise in the event of any change in the whole percentage (rounded-down) of the paid-up capital of the bank that is a public company of their share ownership, either in one or a series of transaction(s). For example, following a transaction, if share ownership decrease from 8.1% to 7.9%, a report must be made to reflect the change of percentage from 8% to 7%. Meanwhile, a decrease from 8.2% to 8.1% would not give rise to the reporting obligation, given that in a such a case, the ownership would be deemed as remain unchanged at 7%. Each member of the board of directors and the board of commissioners of a public company must also report to OJK on their shareholding and any changes made to their shareholding, whether directly or indirectly, within the shareholding composition of the public company at the latest five business days after it has acquired such shares or after a change to its shareholding composition has occurred.

Bank management

Management of Indonesian Banks under Regulations in Banking Sector

In Indonesia, a commercial bank is managed by a board of directors under the supervision of a board of commissioners. Pursuant to OJK Regulation No. 17 of 2023 on Good Governance of Commercial Banks (“**OJK Regulation No. 17/2023**”), the management composition of a commercial bank must include a minimum of three directors and a minimum of three commissioners. The total number of commissioners must not exceed the total number of directors and at least 50.0% of commissioners must be independent commissioners. All directors and at least one commissioner must be domiciled in Indonesia.

In case of banks with foreign ownership, the OJK further elaborates in OJK Regulation No. 37/POJK.03/2017 on Utilisation of Foreign Labour and Transfer of Knowledge Program in the Banking Sector (“**OJK Regulation No. 37/2017**”) that commercial banks which shares are owned least 25.0% by foreign investors can have foreign citizens on their board of directors and board of commissioners, provided that at least 50.0% of the members of the board of commissioners are Indonesian citizens and a majority of the members of the board of directors are domiciled in Indonesia.

In performing the good corporate governance principle, the board of directors must at least establish the following bodies:

(1) Internal audit workgroup

The responsibilities of the internal audit workgroup include:

- (a) assisting the president director and the board of commissioners in conducting supervision by describing audit results; and
- (b) making analysis and evaluation in financial, operational, accounting and other activities through direct or indirect examination.

(2) Risk management workgroup and risk management committee

In implementing an effective risk management, commercial banks have the obligation to establish risk management committee and risk management workgroup.

The risk management committee consists of at least the majority of the board of directors. A bank’s risk management committee must provide recommendations to the president director for the purpose of, among others:

- (a) setting up policies, strategies and guidelines for the implementation of risk management;
- (b) improving the implementation of the risk management; and
- (c) justifying irregularities of certain business decisions.

(3) Compliance workgroup

The compliance workgroup is a workgroup that assists the compliance director in implementing its function.

In order to support the performance of its duties, the board of commissioners must at least establish the following committees:

(4) Audit committee

The audit committee must at least, consists of the following:

- (a) an independent commissioner;
- (b) an independent party having financial or accounting skills; and
- (c) an independent party having legal or banking skills or syariah banking skills (for Banks that conduct syariah business activities).

The number of independent commissioners or independent parties have to be more than 51.0% of all members of the audit committee. No members of the board of directors may become members of the audit committee.

The audit committee is responsible for the supervision and evaluation of plan and audit performance as well as the follow up of the audit result in order to assess the sufficiency of internal control including financial reporting process. In conducting its task, the audit committee must at least perform supervision and evaluation of:

- (a) the work of the internal audit workgroup;
- (b) the conformity of audits conducted by the public accountant firm with the prevailing standard of audit;
- (c) the conformity of the financial report with the prevailing accounting standards; and
- (d) the work of board of directors over the results of internal audit workgroup, public accountant, and OJK supervision.

The audit committee will provide a recommendation to the board of commissioners by conducting follow-up over findings made by the internal audit workgroup, public accountants and the financial services authority supervision team.

(5) Risk monitoring committee

The risk monitoring committee must consist of at least the following:

- (a) an independent commissioner;
- (b) an independent party having financial skills or syariah banking skills (for Banks that conduct syariah business activities); and
- (c) an independent party having risk management skills.

The number of independent commissioners or independent parties has to be more than 51.0% of all members of the risk monitoring committee. No members of the board of directors may become members of the risk monitoring committee.

The risk monitoring committee is responsible for providing recommendations to the board of commissioners on (i) the evaluation of the conformity between the risk management policy and its implementation; and (ii) the monitoring the conformity of the risk management committee and the risk management workgroup.

(6) Nomination and remuneration committee

The nomination and remuneration committee must consist of at least the following:

- (a) an independent commissioner;
- (b) a non-independent commissioner; and
- (c) an executive officer in charge of human resources or a Bank employee representative.

Under OJK Regulation No. 34/2014, for the purposes of implementing good corporate governance, an issuer or a public company is required to have the function of nomination and remuneration conducted by the board of commissioners. The board of commissioners may form a nomination and remuneration committee consisting of at least three members, with an independent commissioner acting as the head of the committee, while the other members may be: (i) members of the board of commissioners; (ii) persons from outside the relevant issuer or public company; or (iii) persons serving managerial positions under the board of directors in charge of human resources.

The Nomination and remuneration committee is responsible for assisting the board of commissioners in (i) performance evaluation, development and nomination of the members of the board of directors and the board of commissioners; and (ii) the remuneration policy for the members of the board of directors and the board of commissioners.

OJK Regulation No. 17/2023 further stipulates that the president director must be independent from the controlling shareholders. The independence will be based on the relationship in the management, ownership, and/or financial relationship as well as family relationships with the controlling shareholder. With regards to the relationship between the president director and the controlling shareholder, the OJK elaborates that the president director is not allowed to:

- (d) receive remuneration, financial aid, or loan from the controlling shareholder;
- (e) have position as a member of the board of directors, board of commissioners or as an executive officer of the controlling shareholder;
- (f) own shares of the controlling shareholder or together with the controlling shareholder, own shares of a bank (except for shares obtained from a management shares option programme which shall not exceed 5.0% of the issued capital of such bank); and
- (g) have a family relationship up to the second degree with the controlling shareholder. If the controlling shareholder is a legal entity, the family relationship between the president director and the controlling shareholder will be imposed up to the ultimate shareholder of the controlling shareholder.

Members of the board of directors may not hold a concurrent position as a member of the board of commissioners, board of directors, or as an executive officer of other banks, companies or other institutions, except as a commissioner to perform a supervisory function in the bank's non-bank subsidiary. The members of the board of directors may not hold shares in any other companies representing more than 25.0% of the company's issued capital. This restriction is applicable regardless of:

- whether the members of the board of directors are holding the shares individually, and
- whether a member of the board of directors is holding the shares together with other members of the board of directors.

Additionally, the majority members of the board of directors may not have family relationship up to the second degree with other members of the board of directors or members of the board of commissioners.

Members of the board of commissioners are not permitted to hold a concurrent position as a member of the board of commissioners or the board of directors, or an executive officer of (i) a financial institution or company (whether bank or non-bank); or (ii) of more than one non-financial institution or company, in Indonesia or abroad, except as:

- a member of the board of commissioners or the board of directors, or an executive officer performing a supervisory function in one non-bank subsidiary controlled by the bank;
- a non-independent commissioner performing functional duties of the bank's shareholder in the form of a legal entity within the bank's group; or
- a member of the board of commissioners of a non-profit organisation or institution.

The majority members of the board of commissioners must not have family relationships up to the second degree with the other members of the board of commissioners or board of directors.

Candidates for the board of commissioners and the board of directors must be approved by the OJK under the OJK FPT Regulation before their appointments.

Under OJK Regulation No. 46/2017, an Indonesian bank must have a compliance director and form a compliance working unit. The compliance director must at least be responsible for (i) formulating strategies to encourage the creation of a compliance culture, (ii) proposing compliance policies or principles of compliance to be determined by the board of directors, (iii) establishing compliance system and procedure used to set the bank's internal rules and guidelines, (iv) ensuring that all policies, procedures and business activity undertaken or implemented by the bank are in conformity with the provision set out by the OJK, as well as with the relevant prevailing laws and regulations, (v) minimising compliance risk, (vi) taking precautions so that policies taken by the board of directors of the bank or the heads of overseas branch offices are in conformity with the provision set out by the OJK, as well as with the relevant prevailing laws and regulations, and (vii) performing other tasks relevant to compliance functions.

Under OJK Regulation No. 18/POJK.03/2014 on the Implementation of the Integrated Governance of a Financial Conglomerate, as most recently amended by OJK Regulation No. 30 of 2024 on Financial Conglomerates and Parent Companies of Financial Conglomerates, Indonesian banks that are financial conglomerates are required to establish an integrated governance committee. The integrated governance committee is responsible for evaluating the integrated governance of a banking conglomerate and providing recommendations to the parent entity's board of commissioners to improve the integrated governance guidelines. The integrated governance committee at least consists of: (i) an independent commissioner who is the chief in one of the committees of the parent entity and serves as the chief and member of the integrated governance committee; (ii) an independent commissioner who represents and was appointed by the bank within the financial conglomerate and serves as a member of the integrated governance committee; (iii) an independent party as a member of the integrated governance committee; and (iv) a member of the bank's sharia supervisory board who serves as a member of the integrated governance committee.

Management of publicly-listed banks under regulations in the capital markets sector

The appointment of the members of the board of directors and the board of commissioners of a bank that is a public company must comply with the Law No. 40 of 2007 on Limited Liability Companies (as amended by the Job Creation Law) and OJK Regulation No. 33/POJK.04/2014 on Board of Directors and Board of Commissioners of Issuers or Publicly-Traded Companies (“**OJK Regulation No. 33/2014**”).

Under OJK Regulation No. 33/2014, the board of directors and the board of commissioners of a public company must have at least two members. In the case of publicly listed banks, the three-person minimum requirement under OJK Regulation No. 17/2023 applies. One of the members of the board of directors is to be appointed as the president director and one of the members of the board of commissioners is to be appointed as the president commissioner.

Pursuant to OJK Regulation No. 33/2014, each member of the board of directors is jointly and severally liable for the losses of the public company caused by the fault or negligence of the member of the board of directors in conducting their duties. No personal liability would be imposed upon such members of the board of directors if they can prove that:

- the losses were not due to their fault or negligence;
- they carried out the management in good faith and with prudence in the interest of and in accordance with the purpose and objectives of the public company;
- they do not have a direct or indirect conflict of interest in the actions of management that caused the losses; and
- they took actions to prevent the losses from arising or continuing.

The provisions above are also applicable to the member of the board of commissioners.

OJK Regulation No. 33/2014 allows members of the board of directors and the board of commissioners of a public company to hold dual positions under certain conditions. However, this is not applicable for the members of the board of directors and the board of commissioners of a bank as OJK Regulation No. 17/2023 specifically restricts or limits them from holding dual positions in other entities outside of the bank group of companies. Further, OJK Regulation No. 33/2014 provides that if the board of commissioners consists of only two commissioners, then one of them shall be an independent commissioner and if the board of commissioners consist of more than two commissioners, then the independent commissioners must make up at least 30.0% of the total number of commissioners. In the case of a commercial bank that is a public company however, the foregoing provisions of OJK Regulation No. 33/2014 are overridden by the provisions of OJK Regulation No. 17/2023.

Moreover, a publicly listed company is also required to:

- in compliance with OJK Regulation No. 33/2014 and OJK Regulation No. 55/POJK.04/2015 on the Establishment and Work Implementation Guidelines of the Audit Committee, have an audit committee composed of three members including at least one independent commissioner and two external independent members, with one member having capabilities in the accounting or financial sector. The audit committee reports to the board of commissioners; and
- in compliance with OJK Regulation No. 35/POJK.04/2014 on Corporate Secretaries of Issuers or Public Companies, appoint a corporate secretary to monitor developments in capital market rules and regulations and serve as the principal contact for the OJK, the IDX and the public.

Capital adequacy requirements

Under OJK Regulation No. 11/POJK.03/2016 on Mandatory Minimum Capital Requirements for Commercial Banks as most recently amended by OJK Regulation No. 27 of 2022 (“**OJK Regulation No. 11/2016**”), Indonesian banks are required to maintain minimum capital in accordance with their risk profile. The risk profile depends on the valuation of inherent risks and quality of the implementation of the risk management in a bank’s operations. The valuation is done by every bank through the Internal Capital Adequacy Assessment Process (the “**ICAAP**”) mechanism. Each bank must apply ICAAP in accordance with the scale, characteristics and complexity of its business. The valuation through ICAAP must assess the adequacy of, at least:

- the active monitoring by the board of directors and board of commissioners;
- the capital positions;
- monitoring and reporting mechanisms; and
- the internal controls of a bank.

Upon completion of valuation, a bank will stipulate under which risk profile ranking it falls by taking into account (i) OJK Regulation No. 11/2016 and (ii) OJK Circular No. 26/SEOJK.03/2016 on Capital Adequacy Ratio Requirement Based on Risk Profile and Capital Adequacy Maintained Assets. The OJK then will evaluate the ranking through the Supervisory Review and Evaluation Process (the “**SREP**”). In the event of any discrepancy between the ICAAP valuation and SREP result, the SREP result will apply.

Under OJK Regulation No. 11/2016, banks are required to maintain at the minimum a total capital level of at least:

- 8.0% of the risk-weighted assets for banks in the category of risk profile rank 1;
- 9.0% up to less than 10.0% of the risk-weighted assets for banks in the category of risk profile rank 2;
- 10.0% up to less than 11.0% of the risk-weighted assets for banks in the category of risk profile rank 3; and
- 11.0% up to 14.0% of the risk-weighted assets for banks in the category of risk profile rank 4 or 5.

The OJK is also authorised to stipulate higher minimum capital requirements if it is of the view that the relevant bank is facing a potential loss which thereby requires greater amount of capital.

For banks having their head offices in Indonesia, regulatory capital consists of:

- Tier 1 Capital, consisting of Common Equity Tier 1 capital (ie. paid-up capital and disclosed reserves) and Additional Tier 1 capital; and
- Additional Tier 2 capital.

Regulation No. 11/2016 further stipulates that disclosed reserves constituting Common Equity Tier 1 capital may include, among other things:

- (a) other comprehensive income in a form of (i) positive margin from the financial statement, (ii) potential profit from the increase of asset value (available to be sold), and (iii) surplus of fixed assets revaluation; and

- (b) other disclosed reserve in a form of (i) paid-in capital of the common equity Tier I *agio*, (ii) general reserve, (iii) profit from previous years, (iv) profit from the current year, (v) capital reserve funds and (vi) other forms of reserve as approved by the OJK.

These disclosed reserves should be reduced by, among other things:

- (a) other comprehensive income in a form of (i) negative margin from the financial statement, and (ii) potential loss from the increase of asset value (available to be sold); and
- (b) other disclosed reserve in a form of (i) *disagio* of the Common Equity Tier 1 capital, (ii) loss from previous years, (iii) loss from the current year, (iv) negative margin between asset deletion over productive assets and value decrease loss reserve over the productive assets, and (v) negative margin between the adjustment value over the valuation report from financial instrument in the trading book and adjustment value based on accounting principles standard, (vi) non-productive asset deletion, and (vii) other reduced factors as agreed by the OJK.

Additional Tier 1 capital may be in the form of, among others:

- (a) subordinated perpetual equity-like debt instruments with non-cumulative yield payments;
- (b) perpetual non-cumulative preference shares, with or without call option;
- (c) perpetual and non-cumulative hybrid instruments; and
- (d) *agio* or *disagio* capital instruments in the form of shares or other capital instruments that satisfy the requirements of Additional Tier 1 capital.

To be considered as Additional Tier 1 capital, the capital instrument must meet the following criteria:

- (a) issued and fully paid-up;
- (b) is perpetual without requirement to redeem;
- (c) repurchase or payment of principal must be with prior approval from the OJK and the issuing bank must not cause the holders of such instrument to expect that such approval will be obtained with certainty;
- (d) does not have a step-up feature;
- (e) can be converted into ordinary shares or written down if the issuing bank has reached a point of non-viability, and such loss absorption feature must be stipulated in the issuance documentation or agreements;
- (f) rank junior to the claims of holders of Additional Tier 2 capital, depositors and creditors, at the time of liquidation, which must be stipulated in the issuance documentation or agreements;
- (g) the amount or time of the yields cannot be determined and cannot be accumulated between periods and such bank has full access to cancel the payment of yields at the time the obligation to pay such yields arises;
- (h) not secured or guaranteed by such bank or any of its subsidiaries;

- (i) not subject to any arrangement that may improve seniority, either legally or economically;
- (j) does not have a dividend or profit payment feature that is sensitive to credit risks;
- (k) may be callable, and if callable, such feature may only be executed at least five (5) years after the capital instrument is issued and upon prior approval from the OJK, with the documentation for the issuance of the capital instrument clearly stating this requirement. The relevant bank should also not give any expectation on the repurchase or perform any activity which may give an expectation of repurchase of the capital instrument;
- (l) cannot be subscribed to by the issuing bank and/or its subsidiaries;
- (m) not funded by the issuing bank, whether directly or indirectly;
- (n) not subject to any arrangement that may impede the process of instrument issuance in the future;
- (o) in certain cases, if an additional capital instrument is needed by way of instrument issuance by other entity outside the consolidation coverage, then the funds derived from the issuance must be assigned to such bank immediately; and
- (p) must be approved by the OJK in order for its inclusion in the calculation of regulatory capital component.

Additional Tier 2 capital may be in the form of, among others:

- (a) capital instruments in the form of shares or other capital instruments that satisfy the requirements of Additional Tier 2 capital;
- (b) *agio* or *disagio* derived from the issuance of capital instruments categorised as Additional Tier 2 capital; and
- (c) general reserve on loss of earning assets of a maximum 1.25% of the risk-weighted assets for credit risk.

To be considered as Additional Tier 2 capital, the capital instrument must meet the following criteria:

- (a) issued and fully paid-up;
- (b) has a tenor of five (5) years or more and only can be fully repaid after obtaining an approval from the OJK;
- (c) can be converted into ordinary shares or written down if the issuing bank has reached a point of non-viability, and such loss absorption feature must be stipulated in the issuance documentation or agreements;
- (d) rank junior to, among others, depositors and creditors, which must be stipulated in the issuance documentation or agreements;
- (e) payment of principal or coupon(s) is deferred and accumulated cumulatively if such payment will cause such bank to breach its CAR requirement (on a standalone or consolidated basis);
- (f) not secured or guaranteed by such bank or any of its subsidiaries;

- (g) does not have a dividend or profit payment feature that is sensitive to credit risks;
- (h) does not have a step-up feature;
- (i) may be callable, and if callable, such feature may only be executed at least five (5) years after the capital instrument is issued and upon prior approval from the OJK, with the documentation for the issuance of the capital instrument clearly stating this requirement. The relevant bank should also not give any expectation on the repurchase or perform any activity which may give an expectation of repurchase of the capital instrument;
- (j) does not have any requirements on the prepayment of interest or principal in the issuance documentation or agreements;
- (k) cannot be subscribed to by the issuing bank and/or its subsidiaries;
- (l) not funded by the issuing bank, whether directly or indirectly;
- (m) in certain cases, if an additional capital instrument is needed by way of instrument issuance by other entity outside the consolidation coverage, then the funds derived from the issuance must be assigned to the issuing bank immediately; and
- (n) must be approved by the OJK in order for its inclusion in the calculation of regulatory capital component.

The amount of the capital instrument that may be calculated as Additional Tier 2 capital is the amount of Additional Tier 2 capital minus amortisation, calculated on a straight-line basis in the remaining five (5) year period of the instrument. Further, for the purpose of calculating capital adequacy requirements for Additional Tier 2 capital, the amount of Tier 2 capital recognised in regulatory capital must not exceed 100.0% of Tier 1 capital.

All banks must include credit risk and operational risk in calculating their CAR and maintaining their capital adequacy requirement. However, certain banks meeting the criteria set out below must also include market risk in the calculation of CAR and maintenance of their capital adequacy requirement. The criteria are as follows:

- (a) banks that individually meet one of the following criteria:
 - (i) banks with total assets of Rp10.0 trillion or more; or
 - (ii) banks with foreign exchange licenses (the “**Foreign Exchange Banks**”) that have trading positions in relation to commercial paper and derivative transactions of Rp20.0 billion or more; or
 - (iii) non-Foreign Exchange Banks that have trading positions in relation to commercial paper and interest derivative transactions of Rp25.0 billion or more; and/or
- (b) a bank which, when consolidated with its subsidiary, meets one of the following criteria:
 - (i) a Foreign Exchange Bank that has trading positions in relation to commercial paper, including financial instruments which are being exposed to equity risk (Risiko Ekuitas), and/or through derivative transactions, and/or through financial instruments which are being exposed to commodity risk (Risiko Komoditas) in its trading book and/or banking book of Rp20.0 billion or more; or

- (ii) a non-Foreign Exchange Bank that has trading positions in relation to commercial paper, including financial instruments which are being exposed to equity risk, and/or through derivative transactions, and/or financial instruments which are being exposed to commodity risk in its trading book and/or banking book of Rp25.0 billion or more;
- (c) a bank that has an office network and/or subsidiary in other countries or branch offices of banks domiciled outside Indonesia.

As of the date of this Offering Circular, the Bank has a self-assessed risk profile of 1 and is thus subject to a minimum CAR requirement of 6.0% of its credit, market and operational risk-weighted assets.

Under Bank Indonesia Regulation No. 5/13/PBI/2003 on Net Open Position for Commercial Banks, as last amended by Bank Indonesia Regulation No. 17/5/PBI/2015 (“**Bank Indonesia Regulation No. 5/2003**”), banks must maintain its Net Open Position (calculated under Bank Indonesia Regulation No. 5/2003 as the sum of the absolute values of (i) the net difference between the foreign exchange assets and the liabilities on its balance sheet and (ii) the total net difference between assets and liabilities which are commitment or contingent in an administrative account for each foreign exchange) at a maximum of 20.0% of such bank’s capital.

Core capital and banking business activities

OJK Regulation No. 12/POJK.03/2021 on Commercial Banks (“**OJK Regulation No. 12/2021**”) stipulates the type of business activities and office network based on a bank’s core capital.

OJK Regulation No. 12/2021 is applicable not only to Indonesian commercial banks but also to Indonesian Sharia banks. OJK Regulation No. 12/2021 categorises banks into four types by reference to the size of their core capital:

- (a) Bank Group Based on Core Capital (*Kelompok Bank Berdasarkan Modal Inti – KBMI*) 1 is each bank whose core capital reaches Rp6.0 trillion;
- (b) KBMI 2 is each bank whose core capital is in excess of Rp6.0 trillion until Rp14.0 trillion;
- (c) KBMI 3 is each bank whose core capital is in excess of Rp14.0 trillion until Rp70.0 trillion; and
- (d) KBMI 4 is each bank whose core capital is in excess of Rp70.0 trillion.

Core capital is defined as (i) for banks which are established as Indonesian legal entities, core capital which consists of paid-in capital, disclosed reserves and innovative capital instrument; and (ii) for branch offices of offshore banks, business funds which have been allocated as Capital Equivalency Maintained Assets, both as further governed in the relevant capital adequacy ratio regulation.

The categorisation of banks for Sharia business units is based on the core capital of their parent commercial banks. The core capital categorisation determines, among others, the scope of banking activities allowed to be undertaken by the relevant bank.

The Bank is classified as under KBMI 4 category. Pursuant to OJK Regulation No. 12/2021, a bank within the KBMI 4 category generally may perform the following business activities (both in Rupiah and in foreign currencies and capital participation in financial institutions in Indonesia and/or entire overseas territories with certain limitation):

- (a) fundraising;

- (b) distribution of funds;
- (c) trade finance;
- (d) treasury activities;
- (e) foreign exchange activities;
- (f) agency and cooperation activities;
- (g) payment system and electronic banking activities;
- (h) equity participation activities;
- (i) temporary investment activities in the context of credit recovery;
- (j) other services; and
- (k) other activities commonly performed by the Bank to the extent that they do not contradict with laws and provisions.

Capital participation

According to OJK Regulation No. 22 of 2022 on Capital Participation by Commercial Banks, the total capital participation portfolio of banks cannot exceed 35% of the Bank's capital. This includes the total capital participation of all investees, including the increase of capital participation, which is due to accumulated profits or changes in exchange rates, and share dividend. Banks cannot receive capital participation from investee or undertaking a capital participation on a shareholder's company, whether directly or indirectly. If the Bank fails to abide by this limitation, they will be subject to administrative sanctions.

Office network

In general, banks wishing to open offices must satisfy the bank soundness level requirement (including which must be 1, 2 or 3 for the prior year). Further, they are required to fulfil the core capital allocation requirements in line with their locations and the type of their offices (theoretical capital).

Legal lending limits

Legal lending limits are applicable to commercial banks pursuant to (i) OJK Regulation 26/POJK.03/2021 on Credit Disbursement Limits and Major Funds Provision for Sharia Banks ("**OJK Regulation No. 26/2021**"), and (ii) OJK Regulation No. 32/POJK.03/2018 on Maximum Credit Disbursement Limits and Major Funds Provision for Commercial Banks as amended by OJK Regulation No. 38/POJK.03/2019 ("**OJK Regulation No. 32/2018**"). These regulations stipulate the ratio (measured in percentage) of a bank's total capital that may be extended to affiliate or non-affiliate customers (including individual borrowers and groups of borrowers). The types of credit provision that these regulations specifically focus on are, among other things, (i) securities, (ii) derivative transaction, (iii) placements, (iv) reverse repurchase notes, (v) acceptance notes, (vi) credit, (vii) administrative account transactions, (viii) repo, (ix) equity participations, (x) temporary equity participation and (xi) other similar forms of funds allocation similar to those mentioned in (i) to (xi). The ratios of lending limitation range from 10.0% to 25.0% depending on the party that receives the credit.

OJK Regulation No. 26/2021 also provide for exemptions from legal lending limit requirements in the case of certain fund allocations, including (i) fund allocations fully secured by cash collateral, (ii) fund allocations fully secured by prime banks, (iii) inter-bank placements in prime banks, (iv) interbank placement in Indonesian banks for liquidity management purposes, (iv) equity participations in another bank, as long as the financial report of the bank is consolidated with the investee, (v) provision of funds to state owned enterprises and (vi) in the case of provision of funds by state owned banks to state owned enterprises, which shall not be considered as affiliated party transaction.

Banks are required to submit periodic reports to the OJK, specifying any non-compliance with, or violations of, the legal lending limits and the amount of funds extended to affiliates and non-affiliates. Violation of the legal lending limit arising from (i) a change in exchange rates, (ii) decrease in a bank's capital or Tier 1 capital, (iii) changes in fair value, (iv) business merger, changes in ownership or management structure which cause change in the affiliates and/or the group structure of the borrower and (v) amendments to certain provisions including any changes to the parties categorised as affiliates or group of the borrower are not considered to be violations of the legal lending limits.

Statutory reserves and liquidity requirement

Bank Indonesia issued Bank Indonesia Regulation (PBI) No. 11 of 2024 on Monetary Controls ("**PBI No. 11/2024**") and Regulation of Member of Board of Governor (PADG) No. 24/8/PADG/2022 as most recently amended by Regulation of Member of Board of Governor No. 12 of 2023 ("**PADG No. 24/2022**") dated 30 June 2022 on Implementation Regulations for Fulfilment of Statutory Reserves Requirements in Rupiah and Foreign Exchange for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Units, under which commercial banks are required to meet the requirements of daily and average statutory reserves in Rupiah and foreign currency with Bank Indonesia.

The statutory reserve in Rupiah is determined by an average amount of 9.00% of its deposits from customers in Rupiah in a certain period, which must be fulfilled as follows: (i) 0.0% on a daily basis and (ii) 9.0% on an average basis. The statutory reserve in foreign currency is determined in the average amount of 4.0% of its deposits from customers in foreign currency in a certain period, which must be fulfilled as follows: (i) 2.0% on a daily basis, and (ii) 2.0% on an average basis.

The monetary penalty for a shortfall in statutory reserves denominated in Rupiah on a daily basis equals to 125.0% of the overnight rate of the Indonesia Overnight Index Average ("**IndONIA**") on the day of the infringement for each day when there is a shortfall. While the monetary penalty imposed for a shortfall on an average basis for two reporting periods equals to 125.0% of the average overnight IndONIA during the shortfall statutory reserves period.

The monetary penalty for a shortfall in statutory reserves denominated in foreign currency on a daily basis equals 0.04% of the difference between the mandatory daily balance and the actual balance recorded in Bank Indonesia's accounting system on the day of the infringement for each day when there is a shortfall. Meanwhile, the monetary penalty for a shortfall on an average basis is 0.04% of the difference between the mandatory average balance and the actual balance, both calculated on a two-day basis for each day for infringement two reporting periods.

Liquidity coverage ratio and net stable funding ratio requirement

Requirements for Liquidity Coverage Ratio ("**LCR**") is regulated under OJK Regulation No. 42/POJK.03/2015 on Mandatory Liquidity Coverage Ratio for Commercial Banks as most recently amended by OJK Regulation No. 19 of 2024 ("**OJK Regulation No. 42/2015**"). LCR is the ratio of "High Quality Liquid Assets ("**HQLA**") (cash or financial assets that can be easily converted into cash with minimal to no value depreciation to meet a bank's liquidity needs for a 30-day liquidity stress scenario) to net cash outflows that must be fulfilled by such bank. Banks that are within KBMI 2, KBMI 3 and KBMI 4 categories and foreign banks must comply with this regulation.

Assets that can be regarded as HQLA must meet the following characteristics:

- (a) fundamental characteristics, namely:
 - (i) low risk;
 - (ii) ease and certainty of valuation;
 - (iii) low correlation with risky assets; and
 - (iv) listed on a recognised exchange.
- (b) market-related characteristics, namely:
 - (i) active and sizable market;
 - (ii) low volatility; and
 - (iii) flight to quality.

Additionally, assets that can be regarded as HQLA must also satisfy operational and diversification requirements. The operational requirements are designed to ensure that HQLA is managed in a way that a bank can immediately use the stock of assets as a source of contingent funds that is available for such bank to convert into cash through outright sale or repo, to fill funding gaps between cash inflows and outflows at any time during the thirty (30) day stress period, with no restriction on the use of the liquidity generated. Further, HQLA must be well diversified within the asset classes themselves (except for cash, sovereign bonds, SBI and reserves in Bank Indonesia). Banks must have policies and limits in place to avoid concentration with respect to asset types, issuers and currencies.

LCR must be calculated in Rupiah. Banks must maintain on LCR of at least 100%. However, the OJK is authorised to determine a higher threshold for the LCR if it deems that a certain bank so requires. Banks must calculate and report the LCR on daily, monthly and quarterly bases. The calculation and reporting obligations can be made either on an individual or a consolidated basis. The monthly report must be submitted to the OJK at the latest fifteen (15) days after the end of the reporting month for individual LCR report and thirty (30) days after the end of the reporting month for consolidated LCR report. Other than being calculated and reported, the quarterly report must also be published on a bank's website. Starting from March 2019, banks must start publishing the quarterly report online and on a widely circulated newspaper at the same time.

Banks must notify the OJK if it is unable or potentially unable to meet the 100% LCR requirement. In this case, banks must analyse their liquidity condition and report it to the OJK. Further, banks must undertake necessary steps to recover their liquidity condition. OJK Regulation No. 42/2015 phases the LCR fulfilment steps. Banks in the KBMI 4 category must fulfil 70% LCR by 31 December 2015, 80% LCR by 31 December 2016, 90% LCR by 31 December 2017 and 100% LCR by 31 December 2018.

Requirements for Net Stable Funding Ratio ("**NSFR**") are regulated by OJK Regulation No. 50/POJK.03/2017 on Mandatory NSFR Fulfilment for Commercial Banks as partially amended by OJK Regulation No. 20 of 2024 ("**OJK Regulation No. 50/2017**"). NSFR is defined as the amount of available stable funding relative ("**ASF**") to the amount of required stable funding ("**RSF**"). This ratio should be equal to at least 100% on an on-going basis. ASF is defined as the portion of capital and liabilities expected to be stable for one (1) year to fund banks' activities. However, the OJK is authorised to determine a higher threshold for the NSFR. Banks that fall into KBMI 2, KBMI 3 or KBMI 4 categories and foreign banks must comply with this regulation.

Under OJK Regulation No. 50/2017, banks must supervise their NSFR fulfilments monthly and submit the NSFR calculation reports either on an individual or a consolidated basis. In supervising the NSFR, banks must make their NSFR working papers to be submitted on a quarterly basis to the OJK. At the latest 15 days after the end of the reporting month, NSFR working paper and NSFR report must be submitted to the OJK on an individual basis for banks with NSFR that is less than 100%. At the latest 30 days after the end of the reporting month, i) an action plan to fulfil NSFR on an individual and consolidated basis for banks with NSFR that is less than 100% at the latest as well as NSFR working paper, ii) an NSFR working paper on a consolidated basis, and iii) NSFR report on a consolidated basis shall be submitted to the OJK. The report must at least contain NSFR calculation and NSFR development analysis.

Banks must also publish their quarterly NSFR report through their websites, as well as publishing their quarterly NSFR report online.

Commercial paper

Under Bank Indonesia Regulation No. 6 of 2024 on Foreign Markets and Foreign Exchange Markets ("**Bank Indonesia Regulation No. 6/2024**"), Bank Indonesia regulates the issuance and trading of commercial paper. Under this regulation, a bank is required to report its commercial paper transactions to Bank Indonesia.

A bank is allowed to act as supporting institution for commercial paper issuance and settlement provided that it has the function as an issuance arranger and custodian. In order to conduct such activities, such bank must be registered with Bank Indonesia. Bank Indonesia will grant its approval based on assessment on (i) validity of the institution aspect of the relevant bank; and (ii) capability of the relevant bank in performing its functions.

A bank is also allowed to provide a guarantee to certain non-corporation banks for the purpose of commercial paper issuance by that non-bank corporation that fulfils certain requirements, among other things, being a non-listed company with equity at least Rp50.0 billion.

Bank Business Plan

A commercial bank's business plan is regulated under OJK Regulation No. 5/POJK.03/2016 on Bank Business Plan (as partially amended by OJK Regulation No. 12/POJK.03/2021 and OJK Regulation No. 13/POJK.03/2021) and OJK Circular No. 12/SEOJK.03/2021 on Bank Business Plan (collectively "**OJK RBB Regulation**"). The OJK RBB Regulation requires banks to annually prepare and submit to the OJK a written document that describes the plan for bank business activity in the short term (one year) and medium-term (three years) (a "**Bank Business Plan**").

A Bank Business Plan must at least include the following:

- (a) executive summary;
- (b) management strategy policy;
- (c) implementation of risk management and bank's recent performance;
- (d) financial statement forecast and assumptions used;
- (e) ratio forecast and other certain posts;
- (f) funding plan;
- (g) fund investment plan;

- (h) capital investment plan;
- (i) capital plan;
- (j) organisation development and human resources plan;
- (k) new product issuance and/or new activity plan;
- (l) development and/or changes of office network plan and;
- (m) other information.

A Bank Business Plan must be prepared by the board of directors and approved by the board of commissioners, and then submitted to the OJK at the latest at the end of November of the year preceding the Bank Business Plan year. A submitted Bank Business Plan is subject to comments by OJK.

In preparing a Bank Business Plan, a bank must consider (a) external and internal factors which can affect the business of the bank, (b) prudential principles, (c) implementation of risk management, and (d) healthy banking principles.

A submitted Bank Business Plan can only be revised once. The bank can only submit revisions if one or both of the following situations occur:

- (a) the existence of any external and internal factors that significantly affects the bank's operation; and/or
- (b) the existence of any significant factors that affect the bank's performance, in accordance with OJK's consideration.

The bank must submit any revisions at the latest at the end of June of the Bank Business Plan year.

Pursuant to the OJK RBB Regulation, any plan to issue securities during the next/following fiscal year (which includes convertible bonds, medium-term notes, bonds and sukuk) must be stated in a Bank Business Plan to be submitted in the previous year.

Market Entry Approval

Bank Indonesia Regulation No. 21/2019 (which has been partially amended by Bank Indonesia Regulation No. 7 of 2024) stipulates that the obligations of banks are divided into (i) short-term obligation, including offshore borrowings and other form of obligations of banks, with original maturity less than a year, and (ii) long-term obligation, including offshore borrowings and other form of obligations of banks, with original maturity more than one year. Bank Indonesia Regulation No. 21/2019 also categorises offshore borrowings into four, depending on its origination, i.e.: (i) offshore borrowings obtained under loan agreements; (ii) offshore borrowings obtained under debt securities; (iii) offshore borrowings generated by demand deposits, deposits, savings, and call money; and (iv) other forms of offshore borrowings.

An Indonesian bank that intends to obtain a long-term offshore borrowing must obtain a market entry approval from Bank Indonesia. Approval is not required for short-term obligations unless such short-term obligation is extended so that it becomes a long-term obligation. In order to be eligible for a market entry approval, a long-term offshore borrowing must be included in the relevant bank's Bank Business Plan, unless such long-term offshore borrowing is contemplated pursuant to the OJK's instruction in limited scenarios. The actual long-term obligation obtained by the relevant bank must not exceed the amount set out in the Bank Business Plan.

In assessing a long-term offshore borrowing's eligibility for a market entry approval, Bank Indonesia will consider the completeness of the supporting documents, terms and conditions of the long-term offshore borrowing, macro and financial market economic conditions, condition of the financial system, the relevant bank's financial and other conditions, and other matters deemed necessary by Bank Indonesia to consider.

After obtaining a long-term offshore borrowing a bank must submit a market entry realisation report to Bank Indonesia by no later than: (i) seven (7) business days after the date of market entry, if in the form of a loan agreement or privately placed debt securities; or (ii) seven (7) business days after the date of transaction settlement, if in the form of publicly offered debt securities.

Limits on foreign exchange exposure and supervision of foreign exchange activities

Bank Indonesia Regulation No. 5/2003 limits a commercial bank's net open position, both the total and the balance sheet position, to a maximum of 20.0% of its capital at the end of each working day. Each bank is responsible for managing the information to support the supervision of Net Open Position. A bank must report to Bank Indonesia when that 20.0% threshold is crossed. Under Bank Indonesia Regulation No. 5/2003, net open position is defined as the sum of the absolute values of (i) the net differences between asset and liabilities balances for each foreign currency, and (ii) the net differences between claims and liabilities in the form of both commitments and contingencies in administrative accounts for each foreign currency, all of which are denominated in Rupiah.

Under Bank Indonesia Regulation No. 21/15/PBI/2019 on the Monitoring of Foreign Exchange Activities of Banks and Customers ("**Bank Indonesia Regulation No. 21/15/2019**"), banks must submit foreign exchange reports to Bank Indonesia. Such reports include (i) a "transaction report" that covers, among others, bank's transactions affecting offshore financial liabilities and assets of the relevant bank, (ii) a "position report" that covers position and mutation of each account on the offshore financial liabilities and asset of the relevant bank; and (iii) a "supporting report" that covers (a) export transaction details, (b) list of supporting documents of the foreign exchange export results, (c) special account of the foreign exchange export results, (d) transaction of foreign exchange export and foreign exchange import payment, and (e) other related reports.

Under Bank Indonesia Regulation No. 6/2024, any purchase or sale of foreign currency against Rupiah (including by way of a call spread option) exceeding certain thresholds must have an underlying transaction. The threshold depends on the type of transaction. For example, for today, tomorrow or spot cash purchases of foreign currency against Rupiah, the threshold is US\$100,000 or its equivalent per month for each customer. If a sale or purchase exceeds the prescribed threshold, the buyer or seller of foreign currency must submit appropriate underlying transaction documents to the foreign exchange bank servicing the sale or purchase. Underlying transactions include the following activities: (a) current accounts; (b) financial accounts; (c) capital accounts; (d) loans to citizens for the purposes of trade and investment; (e) domestic and international trade of goods and services; and (f) other transactions as may be determined by Bank Indonesia.

Under Bank Indonesia Regulation No. 17/3/PBI/2015 dated 31 March 2015 on the Obligation to Use Rupiah in the Territory of Indonesia and Bank Indonesia Circular No. 17/11/DKSP dated 1 June 2015 governing the same ("**Bank Indonesia Regulation No. 17/3/2015**"), each party is required to use Rupiah for cash and non-cash transactions conducted within the territory of Indonesia, including (i) each transaction which has the purpose of payment; (ii) settlement of other obligations which must be satisfied with money; and/or (iii) other financial transactions (including deposits of Rupiah in various amounts and types of Rupiah denomination from customers to banks). Subject to further requirements under Bank Indonesia Regulation No. 17/3/2015, the obligation to use Rupiah does not apply to (i) certain transactions relating to the implementation of state revenue and expenditure; (ii) the receipt or provision of grants either from or to overseas;

(iii) international trade transactions, which includes (a) export and/or import of goods to or from outside Indonesian territory; and (b) activities relating to cross border trade in services; (iv) bank deposits denominated in foreign currencies; (v) international financing transactions; and (vi) transactions in foreign currency which are conducted in accordance with applicable laws, including, among others (a) a bank's business activities in foreign currency which is conducted based on applicable laws regarding conventional and sharia banks; (b) securities in foreign currency issued by the Government in primary or secondary markets based on applicable laws; and (c) other transactions in foreign currency conducted based on applicable laws, including laws regarding Bank Indonesia and laws regarding investment.

Interest rate regulation

Bank Indonesia does not formally regulate the interest rates charged by banks on credits or paid on deposits. It does, however, indirectly monitor interest rates being charged and paid by Indonesian banks on an informal basis to help ensure that changes in rates offered by banks are not likely to frustrate the Government's monetary policies and are consistent with an environment of healthy competition among banks.

Supervision on bank products and activities

OJK Regulation 13/POJK.03/2021 on Implementation of Commercial Bank Products ("**OJK Regulation 13/2021**") categorises bank products/activities for the interest of customers into primary products and advanced products. Primary products are products that are related to a bank's acquisition of deposits, granting of loans and other main banking activities prescribed under OJK Regulation 13/2021. Meanwhile, a product is considered advanced if such product is:

- (a) technology-based;
- (b) related to an activity or a product of a non-bank financial institution (e.g. bancassurance);
- (c) required to be approved by another regulatory authority (e.g. Bank Indonesia with respect to payment system); and/or
- (d) complex (e.g. non-vanilla derivatives, structured products, trust).

If a commercial bank intends to market new products to customers, such bank would be subject to various requirements prescribed under OJK Regulation 13/2021.

The plan to implement such new products and activities must be included in the bank products implementation plan (*rencana penyelenggaraan produk bank* – "**RPPB**"). RPPBs must be prepared by the bank annually on a forward-looking basis. An RPPB must be submitted to the OJK by the end of November of the year preceding the RPPB year. It is subject to review by the OJK and can be amended up to three times in the relevant RPPB year, each by the of March, June and September.

Further requirements depend on the type of product. For new primary products, the bank is required to submit to the OJK a new product realisation report within five business days after implementing a new primary product. Meanwhile, for new advanced products, on top of the foregoing realisation report, a prior approval from the OJK is also required before it can be implemented. A bank can only submit a request for approval to the OJK for a new advanced product after having concluded a limited trial for such product. A new advanced product may be exempted from this limited trial requirement based on OJK's assessment.

OJK may instruct a bank to suspend or discontinue any of its existing products if the product:

- (a) is not validly authorised by the OJK;
- (b) deviates from the approval request or notification received by the OJK;
- (c) inconsistent with any relevant realisation report;
- (d) inconsistent with sharia principles, if applicable;
- (e) contrary to laws and regulations;
- (f) considered by the OJK as potentially having material adverse effect to the bank's financial condition;
- (g) considered by the OJK as significantly detrimental to the bank from a legal or reputational perspective due to customers' reports or claims;
- (h) considered by the OJK as having adverse effect to the stability of financial system; and/or
- (i) is not implemented with sufficient risk management; and/or
- (j) considered by the OJK necessary to be suspended or discontinued due to any other reason.

Furthermore, OJK Regulation 13/2021 provides a different set of rules for activities that a bank carries out for the bank's own interests (being products that are not related to customers' interests). Activities for a bank's own interests consist of:

- (a) activities related to implementing risk management;
- (b) activities related to the execution of fund placement strategies; and/or
- (c) other activities that support the business continuity of the bank.

Securitisations, derivatives, obtaining loans, issuing debt securities and equity investments are among the activities that can be carried out by a bank for its own interest. Any plan to implement activities for the bank's own interests that changes the bank's capital composition or other activities that are specifically regulated by the OJK must be approved by the OJK. Other activities that do not fall under the ambit of the aforementioned activities only need to be reported to the OJK.

Bank rating

OJK Regulation No. 4/POJK.03/2016 on Assessment of Soundness Level of Commercial Banks requires banks to conduct business on the basis of prudential principles with the objective of maintaining or improving their bank rating and to conduct a bank rating self-assessment on a semi-annual basis. A bank rating takes into account various aspects affecting the condition or performance of a bank by means of quantitative and/or qualitative ratings of the following factors:

- (a) risk profile;
- (b) good corporate governance;
- (c) earnings; and
- (d) capital.

The rating of the risk factors mentioned above constitutes the assessment to the inherent risks and the quality of the risk management implementation in a bank's operational activity. The assessment will be conducted against the following:

- (a) credit risk;
- (b) market risk;
- (c) liquidity risk;
- (d) operational risk;
- (e) legal risk;
- (f) strategy risk;
- (g) compliance risk; and
- (h) reputation risk.

The rating is also affected by the degree to which a bank complies with the various regulatory requirements. The composite rating is determined by rating each of the factors above. There are five composite ratings:

- (a) composite rating 1, indicating that the bank is in excellent condition and able to withstand significant negative changes from business conditions and other external conditions;
- (b) composite rating 2, indicating that the bank is in sound condition and able to withstand significant negative changes from business conditions and other external factors;
- (c) composite rating 3, indicating that the bank is in fairly sound condition and able to withstand significant negative changes from business conditions and other external factors;
- (d) composite rating 4, indicating that the bank is in poor condition and not able to withstand significant negative changes from business conditions and other external factors; and
- (e) composite rating 5, indicating that the bank is in unsound condition and not able to withstand significant negative changes from business conditions and other external factors.

The result of the bank rating self-assessment conducted by a bank must be reported to the OJK.

For the purpose of bank supervision, the OJK is required to conduct a bank rating on a semi-annual basis. Similar to the bank rating self-assessment, the OJK will rate each Indonesian bank to assess whether a bank is being managed in line with prudent banking principles and in accordance with regulations. The bank rating will be conducted by examining the periodic reports submitted by the bank and/or other information in the public domain. If the result of the bank rating conducted by the OJK differs from the result of the bank rating conducted by the bank, the result of the bank rating conducted by the OJK will prevail.

On the basis of the bank rating, the OJK may request the board of directors, board of commissioners and/or controlling shareholders to submit an action plan stating the corrective actions that must be implemented by the bank with regard to any significant problems, including timeframes for resolution over a specific period. If necessary, the OJK may request the bank to make adjustments to this action plan. Banks are required to submit an action plan implementation report no later than (i) 10 working days after the estimated completion date of the action plan's finalisation or (ii) 10 working days after the end of every month which is conducted on a monthly basis, should there be significant problems interrupting the completion of the action plan's finalisation. The OJK is also entitled to assess the implementation of the action plan.

Periodic reports

Reporting obligations under regulations in banking sector

OJK Regulation No. 37/POJK.03/2019 on Transparency and Publication of Bank Report most recently amended by OJK Regulation No. 13 of 2024 (“**OJK Regulation No. 37/2019**”) requires Indonesian banks to file to the OJK and publish certain information on an annual, quarterly, monthly, and incidental bases, depending on the type of report. These reports include, among others, financial statements (audited on an annual basis), capital and risk exposure report, loan interest rate (*suku bunga dasar kredit*). These reports must be published in a bank’s website.

Reporting obligations under company law and regulations in capital markets sector

Under Law No. 40/2007, a limited liability company’s board of directors must submit an annual report to the general meeting of shareholders. The annual report must include, among others, the company’s financial statement (consisting of at least a balance sheet, profit and loss statement, cash flow report, statement of changes in equity and notes to such financial statement).

Furthermore, if a limited liability company is publicly listed, it is also subject to OJK and IDX regulations for periodical submission of financial reports. Incidental reports are also required by the OJK and IDX to announce any material public information or events that may affect the price of securities or investors’ decisions to the public, no later than two working days after the event has occurred. Such events include mergers and changes in control or a significant change in management. See “– *Capital Market Regulations – Periodic Reports*”.

Audits and inspections

The OJK conducts periodic audits of all Indonesian banks and is entitled to conduct inspections and investigations and to request additional information to ensure compliance with its regulations or obtain information it may need for enforcement purposes. Bank Indonesia may also direct special audits on certain systemically important banks and/or other banks (in the context of its macro prudential function and duties), by submitting prior notice to the OJK, and the result report of any inspections must be submitted to the OJK within one month after the issuance of such report.

Deposit guarantee programme

In 1998, the Government, in response to the economic crisis and to support the deteriorating Indonesian banking industry, established a Government guarantee programme and an exchange offer programme to provide guarantees to bank depositors and creditors.

On 22 September 2004, the Government issued the IDIC Law. The enactment of the IDIC Law terminated the Government guarantee programme and replaced it with a deposit guarantee programme.

Pursuant to the IDIC Law, the LPS manages and administers the Government guarantee programme. This institution is a separate legal entity that is directly responsible to the President of the Republic of Indonesia. The deposit guarantee obligation is limited to the savings of customers in the form of current accounts, time deposits, deposits certificates, savings and/or other similar forms. The value of the guarantee per customer in one bank was previously limited to Rp100.0 million, but the value was then increased to Rp2.0 billion with the enactment of Government Regulation No. 66 of 2008 on the Value of Deposits Guaranteed by the LPS, dated 13 October 2008. The premium for the guarantee is to be paid by a bank twice each year (no later than 31 January for the first half of the year and no later than 31 July for the second half of the year) amounting to 0.1% of the average monthly balance of the total deposits of each preceding

period. No later than 90 days after the revocation of a bank's license, LPS is obliged to pay the claim of the guarantee to the depositing customers of such bank, after conducting reconciliation and verification of the data. The payment will be in Rupiah and may be made in cash and/or in another form equivalent to it. The claim under the guarantee will not be paid if, pursuant to reconciliation and verification, (i) the data on the customer's deposits is not recorded at the bank; (ii) the depositing customer is a party that gains an unfair benefit; or (iii) the depositing customer contributed to the insolvency of the bank.

All banks, including commercial banks and BPRs, are obliged to participate in the deposit guarantee programme. Failure to comply with the provisions regulated under the IDIC Law will result in a bank being charged with administrative penalties and penal sanctions.

Trading of Government recapitalisation bonds

Pursuant to Bank Indonesia Regulation No. 1/10/PBI/1999 as amended by Bank Indonesia Regulation No. 2/10/PBI/2000 on Government Obligation Portfolio for Commercial Banks Member of Recapitalisation Programme, banks holding Government recapitalisation bonds issued as part of the Bank Recapitalisation Programme may trade up to 10.0% of their holding of such bonds in the secondary market. Only bonds which are eligible to be traded may be used as security. In accordance with these regulations, any such bond trade must be reported to the OJK.

Anti-money laundering legislation and “Know Your Customer” principles

In October 2010, Indonesia issued Law No. 8 of 2010 on Prevention and Eradication of Money Laundering Criminal Act which sets out several elements of money laundering, any of which may constitute money laundering. In short, any person (individual or corporation) who places, transfers, assigns, spends, pays with, grants, deposits, brings abroad, transforms, exchanges with foreign currency or negotiable paper, or conducts any act over certain assets which have been (or are suspected to have been) derived from a crime (e.g., terrorism, corruption, smuggling), in which the person intends to conceal the origin of the assets, may be considered to commit money laundering. Further, under the legislation, money laundering also encompasses any act of receiving, the placement of, transfer, payment, grant, contribution, exchange of, or benefiting from certain assets which have been (or are suspected to have been) derived from a crime. The legislation requires financial service providers, such as banks, to report any suspicious financial transactions to the Indonesian Financial Transaction Reports and Analysis Centre (Pusat Pelaporan dan Analisis Transaksi Keuangan, or “PPATK”). Suspicious financial transactions include:

- (a) those which deviate in profile, characteristics or usual transaction patterns of the customer concerned;
- (b) financial transactions by customers that can be reasonably suspected to be conducted in order to avoid transaction reporting by the financial services provider which would be required by law;
- (c) financial transactions, whether or not completed, using assets that are reasonably suspected to constitute the proceeds of crime; and
- (d) financial transactions which can be requested by PPATK to be reported based on suspicions that they derive from the proceeds of crime.

The legislation broadens the concept of money laundering by including any suspicious transactions from Indonesia sent abroad and requiring such transactions to be reported to PPATK. There are different reporting requirements set out for each type of suspicious financial transactions. The legislation requires any suspicious (conventional) financial transaction to be

reported in no later than three (3) business days after the financial services provider knows that there is an element of suspicion. For cash financial transactions, the reporting requirement becomes applicable for any cash financial transaction with a cumulative value of at least Rp500 million, or its equivalent, which is conducted in one or several transactions within one working day. In the case of cash financial transaction, a report must be made in no later than 14 business days since a transaction is made. The reporting deadline is the same for financial transactions carried out on a cross-border basis. In fulfilling these anti-money laundering requirements, banks are exempted from any otherwise applicable rules providing for banking confidentiality.

Further, under OJK Regulation No. 8 of 2023 on Implementation of Anti Money Laundering Programme, Counter-Terrorism Financing and Counter-Proliferation Financing of Weapons of Mass Destruction Programme in the Financial Services Sector, banks are required to implement the anti-money laundering programme and prevention of terrorism financing programme (the **“AML and Counter-Terrorism Programme”**).

The implementation of the AML and Counter-Terrorism Programme constitutes part of the Bank's risk management. The implementation of the AML and Counter-Terrorism Programme consists, at a minimum, of the following measures:

- (a) the compliance of the banks' board of directors and board of commissioners with prevailing regulations;
- (b) policies and procedures to mitigate the risks of money laundering and/or terrorism financing;
- (c) effective internal control systems;
- (d) an information management system capable of identifying, analysing, monitoring and producing reports on the characteristics of customers' transactions; and
- (e) human resources (pre-employment screening procedures) and training.

Customer relations

The OJK has issued OJK Regulation No. 18/POJK.03/2017 on Reporting and Requesting Borrowers' Information through the Service System Financial Information as most recently amended by OJK Regulation No. 11 of 2024, regulating the central credit bureau which is intended to maintain comprehensive information on individual and corporate credit card holders and other borrowers. Under the regulation, banks and credit card providers are required to report regularly to the OJK information about borrowers, funds facility, collateral, guarantor, management and owners, and borrower's financial reports.

OJK regulations also require Indonesian banks to provide their customers with complete and accurate information on their product offerings. In addition, any publication of a customer's personal data must receive the prior approval of the customer concerned. Indonesian banks are also required to establish and maintain a system for monitoring and resolving customer complaints. Banks are required to resolve complaints addressed by the customers within twenty (20) working days of receipt. This period may be extended for an additional period of twenty (20) working days.

Further Supervision by OJK

A bank facing liquidity or other problems that jeopardises its business activities may face further supervision by the OJK. As one of the implementing regulation of Law No. 9/2016 (the **“KSSK Law”**), OJK Regulation No. 5 of 2024 on Determination of Supervision Status and Problem

Handling for Commercial Banks (“**OJK Regulation No. 5/2024**”) defines a systemic bank as a bank that could cause partial or total failure of other banks or the financial services sector, either operationally or financially, if it experiences disruption or failure. Such a failure could occur due to (i) the size of the systemic bank’s assets, capital and liabilities, (ii) the extent of the systemic bank’s network or banking transaction complexity, or (iii) the systemic bank’s relationship with other financial services sectors. The OJK is responsible to supervise and determine the supervision status of a bank. These levels of supervision allow the OJK to apply appropriate oversight and intervention measures based on the risk posed by the bank’s operations. In supervising banks, the OJK is authorised, among other things, to:

- (a) request a bank to collect and submit data/documents from any premise related to the Bank;
- (b) request a bank to collect and submit data/documents and information from any party that, according to the OJK’s assessment, has influence on such bank;
- (c) order a bank to block certain accounts; and/or
- (d) order a bank to take certain actions.

Under OJK Regulation 5/2024, OJK may determine that a bank is under normal supervision (*pengawasan normal*), in restructuring (*dalam penyehatan*) or in resolution (*dalam resolusi*). Any change in a bank’s supervisory status will be notified by the OJK to the LPS and Bank Indonesia.

A bank would be considered as being under normal supervision if it does not meet the criteria of a bank under restructuring or under resolution. However, the OJK may determine if a bank under normal supervision is experiencing difficulties that endanger their business continuity, even if the bank does not yet meet the criteria for a bank under restructuring or under resolution. ‘In restructuring’ is an increase in the supervisory status of a bank that was previously under normal supervision with the aim of restoring the condition of such a bank. The OJK may determine that a bank is under restructuring if such a bank:

- (a) has a composite rating of 4 or 5 in two consecutive assessment periods;
- (b) has Rupiah statutory reserves ratio which is less than the ratio prescribed by the OJK (and based on OJK’s assessment and the bank has a principal liquidity problem or declining development in the short-term period); and/or
- (c) has a CAR which is at least 8.0% but lower than the required ratio based on the bank’s risk profile.

Meanwhile, ‘in resolution’ is a supervisory status declared by the OJK when a bank is experiencing financial difficulties that endanger its business continuity and cannot be restructured under the OJK’s authority. The OJK may determine that a bank is under resolution if such a bank:

- (a) has a CAR of less than 8.0% and the OJK determines that such a bank can no longer be restructured (*disehatkan*); and/or
- (b) has Rupiah statutory reserves ratio which is equal to 0% and the OJK determines that this ratio cannot be adjusted so that it complies with regulatory requirements.

The exercise of the OJK’s authority with respect to a bank in resolution will be carried out in coordination with the LPS.

OJK Regulation 5/2024 empowers the OJK to take certain steps and request the relevant bank to do certain things. If the OJK determines that determine a bank under normal supervision is experiencing difficulties that endanger their business continuity, the OJK may:

- (a) limit the authority of the bank's General Meeting of Shareholders (GMS) or its equivalent, the board of commissioners or its equivalent, the board of directors or its equivalent, and shareholders or their equivalent;
- (b) request and/or order the bank's shareholders or their equivalent to increase the bank's capital;
- (c) require shareholders or their equivalent to replace members of the board of commissioners or its equivalent, and/or the board of directors or its equivalent;
- (d) request and/or order the bank to write off bad credit or disbursements and calculate the bank's losses against its capital;
- (e) request the bank to merge or consolidate with another bank;
- (f) request the bank's shareholders or their equivalent to sell the bank's ownership to buyers;
- (g) request and/or order the bank to transfer the management of all or part of the bank's activities to another party;
- (h) request and/or order the bank to sell some or all of the bank's assets and/or liabilities to another party and/or transfer the bank's liabilities to another party;
- (i) order the bank's shareholders or their equivalent to provide loans to the bank;
- (j) order the bank's shareholders or their equivalent to support the implementation of the duties of the OJK and the LPS in resolving the bank's issues;
- (k) appoint a statutory manager and order the bank to support the implementation of the statutory manager's duties;
- (l) order the bank not to carry out certain transactions with related parties and/or other parties determined by the OJK;
- (m) restrict certain business activities of the bank; and/or
- (n) order the bank to take any other steps deemed necessary by the OJK.

If a bank is in restructuring, in addition to the above authorities, the OJK may also, among other things:

- (a) prohibit the bank from selling or reducing the amount of assets, except for certain Government-related or interbank assets;
- (b) instruct the bank to report any change of its shareholding composition which is less than 10.0%; and
- (c) prohibit any change of shareholding composition of the bank for its (i) shareholders having shares equal to or more than 10.0% of the issued capital, and/or (ii) controlling shareholders, including all related parties controlling the bank, unless with prior consent from the OJK.

Within three days after being placed 'in restructuring' status, a bank must submit the following reports to the OJK, among others:

- (a) latest financial statements including the balance sheet, profit and loss statement and administrative accounts;
- (b) latest details of the productive assets, classified based on the quality;
- (c) latest composite rating;
- (d) information and documentation on the (i) latest list of its aggregate customers savings, detailed list of its receivables and liabilities to related parties, and (iii) other information required by the OJK;
- (e) latest financial statement from its subsidiary companies (other than temporary capital participation in terms of debt restructuring);
- (f) its latest group structure, including its direct owner and ultimate shareholders; and
- (g) a cash flow projection report for a period of the next one (1) month, broken down on a daily basis or based on the frequency and reporting period stipulated by the OJK.

If LPS decides not to rescue a bank in resolution, the OJK may revoke the bank's license after having been informed by the LPS. Under IDIC Law and LPS Regulation No. 1/PLPS/2022 on Liquidation of Banks, if a bank's license is revoked, LPS shall establish a liquidation committee.

OJK Regulation No. 5/2024 requires systemic banks to submit a recovery plan to the OJK. The recovery plan must be approved by the shareholders in a general meeting and the board of commissioners of the bank. Further, the president director, the president commissioner and the controlling shareholder of the bank must sign the recovery plan. There are certain indicators to use as a guide to the recovery plan that must be set out by the bank, such as (i) capitalisation, (ii) liquidity, (iii) profitability, and (iv) asset quality. The controlling shareholder or the ultimate shareholder is required first take capital actions before seeking external funding if the bank faces capitalisation problems, by conducting:

- (a) capital deposit;
- (b) postponement of dividend distribution;
- (c) distribution of stock dividend;
- (d) calculation of the accumulation of loss suffered by a shareholder in accordance to its responsibility based on type of owned shares;
- (e) conversion of loans or investment instruments which have a capital characteristic owned by the shareholders to an ordinary share; and/or
- (f) write-down of loans or investment instruments which have a capital characteristic owned by the shareholders.

If internal capital actions are insufficient for the bank's recovery, it may seek external funding, including but not limited to:

- (a) conduct a rights issue;
- (b) conduct a private placement (issuing of shares not through an initial public offering);

- (c) convert the debt instruments or investments with capital characteristics owned by third parties into ordinary shares; and/or
- (d) conduct a write-down of debt instruments or investments with capital characteristics owned by third parties.

The recovery plan must be submitted to the OJK for its review and approval. If a bank is determined as a systemic bank by the OJK, that bank must submit its recovery plan to OJK at the latest six months after its determination date.

Systemic banks must update their recovery plans annually. Along with the update, the said banks must also conduct stress testing to their recovery plans. An updated recovery plan must be submitted to the OJK annually before the end of November or one month after the stress testing of recovery plan under some circumstances.

In the event that a bank fails to comply with regulations issued by the OJK, the OJK has the authority to (i) the imposition of monetary penalties, (ii) prohibition on issuing new products, (iii) suspension of all or part of the activities of the bank, (iv) prohibition on expanding business activities, and (v) decrease in the assessment of the Bank's soundness level. The OJK also has the authority to sanction bank executives, including the board of commissioners and the board of directors, with a written warning and/or a prohibition from serving as a key individual in financial service institutions (such as holding executive roles in entities regulated under OJK regulations) if violations are severe.

Capital Market Regulations

Banks in the form of public companies are also required by the OJK to comply with various regulations which require public companies to meet, among others, more extensive corporate and disclosure standards. Administrative sanctions may be imposed on the banks that are public companies that fail to comply with the prevailing capital market laws and regulations.

Material transactions

Under OJK issued OJK Regulation No. 17/POJK.04/2020 on Material Transactions and Change of Business Activities ("**Material Transaction Rules**"), any transaction (either completed through one transaction or a series of related transactions) for a particular purpose having a transaction value of 20% or more of the public company's equity, as determined by the latest audited annual financial statements, limited reviewed or audited quarterly financial statements or other audited interim financial statements, whichever is the latest, is considered as a material transaction. If a transaction constitutes a material transaction, the public company must announce the same to the public, obtain an appraisal report from an independent appraiser, and report the same to the OJK. If the value of the material transaction exceeds 50% of the public company's equity, it must also be pre-approved by the general meeting of shareholders ("**GMS**"). Certain exemptions can be applied to these requirements.

An announcement relating to a material transaction must be made to the public through the public company's and the IDX's website no later than the end of the second business day after the date of execution of the agreement(s) related to the material transaction or on the same day as the **GMS** announcement date. The announcement is required to include a summary of the transaction, an explanation of the considerations and reasons for such material transaction and the effect of the transaction on the company's financial condition, a summary of the appraisal report (including its purpose, the object, the parties involved, the assumptions, qualifications and methodology used in the appraisal report, the conclusion on the value of the transaction, and the fairness opinion on the transaction), which must not be dated more than six (6) months prior to the date of the material transaction or date of **GMS** in the event the transaction constitutes as a material

transaction that requires GMS approval, the amount borrowed or lent, and a summary of the terms and conditions of the borrowing or lending. Publicly-listed companies must submit evidence of an announcement as referred to above, including the independent appraisal report to the OJK by the end of the second business day after the date of execution of the agreement(s) related to the material transaction or on the same day as GMS announcement date, in the event the transaction constitutes as a material transaction that requires GMS approval.

A material transaction must be approved by the independent shareholders if the transaction: (a) is subject to GMS' approval and is an affiliated transaction; (b) contains a conflict of interest; and/or (c) potentially disrupts the going concern of the public companies.

Affiliated party transactions and conflict of interest transactions

In order to protect the rights of minority shareholders, OJK Regulation No. 42/POJK.04/2020 on Affiliated Party Transactions and Conflict of Interest Transactions (“**Affiliated Transaction Rules**”) regulates how a public company may enter into a transaction with its affiliates. There are two types of related party transactions under the Affiliated Transaction Rules, namely, affiliated party transactions and conflict of interest transactions. An affiliated party transaction is defined as a transaction entered into between a public company (or a company that is directly or indirectly controlled by a public company) and its affiliates or affiliates of a member of the board of directors, a member of the board of commissioners, a principal shareholder (owner of directly or indirectly, at least 20% of the voting rights of all shares with voting rights) or the controller of the public company. An affiliated party transaction (whether in a single transaction or in a series of transactions for a specific purpose or activity) does not require prior approval by a company's independent shareholders, unless (i) the value of the affiliated party transaction exceeds the threshold of a “material transaction” within the meaning of the Material Transaction Rules that requires GMS approval, (ii) the affiliated party transaction may potentially disrupt business continuity of the company (e.g. the transaction in pro forma would cause the public company to experience a decrease of 80% or more in its revenue or suffer a net loss for the current financial year) or (iii) the OJK deems that the affiliated party transaction requires an approval by the company's independent shareholders. Subject to certain exemptions, the company must publicly disclose to the public and report to OJK information on the transaction, which shall include a summary of an independent appraiser's report. Any transaction (including an affiliated party transaction) may, however, contain a conflict of interest.

A “conflict of interest” is defined as a difference between the economic interest of the public company and the personal interest of its member of the board of directors, member of the board of commissioners, principal shareholder or controller which may cause an economic loss for the public company. If the transaction is considered to be a conflict of interest transaction, then, subject to certain exemptions, it must be approved in advance by a resolution of independent shareholders who are not involved in the relevant conflict of interest and who are not affiliated with the board of directors, board of commissioners or a principal shareholder who may have a conflict of interest. OJK has the power to enforce the Affiliated Transaction Rules and the Bank's shareholders may also be entitled to seek enforcement or bring enforcement action.

Periodic Reports

As a publicly listed company, the Bank is required by OJK regulations to periodically submit financial reports, including annual financial statements and semi-annual financial statements, pursuant to OJK Regulation No. 14/POJK.04/2022 on Submission of Periodic Financial Statements. OJK replaced and assumed the function, duty and authority of the Bapepam-LK with effect from 31 December 2012. In addition, IDX requires publicly listed companies to submit annual and interim (quarterly) financial statements pursuant to IDX Regulation No. I-E on Obligations of Information Submission (“**IDX Regulation No. I-E**”). Under Law No. 40 of 2007, the board of directors must submit an annual report to a general meeting of shareholders. Pursuant

to OJK Regulation No. 31/POJK.04/2015 on Disclosure on Material Information or Facts by Issuers or Public Companies as partially revoked by OJK Regulation No. 45 of 2024 (“**OJK Regulation No. 31/2015**”) and IDX Regulation No. I-E, publicly listed companies are required to report to OJK and IDX and are required to announce any material public information or facts that may affect the price of securities or investors’ decision to the public, by no later than before the start of the first trading session on the business day following the date of the relevant event. Further, pursuant to OJK Regulation No. 31/2015, the announcement shall include the following: (i) the date of the event, (ii) the types of material information, (iii) a description of the material information, and (iv) the impact caused by such material information. Publicly listed companies are also required to submit an annual report to OJK and IDX consisting of a summary of material financial data, the board of directors’ and board of commissioners’ report, company profile, management analysis and discussion, corporate governance, corporate social responsibility, audited annual financial statement, and statement letter on the responsibilities of the board of directors and the board of commissioners in relation to the content in the financial statement pursuant to OJK Regulation No. 29/POJK.04/2016 on the Annual Reports from Issuers or Public Companies (“**OJK Regulation 29/2016**”) and IDX Regulation No. I-E. The annual report must be submitted to OJK and IDX no later than four months following the end of a financial year.

BOOK-ENTRY CLEARANCE SYSTEMS

*The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of Euroclear or Clearstream, Luxembourg (together, the “**Clearing Systems**”) currently in effect. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Bank, the Trustee nor any Agent will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Notes held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.*

Book-entry Systems

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for its customers and facilitates the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depositary and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

Transfers of Notes represented by Registered Global Notes

Transfers of any interests in Notes represented by a Registered Global Note within Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Notes represented by a Registered Global Note to such persons may depend upon the ability to exchange such Notes for Notes in definitive form.

Clearstream, Luxembourg and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Notes among participants and accountholders of Clearstream, Luxembourg and Euroclear. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Bank, the Trustee, the Agents or any Dealer will be responsible for any performance by Clearstream, Luxembourg or Euroclear or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Notes represented by Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

TAXATION

The discussion below is not intended to constitute a complete analysis of all tax consequences relating to ownership and disposition of the Notes. Prospective purchasers of the Notes should consult their own tax advisors concerning the tax consequences relating to ownership and disposition of the Notes in light of their particular situations. This description is based on laws, regulations and interpretations as now in effect and available as of the date of this Offering Circular. The laws, regulations and interpretations, however, may change at any time, and any change could be retroactive to the date of issuance of the Notes. These laws and regulations are also subject to various interpretations and the relevant tax authorities or the courts could later disagree with the explanations or conclusions set out below. Each prospective purchaser is urged to consult its own tax adviser about the tax consequences under its circumstances of purchasing, holding and selling the Notes under the laws of Indonesia, its political subdivisions and any other jurisdictions where the prospective purchaser may be subject to tax.

Indonesian taxation

The following is a summary of certain Indonesian income tax consequences relevant to prospective Noteholders that are not tax residents in Indonesia and that have no permanent establishment (“**PE**”) in Indonesia. The summary only covers taxes imposed by Indonesia under Indonesian tax laws and the implementing regulations. The summary does not address any laws other than the tax laws of the Republic of Indonesia in force and as they are applied in practice as at the date of this Offering Circular.

The summary represents a general guide only and should not be relied upon by individual or corporate holders of the Notes. It is recommended that holders of the Notes seek independent tax advice relevant to their facts and circumstances.

General

Resident taxpayers, individual or company, are subject to income tax in Indonesia. Generally, a foreign individual (non-Indonesian citizen) is considered to be a non-resident of Indonesia for tax purposes if the individual does not reside in Indonesia or does not stay (or intend to stay) in Indonesia for more than 183 days within a twelve-month period. In the event of potential double tax residency, the tie breaker rules may be applied in accordance with the relevant requirements under the applicable tax treaty which normally include an assessment of the individual’s permanent home, place of main activities, habitual abode and/or other criteria. An Indonesian citizen is naturally considered as an Indonesian tax resident even if the individual works or resides overseas. However, the individual may be considered a non-resident individual if the individual resides overseas for more than 183 days within a twelve-month period and obtains a “non-effective taxpayer status” from the Indonesian Tax Authorities. A company can be considered to be a non-resident of Indonesia for tax purposes if the company is not established or domiciled in Indonesia. A non-tax resident may also be subject to Indonesia taxation if the non-resident earns or receives income (i) by conducting business or activities through a PE in Indonesia or (ii) sourced from Indonesia.

In determining the tax residency and allocation of taxing rights on income between two countries of an individual or company, consideration will also be given to the provision of any applicable tax treaty which Indonesia has concluded with other countries. In this section, both a non-resident individual and a non-resident company will be referred to as “non-resident taxpayers” unless the context states otherwise.

Non-resident taxpayers who derive certain Indonesian sourced income, such as services, royalties, interest, and dividends, etc., are generally subject to a final withholding tax (“WHT”) on that income at a rate of 20% or lower based on relevant tax treaties rate (if applicable), as long as the income is not effectively connected with a PE of the non-resident taxpayer in Indonesia. If the income is effectively connected with a PE in Indonesia, such income shall be regarded as income earned by the PE and is taxable in the same manner as for resident taxpayers. Following the issuance of Government Regulation Number 9 of 2021 (“GR-9/2021”) concerning Taxation Treatment to Support Ease of Doing Business, the WHT rate on interest on bonds paid to non-resident taxpayers (other than PE) is reduced from 20% to 10% or lower based on relevant tax treaties rate (if applicable).

Taxation on interest, including premium and discount, and other payments related to the Notes

Payments of principal under the Notes by the Bank are not subject to WHT in Indonesia, while the interest paid or due to be paid by the Bank to a non-resident taxpayer with no PE in Indonesia is subject to final WHT in Indonesia at the statutory rate of 20% or the relevant reduced rate under an applicable tax treaty between Indonesia and countries where the relevant Noteholders are tax residents. However, the statutory WHT rate of 20% has been reduced to 10% effective from 2 August 2021 under GR-9/2021. Since GR-9/2021 is already effective, only a few tax treaties provide a rate lower than 10% i.e. Kuwait and the Netherlands, where the withholding tax rate for interest is only at 5%, and United Arab Emirates where the WHT for interest is 7%. To use the reduced rate under an applicable tax treaty, a non-resident individual or company must satisfy the eligibility requirements under the applicable tax treaty and domestic tax regulations, including the requirement that the interest income recipient shall be the beneficial owner of the income. See “– *Application of tax treaties under Indonesian tax regulations*” below. However, as described under Condition 8, and subject to the limitations therein, Noteholders will generally be entitled to additional amounts to cover the Indonesian withholding tax irrespective of whether such Noteholders qualify for tax treaty relief. In addition, non-resident taxpayers need to observe the anti-avoidance measures, namely the Multilateral Instrument, which has been brought in force in Indonesia and meet the underlying “Principal Purpose Test” (“PPT”) based on the Article being passed into the relevant Tax Treaty (see “– *The use of tax treaty relief and Multilateral Instruments*” below).

Payment of principal under the Notes to an Indonesian (whether an individual or a corporation) who is a tax resident or a PE in Indonesia (“**Indonesian Tax Resident**”) is not subject to tax. Government Regulation No. 91 Year 2021 concerning *Income Tax on Income in the Form of Interest on Bonds Received or Obtained by Domestic Taxpayers and Permanent Establishment* (dated and effective from 30 August 2021) (“GR-91/2021”) stipulates that the WHT rate on bond-related (Notes with more than a twelve-month maturity period) interest derived by an Indonesian tax resident or any non-resident that has a registered PE in Indonesia shall be 10% (final tax). GR-91/2021 also stipulates that, if the bond-related interest is administered through the Bank Indonesia Scriptless Securities Settlement System, the final income tax must be self-remitted by the income recipient. Since the payment of interest from the Notes is categorised as final income tax subject under Article 4 paragraph (2) Income Tax Law, there is no prepaid tax that could be treated as a deduction due to the calculation of Corporate Income Tax and Individual Income Tax. There are exception under GR-91/2021 i.e., WHT final tax shall not be applicable in the event that the recipients of interest income from the Notes are: a) pension fund taxpayers in which the establishment or formation has been approved by the Minister of Finance or have obtained a permit from Financial Services Authority and fulfilled the requirements as regulated in Article 4 paragraph (3)(h) of the Income Tax Law and the implementing regulations thereof; and b) bank taxpayers established in Indonesia or foreign bank branches in Indonesia as the interest income will be subject to income tax based on the general tariff in accordance with the Income Tax Law. Recent updates to GR-9/2021 by the Government Regulation Number 44 of 2022, Government Regulation Number 50 of 2022, and Government Regulation Number 55 of 2022 have not changed these rates or their treatment.

The use of tax treaty relief and Multilateral Instruments

Indonesia has signed tax treaties with a number of countries including Australia, Belgium, Canada, France, Germany, Japan, the Netherlands, Singapore, Sweden, Switzerland, the United Kingdom and the United States of America.

Where a tax treaty exists, the eligibility requirements of that treaty are satisfied if there is no misuse of the tax treaty, fulfil the beneficial ownership test, and the administrative requirements under Indonesian tax regulations are met. Then a reduced rate of withholding tax based on the tax treaty may be applicable in the case of interest (or payments in the nature of interest such as premium and discount). In this regard, the term “interest” may be defined differently in various tax treaties to which Indonesia is a party.

To obtain the benefit of an applicable tax treaty, the non-resident taxpayer must be the actual owner of the economic benefits of the income (referred to as beneficial owner of the income) and comply with the eligibility requirements for application of the treaty in Indonesia. Please refer to “– *Application of tax treaties under Indonesian tax regulations*, “– *Beneficial ownership tests*, and “– *Certificate of domicile*”. However, as discussed in Condition 8 and subject to the limitations therein, a holder of the Notes will generally be entitled to additional amounts to cover the Indonesian withholding tax irrespective of whether such holder of the Notes qualifies for and establishes eligibility for a reduced rate of withholding under any tax treaty.

In an effort prevent Base Erosion and Profit Shifting (“**BEPS**”), the Government of Indonesia issued Presidential Regulation Number 77 Year 2019 concerning “Ratification of the Multilateral Convention to Implement Tax Treaty Related Measures to Prevent BEPS” which was entered into force on the same date on 12 November 2019 (“**PP-77**”). This regulation officially ratified and approved Multilateral Instrument on implementation of Tax Treaty. Indonesia signed the Multilateral Instrument on 7 June 2017. The Multilateral Instrument is a multilateral treaty that enables jurisdictions to swiftly modify their bilateral tax treaties to implement measures designed to better address multinational tax avoidance. These measures were developed as part of the OECD/G20 Base BEPS. For a bilateral tax treaty to be modified by the Multilateral Instrument, both treaty partners need to have:

- signed and ratified the Multilateral Instrument (that is, the Multilateral Instrument needs to have entered into force for both treaty partners); and
- identified that particular bilateral tax treaty as a treaty to be covered by the Multilateral Instrument.

The extent to which the Multilateral Instrument will modify Indonesia’s bilateral tax treaties will depend on the final adoption positions taken by other countries. In PP-77, the Government of Indonesia stated its final adoption positions with regards to the scope of Multilateral Instrument, including:

- Article 3 – Transparent entities
- Article 4 – Dual resident entities
- Article 5 – Application of methods for elimination of double taxation
- Article 6 – Purpose of a covered tax agreement
- Article 7 – Prevention of treaty abuse
- Article 8 – Dividend transfer transactions

- Article 9 – Capital gains from alienation of shares or interests of entities deriving their value principally from immovable property
- Article 10 – Anti-abuse rule for permanent establishments situated in third jurisdictions
- Article 11 – Application of tax agreements to restrict a Party’s right to tax its own residents
- Article 12 – Artificial avoidance of permanent establishment status through commissionaire arrangements and similar strategies
- Article 13 – Artificial avoidance of permanent establishment status through the specific activity exemptions
- Article 14 – Splitting-up of contracts
- Article 16 – Mutual agreement procedure
- Article 17 – Corresponding adjustments
- Article 35 – Entry into Force

As of the date of the Offering Circular, Indonesia has 71 tax treaties, but not all of these tax treaties will be affected by the MLI – Indonesia has only submitted 47 tax treaties to be included as Covered Tax Agreements (“**CTA**”) and out of which, 39 of these jurisdictions have also chosen Indonesia as their CTA. By 27 November 2023, Indonesia has submitted 60 tax treaties to be covered by the Convention. Accordingly, MLI will not affect the existing tax treaties between Indonesia and those jurisdictions that have not been included in either side of CTA. On 13 June 2024, the President of Republic of Indonesia issued Presidential Regulation Number 63 of 2024, which amended the Presidential Regulation Number 77 Year 2019, updating its list of reservations and notifications to include 13 additional jurisdictions, thereby bringing the total to 60 CTAs.

On 26 November 2020, Indonesia submitted notification to the OECD which confirms the completion of internal procedures for the MLI. 22 tax treaties are listed by Indonesia in the notification document (in line with the number of jurisdictions that have chosen Indonesia as their CTA and ratified their MLI).

On 18 February 2021, the Director General of Taxes (the “**DGT**”) issued 21 Circulars from No.SE-05/PJ/2021 up to SE-25/PJ/2021 to announce that the MLI with respective jurisdictions (*including Australia, Belgium, Canada, Denmark, Finland, France, India, Japan, Luxembourg, Netherlands, New Zealand, Poland, Portugal, Qatar, Russia, Serbia, Singapore, Slovakia, South Korea, United Arab Emirates, and United Kingdom*) entered into force, entered into effect and implemented key changes to the relevant tax treaty articles (except for Sweden) – MLI-synthesised text is now available as it is attached to each of the DGT Circulars.

Based on the DGT Circulars, the MLI provisions dealing with Indonesian tax came into effect on 1 January 2021 for tax withheld at source and on 1 January 2022 for other taxes. On the other hand, the MLI provisions dealing with the tax for the counterpart jurisdictions also came into effect on 1 January 2021 for tax withheld at source, except for India which came into effect on 1 April 2021. For other taxes, the effectiveness date varies.

One of the mandatory minimum standards and the backbone of the MLI is the PPT pursuant to Article 7 of the MLI. PPT regulates that tax treaty benefits will be denied if it is reasonable to conclude that one of the principal purposes of a transaction or arrangement is only obtaining that tax treaty benefit.

Singapore and Indonesia are both part of the MLI signatories and have ratified and synthesised the MLI provision in the existing Tax Treaty.

Specifically, the following new Article 27A is inserted immediately after Article 27 (Diplomatic Agents and Consular Officers):

“ARTICLE 27A – PREVENTION OF TREATY ABUSE

Notwithstanding any provisions of this Agreement, a benefit under this Agreement shall not be granted in respect of an item of income or capital if it is reasonable to conclude, having regard to all relevant facts and circumstances, that obtaining that benefit was one of the principal purposes of any arrangement or transaction that resulted directly or indirectly in that benefit, unless it is established that granting that benefit in these circumstances would be in accordance with the object and purpose of the relevant provisions of this Agreement.”

This PPT requirement is on a self-assessment basis – it needs to be self-declared in the Form-DGT as regulated under PER 25/2018 (please refer to below – “*Application of tax treaties under Indonesian tax regulations*”).

Application of tax treaties under Indonesian tax regulations

The DGT issued DGT Regulation No. PER-25/PJ/2018 (“**PER-25**”) dated 21 November 2018 which revokes PER-10/PJ/2017 (“**PER-10**”) concerning Procedure for Application of Double Taxation Agreements (“**DTA**”), effective from 1 January 2019. The general principle of this regulation is that treaty provisions shall not be applied if the foreign income recipient fails to satisfy the administrative and substance requirements, or when there is misuse of such DTA provisions, even if the foreign income recipient is a resident of a country which has a DTA with Indonesia.

Based on PER-25, an Indonesian Tax Resident required to withhold taxes may apply the relevant tax treaty provisions if all of the following conditions are met:

- a. The income recipient is not an Indonesian tax resident;
- b. The income recipient is an individual or a corporate tax resident of a treaty country;
- c. There is no misuse of tax treaty; and
- d. The income recipient is the beneficial owner of the income as required in the tax treaty.

PER-25 states that there is no misuse of tax treaty if:

- i. Non-residents have the following:
 - a. Economic substance in the establishment or in the execution of its transaction;
 - b. The same legal form as the economic substance in the establishment or in the execution of its transaction;
 - c. Business activities that are managed by its own management and the management has sufficient authority to carry out the transaction;
 - d. Sufficient and adequate fixed assets and non-fixed assets to conduct business activities in the home country other than the assets generating income from Indonesia;
 - e. Sufficient and qualified personnel with certain expertise and skill in accordance with the business run by the Company; and
 - f. Active business other than receiving dividends, interest, and/or royalties from Indonesia.

- ii. There are no arrangements in the transaction, either directly or indirectly, which are intended to obtain benefits from the implementation of a double taxation convention, such as:
 - a. Reduction of tax; and/or
 - b. Becoming not subject to taxes in any country or jurisdiction (double non-taxation), which is contrary to the intent and purpose of concluding a double taxation convention.

Beneficial ownership tests

PER-25 further substantiates the substance requirements of business purpose tests for the foreign taxpayer where it has the same legal form and economic substance either in the entity's establishment or the execution of its transaction.

In addition, a non-individual taxpayer must fulfil beneficial ownership tests if required under the relevant tax treaty where they generate income in the form of dividends, interest, or royalties. The beneficial ownership tests consist of the following:

1. The entity is not acting as an agent, nominee, or conduit;
2. The entity has controlling rights or disposal rights on the income, or the assets or rights that generate the income;
3. No more than 50% of the entity's income is used to satisfy claims by other persons;
4. The entity bears the risk on its own assets, capital, or the liabilities; and
5. The entity has no contract(s) which obliges the entity to transfer the income received to residents of a third country.

When assessing the 50% base erosion rule under PER-25, the following are not included:

1. Provision of compensation to employees which is given reasonably in an employment relationship; and
2. Other costs normally expended by the Foreign Taxpayer in running its business.

In the event that there is a difference between the legal form of a transaction structure/contribution and its economic substance, the tax treatment will be applied based on the 'substance over form' principle.

Non-Indonesian tax residents must fulfil the above requirements as implemented by the DGT in order to apply tax treaty benefits in Indonesia. The relevant DGT tax residency form must be provided to the Indonesian party required to withhold taxes and submitted to the DGT system once for the period covered/stated in the DGT form. Failure to meet all the requirements and to provide the complete DGT form in a timely manner will preclude the non-Indonesian tax residents from applying tax treaty benefits.

Certificate of domicile

Previously, under PER-10 the Indonesian tax authorities required DGT Form-1 for Non-Bank and DGT Form-2 for Bank, while PER-25 only requires a single type of DGT Form effective from 1 January 2019.

Part II of the DGT form needs to be signed off by the competent foreign tax authority. The sign-off of foreign residency by the foreign tax authority may be substituted with a standard Certificate of Residence (“**CoR**”) issued by the competent foreign tax authority (in this case, the foreign tax authority does not need to sign off on Part II of the DGT form, although the rest of the form must still be completed by the non-Indonesian tax resident). To use the CoR issued by the foreign tax authority, such CoR must meet the following requirements:

- a. It must be in the English language;
- b. In the form of an original document or photocopy document that has been legalised by the Tax Service Office where one of the Tax Withholders is registered as a Taxpayer;
- c. It must contain:
 1. The name of the non-resident taxpayer;
 2. The date of issuance;
 3. The applicable fiscal year of the CoR; and
 4. The signature of the authorised official of the foreign tax office, or mark equal to signature according to the common practice in the treaty partner country, and the name of such official.

Part II of the DGT form also requires the period covered to be stated, with a maximum of 12 months.

The misuse of tax treaty and beneficial ownership tests are presented in Part V and VI (for non-individuals) of the DGT form for non-Indonesian tax residents. Furthermore, as the responsibility to withhold rests with Indonesian tax residents, the Indonesian withholding party must examine a DGT form provided by a non-Indonesian tax resident as follows:

- (1) The withholding party must perform an examination of whether there is any misuse of tax treaty by ensuring whether any question in questions 5 to 10 in Part V of the DGT form is answered with a “no”, in which case tax treaty benefits shall not be applied;
- (2) The withholding party must perform an examination of whether the main objective of the transaction arrangement is to take advantage of a tax treaty in a manner contrary to its objective. The withholding party must ensure that if Part V, question 11 of the DGT form is answered with a “yes”, and tax treaty benefits shall not be applied; and
- (3) The withholding party must perform an examination to identify whether the non-Indonesian tax resident constitutes a beneficial owner as prescribed in the tax treaty by confirming whether the DGT form contains any of the following answers:
 - a. “Yes” in Part IV, Point 3 (for individual);
 - b. “Yes” in Part VI, Point 1;
 - c. “No” for at least one of the questions in Part VI, Point 2 up to Point 4; or
 - d. “Yes” in Part VI, Point 5.

In such cases, tax treaty benefits cannot be applied.

If foreign corporate taxpayer uses a Certificate of Residence as mentioned above, the Foreign Taxpayer must still fill in the DGT Form other than Part II. Under PER-25 the tax withholder (e.g. Indonesian tax resident) must submit a COD (i.e. DGT Form) that satisfies the administrative requirements and certain other requirements (i.e. should be fully completed with the required information and authorisation from the competent authority of the relevant tax treaty country) as an attachment in the Monthly Tax Return for the period when the Income Tax is payable (i.e. the 20th of the month after the month when the withholding tax is due). The submission of DGT Form is only performed once during the covered period in the DGT Form. The first page of the form is valid or may be used for the tax year that is stated in the DGT Form or mentioned in the first page where this form is certified by the competent tax authority. The second page would need to be completed by the non-resident taxpayer and provided to the Indonesian tax resident on a transaction basis.

Taxation of capital gains

Any gain or in accordance with GR-91/2021 referred to as a discount derived by an Indonesian Tax Resident from the sale or other disposal of notes with more than a twelve-month maturity period will be subject to final withholding tax in Indonesia at the statutory rate of 10%. This final withholding tax is not applicable if the recipient is a bank or a Minister of Finance-approved pension fund, which will be subject to normal Corporate Income Tax, generally at a rate of 22%. A special tax rate of 5% is available for gains received by a mutual fund, infrastructure investment funds, real estate investment funds, and asset-back securities registered with the OJK until year 2020 and 10% thereafter. Capital gains derived by a non-resident taxpayer, without a permanent establishment in Indonesia, from the disposal of Notes to a resident taxpayer or to non-resident taxpayer, having a permanent establishment in Indonesia, shall not be subject to Indonesian withholding tax as the gains are not sourced from Indonesia. However, any gains (accrued interest and/or capital gains) from the offer, sale or transfer of Notes by the Dealers to Indonesian tax residents, where the transaction is conducted through a securities company, dealer or bank in Indonesia (either as intermediary or buyer), is deemed to be interest gain and subject to final withholding tax at the rate of 10% (pursuant to the GR-9/2021) or such reduced rate as may apply under relevant tax treaty, if any.

Other Indonesian taxes

There should be no Indonesian estates, inheritance, succession or gift taxes generally applicable to the acquisition, ownership or disposition of the Notes.

Stamp duty

The new Stamp Duty Law No. 10 Year 2020 was issued on 26 October 2020 and has been effectively applied since 1 January 2021 ("**Stamp Duty Law**"). The new single stamp duty tariff of Rp10,000 (approximately US\$0.62) is applied on agreements and transaction documents, and is unrelated to the value of the documented transaction. Stamp duty applies to certain documents made, executed or brought into Indonesia or intended to be used as evidence in civil proceedings. Documents subject to stamp duty include notarial deeds, documents evidencing or recording the receipt of money, and securities instruments. The nominal amount of Indonesian stamp duty applied to any kind of securities transaction with a value greater than Rp5,000,000 is Rp10,000. Generally, marketable securities shall be payable at an issuer level unless the relevant parties involved decide otherwise and would be due at the time the document is executed.

General

The tax treatment of non-resident Noteholders in jurisdictions outside Indonesia may vary depending on the tax laws applicable to such holder by reason of domicile or business activities and such holder's particular situation. This Offering Circular does not discuss the tax implications for such non-resident holders under laws other than those of Indonesia.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the US Internal Revenue Code of 1986, commonly known as FATCA, a "**foreign financial institution**" (as defined by FATCA) may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting or related requirements. The Bank is a foreign financial institution for these purposes. A number of jurisdictions (including Indonesia) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**") which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as in effect as of the date of the Offering Circular, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the US Federal Register and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for US federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are published generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the Bank). However, if additional notes (as described under "*Terms and Conditions of the Notes – Further Issues*") that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes.

The proposed financial transactions tax

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common financial transactions tax ("**FTT**") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

The Dealers have, in an Amended and Restated Programme Agreement dated 14 March 2025 (such Programme Agreement as modified and/or supplemented and/or restated from time to time, the “**Programme Agreement**”), agreed with the Bank a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under “*Form of the Notes*” and “*Terms and Conditions of the Notes*”. In the Programme Agreement, the Bank has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith. The Bank may also from time to time agree with the relevant Dealer(s) that the Bank may pay certain third party commissions (including, without limitation, rebates to private banks as specified in the applicable Pricing Supplement).

In order to facilitate the offering of any Tranche of the Notes, certain persons participating in the offering of the Tranche may engage in transactions that stabilise, maintain or otherwise affect the market price of the relevant Notes during and after the offering of the Tranche. Specifically, such persons may over-allot or create a short position in the Notes for their own account by selling more Notes than have been sold to them by the Bank. Such persons may also elect to cover any such short position by purchasing Notes in the open market. In addition, such persons may stabilise or maintain the price of the Notes by bidding for or purchasing Notes in the open market and may impose penalty bids, under which selling concessions allowed to syndicate members or other broker-dealers participating in the offering of the Notes are reclaimed if Notes previously distributed in the offering are repurchased in connection with stabilisation transactions or otherwise. The effect of these transactions may be to stabilise or maintain the market price of the Notes at a level above that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of the Notes to the extent that it discourages resales thereof. No representation is made as to the magnitude or effect of any such stabilising or other transactions. Such transactions, if commenced, may be discontinued at any time.

If a jurisdiction requires that the offering be made by a licenced broker or dealer and the Dealers or any affiliate of the Dealers is a licenced broker or dealer in that jurisdiction, the offering shall be deemed to be made by that Dealer or its affiliate on behalf of the Bank in such jurisdiction.

The Dealers and their affiliates are full service financial institutions engaged in various activities which may include securities trading, commercial and investment banking, financial advice, investment management, principal investment, hedging, financing and brokerage activities. Each of the Dealers may have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with the Bank or its subsidiaries, jointly controlled entities or associated companies from time to time. In the ordinary course of their various business activities, the Dealers and their affiliates may make or hold (on their own account, on behalf of clients or in their capacity of investment advisers) a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments and enter into other transactions, including credit derivatives (such as asset swaps, repackaging and credit default swaps) in relation thereto. Such transactions, investments and securities activities may involve securities and instruments of the Bank or its subsidiaries, jointly controlled entities or associated companies, including Notes issued under the Programme, may be entered into at the same time or proximate to offers and sales of Notes or at other times in the secondary market and be carried out with counterparties that are also purchasers, holders or sellers of Notes. Notes issued under the Programme may be purchased by or be allocated to any Dealer or an affiliate for asset management and/or proprietary purposes but not with a view to distribution.

Important Notice to CMIs (including private banks)

This notice to CMIs (including private banks) is a summary of certain obligations the SFC Code imposes on CMIs, which require the attention and cooperation of other CMIs (including private banks). Certain CMIs may also be acting as OCs for the relevant CMI Offering and are subject to additional requirements under the SFC Code. The application of these obligations will depend on the role(s) undertaken by the relevant Dealer(s) in respect of each CMI Offering.

Prospective investors who are the directors, employees or major shareholders of the Issuer, a CMI or its group companies would be considered under the SFC Code as having an Association with the Issuer, the CMI or the relevant group company. CMIs should specifically disclose whether their investor clients have any Association when submitting orders for the relevant Notes. In addition, private banks should take all reasonable steps to identify whether their investor clients may have any Associations with the Issuer or any CMI (including its group companies) and inform the relevant Dealers accordingly.

CMIs are informed that, unless otherwise notified, the marketing and investor targeting strategy for the relevant CMI Offering includes institutional investors, sovereign wealth funds, pension funds, hedge funds, family offices and high net worth individuals, in each case, subject to the selling restrictions and any MiFID II product governance language or any UK MiFIR product governance language set out elsewhere in this Offering Circular and/or the applicable Pricing Supplement.

CMIs should ensure that orders placed are bona fide, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMIs). CMIs should enquire with their investor clients regarding any orders which appear unusual or irregular. CMIs should disclose the identities of all investors when submitting orders for the relevant Notes (except for omnibus orders where underlying investor information may need to be provided to any OCs when submitting orders). Failure to provide underlying investor information for omnibus orders, where required to do so, may result in that order being rejected. CMIs should not place "X-orders" into the order book.

CMIs should segregate and clearly identify their own proprietary orders (and those of their group companies, including private banks as the case may be) in the order book and book messages.

CMIs (including private banks) should not offer any rebates to prospective investors or pass on any rebates provided by the Issuer. In addition, CMIs (including private banks) should not enter into arrangements which may result in prospective investors paying different prices for the relevant Notes. CMIs are informed that a private bank rebate may be payable as stated above and in the applicable Pricing Supplement, or otherwise notified to prospective investors.

The SFC Code requires that a CMI disclose complete and accurate information in a timely manner on the status of the order book and other relevant information it receives to targeted investors for them to make an informed decision. In order to do this, those Dealers in control of the order book should consider disclosing order book updates to all CMIs.

When placing an order for the relevant Notes, private banks should disclose, at the same time, if such order is placed other than on a "principal" basis (whereby it is deploying its own balance sheet for onward selling to investors). Private banks who do not provide such disclosure are hereby deemed to be placing their order on such a "principal" basis. Otherwise, such order may be considered to be an omnibus order pursuant to the SFC Code. Private banks should be aware that placing an order on a "principal" basis may require the relevant affiliated Dealer(s) (if any) to categorise it as a proprietary order and apply the "proprietary orders" requirements of the SFC Code to such order and will result in that private bank not being entitled to, and not being paid, any rebate.

In relation to omnibus orders, when submitting such orders, CMIs (including private banks) that are subject to the SFC Code should disclose underlying investor information in respect of each order constituting the relevant omnibus order (failure to provide such information may result in that order being rejected). Underlying investor information in relation to omnibus orders should consist of:

- the name of each underlying investor;
- a unique identification number for each investor;
- whether an underlying investor has any “Associations” (as used in the SFC Code);
- whether any underlying investor order is a “Proprietary Order” (as used in the SFC Code); and
- whether any underlying investor order is a duplicate order.

Underlying investor information in relation to omnibus order should be sent to the Managers named in the relevant Pricing Supplement.

To the extent information being disclosed by CMIs and investors is personal and/or confidential in nature, CMIs (including private banks) agree and warrant: (A) to take appropriate steps to safeguard the transmission of such information to any OCs; and (B) that they have obtained the necessary consents from the underlying investors to disclose such information to any OCs. By submitting an order and providing such information to any OCs, each CMI (including private banks) further warrants that they and the underlying investors have understood and consented to the collection, disclosure, use and transfer of such information by any OCs and/or any other third parties as may be required by the SFC Code, including to the Issuer, relevant regulators and/or any other third parties as may be required by the SFC Code, for the purpose of complying with the SFC Code, during the bookbuilding process the relevant CMI Offering. CMIs that receive such underlying investor information are reminded that such information should be used only for submitting orders in the relevant CMI Offering. The relevant Dealers may be asked to demonstrate compliance with their obligations under the SFC Code, and may request other CMIs (including private banks) to provide evidence showing compliance with the obligations above (in particular, that the necessary consents have been obtained). In such event, other CMIs (including private banks) are required to provide the relevant Dealer(s) with such evidence within the timeline requested.

Selling Restrictions

United States

The Notes have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction of the United States, and may not be offered or sold within the United States except in certain transactions exempt from or not subject to, the registration requirements of the Securities Act. Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered or sold, and will not offer or sell, any Notes constituting part of its allotment except in accordance with Rule 903 of Regulation S under the Securities Act or pursuant to another exemption from the registration requirements of the Securities Act.

Each Dealer represents and agrees, and each further Dealer appointed under the Programme will be required to represent and agree, that it, its affiliates or any persons acting on its or their behalf have not engaged and will not engage in any directed selling efforts with respect to any Note.

Bearer Notes are subject to US tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by US tax regulations. Terms used in this paragraph have the meanings given to them by the US Internal Revenue Code of 1986, as amended, and Treasury regulations promulgated thereunder.

In addition, in respect of Bearer Notes where TEFRA D is specified in the applicable Pricing Supplement:

- (a) except to the extent permitted under US Treas. Reg. Section 1.163-5(c)(2)(i)(D) (or any successor US Treasury Regulation Section including, without limitation, regulations issued in accordance with US Internal Revenue Service Notice 2012-20 or otherwise in connection with the US Hiring Incentives to Restore Employment Act of 2010) (the “**D Rules**”), each Dealer (i) has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered or sold, and that during the restricted period it will not offer or sell, Notes in bearer form to a person who is within the United States or its possessions or to a United States person, and (ii) has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not delivered and that it will not deliver within the United States or its possessions definitive Notes in bearer form that are sold during the restricted period;
- (b) each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has and that throughout the restricted period it will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes in bearer form are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
- (c) if it is a United States person, each Dealer has represented, and each further Dealer appointed under the Programme will be required to represent, that it is acquiring Notes in bearer form for purposes of resale in connection with their original issuance and if it retains Notes in bearer form for its own account, it will only do so in accordance with the requirements of US Treas. Reg. Section 1.163-5(c)(2)(i)(D)(6) (or any successor US Treasury Regulation Section including, without limitation, regulations issued in accordance with US Internal Revenue Service Notice 2012-20 or otherwise in connection with the US Hiring Incentives to Restore Employment Act of 2010); and
- (d) with respect to each affiliate that acquires Notes in bearer form from a Dealer for the purpose of offering or selling such Notes during the restricted period, such Dealer either (i) repeats and confirms the representations and agreements contained in Subclauses (a), (b) and (c) on such affiliate’s behalf or (ii) agrees that it will obtain from such affiliate for the benefit of the Bank the representations and agreements contained in (a), (b) and (c) above.

Terms used in this paragraph have the meanings given to them by the US Internal Revenue Code of 1986, as amended, and Treasury regulations promulgated thereunder, including the D Rules. In respect of Bearer Notes where TEFRA C is specified in the applicable Pricing Supplement, such Bearer Notes must be issued and delivered outside the United States and its possessions in connection with their original issuance. Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or delivered, and will not offer, sell or deliver, directly or indirectly, such Bearer Notes within the United States or its possessions in connection with their original issuance. Further, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, in connection with the original issuance of such Bearer Notes that it has not communicated, and will not communicate, directly or indirectly,

with a prospective purchaser if such purchaser is within the United States or its possessions and will not otherwise involve its US office in the offer or sale of such Bearer Notes. Terms used in this paragraph have the meanings given to them by the US Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder.

Each issue of Index Linked Notes or Dual Currency Notes shall be subject to such additional US selling restrictions as the Bank and the relevant Dealer may agree as a term of the issue and purchase of such Notes, which additional selling restrictions shall be set out in the applicable Pricing Supplement. The relevant Dealer agrees that it shall offer, sell and deliver such Notes only in compliance with such additional US selling restrictions.

Public Offer Selling Restriction under the EU Prospectus Regulation and Prohibition of Sales to EEA Retail Investors

Unless the Pricing Supplement in respect of any Notes specifies “Prohibition of Sales to EEA Retail Investors” as “Not Applicable”, each Dealer represents, warrants and agrees, and each further Dealer appointed under the Programme will be required to represent, warrant and agree that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Offering Circular as completed by the Pricing Supplement in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision, the expression “**retail investor**” means a person who is one (or more) of the following:

- (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**EU MiFID II**”);
- (ii) a customer within the meaning of Directive (EU) 2016/97 (the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of EU MiFID II; or
- (iii) not a qualified investor as defined in the EU Prospectus Regulation,

and the expression “**an offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Pricing Supplement in respect of any Notes specifies “Prohibition of Sales to EEA Retail Investors” as “Not Applicable”, in relation to each Member State of the European Economic Area, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by the Offering Circular as completed by the Pricing Supplement in relation thereto to the public in that Member State except that it may make an offer of such Notes to the public in that Member State:

- (a) at any time to any legal entity which is a qualified investor as defined in the EU Prospectus Regulation;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the EU Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 1(4) of the EU Prospectus Regulation,

provided that no such offer of Notes referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the EU Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation.

For the purposes of this provision, the expression “**an offer of Notes to the public**” in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes, and the expression “**EU Prospectus Regulation**” means Regulation (EU) 2017/1129.

United Kingdom

Prohibition of Sales to UK Retail Investors

Unless the Pricing Supplement in respect of any Notes specifies “Prohibition of Sales to UK Retail Investors as “Not Applicable”, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Offering Circular as completed by the Pricing Supplement in relation thereto to any retail investor in the United Kingdom. For the purposes of this provision, the expression “**retail investor**” means a person who is one (or more) of the following:

- (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the EUWA;
- (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or
- (iii) not a qualified investor as defined in Article 2 of the UK Prospectus Regulation,

and the expression “**an offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Pricing Supplement in respect of any Notes specifies “Prohibition of Sales to UK Retail Investors” as “Not Applicable”, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by the Offering Circular as completed by the Pricing Supplement in relation thereto to the public in the United Kingdom except that it may make an offer of such Notes to the public in the United Kingdom:

- (a) at any time to any legal entity which is a qualified investor as defined in Article 2 of the UK Prospectus Regulation;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of the UK Prospectus Regulation) in the United Kingdom subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision, the expression “**an offer of Notes to the public**” in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes and the expression “**UK Prospectus Regulation**” means Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the EUWA.

Other Regulatory Restrictions

In relation to each Tranche of Notes, each relevant Dealer represents, warrants and undertakes to the Issuer and each other relevant Dealer (if any) that:

- (a) in relation to any Notes having a maturity of less than one year, (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business; and (ii) it has not offered or sold and will not offer or sell any Notes other than to persons (A) whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or (B) who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of section 19 of the Financial Services and Markets Act 2000 (the “**FSMA**”) by the Issuer;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA does not apply to the Bank; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended; the “**FIEA**”). Accordingly, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell any Notes in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organised under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.

Hong Kong

Each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Notes (except for Notes which are a “structured product” as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong) (the “**SFO**”) other than (i) to “professional investors” as defined in the SFO and any rules made under the SFO; or (ii) in other circumstances which do not result in the document being a “prospectus” as defined in the

Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong (the “**C(WUMP)O**”) or which do not constitute an offer to the public within the meaning of the C(WUMP)O; and

- (b) it has not issued nor had in its possession for the purposes of issue and will not issue or have in its possession for the purposes of issue whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Notes, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made under the SFO.

Singapore

Unless the applicable Pricing Supplement in respect of any Notes specifies “Singapore Sales to Institutional Investors and Accredited Investors only” as “Not Applicable”, each Dealer has acknowledged that and each further Dealer appointed under the Programme will be required to acknowledge that this Offering Circular has not been registered and will not be registered as a prospectus with the Monetary Authority of Singapore (the “**MAS**”). Accordingly, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not offered or sold any Notes or caused the Notes to be made the subject of an invitation for subscription or purchase and will not offer or sell any Notes or cause the Notes to be made the subject of an invitation for subscription or purchase and has not circulated or distributed, nor will it circulate or distribute this Offering Circular or any other document or material in connection with the offer or sale or invitation for subscription or purchase of any Notes, whether directly or indirectly, to any person in Singapore other than (a) to an institutional investor (as defined in Section 4A of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time (the “**SFA**”)) pursuant to Section 274 of the SFA or (b) to an accredited investor (as defined in Section 4A of the SFA) pursuant to and in accordance with the conditions specified in Section 275 of the SFA.

If the applicable Pricing Supplement in respect of any Notes specifies “Singapore Sales to Institutional Investors and Accredited Investors only” as “Not Applicable”, each Dealer has acknowledged, and each further Dealer appointed under the Programme will be required to acknowledge, that this Offering Circular has not been registered as a prospectus with the MAS. Accordingly, each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that it has not offered or sold any Notes or caused the Notes to be made the subject of an invitation for subscription or purchase and will not offer or sell any Notes or cause the Notes to be made the subject of an invitation for subscription or purchase, and has not circulated or distributed, nor will it circulate or distribute, this Offering Circular or any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes, whether directly or indirectly, to any person in Singapore other than (a) to an institutional investor (as defined in Section 4A of the SFA) pursuant to Section 274 of the SFA, (b) to a relevant person (as defined in Section 275(2) of the SFA) pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA, or (c) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Indonesia

The Notes have not been offered or sold and will not be offered or sold in Indonesia or to any Indonesian nationals, corporations or residents, including by way of invitation, offering or advertisement (whether through a public offering or private placement) and the offering of the Notes does not constitute a public offering in Indonesia under Law 8/1995 or private placement in

Indonesia under OJK Regulation No. 30/2019, and the Offering Circular and any other offering material relating to the Notes has not been distributed, and will not be distributed, in Indonesia or to any Indonesian nationals, corporations or residents in a manner which constitutes a public offering or private placement under the laws and regulations in Indonesia, including OJK Regulation No. 30/2019.

PRC

Each Dealer has acknowledged that, according to relevant PRC laws and regulations, the Notes may not be offered or sold directly or indirectly in the PRC (for such purposes, not including the Hong Kong and Macau Special Administrative Regions or Taiwan) to any person other than certain qualified domestic institutional investors, which have acquired specific approval or permission to purchase overseas capital market products in accordance with PRC laws and regulations.

General

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Offering Circular and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Bank, the Trustee nor any of the Agents or other Dealers shall have any responsibility therefor.

None of the Bank, the Trustee, the Agents and any of the Dealers represents that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating any such sale.

With regard to each Tranche, the relevant Dealer will be required to comply with any additional restrictions agreed between the Bank and the relevant Dealer and as shall be set out in the applicable Pricing Supplement.

GENERAL INFORMATION

Authorisation

The establishment and update of the Programme and the issue of Notes have been duly authorised by resolutions of the board of directors of the Bank dated 29 January 2019 and 26 November 2019, as further implemented by Approval to the Proposal for Execution of US Dollar Bonds Issuance for Wholesale Funding on 26 February 2020 and the Assets & Liabilities Committee minutes of meeting No. ALC/KEP.154/2020 dated 7 December 2020.

The update of the Programme in 2025 and issuance of the 2025 Notes are part of the Bank's funding plan for 2025 as set out in the Bank's 2025 Work Plan and Budget (*Rencana Kerja dan Anggaran* – “**RKAP**”). The RKAP were approved by the Bank's board of directors and board of commissioners on 14 November 2024 and 14 November 2024, respectively. Furthermore, the update of the Programme and issuance of the 2025 Notes have been duly authorised by the Bank's Asset & Liability Committee on 11 December 2024 and by the Bank's Risk Management Director and Treasury & International Banking Director on 10 December 2024.

Listing of Notes

Application has been made to the SGX-ST for permission to deal in, and for the listing and quotation of, any Notes to be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof to be so listed on the SGX-ST. Such permission will be granted when such Notes have been admitted to the Official List of the SGX-ST. The SGX-ST assumes no responsibility for the correctness of any of the statements made or opinions expressed or reports contained herein. Admission to the Official List of the SGX-ST and quotation of any Notes on the SGX-ST are not to be taken as an indication of the merits of the Bank, the Programme or the Notes. Unlisted Notes may be issued under the Programme. The relevant Pricing Supplement in respect of any Series will specify whether or not such Notes will be listed and, if so, on which exchange(s) the Notes are to be listed. There is no assurance that the application to the Official List of the SGX-ST for the listing of the Notes of any Series will be approved. For so long as any Notes are listed on the SGX-ST and the rules of the SGX-ST so require, such Notes listed on the SGX-ST will be traded on the SGX-ST in a minimum board lot size of at least S\$200,000 (or its equivalent in other currencies).

Rating of the Notes

Series of Notes issued under the Programme may be rated or unrated. Where a Series of Notes is rated, such rating will be disclosed in the applicable Pricing Supplement and will not necessarily be the same as the rating(s) assigned to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Documents available

Copies of the following documents will, when published, be available for inspection at the Bank's registered office and at the specified office of the Trustee:

- (a) the constitutional documents of the Bank;
- (b) the Consolidated Financial Statements;
- (c) the most recently published audited consolidated and unconsolidated annual financial statements of the Bank and the most recently published consolidated and unconsolidated interim financial statements (if any) of the Bank, in each case together with any audit or review reports prepared in connection therewith (where relevant);

- (d) the Trust Deed, the Agency Agreement, and the forms of the Global Notes, the Notes in definitive form, the Receipts, the Coupons and the Talons;
- (e) a copy of this Offering Circular; and
- (f) any future offering circulars, prospectuses, information memoranda and supplements to this Offering Circular and any other documents incorporated herein or therein by reference.

Clearing Systems

Each series of Bearer Notes will be initially represented by either a Temporary Global Note or a Permanent Global Note that will be deposited on the issue date thereof with a common depositary on behalf of Euroclear and Clearstream, Luxembourg or any other agreed clearance system compatible with Euroclear and Clearstream, Luxembourg. Each series of Registered Notes will be initially represented by interests in a Registered Global Note and deposited on the issue date thereof with a common depositary for, and registered in the name of a nominee of, Euroclear and Clearstream, Luxembourg. The appropriate Common Code and the ISIN for each series of Bearer Notes or Registered Notes allocated by Euroclear and Clearstream, Luxembourg will be specified in the applicable Pricing Supplement. If the Notes are to clear through an additional or alternative clearing system, the appropriate information will be specified in the applicable Pricing Supplement.

The address of Euroclear is Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B-1210 Brussels. The address of Clearstream, Luxembourg is Clearstream Banking, 42 Avenue JF Kennedy, L-1855 Luxembourg.

Conditions for Determining Price

The price and amount of Notes to be issued under the Programme will be determined by the Bank and the relevant Dealer at the time of issue in accordance with prevailing market conditions.

Significant or Material Change

Save as disclosed in this Offering Circular, there has been no significant change in the financial or trading position of the Bank since 31 December 2024 and there has been no material adverse change in the financial position or prospects of the Bank or the Bank since 31 December 2024.

Litigation

As of the date of this Offering Circular, the Bank is involved in a number of legal proceedings in connection with its banking business, and the management of the Bank does not believe that these proceedings, if determined adversely, would have a material adverse effect on its business, financial condition or results of operations.

Independent Accountants

The Bank's consolidated financial statements as of and for the years ended 31 December 2023 and 2024, prepared and presented in accordance with IFAS and included in this Offering Circular, have been audited by KAP Rintis, Jumadi, Rianto & Rekan (formerly KAP Tanudiredja, Wibisana, Rintis & Rekan) (a member firm of the PwC global network), independent accountants, in accordance with Standards on Auditing established by the IICPA as stated in its respective audit reports dated 31 January 2024 and 5 February 2025 appearing herein.

Dealers Transacting with the Bank

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Bank and its affiliates in the ordinary course of business.

LAPORAN AUDITOR INDEPENDEN
KEPADA PEMEGANG SAHAM

INDEPENDENT AUDITORS' REPORT
TO THE SHAREHOLDERS OF

PT BANK MANDIRI (PERSERO) Tbk

Opini

Kami telah mengaudit laporan keuangan konsolidasian PT Bank Mandiri (Persero) Tbk dan Entitas Anaknya ("Grup"), yang terdiri dari laporan posisi keuangan konsolidasian tanggal 31 Desember 2024, serta laporan laba rugi dan penghasilan komprehensif lain konsolidasian, laporan perubahan ekuitas konsolidasian, dan laporan arus kas konsolidasian untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan konsolidasian, termasuk informasi kebijakan akuntansi material.

Menurut opini kami, laporan keuangan konsolidasian terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan konsolidasian Grup tanggal 31 Desember 2024, serta kinerja keuangan konsolidasian dan arus kas konsolidasiannya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis Opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian pada laporan kami. Kami independen terhadap Grup berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan konsolidasian di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Hal Audit Utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan konsolidasian periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan konsolidasian terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

Opinion

We have audited the consolidated financial statements of PT Bank Mandiri (Persero) Tbk and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements paragraph of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Hal audit utama yang teridentifikasi dalam audit kami diuraikan sebagai berikut.

The key audit matters identified in our audit are outlined as follows.

1. Cadangan kerugian penurunan nilai atas kredit yang diberikan dan piutang/pembiayaan syariah

Seerti yang dijelaskan dalam Catatan 12, Kredit yang Diberikan dan Piutang/Pembiayaan Syariah, atas laporan keuangan konsolidasian pada tanggal 31 Desember 2024, cadangan kerugian penurunan nilai atas kredit yang diberikan dan piutang/pembiayaan syariah adalah sebesar Rp 49.354.645 juta dan ditentukan berdasarkan Pernyataan Standar Akuntansi Keuangan ("PSAK") yang berlaku.

Kami berfokus pada area ini karena saldo cadangan kerugian penurunan nilai atas kredit yang diberikan dan piutang/pembiayaan syariah mewakili 95% dari jumlah cadangan kerugian penurunan nilai untuk aset keuangan Grup, dimana nilainya signifikan terhadap laporan keuangan konsolidasian Grup. Lebih lanjut, dalam menentukan cadangan kerugian penurunan nilai, Grup mengadopsi model kompleks yang menggunakan sejumlah parameter, mengandalkan input data internal dan eksternal, melibatkan pertimbangan-pertimbangan manajemen yang subjektif dan asumsi-asumsi dengan tingkat ketidakpastian yang tinggi.

Kredit yang diberikan

Seerti yang dijelaskan dalam Catatan 2.c.H, Cadangan Kerugian Penurunan Nilai Aset Keuangan, atas laporan keuangan konsolidasian pada tanggal 31 Desember 2024, cadangan kerugian penurunan nilai atas kredit yang diberikan ditentukan berdasarkan Pernyataan Standar Akuntansi Keuangan 109 – Instrumen Keuangan ("PSAK 109").

Untuk kredit yang tidak mengalami penurunan nilai dan kredit yang mengalami penurunan nilai yang secara individual tidak dianggap signifikan, Grup menghitung cadangan kerugian penurunan nilai secara kolektif menggunakan model parameter-parameter risiko yang memasukkan parameter utama, seperti *Probability of Default* ("PD"), *Loss Given Default* ("LGD"), *Exposure at Default* ("EAD"), dengan memperhitungkan informasi perkiraan masa depan dan data eksternal lainnya. Untuk kredit yang diberikan yang secara individual dianggap signifikan, Grup menghitung cadangan kerugian penurunan nilai secara individual dengan mengestimasi arus kas ekspektasian yang diperoleh dari kredit yang diberikan.

1. Allowance for impairment losses on loans and sharia receivables/financing

As described in Note 12, Loans and Sharia Receivables/Financing, to the consolidated financial statements, as at 31 December 2024, the allowance for impairment losses on loans and sharia receivables/financing was Rp 49,354,645 million and was determined based on the applicable Statement of Financial Accounting Standards ("SFAS").

We focused on this area because the balance of allowance for impairment losses on loans and sharia receivables/financing represented 95% of the total allowance for impairment losses for the Group's financial assets, which was significant to the Group's consolidated financial statements. Furthermore, to determine the allowance for impairment losses, the Group adopted a complex model that used a number of parameters, relied on internal and external data inputs, involved subjective management judgements and assumptions subject to a high degree of uncertainty.

Loans

As described in Note 2.c.H, Allowance for Impairment Losses of Financial Assets, to the consolidated financial statements as at 31 December 2024, the allowance for impairment losses for loans was determined based on Statement of Financial Accounting Standards 109 – Financial Instruments ("SFAS 109").

For non-impaired loans and for impaired loans which were not considered individually significant, the Group calculated the allowance for impairment losses collectively using a risk parameter model that incorporated key parameters, such as *Probability of Default* ("PD"), *Loss Given Default* ("LGD"), and *Exposure at Default* ("EAD"), after considering forward-looking information and other external data. For loans that were considered individually significant, the Group calculated the allowance for impairment losses on an individual basis by estimating the expected cash flows to be obtained from the loans.

Piutang/pembiayaan syariah

Seperti yang dijelaskan dalam Catatan 2.c.H, Cadangan Kerugian Penurunan Nilai Aset Keuangan, atas laporan keuangan konsolidasian, cadangan kerugian penurunan nilai atas piutang murabahah ditentukan berdasarkan PSAK 402 - Akuntansi Murabahah ("PSAK 402"). Cadangan kerugian penurunan nilai atas pinjaman *qardh*, pembiayaan musyarakah dan mudharabah, ditentukan berdasarkan PSAK yang berlaku.

Atas piutang murabahah yang secara individual tidak dianggap signifikan, Grup menghitung cadangan kerugian penurunan nilai secara kolektif menggunakan model parameter risiko dengan menggunakan parameter-parameter utama yaitu PD dan LGD. Untuk piutang/pembiayaan syariah yang secara individual dianggap signifikan, Grup menghitung cadangan kerugian penurunan nilai secara individual dengan mengestimasi arus kas ekspektasian dari piutang/pembiayaan syariah.

Bagaimana Audit Kami Merespons Hal Audit Utama

Kredit yang diberikan

Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

- Kami memperoleh pemahaman atas perhitungan manajemen atas cadangan kerugian penurunan nilai untuk kredit yang diberikan;
- Secara sampel, menguji pengendalian yang relevan atas penentuan rating internal kredit sebagai basis identifikasi aset keuangan yang mengalami peningkatan risiko kredit secara signifikan atau yang terdapat bukti objektif penurunan nilai;
- Menguji pengendalian umum dari teknologi informasi ("TI") atas sistem perhitungan cadangan kerugian penurunan nilai serta pengendalian aplikasi TI atas kelengkapan dan keakuratan data;
- Menguji asumsi-asumsi pemodelan signifikan yang digunakan dalam model cadangan kerugian penurunan nilai yang dihitung secara kolektif, termasuk penentuan PD, LGD dan EAD, yang mencakup (i) evaluasi model dan metodologi yang digunakan dalam perhitungan kuantitatif; dan (ii) evaluasi data historis dan prakiraan ekonomi makro yang digunakan dengan membandingkan data tersebut dengan informasi yang tersedia untuk umum tentang prospek ekonomi makro;

Sharia receivables/financing

As described in Note 2.c.H, Allowance for Impairment Losses of Financial Assets, to the consolidated financial statements, the allowance for impairment losses for murabahah receivables was determined based on SFAS 402 - Murabahah Accounting ("SFAS 402"). The allowance for impairment losses for funds of *qardh*, musyarakah and mudharabah financing, was determined based on the applicable SFAS.

For Murabahah receivables, which are not considered to be individually significant, the Group assessed allowance for impairment losses collectively by using the risk parameter modelling approach that incorporated key parameters such as PD and LGD. For sharia receivables/financing which are considered individually significant, the Group assessed allowances for impairment losses individually by estimating the expected cash flows obtained from the sharia receivables/financing.

How Our Audit Addressed the Key Audit Matters

Loans

We have performed the following audit procedures to address this key audit matter:

- We understood management's calculation of the allowance for impairment losses for loans;
- On a sample basis, testing of the relevant controls over the determination of credit internal ratings as the basis over the identification of financial assets that have experienced a significant increase in credit risk or have objective evidence of impairment;
- Testing the information technology (IT) general controls over the allowance for impairment losses calculation system as well as the IT application controls over the completeness and accuracy of the data;
- Testing the significant modelling assumptions used in the allowance for impairment losses model calculated collectively including the determination of the PD, LGD and EAD, which involved (i) evaluation of the model and methodology used in the quantitative calculation; and (ii) evaluation of the historical data and macroeconomic forecast used by comparing them with publicly available information on macroeconomic prospect;

- Menguji input data ke model cadangan kerugian penurunan nilai, secara sampel, untuk menilai keakuratan dan kelengkapannya;
 - Menguji, secara sampel, keakuratan identifikasi manajemen atas kredit yang diberikan yang mengalami peningkatan signifikan risiko kredit dan gagal bayar dengan mempertimbangkan informasi keuangan dan non-keuangan debitur dan bukti eksternal yang relevan;
 - Membandingkan, secara sampel, data yang digunakan pada perhitungan cadangan kerugian penurunan nilai, dengan data yang tercatat di sistem perbankan utama Grup pada tanggal pelaporan;
 - Secara sampel, melakukan perhitungan matematis ulang atas perhitungan cadangan kerugian penurunan nilai untuk memeriksa keakuratan nilai tercatat cadangan kerugian penurunan nilai atas kredit yang diberikan;
 - Secara sampel, untuk kredit yang diklasifikasikan sebagai Tahap 2 dan Tahap 3 (kredit dengan cadangan kerugian penurunan nilai dihitung secara individual), memeriksa kecukupan cadangan kerugian penurunan nilai dengan melakukan pengujian atas asumsi-asumsi yang digunakan oleh manajemen, jumlah dan waktu estimasi arus kas masa depan yang disiapkan oleh manajemen berdasarkan informasi keuangan debitur dan/atau penjamin, penilaian agunan terbaru dan informasi lain yang tersedia yang digunakan dalam perhitungan cadangan kerugian penurunan nilai atas kredit yang diberikan;
 - Dengan melibatkan spesialis TI, menguji keakuratan perhitungan jumlah hari tunggakan dari tanggal jatuh tempo kredit dan penilaian atas kolektibilitas kredit berdasarkan jumlah hari tertunggak yang digunakan dalam penentuan PD; dan
 - Menilai kecukupan pengungkapan terkait cadangan kerugian penurunan nilai atas kredit yang diberikan dalam konteks persyaratan pengungkapan Standar Akuntansi Keuangan di Indonesia.
- *Testing, on a sample basis, the data inputs to the allowance for impairment losses model, to assess their accuracy and completeness;*
 - *Testing, on a sample basis, the accuracy of management's identification of loans that experience a significant increase in credit and default risk by considering the debtor's financial and non-financial information and relevant external evidence;*
 - *Comparing, on a sample basis, the data used in the allowance for impairment losses calculation with the data recorded in the Group's core banking system at the reporting date;*
 - *On a sample basis, performing mathematical recalculation of the allowance for impairment losses calculation to assess the accuracy of the allowance recorded for impairment losses for loans;*
 - *On a sample basis, for loans classified as Stage 2 and Stage 3 (loans where allowance for impairment losses are calculated individually), assessing the adequacy of allowance for impairment losses by testing the assumptions used by management, the amount and timing of estimates of future cash flows prepared by management based on the debtor's and/or guarantor's financial information, the latest collateral valuation and other available information used in calculation of allowance for impairment losses on loans granted;*
 - *By involving IT specialists, we tested the accuracy of the number of days past due from the credit due date and assessed the accuracy of credit collectibility based on the number of days past due which used in the determination of the PD; and*
 - *Assessing the adequacy of the disclosures related to allowance for impairment losses on loans in the context of Indonesian Financial Accounting Standards disclosure requirements.*

Piutang/pembiayaan syariah

Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

- Kami memperoleh pemahaman, mengevaluasi dan menguji efektivitas desain serta operasi pengendalian internal yang berkaitan dengan pengukuran cadangan kerugian penurunan nilai untuk piutang dan pembiayaan syariah.
- Menguji, secara sampel, keakuratan identifikasi peningkatan risiko kredit atas piutang/pembiayaan syariah secara signifikan terhadap bukti objektif penurunan nilai;
- Memeriksa, secara sampel, kecukupan cadangan kerugian penurunan nilai untuk piutang dan pembiayaan syariah yang mengalami penurunan nilai, yang dihitung secara individual. Atas sampel tersebut, kami menilai kecukupan cadangan kerugian penurunan nilai dengan melakukan pengujian atas jumlah dan periode estimasi arus kas masa depan yang disiapkan oleh manajemen, menilai asumsi-asumsi dan estimasi-estimasi yang digunakan dengan membandingkan jadwal pembayaran kembali dan tingkat pengembalian yang efektif yang digunakan pada perhitungan cadangan kerugian penurunan nilai dengan informasi yang tertera pada perjanjian piutang/pembiayaan syariah;
- Menilai metodologi dan asumsi-asumsi pemodelan signifikan yang digunakan dalam model cadangan kerugian penurunan nilai yang dihitung secara kolektif, termasuk penentuan PD dan LGD, yang diterapkan sebagai persyaratan PSAK 402, yang melibatkan (i) evaluasi model dan metodologi yang digunakan dalam perhitungan kuantitatif; dan (ii) menguji kelengkapan dan keakuratan data yang digunakan sebagai basis dalam penentuan tingkat PD dan LGD, dengan melibatkan spesialis TI kami;
- Melakukan perhitungan matematis ulang atas cadangan kerugian penurunan nilai piutang/pembiayaan syariah secara kolektif, dengan melibatkan spesialis TI kami;
- Melakukan pengujian atas keakuratan perhitungan jumlah hari tertunggak dari tanggal jatuh tempo kredit dan pengujian atas kolektibilitas kredit berdasarkan jumlah hari tertunggak;

Sharia receivables/financing

We have performed the following audit procedures to address this key audit matter:

- We understood, evaluated and tested the design and operating effectiveness of internal controls related to the measurement of impairment losses for sharia receivables and financing.
- Testing, on a sample basis, the accuracy of management's identification of the sharia receivables/financing of significant increases in credit risk against objective evidence of impairment;
- Testing, on a sample basis, the adequacy of the individual allowance for impairment losses for sharia receivables and financing that had been impaired. For these samples, we assessed the adequacy of allowance for impairment losses by testing the amount and period of estimated future cash flows prepared by management, assessed the assumptions and estimates used by comparing the repayment schedule and effective rate of return used in calculating allowance for impairment losses with information stated in the sharia receivables/financing agreement;
- Assessing the methodology and significant modelling assumptions used in the allowance for impairment losses model calculated collectively, including the determination of PD and LGD applied as requirements of SFAS 402, which involved (i) evaluating the models and methodologies used in quantitative calculations; and (ii) testing the completeness and accuracy of the data used as the basis for determining PD and LGD levels, with the involvement of our IT specialists;
- Performing independent mathematical recalculation of the collective allowance for impairment losses for sharia receivables/financing, with the involvement of our IT specialists;
- Testing the accuracy of number of days past due from the credit due date and assessing the credit collectibility based on the number of days past due;

- Melakukan pengujian atas kelengkapan dan keakuratan data piutang/pembiayaan syariah yang digunakan untuk menilai keandalan data yang digunakan dalam menghitung cadangan kerugian penurunan nilai; dan
- Menilai kecukupan pengungkapan terkait cadangan kerugian penurunan nilai atas piutang/pembiayaan syariah dalam konteks persyaratan pengungkapan Standar Akuntansi Keuangan di Indonesia.
- *Testing the completeness and accuracy of the data for sharia receivables/financing to assess the reliability of the data used to calculate the allowance for impairment losses; and*
- *Assessing the adequacy of the disclosures related to allowance for impairment losses on sharia receivables/financing in the context of Indonesian Financial Accounting Standards disclosure requirements.*

2. Pengoperasian dan pengendalian sistem Teknologi Informasi (TI) pelaporan keuangan

Grup sangat bergantung pada infrastruktur, sistem dan pengendalian TI untuk mendukung kegiatan operasional sehari-hari dan proses pelaporan keuangan. Lingkungan TI Grup dianggap kompleks dengan mempertimbangkan jumlah dan kompleksitas sistem utama pelaporan keuangan dan kompleksitas antarmuka antar sistem. Pengendalian tingkat entitas TI, pengendalian keamanan siber, dan pengendalian umum TI merupakan bagian penting dari kerangka pengendalian internal Bank. Oleh karena itu, kami menganggap pengoperasian dan pengendalian sistem teknologi informasi pelaporan keuangan Grup sebagai hal audit utama.

Bagaimana Audit Kami Merespons Hal Audit Utama

Kami memperoleh pemahaman pengelolaan sistem TI serta pengendalian yang mendukung proses pelaporan keuangan. Kami menilai efektivitas desain, implementasi dan pengoperasian pengendalian utama yang terkait, termasuk:

1. Pengendalian manajemen perubahan: Proses dan pengendalian yang dijalankan untuk mengembangkan, menguji dan mengesahkan perubahan pada fungsi dan konfigurasi di dalam sistem;
2. Pengendalian keamanan akses: Pengendalian akses pengguna dirancang untuk melaksanakan pemisahan tugas, mengatur penggunaan akun dengan akses istimewa atau proses otorisasi untuk perubahan data; dan
3. Pengendalian untuk operasional TI: Pengendalian untuk operasional dilaksanakan untuk memastikan bahwa setiap masalah TI yang muncul telah ditindaklanjuti.

2. Operation and controls of financial reporting Information Technology (IT) systems

The Group is heavily reliant on its IT infrastructure, systems and controls for its daily operations and financial reporting processes. The IT environment of the Group is considered to be complex due to the number and complexity of the key financial reporting systems and interfaces between systems. IT entity level controls, cybersecurity controls and IT general controls are important components of the Bank's internal control framework. Therefore, we considered the operation and controls of the Group's financial reporting information technology systems to be a key audit matter.

How Our Audit Addressed the Key Audit Matters

We understood the IT systems and controls that supported the financial reporting process. We assessed the effectiveness of the design, implementation and operation of the associated key controls, including:

1. *Change management controls: The processes and controls used to develop, test and authorise changes to the functionality and configurations within systems;*
2. *Access security controls: The access controls designed to enforce segregation of duties, govern the use of high privileged accounts or the authorisation process to change the data; and*
3. *IT operation related controls: The controls over operations is carried out to ensure that any IT issues that arise have been addressed.*

Kami menguji pengendalian utama yang bergantung pada TI yang mendukung proses pelaporan keuangan, seperti perhitungan otomatis pada sistem, pemrosesan transaksi, laporan yang dihasilkan sistem, dan antarmuka data antar sistem. Pengujian kami meliputi inspeksi atas konfigurasi sistem yang relevan disertai dengan pengujian hasil keluaran sistem berdasarkan sampel.

We tested key IT dependent controls supporting the financial reporting process, such as automated system calculations, transaction processing, system generated reports and data interfaces between systems. Our testing included the inspection of the relevant system configurations and supplemented with the testing of the system outputs on a sample basis.

3. Estimasi atas liabilitas kepada pemegang polis **3. Estimation of liabilities to policyholders**

Seperti yang dijelaskan dalam Catatan 35, Liabilitas lain-lain, atas laporan keuangan konsolidasian, nilai cadangan teknis, yang terdiri atas manfaat polis masa depan dari produk non unit-link dan estimasi liabilitas klaim dan terdapat pada liabilitas kepada pemegang polis sebesar Rp 7.170.554 juta pada tanggal 31 Desember 2024.

As described in Note 35, Other Liabilities, to the consolidated financial statements, the technical reserve, which represents future policy benefits from non-unit-linked products and an estimated claim liability and forms part of the liabilities to policyholders, of Rp 7,170,554 million as at 31 December 2024.

Kewajiban untuk menentukan penyelesaian klaim masa depan melibatkan penilaian yang kompleks dan subjektif tentang peristiwa masa depan, baik internal maupun eksternal terhadap bisnis, di mana perubahan kecil dalam asumsi-asumsi dapat mengakibatkan dampak material terhadap estimasi kewajiban ini. Manajemen dibantu oleh pakar aktuaris untuk melakukan perhitungan kewajiban tersebut.

The determination of the liabilities for future claim settlements involved complex and subjective assessment of future events, both internal and external to the business, where a small change in assumptions could have a material impact on the estimation of these liabilities. Management was assisted by an actuarial expert in its calculation of the liabilities.

Terdapat ketidakpastian yang timbul dari berbagai asumsi-asumsi aktuarial. Asumsi-asumsi yang dipakai untuk menghitung cadangan liabilitas masa depan pemegang polis dan estimasi liabilitas klaim ditentukan berdasarkan estimasi tingkat mortalita, morbidita, tingkat pembatalan polis, biaya, tingkat inflasi dan tingkat suku bunga seperti yang dijelaskan dalam Catatan 2.z, Kontrak Asuransi, atas laporan keuangan konsolidasian. Selain itu, Grup juga menerapkan asumsi margin untuk risiko pemburukan atas produk tersebut.

There is also uncertainty arising from various actuarial assumptions. The assumptions used to calculate the policyholder's future liability reserves and the estimated claim liabilities were determined based on the estimates of mortality, morbidity, lapse, expenses, inflation rates and interest rates as described in Note 2.z, Insurance Contracts, to the consolidated financial statements. In addition, the Group also applied margin assumptions to the risk of deterioration over those products.

Bagaimana Audit Kami Merespons Hal Audit Utama

Kami memperoleh pemahaman perhitungan manajemen atas estimasi liabilitas kepada pemegang polis. Kami mengevaluasi estimasi liabilitas kepada pemegang polis, dengan melakukan prosedur-prosedur berikut:

- Dengan melibatkan ahli aktuaria kami, menguji asumsi-asumsi yang digunakan dalam menghitung cadangan teknis, termasuk evaluasi tingkat diskonto, asumsi morbiditas dan mortalitas, tingkat pembatalan polis dan alokasi biaya berdasarkan data historis dan informasi yang tersedia untuk umum;
- Mengevaluasi kompetensi, kapabilitas dan objektivitas tenaga ahli aktuaria yang membantu manajemen untuk melakukan perhitungan atas utang kepada pemegang polis;
- Memeriksa kelengkapan data yang digunakan untuk menghitung saldo cadangan teknis dengan melakukan rekonsiliasi antara laporan aktuaria manajemen, buku besar dan buku besar pembantu pada tanggal 31 Desember 2024;
- Dengan melibatkan ahli aktuaria kami, melakukan perhitungan matematis ulang, secara sampel, atas *Gross Premium Reserve* ("GPV") untuk portofolio jangka panjang tradisional dan Cadangan Risiko untuk portofolio *unit link*, saldo aset reasuransi, kecukupan bruto dan bersih atas cadangan *Incurring but not Recorded* ("IBNR") dan pengujian kecukupan liabilitas untuk portofolio tradisional pada tanggal 31 Desember 2024; dan
- Menilai kecukupan pengungkapan terkait nilai liabilitas kepada pemegang polis dalam konteks persyaratan pengungkapan Standar Akuntansi Keuangan di Indonesia.

Informasi lain

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam laporan tahunan, tetapi tidak termasuk laporan keuangan konsolidasian dan laporan auditor kami. Laporan tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor ini.

How Our Audit Addressed the Key Audit Matters

We understood management's calculation of the estimation of liabilities to policyholders. We evaluated the estimation of liabilities to policyholders, by performing the following procedures:

- *By involving our actuarial expert, testing the assumptions used to determine the technical reserves, which involved evaluation of the discount rates, assumptions of morbidity and mortality, lapse rate and cost allocation based on historical data and publicly available information;*
- *Evaluating the competence, capabilities and objectivity of actuarial experts who assisted management in the calculation of the obligation to policyholders.*
- *Checking the completeness of the data used to calculate the technical reserve balance by reconciling management's actuarial reports, general ledger and sub-ledgers as at 31 December 2024;*
- *By involving our actuarial expert, performing independent mathematical recalculation, on a sample basis, of the Gross Premium Reserve ("GPV") for traditional long-term portfolios and Risk Reserves for unit-linked portfolios, reinsurance asset balances, the gross and net adequacy of Incurred but not Recorded ("IBNR") reserves and liability adequacy testing ("LAT") for traditional portfolios as at 31 December 2024; and*
- *Assessing the adequacy of the disclosures related to the liabilities to policyholders in the context of Indonesian Financial Accounting Standards disclosure requirements.*

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Opini kami atas laporan keuangan konsolidasian tidak mencakup informasi lain, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Sehubungan dengan audit kami atas laporan keuangan konsolidasian, tanggung jawab kami adalah untuk membaca informasi lain yang teridentifikasi di atas dan, dalam melaksanakannya, mempertimbangkan apakah informasi lain mengandung ketidakkonsistensian material dengan laporan keuangan konsolidasian atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca laporan tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

Tanggung Jawab Manajemen dan Pihak yang Bertanggung Jawab atas Tata Kelola terhadap Laporan Keuangan Konsolidasian

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan konsolidasian yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Dalam penyusunan laporan keuangan konsolidasian, manajemen bertanggung jawab untuk menilai kemampuan Grup dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha dan menggunakan basis akuntansi kelangsungan usaha kecuali manajemen memiliki intensi untuk melikuidasi Grup atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Grup.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

Responsibilities of Management and Those Charged with Governance for The Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Grup.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.

Auditors' Responsibilities for The Audit of The Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*
- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*

- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Grup untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan konsolidasian atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Grup tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur dan isi laporan keuangan konsolidasian secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan konsolidasian mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- Memperoleh bukti audit yang cukup dan tepat terkait informasi keuangan entitas atau aktivitas bisnis dalam Grup untuk menyatakan opini atas laporan keuangan konsolidasian. Kami bertanggung jawab atas arahan, supervisi, dan pelaksanaan audit grup. Kami tetap bertanggung jawab sepenuhnya atas opini audit kami.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan seluruh hubungan, serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan, jika relevan, pengamanan terkait.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan konsolidasian periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami, kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1. INFORMASI UMUM

a. Pendirian usaha

PT Bank Mandiri (Persero) Tbk. (selanjutnya disebut "Bank Mandiri" atau "Bank") didirikan pada tanggal 2 Oktober 1998 di Negara Republik Indonesia dengan Akta Notaris Sutjipto, S.H., No. 10, berdasarkan Peraturan Pemerintah No. 75 Tahun 1998 tanggal 1 Oktober 1998. Akta pendirian dimaksud telah disahkan oleh Menteri Kehakiman Republik Indonesia berdasarkan Surat Keputusan No. C2-16561.HT.01.01.TH.98 tanggal 2 Oktober 1998, serta diumumkan pada Tambahan No. 6859 dalam Berita Negara Republik Indonesia No. 97 tanggal 4 Desember 1998.

Bank Mandiri didirikan melalui penggabungan usaha PT Bank Bumi Daya (Persero) ("BBD"), PT Bank Dagang Negara (Persero) ("BDN"), PT Bank Ekspor Impor Indonesia (Persero) ("Bank Exim") dan PT Bank Pembangunan Indonesia (Persero) ("Bapindo") (selanjutnya secara bersama-sama disebut "Bank Peserta Penggabungan").

Berdasarkan Pasal 3 Anggaran Dasar Bank Mandiri, ruang lingkup kegiatan Bank Mandiri adalah melakukan usaha di bidang perbankan sesuai dengan ketentuan dan peraturan perundang-undangan yang berlaku. Bank Mandiri mulai beroperasi pada tanggal 1 Agustus 1999. Entitas Induk Bank adalah Pemerintah Republik Indonesia melalui Kementerian BUMN yang merupakan Kementerian dalam Pemerintah Indonesia yang membidangi urusan pembinaan badan usaha milik negara.

Anggaran Dasar Bank Mandiri telah mengalami beberapa kali perubahan, sebagaimana terakhir berdasarkan Akta Pernyataan Keputusan Rapat Umum Pemegang Saham Tahunan No. 07, tanggal 3 April 2024, yang dibuat di hadapan Utiek R. Abdurachman, S.H., MLI., M.Kn., notaris di Jakarta. Perubahan tersebut telah diberitahukan kepada dan mendapatkan persetujuan Menteri Hukum dan Hak Asasi Manusia Republik Indonesia sesuai dengan surat penerimaan pemberitahuan No. AHU-AH.01.03-0085149 dan surat keputusan No. AHU-0022201.AH.01.02.Tahun 2024 keduanya tanggal 5 April 2024 serta terdaftar pada Daftar Perseroan No. AHU-0072626.AH.01.11.Tahun 2024 tanggal 5 April 2024.

1. GENERAL INFORMATION

a. Establishment

PT Bank Mandiri (Persero) Tbk. (hereinafter referred to as "Bank Mandiri" or the "Bank") was established on 2 October 1998 in the Republic of Indonesia based on Notarial Deed No. 10 of Sutjipto, S.H., under Government Regulation No. 75 Year 1998 dated 1 October 1998. The deed of establishment was approved by the Ministry of Justice of the Republic of Indonesia in its Decision Letter No. C2-16561.HT.01.01.TH.98 dated 2 October 1998 and was published in Supplement No. 6859 of State Gazette of the Republic of Indonesia No. 97 dated 4 December 1998.

Bank Mandiri was established through the merger of PT Bank Bumi Daya (Persero) ("BBD"), PT Bank Dagang Negara (Persero) ("BDN"), PT Bank Ekspor Impor Indonesia (Persero) ("Bank Exim") and PT Bank Pembangunan Indonesia (Persero) ("Bapindo") (hereinafter collectively referred to as the "Merged Banks").

Based on Article 3 of the Bank's Articles of Association, Bank Mandiri is engaged in banking activities in accordance with prevailing laws and regulations. The Bank commenced its operations on 1 August 1999. The Bank's Parent Entity is the Government of the Republic of Indonesia through the Ministry of State-Owned Enterprises which is the Ministry within the Indonesian Government that is in charge of state-owned enterprises development affairs.

The Articles of Association of Bank Mandiri has been amended several times, the latest amendment under Deed of Annual General Meeting of Shareholders No. 07, dated 3 April 2024 made before notary Utiek R. Abdurachman, S.H., MLI., M.Kn., notary in Jakarta. This amendment has been submitted to and approved by the Ministry of Laws and Human Rights of the Republic of Indonesia, in its Decision Letter No. AHU-AH.01.03-0085149 and Decision Letter No. AHU-0022201.AH.01.02.Tahun 2024, both dated on 5 April 2024 and registered on Company's Registry No. AHU-0072626.AH.01.11.Tahun 2024, dated on 5 April 2024

1. INFORMASI UMUM (lanjutan)

b. Penggabungan usaha

Pada akhir bulan Februari 1998, Pemerintah Republik Indonesia (selanjutnya disebut "Pemerintah") mengumumkan rencana untuk melakukan restrukturisasi atas Bank Peserta Penggabungan. Sehubungan dengan rencana restrukturisasi tersebut, Pemerintah mendirikan Bank Mandiri pada bulan Oktober 1998 dengan melakukan penyeteroran tunai dan pengalihan saham Pemerintah pada Bank Peserta Penggabungan (Catatan 40a dan 40b). Selisih antara harga transfer dan nilai buku saham pada saat restrukturisasi tidak dihitung karena dinilai tidak praktis. Seluruh kerugian yang timbul selama periode restrukturisasi diakui dalam Program Rekapitalisasi.

Rencana restrukturisasi tersebut dirancang untuk menggabungkan usaha Bank Peserta Penggabungan ke dalam Bank Mandiri pada bulan Juli 1999 dan rekapitalisasi Bank Mandiri. Restrukturisasi Bank Peserta Penggabungan ke dalam Bank Mandiri juga mencakup:

- Restrukturisasi kredit yang diberikan;
- Restrukturisasi aset non-kredit yang diberikan;
- Rasionalisasi kantor cabang di dalam dan luar negeri;
- Rasionalisasi sumber daya manusia.

Berdasarkan Akta Notaris Sutjipto, S.H., No. 100 tanggal 24 Juli 1999, Bank Peserta Penggabungan secara hukum melakukan penggabungan usaha ke dalam Bank Mandiri. Akta Penggabungan Usaha tersebut disahkan oleh Menteri Kehakiman Republik Indonesia dengan Surat Keputusan No. C-13.781.HT.01.04.TH.99 tanggal 29 Juli 1999 dan disetujui oleh Gubernur Bank Indonesia dengan Surat Keputusan No. 1/9/KEP.GBI/1999 tanggal 29 Juli 1999. Penggabungan tersebut dinyatakan sah oleh Kepala Kantor Departemen Perindustrian dan Perdagangan Jakarta Selatan melalui Surat Keputusan No. 09031827089 tanggal 31 Juli 1999.

Pada tanggal efektif penggabungan usaha:

- Semua aset dan liabilitas Bank Peserta Penggabungan dialihkan ke Bank Mandiri sebagai Bank Hasil Penggabungan;
- Semua operasi dan aktivitas bisnis Bank Peserta Penggabungan dialihkan dan dioperasikan oleh Bank Mandiri;
- Bank Mandiri mendapat tambahan modal disetor sebesar Rp1.000.000 (nilai penuh) atau setara dengan 1 (satu) lembar saham yang merupakan sisa saham yang dimiliki oleh Pemerintah pada masing-masing Bank Peserta Penggabungan (Catatan 40a dan 40b).

Pada tanggal efektif dimaksud, Bank Peserta Penggabungan secara hukum dibubarkan tanpa proses likuidasi dan Bank Mandiri sebagai Bank Hasil Penggabungan menerima seluruh hak dan liabilitas dari Bank Peserta Penggabungan.

1. GENERAL INFORMATION (continued)

b. Merger

At the end of February 1998, the Government of the Republic of Indonesia (hereinafter referred to as "Government") announced its plan to restructure the Merged Banks. In connection with the restructurisation plan, the Government established Bank Mandiri in October 1998 through the payment of cash and the transfer the Government's shares of the Merged Banks (Notes 40a and 40b). The difference between the transfer price and the book value of the shares at the time of the restructurisation was not calculated as it was considered not practicable to do so. All losses incurred during the year of restructuring were recognised in the Recapitalisation Program.

The restructurisation plan was designed to merge the Merged Banks' business into Bank Mandiri on July 1999 and the recapitalisation of Bank Mandiri. The restructurisation of the Merged Banks into Bank Mandiri also covered the following:

- *Restructurisation of loans;*
- *Restructurisation of non-loan assets;*
- *Rationalisation of domestic and overseas offices;*
- *Rationalisation of human resources.*

Based on the Notarial Deed of Sutjipto, S.H., No. 100 dated 24 July 1999, the Merged Banks were legally merged into Bank Mandiri. The Merger Deed was legalised by the Ministry of Justice of the Republic of Indonesia in its Decision Letter No. C-13.781.HT.01.04.TH.99 dated 29 July 1999 and approved by the Governor of Bank Indonesia in its Decision Letter No. 1/9/KEP.GBI/1999 dated 29 July 1999. The merger was declared effective by the Department Chief of the South Jakarta Industry and Trade Office in its Decision Letter No. 09031827089 dated 31 July 1999.

Effective from the date of the merger:

- *All assets and liabilities of the Merged Banks were transferred to Bank Mandiri as the Surviving Bank;*
- *All operations and business activities of the Merged Banks were transferred and operated by Bank Mandiri;*
- *Bank Mandiri received additional paid-in capital amounted to Rp1,000,000 (full amount) or equivalent to 1 (one) share representing the remaining shares owned by the Government in the Merged Banks (Notes 40a and 40b).*

On the effective date, the Merged Banks were legally dissolved without liquidation process and Bank Mandiri, as the Surviving Bank, received all the rights and obligations from the Merged Banks.

1. INFORMASI UMUM (lanjutan)

c. Rekapitalisasi

Dalam rangka mengatasi kondisi ekonomi yang memburuk di Indonesia pada sektor perbankan, pada tanggal 31 Desember 1998, Pemerintah telah mengeluarkan Peraturan Pemerintah No. 84 Tahun 1998 tentang Program Rekapitalisasi Bank Umum yang bertujuan untuk meningkatkan permodalan bank umum agar dapat memenuhi Rasio Kecukupan Modal (*Capital Adequacy Ratio*) yang selanjutnya disebut "CAR") minimum sesuai dengan ketentuan yang ditetapkan. Keikutsertaan bank umum dalam Program Rekapitalisasi didasarkan pada persyaratan dan prosedur yang ditetapkan dalam Surat Keputusan Bersama Menteri Keuangan dan Gubernur Bank Indonesia No. 53/KMK.017/1999 dan No. 31/12/KEP/GBI tanggal 8 Februari 1999. Berdasarkan Surat Keputusan Bersama tersebut, Pemerintah antara lain harus melakukan Program Rekapitalisasi Bank Umum terhadap seluruh Bank Milik Negara, Bank Pembangunan Daerah dan Bank Umum yang berstatus "Bank Take Over" oleh Badan Penyehatan Perbankan Nasional ("BPPN").

Pada tanggal 28 Mei 1999, Pemerintah mengeluarkan Peraturan Pemerintah No. 52 Tahun 1999 (PP No. 52/1999) tentang penambahan penyertaan modal Pemerintah Republik Indonesia pada Bank Mandiri melalui penerbitan Obligasi Rekapitalisasi Pemerintah oleh Menteri Keuangan dengan nilai maksimum Rp137.800.000. Pelaksanaan PP No. 52/1999 diatur dalam Surat Keputusan Bersama Menteri Keuangan dan Gubernur Bank Indonesia No. 389/KMK.017/1999 dan No. 1/10/KEP/GBI tanggal 29 Juli 1999.

Selama Obligasi Rekapitalisasi Pemerintah tersebut belum diterbitkan, pada saat itu Bank Mandiri mengakui adanya "Tagihan kepada Pemerintah" sebesar Rp137.800.000 sesuai dengan penegasan Komitmen Pemerintah melalui surat dari Menteri Keuangan No. S-360/MK.017/1999 tanggal 29 September 1999 dan persetujuan Menteri Negara Pendayagunaan BUMN melalui surat No. S-510/M-PBUMN/1999 tanggal 29 September 1999.

Sesuai dengan Surat Bank Indonesia No. 1/1/GBI/DPIP tanggal 11 Oktober 1999 perihal Penerbitan Obligasi/Surat Utang Pemerintah dalam rangka penyertaan modal Pemerintah Republik Indonesia di Bank Mandiri, Bank Indonesia menyetujui tagihan kepada Pemerintah tersebut di atas termasuk dalam modal inti Bank Mandiri (*Tier 1*) dalam perhitungan Rasio Kecukupan Modal (CAR) pada tanggal 31 Juli 1999 sampai dengan 30 September 1999, dengan syarat bahwa selambat-lambatnya tanggal 15 Oktober 1999, Obligasi/Surat Utang Pemerintah telah diterima oleh Bank Indonesia.

1. GENERAL INFORMATION (continued)

c. Recapitalisation

In response to the effects of the adverse economic conditions on the banking sector in Indonesia, on 31 December 1998, the Government issued Government Regulation No. 84 Year 1998 regarding Recapitalisation Program for Commercial Banks, which was designed to increase the paid-in capital of commercial banks to enable them to meet the minimum requirement of Capital Adequacy Ratio ("CAR") in accordance with prevailing regulation. The eligibility of commercial banks for inclusion in the Recapitalisation Program is based on requirements and procedures set forth in the Joint Decrees No. 53/KMK.017/1999 and No. 31/12/KEP/GBI dated 8 February 1999 of the Ministry of Finance and the Governor of Bank Indonesia. Based on the Joint Decrees, the Government, among others, shall implement the Recapitalisation Program for Commercial Banks with respect to all State-Owned Banks, Regional Development Banks, and Commercial Banks, with the status of "Bank Take Over", by the Indonesian Bank Restructuring Agency (Badan Penyehatan Perbankan Nasional or "BPPN").

On 28 May 1999, the Government issued Government Regulation No. 52 of 1999 (PP No. 52/1999) regarding additional capital investment by the Government of Republic of Indonesia in Bank Mandiri through issuance of Government Recapitalisation Bonds to be issued then by the Ministry of Finance with a value of up to Rp137,800,000. The implementation of PP No. 52/1999 was set forth in Joint Decrees of the Ministry of Finance and the Governor of Bank Indonesia No. 389/KMK.017/1999 and No. 1/10/KEP/GBI dated 29 July 1999.

While the Government Recapitalisation Bonds had not yet been issued, at the point in time, Bank Mandiri accounted the bonds as "Due from the Government" amounted to Rp137,800,000 in accordance with the Government's Commitment through the Ministry of Finance's letter No. S-360/MK.017/1999 dated 29 September 1999 and the approval of the Ministry of State-Owned Enterprises in letter No. S-510/M-PBUMN/1999 dated 29 September 1999.

Based on Bank Indonesia Letter No. 1/1/GBI/DPIP dated 11 October 1999, regarding Issuance of Government Bonds/Debentures in connection with the Government of Republic of Indonesia's capital investment in Bank Mandiri, Bank Indonesia agreed to include the above receivable as Bank Mandiri's core capital (Tier 1) for the purposes of calculating Capital Adequacy Ratio (CAR) as of 31 July 1999 until 30 September 1999, with a condition that not later than 15 October 1999 the Government Bonds/Debentures should have been received by Bank Indonesia.

1. INFORMASI UMUM (lanjutan)

c. Rekapitalisasi (lanjutan)

Berdasarkan Peraturan Pemerintah No. 97 Tahun 1999 tanggal 24 Desember 1999 tentang Penambahan Penyertaan Modal Negara Republik Indonesia ke dalam Modal Perusahaan Perseroan (Persero) PT Bank Mandiri dalam Rangka Program Rekapitalisasi Bank Umum, Pemerintah menambah penyertaan modal sampai sejumlah maksimum Rp42.200.000, sehingga penyertaan secara keseluruhan menjadi setinggi-tingginya sebesar Rp180.000.000.

Dalam rangka pelaksanaan Peraturan Pemerintah No. 52 dan No. 97 Tahun 1999 tersebut di atas, maka dalam Perjanjian Rekapitalisasi Sementara antara Pemerintah dengan Bank Mandiri beserta perubahannya, Pemerintah telah mengeluarkan Obligasi Rekapitalisasi Pemerintah dalam 2 (dua) tahap, yaitu sebesar Rp103.000.000 pada tanggal 13 Oktober 1999 dan Rp75.000.000 pada tanggal 28 Desember 1999, sehingga pada tanggal 31 Desember 1999 jumlah keseluruhan Obligasi Rekapitalisasi Pemerintah yang diterbitkan berdasarkan perjanjian tersebut menjadi sebesar Rp178.000.000.

Berdasarkan Kontrak Manajemen pada tanggal 8 April 2000 antara Bank Mandiri dan Pemerintah, ditetapkan jumlah kebutuhan rekapitalisasi Bank Mandiri adalah sebesar Rp173.931.000 atau lebih kecil dari jumlah Obligasi Rekapitalisasi Pemerintah. Dari kelebihan tersebut, sebesar Rp1.412.000 digunakan sebagai tambahan modal disetor, sedangkan sisanya sebesar Rp2.657.000 dikembalikan kepada Pemerintah pada tanggal 7 Juli 2000 dalam bentuk Obligasi Rekapitalisasi Pemerintah sebanyak 2.657.000 unit.

Sesuai Surat Menteri Keuangan Republik Indonesia No. S-174/MK.01/2003 tanggal 24 April 2003 tentang pengembalian kelebihan Obligasi Rekapitalisasi Pemerintah yang sebelumnya digunakan sebagai tambahan modal, Bank Mandiri telah mengembalikan Obligasi Rekapitalisasi Pemerintah sebesar Rp1.412.000 kepada Pemerintah pada tanggal 25 April 2003 (Catatan 40b).

Menteri Keuangan Republik Indonesia mengeluarkan Surat Keputusan ("KMK-RI") No. 227/KMK.02/2003 tanggal 23 Mei 2003 dan KMK-RI No. 420/KMK-02/2003 tanggal 30 September 2003 yang antara lain memutuskan jumlah final tambahan penyertaan modal Pemerintah di Bank Mandiri sebesar Rp173.801.315 (Catatan 40b).

1. GENERAL INFORMATION (continued)

c. Recapitalisation (continued)

Based on Government Regulation No. 97 year 1999 dated 24 December 1999 regarding the Addition of State Capital of the Republic of Indonesia into the Capital of the Company (Persero) of PT Bank Mandiri in Relation to the Commercial Bank Recapitalisation Program, the Government increased its capital investment to a maximum of Rp42,200,000, so that the total maximum of investment become amounted to Rp180,000,000.

In relation to the implementation of the above Government Regulations No. 52 and No. 97 year 1999, in the Temporary Recapitalisation Agreement between the Government and Bank Mandiri and its amendment, the Government issued Government Recapitalisation Bonds in 2 (two) tranches which amounted to Rp103,000,000 on 13 October 1999 and Rp75,000,000 on 28 December 1999 so that as of 31 December 1999 the total Government Recapitalisation Bonds issued in accordance with the aforementioned agreements become amounted to Rp178,000,000.

Based on the Management Contract dated 8 April 2000 between Bank Mandiri and the Government, the total amount of recapitalisation required by Bank Mandiri was Rp173,931,000, or less than the amount of the Government Recapitalisation Bonds. The excess of Rp1,412,000 was used as additional paid-in capital and the remaining excess balance of Rp2,657,000 was returned to the Government on 7 July 2000 in the form of Government Recapitalisation Bonds equivalent to 2,657,000 units.

Based on the Letter from the Ministry of Finance of the Republic of Indonesia No. S-174/MK.01/2003 dated 24 April 2003 regarding the return of the excess of Government Recapitalisation Bonds, which was previously used as additional paid-in capital, Government Recapitalisation Bonds amounted to Rp1,412,000 were returned to the Government by Bank Mandiri on 25 April 2003 (Note 40b).

The Ministry of Finance of Republic of Indonesia issued Decree Letter ("KMK-RI") No. 227/KMK.02/2003 dated 23 May 2003 and KMK-RI No. 420/KMK-02/2003 dated 30 September 2003, among others, confirmed that the final amount of the addition of the Government's capital investment participation in Bank Mandiri amounted to Rp173,801,315 (Note 40b).

d. Penawaran umum perdana saham dan kuasi-reorganisasi

Penawaran umum perdana saham Bank Mandiri

Bank Mandiri telah menyampaikan pernyataan pendaftaran sehubungan dengan Penawaran Umum Perdana Saham (*Initial Public Offering* yang selanjutnya disebut "IPO") kepada Otoritas Jasa Keuangan ("OJK"), dahulu Badan Pengawas Pasar Modal dan Lembaga Keuangan ("Bapepam dan LK"), pada tanggal 2 Juni 2003 dan telah dinyatakan efektif berdasarkan Surat Ketua Bapepam dan LK No. S-1551/PM/2003 tanggal 27 Juni 2003.

Nama perusahaan berubah dari semula PT Bank Mandiri (Persero) menjadi PT Bank Mandiri (Persero) Tbk. berdasarkan perubahan Anggaran Dasar yang dilaksanakan dengan Akta Notaris Sutjipto, S.H., No. 2 tanggal 1 Juni 2003 dan telah disetujui oleh Menteri Hukum dan Hak Asasi Manusia Republik Indonesia berdasarkan Surat Keputusan No. C-12783.HT.01.04.TH.2003 tanggal 6 Juni 2003 dan telah diumumkan pada Berita Negara Republik Indonesia No. 63 tanggal 8 Agustus 2003, Tambahan Berita Negara Republik Indonesia No. 6590.

Pada tanggal 14 Juli 2003, Bank Mandiri melakukan IPO atas 4.000.000.000 lembar Saham Biasa Seri B, dengan nilai nominal Rp500 (nilai penuh) per lembar saham yang dijual dengan harga Rp675 (nilai penuh) per lembar saham. Penawaran umum kepada masyarakat tersebut merupakan divestasi atas 20,00% saham Bank Mandiri milik Pemerintah (Catatan 40a).

Pada tanggal 14 Juli 2003, sebanyak 19.800.000.000 lembar Saham Biasa Seri B Bank Mandiri telah dicatatkan di Bursa Efek Jakarta dan Bursa Efek Surabaya berdasarkan surat persetujuan dari Bursa Efek Jakarta No. S-1187/BEJ.PSJ/07-2003 tanggal 8 Juli 2003 dan Bursa Efek Surabaya No. JKT-028/LIST/BES/VII/2003 tanggal 10 Juli 2003.

Kuasi-reorganisasi

Untuk menghilangkan konsekuensi negatif karena dibebani dengan saldo rugi, Bank Mandiri melakukan kuasi-reorganisasi sesuai keputusan Rapat Umum Pemegang Saham Luar Biasa ("RUPS-LB") tanggal 29 Mei 2003.

Penyesuaian kuasi-reorganisasi telah dibukukan pada tanggal 30 April 2003, saldo rugi sebesar Rp162.874.901 dieliminasi ke akun tambahan modal disetor/agio saham.

1. GENERAL INFORMATION (continued)

d. Initial public offering of share and quasi-reorganisation

Initial public offering of Bank Mandiri's share

Bank Mandiri had submitted its registration for an Initial Public Offering ("IPO") to Financial Services Authorities ("FSA"), previously the Capital Market Supervisory Board and Financial Institution ("Bapepam and LK") on 2 June 2003 and became effective based on the Letter from the Chairman of Bapepam and LK No. S-1551/PM/2003 dated 27 June 2003.

The Bank's name was changed from PT Bank Mandiri (Persero) to PT Bank Mandiri (Persero) Tbk. based on an amendment to the Articles of Association which has been executed with Notarial Deed of Sutjipto, S.H., No. 2 dated 1 June 2003 and had approved by the Ministry of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. C-12783.HT.01.04.TH.2003 dated 6 June 2003 that was published in the State Gazette Republic of Indonesia No. 63 dated 8 August 2003, Supplement State Gazette of Republic of Indonesia No. 6590.

On 14 July 2003, Bank Mandiri had an IPO of its 4,000,000,000 Series B common shares through, with a nominal value of Rp500 (full amount) per share with an initial selling price of Rp675 (full amount) per share. The IPO to public represents a divestment of 20.00% of the ownership of the Government's share in Bank Mandiri (Note 40a).

On 14 July 2003, 19,800,000,000 of Bank Mandiri's Series B common shares were listed on the Jakarta Stock Exchange and Surabaya Stock Exchange based on Jakarta Stock Exchange's Approval Letter No. S-1187/BEJ.PSJ/07-2003 dated 8 July 2003 and Surabaya Stock Exchange's Approval Letter No. JKT-028/LIST/BES/VII/2003 dated 10 July 2003.

Quasi-reorganisation

In order for Bank Mandiri to eliminate the negative consequences of being burdened by accumulated losses, the Bank undertook quasi-reorganisation as approved in the Extraordinary General Meeting of Shareholders ("RUPS-LB") on 29 May 2003.

The quasi-reorganisation adjustments were booked on 30 April 2003, which the accumulated losses of Rp162,874,901 were eliminated against additional paid-in capital/agio.

- f. **Penawaran umum obligasi dan *medium term notes* subordinasi, penawaran umum obligasi dan *medium term notes*, penawaran umum terbatas saham, perubahan modal saham Bank Mandiri dan pembelian kembali saham Bank Mandiri (lanjutan)**

Penawaran umum terbatas saham Bank Mandiri

Untuk penguatan struktur permodalan, Bank Mandiri meningkatkan modal ditempatkan dan disetor melalui Penawaran Umum Terbatas ("PUT") dengan Hak Memesan Efek Terlebih Dahulu ("HMETD"). Terkait dengan PUT tersebut, Bank Mandiri telah menyampaikan pernyataan pendaftaran pertama dan kedua kepada Otoritas Jasa Keuangan ("OJK"), dahulu Badan Pengawas Pasar Modal dan Lembaga Keuangan ("Bapepam dan LK"), pada tanggal 26 Desember 2010 dan tanggal 18 Januari 2011. Bapepam dan LK berdasarkan Surat Pelaksana Ketua Bapepam dan LK No. S-807/BL/2011 tanggal 27 Januari 2011 menyatakan bahwa pendaftaran PUT dengan HMETD Bank Mandiri tersebut telah efektif. Bank Mandiri juga telah memperoleh persetujuan pemegang saham sesuai hasil keputusan RUPS-LB tanggal 28 Januari 2011 sebagaimana terdapat dalam Akta Notaris Dr. A. Partomuan Pohan, S.H., LLM No. 15 tanggal 25 Februari 2011 yang telah dilaporkan kepada Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dengan bukti penerimaan laporan No. AHU-AH.01.10-07446 tanggal 10 Maret 2011 dan telah didaftarkan pada Daftar Perseroan No. AHU-0019617.AH.01.09 Tahun 2011 tanggal 10 Maret 2011.

Total HMETD yang diterbitkan Bank Mandiri adalah sebanyak 2.336.838.591 lembar saham dengan harga sebesar Rp5.000 (nilai penuh) per lembar yang telah ditetapkan pada tanggal 25 Januari 2011 dan pelaksanaan periode perdagangan HMETD dimulai tanggal 14 Februari 2011 sampai dengan 21 Februari 2011.

Pemerintah Republik Indonesia sebagai pemegang saham mayoritas Bank Mandiri, tidak melaksanakan haknya untuk memperoleh HMETD, namun mengalihkannya kepada pemegang saham publik lainnya, sehingga komposisi persentase kepemilikan saham Pemerintah pada Bank Mandiri menjadi berkurang atau mengalami dilusi dari sebesar 66,68% sebelum periode pelaksanaan HMETD menjadi sebesar 60,00% setelah pelaksanaan HMETD.

1. GENERAL INFORMATION (continued)

- f. **Public offering of subordinated bonds and *medium term notes*, public offering of bonds and *medium term notes*, limited public offering of shares, changes in share capital of Bank Mandiri and repurchase of Bank Mandiri shares (continued)**

Limited public offering of Bank Mandiri shares

To strengthen the capital structure, the Bank increased its issued and paid-up capital through the Limited Public Offering ("LPO") with Pre-emptive Rights ("HMETD"). Bank Mandiri had submitted the first and second registration statement regarding of this LPO to the Financial Services Authority ("FSA"), previously the Capital Market Supervisory Board and Financial Institution ("Bapepam and LK") on 26 December 2010 and 18 January 2011. Capital Market Supervisory Board and Financial Institution on 27 January 2011 based on the Bapepam and LK Acting Chief Letter No. S-807/BL/2011 stated that the LPO with HMETD of Bank Mandiri had been effective. The Bank also obtained an approval from the shareholders based on the decision of Extraordinary General Meeting of Shareholder dated on 28 January 2011 as stated in Notary Deed by Dr. A. Partomuan Pohan, S.H., LLM No. 15 dated 25 February 2011 and had been reported to the Ministry of Law and Human Rights Republic of Indonesia with the receipt No. AHU-AH.01.10-07446 dated 10 March 2011. The Bank also registered it to Company Listing No. AHU-0019617.AH.01.09 Year 2011 dated 10 March 2011.

Total number of HMETD issued by Bank Mandiri was 2,336,838,591 shares at a price of Rp5,000 (full amount) per share which had been determined on 25 January 2011 and the execution period of Pre-emptive Rights trading started from 14 February 2011 until 21 February 2011.

The Government of the Republic of Indonesia as the controlling shareholder of Bank Mandiri, did not execute its right to acquire the HMETD, and transferred it to other public shareholders. As a result of this, Government's ownership in Bank Mandiri was reduced or diluted from 66.68%, prior to the execution of HMETD, to 60.00% after the execution of the HMETD.

("BNI"), PT Bank Syariah Mandiri ("BSM"), PT Bank BRIsyariah Tbk. ("BRIS"), dan PT Bank BNI Syariah ("BNIS") telah menandatangani *Conditional Merger Agreement* ("CMA") atau Perjanjian Penggabungan Bersyarat dalam rangka penggabungan usaha BSM, BRIS, dan BNIS (Bank Peserta Penggabungan).

Berdasarkan CMA, setelah tanggal efektif penggabungan, BRIS akan menjadi entitas yang menerima penggabungan secara hukum atau *surviving legal entity* dan seluruh pemegang saham BNIS dan BSM akan menjadi pemegang saham dari entitas yang menerima penggabungan berdasarkan rasio penggabungan.

Izin Penggabungan diperoleh dari OJK melalui Salinan Keputusan Dewan Komisiner OJK No. 4/KDK.03/2021 tanggal 27 Januari 2021 tentang Pemberian Izin Penggabungan BSM dan BNIS ke dalam BRIS serta Izin Perubahan Nama dengan Menggunakan Izin Usaha PT Bank BRIsyariah Tbk Menjadi Izin Usaha Atas Nama PT Bank Syariah Indonesia Tbk Sebagai Bank Hasil Penggabungan.

BRIS awalnya didirikan dengan nama PT Bank Jasa Arta ("BJA") berdasarkan Akta Pendirian No. 4 tanggal 3 April 1969 yang dibuat dihadapan Liem Toeng Kie, S.H., notaris di Jakarta. Akta pendirian ini disahkan oleh Menteri Kehakiman Republik Indonesia dalam Surat Keputusan No. J.A.5/70/4 tanggal 28 Mei 1970 dan telah diumumkan dalam Berita Negara Republik Indonesia No. 43 tanggal 28 Mei 1971, Tambahan No. 242/1971.

BJA memperoleh izin usaha untuk beroperasi sebagai bank umum dari Menteri Keuangan Republik Indonesia No. D.15.1-4-40 tanggal 3 Juli 1969. Sejak tanggal 16 Oktober 2008, BJA telah memperoleh izin perubahan kegiatan usaha bank, dari bank konvensional menjadi bank umum yang melaksanakan kegiatan usaha berdasarkan prinsip syariah dari Bank Indonesia. Perubahan nama dan kegiatan usaha berdasarkan prinsip syariah dari BJA menjadi PT Bank Syariah BRI didasarkan pada Pernyataan Keputusan Persetujuan Bersama Seluruh Pemegang Saham Perseroan Terbatas BJA, sesuai dengan Akta No. 45 tanggal 22 April 2008 yang dibuat di hadapan Fathiah Helmi, S.H., notaris di Jakarta.

1. GENERAL INFORMATION (continued)

g. Subsidiaries (continued)

PT Bank Syariah Indonesia Tbk. (formerly PT Bank Syariah Mandiri)

On 12 October 2020, PT Bank Mandiri (Persero) Tbk. ("Bank Mandiri"), PT Bank Rakyat Indonesia (Persero) Tbk. ("BRI"), PT Bank Negara Indonesia (Persero) Tbk. ("BNI"), PT Bank Syariah Mandiri ("BSM"), PT Bank BRIsyariah Tbk. ("BRIS"), and PT Bank BNI Syariah ("BNIS") have signed a *Conditional Merger Agreement* ("CMA") for the business merger of BSM, BRIS, and BNIS (*Merger Participating Banks*).

Based on CMA, after the effective date of the merger, BRIS will become the surviving legal entity and all shareholders of BNIS and BSM will become shareholders of the entity receiving the amalgamation based on the amalgamation ratio.

The Merger Approval was obtained from the FSA through a copy of the Decree of the FSA Board of Commissioners No. 4/KDK.03/2021 dated 27 January 2021 regarding the Granting of Permits to Merge BSM and BNIS into BRIS as well as Permits to Change Names by Using PT Bank BRIsyariah Tbk Business Permit to Become Business Permit in the Name of PT Bank Syariah Indonesia Tbk as the Merged Bank.

BRIS was initially established under the name of PT Bank Jasa Arta ("BJA") based on the Deed of Establishment No. 4 dated 3 April 1969 of Liem Toeng Kie, S.H., notary in Jakarta. The deed has been approved by the Minister of Law of Republic of Indonesia in its Decision Letter No. J.A.5/70/4 dated 28 May 1970 and has been published in the State Gazette of Republic of Indonesia No. 43 dated 28 May 1971, Supplement No. 242/1971.

BJA obtained its business license to operate as a commercial bank from Minister of Finance of the Republic of Indonesia No. D.15.1-4-40 dated 3 July 1969. Since 16 October 2008, BJA has obtained license from Bank Indonesia to change its business activities, from a conventional bank into a commercial bank based on sharia principles. The changes in name and business activity based on sharia principles from BJA to PT Bank Syariah BRI was based on BJA Shareholders' Approval Decision Statement, as stated in the Deed No. 45 dated 22 April 2008 made before Fathiah Helmi, S.H., notary in Jakarta.

g. Subsidiaries (continued)

PT Bank Syariah Indonesia Tbk. (formerly PT Bank Syariah Mandiri) (continued)

In 2009, PT Bank Syariah BRI changed its name to PT Bank BRISyariah based on PT Bank Syariah BRI Shareholders' Approval Decision Statement, as stated in Notarial Deed No. 18 dated 14 April 2009 made before Fathiah Helmi, S.H., notary in Jakarta which was subsequently amended by PT Bank Syariah BRI Shareholders' Approval Decision Statement, as stated in Notarial Deed No. 20 dated 17 September 2009 made, before Fathiah Helmi, S.H., notary in Jakarta, which has been approved by the Minister of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. AHU-53631.AH.01.02.TH2009 dated 5 November 2009. It was announced in the State Gazette of the Republic of Indonesia No. 96 dated 1 December 2009, Supplement No. 27908 and Decision Letter from the Governor of Bank Indonesia No. 11/63/KEP.GBI/DpG/2009 dated 15 December 2009.

On 27 December 2013, PT Bank BRISyariah obtained a license to operate as foreign exchange bank based on the Decision Letter of the Governor of Bank Indonesia No. 15/139/KEP.GBI/DpG/2013.

Agreement between Shareholders of the Merged Bank dated 26 January 2021 between PT Bank Mandiri (Persero) Tbk ("Bank Mandiri"), PT Bank Negara Indonesia (Persero) Tbk ("BNI"), and PT Bank Rakyat Indonesia (Persero) Tbk ("BRI") agreed that Bank Mandiri is a party who exercises control over the Merged Bank.

Subsequently, the decision of the BRIS' EGMS regarding the merger of BSM and BNIS into BRIS was restated in the Deed of Statement of Meeting Resolutions of PT Bank BRISyariah Tbk. No. 37 dated 14 January 2021 made before notary Jose Dima Satria S.H., M.Kn., notary in Jakarta. This amendment was accepted and recorded by the Minister of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. AHU-AH.01.10-0011384 dated 28 January 2021 which was effective on 1 February 2021.

1. INFORMASI UMUM (lanjutan)

g. Entitas Anak (lanjutan)

PT Bank Syariah Indonesia Tbk. (dahulu PT Bank Syariah Mandiri) (lanjutan)

Transaksi pembentukan PT Bank Syariah Indonesia Tbk tersebut merupakan kombinasi bisnis entitas sepengendali dimana pemegang saham pengendali (*ultimate shareholder*) dari Bank Mandiri, BNI dan BRI adalah Pemerintah Republik Indonesia. Oleh karena itu, transaksi diperlakukan berdasarkan metode penyatuan kepemilikan sesuai Pernyataan Standar Akuntansi Keuangan ("PSAK") No. 338 (Revisi 2012), "Kombinasi Bisnis Entitas Sepengendali".

Perbedaan antara jumlah imbalan yang dialihkan dan jumlah tercatat investasi yang diperoleh dari transaksi ini diakui sebagai "Selisih Nilai Transaksi Kombinasi Bisnis Entitas Sepengendali" dan disajikan sebagai bagian "Tambahkan Modal Disetor" di bagian ekuitas pada laporan posisi keuangan konsolidasian. Ekuitas dari PT BRISyariah Tbk. dan PT Bank BNI Syariah sebelum tanggal penggabungan disajikan sebagai "ekuitas *merging entities*" pada bagian ekuitas. Rincian jumlah imbalan yang dialihkan dan jumlah tercatat yang diperoleh adalah sebagai berikut:

	Jumlah imbalan yang dialihkan/ <i>The consideration transferred</i>	Jumlah tercatat investasi/ <i>Investment carrying Amount</i>	Tambahkan modal disetor/ <i>Additional paid-in capital</i>	
PT Bank Syariah Indonesia Tbk.	10.905.424	11.232.496	327.072	PT Bank Syariah Indonesia Tbk.

Selanjutnya keputusan RUPS-LB BRIS antara lain terkait Perubahan Anggaran Dasar BRIS dinyatakan kembali dalam Akta Pernyataan Keputusan Rapat Perubahan Anggaran Dasar Perubahan Nama PT Bank BRISyariah Tbk. No. 38 tanggal 14 Januari 2021 yang dibuat dihadapan Jose Dima Satria S.H., M.Kn., notaris di Jakarta yang antara lain perubahan nama menjadi PT Bank Syariah Indonesia Tbk. dan perubahan ini telah mendapat persetujuan Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dalam Surat Keputusan No. AHU-0006268.AH.01.02 tahun 2021, dan telah diterima dan dicatatkan Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dalam Surat Keputusan No. AHU-AH.01.03.0061498 dan No. AHU-AH.01.03.0061501 yang seluruhnya ditetapkan tanggal 1 Februari 2021.

1. GENERAL INFORMATION (continued)

g. Subsidiaries (continued)

PT Bank Syariah Indonesia Tbk. (formerly PT Bank Syariah Mandiri) (continued)

The transaction for the establishment of PT Bank Syariah Indonesia Tbk is a business combination of entities under common control where the controlling shareholder (*ultimate shareholder*) of Bank Mandiri, BNI and BRI is the Government of the Republic of Indonesia. Therefore, transactions are treated based on the pooling of interest method in accordance with Statement of Financial Accounting Standards ("SFAS") No. 338 (Revised 2012), "Business Combination of Entities Under Common Control".

The difference between the amount of consideration transferred and the carrying amount of the investment obtained from this transaction is recognised as "Difference in Value from Business Combination Transactions of Entities Under Common Control" and presented as "Additional Paid-in Capital" in the equity section in the consolidated statement of financial position. Prior to the date of the merger, the equity of PT BRISyariah Tbk. and PT Bank BNI Syariah is presented as "merging entities equity" in the equity section. Details of the amount of consideration transferred and the carrying amount received are as follows:

Furthermore, the decisions of the BRIS' EGMS, among others related to the Amendment to the BRIS Articles of Association, were restated in the Deed of Statement of Meeting Resolutions on the Amendment of the Articles of Association for the Change of Name of PT Bank BRISyariah Tbk. No. 38 dated 14 January 2021 made before Jose Dima Satria S.H., M.Kn., notary in Jakarta, which, among others, changed its name to PT Bank Syariah Indonesia Tbk. and this change was approved by the Minister of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. AHU-0006268.AH.01.02 year 2021, and has been received and recorded by the Minister of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. AHU-AH.01.03.0061498 and No. AHU-AH.01.03.0061501 which are all set on 1 February 2021.

The Head Office of PT Bank Syariah Indonesia Tbk. is located at The Tower Building, Jalan Jenderal Gatot Subroto No. 27, Karet Semanggi Sub-district, Setiabudi District, South Jakarta 12930.

Bank Mandiri (Europe) Limited

Bank Mandiri (Europe) Limited ("BMEL") was established and domiciled in London, United Kingdom on 22 June 1999 based on "The Companies Act 1985 of the United Kingdom". BMEL was established through the conversion of the London branch of Bank Exim into a wholly owned Subsidiary of Bank Mandiri and has been operating effectively since 31 July 1999. As a Subsidiary that has a Commercial Bank license in the United Kingdom, BMEL is supervised by the Prudential Regulation Authority ("PRA") and The Financial Conduct Authority ("FCA"), which are under the supervision of the Bank of England and HM Treasury of the United Kingdom.

PT Mandiri Sekuritas

PT Mandiri Sekuritas ("Mandiri Sekuritas"), formerly known as PT Merincorp Securities Indonesia ("MSI"), incorporated under Deed No. 1 dated 2 December 1991 made before notary Sutjipto, S.H. Mandiri Sekuritas is the result of the merger of PT Bumi Daya Sekuritas ("BDS"), PT Exim Sekuritas ("ES") and PT Merincorp Securities Indonesia ("MSI") which was accomplished by merging BDS and ES into MSI. MSI obtained a license as a securities portfolio broker and underwriter of the securities portfolio from the Chairman of the Capital Market and Financial Institutions Supervisory Agency ("Bapepam and LK") by its decree letter No. KEP-12/PM/1992 and No. KEP-13/PM/1992 and started its operational activities on 23 January 1992. The merger was based on the Deed No. 116 dated 31 July 2000 made before notary Ny. Vita Buena, S.H., which was approved by the Minister of Law and Legislation of the Republic of Indonesia on 25 August 2000 by Decree No. C-18762.HT.01.04-TH.2000 and business permits obtained previously by MSI can still be used by PT Mandiri Sekuritas.

PT Mandiri Sekuritas owns 99.93% of total shares of PT Mandiri Manajemen Investasi, a Subsidiary that was established on 26 October 2004 and engaged in investment management and advisory. Mandiri Sekuritas also owns 100% of the total shares of Mandiri Securities Pte. Ltd., a company which obtained a capital market service license for the business type "Dealing in Securities and Advising Corporate Finance and Monetary Authority of Singapore" based on license No. CMS100566-1 dated 10 November 2016.

PT Mandiri Sekuritas (lanjutan)

Pada tanggal 28 Desember 2012, Bank Mandiri melakukan penambahan penyertaan modal dalam bentuk tunai pada Mandiri Sekuritas, sebesar Rp29.512. Bank Mandiri telah memperoleh persetujuan dari Bank Indonesia melalui surat tertanggal 31 Oktober 2012 dan Keputusan Pemegang Saham Di Luar Rapat (*circular resolution*) tertanggal 27 Desember 2012 atas penambahan penyertaan modal tersebut. Setelah dilaksanakannya penambahan penyertaan modal tersebut, porsi kepemilikan Bank Mandiri pada Mandiri Sekuritas meningkat dari 95,69% menjadi 99,99% dari total seluruh saham yang telah dikeluarkan Mandiri Sekuritas. Mandiri Sekuritas berdomisili di Menara Mandiri 1, Jalan Jenderal Sudirman Kav. 54-55, Jakarta.

PT Bank Mandiri Taspen

PT Bank Sinar Harapan Bali ("BSHB") didirikan sebagai Bank Pasar pada tanggal 23 Februari 1970 dengan nama MAI Bank Pasar Sinar Harapan Bali, kemudian pada tanggal 3 November 1992 bank ini mengalami perubahan bentuk badan hukum menjadi Perseroan Terbatas berdasarkan Akta No. 4 yang dibuat dihadapan Ida Bagus Alit Sudiarmika, S.H., notaris di Denpasar dan memperoleh izin usaha sebagai Bank Umum berdasarkan surat keputusan Menteri Keuangan Republik Indonesia No. 77/KMK.017/1994 tanggal 10 Maret 1994.

Pada tanggal 3 Mei 2008 dilangsungkan penandatanganan Akta Akuisisi antara pemegang saham BSHB dan Bank Mandiri, sebagaimana tertuang dalam Akta Akuisisi No. 4 tanggal 3 Mei 2008 dibuat oleh I Wayan Sugitha, S.H., Notaris di Denpasar. Penandatanganan Akta Akuisisi ini menandai awal kepemilikan Bank Mandiri atas 80,00% saham BSHB, dimana selanjutnya pengelolaan BSHB akan dilakukan secara terpisah dari Bank Mandiri sebagai bank yang tetap berdiri sendiri (*stand-alone bank*) dengan fokus utama pada pengembangan bisnis Mikro dan Usaha Kecil.

Pada tanggal 24 Juli 2015, OJK telah menyetujui perubahan nama PT Bank Sinar Harapan Bali menjadi PT Bank Mandiri Taspen Pos dan memberikan izin untuk melakukan kegiatan usaha dengan nama Bank Mantap. Perubahan nama disertai pula izin perubahan logo dari OJK pada tanggal 31 Juli 2015. Perubahan nama dan logo tersebut telah diumumkan kepada publik pada tanggal 7 Agustus 2015.

PT Mandiri Sekuritas (continued)

On 28 December 2012, Bank Mandiri increased its capital investment in form of cash at Mandiri Sekuritas, amounted to Rp29,512. Bank Mandiri obtained approval from Bank Indonesia through its letter dated 31 October 2012 and the circular resolution of shareholders dated 27 December 2012 for the capital investment increment. After the execution of the additional capital investment, the Bank's ownership at Mandiri Sekuritas increased from 95.69% to 99.99% of the total shares issued by Mandiri Sekuritas. Mandiri Sekuritas is domiciled at Menara Mandiri 1, Jalan Jenderal Sudirman Kav. 54-55, Jakarta.

PT Bank Mandiri Taspen

PT Bank Sinar Harapan Bali ("BSHB") was established as the Micro Banking on 23 February 1970 under the name MAI Bank Pasar Sinar Harapan Bali, then on 3 November 1992 BSHB transformed into Limited Liability Company based on Deed No. 4 made before notary Ida Bagus Alit Sudiarmika, S.H., notary in Denpasar and obtained a business license as a Commercial Bank under the decree letter of the Minister of Finance of the Republic of Indonesia No. 77/KMK.017/1994 dated 10 March 1994.

On 3 May 2008, shareholders of BSHB and Bank Mandiri signed the acquisition deed as stated in the Acquisition Deed No. 4 dated 3 May 2008 made before notary I Wayan Sugitha, S.H., notary in Denpasar. The signing of the Acquisition deed is the beginning of Bank Mandiri's ownership of 80.00% BSHB shares, wherein the management of BSHB will be carried out separately from Bank Mandiri as a stand-alone bank with the main focus on developing Micro and Small Businesses.

On 24 July 2015, the FSA has approved the name changes of PT Bank Sinar Harapan Bali to PT Bank Mandiri Taspen Pos and given permission to conduct business under the name of Bank Mantap. Name and logo changes approved by FSA on 31 July 2015 and announced to public on 7 August 2015.

PT Bank Mandiri Taspen (lanjutan)

Pada tanggal 9 Oktober 2017, Bank Mandiri Taspen Pos mengadakan RUPS-LB yang menyetujui perubahan komposisi pemegang saham dan perubahan nama dari semula bernama PT Bank Mandiri Taspen Pos menjadi PT Bank Mandiri Taspen ("Bank Mantap").

Untuk menguatkan ekspansi usaha dan menjadi Bank Nasional yang memiliki jaringan usaha di seluruh pelosok Indonesia, berdasarkan Akta Keputusan Rapat Umum Pemegang Saham No. 53 tanggal 31 Oktober 2016 dari notaris I Gusti Ngurah Putra Wijaya, S.H., notaris di Denpasar, yang mana kemudian ditegaskan dengan Penegasan Keputusan Rapat No. 7 tanggal 5 Maret 2019 mengenai Pemindahan Kedudukan Kantor Pusat Bank. Akta perubahan tersebut telah dilaporkan kepada Menteri Hukum dan Hak Asasi Manusia Republik Indonesia sebagaimana surat penerimaan pemberitahuan perubahan data Perseroan tertanggal 11 Maret 2019 No. AHU-AH.01.03-138220 dan telah didaftarkan pada daftar Perseroan No. AHU-0039461.AH.01.11 Tahun 2019 tanggal 11 Maret 2019. Perubahan Anggaran Dasar tersebut juga telah disetujui berdasarkan Keputusan Menteri Hukum dan Hak Asasi Manusia Republik Indonesia No. AHU-0012925.AH.01.02 Tahun 2019 tentang Persetujuan Perubahan Anggaran Dasar Perseroan Terbatas PT Bank Mandiri Taspen serta telah mendapat persetujuan dari Otoritas Jasa Keuangan No. S-5/PB.1/2019 tanggal 28 Januari 2019 tentang Rencana Pemisahan dan Pemindahan Alamat Kantor Pusat ("KP"), Bank Mantap memindahkan Kantor Pusatnya yang semula berkedudukan dan berkantor pusat di Denpasar-Bali menjadi berkedudukan dan berkantor pusat di Jakarta Pusat. Perpindahan kantor pusat tersebut kemudian dilaksanakan secara efektif pada tanggal 11 Maret 2019.

Berdasarkan Keputusan Sirkuler Pemegang Saham PT Bank Mandiri Taspen tanggal 16 Desember 2020 sebagaimana telah dituangkan dalam Akta Pernyataan Keputusan Rapat No. 41 tanggal 28 Desember 2020, komposisi kepemilikan saham Bank Mandiri di Bank Mantap menjadi 51,098%, dan saham PT Taspen (Persero) menjadi 48,437% serta pemegang saham individual menjadi 0,465%. Perubahan komposisi kepemilikan saham tersebut berlaku efektif sejak tanggal 13 Januari 2021 dengan didapatkannya persetujuan dan penerimaan pemberitahuan perubahan Anggaran Dasar PT Bank Mandiri Taspen dari Kementerian Hukum dan Hak Asasi Manusia terkait perubahan modal dasar, modal ditempatkan dan modal disetor, serta dari sisi administratif dengan dilakukannya laporan perubahan komposisi permodalan ke Otoritas Jasa Keuangan.

g. Entitas Anak (lanjutan)

PT Bank Mandiri Taspen (lanjutan)

Sebelum tanggal 1 Januari 2011, *goodwill* yang timbul dari akuisisi PT Bank Mandiri Taspen sebesar Rp19.219 diamortisasi dengan menggunakan metode garis lurus selama 5 (lima) tahun dengan pertimbangan atas estimasi manfaat ekonomis atas *goodwill* tersebut. Efektif tanggal 1 Januari 2011, sesuai PSAK 22 (Revisi 2009), "Kombinasi Bisnis", *goodwill* tidak diamortisasi tapi diuji penurunan nilai setiap tahunnya. Bank secara berkala melakukan evaluasi terhadap penurunan nilai *goodwill* tersebut sesuai PSAK 48 "Penurunan Nilai Aset" (Catatan 2r). Saldo *goodwill* pada tanggal 31 Desember 2024 dan 2023 adalah sebesar Rp21.043. Kantor Pusat Bank Mantap beralamat di Graha Mantap, Jalan Proklamasi No. 31, Menteng, Jakarta Pusat.

PT Mandiri Tunas Finance

PT Mandiri Tunas Finance ("MTF"), dahulu PT Tunas Financindo Sarana ("TFS") adalah perusahaan yang bergerak dalam kegiatan pembiayaan konsumen. TFS didirikan berdasarkan Akta Notaris Misahardi Wilamarta, S.H., No. 262 tanggal 17 Mei 1989 dan disahkan oleh Menteri Kehakiman dalam Surat Keputusan No. C2-4868.HT.01.01.TH.89 tanggal 1 Juni 1989 serta diumumkan dalam Lembaran Berita Negara No. 57, Tambahan No. 1369 tanggal 18 Juli 1989. Kegiatan komersial TFS dimulai tahun 1989. TFS memperoleh izin usaha sebagai perusahaan pembiayaan dalam bidang sewa menyewa biasa, anjak piutang dan pembiayaan konsumen dari Menteri Keuangan berdasarkan Surat Keputusan No. 1021/KMK.13/1989 tanggal 7 September 1989, No. 54/KMK.013/1992 tanggal 15 Januari 1992 dan No. 19/KMK.017/2001 tanggal 19 Januari 2001. Sesuai dengan Akta Notaris Dr. A. Partomuan Pohan, S.H., LLM pada tanggal 6 Februari 2009, dilakukan penandatanganan Akta Jual Beli antara pemegang saham TFS (PT Tunas Ridean Tbk. dan PT Tunas Mobilindo Parama) dengan Bank Mandiri, dimana Bank Mandiri mengakuisisi 51,00% kepemilikan saham atas TFS melalui pembelian 1.275.000.000 lembar saham TFS (nilai nominal Rp100 (nilai penuh)) per lembar saham dengan harga Rp290.000.

Pengalihan 51,00% kepemilikan kepada Bank Mandiri ini telah disahkan dalam RUPS-LB TFS sebagaimana tertuang dalam Berita Acara RUPS-LB No. 8 tanggal 6 Februari 2009 dan telah dicatatkan dalam Sistem Administrasi Badan Hukum Kementerian Hukum dan Hak Asasi Manusia sebagaimana ditegaskan melalui Surat Kementerian Hukum dan Hak Asasi Manusia No. AHU-AH.01.10-01575 tertanggal 11 Maret 2009. Akuisisi ini juga telah disetujui oleh Bank Indonesia melalui Keputusan Gubernur Bank Indonesia No. 11/3/DPB1/TPB1-1 tertanggal 8 Januari 2009.

1. GENERAL INFORMATION (continued)

g. Subsidiaries (continued)

PT Bank Mandiri Taspen (continued)

Prior to 1 January 2011, *goodwill* arising from the acquisition of PT Bank Mandiri Taspen amounted to Rp19,219 was amortised using the straight-line method over 5 (five) years with the consideration of estimation of economic benefits of the *goodwill*. Effective on 1 January 2011, in accordance with SFAS No. 22 (Revised 2009), "Business Combinations", *goodwill* is not amortised but is tested for impairment on annual basis. The Bank periodically evaluates the impairment of *goodwill* in accordance with SFAS No. 48, "Impairment of Assets" (see Note 2r). The balance of *goodwill* on 31 December 2024 and 2023 amounted to Rp21,043. The Head Office of Bank Mantap is located at Graha Mantap, Jalan Proklamasi No. 31, Menteng, Central Jakarta.

PT Mandiri Tunas Finance

PT Mandiri Tunas Finance ("MTF"), formerly PT Tunas Financindo Sarana ("TFS") is a company that engaged in consumer financing activities. TFS was established based on Notarial Deed of Misahardi Wilamarta, S.H., No. 262 dated 17 May 1989 and approved by the Ministry of Justice through its Decision Letter No. C2-4868.HT.01.01.TH.89 dated 1 June 1989 and published in State Gazette No. 57, Supplement No. 1369 dated 18 July 1989. TFS commenced its commercial activities in 1989. TFS obtained a business license to operate as leasing, factoring and consumer financing company from Minister of Finance based on its Decision Letter No. 1021/KMK.13/1989 dated 7 September 1989, No. 54/KMK.013/1992 dated 15 January 1992 and No. 19/KMK.017/2001 dated 19 January 2001. Based on Notarial Deed of Dr. A. Partomuan Pohan, S.H., LLM, dated 6 February 2009, entered into and signed a sales and purchase agreement with TFS's shareholders (PT Tunas Ridean Tbk. and PT Tunas Mobilindo Parama) to acquire 51.00% ownership of TFS through purchase of 1,275,000,000 shares of TFS (the nominal value of Rp100 (full amount)) per share amounted to Rp290,000.

The acquisition of 51.00% of TFS shares ownership by Bank Mandiri was approved in the Extraordinary General meeting of Shareholders Meeting of TFS as stated in the Minutes of Extraordinary General meeting of Shareholders' No. 8 dated 6 February 2009 and listed in Legal Entity Administration System of Ministry of Law and Human Rights as affirmed by the Ministry of Law and Human Rights through its Letter No. AHU-AH.01.10-01575 dated 11 March 2009. This acquisition had been approved by Bank Indonesia through the Decree of the Governor of Bank Indonesia No. 11/3/DPB1/TPB1-1 dated 8 January 2009.

Pada tanggal 26 Juni 2024, telah ditandatangani dokumen Akta Pengambilalihan Saham No. 88 antara Bank Mandiri dan IFG Life serta Akta Jual Beli Saham No. 89 antara Kimia Farma dan IFG Life, keduanya dibuat di hadapan Mala Mukti S.H., LL.M., notaris di Jakarta. Sejak ditandatanganinya Akta Pengambilalihan Saham dan Akta Jual Beli Saham tersebut susunan pemegang saham Mandiri Inhealth menjadi IFG Life memiliki sebesar 80% saham dan Bank Mandiri memiliki sebesar 20% saham. Dengan demikian, Bank Mandiri kehilangan pengendalian atas Mandiri Inhealth yang mengakibatkan Bank Mandiri menghentikan pengakuan terhadap aset bersih Mandiri Inhealth pada nilai tercatatnya. Pengalihan saham tersebut telah disetujui sebelumnya melalui RUPS Mandiri Inhealth yang dinyatakan dalam Akta Pernyataan Keputusan Para Pemegang Saham Mandiri Inhealth No. 90, yang dibuat di hadapan Mala Mukti S.H., LL.M., notaris di Jakarta dan pemberitahuannya telah dicatat ke dalam Sistem Administrasi Badan Hukum Kementerian Hukum dan Hak Asasi Manusia Republik Indonesia sesuai surat tertanggal 27 Juni 2024 No. AHU-AH.01.09-0219371.

Transaksi pengalihan saham Mandiri Inhealth tersebut merupakan kombinasi bisnis entitas sependengali dimana pemegang saham pengendali (*ultimate shareholder*) dari pemegang saham Mandiri Inhealth yaitu Bank Mandiri, Kimia Farma, dan IFG Life adalah Pemerintah Republik Indonesia. Oleh karena itu, transaksi divestasi tersebut dicatat berdasarkan metode penyatuan kepemilikan sesuai Pernyataan Standar Akuntansi Keuangan ("PSAK") No. 338 (Revisi 2014), "Kombinasi Bisnis Entitas Sependengali".

Perbedaan antara jumlah imbalan yang diterima dan jumlah tercatat investasi dari transaksi ini diakui sebagai "Selisih Nilai Transaksi Kombinasi Bisnis Entitas Sependengali" dan disajikan sebagai bagian "Tambahkan Modal Disetor" di bagian ekuitas pada laporan posisi keuangan konsolidasian. Rincian jumlah imbalan yang diterima dan jumlah tercatat yang dialihkan adalah sebagai berikut:

	Jumlah imbalan yang diterima/ <i>The consideration received</i>	Jumlah tercatat investasi/ <i>Investment carrying Amount</i>	Tambahkan modal disetor/ <i>Additional paid-in capital</i>	
PT Asuransi Jiwa Inhealth Indonesia	1.710.000	1.257.990	452.010	PT Asuransi Jiwa Inhealth Indonesia

Setelah pengukuran awal, nilai investasi Mandiri Inhealth kemudian ditambah atau dikurangkan bagian Bank Mandiri atas laba rugi Mandiri Inhealth sesuai dengan PSAK No. 228 "Investasi Pada Entitas Asosiasi dan Ventura Bersama".

1. GENERAL INFORMATION (continued)

g. Subsidiaries (continued)

PT Asuransi Jiwa Inhealth Indonesia (continued)

On 26 June 2024, Bank Mandiri and IFG Life signed the Share Acquisition Deed No. 88, and Kimia Farma and IFG Life signed the Share Sale and Purchase Deed No. 89, both made before Mala Mukti S.H., LL.M., notary in Jakarta. Since the signing of the Share Acquisition Deed and Share Sale and Purchase Deed, the composition of Mandiri Inhealth's shareholders has become IFG Life owning 80% of the shares and Bank Mandiri owning 20% of the shares. Thus, Bank Mandiri lost control over Mandiri Inhealth which resulted in Bank Mandiri derecognizing Mandiri Inhealth's net assets at their carrying value. The transfer of shares was previously approved through the Mandiri Inhealth General Meeting of Shareholders as stated in the Deed of Decision Statement of Mandiri Inhealth Shareholders No. 90, made before Mala Mukti S.H., LL.M., notary in Jakarta and the notification has been recorded in the Legal Entity Administration System of the Ministry of Law and Human Rights of the Republic of Indonesia according to letter dated 27 June 2024 No. AHU-AH.01.09-0219371.

The share transfer transaction of Mandiri Inhealth is a business combination of entity under common control where the ultimate shareholder of Mandiri Inhealth's shareholders, namely Bank Mandiri, Kimia Farma, and IFG Life, is the Government of the Republic of Indonesia. Therefore, the divestment transaction is recorded using the pooling of interest method in accordance with the Statement of Financial Accounting Standards ("SFAS") No. 338 (Revised 2014), "Business Combinations of Entity under Common Control".

The difference between the consideration received and the carrying amount of the investment from this transaction is recognised as "Difference in Value from Transactions of Business Combinations of Entity under Common Control" and presented as part of "Additional Paid-in Capital" in the equity section of the consolidated statement of financial position. The details of the consideration received and the carrying amount transferred are as follows:

After initial measurement, the value of the investment in Mandiri Inhealth is then adjusted by adding or subtracting Bank Mandiri's share of Mandiri Inhealth's profit or loss in accordance with PSAK No. 228 "Investments in Associates and Joint Ventures".

PT Mandiri Utama Finance

Pada tanggal 16 April 2014, Bank Mandiri bersama PT Asco Investindo ("ASCO") dan PT Tunas Ridean ("TURI"), telah menandatangani perjanjian kesepakatan awal untuk mendirikan sebuah perusahaan pembiayaan untuk mengakselerasi penyaluran pembiayaan Bank Mandiri khususnya pada segmen pembiayaan kendaraan bermotor.

Pada tanggal 22 Oktober 2014, Bank Mandiri bersama ASCO dan TURI telah menandatangani perjanjian pemegang saham dimana telah disepakati pendirian suatu perusahaan pembiayaan dengan modal dasar Rp400.000 dengan komposisi kepemilikan adalah Bank Mandiri (51%), ASCO (37%); dan TURI (12%). Selanjutnya, pada 23 Desember 2014 sebagaimana disebutkan dalam surat No. S-137/PB.31/2014, Bank Mandiri telah memperoleh izin prinsip penyertaan modal pada perusahaan pembiayaan baru tersebut dari OJK Pengawasan Bank.

Pada tanggal 21 Januari 2015, telah dilakukan penandatanganan akta pendirian Entitas Anak baru Bank Mandiri yang diberi nama PT Mandiri Utama Finance ("MUF") yang dituangkan dalam Akta Notaris Ashoya Ratam, S.H., M.Kn., No. 19 tanggal 21 Januari 2015 dan telah disahkan oleh Kementerian Hukum dan Hak Asasi Manusia Republik Indonesia dalam Surat Keputusan No. AHU-0003452.AH.01.01 Tahun 2015 tanggal 26 Januari 2015. Bersamaan dengan penandatanganan akta pendirian tersebut dilakukan penempatan modal sebesar Rp100.000 dan Bank Mandiri juga melakukan penyeteroran modal sebesar Rp51.000 sesuai dengan komposisi kepemilikan saham Bank Mandiri di MUF.

Pasca penandatanganan akta pendirian, MUF menyampaikan permohonan izin usaha perusahaan pembiayaan kepada OJK Industri Keuangan Non Bank ("OJK IKNB"). Atas permohonan tersebut, OJK IKNB telah menerbitkan Surat Keputusan Dewan Komisiner Otoritas Jasa Keuangan No. KEP-81/D.05/2015 tentang "Pemberian Izin Usaha Perusahaan Pembiayaan kepada PT Mandiri Utama Finance" pada tanggal 25 Juni 2015 yang disampaikan melalui surat OJK No. SR-3516/NB.111/2015 tanggal 26 Juni 2015 perihal "Pemberian Izin Usaha Perusahaan Pembiayaan PT Mandiri Utama Finance".

The number of Bank Mandiri employees as of 31 December 2024 was 38,898 persons (2023: 38,965 persons) (unaudited).

2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL

Laporan keuangan konsolidasian Bank dan Entitas Anak ("Grup") ini diselesaikan dan disetujui untuk diterbitkan oleh Direksi pada tanggal 5 Februari 2025.

Laporan keuangan konsolidasian disusun dan disajikan sesuai dengan Standar Akuntansi Keuangan di Indonesia yang mencakup Pernyataan dan Interpretasi yang dikeluarkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia dan Dewan Standar Akuntansi Syariah Ikatan Akuntan Indonesia serta peraturan regulator pasar modal yaitu Peraturan No. VIII.G.7 tentang Penyajian dan Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik.

a. Dasar penyusunan laporan keuangan konsolidasian

Kebijakan akuntansi utama yang diterapkan dalam penyusunan laporan keuangan konsolidasian Bank dan Entitas Anak adalah seperti dijabarkan di bawah ini.

Laporan keuangan konsolidasian disusun berdasarkan harga perolehan, kecuali untuk aset keuangan yang diklasifikasikan dalam kelompok nilai wajar melalui penghasilan komprehensif lain, aset dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi dan seluruh instrumen derivatif yang diukur berdasarkan nilai wajar. Laporan keuangan konsolidasian disusun berdasarkan akuntansi berbasis akrual, kecuali laporan arus kas konsolidasian.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The consolidated financial statements of Bank and its Subsidiaries ("Group") were completed and authorised for issuance by the Board of Directors on 5 February 2025.

The consolidated financial statements have been prepared and presented in accordance with the Indonesian Financial Accounting Standards which comprised of the Statements and Interpretations issued by the Board of Financial Accounting Standards of the Indonesian Institute of Accountants and Board of Sharia Accounting Standards of the Indonesian Institute of Accountants and capital market regulation No. VIII.G.7 regarding Financial Statements Presentation and Disclosure for Issuer or Public Companies.

a. Basis of preparation of the consolidated financial statements

The principal accounting policies adopted in preparing the consolidated financial statement of the Bank and Subsidiaries are set out below.

The consolidated financial statements have been prepared under the historical cost, except for financial assets classified as fair value through other comprehensive income, financial assets and liabilities measured at fair value through profit or loss and all derivative instruments which have been measured at fair value. The consolidated financial statement is prepared under the accrual basis of accounting, except for the consolidated statements of cash flows.

FINANCIAL STATEMENTS**

31 DECEMBER 2024 AND 2023

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

a. Dasar penyusunan laporan keuangan konsolidasian (lanjutan)

Laporan arus kas konsolidasian disusun dengan menggunakan metode langsung dengan mengelompokkan arus kas dalam aktivitas-aktivitas operasional, investasi dan pendanaan.

Pos-pos dalam penghasilan komprehensif lainnya disajikan terpisah antara akun-akun yang akan direklasifikasikan ke laba rugi dan akun-akun yang tidak akan direklasifikasikan ke laba rugi.

Laporan keuangan Entitas Anak yang bergerak dalam bidang perbankan syariah disusun berdasarkan PSAK 401 (Revisi 2019) tentang "Penyajian Laporan Keuangan Syariah", PSAK 402 (Revisi 2019) tentang "Akuntansi Murabahah", PSAK 404 (Revisi 2016) tentang "Akuntansi Istishna", PSAK 405 tentang "Akuntansi Mudharabah", PSAK 406 tentang "Akuntansi Musyarakah", PSAK 407 (Revisi 2021) tentang "Akuntansi Ijarah", PSAK 410 (Revisi 2015) tentang "Akuntansi Sukuk", PSAK 411 tentang "Akuntansi Wa'd", PSAK 412 Revisi (2021) tentang "Akuntansi Wakaf" dan PSAK lain selama tidak bertentangan dengan prinsip syariah dan Pedoman Akuntansi Perbankan Syariah Indonesia (PAPSI) (Revisi 2013).

Penyusunan laporan keuangan sesuai dengan Standar Akuntansi Keuangan di Indonesia mengharuskan penggunaan estimasi dan asumsi. Hal tersebut juga mengharuskan manajemen untuk membuat pertimbangan dalam proses penerapan kebijakan akuntansi Grup. Area yang kompleks atau memerlukan tingkat pertimbangan yang lebih tinggi atau area di mana asumsi dan estimasi dapat berdampak signifikan terhadap laporan keuangan konsolidasian diungkapkan di Catatan 3.

Seluruh angka dalam laporan keuangan konsolidasian ini, dibulatkan dan disajikan dalam jutaan Rupiah ("Rp"), kecuali dinyatakan lain.

b. Perubahan kebijakan akuntansi

Kecuali dinyatakan di bawah ini, kebijakan akuntansi pada dan untuk tahun yang berakhir pada tanggal 31 Desember 2024 telah diterapkan secara konsisten dengan laporan keuangan konsolidasian Grup untuk tahun yang berakhir tanggal 31 Desember 2023 yang telah sesuai dengan Standar Akuntansi Keuangan di Indonesia.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

a. Basis of preparation of the consolidated financial statements (continued)

Consolidated statements of cash flows are prepared using the direct method by classifying cash flows in operating, investing and financing activities.

Items within other comprehensive income are classified separately, between accounts which will be reclassified to profit or loss and will not be reclassified to profit or loss.

The financial statement of a Subsidiary engaged in sharia banking have been prepared based on with the Statement of Financial Accounting Standards (SFAS) No. 401 (Revised 2016), "Presentation of Financial Statements for Sharia Banking", SFAS No. 402 (Revised 2019) "Accounting for Murabahah", SFAS No. 404 (Revised 2016) "Accounting for Istishna", SFAS No. 405 "Accounting for Mudharabah", SFAS No. 406 "Accounting for Musyarakah", SFAS No. 407 (Revised 2021) "Accounting for Ijarah", SFAS No. 410 (Revised 2015) "Accounting for Sukuk", SFAS No. 411 "Accounting for Wa'd", SFAS No. 412 (Revised 2021) "Accounting for Wakaf" and other prevailing Statement of Financial Accounting Standards, as long as it does not contradict with Sharia principle on Accounting Guidelines for Indonesian Sharia Banking (PAPSI) (Revised 2013).

The preparation of financial statements in accordance with Indonesian Financial Accounting Standards that requires the use of estimates and assumptions. It also requires management to make judgements in the process of applying the accounting policies of the Group. The area that is complex or requires a higher level of consideration or areas where assumptions and estimates could have a significant impact on the consolidated financial statements is disclosed in Note 3.

All figures in the consolidated financial statements, are rounded and presented in millions Rupiah ("Rp"), unless otherwise stated.

b. Changes in accounting policies

Unless stated below, the accounting policies for the year ended 31 December 2024 have been applied consistently with the Group consolidated financial statements for the year ended 31 December 2023 which are in accordance with Indonesian Financial Accounting Standards.

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

b. Perubahan kebijakan akuntansi (lanjutan)

Pada tanggal 1 Januari 2024, terdapat standar baru dan penyesuaian atau amendemen terhadap beberapa standar yang masih berlaku yang relevan dengan operasi Grup yang berlaku efektif sejak tanggal tersebut yaitu sebagai berikut:

- Kerangka Standar Pelaporan Keuangan Indonesia ("KSPKI") dan perubahan nomor PSAK dan ISAK dalam Standar Akuntansi Keuangan Indonesia (sebelumnya Standar Akuntansi Keuangan). KSPKI mengatur pilar SAK yang berlaku di Indonesia, kriteria, dan perpindahan antar pilar SAK, sedangkan perubahan nomor mengatur ketentuan penomoran PSAK dan ISAK yang mengacu pada *IFRS Accounting Standards*, lokal, dan syariah.
- Amendemen PSAK 201 tentang "Penyajian Laporan Keuangan" terkait "Liabilitas Jangka Panjang dengan Kovenan". Penerapan amendemen tersebut sesuai dengan perubahan tanggal berlaku efektifnya Amendemen PSAK 201 tentang "Penyajian Laporan Keuangan" terkait "Klasifikasi Liabilitas sebagai Jangka Pendek atau Jangka Panjang" yang sebelumnya berlaku efektif sejak 1 Januari 2023 menjadi 1 Januari 2024. Amendemen tersebut menentukan persyaratan untuk mengklasifikasikan kewajiban sebagai lancar atau tidak lancar.
- Amendemen PSAK 116 tentang "Sewa" terkait Liabilitas Sewa dalam Jual dan Sewa-Balik. Amendemen tersebut mengadopsi seluruh pengaturan dalam Amendemen IFRS 16 tentang "Lease" terkait "Lease Liability in a Sale and Leaseback".
- Amendemen PSAK 207 dan PSAK 107 tentang pengaturan pembiayaan pemasok. Amendemen PSAK 207 dan PSAK 107 merujuk pada seluruh pengaturan dalam amendemen ke IAS 7 dan IFRS 7 tentang "Supplier Finance Arrangements".

Dampak atas penerapan standar baru dan penyesuaian atau amendemen tersebut di atas tidak material terhadap laporan keuangan konsolidasian Grup.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

b. Changes in accounting policies (continued)

On 1 January 2024, there are new and revised or amendment towards several standards that are relevant to the Group operation which is effective for application from that date as follows:

- *Indonesia Financial Reporting Standard Framework ("KSPKI") and amendment to SFAS and IFAS number. KSPKI regulate the SFAS pillars, criteria and shifting between pillars that apply in Indonesia, while amendment to SFAS and IFAS number determine the number for SFAS and IFAS which refering to IFRS Accounting Standards, local accounting standards, and sharia accounting standards.*
- *Amendments to SFAS No. 201 on "Presentation of Financial Statements" regarding "Non-Current Liabilites with Covenant". The implementation in accordance with the amended effective date of SFAS No. 201 Amendments on "Presentation of Financial Statements" for "Classification of Liabilites as Current or Non-current" from effective on 1 January 2023 to 1 January 2024. This amendment determine the requirements to classify liabilities as current liabilities or non current liabilities.*
- *Amendments to SFAS No. 116 on "Lease" for Lease Liability in a Sale and Leaseback. This amendment adopts all the regulations in IFRS 16 Amendment on "Lease" regarding "Lease Liability in a Sale and Leaseback".*
- *Amendments to SFAS No. 207 and SFAS No. 107 on "Supplier Financing And Revenue Recognition". Amendments to SFAS No. 207 and SFAS No. 107 refer to all arrangements in the amendments to IAS 7 and IFRS 7 regarding "Supplier Finance Arrangements."*

The impact of the implementation of the new standards and the adjustments/amendments mentioned above are not material to the Group's consolidated financial statements.

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

c. Instrumen keuangan

A. Aset keuangan

Grup mengklasifikasikan aset keuangannya dalam kategori (a) aset keuangan yang diukur pada nilai wajar melalui laba rugi, (b) aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan (c) aset keuangan yang diukur pada biaya perolehan diamortisasi.

Grup memiliki instrumen keuangan utang dan instrumen keuangan ekuitas. Grup selanjutnya mengukur semua investasi ekuitas pada nilai wajar. Saat pengakuan awal, Grup dapat membuat pilihan yang tak terbatal untuk menyajikan perubahan selanjutnya pada nilai wajar investasi dalam instrumen ekuitas dalam penghasilan komprehensif lain.

Grup menggunakan 2 (dua) dasar untuk mengklasifikasikan aset keuangan yaitu model bisnis Grup dalam mengelola aset keuangan dan karakteristik arus kas kontraktual pembayaran pokok dan bunga (*Solely Payment of Principal and Interest* ("SPPI")) dari aset keuangan.

Pengujian SPPI

Sebagai langkah pertama dari proses klasifikasi, Grup menilai persyaratan kontraktual keuangan untuk mengidentifikasi apakah mereka memenuhi pengujian SPPI.

Pokok pinjaman untuk tujuan pengujian ini didefinisikan sebagai nilai wajar dari aset keuangan pada pengakuan awal dan dapat berubah selama umur aset keuangan (misalnya, jika ada pembayaran pokok atau amortisasi premi/diskon).

Elemen bunga yang paling signifikan dalam perjanjian kredit biasanya adalah pertimbangan atas nilai waktu dari uang dan risiko kredit. Untuk membuat penilaian SPPI, Grup menerapkan pertimbangan dan memperhatikan faktor-faktor yang relevan seperti mata uang dimana aset keuangan didenominasikan dan periode pada saat suku bunga ditetapkan.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments

A. Financial assets

The Group classified its financial assets in the following categories (a) financial assets measured at fair value through profit or loss, (b) financial assets measured at fair value through other comprehensive income, and (c) financial assets measured at amortised cost.

The Group has debt financial instruments and equity financial instruments. The Group further measures all equity investments at fair value. On initial recognition, the Group may make an irrevocable choice to subsequent changes in the fair value of investments in equity instruments in other comprehensive income.

The Group used 2 (two) methods to classify its financial assets, which based on the Group's business model in managing the financial asset, and the contractual cash flow of the financial assets Solely Payment of Principal and interest ("SPPI").

SPPI test

As a first step of its classification process, the Group assesses the contractual terms of financial to identify whether they meet the SPPI test.

Principal, for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

The most significant element of interest within a credit contract are typically the consideration for the time value of money and credit risk. To perform the SPPI assessment, the Group applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

c. Instrumen keuangan (lanjutan)

A. Aset keuangan (lanjutan)

Penilaian model bisnis

Grup menentukan model bisnisnya berdasarkan tingkat yang paling mencerminkan bagaimana Grup mengelola kelompok atas aset keuangannya untuk mencapai tujuan bisnisnya.

Model bisnis Grup tidak dinilai berdasarkan masing-masing instrumennya, tetapi pada tingkat portofolio secara agregat yang lebih tinggi dan didasarkan pada faktor-faktor yang dapat diamati seperti:

- Bagaimana kinerja model bisnis dan aset keuangan yang dimiliki dalam model bisnis tersebut dievaluasi dan dilaporkan kepada personel manajemen kunci;
- Risiko yang mempengaruhi kinerja model bisnis (dan aset keuangan yang dimiliki dalam model bisnis tersebut) dan khususnya, bagaimana cara risiko tersebut dikelola;
- Bagaimana manajer bisnis dikompensasi (misalnya, apakah kompensasi didasarkan pada nilai wajar dari aset yang dikelola atau pada arus kas kontraktual yang tertagih);
- Frekuensi, nilai dan waktu penjualan yang diharapkan, juga merupakan aspek penting dari penilaian Grup.

Penilaian model bisnis didasarkan pada skenario yang diharapkan secara wajar tanpa mempertimbangkan skenario "worst case" atau "stress case". Jika arus kas setelah pengakuan awal direalisasikan dengan cara yang berbeda dari yang awal diharapkan, Grup tidak mengubah klasifikasi aset keuangan dimiliki yang tersisa dalam model bisnis tersebut, tetapi memasukkan informasi tersebut dalam melakukan penilaian atas aset keuangan yang baru atau yang baru dibeli selanjutnya.

- (a) Aset keuangan yang diukur pada nilai wajar melalui laba rugi

Aset keuangan diukur pada nilai wajar melalui laba rugi kecuali tes model bisnis dan tes arus kas kontraktual menunjukkan bahwa aset keuangan masuk ke dalam klasifikasi diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

A. Financial assets (continued)

Business model assessment

The Group determines its business model at the level that best reflects how the group manages a group of financial assets to achieve its business objective.

The Group's business model is not assessed by each instrument, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular the way those risks are managed;
- How business managers are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected);
- The expected frequency, value, and timing of sales are also important aspects of the Group's assessment.

The business model assessment is based on reasonably expected scenarios without taking "worst case" or "stress case" scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Group's initial expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

- (a) Financial assets measured at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless the business model test and the contractual cash flow test show that financial assets entering into classifications are measured at amortised cost or fair value through other comprehensive income.

c. Instrumen keuangan (lanjutan)

A. Aset keuangan (lanjutan)

Penilaian model bisnis (lanjutan)

- (a) Aset keuangan yang diukur pada nilai wajar melalui laba rugi (lanjutan)

Klasifikasi ini ditujukan untuk instrumen keuangan yang dimiliki untuk diperdagangkan atau pada saat pengakuan awal telah ditetapkan oleh Grup untuk diukur pada nilai wajar melalui laba rugi.

Aset keuangan dikategorikan sebagai dimiliki untuk diperdagangkan jika diperoleh atau dimiliki terutama untuk tujuan dijual atau dibeli kembali dalam waktu dekat atau jika merupakan bagian dari portofolio instrumen keuangan tertentu yang dikelola bersama dan terdapat bukti mengenai pola ambil untung dalam jangka pendek yang terkini.

Untuk entitas anak asuransi, aset keuangan dikategorikan sebagai aset keuangan diukur pada nilai wajar melalui laba rugi, jika dimiliki untuk mencadangkan liabilitas asuransi yang diukur pada nilai wajar dari aset terkait. Instrumen keuangan yang dikelompokkan ke dalam kategori ini diakui pada nilai wajarnya pada saat pengakuan awal. Biaya transaksi diakui secara langsung ke dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Keuntungan dan kerugian yang timbul dari perubahan nilai wajar, penjualan instrumen keuangan dan pendapatan bunga dari instrumen keuangan dalam kelompok nilai wajar melalui laba rugi dicatat di akun pendapatan dari kelompok nilai wajar melalui laba rugi - neto pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

- (b) Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain

Aset keuangan dikelola dalam model bisnis yang tujuannya akan terpenuhi dengan mendapatkan arus kas kontraktual dan menjual aset keuangan dan persyaratan kontraktual dari aset keuangan yang pada tanggal tertentu memperoleh arus kas yang semata dari pembayaran pokok dan bunga (*solely payments of principal and interest*) dari jumlah pokok terutang.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

A. Financial assets (continued)

Business model assessment (continued)

- (a) Financial assets measured at fair value through profit or loss (continued)

This classification is intended for held for trading financial instruments or at the time of initial recognition has been determined by the Group to be measured at fair value through profit or loss.

A financial asset is classified as held for trading, if it has been acquired or held principally for the purpose of selling or buying in the near term or on initial recognition it is part of a portfolio of identified financial instruments that the entity manages together and has a recent actual pattern of short-term profit-taking.

Financial assets for subsidiary in insurance industry classified at fair value through profit or loss if the financial assets are held to cover its insurance liabilities which measure at fair value of the underlying assets. Financial instruments classified into this category are recognised at fair value on initial recognition, transaction costs are recognised directly in the consolidated statements of profit or loss and other comprehensive income.

Gains and losses arising from changes in fair value, sale of financial instruments and interest income on financial instruments measured at fair value through profit or loss are recognised in the consolidated statements of profit or loss and other comprehensive income recorded as income from fair value through profit or loss classification - net.

- (b) Financial assets measured at fair value through other comprehensive income

Financial assets are managed in a business model which objectives will be fulfilled by obtaining contractual cash flows and selling financial assets and contractual requirements of financial assets which on a certain date received cash flow solely from payment of principal and interest of the amount owed.

(lanjutan)**

c. Instrumen keuangan (lanjutan)

A. Aset keuangan (lanjutan)

Penilaian model bisnis (lanjutan)

- (b) Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain (lanjutan)

Pada saat pengakuan awalnya, instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain diakui pada nilai wajarnya ditambah biaya transaksi dan selanjutnya diukur pada nilai wajarnya dimana keuntungan atau kerugian atas perubahan nilai wajar, keuntungan atau kerugian atas selisih kurs dan kerugian penurunan nilai, diakui sebagai penghasilan komprehensif lain. Dividen dari instrumen ekuitas diakui di dalam pos laba rugi.

Kerugian kredit ekspektasian diakui sebagai penambah dari penghasilan komprehensif lain di dalam laporan posisi keuangan (tidak mengurangi jumlah tercatat aset keuangan dalam laporan keuangan). Pendapatan bunga dihitung menggunakan metode suku bunga efektif.

Grup selanjutnya mengukur semua investasi ekuitas pada nilai wajar. Jika manajemen Grup telah memilih untuk menyajikan keuntungan dan kerugian nilai wajar atas investasi ekuitas dalam penghasilan komprehensif lain, tidak ada reklasifikasi keuntungan dan kerugian nilai wajar ke laba rugi setelah penghentian pengakuan investasi tersebut. Dividen dari instrumen ekuitas diakui di dalam pos laba rugi.

- (c) Aset keuangan yang diukur pada biaya perolehan diamortisasi

Aset keuangan diukur pada biaya perolehan diamortisasi jika aset keuangan dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual dan persyaratan kontraktual dari aset keuangan yang pada tanggal tertentu memperoleh arus kas semata dari pembayaran pokok dan bunga (*solely payments of principal and interest*) dari jumlah pokok terutang.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

A. Financial assets (continued)

Business model assessment (continued)

- (b) Financial assets measured at fair value through other comprehensive income (continued)

At the initial recognition, debt instruments measured at fair value through other comprehensive income are recognised at the fair value plus the transaction costs and subsequently measured at fair value where the gain or loss from changes in fair value, gain or loss from the exchange rate, and impairment, are recognised as other comprehensive income. Dividend from equity instrument is recognised in profit or loss.

Expected credit losses are recognised as additions of other comprehensive income in the statement of financial position (not reducing the number of recorded financial assets in financial statements). Interest income is calculated using the effective interest rate method.

The Group further measures all equity investments at fair value. If Group management has chosen to present fair value gains and losses on equity investments in other comprehensive income, there is no reclassification of fair value gains and losses to profit or loss upon derecognition of those investments. Dividends from equity instruments are recognised in profit or loss.

- (c) Financial assets measured at amortised cost

Financial assets are measured at amortised cost if the financial asset is managed in a business model to obtain a contractual cash flow and the contractual arrangement of a financial asset at certain date to obtain cash flow solely from payments of principal and interest of the amount owed.

(lanjutan)**

c. Instrumen keuangan (lanjutan)

A. Aset keuangan (lanjutan)

Penilaian model bisnis (lanjutan)

(c) Aset keuangan yang diukur pada biaya perolehan diamortisasi (lanjutan)

Pada saat pengakuan awal, aset keuangan yang diukur pada biaya perolehan diamortisasi diakui pada nilai wajarnya ditambah biaya transaksi dan selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan suku bunga efektif.

Pendapatan bunga dari aset keuangan yang diukur pada biaya perolehan diamortisasi dicatat dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian dan diakui sebagai "Pendapatan bunga". Ketika penurunan nilai terjadi, kerugian penurunan nilai diakui sebagai pengurang dari nilai tercatat aset keuangan dan diakui di dalam laporan keuangan konsolidasian sebagai "Pembentukan cadangan kerugian penurunan nilai".

Pengakuan

Bank menggunakan akuntansi tanggal perdagangan untuk mencatat transaksi efek-efek dan obligasi pemerintah.

B. Liabilitas keuangan

Grup mengklasifikasikan liabilitas keuangan dalam kategori (a) liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi dan; (b) liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

(a) Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi

Kategori ini terdiri dari dua sub-kategori: liabilitas keuangan diklasifikasikan sebagai nilai wajar melalui laba rugi dan liabilitas keuangan yang pada saat pengakuan awal telah ditetapkan oleh Grup untuk diukur pada nilai wajar melalui laba rugi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

A. Financial assets (continued)

Business model assessment (continued)

(c) Financial assets measured at amortised cost (continued)

At initial recognition, the financial assets measured at amortised cost are recognised at the fair value plus the transaction costs and subsequently measured at amortised cost by using the effective interest rate.

Interest income from financial assets measured at amortised cost is recorded in the consolidated statements of profit or loss and other comprehensive income and is recognised as "Interest income". When the decline in value occurs, the impairment loss is recognised as a deduction to the carrying amount of the financial asset and is recognised in the financial statements as "Allowance for impairment losses".

Recognition

The Bank use transactions date record to transactions in securities and government bonds.

B. Financial liabilities

The Group classifies its financial liabilities into the category of (a) financial liabilities measured at fair value through profit or loss and; (b) financial liabilities measured at amortised cost.

(a) Financial liabilities measured at fair value through profit or loss

This category comprises of two sub-categories: financial liabilities classified as fair value through profit or loss and financial liabilities designated by the Group as at fair value through profit or loss upon initial recognition.

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

c. Instrumen keuangan (lanjutan)

B. Liabilitas keuangan (lanjutan)

- (a) Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi (lanjutan)

Liabilitas keuangan diklasifikasikan sebagai nilai wajar melalui laba rugi jika diperoleh terutama untuk tujuan dijual atau dibeli kembali dalam waktu dekat atau jika merupakan bagian dari portofolio instrumen keuangan tertentu yang dikelola bersama dan terdapat bukti mengenai pola ambil untung dalam jangka pendek yang terkini. Derivatif diklasifikasikan sebagai liabilitas nilai wajar melalui laba rugi kecuali ditetapkan dan efektif sebagai instrumen lindung nilai arus kas.

Keuntungan dan kerugian yang timbul dari perubahan nilai wajar liabilitas keuangan yang diklasifikasikan sebagai nilai wajar melalui laba rugi dicatat dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian sebagai pendapatan dari kelompok nilai wajar melalui laba rugi - neto. Beban bunga dari liabilitas keuangan diklasifikasikan sebagai nilai wajar melalui laba rugi dicatat di akun pendapatan dari kelompok nilai wajar melalui laba rugi - neto.

Jika Grup pada pengakuan awal telah menetapkan instrumen utang tertentu sebagai nilai wajar melalui laba rugi (opsi nilai wajar), maka selanjutnya, penetapan ini tidak dapat diubah.

Perubahan nilai wajar terkait dengan liabilitas keuangan yang ditetapkan untuk diukur pada nilai wajar melalui laba rugi diakui di dalam pendapatan dari kelompok nilai wajar melalui laba rugi - neto. Beban bunga dari liabilitas keuangan yang ditetapkan untuk diukur pada nilai wajar melalui laba rugi dicatat di akun pendapatan dari kelompok nilai wajar melalui laba rugi - neto.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

B. Financial liabilities (continued)

- (a) Financial liabilities measured at fair value through profit or loss (continued)

A financial liability is classified as fair value through profit or loss, if it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term or if it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. Derivatives are also categorised as fair value through profit or loss liabilities unless they are designated and effective as hedging instruments.

Gains and losses arising from changes in fair value of financial liabilities classified as fair value through profit or loss are recorded in the consolidated statements of profit or loss and other comprehensive income as income from fair value through profit or loss - net. Interest expense from financial liability classified as trading are recorded as income from fair value through profit or loss - net.

If the Group designated certain debt securities upon initial recognition as at fair value through profit or loss (fair value option), then this designation cannot be changed subsequently.

Changes of fair value related to financial liabilities designated at fair value through profit or loss are recognised in income from fair value through profit or loss - net. Interest expense from financial liabilities designated at fair value through profit or loss are recorded as income from fair value through profit or loss - net.

FINANCIAL STATEMENTS
31 DECEMBER 2024 AND 2023**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

c. Instrumen keuangan (lanjutan)

B. Liabilitas keuangan (lanjutan)

(b) Liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi

Grup mengklasifikasikan seluruh liabilitas keuangan sehingga setelah pengakuan awal liabilitas keuangan diukur pada biaya perolehan diamortisasi, kecuali:

1. Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi;
2. Liabilitas keuangan yang timbul ketika pengalihan aset keuangan tidak memenuhi syarat penghentian pengakuan atau ketika pendekatan keterlibatan berkelanjutan diterapkan;
3. Kontrak jaminan keuangan;
4. Komitmen untuk menyediakan pinjaman dengan suku bunga di bawah pasar;
5. Imbalan kontijensi yang akan diselesaikan dengan kas, dimana Grup bertindak selaku pihak pengakuisisi dalam kombinasi bisnis.

Pada saat pengakuan awal, liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi diukur pada nilai wajar dikurangi biaya transaksi. Setelah pengakuan awal, Grup mengukur seluruh liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Amortisasi suku bunga efektif diakui sebagai "Beban bunga".

C. Penghentian pengakuan

Penghentian Pengakuan Aset Keuangan

Penghentian pengakuan aset keuangan dilakukan ketika hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir, atau ketika aset keuangan tersebut telah ditransfer dan secara substansial seluruh risiko dan manfaat atas kepemilikan aset tersebut telah ditransfer (jika, secara substansial seluruh risiko dan manfaat tidak ditransfer, maka Grup melakukan evaluasi untuk memastikan keterlibatan berkelanjutan atas kendali yang masih dimiliki tidak mencegah penghentian pengakuan).

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

B. Financial liabilities (continued)

(b) Financial liabilities at amortised cost

The Group classifies all financial liabilities after initial recognition as measured at amortised cost, except:

1. *Financial liabilities measured at fair value through profit or loss;*
2. *Financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach is applied;*
3. *Financial guarantee contracts;*
4. *Commitment to provide loans at below market interest rates;*
5. *Contingent reward recognised by the acquirer in the business combination.*

At initial recognition, financial liabilities at amortised cost measured at fair value are deducted by transaction cost. After initial recognition, the Group measures all financial liabilities at amortised cost using the effective interest rate method. Effective interest rate amortisation is recognised as "Interest expense".

C. Derecognition

Derecognition of Financial Assets

Financial assets are derecognised when the contractual rights to receive the cash flows from these assets have expired or matured or the assets have been transferred and substantially all the risks and rewards of ownership of the assets are also transferred (if substantially all the risks and rewards have not been transferred, the Group evaluates to ensure that continuing involvement on the basis of any retained powers of control does not prevent derecognition).

**PT BANK MANDIRI (PERSERO) Tbk.
DAN ENTITAS ANAKNYA/AND ITS SUBSIDIARIES**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2024 AND 2023

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

c. Instrumen keuangan (lanjutan)

C. Penghentian pengakuan (lanjutan)

**Penghentian Pengakuan Aset Keuangan
(lanjutan)**

Agunan yang diserahkan oleh Grup di dalam perjanjian efek-efek yang dijual dengan janji untuk dibeli kembali dan transaksi *securities lending* dan *borrowing* tidak dihentikan pengakuannya karena Grup secara substansial masih memiliki seluruh risiko dan manfaat atas agunan tersebut, berdasarkan kesepakatan bahwa harga pembelian kembali telah ditentukan di awal, sehingga kriteria penghentian pengakuan tidak terpenuhi.

Aset keuangan yang dialihkan kepada pihak ketiga tetapi tidak memenuhi syarat penghentian pengakuan disajikan di dalam laporan posisi keuangan konsolidasian sebagai "Aset lain-lain - Tagihan atas efek-efek dan obligasi pemerintah yang diagunkan", dimana pihak penerima memiliki hak untuk menjual atau mentransfer kembali.

**Penghentian Pengakuan Liabilitas
Keuangan**

Penghentian pengakuan liabilitas keuangan dilakukan jika liabilitas keuangan tersebut telah berakhir karena kewajiban yang ditetapkan dalam kontrak telah dilepaskan, dibatalkan atau kedaluwarsa atau apabila terdapat perubahan yang substansial dalam persyaratan suatu liabilitas keuangan, maka kontrak liabilitas keuangan sebelum perubahan akan dihapus dan Grup akan mengakui liabilitas keuangan baru.

Hapusbuku

Dalam hal penghapusbukuan aset keuangan merupakan kelanjutan dari tindakan penyelesaian aset keuangan dengan cara pengambilalihan agunan, maka jumlah yang dihapusbuku adalah sebesar selisih kurang antara nilai wajar agunan yang diambil alih setelah memperhitungkan taksiran biaya penjualan dengan nilai tercatat aset keuangan.

Aset keuangan dapat dihapusbuku apabila cadangan kerugian penurunan nilai telah dibentuk 100%.

Penghapusbukuan dilakukan secara keseluruhan terhadap nilai tercatat aset keuangan dengan mendebit cadangan kerugian penurunan nilai.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

C. Derecognition (continued)

**Derecognition of Financial Assets
(continued)**

Collateral that is submitted by the Group under the agreement of securities sold under agreements to repurchase and securities lending and borrowing transactions are not derecognised because the Group substantially has all the risks and benefits of the collateral, based on the requirement that the repurchase price that has been determined at the beginning, so that the criteria for derecognition are not met.

Financial assets that are transferred to third parties but do not qualify for derecognition criteria are presented in the consolidated statements of financial position as "Other assets - Receivables from securities and government bonds pledged as collateral", which the recipient has the right to sell or transfer back.

Derecognition of Financial Liabilities

Financial liabilities are derecognised when the financial liabilities have expired because the obligations specified in the contract have been released, canceled or expired or if there is a substantial change in the terms of a financial liability, the financial liability contract before the change will be written off and the Group will recognize the new financial liability.

Write-offs

In the case of financial assets' write-off is a continuation of the financial assets' settlement by taking over collaterals, the written-off amount is approximately equal to the difference between the fair value of repossessed assets after taking into account the financial assets' cost of sales and carrying amount.

Financial assets can be written-off when the allowance for impairment losses have been 100% established.

Full write-off is done to the financial assets' carrying amount by debiting the allowance for impairment losses.

(lanjutan)**

c. Instrumen keuangan (lanjutan)

D. Modifikasi atas arus kas aset keuangan

Penilaian apakah modifikasi atau restrukturisasi atas suatu aset keuangan menghasilkan atau tidak menghasilkan penghentian pengakuan, dilakukan oleh unit bisnis yang berwenang melakukan restrukturisasi aset keuangan tersebut.

Grup mengakui aset keuangan dimodifikasi atau direstrukturisasi secara substansial dan menghasilkan penghentian pengakuan ketika:

- (a) aset keuangan (atau bagiannya) berakhir, yaitu jika debitur secara hukum dibebaskan dari tanggung jawab utama atas aset tersebut (atau bagiannya), baik melalui proses hukum maupun oleh kreditur pembuatan kontrak kredit baru (sebagai contoh, opsi *equity conversion*); atau
- (b) terdapat konversi mata uang.

Grup menilai apakah modifikasi atau restrukturisasi atas suatu aset keuangan menghasilkan atau tidak menghasilkan penghentian pengakuan dengan cara berikut:

- (a) Modifikasi aset keuangan yang menghasilkan penghentian pengakuan aset keuangan
1. Saat arus kas kontraktual atas aset keuangan direstrukturisasi atau dimodifikasi (antara lain ketika kredit direstrukturisasi) dimana restrukturisasi atau modifikasi tersebut menghasilkan penghentian pengakuan aset keuangan, Grup akan mencatat aset keuangan tersebut sebagai aset keuangan baru/modifikasian pada tanggal modifikasi/restrukturisasi.
 2. Selisih nilai tercatat aset keuangan sebelum modifikasi/restrukturisasi dengan nilai wajar aset setelah modifikasi/restrukturisasi diakui di laba rugi.
 3. Pendapatan atau biaya transaksi yang terjadi sehubungan dengan kejadian modifikasi diakui sebagai bagian dari keuntungan atau kerugian atas modifikasi tersebut.
 4. Grup melakukan penilaian apakah aset keuangan baru/modifikasian merupakan aset yang berasal dari aset keuangan memburuk atau *Purchased or Originated Credit-Impaired ("POCI") Financial Asset*.
 5. Pengakuan pendapatan bunga atas aset yang berasal dari aset keuangan memburuk ditentukan berdasarkan suku bunga efektif yang telah disesuaikan dengan risiko kredit (*risk-adjusted effective interest rate*) untuk mendiskontokan arus kas aset keuangan yang telah dimodifikasi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

D. Modification of financial assets cash flow

An assessment of whether a financial asset has been modified or restructured substantially or not substantially derecognised is carried out by a business unit whose authorised to modify or restructure financial assets.

Modifications or restructuring to financial assets are considered substantial and the Group will cease to recognize the original financial assets when:

- (a) the financial asset (or portion thereof) expires, that is, if the debtor is legally released from primary responsibility for the asset (or any portion thereof), either by legal process or by the creditor entering into a new credit contract (for example, the equity conversion option); or
- (b) there is a currency conversion.

The Group will measure the substantially and not substantially modified financial assets as follows:

- (a) *Substantial Modification of Financial Assets*
1. When the contractual cashflow on a financial asset is restructured or modified (including when a credit is restructured) and the restructuring or modification results in derecognition of the financial asset, therefore the Group will record the financial asset as a new/modified financial asset on the modification/restructuring date.
 2. The difference between the gross amount of the initial financial assets and the fair value of the modified or restructuring assets recorded as profit or loss.
 3. Transaction income or costs incurred in connection with a modification event recognised as part of gain or loss on the modification.
 4. Group assess whether new/modified financial assets are assets originating from impaired financial assets or *Purchased or Originated Credit-Impaired ("POCI") Financial Asset*.
 5. Recognition of interest income on assets originating from Impaired financial assets is calculated based on an effective interest rate adjusted for credit risk (*risk-adjusted effective interest rate*) to discount the cash flows of modified financial assets.

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

c. Instrumen keuangan (lanjutan)

**D. Modifikasi atas arus kas aset keuangan
(lanjutan)**

Grup menilai apakah modifikasi atau restrukturisasi atas suatu aset keuangan menghasilkan atau tidak menghasilkan penghentian pengakuan dengan cara berikut (lanjutan):

(b) Modifikasi aset keuangan yang tidak menghasilkan penghentian pengakuan aset keuangan

1. Saat Grup melakukan renegotiasi atau modifikasi arus kas kontraktual atas aset keuangan (antara lain ketika kredit direstrukturisasi) yang tidak memenuhi kriteria modifikasi aset keuangan yang substansial di atas, maka restrukturisasi atau modifikasi tersebut tidak menghasilkan penghentian pengakuan aset keuangan.
2. Jumlah tercatat bruto aset keuangan dihitung sebesar nilai kini (*net present value*) dari arus kas neto kontraktual yang telah dimodifikasi atau direstrukturisasi yang didiskontokan menggunakan suku bunga efektif awal.
3. Grup kemudian mengakui keuntungan atau kerugian dari modifikasi (yaitu sebesar perubahan jumlah tercatat bruto aset keuangan) dalam laporan laba rugi.
4. Pendapatan atau biaya transaksi yang terjadi sehubungan dengan kejadian modifikasi diakui sebagai penyesuaian terhadap jumlah tercatat aset keuangan yang telah dimodifikasi dan diamortisasi selama sisa jangka waktu aset keuangan modifikasian tersebut dengan menggunakan suku bunga efektif awal.
5. Selisih antara jumlah tercatat bruto aset keuangan sebelum dan sesudah modifikasi atau restrukturisasi diakui sebagai kerugian atau keuntungan aset keuangan modifikasian, yang merupakan penyesuaian terhadap jumlah tercatat bruto awal dan diamortisasi selama sisa jangka waktu aset keuangan dengan menggunakan suku bunga efektif awal (*unwinding interest*).

E. Reklasifikasi aset keuangan

Grup diperkenankan untuk melakukan reklasifikasi atas aset keuangan yang dimiliki jika Grup mengubah model bisnis untuk pengelolaan aset keuangan dan Grup tidak diperkenankan untuk melakukan reklasifikasi atas liabilitas keuangan.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

**D. Modification of financial assets cash flow
(continued)**

The Group will measure the substantially and not substantially modified financial assets as follows (continued):

(b) *Non-Substantial Modification of Financial Assets*

1. *When the Group renegotiates or modifies contractual cash flows of financial assets (including when loans are restructured) that do not meet the criteria for substantial modification of financial assets above, the restructuring or modification does not result in derecognition of the financial assets.*
2. *The gross carrying amount of financial assets is computed at the net present value of modified or restructured contractual cash flows, discounted at the initial effective interest rate.*
3. *The Group then recognizes the gain or loss from the modification (i.e the change in the gross carrying amount of the financial asset) in the profit or loss.*
4. *Transaction income or costs incurred in connection with a modification event are recognised as an adjustment to the carrying amount of the modified financial asset and amortised over the remaining term of the modified financial asset using the initial effective interest rate.*
5. *The difference between the gross carrying amount of a financial asset before and after modification or restructuring is recognised as a gain or loss of the modified financial asset, which is an adjustment to the initial gross carrying amount and is amortised over the remaining term of the financial asset using the initial effective interest rate (unwinding interest).*

E. Reclassification of financial assets

The Group is allowed to reclassify the financial assets owned if the Group changes the business model for managing the financial assets and the Group is not allowed to reclassify the financial liabilities.

**PT BANK MANDIRI (PERSERO) Tbk.

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

c. Instrumen keuangan (lanjutan)

E. Reklasifikasi aset keuangan (lanjutan)

Perubahan model bisnis sifatnya harus berdampak secara signifikan terhadap kegiatan operasional Grup seperti memperoleh, melepaskan, atau mengakhiri suatu lini bisnis. Selain itu, Grup perlu membuktikan adanya perubahan tersebut kepada pihak eksternal.

Grup akan mereklasifikasi seluruh aset keuangan yang terkena dampak dari perubahan model bisnis. Perubahan tujuan model bisnis Grup harus berdampak sebelum tanggal reklasifikasi.

Yang bukan merupakan perubahan model bisnis adalah:

- (a) perubahan intensi berkaitan dengan aset keuangan tertentu (bahkan dalam situasi perubahan signifikan dalam kondisi pasar).
- (b) hilangnya sementara pasar tertentu untuk aset keuangan.
- (c) pengalihan aset keuangan antara bagian dari Grup dengan model bisnis berbeda.

Dampak reklasifikasi aset keuangan

Grup menerapkan reklasifikasi secara prospektif dari tanggal reklasifikasi. Grup tidak menyajikan kembali keuntungan, kerugian (termasuk keuntungan atau kerugian penurunan nilai), atau bunga yang diakui sebelumnya.

Dampak reklasifikasi aset keuangan pada laba rugi atau ekuitas dan pengukuran awalnya adalah sebagai berikut:

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

**E. Reclassification of financial assets
(continued)**

Changes in the business model should significantly impact the Group's operational activities such as acquiring, disposal or discontinued a line of business. In addition, the Group needs to prove the change of business model to external parties.

The Group will reclassify all financial assets impacted by changes in the business model. The changes of the Group's business model must occur before the reclassification date.

The following are not considered as change in business model:

- (a) the change of intention related to certain financial assets (even in situations of significant changes in market conditions).
- (b) temporary loss of certain markets for financial assets.
- (c) the transfer of financial assets between parts of the Group and different business models.

Impact of reclassification of financial assets

The Group applies the reclassifications prospectively from the reclassification date. The Groups does not restate gain, losses (including gains and impairment losses), or previously recognised interest.

The impact of reclassification of financial asset on profit or loss or equity and its initial measurement is as follows:

Reklasifikasi/ Reclassification		Dampak Terhadap Laba Rugi/ Impact to Profit or Loss	Dampak Terhadap Ekuitas/ Impact to Equity	Nilai Tercatat Awal Setelah Reklasifikasi/ Initial Carrying Amount After Reclassification
Dari/ From	Ke/ To			
FVPL	Amortised Cost	-	-	1. Nilai wajar pada tanggal reklasifikasi menjadi jumlah tercatat bruto yang baru./ Fair value at the reclassification date becomes the new gross carrying amount. 2. Suku bunga efektif ditentukan pada dasar nilai wajar aset pada tanggal reklasifikasi./ Effective interest rate is determined at the fair value of the asset at reclassification date.
	FVOCI	-	-	1. Aset keuangan tetap diukur pada nilai wajarnya./ Financial assets is measured at fair value. 2. Suku bunga efektif ditentukan pada dasar nilai wajar aset pada tanggal reklasifikasi./ Effective interest rate is determined at the fair value of the asset at reclassification date.

F. Klasifikasi atas instrumen keuangan

F. Classification of financial instruments

Grup mengklasifikasikan aset keuangan ke dalam klasifikasi tertentu sesuai dengan hasil pengujian model bisnis dan karakteristik arus kas kontraktual. Klasifikasi aset keuangan dapat dilihat pada tabel di bawah ini:

The Group classifies the financial instruments into classes in accordance with the results of business model testing and contractual cashflow characteristics. The classification of financial instrument can be seen in the table below:

Klasifikasi/Classification	Golongan/Class	
Aset keuangan/ Financial assets	Aset keuangan yang diukur pada nilai wajar melalui laba rugi (FVPL)/Financial assets measured at fair value through profit or loss (FVPL)	Efek-efek/Marketable securities
		Obligasi Pemerintah/Government bonds
		Tagihan derivatif (tidak terkait lindung nilai)/ Derivative receivables - non hedging related
		Kredit yang diberikan/Loans
		Penyertaan saham/Investments in shares
	Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lainnya (FVOCI)/ Financial assets measured at fair value through other comprehensive income (FVOCI)	Efek-efek/Marketable securities
		Obligasi Pemerintah/Government bonds
		Kredit yang diberikan/Loans
		Penyertaan saham/Investments in shares
	Aset keuangan yang diukur pada biaya perolehan diamortisasi (Amortised Cost)/Financial assets measured at amortised cost (Amortised Cost)	Giro pada Bank Indonesia/Current accounts with Bank Indonesia
		Giro pada bank lain/ Current accounts with other banks
		Penempatan pada Bank Indonesia dan bank lain/Placements with Bank Indonesia and other banks
		Tagihan lainnya - transaksi perdagangan/ Other receivables - trade transaction
		Efek-efek/Marketable securities
		Obligasi Pemerintah/Government bonds
	Tagihan atas efek-efek yang dibeli dengan janji dijual kembali/Securities purchased under agreements to resell	
	Piutang pembiayaan konsumen/ Consumer financing receivables	
	Kredit yang diberikan dan piutang/pembiayaan syariah/Loans and sharia receivable/financing	
	Tagihan akseptasi/Acceptance receivables

(lanjutan)**

c. Instrumen keuangan (lanjutan)

G. Saling hapus instrumen keuangan

Aset keuangan dan liabilitas keuangan saling hapus disajikan dalam laporan posisi keuangan konsolidasian jika memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui tersebut dan berniat untuk menyelesaikan secara neto atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan. Hak yang berkekuatan hukum berarti:

- a. tidak terdapat kontinjensi di masa yang akan datang, dan
- b. hak yang dapat dipaksakan secara hukum pada kondisi-kondisi berikut ini:
 - i. kegiatan bisnis normal;
 - ii. kondisi kegagalan usaha; dan
 - iii. kondisi gagal bayar atau bangkrut.

H. Cadangan kerugian penurunan nilai aset keuangan

Penerapan PSAK 109 "Instrumen Keuangan" telah mengubah metode perhitungan kerugian penurunan nilai dari pendekatan kerugian yang telah terjadi (*incurred loss*) dalam PSAK 239 "Instrumen Keuangan: Pengakuan dan Pengukuran" dengan pendekatan kerugian kredit ekspektasian (*expected credit loss*).

1. Ruang lingkup penurunan nilai

- a) Aset keuangan dalam klasifikasi selain yang diukur pada nilai wajar melalui laba rugi
 - 1) Penurunan nilai atas aset keuangan pada biaya perolehan diamortisasi diakui sebagai pengurang dari nilai tercatat aset di dalam laporan posisi keuangan konsolidasian, dan diakui di dalam laporan laba rugi konsolidasian sebagai "Beban Pembentukan Cadangan Kerugian Penurunan Nilai".
 - 2) Penurunan nilai atas aset keuangan (di luar instrumen ekuitas) yang diukur pada nilai wajar melalui penghasilan komprehensif lain diakui sebagai penambah dari penghasilan komprehensif lainnya di dalam laporan posisi keuangan konsolidasian (tidak mengurangi jumlah tercatat aset keuangan dalam laporan keuangan) sebagai "Keuntungan/Kerugian yang Belum Direalisasikan", dan diakui di dalam laporan laba rugi konsolidasian sebagai "Beban Pembentukan Cadangan kerugian penurunan nilai".

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

G. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount presented in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and an intention to settle on a net basis or realised the asset and settle the liability simultaneously. This means that the right to offset:

- a. *must not be contingent on a future event, and*
- b. *must be legally enforceable in all of the following circumstances:*
 - i. *the normal course of business;*
 - ii. *the event of default; and*
 - iii. *the event of insolvency or bankruptcy.*

H. Allowance for impairment losses of financial assets

The implementation of SFAS 109 "Financial Instruments" has changed the method of calculating impairment losses from the incurred loss approach in SFAS 239 "Financial Instruments: Recognition and Measurement" with the expected credit loss approach.

1. Scope of impairment

- a) *Financial assets in other than those measured at fair value through profit or loss*
 - 1) *Impairment of financial assets at amortised cost is recognised as a deduction from the asset's carrying amount in the consolidated statement of financial position, and recognised in the consolidated income statement as "Allowance for Impairment Losses".*
 - 2) *Impairment of financial assets (excluding equity instruments) measured at fair value through other comprehensive income is recognised as an addition to other comprehensive income in the consolidated statement of financial position (not reducing the carrying amount of financial assets in the financial statements) as "Unrealised Gain or Loss" and recognised in the consolidated income statement as "Allowance for Impairment Losses".*

c. Instrumen keuangan (lanjutan)

**H. Cadangan kerugian penurunan nilai aset
keuangan (lanjutan)**

**1. Ruang lingkup penurunan nilai
(lanjutan)**

**b) Komitmen Pinjaman atau
Kelonggaran Tarik yang Sifatnya
Tidak Dapat Dibatalkan
(Committed)**

1) Penurunan nilai atas komitmen pinjaman diakui sebagai provisi pada komponen liabilitas Bank yang dicatat secara terpisah dari aset pinjaman yang terkait sebagai "Estimasi kerugian atas komitmen dan kontijensi", kecuali Grup tidak dapat mengidentifikasi secara terpisah.

2) Dalam kondisi tersebut, penurunan nilai atas komitmen pinjaman dan aset pinjaman diakui bersama sebagai pengurang dari nilai tercatat aset di dalam laporan posisi keuangan konsolidasian.

**c) Kontrak Jaminan Keuangan
Penurunan nilai atas kontrak
jaminan keuangan diakui sebagai
provisi pada komponen liabilitas
Bank sebagai "Estimasi kerugian
atas komitmen dan kontijensi".**

**2. Evaluasi penurunan nilai yang
dilakukan secara periodik**

Pada setiap tanggal laporan posisi keuangan konsolidasian, Grup mengevaluasi apakah terdapat peningkatan risiko kredit yang signifikan atau terdapat bukti objektif terjadinya penurunan nilai.

Kriteria yang digunakan oleh Grup untuk menentukan bukti objektif dari penurunan nilai adalah sebagai berikut:

- a) Kesulitan keuangan signifikan yang dialami penerbit atau pihak meminjam;
- b) Pelanggaran kontrak, seperti peristiwa gagal bayar atau peristiwa tunggakan bunga atau pokok;
- c) Pihak pemberi pinjaman, untuk alasan ekonomi atau kontraktual sehubungan dengan kesulitan keuangan yang dialami pihak meminjam, telah memberikan konsesi pada pihak meminjam yang tidak mungkin diberikan jika pihak meminjam tidak mengalami kesulitan tersebut;

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

**H. Allowance for impairment losses of
financial assets (continued)**

1. Scope of Impairment (continued)

**b) Loan Commitments or Committed
Unused Loan Facilities**

1) Impairment of loan commitments is recognised as provision for the Bank's liability component which is recorded separately from the related loan assets as "Estimated losses on commitments and contingencies", unless the Group cannot identify it separately.

2) In that case, the impairment of loan commitments and loan assets is recognised together as a deduction from the carrying amount of the assets in the consolidated statement of financial position.

**c) Financial Guarantee Contract
Impairment of financial guarantee
contracts is recognised as a provision
under the Bank's liability component
as "Estimated losses on
commitments and contingencies".**

**2. Periodic evaluation on impairment of
financial assets**

The Group assesses at each reporting date whether there is a significant increase in credit risk or objective evidence that a financial asset or group of financial assets is impaired.

The criteria that the Group uses to determine that there is objective evidence of impairment loss include:

- a) Significant financial difficulty of the issuer or obligor;
- b) A breach of contract, such as a default or delinquency in interest or principal payments;
- c) The lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider if the borrower is not having that financial difficulty;

(lanjutan)**

c. Instrumen keuangan (lanjutan)

**H. Cadangan kerugian penurunan nilai aset
keuangan (lanjutan)**

**2. Evaluasi penurunan nilai yang
dilakukan secara periodik (lanjutan)**

Kriteria yang digunakan oleh Grup untuk menentukan bukti objektif dari penurunan nilai adalah sebagai berikut (lanjutan):

- d) Terjadi kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya;
- e) Hilangnya pasar aktif dari aset keuangan akibat kesulitan keuangan; atau
- f) Pembelian atau penerbitan aset keuangan dengan diskon sangat besar yang mencerminkan kerugian kredit yang terjadi.

Grup menggunakan kriteria tambahan untuk menentukan kualitas aset instrumen keuangan sesuai dengan Peraturan Otoritas Jasa Keuangan (POJK) No. 40/POJK.03/2019 tanggal 19 Desember 2019 tentang Penilaian Kualitas Aset Bank Umum.

Selanjutnya, Grup mengelompokkan aset keuangan berdasarkan hasil evaluasi tersebut yang mencerminkan tingkat risiko kredit aset keuangan.

a) Stage 1

Pada tanggal evaluasi penurunan nilai, risiko kredit atas instrumen keuangan tidak meningkat secara signifikan sejak pengakuan awal yang dapat dibuktikan dengan terjadinya seluruh hal berikut, yaitu:

Untuk Jenis Aset Keuangan Non-Surat Berharga:

- 1) Tidak terdapat tunggakan pokok dan/atau bunga lebih dari 30 hari;
- 2) Instrumen keuangan memiliki kualitas 1 atau 2; dan
- 3) Tidak direstrukturisasi.

Aset Keuangan Surat Berharga:

- 1) Memiliki peringkat investasi;
- 2) Tidak terdapat tunggakan kupon dan/atau kewajiban lain yang sejenis; dan
- 3) Belum jatuh tempo.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

**H. Allowance for impairment losses of
financial assets (continued)**

**2. Periodic evaluation on impairment of
financial assets (continued)**

The criteria that the Group uses to determine that there is objective evidence of impairment loss include (continued):

- d) There is a probability that the borrower will enter bankruptcy or other financial reorganisation;
- e) The disappearance of an active market for that financial asset because of financial difficulties; or
- f) Purchase or issuance of financial asset at significant discount which reflects the credit loss that occurs.

The Group uses additional criteria to determine the quality of financial instrument assets in accordance with the Financial Services Authority Regulation (POJK) No. 40/POJK.03/2019 dated 19 December 2019 concerning Asset Quality Assessment for Commercial Banks.

Furthermore, the Group classifies financial assets based on the evaluation results, which reflect the level of credit risk of the financial assets.

a) Stage 1

At the evaluation date of impairment, credit risk on financial instruments does not increase significantly since initial recognition, which can be proven by the occurrence of all of the following, namely:

For Types of Non-Securities Financial Assets:

- 1) There are no arrears of principal and/or interest for more than 30 days;
- 2) The financial instrument has a collectability of 1 or 2; and
- 3) Not restructured.

Securities Financial Assets:

- 1) Having investment grade;
- 2) There are no arrears of coupons and/or other similar obligations; and
- 3) Not yet due.

c. Instrumen keuangan (lanjutan)

**H. Cadangan kerugian penurunan nilai aset
keuangan (lanjutan)**

**2. Evaluasi penurunan nilai yang
dilakukan secara periodik (lanjutan)**

a) Stage 1 (lanjutan)

Atas hal tersebut, Grup akan mengukur penyisihan kerugian untuk instrumen keuangan tersebut sejumlah kerugian kredit ekspektasian 12 bulan.

b) Stage 2

Pada tanggal evaluasi, risiko kredit atas instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal yang dapat dibuktikan.

Untuk Jenis Aset Keuangan Non-Surat Berharga, dengan terjadi salah satu dari hal berikut:

- 1) Terdapat tunggakan pokok dan/atau bunga yang telah melebihi 30 hari sampai dengan 90 hari;
- 2) Instrumen keuangan memiliki kualitas 2; atau
- 3) Terjadi restrukturisasi atas aset keuangan yang tidak menyebabkan pengakuan aset yang berasal dari aset keuangan yang memburuk, dimana sebelum restrukturisasi aset berada pada *stage* 1 atau 2.

Untuk Jenis Aset Keuangan Surat Berharga:

- 1) Memiliki peringkat paling rendah 1 (satu) tingkat di bawah peringkat investasi;
- 2) Tidak terdapat tunggakan kupon dan/atau kewajiban lain yang sejenis; dan
- 3) Belum jatuh tempo.

Grup akan mengukur penyisihan kerugian untuk instrumen keuangan pada *stage* ini sejumlah kerugian kredit ekspektasian sepanjang umurnya.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

**H. Allowance for impairment losses of
financial assets (continued)**

**2. Periodic evaluation on impairment of
financial assets (continued)**

a) Stage 1 (continued)

For this reason, the Group will measure the allowance for impairment losses for the financial instrument at the amount of an expected credit loss for 12 months.

b) Stage 2

At the evaluation date, credit risk on financial instruments has increased significantly since initial recognition which can be proven.

For Types of Non-Securities Financial Assets, if one of the following occurs:

- 1) *There are arrears of principal and/or interest between 30 days to 90 days;*
- 2) *The financial instrument has a collectability of 2; or*
- 3) *There was a restructuring of financial assets that did not result in the recognition of assets originating from impaired financial assets, which before restructuring the assets were at stage 1 or 2.*

For Types of Securities Financial Assets:

- 1) *Has a rating of at least 1 (one) level below investment grade;*
- 2) *There are no arrears of coupons and/or other similar obligations; and*
- 3) *Not yet due.*

At this stage, the Group will measure the allowance for impairment losses for the financial instrument at the amount of the expected credit losses over its lifetime.

c. Instrumen keuangan (lanjutan)

**H. Cadangan kerugian penurunan nilai aset
keuangan (lanjutan)**

**2. Evaluasi penurunan nilai yang
dilakukan secara periodik (lanjutan)**

c) Stage 3 (Default)

Pada tanggal evaluasi, terdapat bukti objektif bahwa aset keuangan mengalami penurunan nilai yang dapat dibuktikan.

Untuk Jenis Aset Keuangan Non-Surat Berharga, dengan terjadinya salah satu dari hal berikut, yaitu:

- 1) Terdapat tunggakan pokok dan/atau bunga lebih dari 90 hari;
- 2) Instrumen keuangan memiliki kualitas 3, 4, atau 5; atau
- 3) Terjadi restrukturisasi atas aset keuangan yang tidak menyebabkan pengakuan aset yang berasal dari aset keuangan yang memburuk, dimana sebelum restrukturisasi aset telah berada pada *stage 3*.

Untuk Jenis Aset Keuangan Surat Berharga:

- 1) Memiliki peringkat investasi, terdapat tunggakan kupon dan/atau kewajiban lain yang sejenis, dan belum jatuh tempo; atau
- 2) Kriteria lain yang tidak memenuhi kriteria pada *stage 1* dan *2* untuk jenis aset keuangan surat berharga.

Grup akan mengukur penyisihan kerugian untuk instrumen keuangan pada *stage* ini sejumlah kerugian kredit ekspektasian sepanjang umurnya.

Khusus untuk aset keuangan yang penurunan nilainya dievaluasi secara individual, Grup dapat menetapkan aset keuangan tersebut pada kelompok *stage 3* (dari sebelumnya ada di kelompok *stage 2*), meskipun aset keuangan dimaksud belum memenuhi kriteria kelompok *stage 3*.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

**H. Allowance for impairment losses of
financial assets (continued)**

**2. Periodic evaluation on impairment of
financial assets (continued)**

c) Stage 3 (Default)

At the evaluation date, there is objective evidence that the financial asset is impaired which can be proven.

For Types of Non-Securities Financial Assets, if one of the following occurs:

- 1) There are arrears principal and/or interest of more than 90 days;
- 2) The financial instrument has a collectability of 3, 4, or 5; or
- 3) There was a restructuring of financial assets that did not result in the recognition of assets originating from impaired financial assets, where prior to restructuring the assets were at *stage 3*.

For Types of Securities Financial Assets:

- 1) Has an investment grade, has arrears of coupons and/or other similar obligations, and has not yet matured; or
- 2) Other criteria that do not meet the criteria on *stage 1* and *2* for types of securities financial assets.

The Group will measure the allowance for losses for financial instruments at this stage at the amount of the expected credit losses over its lifetime.

Specifically for financial assets which impairment value is evaluated individually, the Group may designate these financial assets in the *stage 3* group (from the previous *stage 2* group), even though those financial assets do not meet the criteria for *stage 3* group.

d) Aset yang Dibeli atau Berasal dari Aset Keuangan yang Memburuk (*Purchased or Originated Credit-Impaired Financial Asset ("POCI")*)

1) Kriteria aset yang dibeli sebagai aset keuangan memburuk

Aset keuangan yang dibeli dikelompokkan sebagai aset keuangan memburuk jika memenuhi kriteria berikut:

- a. Hilangnya pasar aktif dari aset keuangan; atau
- b. Pembelian aset keuangan dengan diskon sangat besar atau jauh di bawah harga par.

2) Kriteria dan pengukuran aset yang berasal dari aset keuangan memburuk

a. Aset keuangan yang dimodifikasi/renegosiasi dan menghasilkan penghentian pengakuan aset keuangan dikelompokkan sebagai aset yang berasal dari aset keuangan memburuk jika memenuhi kriteria berikut:

1. *Waive* atas tunggakan bunga termasuk dengan Tunggakan Bunga yang Dijadwalkan (TBYD) dan Bunga yang Ditangguhkan (BYDT) sebesar 100% (seratus persen); atau
2. Kredit dikonversi menjadi penyertaan modal sementara.

d) Aset yang Dibeli atau Berasal dari Aset Keuangan yang Memburuk (*Purchased or Originated Credit-Impaired Financial Asset ("POCI")*) (lanjutan)

2) Kriteria dan pengukuran aset yang berasal dari aset keuangan memburuk (lanjutan)

b. Pada tanggal pelaporan, Grup hanya mengakui perubahan kumulatif atas kerugian kredit ekspektasian sepanjang umurnya sejak pengakuan awal aset keuangan sebagai penyisihan kerugian atas aset keuangan yang dibeli atau yang berasal dari aset keuangan memburuk.

c. Pada setiap tanggal pelaporan, Grup mengakui dalam laba rugi jumlah perubahan kerugian kredit ekspektasian sepanjang umurnya sebagai keuntungan atau kerugian penurunan nilai.

d. Jika aset keuangan terbukti berdasarkan fakta atau informasi yang relevan bahwa aset keuangan membaik, maka Grup akan mencatat di laporan laba rugi sebagai pengurang "Beban Pembentukan Cadangan Kerugian Penurunan Nilai".

e. Jika kondisi aset keuangan terbukti memburuk, maka Grup akan mencatat di laporan laba rugi sebagai penambah "Beban Pembentukan Cadangan Kerugian Penurunan Nilai".

Grup menggunakan kriteria untuk menentukan kategori aset keuangan yang mengalami penurunan nilai berdasarkan pengelompokan tingkat risiko aset keuangan di atas. Aset keuangan pada kelompok *stage 3* dan *POCI* merupakan aset keuangan yang mengalami penurunan nilai.

financial assets (continued)**

**2. Periodic evaluation on impairment of
financial assets (continued)**

d) *Purchased or Originated Credit-Impaired Financial Asset ("POCI")* (continued)

2) *Criteria for assets originating from impaired financial assets (continued)*

b. *At the reporting date, the Group recognizes only the cumulative changes in the lifetime expected credit losses since the initial recognition of the financial asset as an allowance for impairment losses on financial assets purchased or originating from impairment financial assets.*

c. *At each reporting date, the Group recognizes in profit or loss the amount of changes in lifetime expected credit losses as an impairment gain or loss.*

d. *If the financial assets are proven based on facts or relevant information that the financial assets are improving, the Group will recognize in the income statement as a deduction for "Allowance for Impairment Losses".*

e. *If the condition of the financial asset are proven to be impaired, the Group will recognize it in the income statement as an addition to "Allowance for Impairment Losses".*

The Group uses criteria to determine the category of financial assets that have impaired based on the grouping of the risk levels of financial assets above. Financial assets in stage 3 group and POCI are financial assets that have impaired.

c. Instrumen keuangan (lanjutan)

**H. Cadangan kerugian penurunan nilai aset
keuangan (lanjutan)**

3. Metode penurunan nilai

Grup melakukan evaluasi penurunan nilai dengan metode sebagai berikut:

a) Metode Individual

1) Kriteria Individual

Grup mengevaluasi penurunan nilai secara individual apabila Grup memiliki informasi yang wajar dan terdukung untuk mengukur kerugian kredit ekspektasian sepanjang umurnya pada instrumen secara individual dan aset keuangan memiliki kriteria sebagai berikut:

- a. Aset keuangan per debitur memiliki nilai *outstanding* kumulatif lebih dari Rp25.000 (dua puluh lima miliar Rupiah);
- b. Kredit segmen *Corporate, Kelembagaan, Financial Institutions, Commercial, dan SME Banking*; dan
- c. Aset keuangan termasuk dalam kategori *stage 2* akibat dari restrukturisasi, *stage 3*, atau *POCI*.

Grup juga dapat menetapkan aset keuangan untuk dievaluasi secara individual meskipun aset keuangan dimaksud belum memiliki kriteria untuk dievaluasi secara individual.

- 2) Jika aset keuangan terdapat bukti objektif penurunan nilai dari aset keuangan yang dievaluasi secara individual namun tidak terdapat kerugian penurunan nilai, maka aset keuangan tersebut tetap dimasukkan ke dalam klasifikasi aset keuangan yang akan dievaluasi penurunan nilainya secara individual. Namun, Grup membentuk cadangan kerugian penurunan nilai atas aset keuangan tersebut berdasarkan *probability of default* yang dihasilkan dari evaluasi penurunan nilai kredit secara kolektif.

(continued)**

c. Financial instruments (continued)

**H. Allowance for impairment losses of
financial assets (continued)**

3. Impairment method

The Group evaluates the impairment using the following methods:

a) Individual Method

1) Individual Criteria

The Group evaluates impairment individually when the Group has reasonable and supportable information to measure the lifetime expected credit losses on an individual instrument and the financial assets have the following criteria:

- a. Financial assets per debtor with a cumulative outstanding amount of more than Rp25,000 (twenty five billion Rupiah);
- b. Loans for the Corporate, Institutional, Financial Institutions, Commercial, and SME Banking segments; and
- c. Financial assets fall into the stage 2 category as a result of a restructuring, stage 3, or POCI.

The Group may also designate financial assets to be evaluated individually even though the financial assets have not yet meet criteria for individual evaluation.

- 2) If a financial asset has objective evidence of impairment from a financial asset that is evaluated individually but there is no impairment loss, the financial asset is still classified as a financial asset that will be assessed for impairment individually. However, the Group establishes allowance for impairment losses on these financial assets based on the probability of default resulting from a collective evaluation of loans impairment.

keuangan (lanjutan)**

3. Metode penurunan nilai (lanjutan)

Grup melakukan evaluasi penurunan nilai dengan metode sebagai berikut (lanjutan):

a) Metode Individual (lanjutan)

3) Evaluasi Penurunan Nilai

Evaluasi penurunan nilai secara individual didasarkan pada konsep estimasi jumlah probabilitas tertimbang kerugian aset keuangan. Konsep tersebut menggunakan pembobotan masing-masing dari 3 (tiga) skenario yaitu skenario optimis, skenario normal, dan skenario pesimis.

1. Optimis

Skenario dengan asumsi terdapat kenaikan atau ekspansi dalam perekonomian yang berakibat pada menguatnya nilai variabel seperti pertumbuhan ekonomi meningkat atau apresiasi nilai tukar.

2. Normal

Skenario yang memiliki peluang terbesar untuk terjadi dibandingkan 2 (dua) skenario lainnya. Nilai variabel dalam skenario *baseline* adalah hasil proyeksi dengan asumsi pergerakan ekonomi tanpa adanya peristiwa luar biasa, guncangan atau gejolak ekonomi.

3. Pesimis

Skenario dengan asumsi terdapat pelemahan atau kontraksi dalam perekonomian yang berakibat melemahnya nilai variabel seperti penurunan pertumbuhan ekonomi atau depresiasi nilai tukar.

(continued)**

c. Financial instruments (continued)

**H. Allowance for impairment losses of
financial assets (continued)**

3. Impairment method (continued)

The Group evaluates the impairment using the following methods (continued):

a) Individual Method (continued)

3) Impairment Evaluation

Individual impairment evaluation is based on the concept of an estimated weighted probability of loss of financial assets. This concept uses the weighting of each of the 3 (three) scenarios, which are the optimistic scenario, the normal scenario, and the pessimistic scenario.

1. Optimistic

A scenario with the assumption that there is an increase or expansion in the economy which results in the strengthening of variable values such as increased economic growth or exchange rate appreciation.

2. Normal

The scenario that has the greatest chance of occurring compared to the other 2 (two) scenarios. The variable value in the baseline scenario is the projection result assuming economic movements without any extraordinary events, shocks or economic turmoil.

3. Pessimistic

Scenarios with the assumption that there is a weakening or contraction in the economy that results in weakening of variable values such as a decrease in economic growth or depreciation of the exchange rate.

keuangan (lanjutan)**

3. Metode penurunan nilai (lanjutan)

Grup melakukan evaluasi penurunan nilai dengan metode sebagai berikut (lanjutan):

a) Metode Individual (lanjutan)

3) Evaluasi Penurunan Nilai (lanjutan)

Setiap skenario menghasilkan nilai kini arus kas yang didiskontokan, di mana arus kas tersebut didasarkan pada seluruh informasi yang tersedia dengan *experienced credit judgement* serta mencerminkan seluruh informasi yang memperhatikan berbagai faktor seperti:

1. Kekuatan finansial dan kemampuan debitur untuk membayar kembali kewajiban (*repayment capacity*).
2. Jenis dan jumlah agunan.
3. Ketersediaan garansi.
4. Prospek usaha nasabah di masa datang.
5. Probabilitas penjualan agunan.
6. Kerugian historis.
7. Faktor makroekonomi yang relevan.

Selisih estimasi jumlah probabilitas tertimbang dengan jumlah *outstanding* aset keuangan mencerminkan jumlah kerugian penurunan nilai individual.

Metode evaluasi penurunan nilai secara individual didasarkan pada 2 (dua) konsep, yaitu estimasi jumlah kerugian aset keuangan dan estimasi jumlah yang dapat diperoleh kembali. Metode yang digunakan adalah *discounted cash flow* atau metode *fair value of collateral*. Bank menggunakan metode *fair value of collateral* sebagai arus kas masa datang apabila memenuhi salah satu kondisi berikut:

1. Kredit bersifat *collateral dependent*, yaitu jika pelunasan kredit hanya bersumber dari agunan;
2. Sulit untuk menentukan jumlah dan waktu penerimaan estimasi arus kas yang berasal dari pokok kredit dan/atau bunga dengan andal; dan/atau
3. Pengambilalihan agunan kemungkinan besar terjadi dan didukung dengan aspek legal pengikatan agunan.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

**H. Allowance for impairment losses of
financial assets (continued)**

3. Impairment method (continued)

The Group evaluates the impairment using the following methods (continued):

a) Individual Method (continued)

3) Impairment Evaluation (continued)

Each scenario provides a discounted present value of cash flows, where the cash flows are based on all available information with experienced credit judgment and reflect all information that takes into account various factors such as:

1. Financial strength and the debtor's repayment capacity.
2. Type and amount of collateral.
3. Availability of warranty.
4. Customers' future business prospects.
5. Probability of collateral sale.
6. Historical losses.
7. Relevant macroeconomic factors.

The difference between the weighted probability and the total outstanding of financial assets reflects the amount of the individual impairment loss.

The individual impairment evaluation method is based on 2 (two) concepts, which are the estimated amount of loss on financial assets and the estimated amount that can be recovered. The method used are discounted cash flow or fair value of collateral method. The Bank uses the fair value of collateral method as future cash flows if it meets one of the following conditions:

1. Loans is collateral dependent, if loans repayment source only from collateral;
2. It is difficult to reliably determine the amount and timing of receipt of the estimated cash flow from loan principal and/or interest; and/or;
3. Foreclosure of collateral is likely to occur and is supported by legal binding aspects of collateral.

**H. Cadangan penurunan nilai aset
keuangan (lanjutan)**

3. Metode penurunan nilai (lanjutan)

Grup melakukan evaluasi penurunan nilai dengan metode sebagai berikut (lanjutan):

b) Metode Kolektif

1) Kriteria Kolektif

Bank mengevaluasi penurunan nilai secara kolektif apabila aset keuangan memiliki kesamaan dalam karakteristik risiko aset keuangan dengan tujuan untuk memfasilitasi analisis yang didesain untuk memungkinkan peningkatan risiko kredit secara signifikan dapat diidentifikasi tepat waktu. Kriteria aset keuangan yang dievaluasi secara kolektif adalah sebagai berikut:

- a. Aset keuangan per debitur merupakan aset keuangan *non-performing* atau memiliki *days past due* > 90 hari dan memiliki nilai kumulatif sebesar ≤ Rp25.000 (dua puluh lima milyar rupiah) untuk Segmen *Corporate, Kelembagaan, Financial Institutions, Commercial dan SME Banking*;
- b. Aset keuangan *performing* atau memiliki *days past due* ≤ 90 hari dan tidak direstrukturisasi untuk segmen *Corporate, Kelembagaan, Financial Institutions, Commercial dan SME Banking*; dan
- c. Seluruh kredit segmen *Micro Banking dan Consumer*.

Secara garis besar, seluruh portofolio kredit yang evaluasi penurunan nilainya tidak dihitung menggunakan metode individual, akan dievaluasi menggunakan metode kolektif.

2) Evaluasi Penurunan Nilai

Evaluasi penurunan nilai secara kolektif didasarkan pada konsep *Probability of Default (PD)*, *Loss Given Default (LGD)* dan *Exposure at Default (EAD)* yang mempertimbangkan informasi masa lalu, terkini, dan masa mendatang.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

**H. Allowance for impairment losses of
financial assets (continued)**

3. Impairment method (continued)

The Group evaluates the impairment using the following methods (continued):

b) Collective Method

1) Collective Criteria

The Bank assesses impairment collectively if the financial assets share the same risk characteristics of the financial assets with the purpose of facilitating analysis which is designed to allow a significant increase in credit risk to be identified in a timely manner. The criteria for financial assets that are evaluated collectively are as follows:

- a. Financial assets per debtor are non-performing financial assets or have days past due > 90 days and have a cumulative value of ≤ Rp25,000 (twenty five billion rupiah) for the Corporate, Institutional, Financial Institutions, Commercial, and SME Banking segments;
- b. Performing financial assets or having days past due ≤ 90 days and were not restructured for the Corporate, Institutional, Financial Institutions, Commercial, and SME Banking segments; and
- c. All loans in the Micro Banking and Consumer segments.

In general, all loan portfolios for which impairment evaluation is not calculated using the individual method will be evaluated using the collective method.

2) Impairment Evaluation

The evaluation of collective impairment is based on the concepts of *Probability of Default (PD)*, *Loss Given Default (LGD)*, and *Exposure at Default (EAD)* which consider past, current, and future information.

b) Metode Kolektif (lanjutan)

2) Evaluasi Penurunan Nilai (lanjutan)

a. *Probability of Default*

Bank menggunakan metode *Basel, Vasicek, Roll Rate Transition Matrix* maupun pendekatan lainnya dalam menentukan nilai PD dari setiap debitur.

Metode *Basel* dilakukan dengan menentukan hubungan antara PD suatu debitur dengan karakteristik internal dari debitur yang bersangkutan. Model *Basel* yang telah didapatkan digunakan sebagai dasar penentuan nilai PD dari setiap debitur.

Metode *Vasicek* adalah metode penentuan PD menggunakan formula korelasi aset yang telah ditentukan oleh *Basel Committee*.

Metode *Roll Rate Transition Matrix* menggunakan *historical transition bucket PD*. *Bucket PD* yang digunakan dalam perhitungan *historical* adalah sebagai berikut:

1. *Bucket 1: Lancar*
2. *Bucket 2: 1-30 days past due (DPD)*
3. *Bucket 3: 31-60 dpd*
4. *Bucket 4: 61-90 dpd*
5. *Bucket 5: >90 dpd*

PD Forward-Looking Macro Adjustment adalah metode yang digunakan untuk menentukan nilai *PD forward looking* dari pendekatan baik *Basel* maupun *Roll Rate* berdasarkan hubungan historis antara makro ekonomi dengan nilai *PD Bank*.

financial assets (continued)**

3. Impairment method (continued)

The Group evaluates the impairment using the following methods (continued):

b) *Collective Method (continued)*

2) *Impairment Evaluation (continued)*

a. *Probability of Default*

The Bank uses the *Basel, Vasicek, Roll Rate Transition Matrix*, and other approaches in determining the *PD value* of each debtor.

The *Basel* method is performed by determining the relationship between a debtor's *PD* with the internal characteristics of that debtor. The *Basel* model that has been obtained is used as the basis for determining the *PD value* of each debtor.

The *Vasicek* method is a method of determining *PD* using the asset correlation formula that has been determined by the *Basel Committee*.

The *Roll Rate Transition Matrix* method uses the *historical transition bucket PD*. *PD buckets* used in *historical* calculations are as follows:

1. *Bucket 1: Current*
2. *Bucket 2: 1-30 days past due (DPD)*
3. *Bucket 3: 31-60 dpd*
4. *Bucket 4: 61-90 dpd*
5. *Bucket 5: >90 dpd*

PD Forward-Looking Macro Adjustment is a method used to determine the forward looking *PD value* of both *Basel* and *Roll Rate* approaches based on the historical relationship between the macro economy and the *PD value* of the Bank.

3. Metode penurunan nilai (lanjutan)

Grup melakukan evaluasi penurunan nilai dengan metode sebagai berikut (lanjutan):

b) Metode Kolektif (lanjutan)

2) Evaluasi Penurunan Nilai (lanjutan)

b. *Loss Given Default*

Bank menggunakan metode *Basel* dan *Historical* dalam menentukan nilai LGD dari setiap debitur. LGD menggambarkan persentase nominal fasilitas yang tidak akan dapat dipulihkan oleh Bank terhadap debitur *default*. LGD biasa dihitung dengan formula $1 - \text{Recovery Rate}$. *Recovery rate* dihitung mempertimbangkan *Time Value of Money* dari pengembalian kewajiban yang telah *default*. Tingkat suku bunga yang digunakan untuk menghitung *Time Value of Money* dari *Recovery* adalah *Effective Interest Rate* (EIR).

Metode *Basel* dilakukan dengan menentukan hubungan antara LGD suatu debitur dengan karakteristik internal dari debitur yang bersangkutan. Model *Basel* yang telah didapatkan digunakan sebagai dasar penentuan nilai LGD dari setiap debitur.

Metode *Historical* dilakukan dengan menghitung rata-rata nilai LGD dalam periode jangka panjang pada segmen yang dimaksud.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. *Financial instruments* (continued)

3. *Impairment method* (continued)

The Group evaluates the impairment using the following methods (continued):

b) *Collective Method* (continued)

2) *Impairment Evaluation* (continued)

b. *Loss Given Default*

The Bank uses *Basel* and *Historical* methods in determining the LGD value of each debtor. LGD describes the nominal percentage of the facility that the Bank will not be able to recover against the default debtor. Regular LGD is calculated with formula $1 - \text{Recovery Rate}$. The recovery rate is calculated by considering the *Time Value of Money* from the recovery of the default obligation. The interest rate used to calculate the *Time Value of Money* of *Recovery* is the *Effective Interest Rate* (EIR).

The *Basel* method is carried out by determining the relationship between a debtor's LGD and the internal characteristics of the debtor concerned. The *Basel* model that has been obtained is used as the basis for determining the LGD value of each debtor.

Historical method is done by calculating the average value of LGD in the long term observation period in the respective segment.

Grup melakukan evaluasi penurunan nilai dengan metode sebagai berikut (lanjutan):

b) Metode Kolektif (lanjutan)

**2) Evaluasi Penurunan Nilai
(lanjutan)**

**b. Loss Given Default
(lanjutan)**

Forward-Looking Macro Adjustment pada LGD adalah metode yang digunakan untuk menentukan nilai LGD *forward looking* berdasarkan hubungan historis antara makroekonomi dengan nilai LGD Bank. Jika tidak didapatkan hubungan antara makroekonomi dengan nilai LGD Bank, maka Bank tidak dapat menggunakan *Forward-Looking* dalam penentuan nilai LGD.

c. Exposure at Default

Dalam menentukan nilai EAD dari setiap debitur, Bank menggunakan metode *Basel, Prepayment Rate* dan *Expected Lifetime*. EAD menggambarkan *exposure* yang akan ditanggung Bank jika terdapat debitur yang *default*.

Metode *Basel* dalam perhitungan EAD dilakukan dengan menentukan hubungan antara EAD suatu debitur dengan karakteristik internal dari debitur yang bersangkutan.

Metode *Prepayment Rate* ialah metode yang mempelajari *behaviour* dari tingkat pembayaran debitur yang lebih besar dibandingkan dengan besaran pembayaran fasilitas yang telah dijadwalkan.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

3. Impairment method (continued)

The Group evaluates the impairment using the following methods (continued):

b) Collective Method (continued)

**2) Impairment Evaluation
(continued)**

**b. Loss Given Default
(continued)**

Forward-Looking Macro Adjustment in LGD is a method used to determine the forward looking LGD value based on the historical relationship between macroeconomics and the Bank's LGD value. If there is no relationship between macroeconomics and the Bank's LGD value, the Bank may not use *Forward-Looking* in determining the LGD value.

c. Exposure at Default

In determining the EAD value of each debtor, the Bank uses the *Basel, Prepayment Rate, and Expected Lifetime* method. EAD describes the exposure that will be borne by the Bank if there is a debtor become defaults.

The *Basel* method in calculating EAD is performed by determining the relationship between a debtor's EAD and the internal characteristics of the respective debtor.

The *Prepayment Rate* method is a method that studies the behavior of the debtor's payment rate that is bigger than the scheduled facility payment amount.

3. Metode penurunan nilai (lanjutan)

Grup melakukan evaluasi penurunan nilai dengan metode sebagai berikut (lanjutan):

b) Metode Kolektif (lanjutan)

2) Evaluasi Penurunan Nilai (lanjutan)

c. *Exposure at Default* (lanjutan)

Metode *Expected Lifetime* ialah metode yang mempelajari *behaviour* dari tingkat penyelesaian fasilitas (lunas atau hapus buku) debitur dibandingkan dengan jadwal penyelesaian fasilitas.

d. *Expected Credit Loss*

Secara umum formula untuk menghitung ECL secara kolektif adalah pengkalian antara *Probability of Default*, *Loss Given Default*, dan *Exposure at Default*.

Dalam menghitung besarnya cadangan kerugian penurunan nilai kolektif, Bank menggunakan nilai saldo rekening kredit dari yang penurunan nilainya dievaluasi secara kolektif.

Perhitungan cadangan kerugian penurunan nilai sesuai pada masing-masing *stage* sesuai pada karakteristik *staging*. Metode perhitungan pada masing-masing *stage* adalah sebagai berikut:

1. *Stage 1: 12-months ECL*
2. *Stage 2: Lifetime ECL*
3. *Stage 3: Lifetime ECL*

12-Months ECL adalah perhitungan kerugian ekspektasian yang dihitung untuk 1 tahun ke depan.

3. Impairment method (continued)

The Group evaluates the impairment using the following methods (continued):

b) *Collective Method (continued)*

2) *Impairment Evaluation* (continued)

c. *Exposure at Default* (continued)

The *Expected Lifetime* method is a method that studies the behavior of the debtor's level of settlement (paid off or write off) compared to the facility settlement schedule.

d. *Expected Credit Loss*

In general, the formula for calculating collective ECL is the multiplication of *Probability of Default*, *Loss Given Default*, and *Exposure at Default*.

In calculating the amount of collective impairment, the Bank uses the loan carrying value which the impairment value is assessed collectively.

Calculation of impairment is done for each stage according to the characteristics of the staging. The calculation method for each stage is as follows:

1. *Stage 1: 12-months ECL*
2. *Stage 2: Lifetime ECL*
3. *Stage 3: Lifetime ECL*

12-Months ECL is the calculation of the expected loss for the next 1 year.

Grup melakukan evaluasi penurunan nilai dengan metode sebagai berikut (lanjutan):

b) Metode Kolektif (lanjutan)

2) Evaluasi Penurunan Nilai (lanjutan)

d. *Expected Credit Loss* (lanjutan)

ECL-Lifetime adalah perhitungan kerugian ekspektasian yang dihitung untuk sisa tenor fasilitas.

Dalam perhitungan ECL setiap tahun menggunakan *discount factor* dengan formula yang Grup telah rumuskan.

Probability weighted dalam perhitungan cadangan kerugian penurunan nilai telah ditentukan oleh Grup mencakup persentase skenario optimis, normal, dan pesimis.

Total rata-rata tertimbang atas estimasi *arus kas* dimaksud menjadi pengurang atas nilai tercatat kredit yang dimana selisihnya akan menjadi cadangan kerugian penurunan nilai kredit.

4. Pendapatan bunga sebelum dan sesudah penurunan nilai

Sebelum terjadinya penurunan nilai (*stage 1 & 2*), pendapatan bunga dihitung menggunakan metode bunga efektif yaitu dengan menerapkan suku bunga efektif atas jumlah tercatat bruto aset keuangan kecuali untuk aset keuangan yang dibeli atau yang berasal dari aset keuangan memburuk.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. *Financial instruments* (continued)

H. *Allowance for impairment losses of financial assets* (continued)

3. *Impairment method* (continued)

The Group evaluates the impairment using the following methods (continued):

b) *Collective Method* (continued)

2) *Impairment Evaluation* (continued)

d. *Expected Credit Loss* (continued)

ECL-Lifetime is the calculation of the expected loss which is calculated for the remaining tenor of the facility.

Every year in calculating the ECL uses the discount factor based on formula that the Group has formulated.

The probability weighted in the calculation of impairment has been determined by the Group which includes the percentage of optimistic, normal, and pessimistic scenarios.

The total weighted of the estimated cash flow becomes a deduction from the carrying amount of the loans, where the difference will be the allowance for impairment on loans.

4. *Interest income before and after impairment*

Prior to impairment (stage 1 & 2), interest income is calculated using the effective interest method, by applying an effective interest rate to the gross carrying amount of financial assets except for financial assets purchased or originated from impaired financial assets.

**4. Pendapatan bunga sebelum dan
sesudah penurunan nilai (lanjutan)**

Pendapatan bunga dari aset keuangan yang mengalami penurunan nilai (*stage 3* atau *POCI*) dilakukan dengan menerapkan suku bunga efektif atas jumlah tercatat neto aset keuangan yaitu jumlah saldo setelah dikurangi dengan kerugian akibat penurunan nilai untuk:

- a) Aset Keuangan yang Dibeli atau Berasal dari Aset Keuangan Memburuk ("POCI")

Untuk aset keuangan tersebut, Grup menerapkan suku bunga efektif yang disesuaikan dengan risiko kredit (*risk-adjusted effective interest rate*) atas biaya perolehan diamortisasi dari aset keuangan sejak pengakuan awal.

- b) *Stage 3*

Untuk aset keuangan tersebut, Grup menerapkan suku bunga efektif atas biaya perolehan diamortisasi dari aset keuangan di periode pelaporan, yaitu nilai yang telah dikurangi kerugian akibat penurunan nilai.

Pendapatan bunga selanjutnya diakui atas dasar suku bunga yang digunakan untuk mendiskonto arus kas masa depan dalam pengukuran kerugian penurunan nilai atau yang disebut dengan *unwinding interest*.

**5. Penyisihan kerugian aset produktif
Entitas Anak berbasis syariah**

Cadangan kerugian penurunan nilai atas piutang *murabahah* yang dinilai secara kolektif dihitung berdasarkan PSAK 402 "Akuntansi *Murabahah*" dan ISAK 402 "Penurunan Nilai Piutang *Murabahah*".

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

**H. Allowance for impairment losses of
financial assets (continued)**

**4. Interest income before and after
impairment (continued)**

Interest income from impaired financial assets (stage 3 or POCI) is calculated by applying an effective interest rate on the net carrying amount of financial assets, which is the outstanding amount after deducting losses due to impairment for:

- a) *Financial Assets Purchased or Originated Credit-Impaired Financial Assets ("POCI")*

For these financial assets, the Group applies a risk-adjusted effective interest rate on the amortised cost of the financial assets since initial recognition.

- b) *Stage 3*

For these financial assets, the Group applies an effective interest rate on the amortised cost of financial assets in the reporting period, which is the amount that has been reduced by any impairment losses.

*Interest income is subsequently recognised based on of the interest rate used to discount future cash flows in measuring impairment losses or what is known as *unwinding interest*.*

**5. Allowance for possible losses on
earning assets of Subsidiary based on
sharia**

*Allowance for impairment losses on *murabahah* receivable is calculated based on collective method according to SFAS 402 "Accounting for *Murabahah*" and Interpretation of Financial Accounting Standard ("IFAS") 402 "Impairment Loss for *Murabahah* Receivables".*

- (a) Aset keuangan yang dicatat berdasarkan biaya perolehan diamortisasi (lanjutan)

Pedoman pembentukan penyisihan kerugian aset produktif berdasarkan POJK tersebut adalah sebagai berikut (lanjutan):

- c) Kewajiban untuk membentuk penyisihan kerugian aset produktif tidak berlaku bagi aset produktif untuk transaksi sewa dengan perpindahan hak milik berupa akad *ijarah* atau *ijarah muntahiyah bittamlik*. Entitas Anak wajib membentuk penyusutan/amortisasi terhadap aset *ijarah muntahiyah bittamlik*.

Khusus untuk kualitas surat berharga dan penempatan pada Entitas Anak ditetapkan menjadi 3 (tiga) golongan yaitu lancar, kurang lancar dan macet. Sedangkan untuk kualitas penyertaan modal kualitasnya ditetapkan menjadi 4 (empat) golongan yaitu lancar, kurang lancar, diragukan dan macet.

2. Untuk *Murabahah*, Entitas Anak mengevaluasi apakah terdapat bukti objektif bahwa aset keuangan atau kelompok aset keuangan mengalami penurunan nilai. Aset keuangan atau kelompok aset keuangan diturunkan nilainya dan kerugian penurunan nilai telah terjadi hanya jika terdapat bukti objektif mengenai penurunan nilai tersebut sebagai akibat dari satu atau lebih peristiwa yang terjadi setelah pengakuan awal tersebut (peristiwa yang merugikan), yang berdampak pada estimasi arus kas masa depan atas aset keuangan atau kelompok aset yang dapat diestimasi secara andal.

Cadangan kerugian penurunan nilai atas piutang *murabahah* yang dinilai secara kolektif dihitung berdasarkan PSAK 239, "Instrumen Keuangan: Pengakuan dan Pengukuran".

**5. Penyisihan kerugian aset produktif
Entitas Anak berbasis syariah
(lanjutan)**

- (a) Aset keuangan yang dicatat berdasarkan biaya perolehan diamortisasi (lanjutan)

Sesuai dengan PSAK 402 "Akuntansi Murabahah" dan Pedoman Akuntansi Perbankan Syariah Indonesia (PAPSI Revisi 2013), Entitas Anak menghitung CKPN individual untuk piutang murabahah sesuai dengan ketentuan di ISAK 402 "Penurunan Nilai Piutang Murabahah".

Entitas Anak menetapkan piutang murabahah yang harus dievaluasi penurunan nilainya secara individual, jika memenuhi salah satu kriteria di bawah ini:

- 1) Piutang *murabahah* memiliki kolektibilitas kurang lancar, diragukan dan macet, dan memiliki saldo nilai piutang secara individual di atas atau sama dengan Rp10.000; dan
- 2) Piutang *murabahah* yang direstrukturisasi atau pernah direstrukturisasi dan yang secara individual memiliki saldo nilai piutang di atas Rp10.000.

Entitas Anak menetapkan piutang murabahah yang harus dievaluasi penurunan nilainya secara kolektif, jika memenuhi salah satu kriteria di bawah ini:

- 1) Piutang *murabahah* yang secara individual memiliki nilai signifikan namun tidak memiliki bukti objektif penurunan nilai;
- 2) Piutang *murabahah* yang secara individual memiliki nilai tidak signifikan; dan
- 3) Piutang *murabahah* yang direstrukturisasi yang secara individual memiliki nilai tidak signifikan.

Perhitungan cadangan kerugian penurunan nilai atas aset keuangan yang dinilai secara kolektif dikelompokkan berdasarkan karakteristik risiko piutang yang sama dengan mempertimbangkan segmentasi piutang berdasarkan pengalaman kerugian masa lalu (*probability of default*).

**2. MATERIAL ACCOUNTING POLICY INFORMATION

c. Financial instruments (continued)

**H. Allowance for impairment losses of
financial assets (continued)**

**5. Allowance for possible losses on
earning assets of Subsidiary based on
sharia (continued)**

- (a) Financial assets carried at amortised cost (continued)

In accordance with SFAS No. 402 "Accounting for Murabahah" and Indonesia Sharia Banking Accounting Guidelines (PAPSI Revised 2013), the Subsidiary calculates individual allowance for impairment losses for murabahah receivables in accordance with IFAS No. 402 "Impairment of Murabahah Receivables".

The Subsidiary determines murabahah receivables to be evaluated for impairment through individual evaluation if one of the following criteria is met:

- 1) Murabahah receivables which have collectability status as substandard, doubtful and loss, and have an individual receivables balance of above or equal to Rp10,000; and
- 2) Murabahah receivables that are restructured or had been restructured and which individually have a balance of receivables above or equal Rp10,000.

The Subsidiary determines murabahah receivables to be evaluated for impairment through collective evaluation if one of the following criteria is met:

- 1) Murabahah receivables which individually have significant value but there is no objective evidence of impairment;
- 2) Murabahah receivables which individually have insignificant value; and
- 3) Restructured murabahah receivables which individually have insignificant value.

The calculation of allowance for impairment losses on financial assets which are evaluated collectively, grouped based on similar receivable risk characteristics and taking into account the receivable segmentation on the basis of historical loss experience (*probability of default*).

- (a) Aset keuangan yang dicatat berdasarkan biaya perolehan diamortisasi (lanjutan)

Entitas Anak menggunakan metode analisis migrasi yang merupakan suatu metode analisis statistik, untuk menilai cadangan kerugian penurunan nilai atas piutang yang diberikan secara kolektif. Entitas Anak menggunakan data historis 5 (lima) tahun dalam menghitung *probability of Default* ("PD") dan *Loss Given Default* ("LGD").

- (b) Aset keuangan yang tersedia untuk dijual

Pada setiap tanggal laporan posisi keuangan konsolidasian, Grup mengevaluasi apakah terdapat bukti objektif bahwa aset keuangan atau kelompok aset keuangan mengalami penurunan nilai. Lihat Catatan 2c.(H).(2) untuk kriteria bukti objektif adanya penurunan nilai.

Penurunan yang signifikan atau penurunan jangka panjang atas nilai wajar dari investasi dalam instrumen utang di bawah biaya perolehannya merupakan bukti objektif terjadinya penurunan nilai dan menyebabkan pengakuan kerugian penurunan nilai. Ketika terdapat bukti tersebut di atas untuk aset keuangan yang tersedia untuk dijual, kerugian kumulatif, yang merupakan selisih antara biaya perolehan dengan nilai wajar kini, dikurangi kerugian penurunan nilai aset keuangan yang sebelumnya telah diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian, dikeluarkan dari ekuitas dan diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Jika, pada tahun berikutnya, nilai wajar aset keuangan yang diklasifikasikan dalam kelompok tersedia untuk dijual meningkat dan peningkatan tersebut dapat secara objektif dihubungkan dengan peristiwa yang terjadi setelah pengakuan kerugian penurunan nilai pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian, maka kerugian penurunan nilai tersebut harus dipulihkan melalui laba rugi dan penghasilan komprehensif lain konsolidasian.

- (a) Financial assets carried at amortised cost (continued)

The Subsidiary uses the migration analysis method which is a statistical analysis method to assess allowance for impairment losses on collective receivables. The Subsidiary uses 5 (five) years historical data to compute for the Probability of Default ("PD") and Loss Given Default ("LGD").

- (b) Financial assets classified as available for sale

The Group assesses at each date of the consolidated statement of financial position whether there is objective evidence that a financial asset or a group of financial assets is impaired. Refer to Note 2c.(H).(2) for the criteria of objective evidence of impairment.

A significant or prolonged decline in the fair value of the debt investments below its cost is objective evidence of impairment resulting in the recognition of an impairment loss. If any such evidence exists for available for sale financial assets, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in consolidated statement of profit or loss and other comprehensive income is removed from equity and recognised in the consolidated statement of profit or loss and other comprehensive income.

If, in a subsequent period, the fair value of a financial asset classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the consolidated statement of profit or loss and other comprehensive income, the impairment loss is reversed through the consolidated statement of profit or loss and other comprehensive income.

**(c) Kontrak jaminan keuangan dan
komitmen**

Kontrak jaminan keuangan adalah kontrak yang mengharuskan penerbit untuk melakukan pembayaran yang ditetapkan untuk mengganti uang pemegang kontrak atas kerugian yang terjadi karena debitur tertentu gagal untuk melakukan pembayaran pada saat jatuh tempo, sesuai dengan ketentuan dari instrumen utang. Jaminan keuangan tersebut diberikan kepada bank-bank, lembaga keuangan dan badan-badan lainnya atas nama debitur untuk menjamin kredit dan fasilitas-fasilitas perbankan lainnya.

Jaminan keuangan awalnya diakui dalam laporan keuangan konsolidasian sebesar nilai wajar pada tanggal jaminan diberikan. Nilai wajar dari jaminan keuangan pada saat dimulainya transaksi pada umumnya sama dengan provisi yang diterima untuk jaminan diberikan dengan syarat dan kondisi normal. Setelah pengakuan awal, liabilitas Bank atas jaminan tersebut diukur pada jumlah yang lebih tinggi antara jumlah awal, dikurangi amortisasi provisi dan estimasi terbaik dari jumlah yang diharapkan akan terjadi untuk menyelesaikan jaminan tersebut. Estimasi ini ditentukan berdasarkan pengalaman transaksi yang sejenis dan kerugian historis masa lalu, dilengkapi dengan penilaian manajemen. Pendapatan provisi yang diperoleh diamortisasi selama jangka waktu jaminan dengan menggunakan metode garis lurus.

Bank menentukan cadangan kerugian penurunan nilai aset keuangan atas kontrak jaminan keuangan yang memiliki risiko kredit dan komitmen berdasarkan nilai yang lebih tinggi antara nilai amortisasi (nilai tercatat) dan nilai kini atas pembayaran liabilitas yang diharapkan akan terjadi (ketika pembayaran atas jaminan tersebut menjadi *probable*) atau nilai cadangan kerugian penurunan nilai yang dihitung berdasarkan data kerugian historis untuk evaluasi penurunan nilai secara kolektif.

**(c) Financial guarantee contracts and
commitments**

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the contracts holder for a loss incurred because a specified debtor defaulted to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and other institutions on behalf of customers to secure loans and other banking facilities.

Financial guarantees are initially recognised in the consolidated financial statements at fair value on the date which the guarantee was given. The fair value of a financial guarantee at inception is likely to equal with the provision received because all guarantees are agreed on arm's length terms. Subsequent to initial recognition, the Bank's liabilities under such guarantees are measured at the higher amount between the initial amount, less amortisation of provision recognised, and the best estimates of the amount required to settle the guarantee. These estimation are determined based on experience of similar transactions and history of past losses, supplemented by the judgement from management. The provision income earned is amortised over the period of guarantees using the straight-line method.

The Bank determines impairment losses on financial assets of financial guarantee contracts that have credit risk and commitment based on the value that is higher between the amortised value (carrying value) and the present value of the liabilities that are expected to occur (when payment under the guarantee has become probable) or impairment losses that are calculated based on historical loss data for a collective evaluation of impairment.

c. Instrumen keuangan (lanjutan)

I. Investasi pada sukuk

Sebelum pengakuan awal, Grup menentukan klasifikasi investasi pada sukuk berdasarkan tujuan investasi Grup. Klasifikasi dalam investasi sukuk terdiri dari:

- Biaya perolehan

Jika investasi tersebut dimiliki dalam suatu model usaha yang bertujuan utama untuk memperoleh arus kas kontraktual; dan terdapat persyaratan kontraktual untuk menentukan tanggal tertentu pembayaran pokok dan/atau hasilnya. Biaya perolehan sukuk *ijarah* dan sukuk *mudharabah* termasuk biaya transaksi. Selisih antara biaya perolehan dan nilai nominal diamortisasi secara garis lurus selama jangka waktu sukuk.

- Diukur pada nilai wajar melalui penghasilan komprehensif lain

Jika investasi tersebut dimiliki dalam suatu model usaha yang bertujuan utama untuk memperoleh arus kas kontraktual dan melakukan penjualan sukuk dan terdapat persyaratan kontraktual menentukan tanggal tertentu pembayaran pokok dan/atau hasilnya. Biaya perolehan sukuk *ijarah* dan sukuk *mudharabah* termasuk biaya transaksi. Selisih antara biaya perolehan dan nilai nominal diamortisasi secara garis lurus selama jangka waktu sukuk. Perubahan nilai wajar diakui dalam penghasilan komprehensif lain. Pada saat penghentian pengakuan saldo, perubahan nilai wajar dalam penghasilan komprehensif lain direklasifikasi ke laba rugi sebagai penyesuaian reklasifikasi.

- Diukur pada nilai wajar melalui laba rugi

Biaya perolehan sukuk *ijarah* dan sukuk *mudharabah* yang diukur pada nilai wajar melalui laba rugi tidak termasuk biaya transaksi. Untuk investasi pada sukuk yang diukur pada nilai wajar melalui laba rugi, selisih antara nilai wajar dan jumlah tercatat diakui dalam laba rugi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

I. Investment in sukuk

Before the initial recognition, the Group determines the classification of investment in sukuk based on the Group's investment objective. Investment in sukuk can be measured as follows:

- Acquisition cost

If the investment is held within a business model that aims to collect contractual cash flows and there is a contractual requirement to determine the specific date of principal payments and/or the returns. The acquisition cost for sukuk *ijarah* and sukuk *mudharabah* includes transaction cost. The difference between acquisition cost and nominal value is amortised using straight-line method during the period of the sukuk instrument.

- Measured at fair value through other comprehensive income

If the investment is held within a business model which its primary purpose is to obtain contractual cash flows and sell off sukuk and there is a contractual requirements determined by specific date of payment of principal and/or results. The acquisition cost of sukuk *ijarah* and sukuk *mudharabah* includes transaction costs. The difference between the acquisition cost and nominal value is amortised on straight-line basis over the terms of sukuk. The changes in fair value are recognised in other comprehensive income. At the time of derecognition, the changes in fair value in other comprehensive income are reclassified to profit or loss as a reclassification adjustment.

- Measured at fair value through profit or loss

The acquisition cost of sukuk *ijarah* and sukuk *mudharabah* is measured at fair value through profit or loss excluding transaction costs. For investments in sukuk which are measured at fair value through profit or loss, the difference between the fair value and the carrying amount is recognised in profit or loss.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2024 AND 2023**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

c. Instrumen keuangan (lanjutan)

J. Sukuk *mudharabah* yang diterbitkan

Sukuk *mudharabah* yang diterbitkan disajikan sebesar nilai nominal. Biaya-biaya yang timbul dari penerbitan surat berharga dicatat sebagai beban yang ditangguhkan yang disajikan dalam akun "Aset lain-lain" dan diamortisasi secara garis lurus selama jangka waktu sukuk *mudharabah*.

K. Penentuan nilai wajar

Nilai wajar adalah pengukuran berbasis pasar. Pengukuran/penetapan nilai wajar bertujuan untuk mengestimasi harga dimana transaksi teratur (*orderly transaction*) untuk menjual aset atau mengalihkan liabilitas akan terjadi antara pelaku pasar (*market participants*) pada tanggal pengukuran.

Ketika tidak terdapat pasar aktif atau harga suatu instrumen keuangan yang identik tidak dapat diobservasi, Grup dapat mengukur nilai wajar menggunakan teknik penilaian sesuai jenis instrumen keuangan.

Grup dapat melakukan pengukuran nilai wajar, dengan hirarki sebagai berikut:

1. Input Level 1, yaitu harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik yang dapat diakses Grup pada tanggal pengukuran.
2. Input Level 2, yaitu input selain harga kuotasian yang termasuk dalam level 1 yang dapat diobservasi untuk aset atau liabilitas, baik secara langsung atau tidak langsung.
3. Input Level 3, yaitu input yang tidak dapat diobservasi untuk aset atau liabilitas.

Pengukuran nilai wajar mengasumsikan bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

- Di pasar utama untuk aset dan liabilitas tersebut; atau
- Jika tidak terdapat pasar utama, di pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. *Financial instruments* (continued)

J. *Sukuk mudharabah issued*

Sukuk mudharabah issued is recognised at nominal amount. Transaction costs from the issuance of sukuk mudharabah are recognised as deferred expense and presented as "Other assets" and amortised using straight-line over the terms of sukuk mudharabah.

K. *Determination of fair value*

Fair value is a market based measurement. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction among market participants at the measurement date.

When there is no active market or the price of an identical financial instrument cannot be observed, the Group can measure fair value using valuation techniques according to the type of financial instrument.

The Group can measure fair value, with the following hierarchy:

1. *Input Level 1, the quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.*
2. *Input Level 2, the input other than quoted price included in level 1 that can be observed for assets or liabilities, either directly or indirectly.*
3. *Input Level 3, the unobservable input for an asset or liability.*

A fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- *In the principal market for the asset or liability; or*
- *In the absence of a principal market, in the most advantageous market for the asset or liability.*

31 DECEMBER 2024 AND 2023

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

c. Instrumen keuangan (lanjutan)

K. Penentuan nilai wajar (lanjutan)

Nilai wajar suatu aset atau liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset dan liabilitas tersebut dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomi terbaiknya.

Pengukuran nilai wajar aset non-keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomi dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut dalam penggunaan tertinggi dan terbaiknya.

Nilai wajar untuk instrumen keuangan yang diperdagangkan di pasar aktif, seperti efek-efek dan obligasi pemerintah, ditentukan berdasarkan nilai pasar yang berlaku pada tanggal laporan posisi keuangan konsolidasian menggunakan harga yang dipublikasikan secara rutin dan berasal dari sumber yang terpercaya, seperti Bloomberg, Reuters atau harga yang diberikan oleh broker (harga kuotasian). Investasi dalam unit reksa dana dinyatakan sebesar nilai pasar sesuai nilai aset bersih dari reksa dana pada tanggal laporan posisi keuangan konsolidasian.

Instrumen keuangan dianggap memiliki kuotasi di pasar aktif, jika harga kuotasi tersedia sewaktu-waktu dan dapat diperoleh secara rutin dari bursa, pedagang efek (*dealer*), perantara efek (*broker*) dan harga tersebut mencerminkan transaksi pasar yang aktual dan rutin dalam suatu transaksi yang wajar. Jika kriteria di atas tidak terpenuhi, maka pasar aktif dinyatakan tidak tersedia. Indikasi-indikasi dari pasar tidak aktif adalah terdapat selisih yang besar antara harga penawaran dan permintaan atau kenaikan signifikan dalam selisih harga penawaran dan permintaan dan hanya terdapat beberapa transaksi terkini.

Untuk efek-efek yang tidak mempunyai harga pasar, estimasi atas nilai wajar efek-efek ditetapkan dengan mengacu pada nilai wajar instrumen lain yang substansinya sama atau dihitung berdasarkan arus kas yang diharapkan terhadap aset bersih efek-efek tersebut.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

K. Determination of fair value (continued)

The fair value of an asset or a liability should be measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset at its highest and best use or by selling it to another market participant that would use the asset at its highest and best use.

The fair value of financial instruments traded in active markets, such as marketable securities and government bonds, is determined based on quoted market prices at the consolidated statement of financial position date using price that published regularly and from credible sources such as quoted market prices from Bloomberg, Reuters or broker's quoted price. Investments in mutual fund units are stated at market value, in accordance with the net value of mutual fund assets at the consolidated statement of financial position date.

A financial instrument is deemed to be quoted in an active market if quoted prices are available at any time and can be obtained regularly from stock exchanges, dealers, and brokers. These prices reflect actual and regular market transactions in a fair transaction. If the criteria above are not met, the active market is declared unavailable. Indications of an inactive market are that there is a large gap between the bid and ask prices or a significant increase in the difference between the bid and ask prices, and there are only a few recent transactions.

For marketable securities with no quoted market price, a reasonable estimate of the fair value is determined by reference to the current market value of another instrument which substantially has the same characteristic or calculated based on the expected cash flows of the underlying net asset base of the marketable securities.

c. Instrumen keuangan (lanjutan)

K. Penentuan nilai wajar (lanjutan)

Untuk obligasi pemerintah yang tidak memiliki nilai pasar, estimasi nilai wajar ditentukan dengan menggunakan model internal berdasarkan nilai kini dari arus kas masa depan yang diharapkan (pendekatan *next-repricing method*) dengan menggunakan faktor *deflator*.

L. Reformasi acuan suku bunga

Untuk pengukuran instrumen keuangan yang menggunakan biaya perolehan diamortisasi (aset keuangan instrumen utang yang diklasifikasikan sebagai biaya perolehan diamortisasi dan nilai wajar melalui penghasilan komprehensif lain, serta liabilitas keuangan yang diukur pada biaya perolehan diamortisasi), perubahan arus kas kontraktual masa depan dari instrumen keuangan tersebut yang terjadi akibat reformasi suku bunga (perubahan suku bunga acuan kontraktual dari sebelumnya suku bunga LIBOR menjadi suku bunga acuan alternatif) akan mengubah tingkat suku bunga efektif instrumen keuangan tersebut. Perubahan arus kas kontraktual tersebut tidak mempengaruhi biaya perolehan diamortisasi instrumen keuangan dimaksud, dan tidak berdampak pada laba atau rugi (penerapan praktis). Penerapan praktis tersebut dapat diterapkan jika dan hanya jika 2 (dua) persyaratan berikut terpenuhi:

1. Perubahan arus kas kontraktual tersebut diperlukan sebagai akibat langsung dari reformasi acuan suku bunga; dan
2. Suku bunga acuan alternatif pengganti secara ekonomis setara (*economically equivalent*) dengan suku bunga acuan yang digunakan sebelumnya.

d. Prinsip-prinsip konsolidasian

Laporan keuangan konsolidasian meliputi laporan keuangan Bank Mandiri dan Entitas Anak yang mayoritas sahamnya dimiliki atau dikendalikan oleh Bank Mandiri.

Pengendalian didapat ketika Bank terekspos atau memiliki hak atas imbal hasil variabel dari keterlibatannya dengan Entitas Anak dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kekuasaannya atas Entitas Anak.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

c. Financial instruments (continued)

K. Determination of fair value (continued)

For government bonds with no quoted market prices, a reasonable estimate of the fair value is determined using the internal model based on the present value of expected future cash flows using the next-repricing method approach with a deflator factor.

L. Interest rate benchmark reform

For the measurement of financial instruments using amortised cost (financial assets of debt instruments classified as amortised cost and fair value through other comprehensive income, as well as financial liabilities measured at amortised cost), changes in the future contractual cash flows of those financial instruments occurs as a result of interest rate reform (change in the contractual benchmark interest rate from the previous LIBOR interest rate to an alternative benchmark interest rate) will change the effective interest rate of the financial instrument. The change in contractual cash flows does not affect the amortised cost of the financial instrument, and has no impact on profit or loss (practical expedient). Such practical expedient can be applied if and only if the following 2 (two) requirements are met:

- 1. The change in contractual cash flows is necessary as a direct result of the reform of benchmark interest rates; and*
- 2. The alternative reference interest rate is economically equivalent to the previously used benchmark interest rate.*

d. Principles of consolidation

The consolidated financial statements include the financial statement of Bank Mandiri and its Subsidiaries in which the majority shares are owned or controlled by Bank Mandiri.

Control is presumed to exist where the Bank is exposed, or has rights, to variable returns from its involvement with the Subsidiaries and has ability to use its power to affect its returns from its involvement with the Subsidiaries.

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

d. Prinsip-prinsip konsolidasian (lanjutan)

Bank mengendalikan Entitas Anak jika dan hanya jika Bank memiliki hak berikut ini:

- a) Kekuasaan atas Entitas Anak (hak yang ada saat ini yang mempengaruhi kemampuan kini untuk mengarahkan aktivitas relevan yang secara signifikan mempengaruhi imbal hasil Entitas Anak).
- b) Eksposur atau hak atas imbal hasil variabel dari keterlibatannya dengan Entitas Anak.
- c) Kemampuan untuk menggunakan kekuasaannya atas Entitas Anak untuk mempengaruhi jumlah imbal hasil Bank.

Pada laporan keuangan konsolidasian Bank Mandiri, semua saldo dan transaksi yang signifikan antar perusahaan yang dikonsolidasi telah dieliminasi. Kepentingan non-pengendali atas laba bersih Entitas Anak disajikan sebagai pengurang dari laba bersih konsolidasian untuk mendapatkan jumlah laba yang menjadi hak pemilik entitas Bank. Kepentingan non-pengendali dalam aset bersih disajikan sebagai bagian dari ekuitas kecuali kepentingan non-pengendali yang berasal dari konsolidasi atas reksa dana disajikan sebagai bagian dari liabilitas dalam laporan posisi keuangan konsolidasian.

Laporan keuangan konsolidasian disusun dengan menggunakan kebijakan akuntansi yang sama untuk peristiwa dan transaksi sejenis dalam kondisi yang sama. Kebijakan akuntansi yang digunakan dalam laporan keuangan konsolidasian telah diterapkan secara konsisten oleh Entitas Anak, kecuali bila dinyatakan lain.

Bila pengendalian atas suatu entitas diperoleh atau berakhir dalam tahun berjalan, hasil usaha entitas tersebut dimasukkan dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian sejak tanggal pengendalian dimulai atau sampai dengan tanggal pengendalian berakhir.

Transaksi kombinasi bisnis entitas sepengendali, berupa pengalihan bisnis yang dilakukan dalam rangka reorganisasi entitas-entitas yang berada dalam suatu kelompok usaha yang sama, bukan merupakan perubahan kepemilikan dalam arti substansi ekonomi, sehingga transaksi tersebut tidak dapat menimbulkan laba atau rugi bagi kelompok usaha secara keseluruhan ataupun bagi entitas individual dalam kelompok usaha tersebut.

Oleh karena transaksi kombinasi bisnis entitas sepengendali tidak mengakibatkan perubahan substansi ekonomi kepemilikan atas bisnis yang dipertukarkan, maka transaksi tersebut diakui pada jumlah tercatat berdasarkan metode penyatuan kepemilikan.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

d. Principles of consolidation (continued)

The Bank controls the Subsidiaries if and only if the Bank acquires these rights:

- a) Power over the Subsidiaries (has existing rights that affect the current ability to direct the relevant activities, that significantly affect the Subsidiaries' returns).*
- b) Exposure or rights of variable returns from its involvement with the Subsidiaries.*
- c) The ability to use its power over the Subsidiaries to affect the amount of the Bank's returns.*

In the consolidated financial statements of Bank Mandiri, all significant inter-company balances and transactions have been eliminated. The non-controlling interest net income of Subsidiaries is presented as a deduction to consolidated net income in order to present the Bank's income. Non-controlling interest in net assets is presented as part of equity in the consolidated statement of financial position, except for non-controlling interest from mutual fund consolidation is presented as part of liabilities in the consolidated statement of financial position.

The consolidated financial statements are prepared using a consistent accounting policy for transactions and events in similar circumstances. The accounting policies adopted in preparing the consolidated financial statements have been consistently applied by the Subsidiaries, unless otherwise stated.

If the control on an entity is obtained or ends in the current year, the entity's net income is included in the consolidated statement of profit or loss and other comprehensive income from the date of acquisition of the control or until the date the control ceased.

Business combination transaction amongst entities under common control, in the form of transfer of business conducted for the reorganisation of entities under common control, does not represent a change of ownership in terms of economic substance, therefore, there shall be no gain or loss recognised by the group as a whole and by individual entities within the group.

Since the business combination transaction amongst entities under common control does not cause any change in the economic substance of ownership of the transferred business, therefore the transaction is recognised at book value using the pooling interest method.

d. Prinsip-prinsip konsolidasian (lanjutan)

Perubahan dalam bagian kepemilikan Bank pada Entitas Anak yang tidak mengakibatkan hilangnya pengendalian dicatat sebagai transaksi ekuitas, dalam hal ini transaksi dengan pemilik dalam kapasitasnya sebagai pemilik. Setiap perbedaan antara jumlah kepentingan nonpengendali disesuaikan dan nilai wajar imbalan yang diberikan atau diterima diakui secara langsung dalam ekuitas dan diatribusikan pada pemilik Entitas Induk.

Entitas yang menerima/melepas bisnis, dalam kombinasi/pelepasan bisnis entitas sepengendali, mengakui selisih antara jumlah imbalan yang dialihkan/diterima dan jumlah tercatat dari setiap transaksi kombinasi bisnis sebagai komponen ekuitas dan menyajikannya dalam pos tambahan modal disetor/agio saham.

Berdasarkan PSAK No. 338 (Revisi 2012), unsur-unsur laporan keuangan dari entitas yang bergabung, untuk periode terjadinya kombinasi bisnis entitas sepengendali dan untuk periode komparatif sajian, disajikan sedemikian rupa seolah-olah penggabungan tersebut telah terjadi sejak awal periode entitas yang bergabung dalam sepengendalian.

e. Transaksi dan saldo dalam mata uang asing

Entitas Anak dan kantor cabang luar negeri

Bank Mandiri menyelenggarakan catatan akuntansinya dalam mata uang Rupiah. Untuk tujuan konsolidasian, laporan keuangan dalam mata uang asing milik cabang dan Entitas Anak luar negeri Bank Mandiri dijabarkan ke dalam mata uang Rupiah dengan dasar kurs Reuters untuk kurs sebelum 17 Oktober 2022 dan kurs *Refinitiv Eikon* untuk kurs setelah 17 Oktober 2022 sebagai berikut:

- (1) Aset dan liabilitas, komitmen dan kontinjensi - menggunakan kurs *spot* pada tanggal laporan posisi keuangan konsolidasian.
- (2) Pendapatan, beban, laba dan rugi - menggunakan kurs tengah rata-rata yang berlaku pada bulan terjadinya transaksi.
- (3) Akun ekuitas - menggunakan kurs historis pada tanggal transaksi.
- (4) Laporan arus kas - menggunakan kurs *spot* pada tanggal laporan posisi keuangan konsolidasian, kecuali akun-akun laba rugi menggunakan kurs tengah rata-rata dan unsur-unsur ekuitas menggunakan kurs historis.

Selisih yang timbul dari proses penjabaran laporan keuangan tersebut disajikan sebagai "Selisih kurs karena penjabaran laporan keuangan dalam mata uang asing" pada kelompok ekuitas dalam laporan posisi keuangan konsolidasian.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

d. Principles of consolidation (continued)

Changes in the Bank's ownership interest in Subsidiaries that do not result in a loss of control are accounted for as an equity transaction, in this case a transaction with owners in their capacity as owners. Any difference between the amount of the adjusted non-controlling interest and the fair value of the consideration paid or received shall be recognised directly in equity and attributable to the owners of the Parent Entity.

The entity that accepts/releases a business in a combination/separation of business amongst entities under common control, shall recognise the difference between benefits being transferred or received and the recorded amount of every business combination transaction as equity and present it under additional paid-in capital/share premium.

Based on SFAS No. 338 (Revised 2012), the elements of the financial statements of the merged entities, for the period in which the business combination merged entities under common control occurred and for the comparative period presented, are presented in such a way as if the combination had occurred since the beginning of the period when the entities were under common control.

e. Foreign currency transactions and balances

Subsidiaries and overseas branches

Bank Mandiri maintains its accounting records in Indonesian Rupiah. For consolidation purposes, the financial statement of the overseas branches and overseas Subsidiaries of Bank Mandiri denominated in foreign currencies are translated into Rupiah using the Reuters exchange rate for exchange rates before 17 October 2022 and the Refinitiv Eikon exchange rate for exchange rates after 17 October 2022 as follows:

- (1) *Assets and liabilities, commitments and contingencies - using the spot rates at the consolidated statement of financial position date.*
- (2) *Revenues, expenses, income and losses - using the average middle rates during each month when the transaction occurs.*
- (3) *Shareholders' equity accounts - using historical rates on the date of transaction.*
- (4) *Statement of cash flows - using the spot rates at the reporting date, except for profit and loss statement balances which are translated using the average middle rates and shareholders' equity balances which are translated using historical rates.*

The differences arising from the translation adjustment are presented as "Differences arising from the translation of financial statements in foreign currencies" under the shareholders' equity section in the consolidated statement of financial position.

(lanjutan)**

**e. Transaksi dan saldo dalam mata uang asing
(lanjutan)**

Transaksi dan saldo dalam mata uang asing

Transaksi dalam mata uang asing dicatat ke dalam Rupiah menggunakan kurs pada saat terjadinya transaksi. Pada tanggal laporan posisi keuangan konsolidasian, semua aset dan liabilitas moneter dalam mata uang asing dijabarkan ke dalam mata uang Rupiah dengan menggunakan kurs *spot Revinitif Eikon* pada pukul 15.00 WIB untuk tanggal 31 Desember 2024 dan 2023. Keuntungan atau kerugian yang timbul dibebankan pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian tahun berjalan.

Kurs yang digunakan untuk menjabarkan mata uang asing ke dalam Rupiah pada tanggal laporan posisi keuangan konsolidasian adalah sebagai berikut (Rupiah penuh):

	2024	2023
1 Pound Sterling Inggris	20.218,54	19.626,56
1 Euro Eropa	16.758,12	17.038,32
1 Dolar Amerika Serikat	16.095,00	15.397,00
100 Yen Jepang	10.303,00	10.888,00
1 Dolar Australia	10.013,51	10.520,77
1 Dolar Hong Kong	2.073,11	1.970,73
1 Yuan China	2.204,99	2.170,06
1 Dolar Singapura	11.844,58	11.676,34

Mata uang asing lainnya yang tidak diungkapkan di atas tidak dianggap signifikan dalam penjabaran transaksi dalam mata uang asing Bank Mandiri dan Entitas Anak.

f. Transaksi dengan pihak-pihak berelasi

Bank Mandiri dan Entitas Anak melakukan transaksi dengan pihak-pihak berelasi seperti yang didefinisikan dalam PSAK 224 tentang "Pengungkapan Pihak-pihak Berelasi" dan peraturan regulator pasar modal yaitu Peraturan No. VIII.G.7 tentang Penyajian dan Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik.

Pihak berelasi adalah orang atau entitas yang terkait dengan entitas yang menyiapkan laporan keuangannya (entitas pelapor). Yang termasuk pihak berelasi adalah sebagai berikut:

- 1) Orang yang:
 - a) Memiliki pengendalian atau pengendalian bersama atas entitas pelapor;
 - b) Memiliki pengaruh signifikan atas entitas pelapor; atau
 - c) Merupakan personil manajemen kunci entitas pelapor atau entitas induk entitas pelapor.

**2. MATERIAL ACCOUNTING POLICY INFORMATION

**e. Foreign currency transactions and balances
(continued)**

Transactions and balances in foreign currencies

Transactions in foreign currencies are recorded in Rupiah using rates on the date of the transactions. At the consolidated statement of financial position date, all foreign currencies monetary assets and liabilities are translated into Rupiah using the *Revinitif Eikon spot rates* at 3.00 p.m. WIB (Western Indonesian Time) on 31 December 2024 and 2023. The resulting gains or losses are credited or charged to the current year's consolidated statement of profit or loss and other comprehensive income.

The exchange rates used against the Rupiah at the dates of the consolidated statements of financial position are as follows (amounts in full amount of Rupiah):

	2024	2023	
1 Pound Sterling Inggris	20.218,54	19.626,56	Great Britain Pound Sterling 1
1 Euro Eropa	16.758,12	17.038,32	European Euro 1
1 Dolar Amerika Serikat	16.095,00	15.397,00	United States Dollar 1
100 Yen Jepang	10.303,00	10.888,00	Japanese Yen 100
1 Dolar Australia	10.013,51	10.520,77	Australian Dollar 1
1 Dolar Hong Kong	2.073,11	1.970,73	Hong Kong Dollar 1
1 Yuan China	2.204,99	2.170,06	Chinese Yuan 1
1 Dolar Singapura	11.844,58	11.676,34	Singapore Dollar 1

Other foreign currencies that are not disclosed as above is considered not material in the translation of transaction in foreign currencies of the Bank Mandiri and Subsidiaries.

f. Transactions with related parties

The Bank and Subsidiaries enter into transactions with parties which are defined as related parties in accordance with SFAS No. 224 regarding Related Party Disclosures and capital market regulation No. VIII.G.7 regarding Financial Statements Presentation and Disclosure for Issuer or Public Companies.

A related party is a person or entity that is related to the entity that prepares its financial statements (reporting entity). The related parties are as follows:

- 1) A person who:
 - a) Has control or joint control over the reporting entity;
 - b) Has significant influence over the reporting entity; or
 - c) The key management personnel of the reporting entity or the parent of the reporting entity.

(lanjutan)

f. Transaksi dengan pihak-pihak berelasi
(lanjutan)

Semua transaksi signifikan dengan pihak-pihak berelasi, telah diungkapkan pada Catatan 56.

g. Kas dan setara kas

Kas (terutama terdiri dari kas di *kasnanah* dan kas di ATM) dan setara kas mencakup kas, giro pada Bank Indonesia, giro pada bank lain dan investasi jangka pendek likuid lainnya dengan jangka waktu jatuh tempo 3 (tiga) bulan atau kurang sejak tanggal perolehan.

h. Giro pada Bank Indonesia dan bank lain

Giro pada Bank Indonesia dan Bank lain diklasifikasikan sebagai biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas biaya perolehan diamortisasi.

Giro Wajib Minimum

Pemenuhan Giro Wajib Minimum ("GWM") mengacu pada Peraturan Bank Indonesia (PBI) No. 20/3/PBI/2018 tanggal 29 Maret 2018 tentang Giro Wajib Minimum dalam Rupiah dan Valuta Asing bagi Bank Umum Konvensional, Bank Umum Syariah, dan Unit Usaha Syariah sebagaimana telah diubah sebanyak 4 (empat) kali melalui PBI No. 22/3/PBI/2020 tanggal 24 Maret 2020, PBI No. 22/10/PBI/2020 tanggal 28 Juli 2020, PBI No. 23/16/PBI/2021 tanggal 17 Desember 2021, dan PBI No. 24/4/PBI/2022 tanggal 25 Februari 2022.

PBI tersebut dijelaskan lebih lanjut melalui Peraturan Anggota Dewan Gubernur (PADG) No. 24/8/PADG/2022 tanggal 30 Juni 2022 tentang Peraturan Pelaksanaan Pemenuhan Giro Wajib Minimum dalam Rupiah dan Valuta Asing bagi Bank Umum Konvensional, Bank Umum Syariah, dan Unit Usaha Syariah sebagaimana telah diubah sebanyak 2 (dua) kali melalui PADG Nomor 2 tahun 2023 tanggal 24 Maret 2023 dan PADG Nomor 12 tahun 2023 tanggal 1 Oktober 2023.

2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)

f. Transactions with related parties (continued)

All significant transactions with related parties have been disclosed in Note 56.

g. Cash and cash equivalents

Cash (mainly consists of cash in vault and cash in ATMs) and cash equivalents consist of cash, current accounts with Bank Indonesia, current accounts with other banks and other short term liquid investments with original maturities of 3 (three) months or less since the date of acquisition.

h. Current accounts with Bank Indonesia and other banks

Current accounts with Bank Indonesia and other banks are classified as amortised cost. Refer to Note 2c for the accounting policy of amortised cost.

The Minimum Statutory Reserve

Fulfillment of the Minimum Statutory Reserves ("GWM") refers to Bank Indonesia Regulation (PBI) No. 20/3/PBI/2018 dated 29 March 2018 concerning Statutory Reserves in Rupiah and Foreign Exchange for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Units as amended 4 (four) times through PBI No. 22/3/PBI/2020 dated 24 March 2020, PBI No. 22/10/PBI/2020 dated 28 July 2020, PBI No. 23/16/PBI/2021 dated 17 December 2021, and PBI No. 24/4/PBI/2022 dated 25 February 2022.

The provided text elaborates on the regulation through the Board of Governors' Regulation (Peraturan Anggota Dewan Gubernur - PADG) No. 24/8/PADG/2022 dated 30 June 2022, concerning the Implementation Regulation for Meeting the Minimum Mandatory Reserve in Rupiah and Foreign Currency for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Units, as amended 2 (two) times through PADG No. 2 year 2023 dated 24 March 2023 and PADG No. 12 year 2023 dated 1 October 2023.

(lanjutan)**

**h. Giro pada Bank Indonesia dan bank lain
(lanjutan)**

Giro Wajib Minimum (lanjutan)

PADG baru tersebut mengatur bahwa pemenuhan GWM dalam Rupiah Bank Umum Konvensional (BUK) ditetapkan sebagai berikut:

- a. Secara harian sebesar 0% (nol persen); dan
- b. Secara rata-rata untuk:
 - 1) Periode 1 Juli 2022 sampai dengan 31 Agustus 2022 sebesar 7,5% (tujuh koma lima persen); dan
 - 2) Periode 1 September 2022 dan seterusnya sebesar 9% (sembilan persen).

GWM dalam Rupiah untuk Entitas Anak yang menjalankan kegiatan usaha dengan prinsip syariah wajib dipenuhi sebesar:

- a. Secara harian sebesar 0% (nol persen); dan
- b. Secara rata-rata untuk:
 - 1) Periode 1 Juli 2022 sampai dengan 31 Agustus 2022 sebesar 6% (enam persen); dan
 - 2) Periode 1 September 2022 dan seterusnya sebesar 7,5% (tujuh koma lima persen).

Selain itu, Bank Indonesia melakukan penguatan kebijakan untuk mendorong pertumbuhan ekonomi melalui ketentuan insentif GWM dalam Rupiah yang dituangkan dalam PBI No. 11 tahun 2023 tanggal 18 September 2023 tentang Kebijakan Insentif Likuiditas Makroprudensial, sebagaimana diatur lebih lanjut melalui PADG Nomor 11 tahun 2023 tanggal 27 September 2023 tentang Peraturan Pelaksanaan Kebijakan Insentif Likuiditas Makroprudensial sebagaimana telah diubah sebanyak 1 (satu) kali melalui PADG Nomor 4 tahun 2024 tanggal 22 Mei 2024. Bank Indonesia memberikan Kebijakan Insentif Likuiditas Makroprudensial (KLM) GWM dalam Rupiah kepada bank yang melakukan penyediaan dana untuk kegiatan ekonomi meliputi: (a) pemberian kredit atau pembiayaan kepada sektor tertentu yang ditetapkan Bank Indonesia; (b) pemberian kredit atau pembiayaan inklusif berdasarkan pencapaian rasio Pembiayaan Inklusif Makroprudensial (RPIM); (c) pemberian kredit atau pembiayaan kepada Usaha Ultra Mikro (UMi); (d) pemberian kredit atau pembiayaan berwawasan lingkungan; (e) pembiayaan lainnya yang ditetapkan Bank Indonesia.

Besaran KLM ditetapkan paling tinggi sebesar 4% (empat persen).

(continued)**

**h. Current accounts with Bank Indonesia and
other banks (continued)**

The Minimum Statutory Reserve (continued)

The new PADG regulates that the fulfillment of Minimum Statutory Reserves in Rupiah for Conventional Commercial Banks (BUK) is determined as follows:

- a. On a daily basis of 0% (zero percent); and
- b. On average for:
 - 1) Period 1 July 2022 to 31 August 2022 of 7.5% (seven point five percent); and
 - 2) Period 1 September 2022 onwards of 9% (nine percent).

GWM in Rupiah for Subsidiaries that carry out business activities with sharia principles must be met as follows:

- a. On a daily basis of 0% (zero percent); and
- b. On average for:
 - 1) Period 1 July 2022 to 31 August 2022 of 6% (six percent); and
 - 2) Period 1 September 2022 onwards of 7.5% (seven point five percent).

In addition, Bank Indonesia has strengthened policies to encourage economic growth through the provision of GWM incentives in Rupiah, outlined in PBI No. 11 of 2023 dated 18 September 2023, on the Macroprudential Liquidity Incentive Policy, as further regulated by PADG No. 11 of 2023 dated 27 September 2023, on the Implementing Regulation of the Macroprudential Liquidity Incentive Policy, which has been amended once through PADG No. 4 of 2024 dated 22 May 2024. Bank Indonesia provides the Macroprudential Liquidity Incentive (KLM) GWM in Rupiah to banks that provide funding for economic activities, including: (a) granting credit or financing to specific sectors designated by Bank Indonesia; (b) granting credit or inclusive financing based on the achievement of the Macroprudential Inclusive Financing Ratio (RPIM); (c) granting credit or financing to Ultra Micro Enterprises (UMi); (d) granting environmentally conscious credit or financing; (e) other financing as determined by Bank Indonesia.

The KLM amount is set at a maximum of 4% (four percent).

Penyangga Likuiditas Makroprudensial

Penyangga Likuiditas Makroprudensial, selanjutnya disebut PLM, adalah cadangan likuiditas minimum dalam Rupiah yang wajib dipelihara oleh BUK dalam bentuk surat berharga yang memenuhi persyaratan tertentu, yang besarnya ditetapkan oleh Bank Indonesia sebesar persentase tertentu dari DPK BUK dalam Rupiah. Sedangkan bagi Bank Umum Syariah (BUS), Penyangga Likuiditas Makroprudensial Syariah (PLM Syariah) adalah cadangan likuiditas minimum dalam Rupiah yang wajib dipelihara oleh BUS dalam bentuk surat berharga syariah yang memenuhi persyaratan tertentu, yang besarnya ditetapkan oleh Bank Indonesia sebesar persentase tertentu dari DPK BUS dalam Rupiah.

Pemenuhan PLM mengacu pada PBI No. 20/4/PBI/2018 tanggal 29 Maret 2018 tentang Rasio Intermediasi Makroprudensial dan Penyangga Likuiditas Makroprudensial bagi Bank Umum Konvensional, Bank Umum Syariah, dan Unit Usaha Syariah sebagaimana diubah terakhir dengan PBI No. 24/16/PBI/2022 tanggal 31 Oktober 2022 tentang Perubahan Keempat Atas Peraturan Bank Indonesia Nomor 20/4/PBI/2018 Tentang Rasio Intermediasi Makroprudensial Dan Penyangga Likuiditas Makroprudensial Bagi Bank Umum Konvensional, Bank Umum Syariah, Dan Unit Usaha Syariah. PBI tersebut dijelaskan lebih lanjut melalui PADG No. 21/22/PADG/2019 tanggal 28 November 2019, sebagaimana telah diubah sebanyak 7 (tujuh) kali menjadi PADG No. 22/11/PADG/2020 tanggal 29 April 2020, PADG No. 22/30/PADG/2020 tanggal 5 Oktober 2020, PADG No. 23/7/PADG/2021 tanggal 26 April 2021, PADG No. 23/31/PADG/2021 tanggal 31 Desember 2021, PADG No. 24/14/PADG/2022 tanggal 31 Oktober 2022, PADG Nomor 10 Tahun 2023 tanggal 14 September 2023, dan PADG No. 18 Tahun 2023 tanggal 29 November 2023 dimana besaran PLM ditentukan sebesar 5% (lima persen) dari DPK BUK dalam Rupiah dan besaran PLM untuk Entitas Anak yang menjalankan kegiatan usaha dengan prinsip syariah adalah sebesar 3,5% (tiga koma lima persen) dari DPK Entitas Anak dalam Rupiah.

Macroprudential Liquidity Buffer

Macroprudential Liquidity Buffer, will be mentioned as MLB is a minimum statutory reserve which should be maintained in Rupiah by Conventional Commercial Bank in the form of securities that met certain requirements and the amount will be determined by Bank Indonesia in certain percentage of Conventional Commercial Bank Third Party Fund in Rupiah. For Sharia Conventional Bank Macroprudential Liquidity buffer (MLB Sharia) is minimum statutory reserve which should be maintained by Sharia Commercial Bank in the form of sharia securities that met certain requirements and the amount will be determined by Bank Indonesia in certain percentage of sharia commercial bank's Third Party Funds in Rupiah.

The requirement of the latest MLB refers to PBI No. 20/4/PBI/2018 dated 29 March 2018 concerning Macroprudential Intermediation Ratio and Macroprudential Liquidity Buffer for Conventional Commercial Bank, Sharia Commercial Banks, and Sharia Business Units as last amended by PBI No. 24/16/PBI/2022 dated 31 October 2022 concerning fourth amendments of PBI No. 20/4/PBI/2018 concerning Macroprudential Intermediation Ratio and Macroprudential Liquidity Buffer for Conventional Commercial Bank, Sharia Commercial Banks and Sharia Business Units. The PBI is further explained through PADG No. 21/22/PADG/2019 dated 28 November 2019, as amended 7 (seven) times to PADG No. 22/11/PADG/2020 dated 29 April 2020, PADG No. 22/30/PADG/2020 dated 5 October 2020, PADG No. 23/7/PADG/2021 dated 26 April 2021, PADG No. 23/31/PADG/2021 dated 31 December 2021, PADG No. 24/14/PADG/2022 dated 31 October 2022, PADG No. 10 year 2023 dated 14 September 2023, and PADG No. 18 year 2023 dated 29 November 2023, whereby the MLB is determined at 5% (five percent) of BUK deposits in Indonesian Rupiah, and for subsidiaries engaging in business activities based on Sharia principles, the MLB amount is set at 3.5% (three point five percent) of the Subsidiary's third party funds in Indonesian Rupiah.

Rasio Intermediasi Makroprudensial

Rasio Intermediasi Makroprudensial (RIM) dahulu disebut sebagai *Loan to Funding Ratio* (LFR). Berdasarkan PBI No. 20/4/PBI/2018 tanggal 29 Maret 2018 tentang Rasio Intermediasi Makroprudensial dan Penyangga Likuiditas Makroprudensial bagi Bank Umum Konvensional, Bank Umum Syariah, dan Unit Usaha Syariah, penyebutan LFR berubah menjadi Rasio Intermediasi Makroprudensial (RIM) dengan kewajiban pemenuhan Giro RIM mulai berlaku pada tanggal 16 Juli 2018. Peraturan tersebut telah disempurnakan sebanyak 4 (empat) kali menjadi PBI No. 21/12/PBI/2019 tanggal 25 November 2019, PBI No. 22/17/PBI/2020 tanggal 30 September 2020, PBI No. 23/17/PBI/2021 tanggal 17 Desember 2021, dan PBI No. 24/16/PBI/2022 tanggal 31 Oktober 2022. PBI tersebut dijelaskan lebih lanjut melalui PADG No. 21/22/PADG/2019 tanggal 28 November 2019, sebagaimana telah diubah sebanyak 7 (tujuh) kali menjadi PADG No. 22/11/PADG/2020 tanggal 29 April 2020, PADG No. 22/30/PADG/2020 tanggal 5 Oktober 2020, PADG No. 23/7/PADG/2021 tanggal 26 April 2021, PADG No. 23/31/PADG/2021 tanggal 31 Desember 2021, PADG No. 24/14/PADG/2022 tanggal 31 Oktober 2022, PADG No. 10 Tahun 2023 tanggal 15 September 2023 dan PADG No. 18 Tahun 2023 tanggal 29 November 2023.

Berdasarkan Peraturan tersebut, RIM adalah rasio hasil perbandingan antara:

- a. Kredit yang diberikan kepada pihak ketiga dalam Rupiah dan valuta asing; dan
- b. Surat berharga korporasi dalam Rupiah dan valuta asing yang memenuhi persyaratan tertentu yang dimiliki Bank, terhadap:
 1. DPK bank dalam bentuk giro, tabungan dan simpanan berjangka/deposito dalam Rupiah dan Valuta asing, tidak termasuk dana antarbank;
 2. Surat berharga dalam Rupiah dan Valuta Asing yang memenuhi persyaratan tertentu, yang diterbitkan oleh Bank untuk memperoleh sumber pendanaan; dan
 3. Pinjaman yang diterima dalam Rupiah dan valuta asing yang memenuhi persyaratan tertentu, yang diterima oleh BUK untuk memperoleh sumber pendanaan.

Macroprudential Intermediation Ratio

The Macroprudential Intermediation Ratio (RIM) was formerly known as the Loan to Funding Ratio (LFR). Based on PBI No. 20/4/PBI/2018 dated 29 March 2018 concerning Macroprudential Intermediation Ratio and Macroprudential Liquidity Buffer for Conventional Commercial Banks, Sharia Commercial Banks and Sharia Business Units the term LFR changes to Macroprudential Intermediation Ratio (RIM) with the obligation to fulfill RIM's current account effective on 16 July 2018. The regulation has been amended 4 (four) times to become PBI No. 21/12/PBI/2019 dated 25 November 2019, PBI No. 22/17/PBI/2020 dated 30 September 2020, PBI No. 23/17/PBI/2021 dated 17 December 2021 and PBI No. 24/16/PBI/2022 dated 31 October 2022. The PBI is further explained through PADG No. 21/22/PADG/2019 dated 28 November 2019, as amended 7 (seven) times to PADG No. 22/11/PADG/2020 dated 29 April 2020, PADG No. 22/30/PADG/2020 dated 5 October 2020, PADG No. 23/7/PADG/2021 dated 26 April 2021, PADG No. 23/31/PADG/2021 dated 31 December 2021, PADG No. 24/14/PADG/2022 dated 31 October 2022, PADG No. 10 year 2023 dated 15 September 2023 and PADG No. 18 year 2023 dated 29 November 2023.

Based on those Regulations, RIM is the ratio of the results of the comparison of:

- a. Loans to third party in Rupiah and foreign currencies; and
- b. Corporate marketable securities in Rupiah and foreign currencies which meet certain requirements over:
 1. TPF bank in terms of current account, saving account and time deposits in rupiah and foreign currencies excluding interbank fund;
 2. Marketable securities issued by the bank in Rupiah and Foreign Currencies which meet certain requirement which issued for funding; and
 3. Fund borrowing in Rupiah and foreign currencies which met certain requirements that were received by BUK for funding.

**h. Giro pada Bank Indonesia dan bank lain
(lanjutan)**

Giro Rasio Intermediasi Makroprudensial

Giro atas pemenuhan RIM yang selanjutnya disebut Giro RIM adalah saldo pada rekening Giro Rupiah pada Bank Indonesia *Real Time Gross Settlement* (BI-RTGS) dan dana Bank Indonesia *Fast Payment* (BI-Fast) yang wajib dipelihara oleh Bank. Dalam hal RIM berada dalam kisaran target RIM maka Giro RIM ditetapkan sebesar 0% (nol persen) dari DPK dalam Rupiah. Sedangkan apabila RIM berada di luar kisaran target RIM, maka Giro RIM ditetapkan sebesar hasil perkalian antara Parameter Disinsentif Bawah atau Parameter Disinsentif Atas, selisih antara RIM dan Target RIM, serta DPK dalam Rupiah.

Besaran dan parameter yang digunakan dalam pemenuhan Giro RIM ditetapkan:

- a. Batas bawah Target RIM sebesar 84% (delapan puluh empat persen);
- b. Batas atas Target RIM sebesar 94% (sembilan puluh empat persen);
- c. Kewajiban Penyediaan Modal Minimum (KPMM) Insentif sebesar 14% (empat belas persen);
- d. Parameter Disinsentif Bawah ditetapkan:
 1. Sebesar 0 (nol), jika BUK memiliki rasio kredit bermasalah secara bruto lebih besar dari atau sama dengan 5% (lima persen);
 2. Sebesar 0 (nol), jika BUK memiliki:
 - a) Rasio kredit bermasalah secara bruto lebih kecil dari 5% (lima persen); dan
 - b) KPMM lebih kecil dari atau sama dengan KPMM Insentif;
 3. Sebesar 0,1 (nol koma satu), jika BUK memiliki:
 - a) Rasio kredit bermasalah secara bruto lebih kecil dari 5% (lima persen); dan
 - b) KPMM lebih besar dari KPMM Insentif dan lebih kecil dari atau sama dengan 19% (sembilan belas persen); dan
 4. Sebesar 0,15 (nol koma satu lima), jika BUK memiliki:
 - a) Rasio kredit bermasalah secara bruto lebih kecil dari 5% (lima persen); dan
 - b) KPMM lebih besar dari 19% (sembilan belas persen); dan
- e. Parameter Disinsentif Atas ditetapkan:
 1. Sebesar 0 (nol), jika BUK memiliki KPMM lebih besar dari KPMM Insentif; atau
 2. Sebesar 0 (nol), jika BUK memiliki KPMM lebih kecil dari atau sama dengan KPMM Insentif.

**2. MATERIAL ACCOUNTING POLICY INFORMATION

h. Current accounts with Bank Indonesia and other banks (continued)

Macroprudential Intermediation Ratio Current Accounts

Current accounts for RIM fulfillment, hereinafter referred to as RIM Current Account, are the current accounts balance in Rupiah current accounts. Account at Bank Indonesia Real Time Gross Settlement (BI-RTGS) and Bank Indonesia Fast Payment (BI-FAST) which must be maintained by the Bank. In the event that RIM falls within RIM's target range, RIM's Current Account is set at 0% (zero percent) of TPF in rupiah. Meanwhile, if RIM is outside the range of RIM's target, RIM's current accounts are determined as the result of the multiplication of the Lower Disincentive Parameter or Upper Disincentive Parameter, the difference between RIM and RIM's target, and TPF in rupiah.

The amounts and parameters used in fulfilling RIM Current Account are determined as follows:

- a. *The lower limit of RIM's Target of 84% (eighty four percent);*
- b. *The upper limit of RIM's Target of 94% (ninety four percent);*
- c. *Minimum Capital Adequacy Requirement (CAR) Incentive of 14% (fourteen percent);*
- d. *The Lower Disincentive Parameters are defined as follows:*
 1. *Amounting to 0 (zero), if the BUK has gross non-performing loan ratio greater than or equal to 5% (five percent);*
 2. *Amounting to 0 (zero), if the BUK has:*
 - a) *Gross non-performing loan ratio is less than 5% (five percent); and*
 - b) *CAR is greater than or equal to Incentive CAR*
 3. *Amounting to 0.1 (zero point one), if the CCB has:*
 - a) *Gross non-performing loan ratio is less than 5% (five percent); and*
 - b) *CAR is greater than incentive CAR and less than or equal to 19% (nineteen percent); and*
 4. *Amounting to 0.15 (zero point one five), if BUK has:*
 - a) *Gross Non-Performing Loans Ratio is less than 5% (five percent); and*
 - b) *CAR is greater than 19% (nineteen percent); and*
- e. *Upper Disincentive Parameters are determined as follows:*
 1. *Amounting to 0 (zero), if the Bank has CAR greater than or equal to Incentive CAR; or*
 2. *Amounting to 0 (zero), if the Bank has CAR smaller than Incentive CAR.*

i. Penempatan pada Bank Indonesia dan bank lain

Penempatan pada Bank Indonesia dan bank lain merupakan penempatan dana dalam bentuk *Deposit Facility* (DF), Fasilitas Simpanan Bank Indonesia Syariah (FASBIS), Pasar Uang Antar Bank, Pasar Uang Antar Bank Syariah, deposito berjangka dan lain-lain.

Penempatan pada Bank Indonesia dan bank lain disajikan sebesar biaya perolehan diamortisasi dengan menggunakan suku bunga efektif dikurangi dengan cadangan kerugian penurunan nilai.

Sesuai dengan Peraturan Otoritas Jasa Keuangan (POJK) No. 40/POJK.03/2019 tanggal 19 Desember 2019 tentang Penilaian Kualitas Aset Bank Umum, seluruh bentuk penempatan pada Bank Indonesia ditetapkan memiliki kualitas lancar.

Penempatan pada Bank Indonesia dan bank lain diklasifikasikan sebagai biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas biaya perolehan diamortisasi.

j. Efek-efek

Efek-efek yang dimiliki terdiri dari efek-efek yang diperdagangkan di pasar uang seperti Sertifikat Bank Indonesia (SBI), Sertifikat Bank Indonesia Syariah (SBIS), Surat Perbendaharaan Negara (SPN), *Negotiable Certificates of Deposits, Medium Term Notes, Treasury Bills* yang diterbitkan oleh pemerintah negara lain dan Pemerintah Republik Indonesia, wesel ekspor, efek-efek yang diperdagangkan di pasar modal seperti unit reksa dana, serta efek-efek yang diperdagangkan di bursa efek seperti saham dan obligasi, termasuk obligasi syariah perusahaan.

Efek-efek diklasifikasikan sebagai aset keuangan dalam kelompok diukur pada nilai wajar melalui laba rugi, nilai wajar melalui penghasilan komprehensif lain, dan biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas aset keuangan dalam kelompok diukur pada nilai wajar melalui laba rugi, nilai wajar melalui penghasilan komprehensif lain, dan biaya perolehan diamortisasi.

Investasi dalam unit reksa dana dinyatakan sebesar nilai pasar sesuai nilai aset bersih dari reksa dana pada tanggal laporan posisi keuangan konsolidasian.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

i. Placements with Bank Indonesia and other banks

Placements with Bank Indonesia and other banks represent placements in the form of Bank Indonesia Deposit Facility, sharia FASBI (Fasilitas Simpanan Bank Indonesia Syariah (FASBIS)), interbank call money, sharia interbank call money, time deposits and others.

Placements with Bank Indonesia and other banks are stated at amortised cost using effective interest rate less any allowance for impairment losses.

In accordance with Regulation of Financial Services Authority (POJK) No. 40/POJK.03/2019 dated 19 December 2019 concerning the Quality Assessment of Commercial Banks, all forms of placements with Bank Indonesia are determined to have current quality.

Placements with Bank Indonesia and other banks are classified as amortised cost. Refer to Note 2c for the accounting policy of amortised cost.

j. Marketable securities

Marketable securities consist of securities traded in the money market such as Certificates of Bank Indonesia (Sertifikat Bank Indonesia (SBI)), Sharia Certificates of Bank Indonesia (Sertifikat Bank Indonesia Syariah (SBIS)), Government Treasury Bills (Surat Perbendaharaan Negara (SPN)) Negotiable Certificates of Deposits, Medium Term Notes, Treasury Bills issued by government of other country and Government of Republic of Indonesia, export bills, securities traded on the capital market such as mutual fund units and securities traded on the stock exchanges such as shares and bonds including sharia corporate bonds.

Marketable securities are classified as financial assets at fair value through profit or loss, fair value through other comprehensive income, and at amortised cost. Refer to Note 2c for the accounting policy of financial assets through fair value through profit or loss, fair value through other comprehensive income, and at amortised cost.

Investments in mutual funds units are stated at market value, in accordance with the net assets value of mutual funds at the date of the consolidated statement of financial position.

j. Efek-efek (lanjutan)

Untuk efek-efek yang diperdagangkan di pasar keuangan yang terorganisasi, nilai wajar tersebut umumnya ditentukan dengan mengacu pada harga pasar kuotasi yang terjadi di bursa efek pada akhir hari pada tanggal laporan posisi keuangan konsolidasian. Untuk efek-efek yang tidak mempunyai harga pasar, estimasi atas nilai wajar efek-efek ditetapkan dengan mengacu pada nilai wajar instrumen lain yang substansinya sama atau dihitung berdasarkan arus kas yang diharapkan terhadap aset bersih efek-efek tersebut. Penurunan nilai wajar permanen atas efek-efek untuk biaya perolehan diamortisasi dan nilai wajar melalui penghasilan komprehensif lain dibebankan pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian periode berjalan.

Pemindahan efek ke klasifikasi dimiliki biaya perolehan diamortisasi dari klasifikasi nilai wajar melalui penghasilan komprehensif lain dicatat sebesar nilai wajarnya. Keuntungan atau kerugian yang belum direalisasi tetap dilaporkan dalam komponen ekuitas dan diamortisasi dengan metode suku bunga efektif selama sisa umur efek tersebut ke laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

k. Obligasi pemerintah

Obligasi pemerintah adalah surat utang yang diterbitkan oleh Pemerintah Republik Indonesia. Obligasi pemerintah terdiri dari obligasi pemerintah yang diperoleh dalam rangka program rekapitalisasi dan obligasi pemerintah yang dibeli dari pasar.

Obligasi pemerintah diklasifikasikan sebagai aset keuangan dalam kelompok diukur pada nilai wajar melalui laba rugi, nilai wajar melalui penghasilan komprehensif lain, dan biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas aset keuangan dalam kelompok diukur pada nilai wajar melalui laba rugi, nilai wajar melalui penghasilan komprehensif lain, dan biaya perolehan diamortisasi.

l. Tagihan lainnya - transaksi perdagangan

Tagihan lainnya - transaksi perdagangan adalah tagihan sebagai akibat dari perjanjian pemberian fasilitas perdagangan kepada debitur yang akan ditagih pada saat jatuh tempo.

Tagihan lainnya diklasifikasikan sebagai aset keuangan dalam kelompok biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi aset keuangan dalam kelompok biaya perolehan diamortisasi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

j. Marketable securities (continued)

For marketable securities which are traded in organised financial markets, the fair value is generally determined by reference to quoted market prices by the stock exchanges at the end of business day on the consolidated statement of financial position date. For marketable securities with no quoted market price, a reasonable estimate of the fair value is determined by reference to the current market value of another instrument which substantially has the same characteristic or calculated based on the expected cash flows of the underlying net asset of the marketable securities. Any permanent impairment in the fair value of marketable securities classified as amortised cost and fair value through other comprehensive income is charged to current year's consolidated statement of profit or loss and other comprehensive income.

Reclassification of marketable securities to amortised cost from fair value through other comprehensive income classification is recorded at fair value. Unrealised gains or losses are recorded in the equity section and will be amortised up to the maturity date of the marketable securities using the effective interest rate method over the remaining tenor of marketable securities to consolidated statement of profit or loss and other comprehensive income.

k. Government bonds

Government bonds represent bonds issued by the Government of the Republic of Indonesia. Government bonds consist of government bonds from the recapitalisation program and government bonds purchased from the market.

Government bonds are classified as financial assets at fair value through profit or loss, fair value through other comprehensive income and at amortised cost. Refer to Note 2c for the accounting policy of financial assets at fair value through profit or loss, fair value through other comprehensive income, and at amortised cost.

l. Other receivables - trade transactions

Other receivables - trade transactions represent receivables resulting from contracts for trade-related facilities given to customers, which will be collected on maturity.

Other receivables - trade transactions are classified as financial assets at amortised cost. Refer to Note 2c for the accounting policy of amortised cost.

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

m. Tagihan atas efek-efek yang dibeli dengan janji dijual kembali dan liabilitas atas efek-efek yang dijual dengan janji dibeli kembali

Tagihan atas efek-efek yang dibeli dengan janji dijual kembali diklasifikasikan sebagai aset keuangan dalam kelompok biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas aset keuangan dalam kelompok biaya perolehan diamortisasi.

Tagihan atas efek-efek yang dibeli dengan janji dijual kembali disajikan sebagai aset dalam laporan posisi keuangan konsolidasian sebesar harga pembelian kembali yang disepakati dikurangi dengan bunga dibayar dimuka yang belum diamortisasi dan cadangan kerugian penurunan nilai. Selisih antara harga beli dan harga jual kembali yang disepakati diperlakukan sebagai pendapatan bunga dibayar dimuka dan diakui sebagai pendapatan bunga selama jangka waktu sejak efek-efek tersebut dibeli hingga dijual kembali dengan menggunakan metode suku bunga efektif.

Efek-efek yang dijual dengan janji untuk dibeli kembali diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

Entitas Anak mencatat transaksi *reverse repo* syariah mengacu ke PSAK No. 411 tentang "Akuntansi *Wa'd*" yang diterapkan secara prospektif. Pada saat pengakuan awal, Entitas Anak mengklasifikasikan surat berharga syariah dalam kategori diukur pada nilai wajar melalui penghasilan komprehensif lain. Keuntungan atau kerugian dari perubahan nilai wajar diakui dalam penghasilan komprehensif lain.

n. Tagihan derivatif dan liabilitas derivatif

Seluruh instrumen derivatif (termasuk transaksi valuta asing untuk tujuan pendanaan dan perdagangan) dicatat dalam laporan posisi keuangan konsolidasian berdasarkan nilai wajarnya. Nilai wajar tersebut ditentukan berdasarkan harga pasar dengan menggunakan kurs *Revinitif Eikon* pada tanggal laporan atau metode diskonto arus kas.

Tagihan derivatif disajikan sebesar keuntungan yang belum direalisasi dari kontrak derivatif. Liabilitas derivatif disajikan sebesar kerugian yang belum direalisasi dari kontrak derivatif.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

m. Securities purchased under agreements to resell and securities sold under agreements to repurchase liabilities

Securities purchased under agreements to resell are classified as financial assets at amortised cost. Refer to Note 2c for the accounting policy financial assets of amortised cost.

Securities purchased under agreements to resell are presented as assets in the consolidated statement of financial position at the agreed resale price less unamortised prepaid interest and allowance for impairment losses. The difference between the purchase price and the agreed resale price is treated as deferred (unamortised) interest income and amortised as income over the period, commencing from the acquisition date to the resale date using the effective interest rate method.

Securities sold under agreements to repurchase are classified as financial liabilities at amortised cost. Refer to Note 2c for the accounting policy for financial liabilities at amortised cost.

The Subsidiaries recognised the reverse repo sharia in accordance with SFAS No. 411 regarding "Accounting Wa'd" which applied prospectively. At initial recognition, Subsidiaries classified sharia securities as measured at fair value through other comprehensive income. Gains or losses arising from changes in fair value are recognised in other comprehensive income.

n. Derivative receivables and derivative payables

*All derivative instruments (including foreign currency transactions for funding and trading purposes) are recognised in the consolidated statement of financial position at their fair values. Fair value is determined based on market value using *Revinitif Eikon* rate at reporting date or discounted cash flow method.*

Derivative receivables are presented at the amount of unrealised gain from derivative contracts. Derivative payables are presented at the amount of unrealised loss from derivative contracts.

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

**n. Tagihan derivatif dan liabilitas derivatif
(lanjutan)**

Keuntungan atau kerugian dari kontrak derivatif disajikan dalam laporan keuangan konsolidasian berdasarkan tujuan Bank atas transaksi yaitu untuk (1) lindung nilai atas nilai wajar, (2) lindung nilai atas arus kas, (3) lindung nilai atas investasi bersih pada kegiatan operasi luar negeri dan (4) instrumen perdagangan, sebagai berikut:

1. Keuntungan atau kerugian dari kontrak derivatif yang ditujukan dan memenuhi syarat sebagai instrumen lindung nilai atas nilai wajar dan keuntungan atau kerugian atas perubahan nilai wajar aset dan liabilitas yang dilindungi, diakui sebagai laba atau rugi yang dapat saling hapus dalam periode akuntansi yang sama. Setiap selisih yang terjadi menunjukkan terjadinya ketidakefektifan lindung nilai dan secara langsung diakui sebagai laba atau rugi tahun berjalan.
2. Bagian efektif dari keuntungan atau kerugian atas kontrak derivatif yang ditujukan sebagai lindung nilai atas arus kas dilaporkan sebagai penghasilan komprehensif lain. Bagian yang tidak efektif dari lindung nilai dilaporkan sebagai laba atau rugi tahun berjalan.
3. Keuntungan atau kerugian dari kontrak derivatif yang ditujukan sebagai lindung nilai atas investasi bersih pada kegiatan operasi luar negeri dilaporkan sebagai penghasilan komprehensif lain, sepanjang transaksi tersebut dianggap efektif sebagai transaksi lindung nilai.
4. Keuntungan atau kerugian dari kontrak derivatif yang tidak ditujukan sebagai instrumen lindung nilai (atau kontrak derivatif yang tidak memenuhi persyaratan sebagai instrumen lindung nilai) diakui sebagai laba atau rugi pada tahun berjalan.

Tagihan derivatif diklasifikasikan sebagai aset keuangan dalam kelompok diukur pada nilai wajar melalui laba rugi, sedangkan liabilitas derivatif diklasifikasikan sebagai liabilitas keuangan dalam kelompok diukur pada nilai wajar melalui laba rugi. Lihat Catatan 2c untuk kebijakan akuntansi untuk aset keuangan dan liabilitas keuangan dalam kelompok diukur pada nilai wajar melalui laba rugi.

**o. Kredit yang diberikan dan piutang/
pembiayaan syariah**

Kredit yang diberikan adalah penyediaan uang atau tagihan yang dapat disetarakan dengan kas, berdasarkan persetujuan atau kesepakatan pinjam-meminjam dengan debitur yang mewajibkan debitur untuk melunasi utang berikut bunganya setelah jangka waktu tertentu dan tagihan yang berasal dari transaksi perdagangan yang telah jatuh tempo yang belum diselesaikan dalam waktu 15 hari.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

**n. Derivative receivables and derivative payables
(continued)**

Gains or losses from derivative contracts are presented in the consolidated financial statements based on its purpose designated upon acquisition, for (1) fair value hedge, (2) cash flow hedge, (3) net investment in a foreign operation hedge, and (4) trading instruments as follows:

1. *Gain or loss on a derivative contract designated and qualified as a fair value hedging instrument and the gain or loss arising from the changes in fair value of hedged assets and liabilities is recognised as gain or loss that can be set off one another during the same accounting year. Any difference representing hedge ineffectiveness and directly recognised as gain or loss in the current year.*
2. *The effective portion arising from gain or loss of derivative contracts designated as cash flow hedge instruments is reported as other comprehensive income. The hedge ineffective portion is recognised as a gain or loss in the current year.*
3. *Gain or loss arising from derivative contract that is designated as a net investment hedge in a foreign operation is reported as other comprehensive income, as long as the transactions are effectively recognised as hedge transactions.*
4. *Gain or loss arising from derivative contract that is not designated as a hedging instrument (or derivative contract that does not qualify as a hedging instrument) is recognised as gain or loss in current year.*

Derivative receivables are classified as financial assets at fair value through profit or loss, meanwhile derivative payables are classified as financial liabilities at fair value through profit or loss. Refer to Note 2c for the accounting policy of financial assets and liabilities at fair value through profit or loss.

o. Loans and sharia receivables/financing

Loans represent the provision of cash or cash equivalent receivables based on lending agreements with borrowers, which the borrowers are required to repay their debts with interest after a specified period, and matured trade finance facilities which have not been settled within 15 days.

**o. Kredit yang diberikan dan piutang/
pembiayaan syariah (lanjutan)**

Kredit sindikasi, kredit dalam rangka pembiayaan langsung dan pembiayaan bersama serta penerusan dinyatakan sebesar saldonya sesuai dengan porsi kredit yang risikonya ditanggung oleh Bank Mandiri dan Entitas Anak.

Piutang/pembiayaan syariah

Di dalam kredit yang diberikan termasuk pembiayaan oleh PT Bank Syariah Indonesia Tbk. (dahulu PT Bank Syariah Mandiri ("BSM")), Entitas Anak, berupa piutang, pembiayaan syariah dan pinjaman *qardh*.

Mudharabah adalah kerja sama suatu usaha antara pihak pertama (*malik, shahibul maal* atau Entitas Anak) yang menyediakan seluruh modal dan pihak kedua (*amil, mudharib* atau nasabah) yang bertindak selaku pengelola dana dengan membagi keuntungan usaha sesuai dengan persentase tertentu yang disepakati dalam akad, sedangkan kerugian ditanggung sepenuhnya oleh Entitas Anak kecuali jika pihak kedua melakukan kesalahan yang disengaja, lalai atau menyalahi perjanjian. Pembiayaan *mudharabah* dinyatakan sebesar saldo pembiayaan dikurangi dengan penyisihan kerugian.

Musarakah adalah kerja sama di antara dua pihak atau lebih untuk suatu usaha tertentu dimana masing-masing pihak memberikan porsi dana dengan ketentuan bahwa keuntungan akan dibagi sesuai dengan persentase yang disepakati, sedangkan kerugian ditanggung sesuai dengan porsi dana masing-masing. Pembiayaan *musarakah* permanen adalah *musarakah* dengan ketentuan bagian dana setiap mitra ditentukan sesuai akad dan jumlahnya tetap hingga akhir masa akad. Pembiayaan *musarakah* menurun (*musarakah mutanaqisha*) adalah *musarakah* dengan ketentuan bagian dana salah satu mitra akan dialihkan secara bertahap kepada mitra lainnya sehingga bagian dananya akan menurun dan pada akhir masa akad mitra lain tersebut akan menjadi pemilik penuh usaha tersebut. Pembiayaan *musarakah* dinyatakan sebesar saldo pembiayaan dikurangi dengan penyisihan kerugian.

Akad *murabahah* adalah akad pembiayaan suatu barang dengan menegaskan harga beli kepada pembeli dan dibayar dengan harga yang lebih tinggi sebagai margin yang disepakati. *Murabahah* adalah transaksi penjualan barang dengan menyatakan harga perolehan dan keuntungan (margin) yang disepakati oleh penjual dan pembeli.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

**o. Loans and sharia receivables/financing
(continued)**

Syndicated loans, direct financing and joint financing, and channelling loans are stated at their outstanding balances in proportion to the risks borne by the Bank and its Subsidiaries.

Sharia receivables/financing

Included in loans are financing provided by PT Bank Syariah Indonesia Tbk. (previously PT Bank Syariah Mandiri ("BSM")), a Subsidiary, in the form of sharia receivables, sharia financing and funds of qardh.

Mudharabah financing is a co-operation for certain project between first party (malik, shahibul maal or Subsidiary) as owner of fund and second party (amil, mudharib or debtors) as fund manager and the profit will be shared in accordance with percentage as stated in the agreement, meanwhile losses will be borne by the Subsidiary except if the second party does negligence, error or violate the agreement. Mudharabah financing is stated at the outstanding financing balance less allowance for possible losses.

Musarakah financing is a co-operation between two or more parties for a certain business wherein each party provides a portion of fund on condition that the profit shall be shared based on the agreed percentage, whereas losses shall be borne in accordance with the portion of the fund of each party. Permanent musarakah financing is musarakah in which the fund portion of each partner is stated explicitly in the contract and remains the same until the contract expires. Declining musarakah financing (musarakah mutanaqisha) is musarakah in which the fund portion of one of the partners will be transferred in several stages to the other partner, resulting in the declining of fund portion of one of the partners, and at the end of contract, the other partner will become the sole owner of the business. Musarakah financing is stated at the outstanding financing balance less allowance for possible losses.

Murabahah contracts are the financing of goods by confirming purchase price to a buyer and the buyer pays it at a higher price as an agreed profit. Murabahah is the transaction of sales of goods by stating the acquisition cost and income (margin) that has been agreed by the seller and buyer.

**o. Kredit yang diberikan dan piutang/
pembiayaan syariah (lanjutan)**

Piutang/pembiayaan syariah (lanjutan)

Piutang *murabahah* diklasifikasikan sebagai aset keuangan dalam kategori pinjaman yang diberikan dan piutang sesuai PSAK No. 239 "Instrumen Keuangan: Pengakuan dan Pengukuran".

Piutang *murabahah* pada awalnya diukur pada nilai bersih yang dapat direalisasi ditambah dengan biaya transaksi/pendapatan administrasi yang dapat diatribusikan secara langsung dan biaya tambahan untuk memperoleh aset keuangan tersebut, dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi menggunakan metode tingkat imbal hasil efektif dikurangi cadangan kerugian penurunan nilai.

Piutang *murabahah* dinyatakan sebesar jumlah piutang setelah dikurangi dengan margin yang ditanggihkan yang dapat direalisasikan dengan cadangan kerugian penurunan nilai. Entitas Anak menetapkan cadangan kerugian penurunan nilai atas piutang sesuai dengan kualitas piutang *murabahah* berdasarkan penelaahan atas masing-masing saldo piutang.

Piutang *istishna* adalah pembiayaan barang dalam bentuk pemesanan pembuatan barang tertentu dengan kriteria dan persyaratan tertentu yang disepakati antara pemesan atau pembeli (*mustashni*) dan penjual atau pembuat (*shani*). Piutang *istishna* disajikan sebesar tagihan kepada pembeli dikurangi penyisihan kerugian.

Pinjaman *qardh* adalah pinjaman dana kepada nasabah dengan ketentuan bahwa nasabah wajib mengembalikan dana yang diterimanya pada waktu yang telah disepakati. Atas transaksi ini, Entitas Anak mendapatkan *ujrah* (imbalan) dan diakui pada saat diterima. Pinjaman *qardh* meliputi pembiayaan dengan akad *hawalah* dan *rahn*. Akad *hawalah* adalah akad pengalihan utang dari pihak yang berutang (nasabah) kepada pihak lain (Entitas Anak) yang wajib menanggung atau membayar.

Rahn merupakan transaksi gadai barang atau harta dari nasabah kepada Entitas Anak dengan uang sebagai gantinya. Barang atau harta yang digadaikan tersebut dinilai sesuai harga pasar dikurangi persentase tertentu. Atas transaksi ini, Entitas Anak mendapatkan *ujrah* (imbalan) dan diakui pada saat diterima. *Rahn* disajikan sebesar saldo dikurangi penyisihan kerugian.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

**o. Loans and sharia receivables/financing
(continued)**

Sharia receivables/financing (continued)

Murabahah receivables is classified as financial assets under loans and receivables according to SFAS No. 239 "Financial Instruments: Recognition and Measurements".

Murabahah receivables initially is stated at net realizable value plus transaction cost/directly attributable administration fee and additional acquisition cost to acquire those financial assets and after initial recognition, it is measured at amortised cost using the effective interest rate method less the allowance for impairment losses.

Murabahah receivables is stated at the balance of the receivable less realizable deferred margin and allowance for possible losses. The Subsidiary calculates the allowance for impairment loss on receivables according to the murabahah receivables quality based on review on each of receivables balance.

Istishna receivables is the financing of goods in the form of manufacturing the ordered goods with the agreed criteria and specification by both of orderer or buyer (mustashni) and manufacturer or seller (shani). Istishna receivables is presented based on the outstanding billings less allowance for possible losses.

Qardh borrowings is borrowings at the condition that the borrower should repay the loan at specified period of time. The Subsidiary will obtain a fee (ujrah) from this transaction, which is recognised upon receipt. Qardh included hawalah and rahn financing agreement. Hawalah is transfer of debts from debtors to other party (Subsidiary) which obligates to bear or pay.

Rahn represents the pledge of goods or assets owned by the customer to the Subsidiary for an equivalent amount of money. Assets or goods pledged are appraised based on market value, less a certain deduction percentage. The Subsidiary will obtain a fee (ujrah), which is recognised upon receipt. Rahn is stated at its outstanding balance less allowance for possible losses.

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

o. Kredit yang diberikan dan piutang/pembiayaan syariah (lanjutan)

Piutang/pembiayaan syariah (lanjutan)

Kredit yang diberikan dan piutang/pembiayaan syariah diklasifikasikan sebagai aset keuangan dalam kelompok pinjaman yang diberikan dan piutang. Lihat Catatan 2c untuk kebijakan akuntansi atas aset keuangan dalam kelompok pinjaman yang diberikan dan piutang.

Restrukturisasi kredit yang diberikan

Restrukturisasi kredit dilakukan kepada debitur yang berpotensi atau mengalami kesulitan dalam memenuhi kewajibannya. Restrukturisasi kredit meliputi modifikasi persyaratan kredit, konversi kredit menjadi saham atau instrumen keuangan lainnya dan/atau kombinasi dari keduanya.

Kerugian yang timbul dari restrukturisasi kredit yang berkaitan dengan modifikasi persyaratan kredit diakui dalam bentuk cadangan kerugian penurunan nilai bila nilai sekarang dari jumlah penerimaan kas yang akan datang yang telah ditentukan dalam persyaratan kredit yang baru, termasuk penerimaan yang diperuntukkan sebagai bunga maupun pokok, adalah lebih kecil dari nilai kredit yang diberikan yang tercatat sebelum restrukturisasi.

Untuk restrukturisasi kredit dengan cara konversi kredit yang diberikan menjadi saham atau instrumen keuangan lainnya, kerugian dari restrukturisasi kredit diakui dalam bentuk cadangan kerugian penurunan nilai apabila nilai wajar penyertaan saham atau instrumen keuangan yang diterima dikurangi estimasi biaya untuk menjualnya adalah lebih kecil dari nilai buku kredit yang diberikan.

Bank memiliki ketentuan internal mengenai debitur yang layak untuk dikeluarkan dari daftar kredit yang direstrukturisasi, yaitu apabila kredit/debitur telah memenuhi kriteria sebagai berikut:

- i. Kualitas kredit telah dikategorikan Lancar (kolektibilitas 1) sesuai dengan hasil revaluasi berdasarkan 3 (tiga) pilar penetapan kualitas kredit dari Bank Indonesia;
- ii. Tingkat suku bunga yang dikenakan atas fasilitas kredit berjalan merupakan tingkat suku bunga komersial yang diberikan kepada debitur sesuai dengan segmen kredit yang bersangkutan di atas *base lending rate*;
- iii. Tidak terdapat Tunggakan Bunga yang Dijadwalkan Kembali (TBYD) dan Bunga yang Ditangguhkan (BYDT) yang masih belum selesai.

p. Piutang pembiayaan konsumen

Piutang pembiayaan konsumen Entitas Anak diakui pada awalnya dengan nilai wajar ditambah biaya-biaya transaksi dan dikurangi *yield enhancing income* yang dapat diatribusikan secara langsung dan selanjutnya diukur dengan biaya perolehan diamortisasi menggunakan metode suku bunga efektif.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

**o. Loans and sharia receivables/financing
(continued)**

Sharia receivables/financing (continued)

Loans and sharia receivables/financing are classified as financial assets in loans and receivables category. Refer to Note 2c for the accounting policy of financial assets for loans and receivables.

Loan restructuring

Loan restructuring is done for debtors who has potential or experiencing difficulties in fulfilling their obligations. Restructuring includes modification of loan terms, conversion of loans into share/stock or other financial instruments and/or a combination of both.

Losses on loan restructuring due to modification of the terms of the loans are recognised as part of allowance for impairment losses only if the present value of total future cash receipts specified in the new terms of the loans including receipts designated as interest and loan principal, are less than the carrying amount of loans before restructuring.

For loan restructuring which involve a conversion of loans into share/stock or other financial instruments, a loss on loan restructuring is recognised as part of allowance for impairment losses if the fair value of the share or financial instruments received, deducted by estimated expenses to sell the share or other financial instruments, is less than the carrying amount of loans.

The Bank formed internal regulation regarding the debtors that are eligible to be removed from the list of restructured loans, i.e. when the loan/debtor has met the following criteria:

- i. Credit quality has been categorised as Current (collectability 1) according to the review results by three (3) pillars of credit quality on Bank Indonesia;*
- ii. The interest rate charged on the current loan facility is the commercial interest rate to debtors in accordance with the relevant credit segments above the base lending rate;*
- iii. There are no Deferred Delinquency Interest (TBYD) and Deferred Interest (BYDT) which have not yet been settled.*

p. Consumer financing receivables

The Subsidiaries consumer financing receivables are recognised initially at fair value, plus transaction costs and deducted by yield enhancing income that is directly attributable, and subsequently measured at amortised cost using the effective interest rate method.

p. Piutang pembiayaan konsumen (lanjutan)

Piutang pembiayaan konsumen Entitas Anak diklasifikasikan sebagai biaya perolehan diamortisasi. Lihat Catatan 2c untuk perlakuan akuntansi aset keuangan dalam kelompok biaya perolehan diamortisasi.

Penyelesaian kontrak sebelum masa pembiayaan konsumen berakhir diperlakukan sebagai pembatalan kontrak pembiayaan konsumen dan laba atau rugi yang terjadi diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian tahun berjalan pada tanggal terjadinya transaksi.

Restrukturisasi kredit dapat dilakukan dengan cara pengalihan kredit, melanjutkan kredit, mengangsur kembali, mengubah jatuh tempo, mengubah tenor dan/atau menambah uang muka.

Pendapatan pembiayaan konsumen yang belum diakui milik Entitas Anak merupakan selisih antara jumlah keseluruhan pembayaran angsuran yang akan diterima dari konsumen dengan jumlah pokok pembiayaan, yang akan diakui sebagai pendapatan pembiayaan konsumen selama jangka waktu kontrak menggunakan metode suku bunga efektif.

Piutang pembiayaan konsumen merupakan jumlah piutang setelah dikurangi dengan bagian pembiayaan bersama dimana risiko kredit ditanggung oleh pemberi pembiayaan bersama sesuai dengan porsinya (*without recourse*), pendapatan pembiayaan yang belum diakui dan cadangan kerugian penurunan nilai.

Piutang pembiayaan konsumen yang dibiayai bersama pihak-pihak lain dimana masing-masing pihak menanggung risiko kredit sesuai dengan porsinya (*without recourse*) disajikan di laporan posisi keuangan konsolidasian secara bersih. Pendapatan pembiayaan konsumen dan beban bunga yang terkait dengan pembiayaan bersama *without recourse* disajikan secara bersih di laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Dalam pembiayaan bersama *without recourse*, Entitas Anak berhak menentukan tingkat bunga yang lebih tinggi kepada pelanggan dari tingkat bunga yang ditetapkan dalam perjanjian dengan pemberi pembiayaan bersama. Selisihnya merupakan pendapatan dan disajikan sebagai bagian dari "Pendapatan pembiayaan konsumen".

q. Investasi bersih dalam sewa pembiayaan

Investasi bersih dalam sewa pembiayaan diklasifikasikan sebagai biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas biaya perolehan diamortisasi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

p. Consumer financing receivables (continued)

The Subsidiaries consumer financing receivables are classified at amortised cost. Refer to Note 2c for the accounting policy of financial assets classified at amortised cost.

Early termination before end of consumer financing is treated as a cancellation of an receivables' terms existing contract and the resulting gain or loss is credited or charged to the current year's consolidated statement of profit or loss and other comprehensive income at the transaction date.

Loan/financing restructuring can be done by transfer of financing, financing continuation, re-installment payment, change the due date, change the tenor and/or increase the down payment.

Subsidiaries' unearned consumer financing income is the difference between total installments to be received from customers and the total financing principal which is recognised as consumer financing income over the term of the contract using effective interest rate.

Consumer financing receivables are net of joint financing receivables after deducted with joint financing portion where joint financing providers bear credit risk in accordance with its portion (without recourse), unearned consumer financing income and allowance for impairment losses.

Joint financing receivables that are jointly financed with other parties, bears credit risk in accordance with their financing portion (without recourse) are presented on a net basis in the consolidated statement of financial position. Consumer financing income and interest expense related to joint financing without recourse are also presented on a net basis in the consolidated statement of profit or loss and other comprehensive income.

In joint financing without recourse, the Subsidiaries has the right to set higher interest rates to customers than those that are stated in the joint financing agreements with joint financing providers. The difference is recognised as revenue and disclosed part of as "Consumer financing income".

q. Net investment finance leases

Net investment finance leases are classified at amortised cost. Refer to Note 2c to the accounting policy for at amortised cost.

**q. Investasi bersih dalam sewa pembiayaan
(lanjutan)**

Penyewa pembiayaan memiliki hak opsi untuk membeli aset yang disewa-pembiayaankan pada akhir masa sewa pembiayaan dengan harga yang telah disetujui bersama pada saat dimulainya perjanjian sewa pembiayaan.

Penyelesaian kontrak sebelum masa sewa pembiayaan berakhir diperlakukan sebagai pembatalan kontrak sewa dan laba atau rugi yang timbul diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian tahun berjalan.

r. Aset tetap, aset dan liabilitas sewa dan aset takberwujud

i. Aset tetap dan perangkat lunak

Pada tanggal 1 April 2016, Grup melakukan perubahan kebijakan akuntansi atas tanah dari model biaya menjadi model revaluasi. Tanah disajikan sebesar nilai wajar.

Penilaian terhadap tanah dilakukan oleh penilai independen eksternal yang memiliki sertifikasi. Penilaian atas aset tersebut dilakukan secara berkala untuk memastikan bahwa nilai wajar aset yang direvaluasi tidak berbeda secara material dengan nilai tercatatnya.

Jika nilai wajar dari aset yang direvaluasi mengalami perubahan yang signifikan dan fluktuatif, maka perlu direvaluasi secara tahunan, sedangkan jika nilai wajar dari aset yang direvaluasi tidak mengalami perubahan yang signifikan dan fluktuatif, maka perlu dilakukan revaluasi minimal 3 tahun sekali.

Kenaikan nilai tercatat yang timbul dari revaluasi tanah dicatat sebagai "Selisih bersih revaluasi aset tetap" dan disajikan sebagai "Penghasilan komprehensif lain". Penurunan nilai tercatat yang timbul dari revaluasi dicatat sebagai beban pada tahun berjalan. Apabila aset tersebut memiliki saldo "Selisih bersih revaluasi aset tetap" yang disajikan sebagai "penghasilan komprehensif lain", maka selisih penurunan nilai tercatat tersebut dibebankan terhadap "Selisih bersih revaluasi aset tetap" dan sisanya diakui sebagai beban tahun berjalan.

Grup melakukan revaluasi di tahun 2016 untuk tujuan akuntansi dan pajak dimana entitas memperoleh persetujuan dari otoritas perpajakan. Jumlah pajak yang telah dibayar diakui di penghasilan komprehensif lain dan terakumulasi dalam ekuitas dan di-offset pada bagian selisih bersih revaluasi aset tetap.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

q. Net investment finance leases (continued)

The lessee has the right option to purchase the leased asset at the end of the lease period at a price which has mutually agreed upon at the commencement of the agreement.

Early termination before end of finance leases' terms is treated as a cancellation of an existing contracts and the resulting gain or loss is recognised in the current year consolidated statement of profit or loss and other comprehensive income.

r. Fixed assets, leased assets and liabilities, and intangible assets

i. Fixed assets and software

On 1 April 2016, the Group changed their accounting policy relating to land from cost model into revaluation model. The land is stated at fair value.

Appraisal of the land is performed by a certified external independent appraiser. Assessment of those assets are conducted regularly to ensure that the fair value of the revaluated asset is not materially different from its carrying value.

If the fair value of the revalued asset change significantly and fluctuative, it is necessary to revalue the assets on an annual basis, whereas if the fair value of the revalued asset does not change significantly, it is necessary to revalue at a minimum every 3 years.

The increase in the carrying value arising from the revaluation of land is recorded as "Net differences in fixed assets revaluation" and is presented as "Other comprehensive income". Any impairment arising from the revaluation is recorded as expense of the current year. If the asset had a balance of "Net differences in fixed assets revaluation" that is presented as "other comprehensive income", then the impairment difference recorded is charged against "Net differences in fixed assets revaluation" and the rest is recognised as expense of the current year.

Group conducted revaluation in 2016, for accounting and tax purposes where the Group obtained approval from the tax authorities. The amount of taxes paid is recognised in other comprehensive income and accumulated in equity and offset against Net differences in fixed assets revaluation.

**PT BANK MANDIRI (PERSERO) Tbk.
DAN ENTITAS ANAKNYA/AND ITS SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2024 DAN 2023**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2024 AND 2023**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

r. Aset tetap, aset dan liabilitas sewa dan aset takberwujud (lanjutan)

i. Aset tetap dan perangkat lunak (lanjutan)

Aset tetap, kecuali tanah, dinyatakan sebesar biaya perolehan dikurangi akumulasi penyusutan dan penyisihan penurunan nilai. Biaya perolehan termasuk biaya penggantian bagian aset tetap saat biaya tersebut terjadi, jika memenuhi kriteria pengakuan aset tetap. Selanjutnya, pada saat inspeksi yang signifikan dilakukan, biaya inspeksi itu diakui ke dalam jumlah tercatat (*carrying amount*) aset tetap sebagai suatu penggantian jika memenuhi kriteria pengakuan. Semua biaya pemeliharaan dan perbaikan yang tidak memenuhi kriteria pengakuan diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian pada saat terjadinya. Perangkat lunak diakui sebagai aset takberwujud.

Penyusutan dan amortisasi dihitung dengan menggunakan metode garis lurus selama umur manfaat ekonomis aset tetap dan aset takberwujud yang diestimasi. Estimasi umur manfaat ekonomis dan persentase penyusutan dan amortisasi per tahun adalah sebagai berikut:

	Tahun/ Years	Persentase/ Percentage	
Bangunan	20	5%	<i>Buildings</i>
Perlengkapan, peralatan kantor, komputer dan kendaraan bermotor	4-5	20% - 25%	<i>Furniture and fixtures, office equipment, computer and vehicles</i>
Perangkat lunak	5	20%	<i>Software</i>

Jumlah tercatat aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset tetap (dihitung sebagai perbedaan antara jumlah neto hasil pelepasan dan jumlah tercatat dari aset tetap) dimasukkan dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian pada tahun berjalan aset tetap tersebut dihentikan pengakuannya.

Pada setiap akhir tahun buku, nilai residu, umur manfaat ekonomis dan metode penyusutan dikaji ulang dan jika tidak sesuai dengan keadaan akan disesuaikan secara prospektif.

Aset tetap dalam pembangunan dinyatakan sebesar biaya perolehan dan disajikan sebagai bagian dari aset tetap. Ketika aset dalam pembangunan telah selesai dan siap digunakan, akumulasi biaya perolehan direklasifikasikan ke akun aset tetap yang sebenarnya.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

r. Fixed assets, leased assets and liabilities, and intangible assets (continued)

i. Fixed assets and software (continued)

Fixed assets except for land are stated at cost less accumulated depreciation and impairment losses. Such cost includes the cost of replacing part of the fixed assets when that cost is incurred, if the recognition criteria are met. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the fixed assets as a replacement if the recognition criteria are fulfilled. All other repair and maintenance costs that do not have future economic benefit are recognised in the consolidated statement of profit or loss and other comprehensive incomes as incurred. Software is recognised as intangible assets.

Depreciation and amortization are calculated using the straight-line method over the estimated useful life of fixed assets and intangible assets. The estimated useful life and percentage of depreciation and amortization per annum are as follows:

Fixed assets are derecognised upon disposal or when no future economic benefits are expected from their use or disposal. Any gain or loss arising from the derecognition of the fixed asset (calculated as the difference between the net disposal proceeds and the carrying amount of the fixed asset) is included in the consolidated statement of profit or loss and other comprehensive income in the year which the fixed asset is derecognised.

The fixed asset's residual values, useful life and methods of depreciation are reviewed, and adjusted prospectively if appropriate at the end of each financial year.

Construction in progress of fixed asset is stated at cost and presented as part of fixed assets. Accumulated costs are reclassified to the appropriate fixed assets account when the assets are substantially complete and ready for their intended use.

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

r. Aset tetap, aset dan liabilitas sewa dan aset takberwujud (lanjutan)

i. Aset tetap dan perangkat lunak (lanjutan)

Sesuai dengan PSAK No. 216 (Revisi 2011) tentang "Aset Tetap", biaya perolehan hak atas tanah dalam bentuk hak guna usaha, hak guna bangunan dan hak pakai diakui sebagai aset tetap. Biaya perolehan tersebut merupakan biaya yang dapat diatribusikan secara langsung untuk memperoleh hak atas tanah tersebut termasuk biaya pengurusan legal hak atas tanah ketika tanah diperoleh pertama kali.

Hak atas tanah dalam bentuk hak guna usaha, hak guna bangunan dan hak pakai tidak disusutkan, kecuali terdapat bukti yang mengindikasikan bahwa perpanjangan atau pembaruan hak atas tanah tersebut kemungkinan besar atau pasti tidak diperoleh.

PSAK No. 236 (Revisi 2014) tentang "Penurunan Nilai Aset" mensyaratkan bahwa nilai tercatat aset tetap dikaji ulang setiap tanggal laporan posisi keuangan konsolidasian untuk menilai apakah aset tetap tersebut nilai tercatatnya lebih tinggi dari nilai terpulihkan (*recoverable amounts*) dari aset tetap tersebut. Jika nilai tercatat aset tetap melebihi taksiran nilai terpulihkan dari aset tetap tersebut, nilai tercatat aset tetap harus diturunkan menjadi nilai terpulihkan dari aset tetap tersebut.

ii. Aset dan liabilitas sewa

Grup telah menerapkan PSAK No. 116 "Sewa" sejak tanggal 1 Januari 2020.

PSAK No. 116 menerapkan persyaratan baru atau amendemen sehubungan dengan akuntansi sewa. Standar ini memperkenalkan perubahan signifikan untuk akuntansi penyewa dengan menghapus perbedaan antara sewa operasi dan pembiayaan, serta mensyaratkan pengakuan aset hak guna dan pengakuan liabilitas sewa pada saat dimulainya sewa untuk seluruh sewa, kecuali untuk sewa jangka pendek dan sewa aset bernilai rendah. Berbeda dengan akuntansi penyewa, persyaratan untuk akuntansi pesewa sebagian besar tidak berubah.

PSAK No. 116 menentukan apakah kontrak merupakan, atau mengandung sewa atas dasar jika penyewa memiliki hak untuk mengendalikan penggunaan aset selama suatu jangka waktu tertentu untuk dipertukarkan dengan imbalan.

Grup menggunakan tingkat diskonto tunggal untuk portofolio sewa dengan karakteristik yang hampir sama.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

r. Fixed assets, leased assets and liabilities, and intangible assets (continued)

i. Fixed assets and software (continued)

In accordance with SFAS No. 216 (Revised 2011) regarding "Fixed Assets", the cost of land rights in the form of right to cultivate, right to build and use rights are recognised as fixed assets. The acquisition cost is the cost that are directly attributable to obtain land rights, including the cost of legal rights to the land when the land was first acquired.

Land rights in the form of right to cultivate, right to build and use rights are not amortised, unless there is evidence to indicate that the extension or renewal of land rights is likely to or definitely not obtained.

SFAS No. 236 (Revised 2014) regarding "Impairment of Assets" requires that the carrying amounts of fixed assets are reviewed at each consolidated statement of financial position date to assess whether they are recorded in excess of their recoverable amounts of the fixed assets. If the carrying value exceeds this estimated recoverable amount, assets are written down to their recoverable amounts of the fixed assets.

ii. Leased assets and liabilities

The Group has implemented SFAS No. 116 "Lease" since 1 January 2020.

SFAS No. 116 applies new or amended requirements with respect to lease accounting. This standard introduces significant changes to lessee accounting by eliminating the distinction between operating and financing leases, and requires recognition of right-of-use assets and recognition of lease liabilities at lease inception for all leases, except for short-term leases and leases of low-value assets. In contrast to lessee accounting, the requirements for lessor accounting are mostly unchanged.

SFAS No. 116 determines whether a contract is, or contains a lease on the basis that the lessee has the right to control the use of the asset for a specified period of time in exchange for certain consideration.

The Group uses a single discount rate for lease portfolios with similar characteristics.

r. Aset tetap, aset dan liabilitas sewa dan aset takberwujud (lanjutan)

ii. Aset dan liabilitas sewa (lanjutan)

Grup menerapkan pendekatan pengakuan dan pengukuran tunggal untuk seluruh sewa, kecuali untuk sewa jangka pendek dan sewa aset bernilai rendah. Grup mengakui liabilitas sewa untuk melakukan pembayaran sewa dan aset hak guna yang mewakili hak untuk menggunakan aset pendasar.

Grup mengakui aset hak guna pada tanggal dimulainya sewa. Aset hak guna diukur pada biaya perolehan, dikurangi akumulasi penyusutan dan kerugian penurunan nilai, dan disesuaikan untuk setiap pengukuran kembali liabilitas sewa. Liabilitas sewa merupakan jumlah pembayaran sewa yang masih harus dibayar hingga akhir masa sewa yang didiskontokan dengan menggunakan suku bunga pinjaman inkremental. Biaya aset hak guna mencakup jumlah liabilitas sewa yang diakui, biaya langsung awal yang dibayarkan, biaya pemulihan dan pembayaran sewa yang dilakukan pada atau sebelum tanggal mulai sewa dikurangi insentif sewa yang diterima. Aset hak guna disusutkan dengan metode garis lurus selama jangka waktu yang lebih pendek antara masa sewa dengan estimasi masa manfaat aset, sebagai berikut:

- Bangunan	: 20 tahun/years	Buildings	-
- Mesin kantor	: 5 tahun/years	Office machines	-
- Komputer perangkat keras	: 5 tahun/years	Computer hardware	-
- Komputer perangkat lunak	: 5 tahun/years	Computer software	-
- Inventaris kantor	: 5 tahun/years	Office equipment	-
- Inventaris rumah dinas dan mess	: 5 tahun/years	Equipment of official houses and mess	-
- Kendaraan bermotor	: 5 tahun/years	Motor vehicle	-

Jika kepemilikan aset sewa dialihkan ke Grup pada akhir masa sewa atau pembayaran sewa mencerminkan pelaksanaan opsi pembelian, penyusutan dihitung menggunakan estimasi masa manfaat ekonomis aset. Aset hak guna diuji penurunan nilainya sesuai dengan PSAK No. 236 "Penurunan Nilai Aset".

Pada tanggal dimulainya sewa, Grup mengakui liabilitas sewa yang diukur pada nilai kini dari pembayaran sewa masa depan yang akan dilakukan selama masa sewa. Pembayaran sewa termasuk pembayaran tetap (termasuk pembayaran tetap secara-substansi) dikurangi piutang insentif sewa, pembayaran sewa variabel yang bergantung pada indeks atau suku bunga, dan jumlah yang diharapkan akan dibayar dalam jaminan nilai residu. Pembayaran sewa juga termasuk harga eksekusi opsi pembelian yang wajar jika dipastikan akan dilakukan oleh Grup dan pembayaran penalti untuk mengakhiri sewa, jika jangka waktu sewa mencerminkan Grup mengeksekusi opsi penghentian sewa. Pembayaran sewa variabel yang tidak bergantung pada indeks atau suku bunga diakui sebagai beban pada periode di mana peristiwa atau kondisi yang memicu pembayaran terjadi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

r. Fixed assets, leased assets and liabilities, and intangible assets (continued)

ii. Leased assets and liabilities (continued)

The Group applies a single recognition and measurement approach to all leases, except for short-term leases and low-value asset leases. The Group recognises a lease liabilities to make lease payments and rights of use assets that represent the right to use the underlying asset.

The Group recognised the rights of use assets at the inception date of the lease. The rights of use assets are measured at cost, less accumulated depreciation and impairment losses, and adjusted for any remeasurement of the lease liabilities. Lease liabilities are the amount of lease payments accrued until the end of the lease term, discounted using the incremental loan interest rate. The cost of right of use assets includes the amount of lease liability recognised, initial direct costs paid, recovery costs and lease payments made on or before the start date of the lease less lease incentives received. Rights of use assets are depreciated using the straight-line method over the shorter period between the lease term and the estimated useful life of the asset, as follows:

If the ownership of the leased asset is transferred to the Group at the end of the lease term or the lease payments reflect the exercise of the purchase option, depreciation is calculated using the estimated useful life of the asset. Rights of use assets are assessed for impairment in accordance with SFAS No. 236 "Impairment of Assets".

At the inception date of the lease, the Group recognises lease liabilities which measured at the present value of future lease payments to be made over the lease term. Lease payments include fixed payments (including substantially fixed payments) less lease incentive receivables, variable lease payments that are index or interest rate dependent, and the amount expected to be paid in a residual value guarantee. Lease payments also include the reasonable exercise price for the purchase option if it is determined to be made by the Group and the payment of a penalty to terminate the lease, if the lease term reflects the Group exercising the lease termination option. Variable lease payments that are not dependent on an index or interest rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

r. Aset tetap, aset dan liabilitas sewa dan aset takberwujud (lanjutan)

ii. Aset dan liabilitas sewa (lanjutan)

Dalam menghitung nilai kini dari pembayaran sewa, Grup menggunakan suku bunga pinjaman inkremental penyewa pada tanggal dimulainya sewa karena suku bunga implisit dalam sewa tidak dapat ditentukan. Setelah tanggal dimulainya sewa, jumlah liabilitas sewa ditingkatkan untuk mencerminkan pertambahan bunga dan dikurangi pembayaran sewa yang dilakukan. Selain itu, jumlah tercatat liabilitas sewa diukur kembali jika terdapat modifikasi, perubahan jangka waktu sewa, perubahan pembayaran sewa, atau perubahan dalam penilaian opsi untuk membeli aset pendasar.

Sewa jangka pendek dengan durasi kurang dari 12 bulan dan sewa aset bernilai rendah, serta elemen-elemen sewa tersebut, sebagian atau seluruhnya tidak menerapkan prinsip-prinsip pengakuan yang ditentukan oleh PSAK No. 116. Grup akan mengakui pembayaran sewa tersebut dengan dasar garis lurus selama masa sewa dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Beban ini ditunjukkan pada beban umum dan administrasi dalam laporan laba rugi.

Penerapan pencatatan PSAK No. 116 berlaku untuk seluruh sewa (kecuali sebagaimana yang disebutkan sebelumnya), yaitu sebagai berikut:

- (a) Menyajikan aset hak-guna sebagai bagian dari aset tetap dan liabilitas sewa disajikan sebagai bagian dari liabilitas lain-lain dalam laporan posisi keuangan konsolidasian, yang diukur pada nilai kini dari pembayaran sewa masa depan;
- (b) Mencatat penyusutan aset hak-guna dan bunga atas liabilitas sewa dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian; dan
- (c) Memisahkan jumlah pembayaran ke bagian pokok (disajikan dalam kegiatan pendanaan) dan bunga (disajikan dalam kegiatan operasional) dalam laporan arus kas konsolidasian.

iii. Aset takberwujud

Aset takberwujud terdiri dari perangkat lunak dan goodwill.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

r. Fixed assets, leased assets and liabilities, and intangible assets (continued)

ii. Leased assets and liabilities (continued)

In calculating the present value of lease payments, the Group uses the incremental loan interest rate of the lessee at the inception date of the lease because the interest rate implicit in the lease cannot be determined. After the inception date of the lease, the amount of the lease liability is increased to reflect the increase in interest and less lease payments made. In addition, the carrying amount of the lease liability is remeasured if there are modifications, changes in the term of the lease, changes in lease payments, or changes in the valuation of the option to purchase the underlying asset.

Short-term leases with a duration of less than 12 months and leases of low value assets, as well as elements of such leases, partially or wholly do not apply the recognition principles prescribed by SFAS No. 116. The Group will recognise the lease payment on a straight-line basis over the lease term in the consolidated statement of profit or loss and other comprehensive income. This expense is shown under general and administrative expenses in the income statement.

The implementation of SFAS No. 116 payment applies to all leases (except as stated earlier), as follows:

- (a) Present right of use assets as part of fixed assets and leased liabilities are presented as part of other liabilities in the consolidated statement of financial position, measured at the present value of future lease payments;*
- (b) Record the depreciation of right of use assets and the interest of lease liability in the consolidated statement of profit or loss and other comprehensive income; and*
- (c) Separating the total payment into principal (presented in financing activities) and interest (presented in operating activities) in the consolidated statement of cash flows.*

iii. Intangible assets

Intangible assets consist of software and goodwill.

r. Aset tetap, aset dan liabilitas sewa dan aset takberwujud (lanjutan)

iii. Aset takberwujud (lanjutan)

Perangkat lunak yang dibeli oleh Bank dan Entitas Anak dicatat sebesar biaya perolehan dikurangi akumulasi amortisasi dan akumulasi kerugian penurunan nilai. Metode amortisasi, estimasi masa manfaat dan nilai residual ditelaah pada setiap akhir tahun pelaporan dan disesuaikan jika diperlukan.

Goodwill diakui apabila terdapat selisih lebih antara harga perolehan dan bagian Bank Mandiri atas nilai wajar aset dan liabilitas yang dapat diidentifikasi pada tanggal akuisisi dan disajikan sebagai aset lain-lain. Bank melakukan evaluasi penurunan nilainya secara berkala.

s. Penyertaan saham

Penyertaan saham terdiri dari investasi jangka panjang terutama pada perusahaan non-publik dan penyertaan sementara hasil restrukturisasi kredit pada perusahaan debitur yang timbul akibat konversi kredit yang diberikan.

Penyertaan saham untuk tujuan investasi dengan kepemilikan di bawah 20% dan tidak terdapat pengaruh signifikan merupakan aset keuangan yang diklasifikasikan sebagai nilai wajar melalui laba rugi atau biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas nilai wajar melalui laba rugi dan biaya perolehan diamortisasi.

Penyertaan sementara akan dihapusbuku dari laporan posisi keuangan konsolidasian apabila telah melampaui jangka waktu 5 tahun sesuai dengan Peraturan Otoritas Jasa Keuangan (POJK) No. 40/POJK.03/2019 tanggal 19 Desember 2019 tentang Penilaian Kualitas Aset Bank Umum.

Penyertaan saham untuk tujuan investasi dengan kepemilikan saham sebesar 20% atau lebih dan terdapat pengaruh signifikan merupakan investasi pada entitas asosiasi. Investasi Bank Mandiri pada entitas asosiasi diukur dengan menggunakan metode ekuitas. Pengakuan awal investasi pada entitas asosiasi diakui sebesar biaya perolehan. Jumlah tercatat pada investasi pada entitas asosiasi ditambah atau dikurangkan untuk mengakui bagian Bank Mandiri atas laba rugi, penerimaan distribusi, perubahan yang diakui langsung pada ekuitas entitas asosiasi setelah tanggal perolehan.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

r. Fixed assets, leased assets and liabilities, and intangible assets (continued)

iii. Intangible assets (continued)

Software purchased by the Bank and Subsidiaries is recorded at cost less accumulated amortization and accumulated impairment losses. Amortization method, estimated useful life and residual value are reviewed at end of reporting period and adjusted if necessary.

Goodwill is recognised when there is a positive difference between the acquisition cost and the Bank Mandiri's portion of the fair value of identified assets and liabilities at the acquisition date. Goodwill is presented as other assets. The Bank conducts an assessment of goodwill impairment regularly.

s. Investments in shares

Investments in shares represent long-term investments mostly in non-publicly-listed companies and temporary investments from loan restructuring in debtor companies arising from conversion of loans.

Investments in shares under 20% and with no significant control are financial assets classified as fair value through profit/loss or amortised cost. Refer to Note 2c for the accounting policy for fair value through profit/loss or amortised cost.

Temporary investment is written-off from the consolidated statement of financial position if it has exceeded the 5 year period in accordance with Financial Services Authority Regulation (POJK) No. 40/POJK.03/2019 dated 19 December 2019 concerning Asset Quality Assessment of Commercial Banks.

Investments in shares for investment purposes with a share ownership of 20% or more and with significant influence are investments in associates. Bank Mandiri's investment in associates is measured at equity method. The initial recognition of investment in associates is recognised at cost of acquisition. The carrying amount of the investment in associates is adjusted to recognize Bank Mandiri's share of profit or loss, receipt of distributions, and changes directly recognise in the equity of the associates after the acquisition date.

t. Cadangan kerugian penurunan nilai aset non-produktif

Aset non-produktif adalah aset Bank Mandiri dan Entitas Anak, antara lain dalam bentuk agunan yang diambil alih, properti terbengkalai, rekening antar kantor dan *suspense account*.

Grup membentuk cadangan kerugian penurunan nilai atas agunan yang diambil alih dan properti terbengkalai sebesar selisih antara nilai tercatat dan nilai wajar setelah dikurangi biaya untuk menjual. Sedangkan untuk rekening antar kantor dan *suspense account*, adalah sebesar selisih antara nilai tercatat dan nilai pemulihan.

u. Tagihan dan liabilitas akseptasi

Tagihan akseptasi diklasifikasikan sebagai aset keuangan dalam kelompok biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas aset keuangan dalam kelompok biaya perolehan diamortisasi.

Liabilitas akseptasi diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

v. Aset lain-lain

Aset lain-lain antara lain terdiri dari pendapatan bunga dan provisi dan komisi yang masih akan diterima, tagihan, agunan yang diambil alih, properti terbengkalai, piutang *ijarah*, rekening antar kantor dan lain-lain.

Tagihan terdiri dari tagihan atas obligasi pemerintah yang diagunkan Bank Mandiri, tagihan Entitas Anak atas tagihan reksa dana dan tagihan kepada pemegang polis.

Agunan yang diambil alih ("AYDA") adalah aset yang diperoleh Bank Mandiri dan Entitas Anak, baik melalui pelelangan maupun di luar pelelangan berdasarkan penyerahan secara sukarela oleh pemilik agunan atau berdasarkan kuasa untuk menjual di luar lelang dari pemilik agunan dalam hal debitur tidak memenuhi liabilitasnya kepada Bank Mandiri dan Entitas Anak. AYDA merupakan agunan kredit yang diberikan yang telah diambil alih sebagai bagian dari penyelesaian kredit yang diberikan dan disajikan pada "Aset lain-lain".

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

t. Allowance for possible losses on non-earning assets

Non-earning assets of Bank Mandiri and the Subsidiaries consist of repossessed assets, abandoned properties, inter-office accounts and suspense accounts.

The Group provides an allowance for impairment of repossessed assets and abandoned property equal to the difference between the asset's carrying amount and its fair value less costs to sell. As for the inter-office account and suspense account, the allowance is equivalent to difference between the carrying value and the recovery value.

u. Acceptance receivables and payables

Acceptance receivables are classified as financial assets at amortised cost. Refer to Note 2c for the accounting policy of financial assets for financial assets at amortised cost.

Acceptance payables are classified as financial liabilities at amortised cost. Refer to Note 2c for the accounting policy for financial liabilities at amortised cost.

v. Other assets

Other assets include accrued income for interest, provision and commissions, receivables, repossessed assets, abandoned properties, ijarah receivables, inter-office accounts and others.

Receivables consist of receivables from government bonds pledged by the Bank, mutual fund receivables from Subsidiaries and receivables from policyholders.

Repossessed assets represent assets acquired by Bank Mandiri and its Subsidiaries, both from auction and non auction based on voluntary transfer by the debtor or based on debtor's approval to sell the collateral not through auction when the debtor do not fulfill their obligations to Bank Mandiri and Subsidiaries. Repossessed assets represent loan collateral that were taken over as part of loans settlement and presented in "Other assets".

(lanjutan)**

v. Aset lain-lain (lanjutan)

Aset yang tidak digunakan (properti terbengkalai) adalah aset dalam bentuk properti yang dimiliki Bank Mandiri dan Entitas Anak, dimana bagian properti tersebut secara mayoritas tidak digunakan untuk kegiatan usaha operasional Bank Mandiri dan Entitas Anak.

AYDA dan properti terbengkalai disajikan sebesar nilai bersih yang dapat direalisasi (*net realizable value*). Nilai bersih yang dapat direalisasi adalah nilai wajar agunan yang diambil alih dikurangi dengan estimasi biaya untuk menjual AYDA tersebut. Selisih antara nilai bersih yang dapat direalisasi dengan hasil penjualan AYDA diakui sebagai keuntungan atau kerugian pada periode berjalan pada saat dijual.

Ijarah adalah akad pemindahan hak guna (manfaat) atas suatu aset dalam waktu tertentu dengan pembayaran sewa (*ujrah*) tanpa diikuti dengan pemindahan kepemilikan aset itu sendiri. *Ijarah muntahiyah bittamlik* adalah penyediaan dana dalam rangka memindahkan hak guna atau manfaat dari suatu barang atau jasa berdasarkan transaksi sewa dengan opsi pemindahan kepemilikan barang kepada penyewa. Perpindahan hak milik objek sewa kepada penyewa dalam *ijarah muntahiyah bittamlik* dapat dilakukan dengan hibah. Piutang pendapatan *ijarah* diakui pada saat jatuh tempo sebesar sewa yang belum diterima dan disajikan sebesar nilai bersih yang dapat direalisasikan, yakni sebesar saldo piutang.

Beban-beban yang berkaitan dengan pemeliharaan AYDA dan properti terbengkalai dibebankan ke laporan laba rugi dan penghasilan komprehensif lain konsolidasian periode berjalan pada saat terjadinya. Bila terjadi penurunan nilai yang bersifat permanen, maka nilai tercatatnya dikurangi untuk mengakui penurunan tersebut dan kerugiannya dibebankan pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian tahun berjalan. Lihat Catatan 2t untuk kebijakan akuntansi atas penyisihan kerugian AYDA dan properti terbengkalai.

w. Liabilitas segera

Liabilitas segera dicatat pada saat timbulnya liabilitas, baik kepada masyarakat maupun kepada bank lain. Liabilitas segera diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

v. Other assets (continued)

Abandoned properties represent Bank and Subsidiaries' fixed assets in the form of properties which majority part of the property were not used for Bank and Subsidiaries' business operational activity.

Repossessed assets and abandoned properties are presented at their net realizable values. Net realizable value is the fair value of the repossessed assets less estimated costs to sell the repossessed assets. Differences between the net realizable value and the proceeds from disposal of the repossessed assets are recognised as current year's gain or loss at the year of disposal.

Ijarah is a contract involving the transfer of right of use (benefit) of an asset for a specific period which the lessee pays rent (*ujrah*) without the transfer of ownership of the asset itself. *Ijarah muntahiyah bittamlik* is the provision of funds to transfer the right of use or benefit of goods or services based on a lease transaction with an option to transfer ownership of the goods to the lessee. The transfer of ownership of the leased object to the lessee in *ijarah muntahiyah bittamlik* can be executed as a grant. *Ijarah* revenue receivables are recognised at the due date which equal to the outstanding rent amount and presented at the net realisable value, which is the outstanding balance of the receivables.

Expenses for maintaining repossessed assets and abandoned properties are recognised in the current year's consolidated statement of profit or loss and other comprehensive income as incurred. Any permanent impairment loss that occurred will be deducted from the carrying amount and be charged to the current year's consolidated statement of profit or loss and other comprehensive income. Refer to Note 2t for changes in accounting policy to determine impairment losses on repossessed assets and abandoned properties.

w. Obligations due immediately

Obligations due immediately are recorded at the time the obligations occurred to customers or other banks. *Obligations due immediately* are classified as financial liabilities at amortised cost.

x. Simpanan nasabah

Simpanan nasabah adalah dana yang ditempatkan oleh masyarakat (tidak termasuk bank) kepada Bank dan Entitas Anak yang bergerak di bidang perbankan berdasarkan perjanjian penyimpanan dana. Termasuk dalam pos ini adalah giro, tabungan, deposito berjangka dan bentuk simpanan lain yang dipersamakan dengan itu.

Giro merupakan simpanan nasabah yang dapat digunakan sebagai alat pembayaran, yang penarikannya dapat dilakukan setiap saat melalui cek, kartu Anjungan Tunai Mandiri ("ATM"), atau dengan cara pemindahbukuan dengan bilyet giro atau sarana perintah pembayaran lainnya.

Tabungan merupakan simpanan nasabah yang penarikannya hanya dapat dilakukan melalui counter dan ATM atau dengan cara pemindahbukuan melalui *SMS Banking*, *Phone Banking* dan *Internet Banking* jika memenuhi persyaratan yang disepakati, tetapi penarikan tidak dapat dilaksanakan dengan menggunakan cek atau instrumen setara lainnya.

Deposito berjangka merupakan simpanan nasabah yang penarikannya hanya dapat dilakukan pada waktu tertentu sesuai dengan perjanjian antara nasabah dengan Bank. Deposito berjangka dinyatakan sebesar nilai perolehan diamortisasi sesuai dengan perjanjian antara pemegang deposito berjangka dengan Bank.

Termasuk di dalam giro adalah giro dan tabungan *wadiah*. Giro *wadiah* dapat digunakan sebagai instrumen pembayaran dan dapat ditarik setiap saat melalui cek dan bilyet giro. Giro *wadiah* serta tabungan *wadiah* mendapatkan bonus sesuai dengan kebijakan Entitas Anak. Simpanan nasabah dalam bentuk giro *wadiah* dan tabungan *wadiah* dinyatakan sebesar liabilitas Entitas Anak.

Simpanan nasabah diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi. Biaya tambahan yang dapat diatribusikan secara langsung dengan perolehan simpanan nasabah diperhitungkan dalam jumlah simpanan yang diterima dan diamortisasi sepanjang estimasi umur simpanan tersebut. Lihat Catatan 2c untuk kebijakan akuntansi atas liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

x. Deposits from customers

Deposits from customers are the funds placed by customers (excluding banks) to the Bank and Subsidiaries which operate in banking industry based on a fund deposit agreement. Included in this account are demand deposits, saving deposits, time deposits and other similar deposits.

Demand deposits represent deposits of customers that may be used as instruments of payment, and which may be withdrawn at any time by cheque, Automated Teller Machine card ("ATM") or by overbooking through written transfer instruction (bilyet giro) or other orders of payment or transfers.

Saving deposits represent deposits of customers that may only be withdrawn over the counter and via ATMs or funds transfers by SMS Banking, Phone Banking and Internet Banking when certain agreed conditions are met, but which may not be withdrawn by cheque or other equivalent instruments.

Time deposits represent customers deposits that may only be withdrawn after a certain time based on the agreement between the customer and the Bank. Time deposits are stated at amortised cost in the certificates between the Bank and the holders of time deposits.

Included in demand deposits are wadiah demand deposits and wadiah saving deposits. Wadiah demand deposits can be used as payment instruments and can be withdrawn at any time using cheque and written transfer instruction (bilyet giro). Wadiah demand deposits and wadiah saving deposits earn bonus based on Subsidiary's policy. Wadiah demand deposits and wadiah saving deposits are stated at the Subsidiary's liability amount.

Deposits from customers are classified as financial liabilities at amortised cost. Incremental costs directly attributable to acquisition of deposits from customers are included in the amount of deposits and amortised over the expected life of the deposits. Refer to Note 2c for the accounting policy for financial liabilities at amortised cost.

y. Simpanan dari bank lain

Simpanan dari bank lain terdiri dari liabilitas terhadap bank lain, baik lokal maupun luar negeri, dalam bentuk giro, tabungan, *inter-bank call money* dengan periode jatuh tempo menurut perjanjian kurang dari atau 90 hari, deposito berjangka dan *negotiable certificates of deposits*. Simpanan dari bank lain dicatat sebagai liabilitas terhadap bank lain.

Di dalam simpanan dari bank lain termasuk simpanan syariah dalam bentuk giro *wadiah*.

Simpanan dari bank lain diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi. Biaya tambahan yang dapat diatribusikan secara langsung dengan perolehan simpanan diperhitungkan dalam jumlah simpanan yang diterima dan diamortisasi sepanjang estimasi umur simpanan tersebut. Lihat Catatan 2c untuk kebijakan akuntansi atas liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

z. Kontrak asuransi

Kontrak asuransi adalah kontrak yang diterbitkan oleh perusahaan asuransi dimana perusahaan asuransi menerima risiko asuransi yang signifikan dari pemegang polis. Risiko asuransi yang signifikan didefinisikan sebagai kemungkinan membayar manfaat yang signifikan kepada tertanggung apabila suatu kejadian yang diasuransikan terjadi dibandingkan dengan manfaat minimum yang akan dibayarkan apabila risiko yang diasuransikan tidak terjadi. Skenario-skenario yang diperhatikan adalah skenario yang mengandung unsur komersial.

Entitas Anak menerbitkan kontrak asuransi yang menerima risiko asuransi yang signifikan dari pemegang polis. Entitas Anak mendefinisikan risiko asuransi yang signifikan sebagai kemungkinan membayar manfaat pada saat terjadinya suatu kejadian yang diasuransikan, yang setidaknya 10% lebih besar dari manfaat yang dibayarkan jika kejadian yang diasuransikan tidak terjadi. Jika suatu kontrak asuransi tidak mengandung risiko asuransi yang signifikan, maka kontrak tersebut diklasifikasikan sebagai kontrak investasi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

y. Deposits from other banks

Deposits from other banks represent liabilities to local or overseas banks, in the form of demand deposits, saving deposits, interbank call money with original maturities of 90 days or less based on agreement, time deposits and negotiable certificate of deposits. Deposits from other banks are recorded as liability to other banks.

Included in the deposits from other banks are sharia deposits in a form of wadiah demand deposits.

Deposits from other banks are classified as financial liabilities at amortised cost. Incremental costs directly attributable to acquisition of deposits from other banks are included in the amount of deposits and amortised over the expected life of the deposits. Refer to Note 2c for the accounting policy for financial liabilities at amortised cost.

z. Insurance contract

Insurance contract is a contract issued by insurance companies which the insurer accepts significant insurance risk from the policyholders. Significant insurance risk is defined as the possibility of paying significantly more benefit to the policyholder upon the occurrence of insured event compared to the minimum benefit payable in a scenario where the insured event does not occur. Scenarios that are considered are those with commercial substance.

The Subsidiaries issue insurance contracts that accepted significant insurance risk from the policyholders. The Subsidiaries define significant insurance risk as the possibility of having to pay benefits on the occurrence of an insured event of at least 10% more than the benefits payable if the insured event did not occur. When an insurance contract does not have significant insurance risk, it is classified as investment contract.

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

z. Kontrak asuransi (lanjutan)

Entitas Anak menerbitkan kontrak asuransi untuk produk asuransi tradisional dan produk asuransi yang dikaitkan dengan investasi. Kedua jenis produk ini mempunyai risiko asuransi yang signifikan.

Produk-produk dari Entitas Anak dibagi berdasarkan kategori sebagai berikut:

- Asuransi jiwa tradisional *non-participating*, memberikan perlindungan untuk menutupi risiko kematian, kecelakaan, penyakit kritis dan kesehatan dari pemegang polis. Jumlah uang pertanggungan akan dibayarkan pada saat terjadinya risiko yang ditanggung.
- *Unit-link*, produk asuransi dengan pembayaran premi tunggal maupun reguler yang dikaitkan dengan investasi yang memberikan kombinasi manfaat proteksi dan manfaat investasi.

Ketika sebuah kontrak telah diklasifikasi sebagai kontrak asuransi, reklasifikasi terhadap kontrak tersebut tidak dapat dilakukan kecuali ketentuan perjanjian kemudian diamendemen. Seluruh produk asuransi yang diterbitkan oleh Entitas Anak mempunyai risiko asuransi yang signifikan.

Entitas Anak memisahkan komponen deposit dari kontrak *unit-link* seperti yang disyaratkan oleh PSAK No. 104 jika kondisi-kondisi di bawah ini terpenuhi:

- Entitas Anak dapat mengukur komponen "deposit" secara terpisah (termasuk opsi penyerahan melekat, yaitu tanpa memperhitungkan komponen "asuransi");
- Kebijakan akuntansi Entitas Anak tidak mensyaratkan untuk mengakui semua hak dan liabilitas yang timbul dari komponen "deposit".

Entitas Anak tidak memisahkan komponen deposit dikarenakan hanya salah satu kondisi di atas yang terpenuhi.

Pengujian kecukupan liabilitas

Pengujian kecukupan liabilitas dilakukan pada tanggal pelaporan untuk kontrak secara individual ataupun per kelompok produk, ditentukan sesuai dengan cara Entitas Anak memperoleh, memelihara dan mengukur profitabilitas dari kontrak asuransi tersebut.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

z. Insurance contract (continued)

The Subsidiaries issue insurance contracts for traditional insurance product and investment-linked insurance product. Both of these products have significant insurance risk.

The Subsidiaries' products are divided into the following main categories:

- *Traditional non-participating life insurance, provide protection to cover the risk of death, accident, critical illness, and health of the insured. The basic of sum insured will be paid upon the occurrence of the risks covered.*
- *Unit-link, insurance product with single or regular premium payment which is linked to investment products, which provides a combined benefit of protection and investment.*

Once a contract has been classified as an insurance contract, no reclassification could be performed subsequently unless the terms of the agreement are later amended. All insurance products issued by the Subsidiaries have significant insurance risk.

The Subsidiaries separate the deposit component from unit-link contract as required by SFAS No. 104 when both the following conditions are met:

- *The Subsidiaries can measure separately the "deposit" component (including any embedded submission option, i.e. without taking into account the "insurance" component);*
- *The Subsidiaries' accounting policies do not require to recognise all rights and obligations arising from the "deposit" component.*

The Subsidiaries do not separate the deposit component because only one of the above conditions is met.

Liability adequacy test

Liability adequacy testing is performed at reporting date for contract individually or group of products determined in accordance with the Subsidiaries' method of acquiring, servicing and measuring the profitability of its insurance contracts.

z. Kontrak asuransi (lanjutan)

Pengujian kecukupan liabilitas (lanjutan)

Untuk asuransi jiwa, liabilitas kepada pemegang polis khususnya liabilitas untuk klaim masa depan diuji untuk menentukan apakah liabilitas tersebut cukup untuk menutupi semua arus kas keluar di masa depan termasuk semua manfaat yang dijamin dan manfaat tambahan yang dijamin, manfaat partisipasi yang tidak dijamin (jika ada), semua biaya untuk penerbitan polis dan pemeliharaan polis, serta mencerminkan arus kas masuk masa depan yaitu penerimaan premi masa depan, yaitu premi yang diterima di masa depan. Liabilitas dihitung berdasarkan diskonto dari arus kas untuk semua arus kas yang terkait yaitu arus kas keluar dan arus kas masuk seperti yang disebutkan di atas dengan menggunakan seperangkat asumsi estimasi terbaik terkini yang ditetapkan oleh aktuaris Entitas Anak, termasuk asumsi tingkat mortalitas, morbiditas, tingkat pembatalan polis, biaya, tingkat inflasi dan tingkat suku bunga, serta asumsi marjin atas risiko pemburukan. Entitas Anak yang bergerak dalam bidang asuransi jiwa menerapkan metode *Gross Premium Reserve* dalam perhitungan cadangan premi atas manfaat polis masa depan kepada pemegang polis dengan menggunakan asumsi aktuarial berdasarkan asumsi estimasi terbaik dan marjin atas risiko pemburukan, sehingga pengujian kecukupan liabilitas tidak diperlukan lagi.

Reasuransi

Entitas Anak mereasuransikan sebagian porsi risikonya kepada perusahaan reasuradur. Jumlah premi yang dibayar atau porsi premi atas transaksi reasuransi prospektif diakui selama periode kontrak asuransi sesuai dengan proporsi jumlah proteksi reasuransi yang diterima.

Aset reasuransi termasuk saldo yang diharapkan dibayarkan oleh perusahaan reasuransi untuk *ceded* liabilitas manfaat polis masa depan, *ceded* estimasi liabilitas klaim dan *ceded* cadangan atas premi yang belum merupakan pendapatan. Jumlah manfaat yang ditanggung oleh reasuradur diperkirakan secara konsisten sesuai dengan liabilitas yang terkait dengan polis reasuransi.

Entitas Anak menyajikan aset reasuransi secara terpisah sebagai aset atas liabilitas manfaat polis masa depan, cadangan atas premi yang belum merupakan pendapatan dan estimasi liabilitas klaim.

Jika aset reasuransi mengalami penurunan nilai, Entitas Anak mengurangi nilai tercatat dan mengakui kerugian penurunan nilai tersebut dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Aset reasuransi mengalami penurunan nilai jika ada bukti objektif, sebagai akibat dari suatu peristiwa yang terjadi setelah pengakuan awal aset reasuransi, bahwa Entitas Anak tidak dapat menerima seluruh jumlah karena di bawah syarat-syarat kontrak dan dampak pada jumlah yang akan diterima dari reasuradur dapat diukur secara andal.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

z. Insurance contract (continued)

Liability adequacy test (continued)

For life insurance, the liabilities to policyholder in particular the liabilities for future claim are tested to determine whether the liabilities sufficient to cover all related future cash out flow including all guaranteed benefit and guaranteed additional benefit, non-guaranteed participation benefit feature (if any), all expenses for policies issuance and maintenance, as well as reflecting the future cash inflow, i.e. future premium receipt. The liabilities are calculated based on discounted cash flow basis for all related cash flows i.e. both of cash outflows and cash inflows as mentioned above using a set of most recent best estimate assumptions set by the Subsidiaries' appointed actuary, includes mortality, morbidity, lapses, expenses, inflation rates, and interest rate, assumptions as well as margin for adverse deviation assumptions. Subsidiaries operate in life insurance use Gross Premium Reserve in the premium allowance calculation for future policy benefits to the policyholders using actuary assumptions with best estimate and margin for adverse deviation, therefore liability adequacy test is not required.

Reinsurance

The Subsidiaries reinsure a portion of its risk to reinsurance companies. The amount of premium paid or portion of premium from prospective reinsurance transactions is recognised over the reinsurance contract in proportion with the protection received.

Reinsurance assets include balances expected to be recovered from reinsurance companies for ceded liability for future policy benefits, ceded estimated claim liabilities and ceded unearned premiums allowance. Recovery amount from reinsurers are estimated in a consistent manner with the liability associated with the reinsurance policy.

Subsidiaries present separately reinsurance asset of future policy benefit liabilities, unearned premium allowance, and estimated claim liabilities.

If a reinsurance asset is impaired, the Subsidiaries deducted the carrying amount accordingly and recognise that impairment loss in the consolidated statement of profit or loss and other comprehensive income. A reinsurance asset is impaired if there is objective evidence, as a result of an event that occurred after initial recognition of the reinsurance asset, that the Subsidiary may not receive all amounts due to it is below the requirement of the contract, and the impact on the amounts that the Subsidiary will receive from the reinsurer can be reliably measured.

z. Kontrak asuransi (lanjutan)

Liabilitas manfaat polis masa depan

Liabilitas manfaat polis masa depan merupakan nilai sekarang estimasi manfaat polis masa depan yang akan dibayarkan kepada pemegang polis atau ahli warisnya dikurangi dengan nilai sekarang dari estimasi premi masa depan yang akan diterima dari pemegang polis dan diakui pada saat pengakuan pendapatan premi. Liabilitas manfaat polis masa depan ditentukan dan dihitung dengan menggunakan rumus tertentu oleh aktuaris Entitas Anak.

Entitas Anak menghitung liabilitas manfaat polis masa depan dengan menggunakan metode *Gross Premium Reserve* yang mencerminkan nilai kini estimasi pembayaran seluruh manfaat yang diperjanjikan termasuk seluruh opsi yang disediakan, nilai kini estimasi seluruh biaya yang dikeluarkan dan juga mempertimbangkan penerimaan premi di masa depan.

Kenaikan/(penurunan) liabilitas manfaat polis masa depan diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian tahun berjalan.

Liabilitas kepada pemegang polis *unit-link* diakui pada saat penerimaan dana dikonversi menjadi unit setelah dikurangi biaya-biaya dan akan bertambah atau berkurang sesuai dengan nilai aset bersih efektif yang berlaku.

Penerimaan dana dari nasabah untuk produk *unit-link* non-syariah diakui sebagai pendapatan premi bruto dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Liabilitas kepada pemegang polis *unit-link* diakui di laporan posisi keuangan konsolidasian dan dihitung menggunakan metode cadangan atas premi yang belum merupakan pendapatan yang dihitung dengan menggunakan metode harian berdasarkan biaya asuransi atas risiko mortalitas, ditambah cadangan atas akumulasi dana investasi pemegang polis.

Setiap bunga, keuntungan atau kerugian dari kenaikan atau penurunan nilai pasar investasi dicatat sebagai pendapatan atau beban, disertai dengan pengakuan kenaikan atau penurunan liabilitas kepada pemegang polis *unit-link* di laporan laba rugi dan penghasilan komprehensif lain konsolidasian dan liabilitas kepada pemegang polis *unit-link* di laporan posisi keuangan konsolidasian.

Penerimaan dana dari nasabah untuk produk *unit-link* syariah diakui sebagai liabilitas kepada pemegang polis *unit-link* di laporan posisi keuangan konsolidasian sebesar jumlah yang diterima setelah dikurangi bagian *fee* untuk Entitas Anak dalam rangka mengelola pendapatan dari produk *unit-link*.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

z. Insurance contract (continued)

Liability for future policy benefits

The liabilities for future policy benefits represent the present value of estimated future policy benefits to be paid to policyholders or their heirs less present value of estimated future premiums to be received from the policyholders and recognised consistently with the recognition of premium income. The liabilities for future policy benefits are determined and computed based on certain formula by the Subsidiaries' actuary.

The Subsidiaries calculate the liability for future policy benefits using Gross Premium Reserve method that reflect the present value of estimated payments of all the guaranteed benefits including all the embedded options available, the present value estimated of all handling costs incurred and also considering the future premium receipt.

Increase/(decrease) in liabilities for future policy benefits are recognised in the current year's consolidated statement of profit or loss and other comprehensive income.

The liability to unit-link policyholders are recognised at the time the funds received are converted into units, net of related expenses and will increase or decrease in accordance with effective net asset value.

Funds received from customers for non-sharia unit-link products are recognised as gross premium income in the consolidated statement of profit or loss and other comprehensive income. Liabilities to unit-link policyholders are recognised in the consolidated statement of financial position and computed based on unearned premium reserves using daily method from insurance cost of mortality risk plus reserves for the accumulated invested fund of unit-link policyholders.

Any interest, gain or loss due to increases or decreases in market value of investments are recorded as income or expense, with a corresponding recognition of increase or decrease in liability to unit-link policyholders in the statement of profit or loss and other comprehensive income and liability to unit-link policyholders in the consolidated statement of financial position.

Funds received from customers for sharia unit-link products are recognised as liabilities to unit-link policyholders in the consolidated statement of financial position for the amount received net of the portion representing the Subsidiaries fees in managing the unit-link product income.

z. Kontrak asuransi (lanjutan)

Risiko yang belum jatuh tempo

Liabilitas untuk manfaat kontraktual yang diharapkan akan timbul di masa depan dicatat pada saat premi diakui. Liabilitas ditetapkan sebagai penjumlahan atas nilai diskonto yang diharapkan dari pembayaran manfaat dan biaya administrasi masa depan yang berkaitan langsung dengan kontrak asuransi, dikurangi dengan nilai diskonto yang diharapkan atas premi teoritis yang dibutuhkan untuk memenuhi manfaat dan biaya administrasi berdasarkan asumsi penilaian yang digunakan (penilaian premi). Liabilitas tersebut didasarkan pada asumsi-asumsi seperti kematian, persistensi, biaya pemeliharaan dan pendapatan investasi yang ditetapkan pada saat kontrak asuransi dikeluarkan. Sebuah margin untuk penyimpangan yang merugikan termasuk dalam asumsi yang digunakan.

aa. Efek-efek yang diterbitkan

Efek-efek yang diterbitkan oleh Bank Mandiri dan Entitas Anak, termasuk obligasi, subordinasi *notes*, *medium term notes*, *traveller's cheques* dan Sertifikat Investasi *Mudharabah* Antarbank (SIMA) pada pengukuran awal disajikan sebesar nilai wajar ditambah dengan biaya transaksi yang dapat diatribusikan langsung dengan perolehan/penerbitan efek-efek yang diterbitkan. Biaya transaksi kemudian diamortisasi dengan suku bunga efektif sampai dengan jatuh tempo dari efek-efek yang diterbitkan.

Efek-efek yang diterbitkan diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi atas liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

ab. Pinjaman yang diterima

Pinjaman yang diterima merupakan dana yang diterima dari bank lain, Bank Indonesia atau pihak lain dengan liabilitas pembayaran kembali sesuai dengan persyaratan perjanjian pinjaman.

Pada pengukuran awal, pinjaman yang diterima disajikan sebesar nilai wajar dikurangi dengan biaya transaksi yang dapat diatribusikan langsung dengan perolehan/penerbitan pinjaman yang diterima. Pinjaman yang diterima diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi untuk liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

z. Insurance contract (continued)

Unexpired risk reserve

A liability for contractual benefits that are expected to be incurred in the future is recorded when the premiums are recognised. The liability is determined as the sum of the expected discounted value of the benefit payments and the future administration expenses that are directly related to the insurance contract, less the expected discounted value of the theoretical premiums that would be required to meet the benefits and administration expenses based on the valuation assumptions used (the premiums valuation). That liability is based on assumptions such as mortality, persistency, maintenance expense and investment income that are established at the time the contract is issued. A margin for adverse deviation is included in the used assumptions.

aa. Debt securities issued

Debt securities issued by the Bank and its Subsidiaries, including bonds, subordinated notes, medium term notes, travelers' cheques and Interbank Mudharabah Investment Certificate (SIMA), are initially measured at fair value plus directly attributable transaction costs to the debt securities issued. Subsequently, transactions cost are amortised using effective interest rate up to the maturity of debt securities issued.

Debt securities issued are classified as financial liabilities at amortised cost. Refer to Note 2c for the accounting policy for financial liabilities at amortised cost.

ab. Fund borrowings

Fund borrowings represent funds received from other banks, Bank Indonesia or other parties with the obligation of repayment in accordance with the requirements of the loan agreement.

Fund borrowings are initially measured at fair value less directly attributable transaction costs. Fund borrowings are classified as financial liabilities at amortised cost. Refer to Note 2c for the accounting policy for financial liabilities at amortised cost.

ab. Pinjaman yang diterima (lanjutan)

Fasilitas pengelolaan likuiditas berdasarkan prinsip syariah Bank Indonesia (PASBI) yang diterima oleh Entitas Anak Syariah diklasifikasikan dalam akun "Pinjaman yang Diterima". Bank Indonesia dan Entitas Anak sepakat melakukan akad *wakalah bil istismar* untuk pengelolaan dana dengan agunan berupa surat berharga syariah. Dana yang diterima diakui sebagai liabilitas kepada Bank Indonesia.

Bank melakukan pengelolaan dana untuk kegiatan investasi usaha secara keseluruhan (*mutlaqah*). Pengembalian dana kelolaan dan pembayaran hasil pengelolaan (*istismar*) dilakukan pada saat pelunasan.

ac. Pinjaman dan efek-efek subordinasi

Pinjaman dan efek-efek subordinasi pada pengukuran awal disajikan sebesar nilai wajar dikurangi dengan biaya transaksi yang dapat diatribusikan langsung dengan perolehan/penerbitan pinjaman dan efek-efek subordinasi. Biaya transaksi kemudian diamortisasi dengan suku bunga efektif sampai dengan jatuh tempo dari pinjaman dan efek-efek subordinasi.

Pinjaman dan efek-efek subordinasi diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan yang diamortisasi. Lihat Catatan 2c untuk kebijakan akuntansi untuk liabilitas keuangan yang diukur dengan biaya perolehan yang diamortisasi.

ad. Perpajakan

Bank Mandiri dan Entitas Anak menerapkan PSAK No. 212 (Revisi 2014) tentang "Pajak Penghasilan", yang mengharuskan Bank Mandiri dan Entitas Anak memperhitungkan konsekuensi pajak kini dan pajak di masa depan (penyelesaian) dari jumlah tercatat aset (liabilitas) yang diakui dalam laporan posisi keuangan dan transaksi-transaksi serta peristiwa lain yang terjadi dalam tahun berjalan.

Beban pajak terdiri dari pajak kini dan pajak tangguhan. Pajak diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian, kecuali jika pajak tersebut terkait dengan transaksi atau kejadian yang langsung diakui ke ekuitas. Dalam hal ini, pajak tersebut masing-masing diakui dalam penghasilan komprehensif lain atau ekuitas.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

ab. Fund borrowings (continued)

The sharia liquidity management facility of Bank Indonesia (PASBI) received by Sharia Subsidiaries is classified as "Fund Borrowings". Bank Indonesia and the Subsidiary mutually agree to enter into a wakalah bil istismar contract for fund management, guaranteed by sharia securities. The funds received are recognised as liabilities to Bank Indonesia.

The Bank undertakes fund management for whole business investment activities (mutlaqah). The return of managed funds and the distribution of investments return (istismar) occur upon maturity.

ac. Subordinated loans and marketable securities

Subordinated loans and marketable securities are initially measured at fair value less directly attributable transaction costs. Subsequently, transactions costs are amortised using the effective interest rate up to the maturity of subordinated loans and marketable securities.

Subordinated loans and marketable securities are classified as financial liabilities at amortised cost. Refer to Note 2c for the accounting policy for financial liabilities at amortised cost.

ad. Income tax

Bank Mandiri and Subsidiaries apply SFAS No. 212 (Revised 2014) regarding "Income Tax" which requires Bank Mandiri and Subsidiaries to take into account the consequences of the current and future tax (settlement) from the carrying amount of assets (liabilities) that are recognised in the consolidated statement of financial position, and transactions and other events occurred in the current period.

The tax expense comprises current and deferred tax. Tax is recognised in the consolidated statement of profit or loss and other comprehensive income, except to the extent that it relates to items recognised directly in equity. In this case, the tax is recognised in other comprehensive income or directly in equity, respectively.

31 DECEMBER 2024 AND 2023**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

ad. Perpajakan (lanjutan)

Manajemen Grup mengevaluasi secara periodik implementasi terhadap peraturan perpajakan yang berlaku terutama yang memerlukan interpretasi lebih lanjut mengenai pelaksanaannya termasuk juga evaluasi terhadap surat ketetapan pajak yang diterima dari kantor pajak. Lebih lanjut, Bank Mandiri membentuk cadangan, jika dianggap perlu berdasarkan jumlah yang diestimasikan akan dibayarkan ke kantor pajak.

Bank Mandiri dan Entitas Anak menerapkan metode liabilitas laporan posisi keuangan (*balance sheet liability method*) untuk menentukan beban pajak penghasilan. Menurut metode liabilitas laporan posisi keuangan, aset dan utang pajak tangguhan diakui untuk semua perbedaan temporer antara nilai aset dan liabilitas yang tercatat di laporan posisi keuangan dengan dasar pengenaan pajak atas aset dan liabilitas tersebut pada setiap tanggal pelaporan. Metode ini juga mensyaratkan adanya pengakuan manfaat pajak di masa datang yang belum digunakan apabila besar kemungkinan bahwa manfaat tersebut dapat direalisasikan di masa yang akan datang.

Aset pajak tangguhan diakui apabila terdapat kemungkinan besar bahwa jumlah laba fiskal pada masa datang akan memadai untuk mengkompensasi aset pajak tangguhan yang muncul akibat perbedaan temporer.

Pajak tangguhan dihitung dengan menggunakan tarif pajak yang berlaku atau secara substansial diberlakukan pada periode dimana aset tersebut direalisasi atau liabilitas tersebut diselesaikan. Perubahan nilai tercatat aset dan liabilitas pajak tangguhan yang disebabkan oleh perubahan tarif pajak dibebankan pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian tahun berjalan, kecuali untuk transaksi-transaksi yang sebelumnya telah langsung dibebankan atau dikreditkan ke ekuitas.

Koreksi atas liabilitas pajak diakui pada saat surat ketetapan pajak diterima, atau apabila diajukan keberatan dan/atau banding, maka koreksi diakui pada saat keputusan atas keberatan dan/atau banding tersebut diterima. Manajemen juga dapat membentuk pencadangan terhadap liabilitas pajak di masa depan sebesar jumlah yang diestimasikan akan dibayarkan ke kantor pajak jika berdasarkan evaluasi pada tanggal laporan posisi keuangan konsolidasian terdapat risiko pajak yang *probable*. Asumsi dan estimasi yang digunakan dalam perhitungan pembentukan cadangan tersebut memiliki unsur ketidakpastian.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

ad. Income tax (continued)

The Group's management periodically evaluates the implementation of prevailing tax regulations especially for those that are subject to further interpretation for its implementation, including evaluation on tax assessment letters received from tax authorities. Furthermore, the Bank establishes provisions based on the necessary amounts expected to be paid to the tax authorities.

Bank Mandiri and Subsidiaries apply the balance sheet liability method to determine income tax expense. Under the balance sheet liability method, deferred tax assets and liabilities are recognised for all temporary differences arising between the tax base of assets and liabilities and their carrying amount in the consolidated statement of financial position at each reporting date. This method also requires the recognition of unused future tax benefits, to the extent that realisation of such benefits are probable in the future.

Deferred tax assets are recognised only to the extent that is probable that future taxable income will be sufficient to compensate deferred tax asset arising from temporary differences.

Deferred tax is calculated using tax rates enacted or substantively applied to the period during which the asset is realised or the liability is settled. The changes to the carrying value of deferred tax assets and liabilities due to the changes of tax rates are charged in the current year, consolidated statement of profit or loss and other comprehensive income except for transactions which previously have been directly charged or credited to equity.

Adjustments to taxation obligations are recognised when tax assessment letter is received or, if objection/appeal is submitted, adjustments are recognised when the result of objection/appeal is received. Management provides provision for future tax liability at the estimated amount that will be payable to the tax office if there is a probable tax exposure, based on management's assessment as of the date of consolidated statement of financial position. Assumptions and estimation used in the calculation of provision may involve element of uncertainty.

ad. Perpajakan (lanjutan)

Taksiran pajak penghasilan Bank Mandiri dan Entitas Anak dihitung untuk masing-masing perusahaan sebagai badan hukum terpisah. Aset pajak kini (*current tax assets*) dan liabilitas pajak kini (*current tax liabilities*) untuk badan hukum yang berbeda tidak disalinghapuskan dalam laporan keuangan konsolidasian. Utang pajak penghasilan badan dan utang pajak lainnya Bank Mandiri dan Entitas Anak disajikan sebagai "Utang pajak" di laporan posisi keuangan konsolidasian.

Aset dan liabilitas pajak tangguhan dapat saling hapus apabila terdapat hak yang berkekuatan hukum untuk melakukan saling hapus antara aset dan liabilitas pajak kini dan apabila aset dan liabilitas pajak penghasilan tangguhan dikenakan oleh otoritas perpajakan yang sama, baik atas entitas kena pajak yang sama atau berbeda dan adanya niat untuk melakukan penyelesaian saldo-saldo tersebut secara neto.

ae. Dana syirkah temporer

Dana *syirkah* temporer adalah dana yang diterima oleh Entitas Anak. Entitas Anak mempunyai hak untuk mengelola dan menginvestasikan dana, baik sesuai dengan kebijakan Entitas Anak atau kebijakan pembatasan dari pemilik dana, dengan keuntungan dibagikan sesuai dengan kesepakatan.

Hubungan antara Entitas Anak dan pemilik dana *syirkah* temporer merupakan hubungan kemitraan berdasarkan akad *mudharabah muthlaqah*, *mudharabah muqayyadah* atau *musyarakah*. Contoh dari dana *syirkah* temporer adalah penerimaan dana dari investasi *mudharabah muthlaqah*, *mudharabah muqayyadah* dan akun lain yang sejenis.

- 1) *Mudharabah muthlaqah* adalah *mudharabah* dimana pemilik dana (*shahibul maal*) memberikan kebebasan kepada pengelola dana (*mudharib/Entitas Anak*) dalam pengelolaan investasinya.
- 2) *Mudharabah muqayyadah* adalah *mudharabah* dimana pemilik dana memberikan batasan kepada pengelola dana, antara lain mengenai tempat, cara dan atau obyek investasi.

Dana *syirkah* temporer tidak dapat digolongkan sebagai liabilitas. Hal ini karena Entitas Anak tidak mempunyai liabilitas, ketika mengalami kerugian, untuk mengembalikan jumlah dana awal dari pemilik dana kecuali akibat kelalaian atau wanprestasi Entitas Anak. Dana *syirkah* temporer tidak dapat digolongkan sebagai ekuitas karena mempunyai waktu jatuh tempo dan pemilik dan tidak mempunyai hak kepemilikan yang sama dengan pemegang saham seperti hak *voting* dan hak atas realisasi keuntungan yang berasal dari aset lancar dan aset non investasi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

ad. Income tax (continued)

The estimated corporate income tax of Bank Mandiri and Subsidiaries are calculated for each company as a separate legal entity. Current tax assets and current tax liabilities for different legal income entities cannot be set-off in the consolidated financial statements. Corporate tax payables and other tax payables of Bank Mandiri and Subsidiaries are presented as "Taxes payable" in the consolidated statement of financial position.

Deferred income tax assets and liabilities are offsetted if there is a legally enforceable right to offset current tax assets against current tax liabilities and if the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either for the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

ae. Temporary syirkah funds

Temporary *syirkah* funds represent funds received by a Subsidiary. The Subsidiary has the right to manage and invest funds in accordance with either the Subsidiary's policy or restriction set by the depositors with the agreed profit sharing.

Relationship between the Subsidiary and the owner of temporary *syirkah* funds are based on partnership *mudharabah muthlaqah*, *mudharabah muqayyadah* or *musyarakah*. The examples of temporary *syirkah* funds are investment funds received from *mudharabah muthlaqah*, *mudharabah muqayyadah* and other similar accounts.

- 1) *Mudharabah muthlaqah* represents *mudharabah* in which the fund owner (*shahibul maal*) entrusts the fund manager (*mudharib/Subsidiary*) in managing its investment.
- 2) *Mudharabah muqayyadah* represents *mudharabah* in which the fund owner sets restrictions to the fund manager regarding, among others, the place, the means and/or the object of investment.

Temporary *syirkah* funds cannot be classified as liability because the Subsidiary does not have any liability to return the fund to the owners when experience losses, except for losses due to the Subsidiary's management negligence or default. On the other hand, temporary *syirkah* funds also cannot be classified as equity, because of the existence of maturity period and the depositors do not have the same rights as the shareholders, such as voting rights and the rights of realised gain from current asset and other non-investment accounts.

ae. Dana syirkah temporer (lanjutan)

Dana *syirkah* temporer merupakan salah satu unsur laporan posisi keuangan konsolidasian, yang memberikan hak kepada Entitas Anak untuk mengelola, termasuk untuk mencampur dana dimaksud dengan dana lainnya.

Pemilik dana *syirkah* temporer memperoleh bagian atas keuntungan sesuai kesepakatan dan menerima kerugian berdasarkan jumlah dana dari masing-masing pihak. Pembagian hasil dana *syirkah* temporer dapat dilakukan dengan konsep bagi hasil atau bagi untung.

af. Pendapatan dan beban bunga serta pendapatan dan beban syariah

(i) Konvensional

Pendapatan dan beban bunga untuk semua instrumen keuangan dengan *interest bearing* dicatat dalam "Pendapatan bunga" dan "Beban bunga" di dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian menggunakan metode suku bunga efektif.

Metode suku bunga efektif adalah metode yang digunakan untuk menghitung biaya perolehan diamortisasi dari aset keuangan atau liabilitas keuangan dan metode untuk mengalokasikan pendapatan bunga atau beban bunga selama periode yang relevan. Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa datang selama perkiraan umur dari instrumen keuangan, atau jika lebih tepat, digunakan periode yang lebih singkat untuk memperoleh nilai tercatat bersih dari aset keuangan atau liabilitas keuangan. Pada saat menghitung suku bunga efektif, Grup mengestimasi arus kas dengan mempertimbangkan seluruh persyaratan kontraktual dalam instrumen keuangan tersebut, namun tidak mempertimbangkan kerugian kredit di masa datang. Perhitungan ini mencakup seluruh komisi, provisi dan bentuk lain yang diterima oleh para pihak dalam kontrak yang merupakan bagian tak terpisahkan dari suku bunga efektif, biaya transaksi dan seluruh premi atau diskon lainnya.

Jika aset keuangan atau kelompok aset keuangan serupa telah diturunkan nilainya sebagai akibat kerugian penurunan nilai, maka pendapatan bunga yang diperoleh setelahnya diakui atas bagian aset keuangan yang tidak mengalami penurunan nilai dari aset keuangan yang mengalami penurunan nilai, berdasarkan suku bunga yang digunakan untuk mendiskonto arus kas masa datang dalam menghitung kerugian penurunan nilai.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

ae. Temporary syirkah funds (continued)

Temporary syirkah funds represent one of the consolidated statement of financial position accounts which is in accordance with sharia principle that provide right to the Subsidiary to manage fund, including to combine the funds with the other funds.

The owner of temporary syirkah funds receive parts of profit in accordance with the agreement and receive loss based on the proportion to the total funds. The profit distribution of temporary syirkah funds might be based on profit sharing or revenue sharing concept.

af. Interest income and expense and sharia income and expense

(i) Conventional

Interest income and expense for all interest-bearing financial instruments are recognised as "Interest income" and "Interest expense" in the consolidated statement of profit or loss and other comprehensive income using the effective interest method.

The effective interest method is a method used for calculating the amortised cost of financial assets and liabilities and method for allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to obtain the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Group estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all commissions, provision and other fees received between parties in the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, subsequently, interest income is recognised for the non-impaired portion of the impaired financial assets using the interest rate used to discount the future cash flows for measuring the impairment loss.

(lanjutan)**

**af. Pendapatan dan beban bunga serta
pendapatan dan beban syariah (lanjutan)**

(ii) Pendapatan syariah

Di dalam pendapatan dan beban bunga terdapat pendapatan dan beban berdasarkan prinsip syariah. Pendapatan pengelolaan dana oleh Entitas Anak sebagai *mudharib* terdiri atas pendapatan pembiayaan dengan akad *murabahah*, *istishna*, *ijarah* dan pendapatan dari bagi hasil yaitu *mudharabah*, *musyarakah* dan pendapatan usaha utama lainnya.

Pengakuan keuntungan transaksi *murabahah* dengan pembayaran tangguh atau secara angsuran dilakukan selama periode akad sesuai dengan metode tingkat imbal hasil efektif.

Berdasarkan PSAK No. 402 (Revisi 2019), pendapatan *murabahah* yang termasuk marjin ditangguhkan dan pendapatan administrasi, diakui dengan menggunakan metode setara tingkat imbal hasil efektif, yaitu tingkat imbal hasil setara yang akan mendiskonto secara tepat estimasi pembayaran atau penerimaan kas di masa datang sepanjang perkiraan umur instrumen keuangan tersebut atau, jika lebih tepat untuk masa yang lebih singkat untuk nilai tercatat bersih dari aset keuangan atau liabilitas keuangan. Perhitungan dilakukan dengan memperhitungkan seluruh syarat dan ketentuan kontraktual dari instrumen keuangan dan biaya tambahan yang timbul secara langsung untuk instrumen tersebut dan merupakan bagian tidak terpisahkan dari tingkat imbal hasil.

Pendapatan *istishna* diakui dengan menggunakan metode persentase penyelesaian atau metode akad selesai.

Pendapatan *ijarah* diakui selama masa akad secara proporsional.

Pendapatan bagi hasil *musyarakah* yang menjadi hak mitra pasif diakui dalam periode terjadinya hak bagi hasil sesuai *nisbah* yang disepakati.

Pendapatan bagi hasil *mudharabah* diakui dalam periode terjadinya hak bagi hasil sesuai *nisbah* yang disepakati dan tidak diperkenankan mengakui pendapatan dari proyeksi hasil usaha.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

**af. Interest income and expense and sharia
income and expense (continued)**

(ii) Sharia income

Included in interest income and expense are sharia income and expense based on sharia principle. The Subsidiary's income as a fund manager (mudharib) consists of income from murabahah and istishna transactions, income from ijarah (leasing), income from profit sharing of mudharabah, musyarakah financing and other main operating income.

Murabahah transaction income recognition through deferred payment or installment is executed during the period of the contract based on effective rate of return method (annuity).

According to SFAS No. 402 (Revised 2019), murabahah income which includes deferred margin and administrative income are recognised as income using method that equivalent to the effective rate of return method, which is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, for the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms and condition the financial assets and includes any fees or incremental costs that are directly attributable to the assets and are integral part of the effective rate of return.

Income from istishna is recognised using the percentage of completion or full completion method.

Income from ijarah is recognised proportionally during the contract period.

Profit sharing income for passive partner in musyarakah is recognised in the period when the profit sharing rights arise in accordance with the agreed profit sharing ratio.

Profit sharing income for mudharabah is recognised in the period when the profit sharing rights arise in accordance with agreed profit sharing ratio and the recognition based on projection of income is not allowed.

(lanjutan)**

**af. Pendapatan dan beban bunga serta
pendapatan dan beban syariah (lanjutan)**

(ii) Pendapatan syariah (lanjutan)

Setoran dari debitur dengan kualitas *non-performing* diperlakukan sebagai pengembalian harga perolehan atau pokok piutang/pembiayaan. Kelebihan pembayaran di atas harga perolehan atau pokok piutang/pembiayaan diakui sebagai pendapatan pada saat diterimanya. Khusus untuk transaksi *ijarah*, setoran dari debitur dengan kualitas *non-performing* diperlakukan sebagai pelunasan piutang sewa.

Hak nasabah atas bagi hasil dana *syirkah* temporer merupakan bagian bagi laba milik nasabah yang didasarkan pada prinsip *mudharabah muthlaqah*, *mudharabah muqayyadah* dan *mudharabah musytarakah* atas hasil pengelolaan dana mereka oleh Entitas Anak. Pendapatan yang dibagikan adalah pendapatan yang telah diterima.

(iii) Hak pihak ketiga atas bagi hasil dana *syirkah* temporer

Pembagian laba dilakukan berdasarkan prinsip bagi hasil yaitu dihitung dari pendapatan Entitas Anak yang diterima berupa laba bruto (*gross profit margin*).

Jumlah pendapatan marjin dan bagi hasil atas pembiayaan yang diberikan dan atas aset produktif lainnya akan dibagikan kepada nasabah penyimpan dana dan Entitas Anak, dihitung secara proporsional sesuai dengan alokasi dana nasabah dan Entitas Anak yang dipakai dalam pembiayaan yang diberikan dan aset produktif lainnya yang disalurkan.

Selanjutnya, jumlah pendapatan marjin dan bagi hasil yang tersedia untuk nasabah dari fasilitas pembiayaan yang diberikan dan aset produktif lainnya yang disalurkan tersebut kemudian dibagikan ke nasabah penabung dan deposan sebagai *shahibul maal* dan Entitas Anak sebagai *mudharib* sesuai dengan porsi *nisbah* bagi hasil yang telah disepakati bersama sebelumnya. Pendapatan marjin dan bagi hasil dari pembiayaan yang diberikan dan aset produktif lainnya yang disalurkan yang memakai dana Entitas Anak, seluruhnya menjadi milik Entitas Anak, termasuk pendapatan dari transaksi Entitas Anak berbasis imbalan.

ag. Pendapatan premi dan beban klaim

Pendapatan premi kontrak asuransi jangka pendek diakui sebagai pendapatan selama periode risiko sesuai dengan proporsi jumlah proteksi asuransi yang diberikan. Pendapatan premi kontrak asuransi jangka panjang diakui sebagai pendapatan pada saat polis jatuh tempo.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

**af. Interest income and expense and sharia
income and expense (continued)**

(ii) Sharia income (continued)

Any payment from non-performing debtors recognised is treated as the repayment cost or loan/financing principal. Excess payment over the cost or loan/financing principal recognised as income when the cash received. Specific for *ijarah* transactions, any payment from non-performing debtors recognised as the settlement of *ijarah* receivables.

Customers' (fund owner) share on the return of temporary *syirkah* funds represent fund owners' share of the profit of Subsidiary derived from managing of such funds under *mudharabah muthlaqah*, *mudharabah muqayyadah* and *mudharabah musytarakah* principles. The profit sharing is determined on the earned income.

(iii) Third parties' share on return of temporary *syirkah* funds

Distribution of profit is based on profit sharing principle which is calculated from the Subsidiary's earned income which in the form of gross profit margin.

Total margin income and profit sharing on financing given to debtors and other productive assets will be distributed to the fund owner and Subsidiary, calculated proportionally according to the fund allocation of fund owner and subsidiary that were used in the financing given to debtors and other productive assets.

Furthermore, available margin income and profit sharing for fund owner from financing facilities given to debtors and other distributed earning assets are distributed to fund owners and depositor as *shahibul maal* and the Subsidiary as *mudharib* based on a predetermined and agreed profit sharing with *nisbah* portion. Margin income and profit sharing from financing facilities given to debtors and other distributed earning assets using the Subsidiary's funds, are entirely shared for the Subsidiary, including income from the Subsidiary's fee-based transactions.

ag. Premium income and claims expenses

Premium income received from short-term insurance contracts is recognised as revenue over the period of risk coverage in proportion to the amounts of insurance protection provided. Premium income from long-term insurance contracts is recognised as revenue when the policy is due.

**2. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL
(lanjutan)**

ag. Pendapatan premi dan beban klaim (lanjutan)

Pendapatan premi yang diterima sebelum jatuh tempo polis dicatat sebagai titipan premi di laporan posisi keuangan konsolidasian.

Beban klaim dan manfaat terdiri dari klaim yang telah diselesaikan, klaim dalam proses penyelesaian dan estimasi atas klaim yang telah terjadi namun belum dilaporkan (IBNR). Klaim dan manfaat diakui sebagai beban pada saat terjadinya liabilitas untuk memberikan proteksi. Klaim reasuransi yang diperoleh dari perusahaan reasuradur diakui dan dicatat sebagai pengurang beban klaim dan manfaat pada periode yang sama dengan periode pengakuan beban klaim dan manfaat.

Jumlah klaim dalam penyelesaian, termasuk klaim yang telah terjadi namun belum dilaporkan, dinyatakan berdasarkan estimasi menggunakan teknik perhitungan teknis oleh aktuaris. Perubahan dalam estimasi liabilitas klaim, sebagai hasil dari evaluasi lebih lanjut dan perbedaan antara estimasi klaim dengan klaim yang dibayarkan, diakui sebagai biaya tambahan atau pengurang biaya pada periode terjadinya perubahan.

ah. Pendapatan provisi dan komisi

Pendapatan provisi dan komisi dan biaya transaksi yang dapat diatribusikan secara langsung yang berkaitan dengan kegiatan pemberian kredit, piutang pembiayaan konsumen dan investasi bersih dalam sewa pembiayaan diakui sebagai bagian/(pengurang) dari nilai perolehan kredit, piutang pembiayaan konsumen dan investasi bersih dalam sewa pembiayaan dan akan diakui sebagai pendapatan bunga dengan cara diamortisasi berdasarkan metode suku bunga efektif.

Untuk kredit, piutang pembiayaan konsumen dan investasi bersih dalam sewa pembiayaan yang diberikan dan dilunasi sebelum jatuh temponya, saldo pendapatan provisi dan/atau komisi dan biaya transaksi yang dapat diatribusikan secara langsung yang belum diamortisasi, diakui pada saat kredit yang diberikan, piutang pembiayaan konsumen dan investasi bersih dalam sewa pembiayaan dilunasi.

Pendapatan provisi dan komisi lainnya yang tidak berkaitan langsung dengan kegiatan perkreditan atau jangka waktu tertentu diakui pada saat terjadinya transaksi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

**ag. Premium income and claims expenses
(continued)**

Premiums income received before the due date of the respective policies is stated as policyholders' deposits in the consolidated statement of financial position.

Claims and benefits expense consist of settled claims, claims that are still in process of settlement and estimates of claims incurred but not yet reported (IBNR). Claims and benefits are recognised as expenses when the liabilities to cover claims are incurred. Claim recoveries from reinsurance companies are recognised and recorded as deduction from claims and benefits expenses consistent in the same period with the claim and benefits expenses recognition.

Total claims in process of settlement, including claims incurred but not yet reported, are stated at estimated amounts determined based on the actuarial technical insurance calculations. Changes in estimated claims liabilities as a result of further evaluation and the difference between estimated claims and paid claims are recognised as addition to or deduction from expenses in the period which the changes occurred.

ah. Fees and commissions income

Fees and commissions income and transaction costs that are directly attributable to lending activities, consumer financing receivables and net investment finance lease, are recognised as a part/(deduction) of outstanding loan, consumer financing receivables and net investment finance lease and will be recognised as interest income by amortisation using effective interest rate method.

The directly attributable unamortised fees and commissions balances relating to loans, consumer financing receivables and net investment finance lease which is settled prior to maturity are recognised upon settlement date of such loans, consumer financing and net investment finance lease.

Other fees and commissions income which are not directly related to lending activities or a specific period are recognised as revenue on the transaction date.

ai. Imbalan kerja

Liabilitas pensiun

Bank Mandiri menyelenggarakan program pensiun iuran pasti yang pesertanya adalah pegawai aktif Bank Mandiri sejak tanggal 1 Agustus 1999, serta program pensiun manfaat pasti yang berasal dari masing-masing dana pensiun Bank Peserta Penggabungan. Program ini didanai melalui pembayaran kepada pengelola dana pensiun sebagaimana ditentukan dalam perhitungan aktuarial yang dilakukan secara berkala.

Liabilitas imbalan pensiun Bank Mandiri dan Entitas Anak dihitung dengan membandingkan manfaat yang akan diterima oleh karyawan dari program pensiun pada usia pensiun normal dengan manfaat yang akan diterima berdasarkan UU Ketenagakerjaan No. 13/2003 dimana telah diperbaharui menggunakan UU Cipta Kerja No. 11/2020 sebagaimana diubah dengan UU No. 6/2023 tentang Penetapan Peraturan Pemerintah Pengganti Undang-Undang No. 2 Tahun 2022 Tentang Cipta Kerja Menjadi Undang-Undang berdasarkan Perjanjian Kerja Bersama yang telah diperbaharui pada akhir 2021 setelah dikurangi dengan akumulasi kontribusi karyawan dan hasil investasinya. Apabila manfaat pensiun lebih kecil dari pada manfaat menurut UU Cipta Kerja No. 11/2020, maka Bank dan Entitas Anak membayar kekurangan tersebut.

Program pensiun berdasarkan UU Ketenagakerjaan adalah program imbalan pasti karena UU Ketenagakerjaan menentukan rumus tertentu untuk menghitung jumlah minimum imbalan pensiun. Program pensiun iuran pasti adalah program pensiun yang iurannya ditetapkan dalam peraturan dana pensiun dan seluruh iuran serta hasil pengembangannya dibukukan pada rekening masing-masing peserta sebagai manfaat pensiun sebagaimana tercantum dalam UU No. 4 tahun 2023 tanggal 12 Januari 2023 tentang Pengembangan dan Penguatan Sektor Keuangan.

Liabilitas program pensiun imbalan pasti yang diakui di laporan posisi keuangan konsolidasian adalah nilai kini dari liabilitas imbalan pasti pada tanggal laporan posisi keuangan konsolidasian setelah dikurangi dengan nilai wajar aset program, serta disesuaikan dengan keuntungan atau kerugian aktuarial dan biaya jasa lalu yang belum diakui. Liabilitas manfaat pasti dihitung setiap tahun oleh aktuaris independen menggunakan metode *projected unit credit* secara reguler untuk periode tidak lebih dari satu tahun. Nilai kini liabilitas manfaat pasti ditentukan dengan mendiskontokan estimasi arus kas keluar masa depan dengan menggunakan tingkat diskonto imbal hasil obligasi pemerintah dalam mata uang yang sama dengan mata uang imbalan yang akan dibayarkan dan waktu jatuh tempo yang kurang lebih sama dengan waktu jatuh tempo imbalan yang bersangkutan.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

ai. Employee benefits

Pension liability

Bank Mandiri established a defined contribution pension plan covering substantially all of its eligible active employees since 1 August 1999 and also defined benefit pension plans, which were derived from each of the Merged Banks' pension plan. This program is funded through payment to pension fund's management as defined in the actuarial calculation which done regularly.

Bank Mandiri and Subsidiaries' pension liability have been calculated by comparing the benefit that will be received by an employee at normal pension age from the Pension Plans with the benefit that will be received as stipulated under the Employment Law No. 13/2003 which has been updated using the Employment Regulations No. 11/2020 as amended by UU No. 6/2023 concerning Government In Lieu Of Law No. 2 Of 2022 Concerning Stipulation Employment Regulations Become Law based on the Collective Labor Agreement which was renewed at the end of 2021 after deducting accumulated employee contributions and the results of its investments. If the pension benefit from the Pension Plans is less than the benefit as required by the Employment Regulations No. 11/2020, the Bank and Subsidiaries will have to pay such shortage.

The pension plan based on the Labor Law is a defined benefit plan because the Labor Law sets a certain formula to calculate the minimum pension benefit. A defined contribution plan is a pension plan that defines an amount of pension contribution based on pension fund regulation and all contribution including investment return are recorded in its account's member as pension benefit as stated in Law No. 4 year 2023 dated 12 January 2023 regarding Development and Strengthening Financial Sector.

The defined benefit pension liability recognised in the consolidated statement of financial position is the present value of the defined benefit obligation at the consolidated statement of financial position date less the fair value of plan assets, adjusted with unrealised actuarial gains or losses and past service cost. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method on a regular basis for periods not exceeding one year. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using the discount rate of government bonds' yield that are denominated in the currency in which the benefit will be paid, and that have terms to maturity approximating the terms of the related pension liability.

(lanjutan)**

ai. Imbalan kerja (lanjutan)

Liabilitas pensiun (lanjutan)

Akumulasi keuntungan atau kerugian aktuarial yang belum diakui yang terjadi diakui sebagai "Penghasilan komprehensif lain" dan disajikan pada bagian ekuitas. Biaya jasa lalu dibebankan langsung pada laba rugi.

Biaya imbalan pasca-kerja yang diakui selama tahun berjalan terdiri dari biaya jasa dalam laba rugi, bunga neto atas liabilitas imbalan pasti neto dalam laba rugi dan pengukuran kembali liabilitas imbalan pasti neto dalam penghasilan komprehensif lain.

Bunga neto atas imbalan pasti neto merupakan komponen pendapatan bunga dari aset program, biaya bunga atas liabilitas imbalan pasti dan bunga atas dampak batas atas dari aset.

Pengukuran kembali liabilitas imbalan pasti neto terdiri dari:

- Keuntungan dan kerugian aktuarial;
- Imbal hasil atas aset program, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas imbalan pasti neto;
- Setiap perubahan dampak batas atas aset, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas imbalan pasti neto.

Keuntungan dan kerugian aktuarial dapat timbul dari penyesuaian yang dibuat berdasarkan pengalaman dan perubahan asumsi-asumsi aktuarial.

Liabilitas imbalan jangka panjang lainnya

Liabilitas imbalan jangka panjang lainnya terdiri dari cuti besar berimbang dan penghargaan masa dinas.

Hak atas imbalan ini pada umumnya diberikan apabila karyawan bekerja hingga mencapai usia pensiun dan memenuhi masa kerja tertentu. Prakiraan biaya imbalan ini dicadangkan sepanjang masa kerja karyawan dan dihitung menggunakan metodologi yang sama dengan metodologi yang digunakan dalam perhitungan program pensiun imbalan pasti, namun disederhanakan. Liabilitas ini dinilai setiap tahun oleh aktuaris independen yang berkualifikasi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

ai. Employee benefits (continued)

Pension liability (continued)

The accumulated unrealised actuarial gains or losses incurred are recognised as "Other comprehensive income" and is presented in the equity section. Past service cost is directly charged to profit or loss.

The post-employment benefits expense recognised during the current year consists of service cost in profit or loss, net interest on the net defined benefit liability in profit or loss and remeasurement of the net defined benefit liabilities in other comprehensive income.

Net interest on the net defined benefit liabilities is the interest income component of plan assets, interest expense of defined benefit liabilities and interest on the effect of asset ceiling.

Remeasurements of the net defined benefit liability consists of:

- *Actuarial gains and losses;*
- *Return on plan assets, excluding amount included in net interest on the net defined benefit liability; and*
- *Any change in effect of the asset ceiling, excluding amount including in net interest on the net defined benefit liability.*

Actuarial gains and losses may arise from the adjustments made based on the experience and changes in actuarial assumption.

Other long-term employment benefit obligations

Other long-term employment benefit obligations consist of paid leave and service awards.

The entitlement of these benefits are provided to the employees if employees work until reaching the retirement age and the completion of a minimum certain service period. The estimated costs for these benefits are accrued over the period of employment of respective employee calculated using similar methodology used for defined benefit pension plans but is simpler. These obligations are calculated annually by qualified independent actuaries.

Pembagian tantiem

Bank Mandiri mencatat tantiem dengan menggunakan basis akrual dan membebankannya pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian tahun berjalan.

aj. Laba per saham

Laba per saham dihitung dengan membagi laba bersih konsolidasian akhir tahun berjalan dengan jumlah rata-rata tertimbang saham yang ditempatkan dan disetor selama tahun berjalan.

Jumlah rata-rata tertimbang saham yang beredar yang digunakan dalam menghitung laba per saham dasar dan dilusian pada tanggal 31 Desember 2024 sebesar 93.333.333.332 lembar saham, serta 31 Desember 2023 sebesar 93.333.333.332 lembar saham.

ak. Segmen operasi

Segmen operasi adalah suatu komponen dari entitas:

- (a) Yang terlibat dalam aktivitas bisnis yang mana memperoleh pendapatan dan menimbulkan beban (termasuk pendapatan dan beban terkait dengan transaksi dengan komponen lain dari entitas yang sama);
- (b) Hasil operasinya dikaji ulang secara reguler oleh pengambil keputusan operasional untuk membuat keputusan tentang sumber daya yang dialokasikan pada segmen tersebut dan menilai kinerjanya; dan
- (c) Tersedia informasi keuangan yang dapat dipisahkan.

Sesuai dengan PSAK No. 108 tentang "Segmen Operasi", Grup menyajikan segmen operasi berdasarkan laporan internal grup yang disajikan kepada pengambil keputusan operasional. Pengambil keputusan operasional adalah Direksi.

Informasi segmen per 31 Desember 2024 dan 2023 disajikan sesuai Keputusan Direksi No. KEP.DIR/014/2020 tanggal 25 Februari 2020, dimana segmen operasi dibagi ke dalam segmen-segmen usaha sebagai berikut: *Corporate Banking, Commercial Banking, Hubungan Kelembagaan, Retail Banking (termasuk Wealth), Treasury & International Banking, Kantor Pusat, Entitas Anak Syariah, Entitas Anak - Asuransi dan Entitas Anak lainnya.*

ai. Employee benefits (continued)

Tantiem distribution

Bank Mandiri records tantiem on an accrual basis and charges it to the consolidated statement of profit or loss and other comprehensive income for the year.

aj. Earnings per share

Earnings per share is calculated by dividing the consolidated net profit at end of year with the weighted average number of shares issued and fully paid-in during the year.

The weighted-average number of outstanding shares used in computing basic and diluted earnings per share as of 31 December 2024 is 93,333,333,332 shares and as of 31 December 2023 are 93,333,333,332 shares.

ak. Operating segment

An operating segment is a component of an entity:

- (a) That is involved in business activities to generate income and expenses (include income and expenses relating to the transactions with other components from the same entity);*
- (b) Whose operating results are reviewed regularly by decision maker for operational activities for decision making on allocation of resources in respective segment and performance evaluation of works; and*
- (c) For which separate financial information is available.*

In accordance with SFAS No. 108 regarding "Operating Segment", the Group presents operating segment based on internal reports that are presented to the decision-maker for operational activities. The decision maker for operational activities is the Board of Directors.

Segment information as of 31 December 2024 and 2023 onwards presented in accordance with the Board of Directors Decree No. KEP.DIR/014/2020 dated 25 February 2020, in which the operating segments are divided into the following business segments: Corporate Banking, Commercial Banking, Institutional Relationship, Retail Banking (including Wealth), Treasury & International Banking, Head Office, Sharia Subsidiary, Subsidiary - Insurance and Other Subsidiaries.

ak. Segmen operasi (lanjutan)

Segmen geografis adalah komponen Bank dan Entitas Anak yang dapat dibedakan dalam menghasilkan jasa pada lingkungan (wilayah) ekonomi tertentu dan komponen itu memiliki risiko dan imbalan yang berbeda dengan risiko dan imbalan pada komponen yang beroperasi pada lingkungan (wilayah) ekonomi lain. Segmen geografis dibagi ke dalam wilayah Indonesia, Asia (Singapura, Malaysia, Hong Kong, Timor Leste dan Shanghai), Eropa Barat (Inggris) dan Cayman Islands.

al. Tanggung jawab sosial dan lingkungan

Berdasarkan Peraturan Menteri Badan Usaha Milik Negara No. PER-01/MBU/03/2023 tentang Penugasan Khusus dan Program Tanggung Jawab Sosial dan Lingkungan Badan Usaha Milik Negara tanggal 24 Maret 2023, alokasi dana tidak dialokasikan dari saldo laba berdasarkan hasil keputusan Rapat Umum Pemegang Saham ("RUPS") akan tetapi diakui dan dibebankan ke laporan laba dan rugi dan penghasilan komprehensif lain konsolidasian tahun berjalan.

am. Saham treasuri

Saham treasuri merupakan modal saham yang diperoleh dan dimiliki kembali dari yang sebelumnya telah diterbitkan Bank. Saham treasuri disajikan sebesar nilai yang dibayar, termasuk biaya tambahan yang secara langsung dapat diatribusikan (dikurangi pajak penghasilan) dan sebagai pengurang dari ekuitas sampai saham tersebut dibatalkan atau diterbitkan kembali. Ketika saham tersebut selanjutnya dijual kembali, maka nilai yang diterima, dikurangi biaya tambahan transaksi yang terkait dan dampak pajak penghasilan yang terkait disajikan di ekuitas.

an. Penggabungan usaha entitas sepengendali

Transaksi penggabungan usaha antara Entitas Anak, PT Bank Syariah Mandiri (BSM), dengan PT Bank BRISyariah Tbk. (BRIS) dan PT Bank BNI Syariah (BNIS) merupakan penggabungan usaha antar entitas sepengendali. Transaksi penggabungan usaha antar entitas sepengendali, berupa pengalihan bisnis termasuk aset maupun liabilitas terkait dalam rangka reorganisasi entitas-entitas yang berada dalam suatu kelompok yang sama bukan merupakan perubahan kepemilikan dalam arti substansi ekonomi. Oleh karena itu, transaksi tersebut diakui pada jumlah tercatat berdasarkan metode penyatuan kepemilikan. Selisih antara imbalan yang diterima/dialihkan dan jumlah tercatat investasi dicatat di ekuitas disajikan sebagai bagian dari pos tambahan modal disetor.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

ak. Operating segment (continued)

A geographical segment represents a component of the Bank and its Subsidiaries that provides services in different economic environment and has a different risk and reward compared to others operating in different economic environment. Geographical segments are divided into Indonesia, Asia (Singapore, Malaysia, Hong Kong, Timor Leste and Shanghai), Western Europe (England) and Cayman Islands.

al. Social and environmental responsibility

Based on Minister of State-Owned Enterprises Regulation No. PER-01/MBU/03/2023 regarding Special Assignments and Social and Environmental Responsibility Programs of State-Owned Enterprises dated 24 March 2023, fund allocation was no longer allocated from retained earnings based on the decision of the General Shareholders Meeting ("RUPS"), instead, it is recognised and charged to the current year consolidated statement of profit or loss and other comprehensive income.

am. Treasury shares

Treasury shares are share capital that is acquired and owned back which from shares previously issued by the Bank. Treasury shares are stated at the amount paid, including directly attributable additional costs (less income tax) and as a deduction from equity until the shares are canceled or reissued. When the shares are subsequently sold back, the amount received is deducted by the related transaction surcharge and the related income tax effect is presented in equity.

an. Business combination of common control entities

The transaction of business combination between Subsidiaries, PT Bank Syariah Mandiri (BSM), with PT Bank BRISyariah Tbk. (BRIS) and PT Bank BNI Syariah (BNIS) is a business combination between entities under common control. Business combination transaction between entities under common control, in the form of business transfer including transfer of the related assets and liabilities in relation to the reorganisation of entities under the same group, do not constitute a change of ownership in terms of economics substance. Therefore, the transaction is recognised at carrying value based on the pooling of the interest method. The difference between the total consideration received or paid and the carrying amount of investment is recorded under equity and presented as a component of additional paid in capital.

(lanjutan)**

**an. Penggabungan usaha entitas sepengendali
(lanjutan)**

Pada informasi keuangan Entitas Induk, Bank membukukan nilai investasi di entitas baru menggunakan nilai terdahulu, di mana investasi dibukukan sebesar nilai buku.

**ao. Aset dan liabilitas tidak lancar (atau kelompok
lepasan) dikuasai untuk dijual**

Aset tidak lancar (atau kelompok lepasan) yang dikuasai untuk dijual merupakan aset yang nilai tercatatnya akan dipulihkan terutama melalui transaksi penjualan daripada penggunaan berlanjut dalam bisnis dan penjualannya sangat mungkin terjadi. Aset ini dicatat pada nilai yang lebih rendah antara jumlah tercatat dan nilai wajar setelah dikurangi biaya untuk menjual, kecuali untuk aset-aset seperti aset pajak tangguhan, aset yang terkait dengan imbalan kerja, dan aset keuangan, yang secara khusus dikecualikan.

Aset tidak lancar (atau kelompok lepasan) yang dikuasai untuk dijual tidak dilakukan penyusutan dan amortisasi selama diklasifikasikan sebagai aset tidak lancar yang dikuasai untuk dijual. Kerugian penurunan nilai atas aset tidak lancar (atau kelompok lepasan) yang dikuasai untuk dijual diakui pada laba rugi sebesar selisih antara nilai tercatat dengan nilai wajar setelah dikurangi dengan biaya untuk menjual. Keuntungan selisih antara nilai tercatat dengan nilai wajar setelah dikurangi biaya untuk menjual diakui pada laba rugi maksimal sebesar akumulasi rugi penurunan nilai yang telah diakui sebelumnya.

Aset tidak lancar (atau kelompok lepasan) yang dikuasai untuk dijual disajikan secara terpisah dari aset lainnya dalam laporan posisi keuangan. Liabilitas (atau kelompok lepasan) yang dikuasai untuk dijual disajikan secara terpisah dari liabilitas lainnya dalam laporan posisi keuangan.

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING**

Beberapa estimasi dan asumsi dibuat dalam rangka penyusunan laporan keuangan konsolidasian dimana dibutuhkan pertimbangan manajemen dalam menentukan metodologi yang tepat untuk penilaian aset dan liabilitas.

Manajemen membuat estimasi dan asumsi yang berimplikasi pada pelaporan nilai aset dan liabilitas atas tahun keuangan satu tahun ke depan. Semua estimasi dan asumsi yang diharuskan oleh Standar Akuntansi Keuangan di Indonesia adalah estimasi terbaik serta berdasarkan pada standar yang berlaku. Estimasi dan pertimbangan dievaluasi secara terus menerus dan berdasarkan pengalaman masa lalu dan faktor-faktor lain termasuk harapan atas kejadian yang akan datang.

Walaupun estimasi dan asumsi ini dibuat berdasarkan pengetahuan terbaik manajemen atas kejadian dan tindakan saat ini, hasil yang timbul mungkin berbeda dengan estimasi dan asumsi semula.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(continued)**

**an. Business combination of common control
entities (continued)**

In the Parent Entity financial information, the Bank records its investment value in the new entity at cost using the predecessor value, where the investment is recorded at book value.

**ao. Non-current assets and liabilities (or disposal
group) held for sale**

Non-current assets (or disposal groups) held for sale are assets whose carrying amount will be recovered primarily through a sale transaction rather than through continued use in the business, and their sale is highly probable. These assets are recorded at the lower of carrying amount and fair value, with fewer costs to sell, except for assets such as deferred tax assets, assets related to employee benefits, and financial assets, which are specifically exempted.

Non-current assets (or disposal groups) held for sale are not depreciated or amortised while classified as held for sale. Impairment losses on non-current assets (or disposal groups) held for sale are recognised in the income statement as the difference between the carrying amount and the fair value less costs to sell. Gains on the difference between the carrying amount and the fair value, less costs to sell, are recognised in the income statement up to the amount of any previously recognised impairment loss.

Non-current assets (or disposal groups) held for sale are presented separately from other assets in the statement of financial position, and liabilities (or disposal groups) held for sale are presented separately from other liabilities in the statement of financial position.

**3. USE OF CRITICAL ACCOUNTING ESTIMATES AND
JUDGEMENTS**

Several estimates and assumptions are created in the preparation of the consolidated financial statements in which management judgment is required in determining the methodology in the valuation of assets and liabilities.

Management makes estimation and assumptions that affect the reported amounts of assets and liabilities within the one next financial year. All estimation and assumptions required in conformity with Statement of Financial Accounting Standard are the best estimation undertaken in accordance with the applicable standards. Estimation and judgements are evaluated on a continuous basis, and are based on past experience and other factors, including expectations with regard to future events.

Although these estimates and assumptions are based on management's best knowledge of current events and activities, actual results may differ from those estimates and assumptions.

Sumber utama ketidakpastian estimasi

a. Cadangan kerugian penurunan nilai aset keuangan

Evaluasi atas kerugian penurunan nilai aset keuangan yang dicatat pada biaya perolehan diamortisasi dan efek utang yang diklasifikasikan sebagai nilai wajar melalui pendapatan komprehensif lain dijelaskan di Catatan 2c.

Cadangan kerugian penurunan nilai terkait dengan pihak lawan spesifik dalam seluruh cadangan kerugian penurunan nilai dibentuk atas tagihan yang penurunan nilainya dievaluasi secara individual berdasarkan estimasi terbaik manajemen atas nilai tunai arus kas yang diharapkan akan diterima. Dalam menghitung cadangan kerugian penurunan nilai, manajemen membuat pertimbangan mengenai kondisi keuangan dari pihak lawan dan nilai neto yang dapat direalisasi dari agunan yang diterima. Setiap aset yang mengalami penurunan nilai dievaluasi dan strategi penyelesaiannya serta estimasi arus kas yang dinilai dapat diperoleh kembali dan disetujui secara independen oleh *Credit Risk Management Unit*.

Evaluasi cadangan kerugian penurunan nilai secara kolektif meliputi kerugian kredit yang melekat pada portofolio tagihan dengan karakteristik ekonomi yang serupa ketika terdapat kenaikan risiko kredit yang signifikan atau terdapat bukti objektif bahwa telah terjadi penurunan nilai tagihan dalam portofolio tersebut, namun penurunan nilai secara individu belum dapat diidentifikasi. Dalam menentukan perlunya untuk membentuk cadangan kerugian penurunan nilai secara kolektif, manajemen mempertimbangkan faktor-faktor seperti kualitas kredit, besarnya portofolio, konsentrasi kredit dan faktor-faktor ekonomi. Dalam mengestimasi cadangan yang dibutuhkan, asumsi-asumsi dibuat untuk menentukan model kerugian ekspektasian dan untuk menentukan parameter input yang diperlukan, berdasarkan pengalaman historis, kondisi ekonomi saat ini, dan prakiraan kondisi ekonomi di masa mendatang (*forecasting*). Ketepatan dari cadangan ini bergantung pada seberapa tepat estimasi arus kas masa depan untuk menentukan cadangan individual serta asumsi model dan parameter yang digunakan dalam penentuan cadangan kolektif.

b. Menentukan nilai wajar instrumen keuangan

Dalam menentukan nilai wajar aset dan liabilitas keuangan yang tidak mempunyai harga pasar, Grup menggunakan teknik penilaian seperti yang dijelaskan dalam Catatan 2c untuk instrumen keuangan yang tidak diperdagangkan secara aktif dan memiliki informasi harga yang terbatas, nilai wajar yang kurang objektif dan membutuhkan berbagai tingkat penilaian tergantung pada likuiditas, konsentrasi, faktor ketidakpastian pasar, asumsi harga dan risiko lainnya.

3. USE OF CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

Key sources of estimation uncertainty

a. Allowances for impairment losses of financial assets

Evaluation of impairment losses on financial assets which is recognised at amortised cost and debt securities classified as fair value through other comprehensive income are described in Note 2c.

Allowance for impairment losses related to a specific counterparty as part of the entire allowance for impairment losses are established for receivables that are individually evaluated for impairment based on management's best estimate of the present value of cash flows expected to be received. In calculating the allowance for impairment losses, management makes judgements regarding of the financial condition of the counterparty and the net realizable value of the collateral received. Each impaired asset is evaluated, and its settlement strategy and estimation of cash flows considered recoverable are independently approved by the Credit Risk Management Unit.

Collectively assessed impairment allowances cover credit losses inherent in portfolios with similar economic characteristics when there is a significant increase in credit risk or objective evidence to suggest the impairments are exist within the portfolio, but the individual impaired items cannot yet be identified. In determining the need to establish allowance for collective impairment, management considers factors such as credit quality, size of portfolio, credit concentrations, and economic factors. In estimating the required allowance, the assumptions made to determine expected default and loss model and to determine the required input parameters which are based on historical experience and estimated future economic conditions (forecasting). The accuracy of this allowance depends on how precise the estimated future cash flows to determine the individual allowance and the model assumptions and parameters used in determining collective allowance.

b. Determining fair values of financial instruments

In determining the fair value for financial assets and financial liabilities for which there is no observable market price, the Group uses the valuation techniques as described in Note 2c for financial instruments that are traded infrequently and have limited pricing information, fair value is less objective and requires varying degrees of judgement depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks.

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Sumber utama ketidakpastian estimasi (lanjutan)

c. Imbalan pensiun

Program-program pensiun ditentukan berdasarkan perhitungan dari aktuaria. Perhitungan aktuaria menggunakan asumsi-asumsi seperti tingkat diskonto, tingkat pengembalian investasi, tingkat kenaikan gaji, tingkat kematian, tingkat pengunduran diri dan lain-lain (Catatan 2ai dan 51). Perubahan asumsi ini akan mempengaruhi nilai liabilitas pensiun.

Grup menentukan tingkat diskonto yang sesuai pada akhir periode pelaporan, yakni *zero coupon bond* yang digunakan untuk menentukan nilai kini arus kas keluar masa depan estimasian yang diharapkan untuk menyelesaikan liabilitas pensiun. Dalam menentukan tingkat suku bunga yang sesuai, Grup mempertimbangkan imbal hasil obligasi pemerintah yang didenominasikan dalam mata uang imbalan akan dibayar dan memiliki jangka waktu yang serupa dengan jangka waktu liabilitas pensiun yang terkait. Asumsi kunci liabilitas pensiun lainnya sebagian ditentukan berdasarkan kondisi pasar saat ini.

d. Liabilitas asuransi untuk kontrak asuransi

Liabilitas kepada pemegang polis (manfaat polis masa depan dari produk *non-unit link* dan estimasi liabilitas klaim) Entitas Anak dicatat di laporan posisi keuangan konsolidasian sebagai bagian dari "Liabilitas lain-lain" berdasarkan perhitungan aktuaris dengan menggunakan asumsi aktuarial yaitu asumsi estimasi terbaik dan margin atas risiko pemburukan.

e. Aset pajak tangguhan

Aset pajak tangguhan diakui atas seluruh perbedaan temporer yang dapat dikurangkan, sepanjang besar kemungkinannya bahwa penghasilan kena pajak akan tersedia sehingga perbedaan temporer tersebut dapat digunakan. Estimasi signifikan oleh manajemen disyaratkan dalam menentukan jumlah aset pajak tangguhan yang dapat diakui, berdasarkan saat penggunaan dan tingkat penghasilan kena pajak serta strategi perencanaan pajak masa depan. Bank tidak memperhitungkan sebagian manfaat aset pajak tangguhan karena manajemen Bank berpendapat bahwa aset pajak tangguhan tersebut tidak dapat terpulihkan di masa yang akan datang.

**3. USE OF CRITICAL ACCOUNTING ESTIMATES AND
JUDGEMENTS (continued)**

Key sources of estimation uncertainty (continued)

c. Pension benefits

Pension programs are determined based on actuarial valuation. The actuarial valuation uses assumptions such as discount rate, expected rate of return on investments, future salary increases, mortality rate, resignation rate and others (refer to Note 2ai and 51). Any changes in those assumptions will impact the liability balance of employee benefit obligations.

The Group determines the appropriate discount rate at the end of each year, which is the zero coupon bond that used to determine the present value of estimated future cash outflows expected to settle the pension obligations. In determining the appropriate discount rate, the Group considers the government bonds' yields denominated in currency and have similar period with payments that will be made and have terms to maturity approximating the terms of the related employee benefit liability. Other key assumptions for pension obligations mostly are determined based on current market conditions.

d. Insurance liabilities on insurance contracts

Liabilities to policyholders (future policy benefits from non-unit linked products and estimated claim liabilities) of Subsidiaries are recorded in the consolidated statement of financial position as part of "Other liabilities" based on actuarial calculations using actuarial assumptions, which is the best estimate assumptions and margin for risk of deterioration.

e. Deferred tax assets

Deferred tax assets are recognised for all deductible temporary differences, as long as taxable income most likely will be available so that the temporary differences can be utilised. Significant estimation by management are required in determining the amount of deferred tax assets that can be recognised, based on utilisation period and the level of taxable income and future tax planning strategies. The Bank does not consider some of the benefits of deferred tax assets as management believes that those part of deferred tax assets will not be recoverable in the future.

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Sumber utama ketidakpastian estimasi (lanjutan)

f. Penyusutan dan estimasi umur manfaat aset tetap

Biaya perolehan aset tetap disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya. Manajemen Bank mengestimasi masa manfaat ekonomis aset tetap antara 4 (empat) sampai dengan 20 (dua puluh) tahun.

Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi.

Nilai tercatat atas aset tetap Bank diungkapkan pada Catatan 18.

g. Penurunan nilai aset non-keuangan

Bank Mandiri dan Entitas Anak mengevaluasi penurunan nilai aset non-keuangan apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat aset non-keuangan tidak dapat dipulihkan kembali. Faktor-faktor penting yang dapat menyebabkan penurunan nilai aset non-keuangan adalah sebagai berikut:

- a) Performa yang tidak tercapai secara signifikan terhadap ekspektasi historis atau proyeksi hasil operasi di masa yang akan datang;
- b) Perubahan yang signifikan dalam cara penggunaan aset atau strategi bisnis secara keseluruhan; dan
- c) Industri atau tren ekonomi yang secara signifikan bernilai negatif.

Manajemen Bank dan Entitas Anak mengakui kerugian penurunan nilai apabila nilai tercatat aset melebihi nilai terpulihkannya. Nilai terpulihkan adalah nilai yang lebih tinggi antara nilai wajar dikurang biaya pelepasan dengan nilai pakai aset (atau unit penghasil kas). Nilai terpulihkan diestimasi untuk aset individual atau, jika tidak memungkinkan, untuk unit penghasil kas yang mana aset tersebut merupakan bagian daripada unit tersebut.

h. Revaluasi atas nilai wajar tanah

Grup menggunakan spesialis penilai independen untuk menilai nilai wajar atas tanah. Tanah dinilai berdasarkan referensi atas bukti berdasarkan pasar, menggunakan nilai yang dapat diukur setelah disesuaikan dengan faktor pasar spesifik seperti lokasi dan kondisi dari tanah.

**3. USE OF CRITICAL ACCOUNTING ESTIMATES AND
JUDGEMENTS (continued)**

Key sources of estimation uncertainty (continued)

f. Depreciation and estimated useful life of fixed assets

Cost of acquisition of fixed assets are depreciated using the straight-line method based on their estimated economic useful life. Bank's management estimates the useful lives of the fixed assets between 4 (four) to 20 (twenty) years.

Changes in the level of usage and technological developments could affect the economic useful lives and residual value of assets, and therefore future depreciation charges may be revised.

The carrying value of the Bank's fixed assets is disclosed in Note 18.

g. Impairment of non-financial assets

Bank Mandiri and its Subsidiaries assess impairment of non-financial assets whenever there are events or changes in circumstances indicate that the carrying value of non-financial assets cannot be recovered. Important factors that could cause impairment of non-financial assets are as follows:

- a) Performance is not achieved significantly against historical expectations or projected operating results in the future;
- b) A significant change in the way of the asset usage or the overall business strategy; and
- c) Industry or economic trends are significantly negative.

The Management of the Bank and its Subsidiaries recognise an impairment loss if the carrying amount of the asset exceeds its recoverable amount. Recoverable amount is the higher value between the fair value minus costs of disposal and the value in use of the asset (or cash-generating unit). Recoverable amount is estimated for individual assets or, if not possible, for the cash-generating unit in which the asset is part of the unit.

h. Revaluations of land

The Group engaged independent valuation specialists to assess fair value of land. Lands were valued by reference to market-based evidence, using comparable prices adjusted for specific market factors such as location and condition of land.

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Sumber utama ketidakpastian estimasi (lanjutan)

i. Menentukan jangka waktu kontrak dengan opsi perpanjangan dan penghentian kontrak - Grup sebagai penyewa

Grup menentukan jangka waktu sewa sebagai jangka waktu sewa yang tidak dapat dibatalkan, bersama dengan periode yang dicakup oleh opsi untuk memperpanjang masa sewa jika dipastikan akan dilaksanakan, atau periode apa pun yang dicakup oleh opsi untuk menghentikan sewa, jika cukup wajar untuk tidak dilakukan.

Grup memiliki beberapa kontrak sewa yang mencakup opsi perpanjangan dan penghentian jangka waktu sewa. Grup menerapkan penilaian dalam mengevaluasi apakah dapat dipastikan jika akan menggunakan opsi untuk memperpanjang atau menghentikan sewa. Hal tersebut dilakukan dengan mempertimbangkan seluruh fakta dan keadaan yang relevan yang memberikan insentif ekonomi untuk melakukan perpanjangan atau penghentian sewa. Setelah tanggal dimulainya, Grup menilai kembali masa sewa, jika terdapat peristiwa atau perubahan signifikan dalam keadaan yang berada dalam kendali dan mempengaruhi apakah penyewa cukup pasti untuk mengeksekusi opsi memperpanjang atau menghentikan sewa.

Pertimbangan akuntansi yang penting

Pertimbangan akuntansi yang penting dalam menerapkan kebijakan akuntansi Bank dan Entitas Anak meliputi:

a. Usaha yang berkelanjutan

Manajemen Bank dan Entitas Anak telah melakukan penilaian atas kemampuan Bank dan Entitas Anak untuk melanjutkan kelangsungan usahanya dan berkeyakinan bahwa Bank dan Entitas Anak memiliki sumber daya untuk melanjutkan usahanya di masa mendatang. Selain itu, manajemen tidak mengetahui adanya ketidakpastian material yang dapat menimbulkan keraguan yang signifikan terhadap kemampuan Bank dan Entitas Anak untuk mempertahankan kelangsungan hidupnya. Oleh karena itu, laporan keuangan konsolidasian telah disusun atas dasar usaha yang berkelanjutan.

3. USE OF CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

Key sources of estimation uncertainty (continued)

i. Determine the contract term with options for extension and termination of the contract - the Group as lessee

The Group determines the lease term as the term of the lease that cannot be canceled, together with the period covered based on the option to extend the lease if it is determined to be exercised, or any period covered by the option to terminate the lease, if it is reasonably not to do so.

The Group has several lease contracts that include options for extension and termination of the lease terms. The Group applies its judgment in evaluating whether it is certain to exercise the option to extend or terminate the lease. This is done by considering all relevant facts and circumstances that provide economic incentives to extend or terminate the lease. After the commencement date, the Group reassesses the lease term, if there is a significant event or change in circumstances which is under its control and affects whether the lessee is certain enough to exercise the option to extend or terminate the lease.

Significant accounting judgements

Accounting judgements that are important in applying accounting policies of the Bank and its Subsidiaries include:

a. Going concern

The Management of the Bank and its Subsidiaries have assessed the ability of the Bank and its Subsidiaries to continue its business and believes that the Bank and Subsidiaries have the resources to continue their business in the future. In addition, management is not aware of any material uncertainties that may cause significant doubt on the ability of the Bank and Subsidiaries to maintain its viability. Therefore, the consolidated financial statements have been prepared on the basis of a going concern.

AKUNTANSI YANG PENTING (lanjutan)**

Pertimbangan akuntansi yang penting (lanjutan)

b. Klasifikasi aset dan liabilitas keuangan

Manajemen Bank dan Entitas Anak menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan mempertimbangkan bila definisi yang ditetapkan PSAK No. 109 telah dipenuhi sejak 1 Januari 2020. Dengan demikian, aset keuangan dan liabilitas keuangan diakui sesuai dengan kebijakan akuntansi Bank dan Entitas Anak seperti diungkapkan pada Catatan 2.c.f.

**3. USE OF CRITICAL ACCOUNTING ESTIMATES AND
JUDGEMENTS (continued)**

Significant accounting judgements (continued)

b. Classification of financial assets and liabilities

The Management of the Bank and its Subsidiaries determine the classification of certain assets and liabilities as financial assets and financial liabilities by considering whether the definitions set under SFAS No. 109 have been fulfilled since 1 January 2020. Accordingly, financial assets and financial liabilities are recognised in accordance with the accounting policy of the Bank and its Subsidiaries as disclosed in Note 2.c.f.

Manajemen berpendapat bahwa jumlah cadangan kerugian penurunan nilai penempatan pada Bank Indonesia dan bank lain telah memadai.

Management believes that the allowance for impairment losses on placements with Bank Indonesia and other banks is adequate.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2024 AND 2023

(Expressed in millions of Rupiah, unless otherwise stated)

11. TAGIHAN DAN LIABILITAS DERIVATIF (lanjutan)

Pada tanggal 31 Desember 2024 dan 2023, Entitas Anak memiliki kontrak *swap* nilai tukar dan suku bunga yang memenuhi kriteria dan berlaku efektif sebagai lindung nilai arus kas. Keuntungan/kerugian atas perubahan nilai wajar sehubungan dengan bagian efektif dari arus kas lindung nilai diakui sebagai penghasilan komprehensif lain.

Pada tanggal 31 Desember 2024 dan 2023, kolektibilitas Bank Indonesia untuk tagihan derivatif adalah lancar dan diklasifikasikan pada *stage* 1.

11. DERIVATIVE RECEIVABLES AND PAYABLES (continued)

As of 31 December 2024 and 2023, the Subsidiary had cross currency and interest rate swap contracts which meet the criteria and effectively applied as cashflow hedge. The gain/loss from fair value changes related to effective portion of cashflow hedge are recognised as other comprehensive income.

As of 31 December 2024 and 2023, the Bank Indonesia collectability for derivative receivables is current and classified in stage 1.

12. KREDIT YANG DIBERIKAN DAN PIUTANG/PEMBIAYAAN SYARIAH

A. Kredit yang diberikan dan piutang/pembiayaan syariah terdiri atas:

a. Berdasarkan jenis mata uang, pihak berelasi dan pihak ketiga:

	2024	2023	
Rupiah			Rupiah
Pihak berelasi (Catatan 56)	216.385.695	167.743.045	Related parties (Note 56)
Pihak ketiga ¹⁾	1.121.450.363	932.992.618	Third parties ¹⁾
Total	1.337.836.058	1.100.735.663	Total

(continued)**

B. Berikut adalah informasi penting lainnya sehubungan dengan kredit yang diberikan dan piutang/pembiayaan syariah (lanjutan):

B. Other significant information related to loans and sharia receivables/financing (continued):

b. Tingkat suku bunga rata-rata (*yield*) dan kisaran bagi hasil per tahun adalah sebagai berikut:

b. Average interest rates (*yield*) and range of profit sharing per annum are as follows:

	2024	2023	
Tingkat suku bunga rata-rata (<i>yield</i>) per tahun:			Average interest rates (<i>yield</i>) per annum:
Rupiah	8,28%	8,50%	Rupiah
Mata uang asing (disetarakan dalam Rupiah)	6,83%	6,79%	Foreign currencies (equivalent to Rupiah)
Kisaran bagi hasil per tahun:			Range of profit sharing per annum:
Piutang <i>murabahah</i>	1,05% - 9,96%	1,04% - 10,37%	Murabahah receivables
Pembiayaan <i>musyarakah</i>	3,65% - 13,63%	2,12% - 14,17%	Musyarakah financing
Pembiayaan syariah lainnya	3,94% - 14,06%	4,01% - 14,05%	Other sharia financing

c. Agunan kredit

c. Loan collaterals

Kredit yang diberikan dan piutang/pembiayaan syariah pada umumnya dijamin dengan agunan yang diikat dengan hak tanggungan atau surat kuasa untuk menjual, deposito berjangka atau jaminan lain yang dapat diterima oleh Bank Mandiri dan Entitas Anak. Simpanan nasabah dan simpanan dari bank lain yang dijadikan jaminan tunai untuk kredit yang diberikan dan diblokir untuk tujuan lain pada tanggal 31 Desember 2024 dan 2023 adalah masing-masing sebesar Rp94.124.176 dan Rp82.768.773 (Catatan 21c, 22c, 23e, 24c dan 26d).

Loans and sharia receivables/financing are generally secured by pledged collateral bound with powers of attorney in respect of the rights to sell, time deposits or other collateral acceptable by Bank Mandiri and its Subsidiaries. Deposits from customers and deposits from other banks that were pledged as cash collateral for loans and blocked for other purposes as of 31 December 2024 and 2023 amounted to Rp94,124,176 and Rp82,768,773, respectively (Note 21c, 22c, 23e, 24c and 26d).

d. Kredit sindikasi

d. Syndication loans

Kredit sindikasi merupakan kredit yang diberikan kepada debitur melalui perjanjian pembiayaan bersama dengan bank-bank lain sebagai kreditur. Selain sebagai kreditur, Bank juga dapat berperan sebagai agen (agen fasilitas, agen jaminan, agen penampungan) yang menjalankan fungsi administratif untuk kepentingan seluruh kreditur dan debitur.

Syndication loans represent loans granted to debtors through joint financing agreements with other banks as creditor. Apart from being creditor, the Bank also act as an agent (facility agent, guarantee agent, shelter agent) which operates administrative function for all of creditors and debtors' interest.

12. KREDIT YANG DIBERIKAN DAN PIUTANG/PEMBIAYAAN SYARIAH (lanjutan)

B. Berikut adalah informasi penting lainnya sehubungan dengan kredit yang diberikan dan piutang/pembiayaan syariah (lanjutan):

h. Penghapusbukuan kredit macet

Pada tahun yang berakhir pada tanggal 31 Desember 2024 dan 2023, Bank Mandiri melaksanakan penghapusbukuan kredit macet masing-masing sebesar Rp11.097.083 dan Rp17.863.589 (Bank Mandiri saja). Adapun kriteria debitur yang dapat dihapusbukukan meliputi:

- a. Fasilitas kredit telah digolongkan macet;
- b. Fasilitas kredit telah dibentuk cadangan kerugian penurunan nilai sebesar 100% (seratus persen) dari pokok kredit macetnya;
- c. Telah dilakukan berbagai upaya penagihan dan penyelamatan, namun tidak berhasil;
- d. Usaha debitur sudah tidak mempunyai prospek atau kinerja debitur buruk atau tidak ada kemampuan membayar; dan
- e. Hapus buku dilakukan terhadap seluruh kewajiban kreditnya, termasuk yang berasal dari *non-cash loan* sehingga penghapusbukuan tidak boleh dilakukan pada sebagian kreditnya (*partial write-off*).

i. Kredit yang dihapusbukukan dicatat di ekstra-komtabel. Bank terus melakukan usaha-usaha penagihan atas kredit yang telah dihapusbukukan. Kredit ekstra-komtabel ini tidak disajikan dalam laporan posisi keuangan konsolidasian. Ikhtisar mutasi kredit ekstra-komtabel untuk tahun yang berakhir pada tanggal 31 Desember 2024 dan 2023 adalah sebagai berikut (Bank Mandiri saja):

	2024	2023	
Saldo awal tahun	105.131.352	97.501.028	<i>Beginning balance</i>
Penghapusbukuan	11.097.083	17.863.589	<i>Write-offs</i>
Penerimaan kembali kredit yang telah dihapusbukukan (<i>cash recoveries</i>)	(6.783.077)	(10.134.741)	<i>Cash recoveries from written-off loans</i>
Lain-lain ¹⁾	1.051.473	(98.524)	<i>Others²⁾</i>
Saldo akhir tahun	110.496.831	105.131.352	<i>Ending balance</i>

¹⁾ Merupakan selisih kurs karena penjabaran mata uang asing, pencatatan kembali aset yang dihapusbuku dan lainnya.

²⁾ Represents effect of foreign currency translation, re-recognition of written off assets and others.

j. Kredit yang disalurkan Bank Mandiri dengan sistem pembiayaan langsung (*executing*) ke perusahaan pembiayaan dan pembiayaan bersama (*joint financing*) pada tanggal 31 Desember 2024 dan 2023 masing-masing sebesar Rp16.378.143 dan Rp11.971.089.

j. *Loans channelled by Bank Mandiri through direct financing (executing) to multifinance company and joint financing mechanism as of 31 December 2024 and 2023 amounted to Rp16,378,143 and Rp11,971,089, respectively.*

12. KREDIT YANG DIBERIKAN DAN PIUTANG/PEMBIAYAAN SYARIAH (lanjutan)

B. Berikut adalah informasi penting lainnya sehubungan dengan kredit yang diberikan dan piutang/pembiayaan syariah (lanjutan):

k. Nilai tercatat diamortisasi dari kredit yang diberikan dan piutang/pembiayaan syariah adalah sebagai berikut:

	<u>2024</u>	<u>2023</u>
Kredit yang diberikan (Catatan 12A)	1.623.216.612	1.359.832.195
Bunga yang masih akan diterima	5.968.024	5.123.412
Pendapatan diterima dimuka yang teratribusi (Catatan 35)	(1.117.656)	(1.023.992)
Cadangan kerugian penurunan nilai (Catatan 12A.c dan 12B.g)	(49.437.417)	(53.110.476)
Total	<u>1.578.629.563</u>	<u>1.310.821.139</u>

l. Pada tanggal 31 Desember 2024, nilai tercatat atas saldo kredit yang diberikan Bank Mandiri kepada PT Garuda Indonesia (Persero) Tbk ("Garuda") sebagai dampak dari restrukturisasi adalah sebesar Rp900.499 atau sebesar 21% dari nilai kontraktual pinjaman. Nilai ini akan terpulihkan secara bertahap sesuai dengan konsep akuntansi setelah tanggal restrukturisasi hingga tanggal jatuh tempo. Bank Mandiri tetap memiliki nilai tagih atas kredit yang diberikan kepada Garuda sebesar Rp4.252.787 sesuai nilai kontraktual pinjaman sebagaimana tercantum dalam perjanjian perdamaian yang telah dihomologasi oleh Pengadilan Niaga pada Pengadilan Negeri Jakarta Pusat, sehingga tidak terdapat penghapusan jumlah tagihan pokok & bunga yang ditanggung Bank Mandiri terhadap Garuda.

m. Berdasarkan kolektibilitas sesuai POJK:

Kolektibilitas kredit yang diberikan dan piutang/pembiayaan syariah sesuai POJK diungkapkan pada Catatan 65.

12. LOANS AND SHARIA RECEIVABLES/FINANCING (continued)

B. Other significant information related to loans and sharia receivables/financing (continued):

k. The carrying amount of loans and sharia receivables/financing at amortised cost are as follows:

	<u>2024</u>	<u>2023</u>	
Kredit yang diberikan (Catatan 12A)	1.623.216.612	1.359.832.195	Loans (Note 12A)
Bunga yang masih akan diterima	5.968.024	5.123.412	Accrued interest receivables
Pendapatan diterima dimuka yang teratribusi (Catatan 35)	(1.117.656)	(1.023.992)	Unearned income (directly attributable) (Note 35)
Cadangan kerugian penurunan nilai (Catatan 12A.c dan 12B.g)	(49.437.417)	(53.110.476)	Allowance for impairment losses (Note 12A.c and 12B.g)
Total	<u>1.578.629.563</u>	<u>1.310.821.139</u>	Total

l. On 31 December 2024, book value of the outstanding loans from Bank Mandiri to PT Garuda Indonesia (Persero) Tbk ("Garuda") as a result of the restructuring are amounted to Rp900,499 or 21% of the contractual amount. This value will be recovered gradually in accordance with the accounting concept after the restructuring date until the maturity date. Bank Mandiri still has a claim value for loans disbursed to Garuda amounted to Rp4,252,787 according to the contractual value of the loan as stated in the settlement agreement which has been homologated by the Commercial Court at the Central Jakarta District Court, thus there is no write-off of the principal & deferred interest by Bank Mandiri against Garuda.

m. By collectability based on FSA regulation:

Collectability of loans and sharia receivables/financing in accordance with FSA regulation are disclosed in Note 65.

Biaya transaksi treasuri terkait biaya dibayar dimuka atas kontrak call spread option yang akan diamortisasi dengan metode garis lurus sepanjang jangka waktu kontrak.

Treasury transaction fee related to the upfront payment for call spread option contract that will be amortised using the straight-line method over the term of contract.

Sewa dibayar dimuka terutama merupakan sewa atas bangunan yang digunakan sebagai kantor cabang Grup dan rumah dinas di seluruh Indonesia. Grup mengakui aset hak guna dan liabilitas sewa untuk semua sewa dengan kontrak jangka waktu tertentu yang dibayar secara periodik, kecuali untuk sewa jangka waktu pendek dan memiliki aset pendasar bernilai rendah

Prepaid rent mostly consists of rentals on buildings which are used as the Group branch's offices and official residence across Indonesia. Group recognises the right-of-use assets and liabilities for all leases with time contracts, which payable periodically, except for short term list and leases with low value underlying assets.

2. Revaluasi

Revaluasi Tahun 2015 - 2016

Berdasarkan Peraturan Menteri Keuangan Republik Indonesia (PMK) No. 191/PMK.010/2015 tanggal 15 Oktober 2015 tentang Penilaian Kembali Aktiva Tetap Untuk Tujuan Perpajakan Bagi Permohonan yang Diajukan Pada Tahun 2015 dan Tahun 2016, dengan perubahan pertama melalui Peraturan Menteri Keuangan No. 233/PMK.03/2015 tanggal 21 Desember 2015 dan perubahan kedua Peraturan Menteri Keuangan No. 29/PMK.03/2016 tanggal 19 Februari 2016. Grup telah menugaskan perusahaan jasa penilai terdaftar untuk melaksanakan penilaian (revaluasi) aset tetap atas tanah.

Penilaian atas tanah dilakukan oleh penilai independen eksternal Kantor Jasa Penilai Publik (KJPP) Amin, Nirwan, Alfiantori dan Rekan (ANA) dan KJPP Muttaqin, Bambang, Purwanto, Rozak, Uswatun dan Rekan (MBPRU). Penilaian dilakukan sesuai dengan dan tunduk kepada ketentuan-ketentuan dari Konsep dan Prinsip Umum Penilaian (KPUP) poin 17 dalam Standar Penilaian Indonesia (SPI) tahun 2015.

Dalam pengukuran nilai wajar tanah, KJPP memperhitungkan kemampuan peserta pasar untuk menghasilkan manfaat ekonomi dengan penggunaan tertinggi dan terbaik atas aset atau dengan menjual aset ke peserta pasar lain yang akan menggunakan aset pada kondisi tertinggi dan penggunaan terbaik. Metode penilaian yang digunakan oleh KJPP adalah pendekatan pasar dan pendekatan biaya.

Berdasarkan Laporan Penilaian dari KJPP MBPRU tanggal 21 Desember 2015 (Entitas Anak) dan 11 April 2016 (Bank) serta KJPP ANA tanggal 13 April 2016 (Bank), nilai aset tetap berikut mengalami kenaikan nilai adalah sebagai berikut:

Aset tetap	Nilai pasar/ Fair value	Nilai buku/ Book value	Kenaikan nilai (sebelum pajak)/ Increase in value (before tax)	Fixed assets
Tanah	28.822.150	2.880.116	25.942.034	Land

18. FIXED ASSETS (continued)

b. Others (continued)

2. Revaluation

Revaluation Year 2015 - 2016

Based on Minister of Finance of the Republic of Indonesia Regulation (PMK) No. 191/PMK.010/2015 dated 15 October 2015 regarding Revaluation of Fixed Assets for Tax Purposes for Applications Filed in 2015 and 2016, with the first amendment through the Minister of Finance Regulation No. 233/PMK.03/2015 dated 21 December 2015 and the second amendment of the Minister of Finance Regulation No. 29/PMK.03/2016 dated 19 February 2016. The Group has assigned registered independent appraisers to assess (revalue) its fixed asset (land).

The valuations of land are performed by the external independent appraisers, Public Appraiser Firm (KJPP) Amin, Nirwan, Alfiantori and Partners (ANA) and KJPP Muttaqin, Bambang, Purwanto, Rozak, Uswatun and Partners (MBPRU). Appraisals are performed based on the Concept and General Principles of Appraisers (KPUP) article 17 in Indonesian Appraisal Standards (SPI) year 2015.

In the fair value measurement of the land, the KJPP consider market participants ability to generate economic benefits by using the assets in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The valuation method used by the KJPP are market approach and cost approach.

Based on the Assessment Report of the KJPP MBPRU dated 21 December 2015 (Subsidiaries) and 11 April 2016 (Bank) and KJPP ANA dated 13 April 2016 (Bank), the value of fixed assets and its increase are as follows:

18. ASET TETAP (lanjutan)

b. Lain-lain (lanjutan)

2. Revaluasi (lanjutan)

Revaluasi Tahun 2015 - 2016 (lanjutan)

Untuk menentukan nilai pasar tersebut, KJPP ANA dan KJPP MBPRU menggunakan metodologi penilaian Pendekatan Pasar (*Market Approach*) SPI 2015-KPUP 17 dengan metode perbandingan langsung.

Hasil revaluasi aset tetap untuk Bank tersebut telah disetujui oleh Direktorat Jenderal Pajak (DJP) melalui Kepala Kantor Wilayah DJP Wajib Pajak Besar melalui Surat Keputusan No. KEP-418/WPJ.19/2016 tanggal 25 Mei 2016. Hasil revaluasi aset tetap Entitas Anak juga telah disetujui oleh DJP pada tanggal 8 Januari 2016.

Revaluasi Tahun 2019

Di tahun 2019, Bank melakukan penilaian kembali atas tanah. Penilaian atas tanah dilakukan oleh penilaian independen eksternal KJPP Yanuar Bey dan Rekan dan KJPP Iwan Bachron dan Rekan. Penilaian dilakukan sesuai dengan dan tunduk kepada ketentuan-ketentuan dari Konsep dan Prinsip Umum Penilaian poin 17 dalam SPI tahun 2018.

Dalam pengukuran nilai wajar tanah, KJPP memperhitungkan kemampuan peserta pasar untuk menghasilkan manfaat ekonomi dengan penggunaan tertinggi dan terbaik atas aset atau dengan menjual aset ke peserta pasar lain yang akan menggunakan aset pada kondisi tertinggi dan penggunaan terbaik. Metode penilaian yang digunakan oleh KJPP adalah pendekatan pasar, pendekatan pendapatan dan pendekatan biaya.

Berdasarkan Laporan Penilaian dari KJPP Yanuar Bey tanggal 8 Juli 2019 dan KJPP Iwan Bachron tanggal 9 Agustus 2019, nilai aset tetap berikut kenaikan nilainya adalah sebagai berikut:

Aset tetap	Nilai pasar/ <i>Fair value</i>	Nilai buku/ <i>Book value</i>	Kenaikan nilai (sebelum pajak)/ <i>Increase in value (before tax)</i>	<i>Fixed assets</i>
Tanah	33.596.578	29.725.630	3.870.948	<i>Land</i>

18. FIXED ASSETS (continued)

b. Others (continued)

2. Revaluation (continued)

Revaluation Year 2015 - 2016 (continued)

To determine the fair value, KJPP ANA and KJPP MBPRU uses the assessment to methodology of Market Approach SPI 2015-KPUP 17 with direct comparison method.

The results of revaluation of fixed assets of the Bank were approved by the Directorate General of Taxes (DGT) through the Head of Regional Office Large Tax Payer through Decree No. KEP-418/WPJ.19/2016 dated 25 May 2016. The results of revaluation of fixed assets of subsidiaries had been approved by the DGT on 8 January 2016.

Revaluation Year 2019

In 2019, Bank has performed land revaluation. The valuation of land was performed by external independent appraisers of the KJPP Yanuar Bey and Partners and KJPP Iwan Bachron and Partners. The assessment was performed in accordance with and subject to the provisions of the General Assessment Concepts and Principles article 17 in the SPI of year 2018.

In the fair value measurement of the land, the KJPP takes into account the market participants' ability to generate economic benefits to the highest and best use of the assets or by selling assets to other market participants would use the asset on the highest and best use condition. The valuation methods used by KJPP are the market approach, income approach and cost approach.

Based on the Appraisal Report of KJPP Yanuar Bey on 8 July 2019 and KJPP Iwan Bachron on 9 August 2019, the value of fixed assets and its value increase are as follows:

18. ASET TETAP (lanjutan)

b. Lain-lain (lanjutan)

2. Revaluasi (lanjutan)

Revaluasi Tahun 2015 - 2016 (lanjutan)

Untuk menentukan nilai pasar tersebut, KJPP Yanuar Bey dan rekan dan KJPP Iwan Bachron dan rekan menggunakan metodologi penilaian Pendekatan Pasar (*Market Approach*) SPI 2018-KPUP 15.2 dengan metode perbandingan langsung.

Revaluasi Tahun 2022

Di tahun 2022, Bank melakukan penilaian kembali atas tanah. Penilaian atas tanah dilakukan oleh penilaian independen eksternal KJPP Muttaqin, Bambang, Purwanto, Rozak, Uswatun dan Rekan dan KJPP Dasa'at Yudistira dan Rekan. Penilaian dilakukan sesuai dengan dan tunduk kepada ketentuan-ketentuan dari Konsep dan Prinsip Umum Penilaian poin 17 dalam tahun 2018.

Dalam pengukuran nilai wajar tanah, KJPP memperhitungkan kemampuan peserta pasar untuk menghasilkan manfaat ekonomi dengan penggunaan tertinggi dan terbaik atas aset atau dengan menjual aset ke peserta pasar lain yang akan menggunakan aset pada kondisi tertinggi dan penggunaan terbaik. Metode penilaian yang digunakan oleh KJPP adalah pendekatan pasar, pendekatan pendapatan dan pendekatan biaya. Berdasarkan Laporan Penilaian dari KJPP Muttaqin Bambang Purwanto Rozak Uswatun dan Rekan (yang ditandatangani oleh Ir. Muhammad Adil Muttaqin, M.Sc., MAPPI (Cert) dengan nomor Surat Tanda Terdaftar (STTD) STTD.PP-83/PM.2/2018) tertanggal 16 Desember 2022 dan KJPP Dasa'at Yudistira dan Rekan (yang ditandatangani oleh Dasa'at Alam Ratu, S.P., MAPPI (Cert) dengan nomor STTD STTD.PP-93/PM.2/2018) tertanggal 19 Desember 2022, nilai aset tetap berikut kenaikan nilainya adalah sebagai berikut:

Aset tetap	Nilai pasar/ Fair value	Nilai buku/ Book value	Kenaikan nilai (sebelum pajak)/ Increase in value (before tax)	Fixed assets
Tanah	38.639.890	34.074.142	4.565.748	Land

Untuk menentukan nilai pasar tersebut, KJPP Muttaqin, Bambang, Purwanto, Rozak, Uswatun dan Rekan dan KJPP Dasa'at Yudistira dan Rekan menggunakan metodologi penilaian Pendekatan Pasar (*Market Approach*) SPI 2018-KPUP 15.2 dengan metode perbandingan langsung.

18. FIXED ASSETS (continued)

b. Others (continued)

2. Revaluation (continued)

Revaluation Year 2015 - 2016 (continued)

To determine the fair value, KJPP Yanuar Bey and partners and KJPP Iwan Bachron and partners use the market approach methodology of SPI 2018-KPUP 15.2 using direct comparison method.

Revaluation Year 2022

In year 2022, the Bank performed revaluations of land. The valuations of land was performed by external independent appraisers of the KJPP Muttaqin, Bambang, Purwanto, Rozak, Uswatun and Partners, and Dasa'at Yudistira and Partners. The valuations are performed in accordance with and subject to the provisions of the General Concepts and Principles of Assessment article 17 in the SPI of year 2018.

In assessing the fair value of land, KJPP takes into account the ability of market participants to generate economic benefits with the highest and best use of assets or by selling assets to other market participants who will use assets in the highest conditions and best use. The valuation method used by KJPP is the market approach, income approach and cost approach. Based on the Appraisal Report from, KJPP Muttaqin, Bambang, Purwanto, Rozak, Uswatun and Partners (Signed by Ir. Muhammad Adil Muttaqin, M.Sc., MAPPI (Cert) with Registered Letter (STTD) STTD.PP-83/PM.2/2018) on 16 December 2022 and KJPP Dasa'at Yudistira and Partners (Signed by Dasa'at Alam Ratu, S.P., MAPPI (Cert) with Registered Letter (STTD) STTD.PP-93/PM.2/2018) on 19 December 2022, the value of fixed assets and the increase in value are as follows:

18. ASET TETAP (lanjutan)

b. Lain-lain (lanjutan)

3. Penilaian pada nilai wajar aset yang dimiliki Bank pada tanggal 31 Desember 2024 dan 2023 adalah untuk tanah dengan menggunakan nilai revaluasi (nilai buku), sedangkan untuk bangunan menggunakan Nilai Jual Objek Pajak (NJOP). Pada tanggal 31 Desember 2024, nilai buku tanah dan NJOP bangunan yang dimiliki Bank masing-masing bernilai Rp42.215.459 dan Rp5.906.576. Pada tanggal 31 Desember 2023, nilai buku tanah dan NJOP bangunan yang dimiliki Bank masing-masing sebesar Rp41.432.265 dan Rp5.409.575. Pada tanggal 1 November 2024 telah dilakukan pencatatan sebagian tanah Jl. Jenderal Sudirman Kav. 54-55, Jakarta Selatan yang sebelumnya belum tercatat dalam pembukuan Bank serta mengakui penambahan nilai tanah sebesar Rp241.455. Pada tanggal 5 Desember 2024, 16 Desember 2024 dan tanggal 23 Desember 2024 terdapat pencatatan nilai aset dalam rangka perubahan hak dari Hak Guna Bangunan menjadi Hak Milik untuk aset yang berlokasi di Jl. Tabanas, Helvetia Timur, Kota Medan, dan Perubahan Nama pada Sertipkat Hak Milik yang sebelumnya masih atas nama Perorangan menjadi atas nama Bank Mandiri untuk Jl. M.H Thamrin No. 5, Jakarta Pusat, dengan total nilai keseluruhan sebesar Rp422.
4. Nilai tanah Bank berdasarkan model biaya pada tanggal 31 Desember 2024 dan 2023 adalah masing-masing sebesar Rp6.397.188 dan Rp5.728.045.

Tabel di bawah ini menyajikan instrumen non-keuangan yang diakui pada nilai wajar berdasarkan hierarki yang digunakan Bank untuk menentukan dan mengungkapkan nilai wajar dari instrumen non-keuangan:

- (i) Tingkat 1: Dikutip dari harga pasar aktif untuk aset atau liabilitas yang identik;
- (ii) Tingkat 2: Teknik valuasi dimana seluruh input yang memiliki efek signifikan terhadap nilai wajar yang tercatat dapat diobservasi baik secara langsung atau tidak langsung;
- (iii) Tingkat 3: Teknik valuasi dimana seluruh input yang memiliki efek signifikan terhadap nilai wajar yang tercatat tidak dapat diobservasi dari data pasar.

18. FIXED ASSETS (continued)

b. Others (continued)

3. Assessment in the fair value of assets owned by the Bank on 31 December 2024 and 2023 uses revaluation method for lands and Sales Value of Taxable Object for Buildings ("NJOP"). As of 31 December 2024, the revaluation value of land and NJOP owned by the Bank was Rp42,215,459 dan Rp5,906,576, respectively. As of 31 December 2023, the revaluation value of land and NJOP owned by the Bank was Rp41,432,265 and Rp5,409,575 respectively. On November 1, 2024, a partial registration of land located at Jl. Jenderal Sudirman Kav. 54-55, South Jakarta, was made, which had previously not been recorded in the Bank's books, and an increase in land value of Rp241,455 was recognised. On 5 December 2024, 16 December 2024 and on 23 December 2024, asset values were recorded in connection with the transfer of rights from Building Use Rights to Ownership Rights for the asset located at Jl. Tabanas, Helvetia Timur, Medan City, and the change of name on the Ownership Rights certificate, which was previously in an individual's name, to the name of Bank Mandiri for the property at Jl. M.H Thamrin No. 5, Central Jakarta, with a total value of Rp422.
4. The value of land based on cost model as of 31 December 2024 and 2023 amounted to Rp6,397,188 and Rp5,728,045, respectively.

The table below presents non-financial instruments recognised at fair value based on the hierarchy used by the Bank to determine and disclose the fair value of non-financial instruments:

- (i) Level 1: Quoted prices on active markets for identical assets or liabilities;
- (ii) Level 2: Valuation technique in which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;
- (iii) Level 3: Valuation techniques in which all inputs have a significant effect on the recorded fair value that cannot be observed from market data.

FINANCIAL STATEMENTS**

31 DECEMBER 2024 AND 2023

(Expressed in millions of Rupiah, unless otherwise stated)

18. ASET TETAP (lanjutan)

b. Lain-lain (lanjutan)

4. Nilai wajar tingkat 2 dari tanah dihitung dengan menggunakan pendekatan perbandingan harga pasar dan estimasi pendapatan dan biaya yang dihasilkan oleh aset. Harga pasar dari tanah yang paling mendekati disesuaikan dengan perbedaan atribut utama seperti ukuran aset, lokasi dan penggunaan aset. Input yang paling signifikan dalam pendekatan penilaian ini adalah asumsi harga per meter.
5. Hak atas tanah diperoleh berdasarkan Sertifikat Hak Guna Bangunan ("HGB") yang dapat diperbaharui dengan masa yang akan berakhir antara tahun 2024 sampai tahun 2053. Mengacu pada praktik di masa lampau, Grup memiliki keyakinan dapat memperpanjang HGB tersebut.
6. Pada tanggal 31 Desember 2024, Bank Mandiri telah mengasuransikan aset tetap (tidak termasuk hak atas tanah, aset dalam pembangunan dan aset hak guna) untuk menutupi kemungkinan kerugian terhadap risiko kebakaran, pencurian dan bencana alam kepada PT Asuransi Wahana Tata, PLN Insurance, PT Asuransi Cakrawala Proteksi, PT Asuransi Astra Buana, dan PT Asuransi Umum Mega, keseluruhannya adalah pihak ketiga, PT Asuransi Kredit Indonesia, PT Asuransi Tugu Pratama Indonesia, PT Asuransi Jasa Raharja Putera, dan PT BRI Asuransi Indonesia, keseluruhannya adalah pihak berelasi, dengan nilai jumlah pertanggungan asuransi berkisar Rp11.532.100 (2023: Rp12.577.853). Manajemen berpendapat bahwa nilai pertanggungan tersebut telah memadai untuk menutupi kemungkinan kerugian yang terjadi atas aset tetap yang dipertanggungjawabkan. Aset tetap yang telah terdepresiasi penuh namun masih digunakan oleh Bank Mandiri antara lain berupa mesin-mesin kantor, peralatan percetakan, peralatan kantor dan perumahan.
7. Manajemen berpendapat tidak terdapat indikasi penurunan nilai atas aset tetap tanggal 31 Desember 2024 dan 2023.

18. FIXED ASSETS (continued)

b. Others (continued)

4. The fair value of land for level 2 is calculated using the comparison of market price approach and estimation of income and expenses generated by the asset. The market price of the land that most closely adjusted for differences in the primary attributes such as asset size, location and usage of assets. The most significant input in this assessment approach is the assumption of the price per meter.
5. Land rights acquired through Leasehold Certificate ("HGB") that can be renewed will expire between 2024 until 2053. Based on past experience, the Group believes that they can extend the HGB.
6. As of 31 December 2024, the Bank has insured its fixed assets (excluding land rights, construction in progress and the right of use assets) to cover potential losses against fire, theft and natural disaster to PT Asuransi Wahana Tata, PLN Insurance, PT Asuransi Cakrawala Proteksi, PT Asuransi Astra Buana, and PT Asuransi Umum Mega are all third-party entities, while PT Asuransi Kredit Indonesia, PT Asuransi Tugu Pratama Indonesia, PT Asuransi Jasa Raharja Putera, and PT BRI Asuransi Indonesia are related parties, with the total insured value amounting to approximately Rp11,532,100 (2023: Rp12,577,853). Management believes that the coverage value is adequate to cover potential losses that may occur on the insured fixed assets. The fixed assets that have been fully depreciated but are still used by Bank Mandiri include office machines, printing equipment, office equipment, and housing
7. Management believes that there is no indication on impairment of fixed assets as of 31 December 2024 and 2023.

Perangkat lunak diamortisasi selama umur ekonomis yaitu 5 tahun (Catatan 2.r.i).

Software is amortised over its economic useful life, which is 5 years (refer to Note 2.r.i).

Pada tanggal 31 Desember 2024 dan 2023, termasuk dalam aset takberwujud adalah aset brand Yokke dari Entitas Anak PT Mandiri Capital Indonesia (MCI) senilai Rp12.646 dan Rp24.318 (neto setelah akumulasi amortisasi) diamortisasi selama umur ekonomis 7 tahun dengan metode garis lurus.

As of 31 December 2024 and 2023, included in intangible assets is the Yokke brand assets from Subsidiary, namely PT Mandiri Capital Indonesia (MCI) amounted to Rp12,646 and Rp24,318 (net - accumulated amortisation) amortised over its economic useful life of 7 years using the straight-line method.

Pada tanggal 31 Desember 2024 dan 2023, aset dalam pembangunan masing-masing sebesar Rp4.017.152 dan Rp2.847.720. Estimasi persentase tingkat penyelesaian perangkat lunak pada tanggal 31 Desember 2024 adalah berkisar 5,00% - 85,00% (2023: 5,00% - 85,00%).

As of 31 December 2024 and 2023, construction in progress for software amounted to Rp4,017,152 and Rp2,847,720, respectively. The estimated percentage of completion of software as of 31 December 2024 was ranging between 5.00%- 85.00% (2023: 5.00% - 85.00%).

Goodwill merupakan nilai selisih antara nilai perolehan dan nilai wajar dari aset bersih yang diakuisisi. Pada tanggal 31 Desember 2024 dan 2023 senilai Rp519.286 dan Rp787.466. Secara berkala, goodwill dievaluasi terhadap penurunan nilai. Nilai terpulihkan Goodwill ditentukan berdasarkan perhitungan nilai pakai menggunakan model arus kas terdiskonto. Nilai terpulihkan tersebut dikategorikan berada dalam kategori pengukuran nilai wajar level 3. Asumsi kunci yang digunakan dalam perhitungan nilai pakai pada tanggal 31 Desember 2024 adalah tingkat pertumbuhan (3% - 3,81%) dan tingkat diskonto (CAPM) (9,86% - 10,76%).

Goodwill arises from the difference between the cost of acquisition with the fair value of Subsidiaries assets acquired. As of 31 December 2024 and 2023 amounting to Rp519,286 and Rp787,466, respectively. Goodwill is assessed regularly for impairment. The recoverable amount was determined based on value in use using a discounted cash flow model. The value is within the category of fair value measurement level 3. Certain key assumptions used in the value in use as at 31 December 2024 are Growth Rate (3% - 3.81%) and discount rate (CAPM) (9.86% - 10.76%).

Interbank *Mudharabah* Investment Certificate (SIMA) (continued)

On 27 June 2024 to 28 June 2024, the Subsidiary, PT Bank Syariah Indonesia provided a committed line facility through an Interbank *Mudharabah* Investment Certificate (SIMA) amounting to Rp930,000 with a maturity of less than one month with a ratio of around 6.1% - 6.48%. This facility is not guaranteed by special collateral, including not guaranteed by the Republic of Indonesia or other third parties.

Sukuk *Mudharabah Muqayyadah* I Phase I and II

On 26 June 2023, the Subsidiary (PT Bank Syariah Indonesia Tbk) has issued a long term Sukuk *Mudharabah Muqayyadah* without Public Offering I of PT Bank BSI Tbk for the Year 2023 Phase I ("Sukuk *Mudharabah Muqayyadah* I Phase I") with a nominal value of Rp3,759. On 26 March 2024, the Bank reissued Long-Term Restricted *Mudharabah* Sukuk Without Public Offering I PT Bank BSI Tbk Year 2023 Phase II ("Sukuk *Mudharabah Muqayyadah* I Phase II") with a nominal value of Rp7,762. On 20 December 2024, the Bank reissued Long-Term Restricted *Mudharabah* Sukuk Without Public Offering I PT Bank BSI Tbk Year 2023 Phase III ("Sukuk *Mudharabah Muqayyadah* I Phase III") with a nominal value of Rp7,969 with maximum limit of Rp100,000. The profit-sharing ratio is 36.34% indicating approximately 0.55% per annum. Profit sharing is paid on a quarterly basis and will mature on 26 December 2035 for Sukuk *Mudharabah Muqayyadah* I Phase I and 26 June 2036 Sukuk *Mudharabah Muqayyadah* I Phase II. The facility is not secured by any specific collateral, including not guaranteed by the Republic of Indonesia or any third parties.

The issuance of the sukuk is carried out as part of the collaboration between BSI and BP Tapera, where BSI is appointed as the Sharia Housing Financing Distributor to BP Tapera participants. This collaboration scheme is regulated under Law No. 4 year 2016 and Government Regulation No. 25 year 2020 regarding housing financing through Banks or financing companies.

PT Bank Mandiri (Persero) Tbk. and the Subsidiaries have paid the interest of debt securities issued in accordance to interest payment schedule during the period and year ended 31 December 2024 and 2023.

33. PERPAJAKAN (lanjutan)

d. Beban pajak - kini (lanjutan)

Pajak atas laba Bank Mandiri dan Entitas Anak (Grup) sebelum pajak berbeda dari nilai teoritis yang mungkin muncul apabila menggunakan rata-rata tertimbang tarif pajak terhadap laba pada Grup dalam jumlah sebagai berikut:

	<u>2024</u>	<u>2023</u>
Laba konsolidasian sebelum beban pajak dan kepentingan nonpengendali	76.403.486	74.684.881
Pajak dihitung dengan tarif pajak berlaku	13.895.689	15.418.957
Dampak pajak penghasilan pada: Bank Mandiri		
Penghasilan tidak kena pajak dan pajak final	(454.027)	(381.257)
Beban yang tidak dapat dikurangkan untuk tujuan perpajakan	232.504	128.219
Lain-lain	136.800	-
	<u>(84.723)</u>	<u>(253.038)</u>
Entitas Anak	1.427.400	(532.908)
Total dampak pajak penghasilan	<u>1.342.677</u>	<u>(785.946)</u>
Beban pajak penghasilan	<u>15.238.366</u>	<u>14.633.011</u>

Berdasarkan peraturan perpajakan di Indonesia, Bank Mandiri dan Entitas Anak menyampaikan Surat Pemberitahuan Pajak Tahunan ke kantor pajak atas dasar *self-assessment*. Kantor pajak berhak memeriksa atau mengoreksi pajak dalam jangka waktu 5 (lima) tahun setelah tanggal pajak terutang.

Undang-Undang Republik Indonesia Nomor 7 Tahun 2021 tanggal 29 Oktober 2021 tentang Harmonisasi Peraturan Perpajakan ("Undang-Undang Nomor 7 Tahun 2021") mengatur bahwa tarif pajak penghasilan Wajib Pajak badan dalam negeri dan bentuk usaha tetap adalah sebesar 22% (dua puluh dua persen) yang mulai berlaku pada tahun pajak 2022 dan seterusnya.

Berdasarkan Undang-Undang Republik Indonesia Nomor 7 Tahun 1983 tentang Pajak Penghasilan sebagaimana telah beberapa kali diubah terakhir dengan Undang-Undang Nomor 7 Tahun 2021 dan Peraturan Pemerintah Republik Indonesia Nomor 55 Tahun 2022 tanggal 20 Desember 2022 tentang Penyesuaian Pengaturan di Bidang Pajak Penghasilan, Wajib Pajak dalam negeri yang berbentuk Perseroan Terbuka dengan jumlah keseluruhan saham yang disetor diperdagangkan pada bursa efek di Indonesia paling sedikit 40% (empat puluh persen) dan memenuhi persyaratan tertentu, dapat memperoleh tarif sebesar 3% (tiga persen) lebih rendah dari tarif tertinggi pajak penghasilan yang ada.

33. TAXATION (continued)

d. Tax expense - current (continued)

Tax on Bank Mandiri and Subsidiaries (Group)'s profit before tax differs from the theoretical amount that would arise using the weighted average tax rate applicable to profits on the consolidated entities are follows:

Consolidated income before tax expense and non-controlling interest
Tax calculated at applicable tax rates
Income tax effect of: Bank Mandiri
Income not subject to tax and final tax
Expenses not deductible for tax purposes
Others
Subsidiaries
Total tax effect
Income tax expense

According to the taxation laws of Indonesia, Bank Mandiri and Subsidiaries submit the Annual Corporate Income Tax Returns to the tax office on the basis of self assessment. The Directorate General of Tax may assess or amend taxes within 5 (five) years from the tax due date.

Law of the Republic of Indonesia Number 7 Year 2021 dated 29 October 2021 regarding Harmonization of Tax Regulations ("Law Number 7 Year 2021") stipulates that the income tax rate for domestic corporate taxpayers and permanent establishments is 22% (twenty two percent) with effect from the 2022 fiscal year onwards.

Based on Law of the Republic of Indonesia Number 7 Year 1983 regarding Income Tax as amended several times, most recently by Law Number 7 Year 2021 and Government Regulation of the Republic of Indonesia Number 55 Year 2022 dated 20 December 2022 regarding Amendment of Regulations related to Income Tax Sector, domestic taxpayers in the form of public listed companies with the total number of paid-up shares traded on the stock exchange in Indonesia at least 40% (forty percent) and fulfilling certain requirements, may obtain a rate of 3% (three percent) lower than the highest existing income tax rate.

33. PERPAJAKAN (lanjutan)

d. Beban pajak - kini (lanjutan)

Berdasarkan Peraturan Menteri Keuangan Republik Indonesia Nomor 40 Tahun 2023 tanggal 11 April 2023 tentang Bentuk dan Tata Cara Penyampaian Laporan Serta Daftar Wajib Pajak Dalam Rangka Pemenuhan Persyaratan Penurunan Tarif Pajak Penghasilan Bagi Wajib Pajak Dalam Negeri Yang Berbentuk Perseroan Terbuka, Wajib Pajak harus menyampaikan laporan bulanan kepemilikan saham atas emiten atau perusahaan publik dan rekapitulasi yang telah dilaporkan dari Biro Administrasi Efek dan laporan kepemilikan saham yang memiliki hubungan istimewa sebagai bagian dari SPT Tahunan PPh untuk setiap Tahun Pajak.

Berdasarkan Surat Keterangan No. DE//2025-0197 tanggal 6 Januari 2025 perihal Laporan Bulanan Kepemilikan Saham Emiten atau Perusahaan Publik dan Rekapitulasi yang Telah Dilaporkan (Formulir Lampiran POJK No. 10/POJK.04/2020) dari PT Datindo Entrycom (Biro Administrasi Efek atau BAE), yang disampaikan kepada Bank Mandiri, dimana BAE menyatakan Bank Mandiri telah memenuhi ketentuan Pasal 65 Peraturan Pemerintah Republik Indonesia Nomor 55 Tahun 2022 tanggal 20 Desember 2022 tentang Penyesuaian Pengaturan di Bidang Pajak Penghasilan. Peraturan Menteri Keuangan Republik Indonesia Nomor 40 Tahun 2023.

Bank berkeyakinan bahwa Bank akan memenuhi persyaratan untuk memperoleh fasilitas penurunan tarif pajak penghasilan untuk tahun yang berakhir pada 31 Desember 2024 sesuai ketentuan perpajakan tersebut di atas, sehingga untuk pajak penghasilan badan Bank Mandiri untuk tahun yang berakhir pada tanggal 31 Desember 2024 dihitung dengan menggunakan tarif pajak 19%.

Berdasarkan Peraturan Menteri Keuangan Republik Indonesia Nomor 136 Tahun 2024 ("PMK-136") tentang Pengenaan Pajak Minimum Global Berdasarkan Kesepakatan Internasional, ketentuan pengenaan pajak minimum global akan mulai berlaku di Indonesia, yurisdiksi di mana Bank didirikan, pada tanggal 1 Januari 2025. Karena PMK-136 tidak berlaku pada tanggal pelaporan, Grup tidak memiliki eksposur pajak kini terkait. Grup menerapkan pengecualian PSAK 212 untuk mengakui dan mengungkapkan informasi tentang aset dan liabilitas pajak tangguhan yang terkait dengan pajak penghasilan Pilar Dua. Sampai dengan tanggal otorisasi laporan keuangan konsolidasian ini, Grup saat ini masih menilai dampak terhadap penerapan peraturan tersebut.

33. TAXATION (continued)

d. Tax expense - current (continued)

Based on the Regulation of the Minister of Finance of the Republic of Indonesia Number 40 Year 2023 dated 11 April 2023 concerning Forms and Procedures for Submitting Reports and Lists of Taxpayers regarding to Fulfilment of Requirements for Reduction of Income Tax Rates for Domestic Taxpayers in the Form of Public Companies, taxpayers must submit monthly reports on share ownership of issuers or public companies and recapitulations that have been reported from the Securities Administration Bureau and reports of share ownership that have special relations as part of the Annual Income Tax Return for each Fiscal Year.

Based on Statement Letter No. DE//2025-0197 dated 6 January 2025 concerning Monthly Report of Share Ownership of Issuers or Public Companies and Reported Recapitulation (Form of POJK Appendix No. 10/POJK.04/2020) from PT Datindo Entrycom (Administrative Bureau Securities or BAE), which was submitted to Bank Mandiri, where the BAE stated that Bank Mandiri had complied with the provisions of Article 65 of Government Regulation of the Republic of Indonesia No. 55 Year 2022 dated 20 December 2022 regarding Amendment of Regulations related to Income Tax Sector. Regulation of the Minister of Finance of the Republic of Indonesia Number 40 Year 2023.

The Bank believes that the Bank will fulfil the requirements to obtain the income tax rate reduction facility for the year ended 31 December 2024 in accordance with the tax provisions mentioned above, so that Bank Mandiri's corporate income tax for the year ended 31 December 2024 is calculated using the tax rate 19%.

Based on the Regulation of the Minister of Finance of the Republic of Indonesia Number 136 Year 2024 ("PMK-136") concerning the Imposition of Global Minimum Tax Based on International Agreements, the provisions for the imposition of global minimum tax will come into force in Indonesia, the jurisdiction where the Bank is incorporated, on 1 January 2025. Since PMK-136 is not effective at the reporting date, the Group does not have related current tax exposures. The Group applies the PSAK 212 exemption to recognise and disclose information on deferred tax assets and liabilities related to the Pillar Two income taxes. As of the authorisation date of these consolidated financial statements, the Group is currently still assessing the impact on the implementation of the regulation.

33. PERPAJAKAN (lanjutan)

e. Aset pajak tangguhan - neto (lanjutan)

Berdasarkan Peraturan Menteri Keuangan Republik Indonesia Nomor 74 Tahun 2024 ("PMK-74") tentang Pembentukan Cadangan Piutang Tak Tertagih yang Boleh Dikurangkan dari Penghasilan Bruto, terdapat perubahan pada ketentuan perhitungan penyisihan piutang tak tertagih yang boleh dikurangkan dari penghasilan bruto. Selisih lebih antara saldo awal cadangan piutang tak tertagih tahun 2024 yang dihitung menggunakan PMK-74 dan saldo akhir cadangan piutang tak tertagih tahun 2023 yang dihitung menggunakan peraturan sebelumnya akan diakui oleh Bank sebagai beban yang dapat dikurangkan pada tahun fiskal 2024 dan 2025. Terkait dengan hal tersebut, aset pajak tangguhan yang dimanfaatkan Bank pada tahun fiskal 2024 adalah sebesar Rp1.301.982.

f. Surat ketetapan pajak

Tahun pajak 2015

Berdasarkan hasil pemeriksaan pajak oleh Kantor Pajak, pada tanggal 26 November 2019, Bank telah menerima Surat Ketetapan Pajak Kurang Bayar (SKPKB) atas PPh Badan untuk tahun fiskal 2015 sebesar Rp918.160 (termasuk denda) dimana yang disetujui oleh Bank hanya sebesar Rp201.197 dan dicatat sebagai beban pajak kini - tahun sebelumnya di laporan laba rugi konsolidasi tahun 2019. Pada tanggal 5 Desember 2019, Bank telah melakukan pembayaran atas seluruh SKPKB PPh Badan dan telah mengajukan surat keberatan atas SKPKB PPh Badan yang tidak disetujui sebesar Rp716.963 ke Kantor Pajak pada tanggal 20 Februari 2020.

Pada tanggal 26 November 2019, Bank juga menerima SKPKB atas PPh Pasal 21, PPh Pasal 23 dan PPh Pasal 4 ayat (2) sebesar Rp28.255 (termasuk denda) dan Pajak Pertambahan Nilai (PPN) berikut Surat Tagihan Pajak (STP) sebesar Rp247.544 (termasuk denda) untuk tahun fiskal 2015. Pada tanggal 5 Desember 2019, Bank telah melakukan pembayaran atas seluruh SKPKB tersebut. Bank tidak akan mengajukan keberatan atas SKPKB PPh Pasal 21, PPh Pasal 23 dan PPh Pasal 4 ayat (2) sebesar Rp28.255 dan telah mengajukan surat keberatan atas SKPKB PPN sebesar Rp247.544 ke Kantor Pajak pada tanggal 20 Februari 2020.

33. TAXATION (continued)

e. Deferred tax assets - net (continued)

Based on the Regulation of the Minister of Finance of the Republic of Indonesia Number 74 Year 2024 ("PMK-74") concerning the Establishment of Reserves for Uncollectible Receivables that Can Be Deductible from Gross Income, there are changes to the provisions for calculating the allowance for uncollectible receivables that can be deducted from gross income. The excess difference between the initial balance of the 2024 uncollectible receivables reserve calculated using PMK-74 and the final balance of the 2023 uncollectible receivables reserve calculated using the previous regulation will be recognised by the Bank as a deductible expense in the 2024 and 2025 fiscal years. Related to this, the deferred tax assets utilized by the Bank in fiscal year 2024 are Rp1,301,982.

f. Tax assessment letter

Fiscal year 2015

According to the tax audit result from Tax Office, on 26 November 2019, the Bank received Underpayment Tax Assessment Letter (SKPKB) of Corporate Income Tax for fiscal year 2015 amounted to Rp918,160 (including penalties) which accepted by Bank amounted to Rp201,197 only and recorded as current tax expense - prior year in the 2019 consolidated statement of profit or loss. On 5 December 2019, the Bank has paid all of the underpayment and has submitted an objection letter on the SKPKB of Corporate Income Tax amounted to Rp716,963 to the Tax Office on 20 February 2020.

On 26 November 2019, the Bank also received Underpayment Tax Assessment Letter (SKPKB) for income tax article 21, 23 and 4 paragraph (2) amounted to Rp28,255 (including penalties) and Value Added Tax (VAT) and Surat Tagihan Pajak (STP) amounted to Rp247,544 (including penalties) for 2015 fiscal year. On 5 December 2019, the Bank has paid the entire SKPKB. Bank will not file an objection to SKPKB PPh Article 21, PPh Article 23 and PPh Article 4 paragraph (2) amounted to Rp28,255 and has submitted an objection letter to the SKPKB VAT amounted to Rp247,544 to the Tax Office on 20 February 2020.

33. PERPAJAKAN (lanjutan)

f. Surat ketetapan pajak (lanjutan)

Tahun pajak 2015 (lanjutan)

Jumlah pembayaran atas SKPKB yang tidak disetujui diatas sebesar Rp964.507 dimana Bank telah mengajukan keberatan, dicatat sebagai pajak dibayar dimuka pada tanggal 31 Desember 2021 dan 2020.

Pada tanggal 26 Januari 2021, Bank telah menerima hasil putusan keberatan PPh Badan untuk tahun fiskal 2015, yang mengurangi jumlah pajak dalam surat keberatan dari Rp716.963 menjadi Rp544.853. Bank juga telah menerima hasil putusan keberatan PPN untuk tahun fiskal 2015, yang mengurangi jumlah pajak dalam surat

keberatan dari Rp247.544 menjadi Rp221.199. Bank tidak setuju dengan hasil putusan keberatan dan telah mengajukan banding ke Pengadilan Pajak pada tanggal 16 April 2021.

Pada tanggal 9 Juni 2023, Pengadilan Pajak telah membacakan putusan banding PPh Badan dan PPN. Pengadilan Pajak mengabulkan seluruhnya permohonan banding PPh Badan, yang mengurangi jumlah pajak dalam surat banding dari Rp544.853 menjadi RpNihil. Pengadilan Pajak juga mengabulkan seluruhnya permohonan banding PPN, yang mengurangi jumlah pajak dalam surat banding dari Rp221.199 menjadi RpNihil. Pada tanggal 15 September 2023, Kantor Pajak mengajukan permohonan peninjauan kembali ke Mahkamah Agung atas Putusan Banding PPh Badan. Sehubungan dengan adanya Permohonan Peninjauan Kembali tersebut, Bank telah memberikan jawaban dalam bentuk Kontra Memori Peninjauan Kembali kepada Mahkamah Agung pada tanggal 18 Oktober 2023, yang menyatakan bahwa putusan Pengadilan Pajak telah sesuai dengan ketentuan peraturan perundang-undangan yang berlaku.

Pada tanggal 6 Agustus 2024, Mahkamah Agung telah memutuskan menolak Permohonan Peninjauan Kembali yang diajukan Kantor Pajak terhadap Putusan Banding atas PPh Badan, dengan mempertahankan Putusan Banding yang mengurangi jumlah pajak dari Rp544.853 menjadi RpNihil.

33. TAXATION (continued)

f. Tax assessment letter (continued)

Fiscal year 2015 (continued)

The total payment for the SKPKB that was not approved above amounted to Rp964,507 where the Bank has filed an objection, and recognised as prepaid tax on 31 December 2021 and 2020.

On 26 January 2021, the Bank has received the decision on the objection to Corporate Income Tax (CIT) for the 2015 fiscal year, which reduces the amount of tax in the objection letter from Rp716,963 to Rp544,853. The Bank also received the decision on the VAT objection for the 2015 fiscal year, which reduced the amount of tax in the

objection letter from Rp247,544 to Rp221,199. The Bank does not agree with the objection decision and has submitted an appeal to the Tax Court on 16 April 2021.

On 9 June 2023, the Tax Court read the verdict of the appeal for Corporate Income Tax (CIT) and Value Added Tax (VAT). The Tax Court fully granted the CIT appeal, which reduced the amount of tax in the appeal letter from Rp544,853 to RpNil. The Tax Court also fully granted the VAT appeal, which reduced the amount of tax in the appeal letter from Rp221,199 to RpNil. On 15 September 2023, the Tax Office submitted judicial review to the Supreme Court regarding the Tax Court decision on CIT. In relation to the Judicial Review, the Bank has submitted response in the form of Counter Memorial of Judicial Review to the Supreme Court on 18 October 2023, stating that the Tax Court decision is in accordance with the applicable laws and regulations.

On 6 August 2024, the Supreme Court denied the Judicial Review requested by the Tax Office regarding the Appeal Decision on Corporate Income Tax, by upholding the Appeal Decision which reduced the amount of tax from Rp544,853 to RpNil.

(Expressed in millions of Rupiah, unless otherwise stated)

33. PERPAJAKAN (lanjutan)

f. Surat ketetapan pajak (lanjutan)

Tahun pajak 2016

Berdasarkan hasil pemeriksaan pajak oleh Kantor Pajak, pada tanggal 17 November 2020, Bank telah menerima Surat Ketetapan Pajak Kurang Bayar (SKPKB) atas PPh Badan untuk tahun fiskal 2016 sebesar Rp1.293.817 (termasuk denda) dimana yang disetujui oleh Bank hanya sebesar Rp175.592 dan dicatat sebagai beban pajak kini - tahun sebelumnya di laporan laba rugi konsolidasi tahun 2020. Pada tanggal 27 November 2020, Bank telah melakukan pembayaran atas seluruh SKPKB PPh Badan sebesar Rp1.118.225 ke Kantor Pajak.

Pada tanggal 17 November 2020, Bank juga menerima SKPKB atas PPh Pasal 21 sebesar Rp31.492 dan Pajak Pertambahan Nilai (PPN) berikut Surat Tagihan Pajak (STP) sebesar Rp128.766 (termasuk denda) untuk tahun fiskal 2016. Pada tanggal 27 November 2020, Bank telah melakukan pembayaran atas seluruh SKPKB tersebut. Bank tidak akan mengajukan keberatan atas SKPKB PPh Pasal 21 sebesar Rp31.492 dan SKPKB PPN sebesar Rp128.766. Seluruh kurang bayar tersebut dibebankan ke laporan laba rugi konsolidasian tahun 2020.

Jumlah pembayaran atas SKPKB yang tidak disetujui di atas sebesar Rp1.118.225 dimana Bank mengajukan keberatan, dicatat sebagai pajak dibayar dimuka pada tanggal 31 Desember 2021. Bank telah mengajukan surat keberatan atas SKPKB PPh Badan yang tidak disetujui sebesar Rp1.118.225 ke Kantor Pajak pada tanggal 10 Februari 2021.

Pada tanggal 7 Februari 2022, Bank telah menerima hasil putusan keberatan PPh Badan, yang mengurangi jumlah pajak dalam surat keberatan dari Rp1.118.225 menjadi Rp213.760. Pada tanggal 21 Maret 2022, Bank telah menerima pengembalian pajak atas hasil putusan keberatan PPh Badan tersebut sebesar Rp909.489 dan dicatat sebagai pengurang pembayaran pajak dibayar dimuka. Bank tidak setuju dengan hasil putusan keberatan dan telah mengajukan banding ke Pengadilan Pajak pada tanggal 28 April 2022. Sampai dengan tanggal otorisasi laporan keuangan konsolidasian ini, proses banding di Pengadilan Pajak masih berlangsung.

33. TAXATION (continued)

f. Tax assessment letter (continued)

Fiscal year 2016

Based on the result of the tax audit from Tax Office on 17 November 2020, the Bank has received an Underpayment Tax Assessment (SKPKB) on Corporate Income tax for the 2016 fiscal year amounted to Rp1,293,817 (including penalties), which was accepted by the Bank for only Rp175,592 and recorded as current tax expense - prior year in the 2020 consolidated statement of profit or loss. On 27 November 2020, Bank has paid all SKPKB Corporate Income Tax and has submitted an objection letter for the SKPKB amounted to Rp1,118,225 to the Tax Office.

On 17 November 2020, the Bank also received SKPKB on Income Tax Article 21 amounted to Rp31,492 and Value Added Tax (VAT) also the tax collection letter (STP) amounted to Rp128,766 (including penalties) for the 2016 fiscal year. On 27 November 2020, Bank has paid all the SKPKB, and will not submit an objection to SKPKB Article 21 amounted to Rp31,492 and SKPKB VAT amounted to Rp128,766. All underpayments are charged to the 2020 consolidated statement of profit or loss.

The total payment for the SKPKB that was not approved above amounted to Rp1,118,225 where the Bank filed an objection, was recorded as prepaid tax on 31 December 2021. The Bank has submitted an objection letter to the SKPKB for Corporate Income Tax (CIT) which was not approved amounted to Rp1,118,225 to Tax Office on 10 February 2021.

On 7 February 2022, the Bank received the decision on objection to CIT which reduced the amount of tax in the objection letter from Rp1,118,225 to Rp213,760. On 21 March 2022, the Bank received a tax refund for the objection to Corporate Income Tax in the amount of Rp909,489 and recorded it as a deduction from prepaid tax payments. The Bank did not agree with the results of the objection decision and has submitted an appeal to the Tax Court on 28 April 2022. As of the authorisation date of these consolidated financial statements, the appeal process at the Tax Court is still ongoing.

Total	10.703.131	9.082.867	Total
	40.131.500	37.399.213	

Liabilitas kepada pemegang polis terdiri dari liabilitas Entitas Anak (2024: PT AXA Mandiri Financial Services, 2023: PT AXA Mandiri Financial Services dan PT Asuransi Jiwa Inhealth Indonesia) sebagai berikut:

Liabilities to policyholders consist of liabilities of the Subsidiary (2024: PT AXA Mandiri Financial Services, 2023: PT AXA Mandiri Financial Services and PT Asuransi Jiwa Inhealth Indonesia) as follows:

	2024	2023	
Manfaat polis masa depan dari produk <i>non unit-link</i>	7.001.569	5.545.895	<i>Future policy benefits from non unit-link products</i>
Utang klaim	198.737	287.424	<i>Claim payables</i>
Estimasi liabilitas klaim	168.985	423.837	<i>Estimated claim liabilities</i>
Premi yang belum merupakan pendapatan	105.310	569.282	<i>Unearned premiums</i>
Total	7.474.601	6.826.438	Total

Liabilitas manfaat polis masa depan adalah jumlah dana yang harus disediakan oleh penanggung untuk membayar manfaat dan klaim di masa yang akan datang kepada pihak sebagaimana dinyatakan dalam polis. Perubahan liabilitas manfaat polis masa depan diakui dalam laba rugi tahun berjalan. Liabilitas manfaat polis masa depan telah dihitung menggunakan metode *Gross Premium Reserve* maupun metode harian. Asumsi-asumsi yang dipakai untuk menghitung cadangan liabilitas masa depan pemegang polis dengan *Gross Premium Reserve* adalah berdasarkan asumsi estimasi terbaik tahun 2024 yang meliputi asumsi tingkat mortalita, morbidita, tingkat pembatalan polis, biaya, tingkat inflasi, dan tingkat suku bunga.

Liability for future policy benefits is the amount of funds that must be provided by the insurer to pay benefits and claims in the future to the party as stated in the policy. Changes in liability for future policy benefits are recognised in profit or loss for the year. Liability for future policy benefits has been calculated using the Gross Premium Reserve method and the daily method. The assumptions used to calculate future liability reserves for policyholders with Gross Premium Reserves are based on the best estimate assumptions for 2024 which include assumptions on mortality, morbidity, lapses expenses, inflation rates and interest rates.

Premi yang belum merupakan pendapatan adalah bagian dari premi yang belum diakui sebagai pendapatan karena masa pertanggungannya masih berjalan pada akhir tahun. Cadangan atas premi yang belum merupakan pendapatan dihitung dengan menggunakan metode amortisasi harian dengan mempertimbangkan masa pertanggungannya polis yang dihitung oleh aktuaris.

Unearned premiums are the portion of premiums that have not been recognised as income because the coverage period is still running at the end of the year. Reserves for unearned premiums are calculated using the daily amortisation method with consideration for the policy coverage period as calculated by the actuary.

35. LIABILITAS LAIN-LAIN (lanjutan)

Estimasi liabilitas klaim adalah estimasi liabilitas atas klaim-klaim asuransi yang telah terjadi, yaitu klaim-klaim yang belum diajukan oleh *provider*, serta klaim-klaim yang sudah diterima namun belum ditentukan nilai gantinya.

Utang klaim adalah utang atas klaim-klaim asuransi yang telah diterima dan disetujui.

Liabilitas dana pensiun dan JHT pensiun merupakan Liabilitas Entitas Anak (PT Bank Mandiri Taspen) kepada pensiunan, dimana Entitas Anak berperan sebagai penyalur dana pensiun dari nasabah Entitas Anak kepada pensiunan nasabah.

Utang transaksi nasabah sebagian besar terdiri dari utang yang timbul dari transaksi perdagangan efek Entitas Anak.

Term Deposits Valas Devisa Hasil Ekspor merupakan suatu instrumen dimana dana devisa hasil ekspor dari rekening khusus eksportir ditempatkan pada Bank Indonesia melalui rekening Bank sesuai mekanisme pasar.

Liabilitas terkait dengan transaksi ATM dan kartu kredit terdiri dari liabilitas atas transaksi ATM dalam jaringan ATM Bersama, ATM *Link* dan ATM Prima dan liabilitas kepada *Visa* dan *Master Card* dan JCB untuk transaksi kartu kredit.

Liabilitas terkait dengan *unit-link* merupakan liabilitas *unit-link* kepada pihak ketiga dan liabilitas pemegang dana *unit-link* Entitas Anak (PT AXA Mandiri Financial Services).

Liabilitas terkait dengan transaksi transfer nasabah terdiri dari transaksi pengiriman uang yang masih harus diselesaikan dalam berbagai mata uang dari dan atau ke rekening nasabah.

Setoran jaminan merupakan jaminan uang tunai yang disetorkan oleh nasabah atas transaksi ekspor, impor dan penerbitan bank garansi.

Liabilitas kepada *dealer* merupakan liabilitas Entitas Anak (PT Mandiri Tunas Finance dan PT Mandiri Utama Finance) kepada *dealer* kendaraan bermotor terkait pembiayaan yang diberikan Entitas Anak kepada nasabah.

Pendapatan diterima dimuka yang teratribusi secara langsung terdiri dari pendapatan provisi/komisi kredit dan piutang/pembiayaan syariah yang terkait langsung dengan pemberian kredit dan piutang/pembiayaan syariah yang belum diamortisasi.

35. OTHER LIABILITIES (continued)

Estimated claim liability is estimated liability for insurance claims that have occurred, which are claims that have not been submitted by the provider, as well as claims that have been received but the replacement value has not been determined.

Claims payable is an payable of insurance claims that have been received and approved.

Pension fund and pension plan liabilities are liabilities of a subsidiary (PT Bank Mandiri Taspen) to retirees, where the Subsidiary acts as a distributor of pension funds from the Subsidiary's customers to the retirees of those customers.

Customer transaction payables mostly consist of payables arising from securities trading transactions of Subsidiaries.

Foreign Exchange Term Deposits from Export Activities is an instrument where foreign exchange from export proceeds from exporters' special account are placed in Bank Indonesia through Bank's accounts in accordance with market mechanisms.

Liabilities related to ATM and credit card transactions consist of liabilities from ATM transactions within ATM Bersama, ATM Link and ATM Prima network and liabilities to Visa and Master Card and JCB for credit card transactions.

Liabilities related to unit-link represents unit-link liabilities to third parties and liabilities to unit-link fund holders of Subsidiary (PT AXA Mandiri Financial Services).

Liabilities related to customers' transfer transactions represent transfer funds in various currencies that need to be settled from or to customers' accounts.

Guarantee deposit is a cash guarantee deposited by customers related to export, import transaction and issuance of bank guarantees.

Liabilities to dealers are liabilities of the Subsidiaries (PT Mandiri Tunas Finance and PT Mandiri Utama Finance) to motor vehicle dealers related to financing provided by the Subsidiaries to customers.

Directly attributable deferred income consists of income from provisions/commissions of loans and sharia receivables/financing which directly attributable to unamortised loans and sharia receivables/financing granted.
